Accreditations/Associations/Memberships

**Accreditations**

Ashland University is accredited by The Higher Learning Commission. Authorization to grant bachelor, master and doctor degrees comes from the Ohio Department of Higher Education (formerly known as the Ohio Board of Regents).

In addition, individual programs are accredited by:  
- Association of Theological Schools (ATS)  
- Accreditation Council for Business Schools and Programs (ACBSP), including specialized accreditation in accounting.  
- American Chemical Society (ACS)  
- Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND)  
- Commission on Accreditation of Athletic Training Education (CAATE)  
- National Council for Accreditation of Teacher Education (NCATE)  
- National Association of Schools of Music (NASM)  
- Council on Social Work Education (baccalaureate level)  
- Commission on Collegiate Nursing Education (CCNE)  
- Commission on English Language Program Accreditation (CEA) for the ACCESS Program.

**Approvals**

- Ohio Board of Nursing  
- Ohio Department of Higher Education (formerly known as the Ohio Board of Regents)

**University Memberships**

AU holds membership in the American Association of Colleges of Nursing, National Collegiate Honors Council, Institute of International Education, NAFSA: Association of International Educators, the National Collegiate Athletic Association, and Association of Independent Liberal Arts Colleges for Teacher Education.

Ashland University is also a member of the Ohio Foundation of Independent Colleges, Association of Independent Colleges and Universities of Ohio, Academy of Nutrition and Dietetics, Ohio Association of Colleges for Teacher Education, Ohio Association of Private Colleges for Teacher Education; Ohio Campus Compact, Consortium for Overseas Student Teaching (COST); Association of Governing Boards; National Association of Independent Colleges and Universities (NAICU); Council of Independent Colleges (CIC); Ohio Newspaper Association. The American Association of College of Nursing (AACN); Northeast Ohio Nursing Initiative (NEONI); and National Organization of Nurse Practitioner Faculties (NONPF).

Departments hold memberships in the American Alliance for Health; American Association of Intensive English Programs; American Council on the Teaching of Foreign Languages; American Hotel and Lodging Educational Foundation; Associated Writing Programs; Broadcast Education Association; Foundation in Art: Theory and Education; National Communication Association; Ohio Association for Health; Ohio Association of Broadcasters; Ohio Biological Survey; Ohio Council of Deans and Directors of Baccalaureate and Higher Degree Nursing Programs; and Ohio League of Nursing.

**Student Memberships**

Ashland University has membership in Alpha Gamma Omega Nu; Alpha Lambda Delta, Honor Society for Freshmen; Alpha Phi Sigma, National Honor Society in Criminal Justice; Alpha Psi Omega, National Honor Society in Theatre; Beta Beta Beta, National Honor Society in Biology; Delta Mu Delta, International Honor Society in Business; Kappa Delta Pi, International Honor Society in Education; Omicron Delta Epsilon, the International Economics Honor Society; Phi Alpha, National Social Work Honor Society; Phi Alpha Theta, International Honor Society in History; Phi Sigma Iota, Gamma Tau chapter, International Foreign Language Honor Society; Phi Sigma Tau, International Honor Society in Philosophy; Pi Mu Epsilon, National Honor Society in Mathematics; Pi Sigma Alpha, National Honor Society in Political Science; Psi Chi, International Honor Society in Psychology; Sigma Gamma Epsilon, National Honor Society in Geology; Sigma Tau Delta, International English Honor Society; Sigma Theta Tau, RhoNu Chapter; Theta Alpha Kappa, National Honor Society for Religious Studies and Theology; and Upsilon Pi Epsilon, International Honor Society for the Computing and Information Disciplines.

**Ashland University Rights**

The provisions of this catalog are to be considered directive in nature and are not to be regarded as an irrevocable contract between the student and Ashland University. The university reserves the right to make, at any time, the changes it deems advisable in the offerings, regulations and fees stated in this catalog.

Because these rules and regulations are intended to guide the student's progress through the university, each student has the obligation to become familiar with the contents of this catalog and follow the directives as stated.

**Individual Rights**

Ashland University is an Equal Opportunity Institution and reasonable efforts will be made to accommodate all students regardless of disabilities, sex, age, race, color, religion, and national or ethnic origin, as per Section 504 of the Rehabilitation Act of 1973, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975 and the Americans with Disabilities Act of 1990. Each applicant for admission to Ashland University is considered on individual merit. Each applicant's record is reviewed for academic achievement, aptitude and interest in order to admit those students who possess the ability and motivation to benefit from their enrollment at Ashland University.

**Family Educational Rights and Privacy Act**

The purpose of the Act is to require educational institutions and agencies to conform to fair information practices. Ashland University will not release personally identifiable student records on file without prior student consent. Exceptions to this are (1) Ashland University school officials or teachers who have a legitimate educational interest in the student; (2) another school to which the student has applied and intends to enroll; (3) authorized federal and state officials; (4) persons dealing with a student's application for financial aid; and/or (5) parents. It is Ashland University policy that no data from student records be provided to non-university agencies for mailing purposes.
Inquiries regarding compliance may be directed to the Office of Records and Registration, Ashland University, 401 College Ave., Ashland, Ohio 44805.

**Directory Information**

In accordance with the Federal Educational Rights and Privacy Act of 1974 (FERPA), Ashland University has listed the following data items as "Directory Information" and may release this information for those enrolled without a student’s consent. For clarification or questions you may contact the Office of Records and Registration.

- Name
- Local Mailing Address
- Home Address
- Phone Number
- Date and Place of Birth
- Parent’s Name and Mailing Address
- Email Address
- Major
- Class
- Center Attended
- Dates of Attendance
- Full, Half, Part time Status
- Degrees and Awards Received
- Previous Institutions Attended
- Participation in fully recognized activities and sport
- Photographs, weight, and height of athletic team members

**Student Right to Know Act**

In accordance with guidelines for the Student Right to Know Act, Ashland University had a six-year graduation rate of 62.5% for the first-time full-time freshmen who entered in fall 2010.

Ashland University
401 College Avenue
Ashland, Ohio 44805

Switchboard 419-289-4142
In Ohio 1-800-882-1548
Welcome to Ashland University. Ashland was founded with a clear sense of serving others through quality educational programs, and, as you read through these pages, you are sure to find that the heart of the University still focuses on quality and serving the individual, nearly 140 years after it was established. As with any catalog, you will also find the information here that you need to navigate our many offerings, and gain insight about the Ashland University campus experience. You will read our mission, vision and values, find information on our academic programs, tuition, and so much more. Yet, we hope that you will also gain a sense of who we are, because it is the people of Ashland University, each created to fulfill a particular, God-given purpose, that make it so special.

Ashland University has a rich tradition that combines respect for each individual through a commitment to Judeo-Christian values. Ashland University’s emphasis on the unique educational interests and trajectory of every student, reflected in our recurring motto, “Accent on the Individual,” has created a campus environment that is compassionate, responsive and challenging. We are focused on the “main thing”: Educating students to their highest potential so that they can reach their goals in life. We focus on serious ideas, and are serious about learning.

Established on 150 acres and set in one of the state’s most picturesque regions, AU has much of which to be proud: a faculty committed to teaching excellence; a fine staff; an exceptional student body; one of the best athletic programs in the state; fine facilities; distinguished alumni; and a community that recognizes our safe campus as a vital educational, economic, and cultural resource for Northeast Ohio.

One of Ashland University’s great strengths is our rich tradition. From our humble founding in 1878 to the present day, our primary focus is on our students’ success. Our highly qualified faculty and staff offer programs that help students reach their goals. We create opportunities in and out of the classroom for students, faculty and staff to work and learn together, promoting an atmosphere of love and respect. We are proud that our students bring with them the unique values of their communities, and that our students gain the knowledge and skills that effectively prepare them to live and work in a rapidly changing, global world.

This catalog will be a guide for you, as you literally and figuratively navigate your way through Ashland’s programs, places and people. From your first semester through a graduate program, the details, contact information and general knowledge you need will be found right here.

At Ashland University, we promise to produce graduates who will “work, serve and lead with integrity.” To fulfill our mission, we educate the whole person, believing that as you seek truth you will grow and flourish.

Thank you for being a part of Ashland University and Eagle Nation, a place filled with tradition that invites you to devise your own and add to the legacy of this special place.

Carlos Campo, PhD
President
Mission, Identity, Core Values, and Vision of Ashland University

Ashland University

Founded in 1878, Ashland University is a private, comprehensive institution committed to challenging and supporting students intellectually, spiritually, socially, culturally and physically.

Located midway between Cleveland and Columbus off I-71, Ashland University is home to 2,400 full-time undergraduate students. Ninety-two percent of these students are from Ohio, while students also come from 42 other states and 37 countries. The University’s total enrollment is 5,700 students, and this includes graduate programs in business, education and theology and the off-campus centers in Cleveland, Columbus, Mansfield, Massillon and Elyria.

In addition to its traditional undergraduate studies, AU offers alternative programs for adults and non-traditional students through the Founders School of Continuing Education. Degree completion, Associate degree, CEUs, and non-degree opportunities are available through a flexible format that includes online and evening classes. High school students can earn college credit at the University campus or at their high school with participating school districts under the College Credit Plus program. Complementing the undergraduate program is a Master of Fine Arts in Creative Writing; a Master of Arts in American History and Government; a Master of Arts in Corporate and Strategic Communication; a Master of Business Administration degree; a Master of Education degree; a Doctor of Nursing Practice; a Doctor of Education in Educational Leadership; masters degrees and a Doctor of Ministry degree through the Ashland Theological Seminary; an RN to BSN Track for registered nurses; and a Bachelor’s Plus program for students with a non-education degree who want to teach.

Situated on a beautiful 120-plus acre campus with trees, brick walkways and flower gardens, the University’s campus contains 44 modern buildings including a new 110,000-square-foot Recreation and Rybolt Sport Sciences Center, a new Dwight Schar College of Education, a new Richard E. and Sandra J. Dauch College of Business and Economics, and a renovated Kettering Science Center.

Ashland University takes great pride in its philosophy of “Accent on the Individual” and offers a learning environment in which students can expect personal attention from professors and staff who genuinely care about them and their development. Professors, not graduate assistants, teach the classes and labs.

The University features a strong academic reputation, offering more than 60 majors including toxicology, environmental science, hospitality management and digital media journalism, which are unusual for an institution this size. It also offers most traditional liberal arts majors as well as a wide range of majors in business and education. The education program, which offers pre-K through doctorate level courses, is one of the largest among independent and state institutions in Ohio. Academic programs are enhanced by an Honors Program and the John M. Ashbrook Center for Public Affairs.

Ashland University is proud of its involvement in small town life, which boasts friendly people, a pleasant atmosphere and a peaceful community – all important items in today’s society. Security is a priority on the Ashland campus, and a well-lighted campus and an electronic security system in all residence halls illustrate that fact.

Ashland University is known for many things besides its academic programs, including:
- the No. 1 student activities programming in the region as awarded by the National Association for Activities.
- a strong Division II athletic program featuring 20 men's and women's sports.

Our Mission, Identity, Core Values, Vision

Mission Statement

Ashland University, guided by our Christian heritage, is a comprehensive, private university that provides a transformative learning experience, shaping graduates who work, serve and lead with integrity in their local, national, and global communities.

Identity Statement

Ashland University is a nationally recognized comprehensive university founded in 1878 by the Brethren Church. The University promotes liberal arts and professional programs for undergraduate and graduate students. Rooted in Christian faith and an unwavering commitment toward accent on the individual, the University provides students an environment that promotes Ashland University's values and respect toward each person.

Core Values

In pursuing its mission, Ashland University has established a set of core values, which are:
- Accent on the Individual: Pledges the best individual and collective efforts to challenge and encourage each member of the University within a supportive community.
- Spirituality and Faith: Affirms Christian values as a core element of the University’s institutional identity, emphasizing faith in God, moral integrity, and respect for the diversity of values and faith that is found in a community of learning.
- Character Development: Promotes integrity, self-discipline, responsibility, compassion, leadership, service, and good citizenship.
- Academic Freedom: Supports free, open and critical inquiry for both students and faculty that is consistent with intellectual and professional development.
- Excellence in Teaching: Emphasizes teaching supported by research and scholarship as the University's central responsibility.

Vision Statement

Ashland University aspires to a nationally-recognized private university where traditions of excellence are fostered and students discern their life calling and thrive.

Institutional Student Learning Outcomes

1. Intellectual Development
   Students will analyze evidence, apply specialized knowledge, and think critically and creatively to solve problems.

2. Ethical Development
   Students will apply principles of integrity and ethical decision-making to address real-world issues.

3. Civic Engagement
   Students will apply knowledge, skills, and values in order to work, serve, and lead in their communities.

