

Learning, Earning and Investing

Geared to Grades 4-12

Do watching business news and stock market trading drive you to kitchen cupboard looking for comfort food? Not surprising - it's a complex world with very real implications to your family's financial welfare. How prepared are your students (and children!) to handle major financial decisions as they emerge? Help has arrived! You will be using great curriculum materials and explore the vast array of investment opportunities – mutual funds, stocks, bonds, and more – and assess your risk vs. return tolerances. With tools in hand, you'll be better prepared to develop personal strategies for achieving goals and building lasting wealth. And as important, feel comfortable guiding your students through a similar process. You will receive either the middle or high school curriculum guide, "Learning, Earning and Investing." The companion website offers a wide array of current data, investment education links, downloadable visuals, interactive lessons and classroom-tested print lessons. Instructor: Linda Spencer

DATES: June 9-August 1, 2008
CREDIT: 2 Graduate ED Semester Hours
TUITION: \$326 + \$22 Materials fee = \$348