4. Global and Intercultural Competence
   Students will exhibit competence for constructive engagement within global and intercultural contexts.
Undergraduate Admission Procedures

Ashland University is an Equal Opportunity institution and its programs are available to all students regardless of handicaps, sex, age, race, color, religion, and national or ethnic origin. Each applicant for admission to Ashland University is considered on individual merit. Each applicant's record is reviewed for academic achievement, aptitude, and interest in order to admit those students who possess the ability and motivation to benefit from their enrollment at Ashland University.

Each applicant is highly encouraged to visit the campus and meet with an admission representative. A visit provides prospective students an opportunity to meet AU students, faculty, coaches, and administrators and to tour the campus and facilities.

The quality of the academic record is shown by an applicant's grades, class standing and difficulty of courses taken. A well-prepared candidate will have four units of English, three units of social studies, three units of science, three units of mathematics, and two units of foreign language. The results of the SAT or the ACT serve as additional indicators of academic aptitude.

Ashland University is very interested in the applicant's record as a school citizen and will accept recommendations from guidance counselors and/or teachers as to ability, motivation, and character.

High School Student
Prior to or early in the senior year of high school, the applicant should:

1. **Campus Program Students** - Complete and submit the Ashland University Application for Undergraduate Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply);
   **Online Program Students** - Complete and submit the Ashland University Application for Graduate, Online, and Adult Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply);

2. Ask the guidance counselor to forward a copy of the high school transcript. Test scores, class rank, and a list of senior courses should be included. (Results of the G.E.D. are recognized);

3. If applicant participated in the College Credit Plus Program, contact the registrar at the college/university attended and request an official transcript be sent to the Ashland University Enrollment Services. College credit will be granted for any college-level coursework taken in high school in which a "C-" or better grade is received. Also, college credit may be granted for Advanced Placement (AP) and International Baccalaureate (IB) coursework depending on the score on the AP test. (See AP test) and I.B. Tests;

4. **Campus Program Students** - A minimum high school grade point average (GPA) of 2.50 on a 4.0 scale. Individual programs may choose to admit students on a conditional basis with an undergraduate GPA less than 2.50.
   **Online Program Students** - A minimum high school grade point average (GPA) of 2.25 on a 4.0 scale. Individual programs may choose to admit students on a conditional basis with an undergraduate GPA less than 2.25.

5. **Campus Program Students** - All candidates for admission to the freshman class are required to take the ACT (American College Test) or the SAT (Scholastic Aptitude Test). Results may be sent directly to Ashland University using these codes: ACT - 3234; SAT - 1021;

6. **Campus Program Students** - Ohio residents must send results of the Ohio Graduation Test to the Ashland University Office of Admission.

7. Upon high school graduation, a final official transcript must be forwarded to the Ashland University at:
   Office of Records and Registration
   Ashland University
   401 College Avenue
   Ashland, OH 44805
   Official Electronic transcripts should be submitted to: Au-transcripts@ashland.edu

High School Equivalence Diploma (GED)
Ashland University will recognize the GED instead of a high school diploma for those applicants who did not graduate from high school. Prospective students with a GED request an official GED transcript to be sent to the Ashland University Office of Records and Registration to document completion and provide GED test scores. Students may also be required to take the ACT.

Home Schooled Student
An applicant who is home schooled should use the following admission guidelines:

1. **Campus Program Students** - Complete and submit the Ashland University Application for Undergraduate Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply);
   **Online Program Students** - Complete and submit the Ashland University Application for Graduate, Online, and Adult Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply);

2. Submit an accredited diploma, GED, grade transcript, or home school credit evaluation form.

3. **Campus Program Students** - Provide results of a standardized test such as the ACT, SAT, or other state or nationally normed test.

Advanced Placement
AP Credit may be awarded for students who score a 3.0 or higher on A.P. Exams. Please visit [https://www.ashland.edu/admissions/admission-requirements/undergraduate-admissions](https://www.ashland.edu/admissions/admission-requirements/undergraduate-admissions) to see which scores on various A.P. Tests translate into AU course credit.

Transfer Student
A student from an accredited institution of higher learning may be considered for admission as a transfer student to Ashland University provided he or she is in good conduct, financial standing, and academically with at least a 2.25/4.0 cumulative GPA at the previous college(s) attended.

Credit earned through a recognized accredited college or university will be accepted at Ashland University as long as the credit earned is a “C-” or better. The grade that will appear on student records is a “K” and has no impact on your Ashland University cumulative GPA. Credits will be awarded for specific Ashland University courses when transferable credits are for equivalent courses. When the transferable courses do not have Ashland University equivalents, credits will be awarded as ‘elective' credits.

A student transferring to Ashland University from other institution(s) of higher learning must meet residence requirements (see index) in order to be eligible for graduation from a baccalaureate degree program. A candidate for a degree must take a minimum of 30 semester hours at Ashland University. The last 12 hours of coursework and at least one half of the student's work in his or her major field must be taken at AU. A student interested in transferring to Ashland University should:
1. **Campus Program Students**—Complete and submit the Ashland University Application for Undergraduate Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply).

   **Online Program Students**—Complete and submit the Ashland University Application for Graduate, Online, and Adult Admission which is online at: [http://www.ashland.edu/apply](http://www.ashland.edu/apply).

2. Contact the Registrar at all colleges where coursework was attempted and request that official transcripts be sent to the Ashland University Enrollment Services; and

3. Contact the high school guidance office or GED provider to request that an official transcript be sent to the Ashland University Office of Records and Registration if the applicant has fewer than 30 credit hours (semester) earned. The final decision regarding course-equivalence of transfer credit will be made by the Office of Records and Registration. A student may receive an unofficial evaluation of credit by visiting [https://www.transferology.com](https://www.transferology.com) or contacting the Office of Undergraduate Admissions.

While Ashland University does not formally participate in Ohio’s "Statewide Articulation and Transfer Policy," the Transfer Module is one basis for evaluating course equivalencies when transferring general education courses to meet Institutional Baccalaureate Requirements.

**Conditional Admission**

Freshmen not meeting minimum admission standards may be offered conditional admission for their first semester. Full admission to the University is determined at the end of the first semester of enrollment. A student admitted conditionally must maintain a 2.0 GPA at the conclusion of 12 semester hours of course work.

Failure to adhere to the Plan for Academic Achievement at any point during the semester may, of itself, constitute grounds for dismissal. Academic support options include, but are not limited to, one-on-one meetings with the Center for Academic Support, individual tutoring, restricted course loads, academic advising and success seminars.

Conditionally admitted freshman students are required to meet with the Center for Academic Support during the summer or the first week of classes to discuss expectations and plans for academic achievement. Academic support options include, but are not limited to, one-on-one meetings with the Center for Academic Support, individual tutoring, restricted course loads, academic advising and success seminars.

**Provisional Admission**

Students pursuing a degree may be admitted provisionally to study at Ashland University for one semester with unofficial transcripts. Students are blocked after their first semester of registration from taking additional courses until official transcripts are submitted to the Office of Records and Registration.

**Readmission**

A student who leaves Ashland University for one or more semesters must submit an application for readmission. The entire previous record of the student is reviewed and favorable action is necessary before the student can register for classes. If readmitted to the university, the student is not guaranteed readmission into the same program. A student may apply for readmission at [http://www.ashland.edu/apply](http://www.ashland.edu/apply).

A student who was academically dismissed is eligible for readmission after a period of one semester. Applications for readmission after dismissal will be reviewed by the Office of Records and Registration. Applicants must submit a personal statement that includes assessment of past performance along with goals and strategies for future improvements. This may include, but is not limited to, employment, education, and training during absence from Ashland University. A student who has been dismissed a second time may not apply for further reinstatement. A student seeking readmission after an absence of more than one year will be subject to the curricular requirements in effect as of the first registration of classes subsequent to readmission. If the student has attended other schools, transcripts from these schools must be sent to the Office of Admission.

Students seeking readmission after a medical withdrawal must follow the steps under "Readmission after Medical Withdrawal" in the Academic Affairs section of the catalog.

Students re-entering the university will be automatically updated to the current catalog year. Students are not required to pay an application fee or submit transcripts unless coursework was completed at another institution during their absence from AU or a previously required transcript remains unresolved.

**Special Student**

A special student at Ashland University is one who is not a candidate for a degree. The classification includes transient students in good standing at another institution, certain international students, post-graduate students, and students wishing to attain specific skills such as music or art. A special student does not need to file the regular application for admission. After earning 12 semester hours, a special student must submit an application for admission. To register as a special student, contact the Office of Records and Registration.

A student who is a college graduate and who submits authenticated evidence of graduation to the Office of Records and Registration may register for any class without contacting the Office of Admission. If, however, the student is working toward a second degree, or if the student will require the services of Ashland University in securing teacher licensure, the student must fulfill the usual requirements for admission.

**Transient Student**

A transient student must submit a statement of good standing or permission in writing to take courses at Ashland University. He or she is permitted to take a maximum of 18 semester hours, after which the usual requirements for admission must be fulfilled.

**Senior Citizen**

A senior citizen (age 60 or older) may take classes as a special student at a reduced rate if space is available. No credit is given for the course. The cost is determined at the beginning of each year and can be found at [https://www.ashland.edu/administration/student-accounts/tuition-fees](https://www.ashland.edu/administration/student-accounts/tuition-fees).

**Veteran**

A veteran needs to file a regular application for admission and follow the appropriate admission process. College credit earned while serving in the military will be evaluated by the Office of Records and Registration on an individual basis. Five semester hours of credit will be granted to veterans who have been honorably discharged from military service to the United States. The five granted credits will provide a waiver for: Critical Cultural Inquiry Requirement (3 credits), elective credit (2 credits). Any changes in registration must be reported to the Office of Records and Registration immediately for submission to Veterans' Affairs.

Additional military training may be considered for academic credit through evaluation of a portfolio by the Prior Learning Assessment Committee.
Auditor

Any regularly enrolled student in the University may audit a course. Other persons who do not wish to receive college credit and who do not meet admission requirements may also register as auditors upon payment of the audit fee and any special class fees (e.g., lab or music fees). Under no circumstances will audit grades later be changed to credit status. A student may not change from audit to credit, and vice versa, after the third week of a semester. Students may not audit more than 16 hours of class without permission from the Academic Advising Office. If auditing a course previously taken for credit, see Repeat Policy for more information.

Second Degree or Major

The applicant who holds a bachelor's degree from an accredited institution may earn a second degree or major in a different field of study. The applicant must meet specific course requirements appropriate to the degree and/or major, and follow the application procedures outlined in the "Transfer Student" section. Ashland University offers the Bachelor's Plus Program for individuals who have a bachelor's degree from an accredited college or university in a field other than education who now wishes to become a licensed educator.

Dwight Schar College of Nursing and Health Sciences offers a second degree leading to a Bachelor of Science in Nursing. For information, contact the Graduate, Adult, and Online Admissions Representative for the Accelerated program.

International Student

International students are required to have an equivalent of a 2.5/4.0 GPA (3.0/4.0 for Nursing program) on the American System, for automatic admission to Ashland University. Students with below a 2.5 (3.0 for Nursing program) GPA will be reviewed for admission on an individual bases. For countries which do not use the grade point average, a determination is made to equate the score to the US education system.

The international student should submit the following materials:
1. A completed International Student Application;
2. A $50 non-refundable application fee;
3. A photocopy of applicant's passport pages.
4. Proof of financial support showing the sponsor's ability to support the student with funds equal to or greater than the estimated expenses per year;
5. Academic records from all secondary schools, colleges, or universities attended;
6. Results of any state or government comprehensive exams, such as the Baccalaureate or the G.C.E., if applicable;
7. An official TOEFL score of 65 (iBT) or above (84 or above for Nursing program), or an IELTS score of 6.0 or above (7.0 or above for Nursing program), or PTEA score of 50 or above (59 or above for Nursing Program). If the TOEFL, IELTS or PTEA score is below the required level, or these tests have not been taken, the student may enter the Center for English Studies (ACCESS);
8. Students admitted to nursing programs should find TOEFL score requirements within those admission policies.

After formal admission, the international student will receive a Form I-20 Certificate of Eligibility for non-immigrant (F-1) student status. This document can be presented to the U.S. Consul in the student's country of residence in order to apply for a visa.

International Student Services provides assistance, orientation, and advising to international students. The office also promotes intercultural contacts and provides student organization programs. The services of Ashland University are designed in accordance with federal rules and regulations concerning foreign students, and the principles and guidelines of NAFSA: Association of International Educators. Visit the website: http://www.ashland.edu/iss.

International Transfer Student

An international student from a recognized institution of higher learning may be considered for admission as a transfer student to AU provided the student has a 2.25/4.0 cumulative GPA (3.0/4.0 for Nursing program) at previous colleges/universities attended.

Credits earned at other colleges or universities will be accepted according to the principles described under the "Transfer Student" section.

To apply as a transfer student, the international student needs to follow the procedures outlined under the "International Student" section.

Second and Non-Degree Programs for International Students

The University also offers programs for Second Degree and Non-Degree students. A student who already holds a bachelor's degree from an accredited institution can earn a second degree at Ashland in a different field of study. These programs are generally one to three years in length, depending upon which field of study is chosen.

A student who wishes to study for a period of one year or less might consider the Non-Degree program in which the student can study whatever subjects he or she wishes to study without pursuing a degree.

Both the Second Degree and Non-Degree programs require a GPA of at least 2.25/4.0 (3.0/4.0 for Nursing program).

To apply for a Second Degree or Non-Degree program, the international student should follow the application procedures outlined in the "International Student" section.
Graduate School Admissions Procedures

Admission to the Graduate School

Admission to the Graduate School and admission to specific degree programs at Ashland University is a two-part process. Students wishing to take graduate courses at Ashland University must follow this admission process and complete the appropriate application.

Minimum standards for admission to the Graduate School are outlined below. Individual degree programs may have additional requirements.

Graduate Admission Policy

The following are required for admission to graduate study at Ashland University:

Students Seeking a Graduate Degree:

1. A completed Ashland University Application
2. A $30 application fee
3. Official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded. Additional transcripts, if applicable, may be requested at the discretion of the Program Chairs.
4. A minimum undergraduate grade point average (GPA) of 2.75 on a 4.0 scale, or a minimum graduate grade point average of 3.0 on a 4.0 scale (a minimum of 12 graduate semester hours is required) is required for full admission to graduate study. Individual programs may choose to admit students on a conditional basis with an undergraduate GPA less than 2.75 or a graduate GPA less than 3.0. Please note: individual graduate degree programs may require higher GPA for admission.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:

Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to:

enroll-grad@ashland.edu

Conditional Admission to the Graduate School

A student admitted conditionally must maintain:

a. A 3.0 GPA at the conclusion of 12 semester hours of course work. Students who do not maintain a minimum of 3.0 at the conclusion of their first 12 hours of graduate study will be subject to dismissal by the individual program.

b. Each graduate program may develop additional requirements particular to its own discipline that would apply to conditional students (letters of recommendation, standardized test, writing sample, etc.).

Provisional Admission

Students pursuing a degree, certificate, licensure, or endorsement may be admitted provisionally to graduate study at Ashland University for one semester with unofficial transcripts. Students are blocked after their first semester of registration from taking additional courses until official transcripts are submitted to the Office of Records and Registration. Guest Non-Degree may not be admitted provisionally.

Guest Non-Degree

Guest Non-Degree graduate student status applies to a candidate who would like to take graduate course work for professional development or for personal enrichment. To apply for admission as a Guest Non-Degree student, the candidate will be required to provide proof of an undergraduate degree by means of an official academic transcript. If the student decides to apply for a graduate program (change their status from a degree-seeking student) and admission is granted, full credit will be given for up to 12 credit hours completed with a grade of at least "B", while having the non-degree status. This may vary by program. A Guest Non-degree student must receive permission from the Graduate Program administrator before registering for specific courses.

Options for Graduate School Applicants from Non-Regionally Accredited Undergraduate Institutions

Applicants who received an undergraduate degree from a college or university that does not have regional accreditation recognized by the U.S. Secretary of Education may apply for acceptance as a degree-seeking student, using one of the following options:

- Option 1: Obtain an “acceptable score” on a recognized graduate school admission test, as defined by the program to which application is made.
- Option 2: Upon acceptance as a non-degree-seeking student, satisfactorily complete 12 semester hours under the supervision of the program director, after which degree-seeking status will be awarded. Please note: individual graduate programs/colleges may require additional criteria.

Readmission

Any student who has been absent from the university for three or more consecutive semesters (including summer) must apply for readmission to their program.

Students reentering the university will be automatically updated to the current catalog year. Students are not required to pay an application fee or submit transcripts unless coursework was completed at another institution during their absence from AU.

International Students

Ashland University makes a special commitment to serving the needs of international students. The academic credentials of applicants educated outside of the United States will be evaluated by the Office of International Admissions and evidence of English proficiency may be required of all international students.

- Internet-based TOEFL (iBT): 79 (84 for Nursing & Ed.D. Program);
- Paper-based TOEFL (PBT): 550 (563 for Nursing & Ed.D. Program); or
- IELTS: 6.5 (7.0 for Nursing & Ed.D. Program); or
- PTEA 55 (59 for Nursing & Ed.D. Program)

Students eligible for admission but who have not attained the minimum scores on the tests above will be admitted to The Ashland University Center for English Studies (ACCESS). ACCESS provides an intensive English program for international students and prepares them for admission to academic studies. Upon successful completion of the ACCESS program, students will be admitted to the University and will be evaluated for readiness for full-time graduate program course work.
How to Apply - International Students

International students must apply for admission to the Graduate School well in advance of their proposed entry date. Please visit www.ashland.edu/admissions/apply-today for an online international application and more information. Applicants will be required to submit:

1. Non-refundable application fee of $50 USD.
2. Copy of passport (also include this for any dependent that will be accompanying you).
3. Original or certified copies of your transcripts or mark sheets, in English and the original language.
4. Copy of your most recent graduation certificate or diploma.
5. TOEFL, IELTS or PTEA scores, unless seeking admission through the ACCESS program.
6. Proof of financial support.
7. Resume. (MBA Only)
8. Other required documents depend on academic programs.
Undergraduate Finance and Administration

University Fees*

Tuition and fees for students enrolled in an undergraduate campus program for the school year 2017-2018 are:

Tuition Fee* $19,740
Room* 5,250
Meal Plan* 4,496
Activity Fee ($8/hr. part-time) 220
Student Health Fee 160
Technology Fee ($15/hr. part-time) 400
Recreation Center Fee 180
*Total $30,446

* This total does not include single or paid double room fee, fraternity fee, and special class fees. Special housing such as apartments, Clayton Hall suites, and fraternities require a different fee structure.

Undergraduate Campus Tuition Fee

The tuition fee for students enrolled in an undergraduate campus program permits a student to take from 12 to 19 hours each semester. An additional charge of $913 is made for each semester hour in excess of 19 hours. A student taking less than 12 semester hours pays tuition at the rate of $913 per semester hour.

However, non-probationary sophomore, junior, and senior students in the Honors Program may register for up to 21 hours of course credit without paying for the additional hours over the comprehensive fee. The student must have a college GPA of 3.5, so freshmen are not eligible for this. Hours taken beyond the 21 hour limit will be charged at the regular rate.

Accelerated Nursing Program Tuition Fee (4 semesters)

The tuition and fees students enrolled in the Accelerated Nursing Program are:

Tuition (pt rate $657) $28,296
Technology Fee 800
Course Fee 3600
Total Program Cost $32,696

Undergraduate Online Tuition Fee

The tuition fee for students enrolled in an undergraduate online program through the College of Online and Adult Studies permits a student to take courses on a per credit hour basis.

Online BA Business Administration $497/Cr. Hr.
Online BA Communication Studies $497/Cr. Hr.
Online BS Criminal Justice $417/Cr. Hr.
Online Undergraduate Multidisciplinary Studies $497/Cr. Hr.
Online AA Criminal Justice $417/Cr. Hr.
Online AA General Studies $497/Cr. Hr.
Online AA General Studies w/ a Concentration in Business $497/Cr. Hr.
Online RN-Bachelor of Science in Nursing $361/Cr. Hr.
Distance Education Course Fee $15/Cr. Hr.

Undergraduate Campus Audit Fee

Courses may be audited for $457/hour. A student may audit a course for no additional fee if the student's course load for that term is within the normal 12-19 hours. However, any hours over 19 would have the additional fee.

Instructional Supply Fee

Some courses have instructional supply or lab fees. These are listed on the Business Office's website at: https://www.ashland.edu/administration/student-accounts/tuition-fees.

Room Fee

Below is a list of housing rates for the 2015-16 year. Rates are shown as semester / year.

- Regular Double/Triple $2,625/$5,250
- Regular Single $2,828/$5,656
- Paid Double $3,003/$6,006
- Paid Single $3,385/$6,770
- Senior Apartments/Mansfield $3,072/$6,144
- Clayton Suite $2,688/$5,376
- Clayton Suite Paid Single $3,448/$6,896
- Fraternity Single/Double $2,678/$5,356
- Fraternity Paid Single $3,438/$6,876
- Global House Paid Single $3,385/$6,770
- Global House Regular Double $2,625/$5,250
- College Avenue Apartments $2,927/$5,854

Activity Fee

An annual fee of $220 is paid by all full-time students. For part-time students the fee is $8 per semester hour. This fee supports numerous social and recreational activities. It partially funds the student center, intramural programs, and department performance programs. It also provides funding for student government organizations, the Campus Activities Board, and the student newspaper and yearbook.

Graduation Fee

The fee for undergraduate programs is $75. Please note this fee is included in the tuition for Undergraduate Campus Tuition only. All other programs is in addition to the per credit hour rate. This graduation fee provides for a diploma and other commencement items. This is a one-time fee charged at the time of filing for graduation. No person will be allowed to participate in commencement exercises or receive a diploma if the University account is not paid in full. Students eligible for tuition reimbursement from their employers must have all fees and charges paid in full prior to taking final exams during the last semester before graduation. Contact the Business Office or Office of Records and Registration with any questions.

Insurance

Full-time undergraduate students are automatically included in the accident portion of Ashland University's insurance. Because serious illness may occur, Sickness Insurance coverage is mandatory unless proof of individual/family coverage is provided. For more information regarding cost and coverage period, please visit https://www.ashland.edu/administration/student-accounts/student-health-insurance or contact the Student Accounts Office at 419.289.5958.
Enrollment Deposit

Enrollment deposits will be applied to first semester tuition and is non-refundable after May 1 for fall semester or December 1 for second semester.

A full list of fees and charges are available online through the Business Office's website: https://www.ashland.edu/administration/student-accounts/tuition-fees.

All fees and charges are subject to change at any time by the Board of Trustees.

Terms of Payment

Tuition and fees are due and payable in full on or before August 7, 2017, for fall semester, and on or before January 3, 2018, for spring semester. Statements will only be mailed in July for the fall semester and in December for new students beginning spring semester.

Students can access their student account statements through WebAdvisor by clicking on the "View Account and Make Payments" link under "Student Financial Information."

Interest of 1.5 percent will be charged each month on any unpaid balance. Seniors or students eligible for tuition reimbursement from their employers will not be permitted to take final exams in their last semester or take part in commencement until all accounts are clear with the Business Office.

A person’s account must be paid in full before registration becomes valid and before a person can reside in University facilities. No person may have official transcripts of his or her records until that person’s account is paid in full.

Payment Options

After scholarships, grants, and loans are applied to a student's account, they have the following payment options: payment up front by cash, check, or credit or students may sign-up for a monthly payment plan. For more detailed information please visit: https://www.ashland.edu/administration/student-accounts/payment-information

Refund Policy

This refund policy applies to students completely withdrawing from school, not simply dropping a class(es). Withdrawal is when an enrolled student withdraws from all classes during the term. Dropping of class(es) is when an enrolled student drops a class (or classes) but is still enrolled for one or more classes in the term.

Withdrawal Policy

Students withdrawing from the University, will be assigned a grade of “W” in courses that are in progress. It is the student’s responsibility to clear all records and obligations to receive official separation.

The official withdrawal form and procedures for filing may be viewed at https://www.ashland.edu/administration/content/withdrawal-request-and-information. The submission date of the withdrawal request received by the Office of Records & Registration will serve as the official withdrawal date.

Students who decide not to return to Ashland University are responsible for notifying the Office of Records & Registration by completing the withdrawal process to avoid tuition and fee liability problems and to release seats to fellow students.

Non-attendance does not constitute a withdrawal. If the University is in session, the withdrawal form should be completed with the Office of Records & Registration. Failure to do so will delay or reduce any refunds the student may be eligible to receive.

Students who have withdrawn may reapply to the University online by completing the readmit application for admission located on the admissions homepage. However, readmission is not guaranteed.

Return of Title IV Funds/Institutional Refund Policy

This applies to students who withdraw or are dismissed. Refunds for these students are determined according to the following policy:

1. The term “Title IV Funds” refers to the federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs: Unsubsidized Federal Direct Loan, Subsidized Federal Direct Loan, Federal Perkins Loan, Federal Parent PLUS Loan, Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, and Federal TEACH Grant.

2. A student's withdrawal date is:
   - The date the student began the institution's official withdrawal process or officially notified the institution of intent to withdraw; or
   - The student's last date of attendance at a documented academically related activity.

3. Students who are granted a leave of absence are treated in the same manner as students who withdraw from the university.

4. Refund Policy:
   - Refunds on all charges including tuition, room and board, and special fees will be prorated on a per day basis up to the 60% point in the term. There are no refunds after the 60% point in time. A copy of the worksheet used for this calculation can be requested from the Ashland University Financial Aid Office.
   - Title IV, state and institutional aid is earned in a prorated manner on a per day basis up to the 60% point in the term. Title IV, state, and institutional aid is viewed as being 100% earned after the 60% point in time.
   - A refund (if there is one) and an adjusted bill will be sent to the student's home address following withdrawal.
   - There are no refunds for courses for which a grade of "I" (incomplete) or "IP" (in progress) is received.

In accordance with federal regulations, when financial aid is involved, refunds are allocated in the following order: Unsubsidized Federal Direct Loan; Subsidized Federal Direct Loan; Federal Perkins Loan; Federal Parent PLUS Loan; Federal Pell Grant; Federal Supplemental Educational Opportunity Grant; Federal TEACH Grant; other Title IV assistance; other federal sources of aid; other state, private and institutional aid; and finally, the student.

Ashland University's responsibilities in regard to the return of Title IV funds include:

- Providing each student with the information given in this policy;
- Identifying students who are affected by this policy and completing the Return of Title IV funds;
- Calculations for those students;
- Returning any Title IV funds that are due the Title IV programs.

The student's responsibilities in regard to the return of Title IV funds include returning to the Title IV programs any funds that were disbursed directly to the student and which the student was determined to be ineligible for via the Return of Title IV Funds calculation.
Appeal Process
A student who has an issue with the billing or financial aid portion of this policy may write a letter of appeal: c/o Director of Student Accounts (billing) or Director of Financial Aid (financial aid), 401 College Ave., Ashland, OH 44805.

If a student is asked to leave for disciplinary reasons, all rights to adjustments from the tuition and fees are forfeited.

All fees and charges are subject to change at any time by the Board of Trustees
Finance and Administration

All tuition, fees, and other charges are set by the University and are subject to change without prior notice. Applicable tuition and fee charges for graduate courses must be paid prior to the first day of class each semester or summer session unless students qualify for corporate reimbursement (see "Corporate Reimbursement" section that follows). Charges not paid by these dates may result in cancellation of registration.

Interest of 1.5% will be charged each month on any unpaid balance. Graduating students, including those under the Corporate Reimbursement Policy, must have accounts paid in full prior to receiving a diploma. Only a student with a zero balance will be allowed to register for subsequent semesters. No person may have a transcript of his or her record until his or her account is paid in full.

Fees in general are non-refundable. Tuition is non-refundable in the instance of unofficial withdrawal.

Students who make official withdrawals or reduce their course loads should consult the Business Office for a schedule of refunds. It is the responsibility of the student to obtain and complete withdrawal forms and procedures.

Instructional Supply Fee

Some courses have instructional supply or lab fees. These are listed on the Business Office's website at: http://www.ashland.edu/tuition

Graduation Fee

The fee for Master Degree programs is $100; and Doctorate Degree programs is $125. This graduation fee provides for a diploma and other commencement items. This is a one-time fee charged at the time of filing for graduation. No person will be allowed to participate in commencement exercises or receive a diploma if the University account is not paid in full. Students eligible for tuition reimbursement from their employers must have all fees and charges paid in full prior to taking final exams during the last semester before graduation. Contact the Business Office or Office of Records and Registration with any questions.

Enrollment Deposit

Enrollment deposits will be applied to first semester tuition and is non-refundable after May 1 for fall semester or December 1 for second semester.

A full list of fees and charges are available online through the Business Office’s website: https://www.ashland.edu/administration/student-accounts/ tuition-fees.

Terms of Payment

Tuition and fees are due and payable in full on or before August 7, 2017, for fall semester, and on or before January 3, 2018, for spring semester. Statements will only be mailed in July for the fall semester and in December for new students beginning spring semester. Students can access their student account statements through WebAdvisor by clicking on the “View Account and Make Payments” link under “Student Financial Information.”

Interest of 1.5 percent will be charged each month on any unpaid balance. Seniors or students eligible for tuition reimbursement from their employers will not be permitted to take final exams in their last semester or take part in commencement until all accounts are clear with the Business Office.

A person’s account must be paid in full before registration becomes valid and before a person can reside in University facilities. No person may have official transcripts of his or her records until that person’s account is paid in full.

Payment Options

After scholarships, grants, and loans are applied to a student’s account, they have the following payment options: payment up front by cash, check, or credit or students may sign-up for a monthly payment plan. For more detailed information please visit: https://www.ashland.edu/administration/student-accounts/payment-information

Corporate Reimbursement

Students eligible for tuition reimbursement from their employers may request payment deferral until the payment date at the end of the semester. A $40.00 per class corporate reimbursement fee will be assessed. Interest, at a rate of 1.5% per month, will be assessed to all outstanding balances that remain after the final payment date.

To secure corporate reimbursement deferment, students must complete the requested information appearing on the registration form the initial semester. Students must indicate the amount of eligible reimbursement and obtain corporate authorization. Those students eligible for partial reimbursement that is not contingent on final grades are required to pay their percentage or portion of the fees and charges at the time of registration.
Refund Policy

This refund policy applies to students completely withdrawing from school.

Withdrawal—an enrolled student withdraws from all courses during the term. This refund policy applies to students in this situation.

Dropping of course(s)—An enrolled student drops a course (or courses) but is still enrolled for one or more courses in the term. This refund policy does not apply to students in this situation.

Withdrawal procedures—Please consult your program representative for instructions on how to withdraw.

Return of Title IV Funds/Institutional Refund Policy

This applies to students who withdraw or are expelled. Refunds for these students are determined according to the following policy:

1. The term “Title IV Funds” refers to the federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and includes the following programs:
   - Unsubsidized Federal Direct Loan
   - Subsidized Federal Direct Loan
   - Federal Graduate Plus Loan
   - Federal TEACH Grant

2. A student’s withdrawal date is:
   - The date the student began the institution’s official withdrawal process or officially notified the institution of intent to withdraw;
   - The midpoint of the term for a student who leaves without notifying the institution; or the student’s last date of attendance at a documented academically related activity.

3. Students who are granted a leave of absence are treated in the same manner as students who withdraw from the University.

Refunds on all charges including tuition, room and board, and special fees will be prorated on a per day basis up to the 60% point in the term. There are no refunds after the 60% point in time. A copy of the worksheet used for this calculation can be requested from the Ashland University Financial Aid Office.

Title IV, state and institutional aid is earned in a prorated manner on a per day basis up to the 60% point in the term. Title IV, state and institutional aid is viewed as being 100% earned after the 60% point in time.

A refund (if there is one) and an adjusted bill will be sent to the student’s home address following withdrawal. There are no refunds for courses for which a grade of “I” (incomplete) or “IP” (in progress) is received.

In accordance with federal regulations, when financial aid is involved, refunds are allocated in the following order: Unsubsidized Federal Direct Loan, Subsidized Federal Direct Loan, Federal Graduate Plus Loan, Federal TEACH Grant, and finally, to the student.

Student Health Insurance

All full-time graduate students are eligible to enroll in both Basic Accident & Sickness and the Supplemental Medical portion of the Plan. Students must enter the Plan during their first regular term of the academic year in which they are eligible. Otherwise, they must wait until the following policy year. In order for a student to remain covered after the effective date of coverage, the student must actively attend classes for at least 31 days. All eligible dependents can apply for coverage as long as the student is carrying the Student Health Insurance Plan at the time of enrollment. For further information, please contact the Director of Student Accounts in the Business Affairs Office at 419.289.5020.

All fees and charges are subject to change at any time by the Board of Trustees.
Undergraduate Financial Aid

www.ashland.edu/financial-aid

Financial Aid

Ashland University provides financial assistance to qualified, eligible undergraduate students who have been accepted for admission to the University, are not on disciplinary probation, and meet the standards of the Financial Aid Satisfactory Academic Progress Policy provided in this catalog. Financial assistance is awarded annually based on academic and talent-based accomplishments and/or financial need determined by a combination of federal, state, and University sources. Students must reapply for financial aid each year and meet the necessary criteria required for renewal.

When accepting a financial aid award, students are certifying that they understand and agree to the financial aid award terms of agreement made available on the back of their award letter or located at www.ashland.edu/administration/review-your-award/undergraduate-financial-aid-terms-and-conditions.

Federal regulations require that institutions receiving Title IV Funding provide specific consumer information about the school to students. Visit www.ashland.edu/consumer-information for more details and web links.

How to Apply for Financial Aid

Applications for financial aid will be processed on a first-come, first-served basis with priority given to those applications submitted by March 15. Students should complete the following steps to apply for financial aid:

1. Apply for admission to Ashland University.
2. Create an FSA ID made up of a username and password at https://studentaid.ed.gov/sa/fafsa/filling-out/fsaid. If the student is a dependent student, both the student and a parent must create FSA IDs to sign the FAFSA on the Web. Your FSA ID is used to sign legally binding documents electronically so do not share with anyone.
3. Complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov.
4. Review your Ashland University financial aid award and visit www.ashland.edu/student-loans to determine what required loan processes may need to be completed. For instance, all first-time borrowers of federal loans must complete loan entrance counseling and a master promissory note prior to the disbursement of federal loan funds.

Attendance at Other Institutions

Students enrolled at other institutions as part of their Ashland University degree are not eligible for financial aid from Ashland University, but must apply for aid at the other institution. Students who attend Ashland University and another institution simultaneously may be eligible for federal and state aid through a consortium agreement. Contact the Financial Aid Office for more information.

Types of Financial Assistance

It is the responsibility of the student and parent to secure the funds necessary to pay for all direct and indirect expenses incurred as a student at Ashland University. Financial assistance such as scholarships, grants, student employment, or loans may be available to those who qualify.

- Scholarships and grants are considered gift aid that does not require repayment. AU grants and scholarships listed on the following pages are available to full-time, regular undergraduate students who are billed the comprehensive rate of tuition while pursuing their first Bachelor’s degree. This excludes students in the Founders School of Continuing Education, RN to BSN, Accelerated Nursing, Bachelor’s Plus, or any online degree-completion programs. AU grants and scholarships are only available during the fall and spring semesters.
- Student employment is considered self-help assistance. Students may secure an on-campus job to earn funds by the hour to help with college expenses. Visit www.ashland.edu/student-employment and click on “Find a Job”.
- Student or parent loans are considered self-help aid that requires repayment after graduation or upon withdrawal from the University.

Half-time enrollment is required to borrow Federal Direct Loans. However, undergraduate students attending less than half-time may qualify for Federal Pell Grant, Supplemental Grant, TEACH Grant, Perkins Loan, and/or Work-Study employment. Students enrolled in study abroad may be eligible for Ashland University grants or scholarships. Contact the Financial Aid Office for more information.

Financial Aid opportunities are provided on the following pages under these section headings:

A. Ashland University-Funded Grants and Scholarships
B. Federal and State Grants and Scholarships
C. Student and Parent Loans
D. Student Employment

Financial Aid Refund Repayment Policy

Refer to the refund policy in the Finance & Administration section of this catalog. Financial aid questions related to the policy may be directed to the Financial Aid Office.

A. ASHLAND UNIVERSITY-FUNDED GRANTS AND SCHOLARSHIPS

Ashland University grants and scholarships are reviewed annually, and criteria is subject to change for returning and incoming students in future years. Students who meet eligibility criteria may qualify for multiple grants and scholarships from the University, but the total amount of institutional funds available to any one student will be limited to the full-time cost of tuition for the fall and spring semesters.
Students receiving Ashland University gift aid may not receive gift aid from federal, state, outside, and institutional sources that exceed the direct cost of full-time attendance at AU. The direct cost of attendance for students living on campus includes tuition (12-19 credits per semester), room, board, activity fee, technology fee, recreation center fee, and health center fee. The direct cost of attendance for students living off campus includes tuition, activity fee, technology fee, recreation center fee, and health center fee. Institutional aid will be reduced to prevent the above from occurring.

Ashland University allows students to benefit from scholarships received from outside/private sources. Students who qualify must inform the Financial Aid Office in writing regarding the name of the award, the amount of the award, and the number of years the award is available to the student. A copy of the outside/private grant or scholarship award letter is preferred. These funds will be added to the student’s award as long as the student demonstrates sufficient financial need and the total gift aid falls within the parameters noted in the previous paragraph. In the event that aid must be adjusted, Federal Work-Study or student loans may be adjusted.

INCOMING STUDENTS
AU Academic Scholarships
First-time freshmen are eligible for the following scholarships based on their ACT/SAT test score and cumulative high school GPA as of March 1. Awards range from $6,500 to $11,500. A minimum 18 ACT or 860 SAT score and a 2.5 or better GPA are required. Students may use the Net Price Calculator located at https://ashland.studentaidcalculator.com/survey.aspx to estimate their academic and need-based aid. Funding for these awards may come from endowed scholarships or restricted funds. Students are not eligible for more than one scholarship from the following academic award levels:

- Presidential Scholarship – renewable with 3.00 AU GPA
- Provost Scholarship – renewable with 2.75 AU GPA
- Director Scholarship – renewable with 2.00 AU GPA
- Ambassador Award – renewable with 2.00 AU GPA

Honors Program Scholarship
Incoming freshmen and transfer students who have been accepted into the Honors Program are eligible to apply for a $1,000/1,500 per year merit-based scholarship. Renewal of this award requires remaining an active member of the Honors Program. The application is available at www.ashland.edu/administration/honors-program/honors-scholarships and must be completed prior to March 1 to receive full consideration.

TRANSFER STUDENTS
Alpha Beta Gamma National Business Honor Society Scholarship
A $500 scholarship for incoming transfer students with a minimum 3.0 GPA and an A.A., A.S., A.A.S., or Canadian-equivalent degree. An Alpha Beta Gamma designation is required on the student’s transcript. This scholarship is renewable with a minimum 3.0 GPA.

Phi Theta Kappa Scholarship
A $1,000 scholarship for incoming transfer students with a minimum 3.0 GPA and an A.A., A.S., A.A.S., or Canadian-equivalent degree. A Phi Theta Kappa designation is required on the student’s transcript. This scholarship is renewable with a minimum 3.0 GPA.

Transfer Academic Scholarship
This award is for students who earn one or more credits from a college or university after high school graduation. Incoming transfer students who have attained a cumulative 3.0 GPA or higher in college are eligible for this award. Post-secondary coursework is excluded from the cumulative GPA calculation. This scholarship ranges from $3,500 to $7,500 and is renewable with a cumulative 3.0 GPA or higher. Redmit transfer students are not eligible.

INTERNATIONAL STUDENTS
International Academic Scholarship
First-time international freshman and transfer student who have attained a cumulative 3.25 GPA or higher in high school/college are eligible for this award. This scholarship ranges from $1,000 to $3,000 and is renewable with the cumulative GPAs listed below.

- International Level 1 – renewable with 3.75 AU GPA
- International Level 2 – renewable with 3.50 AU GPA
- International Level 3 – renewable with 3.25 AU GPA

ADDITIONAL AU SCHOLARSHIPS
Art, Music, and Theatre Scholarships
The Art, Music, and Theatre departments award these scholarships based on talent. Students are required to participate in an on-campus interview: an audition for the theatre and music scholarships and a portfolio submission for the art scholarship. Scholarships are renewable by fulfilling certain departmental criteria.

Ashbrook Scholarship
A $2,000 annual scholarship awarded to Ashbrook Scholars and renewable each year based on merit. Applications are available through the Ashbrook Center.

Ashland University Grant
A need-based grant offered based on an incoming freshman’s need, high school GPA, and ACT/SAT scores or a transfer student’s college GPA. Renewal is based on the need of the student in subsequent years and the academic performance of the student at Ashland University.

Athletic Scholarship
Men’s and women’s varsity sports offer scholarships to selected athletes. The coaches, under the leadership of the athletic director and in coordination with the Financial Aid Office, determine standards of distribution that follow the guidelines set by the athletic conference and the NCAA Division II. The coach determines the amount of the scholarship.
Brethren Grant
Students who are members of the Ashland-based Brethren Church are eligible for this $1,000 grant. A letter from the student’s minister verifying membership must be sent to the Director of Admission. This grant is renewable by maintaining satisfactory academic progress.

Brethren Summer Ministries Award
Students who participate in the summer ministry program of the Board of Christian Education of the Ashland-based Brethren Church are eligible for this $1,000 grant for the academic year immediately following their summer of service. The grant is renewable with subsequent summers of service.

Endowed Scholarships
Endowed scholarship recipients are selected by the Financial Aid Office. These scholarships are used primarily to fund AU academic scholarships and need-based grants.

Legacy Grant
Children and grandchildren of Ashland University alumni are eligible for this $1,000 grant. An alumnus is defined as a parent or grandparent who has earned at least 32 undergraduate credits or an undergraduate or graduate degree from Ashland University. This grant is renewable by maintaining satisfactory academic progress.

Mathematics and Computer Science Department Scholarships
The AU Mathematics and Computer Science Department offers the following scholarships to students who achieve certain results on the noted tests:
- AMC-12 Scholarship – $2,000 per year
- OCTM State Mathematics Contest – $2,000 per year
Contact the Department of Mathematics and Computer Science for more information.

Ministerial Grant
This grant is offered to children of pastors, missionaries, and staff ordained/licensed and actively serving full-time within the Ashland-based Brethren Church or who have retired from full-time service for reasons of age or health. Students who qualify will receive total AU gift aid equal to 65% of tuition. The grant is renewable with a minimum 2.5 GPA.

Science Scholarship
The University offers science awards to students who receive a superior rating at the Mohican District Science Fair hosted by Ashland University or the Ohio Academy of Science Fair hosted by Ohio Wesleyan University. The amount of the scholarship is $1,000 at the district level and $2,000 at the state level.

B. FEDERAL AND STATE GRANTS AND SCHOLARSHIPS

Federal Pell Grant
Students may apply for this need-based federal grant by filing the FAFSA. The award ranges from $606 to $5,920 for 2017-18.

Federal Supplemental Educational Opportunity Grant
These federal funds are awarded by Ashland University to students who have a high financial need. Students must file a FAFSA and be Federal Pell grant eligible for consideration. Grant amounts vary.

Federal TEACH Grant
The Teacher Education Assistance for College and Higher Education (TEACH) Grant program provides up to $4,000 a year to students completing or planning to complete coursework needed to begin a career in teaching. Enrollment in an eligible degree program is required. Students must sign an Agreement to Serve in a high-need field at an elementary school, secondary school, or educational service agency that serves students from low-income families for at least four complete academic years within eight years after completing (or ceasing enrollment in) the course of study for which the grant was received. If the required service obligation is not completed, then all TEACH grant funds will convert to a Direct Unsubsidized Loan that must be repaid with interest charged from the date the TEACH grant was disbursed. Additional eligibility requirements can be found at www.ashland.edu/administration/financial-aid/current-students.

Ohio College Opportunity Grant
A need-based grant offered by the State of Ohio available to eligible students who are residents of Ohio. A student must file the FAFSA to apply for this program.

Ohio National Guard Tuition Grant
This grant is offered to eligible members of the National Guard for undergraduate studies. The grant pays the average state-assisted university’s tuition costs at private institutions recognized by the Ohio Student Aid Commission. Contact a local Ohio National Guard Armory for further information and an application.

Ohio War Orphan Scholarship
Awarded to students whose parent served at least 90 days of active duty during a declared war or conflict and is severely disabled or deceased as a result of service. Applications are available from high school guidance counselors or veterans offices.

Pennsylvania State Grant
This grant is available to eligible full-time students who are residents of Pennsylvania. Students can apply for this grant by filing a FAFSA.

C. STUDENT AND PARENT LOANS

The cost of a college education ought to be viewed as a valuable investment in one’s future. It is necessary for most families to borrow loans to supplement other financial aid to pay for a student’s education. Students are wise to borrow the least amount possible during their college career. Repayment normally begins upon graduation, withdrawal from college, or when a student drops below half-time enrollment. Students who default on student loan payments will damage their credit ratings and thus their ability to make credit purchases in the future. Students who will receive aid in excess of their university charges due to receipt of loan funds may request a refund after attending their first class or later by contacting the Student Accounts Office.
Federal Direct Loans

Direct Loans are available in the amount of $5,500 per year for freshmen, $6,500 per year for sophomores, and $7,500 per year for juniors and seniors. Of these amounts, students may qualify for subsidized Direct Loans of up to $3,500 for freshmen, $4,500 for sophomores, and $5,500 for juniors and seniors. Subsidized Direct Loans are interest free while the student is enrolled at least half-time and are based on financial need as determined by the Financial Aid Office. The remainder of the loan funding comes through the unsubsidized Direct Loan which accrues interest while the student is enrolled. The interest of the unsubsidized Direct Loan will be capitalized and added to the principal of the loan or payments toward the accrued interest may be made while the student is enrolled. The interest rate on a Direct Loan is fixed for undergraduate students. Loan repayment begins six months after the student ceases half-time enrollment. Independent undergraduate students or dependent students whose parents are unable to borrow a Parent Plus loan are eligible to borrow additional funds as follows: $4,000 per year for freshmen and sophomores, and $5,000 per year for juniors and seniors.

Federal Perkins Loan

This loan program is designed to assist students who demonstrate financial need through the FAFSA. A loan of up to $2,000 may be awarded to full-time, incoming freshman. Early FAFSA filing is recommended as funds are limited. Repayment and interest begin nine months after the student ceases enrollment in college on at least a half-time basis. The current fixed interest rate is 5%, and the maximum repayment period is ten years.

Private Educational Alternative Loans for Students

Private loans borrowed by the student usually require a credit-worthy cosigner. Funding may be secured up to the cost of attendance minus all other financial assistance received by the student. Interest can be paid monthly, quarterly, or capitalized and added to the loan principal until after the borrower ceases at least half-time enrollment. Always read the terms and conditions carefully.

Federal Parent PLUS Loan

Parents of dependent students may borrow this loan to help pay for educational expenses up to the cost of attendance minus all other financial assistance received by the student. The Parent PLUS Loan has a fixed interest rate and repayment begins two months after the date of full disbursement, but may be deferred while the student is enrolled at least half-time.

Private Educational Alternative Loan for Parents

Parents and, in some cases, other interested parties can now apply for loans to assist students in financing their education. These loans are credit-based and offer rates that are competitive with the Federal Parent PLUS Loan. Individuals can borrow up to the cost of attendance minus all other financial assistance received by the student.

Ashland University provides a Private Loan Comparison List at www.ashland.edu/student-loans. This is not a full list of potential lenders, but is a good place to start your search. If you apply with a lender not on the comparison list, the lender must send their School Certification Form to Ashland University’s Financial Aid Office for completion.

D. STUDENT EMPLOYMENT

AU’s Work-Study and Regular Student Employment programs employ 400 to 500 students per year. On-campus employment consideration is first given to those who qualify for the Federal Work-Study program. Jobs may relate to a student’s major or simply be a way to earn cash for educational expenses. Students are paid every two weeks for hours worked, and most positions pay minimum wage. Visit www.ashland.edu/student-employment and click on “Find a Job”.

Federal Work-Study

Federal Work-Study is funded partially by the federal government and partially by the University. The majority of on-campus jobs are available through the Federal Work-Study program, and eligible students may earn up to $3,100 per year. Federal Work-Study is awarded to students who demonstrate financial need as determined by the FAFSA.

Regular Student Employment

Regular student employment is funded solely by Ashland University, available to all AU students enrolled at least half-time, and not dependent on financial need.

Resident Assistant

Students selected receive free room and a stipend. Various duties focus on the development of a floor and hall community. Responsibilities include organizing social and educational floor events, participating in conflict resolution activities, responding to crises, serving as a referral source, and assisting with the adjustment issues that students face. Applications are available to upper-class students from the Office of Residence Life, and the selection process is highly competitive.

FINANCIAL AID SATISFACTORY ACADEMIC PROGRESS POLICY FOR UNDERGRADUATES

Federal regulations require an institution develop and enforce a satisfactory academic progress (SAP) policy. The standards set for financial aid recipients must be at least as strict as the policy set for students not receiving aid. This policy applies to any student enrolled in an undergraduate program whether or not the student ever received financial aid. The Ashland University Financial Aid Office will administer this policy and review the academic standing of all financial aid recipients once a year following the spring semester, with the exception of online students and students withdrawing from or failing all classes, as these students will be monitored at the end of each term.

This is a separate policy from the academic policy administered by the Academic Standards and Graduation Committee. Therefore, students may be permitted to enroll at Ashland University, but may not be financial aid eligible due to not meeting the standards in this policy.
INTERPRETATION AND ENFORCEMENT
The Director of Financial Aid will have primary responsibility for the interpretation and enforcement of this policy. Unusual issues related to this policy may be directed to the Financial Aid Committee for review.

DEFINITION OF TERMS
1. **Financial Aid:** Refers to federal, state, or institutional aid. This Satisfactory Academic Progress policy applies to eligibility for any of these types of financial aid.
2. **Satisfactory Academic Progress (SAP):** A policy developed by an institution that measures a student’s academic performance and determines whether or not a student is eligible for federal, state, and/or institutional aid. The policy must specify that both the qualitative (grade-based) and quantitative (time-based) standards are reviewed.
3. **Academic Year:** The fall and spring semesters of a given year. The summer term may be a header for the upcoming academic year or a trailer for the past academic year for financial aid purposes.
4. **Enrollment Status:** Based on the number of credits enrolled during a regular term:

<table>
<thead>
<tr>
<th>Enrollment Status</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-time</td>
<td>12 or more</td>
</tr>
<tr>
<td>Three-quarter time</td>
<td>9 - 11</td>
</tr>
<tr>
<td>Half-time</td>
<td>6 - 8</td>
</tr>
<tr>
<td>Less-than-half-time</td>
<td>1 - 5</td>
</tr>
</tbody>
</table>

5. **Satisfactory Course Completion:** A final grade of "D-" or higher, "S" (Satisfactory), or "CR" (Credit). Unsatisfactory course completion is represented by grades of “F”, “WF”, “W”, “I”, or “U”.
6. **Repeated Course:** Refers to courses that are repeated to replace a prior low grade. Repeated courses will count towards the number of credits attempted, but will not affect the cumulative credits completed. Financial aid can only be used to pay for a repeated course one time if repeated to improve a passing grade. Financial aid may be used to pay towards a failed course until a passing grade (D- or better) is received, assuming that other requirements of this policy have been met.
7. **Remedial Course:** Classes taken in order to meet program standards before regular college courses can be taken. Remedial coursework does not count towards credits attempted or completed. Financial aid cannot be used to cover the cost of remedial coursework.
8. **Preparatory Coursework:** College courses required before the student is admitted into an academic program. Students are eligible for Federal Direct Subsidized/Unsubsidized Loans for up to one year if the coursework taken is necessary for enrollment in an eligible Financial Aid program.
9. **Good Financial Aid Standing:** A status assigned to a student who meets the standards in this policy.

10. **Financial Aid Suspension:** A status assigned to a student who fails to meet any standard in this policy and is ineligible to receive financial aid at Ashland University. A student may submit required appeal documents to the Financial Aid Office to request the reinstatement of aid.
11. **Financial Aid Probation:** A status assigned to a student who fails to meet the standards of this policy, but whose eligibility was reinstated through the financial aid appeal process. Financial aid eligibility is reinstated for one term and then reevaluated after that term to determine further eligibility.
12. **Transfer Credits:** Courses taken at another institution that are accepted by Ashland University and applied to the student’s AU academic transcript. Accepted transfer credits will be included in the credits attempted and credits completed totals used in determining AU financial aid eligibility.
13. **Grade of Incomplete (I):** A course with a grade of “I” is counted as an “F” until the course is completed. It is the student’s responsibility to notify the Financial Aid Office once the course has been assigned another grade.
14. **Maximum Timeframe for Degree Completion:** An institution must establish a maximum timeframe in which a student is expected to complete his/her degree requirements for each program of study. Bachelor degree students may attempt a maximum of 180 credits before graduating and Associate degree students may attempt a maximum of 90 credits before graduating. Classes withdrawn after the drop deadline for that semester will be considered attempted credits for maximum time frame purposes. Students may submit an appeal to the Financial Aid Office to request additional time to complete their degree requirements.
15. **Second Majors or Second Degrees:** Students with additional majors or enrolled in second degree programs will have their terms of enrollment reevaluated and lengthened if appropriate. This will be done on a case-by-case basis.

STANDARDS OF MEASUREMENT
Students will be considered in Good Standing for financial aid purposes if they meet both of the following standards of measurement, which will be evaluated at the end of every spring semester.

**Qualitative Requirements**
Students must achieve the following minimum cumulative grade point average (GPA) standard:

<table>
<thead>
<tr>
<th>Class</th>
<th>Credits Earned</th>
<th>Required Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshmen</td>
<td>1 – 29</td>
<td>&gt;1.500</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 – 59</td>
<td>&gt;1.750</td>
</tr>
<tr>
<td>Junior/Senior</td>
<td>60+</td>
<td>&gt; = 2.000</td>
</tr>
</tbody>
</table>

Students who do not meet this standard will immediately be ineligible for financial aid (federal, state, and institutional). Reinstatement of aid may occur through the appeal process or once the student attains the required **cumulative GPA** at Ashland University, provided the student meets all other policy standards.

Students who receive a grade of “F”, “WF”, “W”, “I”, or “U” in all courses during any term will immediately lose eligibility for financial aid.
Quantitative Requirements

Students must successfully complete at least 67% of their cumulative attempted credits. Attempted credits are determined by the number of credits a student is registered for at the end of the drop date for the term. This percentage will be calculated by taking the number of attempted credits divided by the credits completed. Students who do not meet this standard will immediately be ineligible for financial aid (federal, state, and institutional). Reinstatement of aid may occur through the appeal process or once the student attains the required percentage of completed credits at Ashland University, provided the student meets all other policy standards. A warning letter will be sent to students who are close to falling below this standard at the end of each term.

Associate’s Degree

Students enrolled in an Associate’s Degree program need 60 credits to complete their degree and may attempt a maximum of 90 credits to complete this degree. Students who exceed this limit will be ineligible for aid.

Bachelor’s Degree

Students enrolled in a Bachelor’s Degree program normally need 120 credits to complete their degree and may attempt a maximum of 180 credits. Students exceeding this limit will be ineligible for aid.

Additionally, a student who cannot mathematically complete his/her Bachelor or Associate degree within the allotted maximum credits is also ineligible for aid.

Frequency of Review

Although satisfactory academic progress (SAP) will be officially reviewed for undergraduate students once per year (after the spring semester), there are two exceptions as listed below:

1. Online students will have their academic progress reviewed at the end of each term. Students who do not meet any standard of this policy will become ineligible for aid for the next term of enrollment.
2. Undergraduate students who withdraw from or fail (includes grades of “F”, “WF”, “W”, “I” and “U”) all classes within a given term will become ineligible for aid for the next term of enrollment.

Merit-Based Financial Aid

Additional requirements must be met by students eligible to receive certain institutional scholarships. The minimum cumulative GPA required to retain these scholarships is notated below, and eligibility for renewal is reviewed annually after the spring semester. Scholarships awarded by other departments may have additional requirements for renewal.

<table>
<thead>
<tr>
<th>Scholarship</th>
<th>Minimum GPA Required</th>

</tr>
</tbody>
</table>

APPEALS AND FINANCIAL AID PROBATION

Students ineligible for financial aid because satisfactory academic progress standards were not met, may submit required appeal documents as listed on their letter of ineligibility to the Financial Aid Office. The Financial Aid Committee will review appeals and determine whether or not a student will be offered financial aid for another term. The committee will consider any unusual or extenuating circumstances which may include, but are not limited to, the following:

- Illness
- Injury
- Severe mental or emotional stress
- Physical or mental hardship

If the Financial Aid Committee approves the appeal, the student will be placed on Financial Aid Probation for one term, during which time the student will be eligible to receive financial aid. The student's academic progress will be reevaluated at the end of the next term to determine if the student has met the required standards and continues to qualify for aid.

NOTE: Financial aid policies and programs are subject to change under the direction of the Board of Trustees.
Financial Aid

Ashland University provides financial assistance to qualified, eligible undergraduate students who have been accepted for admission to the University, are not on disciplinary probation, and meet the standards of the Financial Aid Policy. Financial assistance is awarded annually based on academic and talent-based accomplishments and/or financial need determined by a combination of federal, state, and University sources. Students must reapply for financial aid each year and meet the necessary criteria required for renewal.

When accepting a financial aid award, students are certifying that they understand and agree to the financial aid award terms of agreement made available on the back of their award letter or located at https://www.ashland.edu/administration/review-your-award/undergraduate-financial-aid-terms-and-conditions.

Federal regulations require that institutions receiving Title IV Funding provide specific consumer information about the school to students. Visit http://www.ashland.edu/consumer-information for more details and web links.

How to Apply for Financial Aid

To apply for financial aid, go to https://www.ashland.edu/administration/financial-aid.

Information concerning financial aid may also be obtained by contacting the office at 419.289.5003.

Applications for financial aid will be processed on a first-come, first-served basis with priority given to those applications submitted by March 1 for summer and May 1 for fall/spring. Students should complete the following steps to apply for financial aid:

1. Apply for admission to Ashland University.
2. Create an FSA ID made up of a username and password at www.studentaid.gov/fsaid. If the student is a dependent student, both the student and a parent must create FSA IDs to sign the FAFSA on the Web. Your FSA ID is used to sign legally binding documents electronically so do not share with anyone.
3. Complete the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov.
4. Graduate students, complete Ashland University Financial Aid Application at https://www.ashland.edu/administration/financial-aid/graduate-students.
5. Review your Ashland University financial aid award and visit www.ashland.edu/student-loans to determine what required loan processes may need to be completed. For instance, all first-time borrowers of federal loans must complete loan entrance counseling and a master promissory note prior to the disbursement of federal loan funds.

Interpretation and Enforcement

The Director of Financial Aid will have primary responsibility for the interpretation and enforcement of this policy. Unusual issues related to this policy may be directed to the Financial Aid Committee for consultation.

Definition of Terms

1. Academic Year: the fall, spring, and summer terms of a given year.
2. The status of a graduate student according to the credit hours taken in a regular term is as follows:

<table>
<thead>
<tr>
<th>Graduate Degree</th>
<th>Credit Hours</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor’s Plus</td>
<td>6 or more</td>
<td>full-time</td>
</tr>
<tr>
<td></td>
<td>3–5</td>
<td>half-time</td>
</tr>
<tr>
<td></td>
<td>1–2</td>
<td>less-than-half-</td>
</tr>
</tbody>
</table>

3. Satisfactory Course Completion is a final grade of “C-” or higher, “S” (Satisfactory) or “CR” (Credit).
4. A repeated course is one taken again that could affect a student’s cumulative grade point average. Repeated courses will count toward the minimum number of credit hours per term, but will not affect the cumulative credit hours completed.
5. A student on Financial Aid Warning is eligible to receive financial aid, but must demonstrate satisfactory academic progress.
6. Transfer hours that are creditable to an Ashland University degree will be rounded down to the nearest multiple of 6 to determine the corresponding terms the student has already used in financial aid eligibility.

Attendance at Other Institutions

Students enrolled at other institutions as part of their Ashland University degree are not eligible for financial aid from Ashland University, but must apply for aid at the other institution. Students who attend Ashland University and another institution simultaneously may be eligible for federal and state aid through a consortium agreement. Contact the Financial Aid Office for more information.

Types of Financial Assistance

It is the responsibility of the student and parent to secure the funds necessary to pay for all direct and indirect expenses incurred as a student at Ashland University. Financial assistance such as scholarships, grants, student employment, or loans may be available to those who qualify.

- Federal and state grants are considered gift aid that does not require repayment.
- Student employment is considered self-help assistance. Students may secure an on-campus job to earn funds by the hour to help with college expenses. Visit www.ashland.edu/student-employment and click on “Find a Job”.
- Student or parent loans are considered self-help aid that requires repayment after graduation or upon withdrawal from the University.

Half-time enrollment is required to borrow Federal Direct Loans. However, undergraduate students attending less than half-time may qualify for the Federal Pell Grant, Supplemental Grant, or TEACH Grant. Contact the Financial Aid Office for more information.
Financial Aid opportunities are provided on the following pages under these section headings:
A. Federal and State Grants and Scholarships
B. Student and Parent Loans

Financial Aid Refund Repayment Policy

Refer to the refund policy in the Finance & Administration section of this catalog. Financial aid questions related to the policy may be directed to the Financial Aid Office.

E. STUDENT AND PARENT LOANS

The cost of a college education ought to be viewed as a valuable investment in one’s future. It is necessary for most families to borrow loans to supplement other financial aid to pay for a student’s education. Students/parents are wise to borrow the least amount possible during their college career. Repayment normally begins upon graduation, withdrawal from college, or when a student drops below half-time enrollment. Students who default on student loan payments will damage their credit ratings and thus their ability to make credit purchases in the future. Students who will receive aid in excess of their university charges due to receipt of loan funds may request a refund after attending their first class or later by contacting the Student Accounts Office. Visit www.ashland.edu/student-loans for more information.
Mission Statement
The Division of Student Affairs at Ashland University is committed to promoting the academic purpose of the university while enhancing student learning outside of the classroom. Through collaboration with faculty, staff and students, we strive to build a strong community of respect and affirm the value of each individual.

Campus Creed
As a member of Ashland University, I will hold myself to the highest standards of academic, personal and social integrity; respect the dignity of each individual; honor the University's tradition and commitment to Judeo-Christian values; and serve others in our world community. (Written and adopted by Student Senate on the eleventh of April in the year 2000.)

Mansfield Nursing Campus – Student Life
Student activities and student organizations such as Student Nurses Christian Fellowship, SCRUBS, and Student Nursing Association are provided for nursing students. Freshmen and sophomore students are required to live on the Ashland campus unless eligible to commute. Upper class students are required to reside on the Ashland campus or in Mansfield apartments unless they meet off-campus criteria.

Student Center
The Hawkins-Conard Student Center promotes student community for undergraduate residential, commuter, and graduate students. Included in the center are a bookstore, health center, Safety Services Office, International Student Services, Eagles’ Landing, mail center and student mailboxes, ATM machine, Eagles’ Nest snack bar, wireless internet, copy machine, multipurpose auditorium, commuter lounges and lockers, meeting rooms, student organization resource room, as well as selected offices of Student Affairs.

Orientation
For the majority of new students, orientation is a two-part process that helps ease the transition into university life. First, the one-day summer Drive In program allows students and families to learn of services and campus involvement opportunities, and get answers for initial questions by meeting with upper class students, faculty and staff. Second, participation in the fall Orientation Weekend is essential for new students and transfer students as it provides an opportunity to create new friendships and become acclimated to campus before classes begin.

Prior to spring semester, a shortened orientation program is provided for new students and their families. Orientation is conducted by a student orientation team, faculty and administration, and is coordinated through Student Affairs. Further information is located on our website: https://www.ashland.edu/student-affairs/getting-involved/orientation-programs.

Residence Life
As a residential campus community, Ashland University requires its students to live on campus and contribute to its environment. Students play an integral part in the creation of programs, as well as housing policies and procedures through their involvement in the hall councils and other student leadership organizations.

All full-time students must reside on campus unless they reside in the permanent, primary residence of their parents/guardian within thirty-five driving miles of Ashland University. Residential students, except those assigned to the Senior and College Avenue apartments, are also required to have a meal plan. All students residing in apartments must have a meal plan unless registered as senior status, 90+ credit hours. Students who are 22 years old prior to October 1 of the current academic year are permitted to reside off campus. Off campus applications are due by March 1 for returning students and are accepted on a rolling basis for new and transfer students. Any student found to be living off campus without authorization will be invoiced for full room and board charges.

Campus Activities
The national award-winning Campus Activities Board and the Student Activities department serve together as a primary resource for campus programming. In addition, there are more than 100 other active organizations and campus groups.

Student Handbook
The Student Handbook, developed by students, faculty, administrators, and the Board of Trustees, contains the policies and regulations for Ashland University. Primary handbook content areas include: academics, campus services, and health and counseling services, student conduct system, University policies, residence life, safety services, and student involvement. See it online at https://www.ashland.edu/student-affairs/student-resources. A limited number of hard copies are available in the Student Affairs Office.

Psychological Counseling Center
Ashland University provides FREE personal, social, academic, and career counseling and related services to address a variety of student’s needs. Such services include:

- Accelerated learning
- Alcohol & drug awareness
- Career testing
- Counseling for personal concerns
- Decision making strategies
- Guidance for professional school
- Human sexuality information and counseling
- Memory improvement
- Premarital & marital decision making
- Speed reading

- Test anxiety & relaxation
- Test preparation: MCAT, GRE, PRAXIS, LSAT
- Time management
- Training for improvement of study skills
- Workshops and skills enhancement programs
- Depression management
- Proper sleep hygiene
- Relationship building
- Communication skills

Vice President for Student Affairs
Dr. Hannah Clayborne

https://www.ashland.edu/student-affairs/
Students can be assured that the personal concerns will be treated as COMPLETELY CONFIDENTIAL, within the parameters of the Family Educational Rights and Privacy Act of 1974 and the Licensure Board of the State of Ohio.

Career Services Center
The Career Services Center provides career consultation, programs and a resource room to students and alumni. The center assists students in planning for their careers; researching career fields, internships, graduate schools, and employers; and developing resumes, networking, and job search strategies. Students are strongly encouraged to undertake internship experiences while at Ashland University. The students interested in completing an internship should contact the Career Services Center and his/her faculty advisor, the latter for potential credit. Visit https://www.ashland.edu/student-affairs/career-services/career-resources/career-services-center for more information.

Center for Community Service
The Community Service Office will strive to provide meaningful service opportunities locally, nationally and even globally in an effort to encourage social responsibility, community involvement and thoughtful action. The department works with service agencies, academic departments, and public schools, and coordinates service trips.

Commuter Services
Commuter Services is committed to assisting commuter students by identifying available resources and providing services which foster a successful college experience. Through service, programs, advocacy, and research, commuter students’ learning and individual student development is enhanced. For information about the commuter lounge, lockers, and parking, as well as the “Campus Happenings” weekly email and other resources, please visit: https://www.ashland.edu/student-affairs/commuting/commuter-services.

Health Center
The Health Center provides confidential medical care for common illnesses and injuries and arranges for consultation with specialists as needed. The services are covered by an undergraduate student health fee and include a gynecology clinic, a sports medicine clinic, and health and wellness education materials. The staff typically consists of the director of health services and counseling, an administrative assistant, a physician assistant, a registered nurse, and a part-time physician. The health center is located on the first floor of the Hawkins-Conard Student Center.

Office of Institutional Diversity
The Office of Institutional Diversity seeks to support institutional excellence through initiatives which advance the University’s Diversity and Strategic plans while fostering civility and respect for the value of all. Committed to a multidimensional approach, the Office will use qualitative and quantitative data as the compass for plotting its course to create and prioritize plans which make for an ever improving Ashland University.

Recreational Services
The Ashland University Department of Recreational Services encourages individuals to develop and maintain an active and healthy lifestyle by enhancing mind, body and spirit. The department builds community and shapes participants by facilitating fitness, wellness, leadership and developmental opportunities through a comprehensive recreational facility, programs and services. Facility highlights include the Recreation Center comprised of two gymnasiums, one multi-purpose area, climbing and bouldering walls, fitness center, weight room, game room, aerobics room, golf simulator, swimming pool, whirlpool, sauna, 3-lane jogging track, and two racquetball courts; and outside, four sand volleyball courts, and intramural/sport clubs field. Membership to the Recreation Center is open to all AU/ATS students, and AU/ATS faculty and staff and their families.

Safety Services on the Ashland Campus
The Ashland University Safety Services department is a support services department that enforces campus policies and maintains a safe and secure environment for the campus community. Located on the first floor in the Hawkins-Conard Student Center, the Safety Services department operates 24 hours a day, seven days a week. Around-the-clock service is provided by a dispatcher and at least one uniformed, unarmed officer patrolling campus. Common services of this department are outlined below.

- Routine safety/security patrol of campus, including residence halls
- Monitor electronic building access status
- Safety Escorts - available 24 hours a day
- Registration/distribution of parking permits
- Response to reports of crime or criminal behavior
- Assist motorists with vehicle lockouts and jumpstarts
- Assist students locked out of their room/residence hall

Safety Services on the Mansfield Campus
The Safety Services office works with Schmidt Security Pro for evening coverage (10 p.m. - 6 a.m.) as well as the Mansfield Police Department for the Mansfield Nursing Campus.
Office of Christian Ministry

University Chaplain/Executive Director of Christian Ministry
Jason Barnhart

Ashland University is a liberal arts university committed to Christian values. The Office of Christian Ministry exists to support, stimulate, and encourage those values in student life and among the various departments of Ashland University. As such, the Office of Christian Ministry sponsors and cosponsors a large number of student organizations and activities oriented to the Christian life. In addition, Christian Ministry sponsors all-campus convocations each year for the President's Convocation, Christmas, and Martin Luther King Jr. Day. Also a baccalaureate service is planned each year highlighting the graduating class.

Some of the student organizations and activities sponsored by Christian Ministry are The Well, Fellowship of Christian Athletes, Isaiah Project (mission opportunities—campus, community, and world), and several different worship opportunities. For more information, see the website, or call the Christian Ministry office, ext. 5489.
Athletics
http://www.goashlandeagles.com

Athletic Director
Al King

Ashland University offers 20 intercollegiate sports – 10 for women and 10 for men. The Eagles play in NCAA Division II, and in the Great Lakes Intercollegiate Athletic Conference.

Women
- Basketball
- Cross country
- Golf
- Soccer
- Softball
- Swimming and diving
- Tennis
- Indoor track and field
- Outdoor track and field
- Volleyball

Men
- Baseball
- Basketball
- Cross country
- Football
- Golf
- Soccer
- Swimming and diving
- Indoor track and field
- Outdoor track and field
- Wrestling

The 2016-17 academic year saw another set of significant accomplishments for Ashland University athletics. In the winter alone, the Eagles celebrated a team national championship and two individual national titles. In April, right end Adam Shaheen was drafted in the second round of the 2017 National Football League Draft by the Chicago Bears. Finally, in the spring came Ashland’s third and fourth individual national titles of athletic year.

Seven Eagles earned College Sports Information Directors of America (CoSIDA) Academic All-American honors, and five garnered GLIAC Commissioner’s Awards. The cumulative grade-point average for the entire athletic department in the spring 2017 semester was 3.43.

Ten Ashland teams participated in the NCAA Division II postseason in 2016-17 - men’s cross country, men’s indoor track and field, men’s outdoor track and field, wrestling, women’s basketball, women’s cross country, women’s golf, women’s indoor track and field, women’s outdoor track and field and volleyball.

Fall 2016 Highlights
Ashland’s volleyball team (23-11) earned a return trip to the NCAA postseason for the first time in three years, and saw a rarity when seniors Alli Cudworth and Casey Clark became 1,000-1,000 (career kills and digs) players in the same season…The Eagle football team sported a 9-2 record and ended 19th in the American Football Coaches Association (AFCA) Division II Coaches’ Top 25 poll…The fall of 2016 saw the return of Eagle men’s soccer (6-11-1) to the pitch, and the season ended with home wins over Findlay and NCAA postseason participant Tiffin…Ashland women’s soccer finished 10-3-4 and qualified for the GLIAC Tournament for the fourth consecutive season…Senior Nick Hall earned his second D-II All-American award in cross country, and the men placed 10th and the women 24th at the Midwest Regional meet…Women’s tennis got a fresh start in the fall with the hiring of Lexi Bolesky as head coach, and the christening of the renovated and expanded Deborah Liebert Karl Tennis Complex.

Winter 2016-2017 Highlights
The women’s basketball team earned its second Division II national championship in program history following a 93-77 win over Virginia Union in Columbus, Ohio. Ashland became the first D-II women’s basketball team in history to finish a season with a 37-0 record…Ashland’s men’s indoor track and field team placed second at nationals for the third time in the last seven seasons, and featured sophomore Myles Pringle, who won a national title in the men’s 400-meter dash (46.39 seconds)…The Eagle wrestling program finished sixth at nationals, its highest D-II placement since 2002, and saw senior 133-pounder Michael Labry win Ashland’s first national title in 21 years…Ashland’s men’s basketball team ended 19-10 thanks to a 12-4 finish, and was within a possession of winning the GLIAC Tournament…Five Eagle women’s indoor track and field athletes qualified for D-II nationals…The men’s and women’s swimming programs saw a change at the top with the hire of veteran D-II head coach Ron Allen.

Spring 2017 Highlights
The men’s outdoor track and field team earned two more national titles, as Pringle won the men’s 400 dash (school-record 45.77 seconds) and junior Daniel Roberts won the men’s hammer throw (69.84 meters/229-feet-1). Ashland’s men won the GLIAC Championships for the first time since 2013, and were ranked No. 1 in the country going into the meet…Ashland’s softball team went 30-23 and was two wins away from taking a GLIAC Tournament title for head coach Sheilah Gulas, who has retired after 21 years guiding the Eagles and who will be inducted into the National Fastpitch Coaches Association (NFCA) Hall of Fame in December…The Eagle women’s golf team qualified for and played in the Division II Super Region 1 tournament for the eighth consecutive season…Four women’s indoor track and field athletes earned All-GLIAC honors at the conference meet…Ashland’s baseball team finished 20-29, ending on a six-game winning streak…Eagle head men’s golf coach Darrin Jones retired after 13 seasons at the helm.

Other Highlights
Former Ashland University defensive end Bill Royce was inducted into the College Football Hall of Fame on Dec. 6, 2016…Jamie Meder, a former Eagle All-American defensive lineman, blocked a field goal to help the Cleveland Browns to their only win of 2016 and re-signed with the Browns in March of 2017…AU’s Student-Athlete Advisory Committee raised $6,426.03 for the Make-A-Wish Foundation.
The integration of the liberal arts and career development is a major strength of Ashland University. Through what might be called a synthesis for learning, Ashland University has faced the challenge of, on the one hand, meeting discipline standards for certifications and keeping majors up to date while, on the other hand, preserving the liberal arts and allowing students a measure of flexibility in their course selection. The concept which has evolved contains three primary elements: core requirements, major/minor requirements, and elective courses.

Ashland University intends to liberate the minds of students and to challenge each student to reach their full potential. Academic Affairs works to see that the teaching and program core of the institution allow and encourage that growth.

Academic Affairs is administered by the Provost through the Academic Council.

This catalog and listing of course offerings represent institutional policy and program requirements at the time of print. Students should contact their adviser to discuss any changes to programs or course offerings after print. Revisions to the printed catalog for academic policy changes are available on the Office of Records and Registration web page at https://www.ashland.edu/administration/office-records-and-registration.

Student Learning Outcomes
1. Intellectual Development
   Students will analyze evidence, apply specialized knowledge, and think critically and creatively to solve problems.
2. Ethical Development
   Students will apply principles of integrity and ethical decision-making to address real-world issues.
3. Civic Engagement
   Students will apply knowledge, skills, and values in order to work, serve, and lead in their communities.
4. Global and Intercultural Competence
   Students will exhibit competence for constructive engagement within global and intercultural contexts.

The College of Arts and Sciences

Art
majors - art education, commercial art, computer art and graphics programming, fine art
minors - art history, studio art

Biology/Toxicology
majors - biology (with the option of a concentration in forensic biology), biology/environmental science, integrated science education, life sciences education, toxicology
minors - biology, environmental science

Chemistry/Geology/Physics
majors - biochemistry, ACS-certified chemistry, chemistry, chemistry education, chemistry/environmental science, earth science education, forensic chemistry, geology, geology/environmental science, geoscience technology & management, integrated science education, physical science education, physics
minors - chemistry, environmental science, geology, physics

Communication Studies
majors - communication studies, health & risk communication, public relations & strategic communication, sport communication
minor - health & risk communication, public relations
graduate - Master of Arts in Corporate and Strategic Communication

Criminal Justice
majors - criminal justice
minors - criminal justice, sociology
English
majors - creative writing, English, integrated language arts education
minors - creative writing, English
graduate – Master of Fine Arts in Creative Writing

Foreign Languages
majors - French, French education, Spanish, Spanish education
minors - global studies, French, Spanish

General Studies
Majors: Associate of Arts in general studies
Associate of Arts in general studies with a concentration in Business

History/Political Science
majors - history, integrated social studies education, international political studies, political science
minors - history, political science, classical civilization
graduate - Master of Arts in American History and Government, Master of Arts with a Specialization in Teaching American History and Government

Journalism and Digital Media
majors - digital media journalism, digital media production
minors - digital media journalism, digital media production

Mathematics/Computer Science
majors - actuarial science, computer science, integrated mathematics education, mathematics
minors - computer science, mathematics

Multidisciplinary Studies
majors - multidisciplinary studies

Music
majors - music, music education, music performance
minors - applied music, music

Philosophy
majors - philosophy
minors - philosophy, ethics

Psychology
major - psychology
minors - psychology

Bachelor of Arts
Bachelor of Fine Arts
Bachelor of Music
Bachelor of Science
Bachelor of Science in Athletic Training
Bachelor of Science in Business Administration
Bachelor of Science in Education
Bachelor of Science in Nursing
Bachelor of Science in Social Work

Faculty
Faculty who teach courses are not only graduates of a wide range of universities, but they also bring with them many years of non-university workplace experience. As a result, students are exposed to teacher-scholars who are also aware of the expectations of the workplace. Because of the nature of Ashland University, professors are not only expected to be experienced and continuously engaged in scholarly activity, but they are also required to be effective teachers. Ashland faculty are committed to preparing students to be competent and confident professionals. Faculty are involved in their students’ programs and; therefore, are available to help students gain valuable insights into the influences that shape their fields.

Ashland offers master's and doctoral degree programs on the main campus, online, and at approved off-campus centers. Regardless of the location in which the student takes course work, the student will experience the same curriculum and many of the same professors.

It is our hope that students will easily discover that Ashland’s motto, “Accent on the Individual,” applies equally to graduate and to undergraduate programs.

Special Academic Programs
Continuing Education
Continuing Education offers students and adults an opportunity to take credit courses and non-credit seminars, workshops and courses. Continuing Education Units (CEUs) are awarded for non-credit offerings, one CEU per 10 contact hours. Professional Development Units (PDUs) are offered for some workshops. Non-credit offerings include, but are not limited to, real estate licensing, project management, supervisor management, and social service. For more information, contact the Founders School.

Class and Coursework Policies

Academic Integrity Policy
Ashland University community strives to model leadership that is based upon Christian beliefs and virtues and that will encourage, develop and sustain men and women of character to serve their professions, their communities, and the world (AU Statement of Ethical Leadership). As members of Ashland University, students hold themselves to the highest standards of academic, personal and social integrity (Ashland University Campus Creed). In keeping with the Ashland University commitment to the highest standards of academic, personal and social integrity, students are expected to abide by the academic integrity standards outlined in this policy.

In addition to plagiarism, fabrication, and cheating, stealing, buying or otherwise obtaining all or part of graded coursework is considered a violation of the Academic Integrity Policy. When a faculty member has not observed a student violating any part of the policy but possesses a firm conviction of academic dishonesty, based on competent and probative evidence, an allegation may be filed with the Director of Records & Registration.

A full Academic Integrity Policy document can be found in the student handbook and on the Office of Records & Registration website, https://www.ashland.edu/administration/office-records-and-registration.

Class Attendance and Preparation
Registration is required before attending any course. Students who need assistance with registration should contact the Office of the Records & Registration. Properly registered students are expected to attend all class times, including synchronous meeting times for online and hybrid classes.

Graduate Coursework Opportunity
Students who meet college level criteria are eligible to register for up to and including 9 graduate credits to be applied directly to their undergraduate degree requirements. Student criteria for participation, set forth by each college, are senior status at the time of the course, 3.0 overall GPA and permission of Advisor, Chair and Dean of the student’s college. For specifics about this opportunity contact your advisor or an advisor in the Center for Academic Success; for specifics about charges and financial aid contact Student Accounts and Financial Aid respectively. All registrations are at the discretion of the graduate program director or Dean. Successfully completed coursework will have both undergraduate and graduate credit value.

Conference Courses
When a student is unable to take a course at its regularly scheduled time due to an unavoidable peculiarity in the student’s program, the department may agree to offer the course on an individual (conference) basis. The course by conference form may be obtained from the Office of Records & Registration and must be completed prior to registration. The following procedure is to be used:

1. The student must obtain written permission from the dean of the appropriate college, the department chair of the appropriate department, the student’s advisor and the instructor for the course to be taken by conference.
2. The student must then present the form to the Office of Records & Registration for processing and consent. All required parties must approve the request for a conference course in order for the student to be registered for the course.

**Course Level**
Courses numbered 100 and 200 are designed generally for freshmen, and courses numbered 300 and 400 are designed generally for sophomores, juniors and seniors.

Courses numbered 300 and 400 may have graduate students enrolled in them for graduate credit. These courses are co-numbered 500/600/700 and are cross-listed in the graduate course offerings of the College of Education, College of Arts and Sciences, College of Nursing and Health Sciences and the College of Business and Economics.

**Discontinued Classes**
The University reserves the right to discontinue classes which have insufficient enrollment.

**Elective Internship Program**
The opportunity for internship experience is available in many departments. Each department offering credit for internships has separate guidelines and requirements. See the department chair to begin the process.

The University criteria for students to receive credit for the program include the following:
1. The elective internship experience must be in the student’s major field or an allied field of study.
2. The student must follow individual department internship guidelines to receive credit for internship experiences.
3. Generally, elective internships are evaluated on a satisfactory/unsatisfactory basis. Exceptions may be made by individual departments.
4. The student may apply no more than 16 credit hours in any internship experience toward the 120 semester hours graduation requirement.

**Elective Intelligence Internship at ATIC**
The Intelligence Internship at ATIC is a full time internship offered in residence at the Advanced Technical Intelligence Center (ATIC) in Dayton, OH. This internship is designed to provide students with the necessary tools to be successful analysts in the Intelligence Community. The Intelligence Internship at ATIC includes classroom training, research experience, and, if eligible, the sponsorship of the student for a Top Secret security clearance. A 10-15 week internship is available during fall, spring, and summer semesters. Students will earn 12 semester hours of credit for satisfactorily completing the internship.

Students from many majors are needed in the Intelligence Community such as in Math, Computer Science, Natural Sciences, Psychology, Criminal Justice, Accounting, History/Political Science, Communication Studies, Foreign Languages, Philosophy, English majors and others. Students must be at least 18 years of age, a U.S. citizen, and have no felony convictions.

Additional information and the approval form may be found at [https://www.ashland.edu/cas/node/1496](https://www.ashland.edu/cas/node/1496) Students should also contact the Director of the AU Intelligence Internship at ATIC, 210 CFA (419-289-5293) early in the process.

**Elective Service Learning Program**
Service learning is a form of experiential education that engages the student in a meaningful application of academic knowledge in significant service to the community. Service learning is a course-based, credit-bearing educational experience and is designed to promote civic responsibility, diversify and expand the student environment, advance professional development, enhance critical thinking skills, and help to create citizens aware of their global responsibilities. It must include orientation or training specific to the service site, meaningful and engaging service, and a structured reflection.

- Orientation/training familiarizes the student with the ideology of service learning, the service site and the expectations of the University, site supervisor and the professor.
- Service must be meaningful and engaging. It must not simply fulfill a need in the community but should also challenge and engage the student beyond the everyday classroom experience.
- Reflection is the purposeful consideration of the service experience with respect to the specific learning objective.

**Integrated Service Learning (0 Credit Hour)**
1. The Service Learning experience is created and designed by the professor to be a requirement of the course and directly relates to course content. The course syllabus will state how the learning objectives of the service learning activity coincide with the learning objectives of the course.
2. The student must sign up for the 0-credit service learning option concurrently with the corresponding service learning course.
3. The service requirement will be no less than 10 hours and no more than 29.
4. No extra credit hours will be awarded for the service.

**Service Learning Outcomes**
1. Apply academic theories and information to actual situations.
2. Reflect on the social and moral implications of education.
3. Practice civic and social responsibility by serving others in the community and expressing concern for the welfare of others.
4. Examine new identities and unfamiliar roles.
5. Develop a conscious set of personal values and beliefs.

**University Criteria**
1. All service learning activities must include orientation, meaningful service and reflection exercise as described in the service learning definition.
2. The service learning portion of all designated service learning courses (Plus One or Integrated Service Learning) will be evaluated satisfactory/unsatisfactory (S/U). The course to which the service learning is attached will be graded according to the course criteria.
3. All courses containing a service learning portion will be designated as such.
4. Acknowledgment of participation in service learning will be indicated on the student’s transcript.
5. All students participating in service learning should be flexible and open to new experiences and environments.
6. Students should be prepared to travel off campus.
7. Service learning activities should create joint ventures between students, faculty members and the community.

**Plus One Credit Option (1 Credit Hour)**
1. The Plus One Credit Option must be tied to the academic content of a course with which it is taken. It is not a course in itself—one hour must be attached to an already existing course. The professor of the course must be involved in the development of the learning contract. The contract must state how the learning objectives of the service learning activity coincide with the learning objectives of the course.
2. A student may receive no more than 3 service learning credit hours and only one credit per course. A minimum of 30 hours of service is required for one credit hour.

3. The student must submit a Service Learning Contract to the Center of Community Service before beginning the experience and before registering for the elective credit. The student must be registered for the credit before the last day to add. Any exceptions to this policy are up to the discretion of the Center for Community Service and the Office of Records and Registration.

4. The service learning credit may not apply toward any major. The exception to that will be when a student has the permission of the Department Chair and the Dean of that College. Both will sign the learning contract and note for which major they are permitting the credit to count.

**Independent Study Program**

The opportunity for independent study is offered in each department. To take Independent Study 498 (1-8 semester hours), a student must obtain an Independent Study Request form from the Office of Records and Registration or online at [https://www.ashland.edu/administration/office-records-and-registration/forms](https://www.ashland.edu/administration/office-records-and-registration/forms) and complete it prior to registration.

Students must meet the following criteria to enroll:

1. The study must be in the student's major field or an allied field of study.
2. The student must have a 3.0 or better GPA both overall and in the major field.
3. The student must have completed one half of the total semester hours within the major field.
4. The student must have completed 60 semester hours of the total academic program.
5. The student may apply no more than eight semester hours in Independent Study toward the 120 semester hours graduation requirement.
6. Credit in Independent Study may be applied toward a major field requirement only upon the written approval of the department chair.

**Change of Major**

Students may elect to change or add majors or minors through the Office of Records and Registration. All Major Change Forms require the signature of an advisor. Students may elect to advance in catalog year, however, they do not have the option to step back in catalog years.

**Registration**

All registrations are expected to take place during the regularly scheduled registration periods. This would include, but is not limited to, all course work that is independent study, internship, by conference.

The Office of Records and Registration sets the drop/add deadlines. All students are responsible for the effect of registration changes to financial aid and student billing. Refer to the appropriate Financial Aid and Finance and Administration sections of this catalog for applicable policies.

**Repeat Policy**

If a student repeats a course because of receiving a "C-" or lower, the last grade received is the grade earned. All courses and grades remain on the official transcript; however, only the last grade will be used to determine the student's grade-point average. Repeat courses must be taken at Ashland University. Courses with grades higher than C- cannot be repeated for a grade or on an S/U basis unless noted in the course description as repeatable. A student may audit a course previously taken for a grade; however, the previous grade earned will remain on the transcript and will be used to determine the student's grade point average. Audit fees may apply.

**Schedule Changes**

Students are responsible for reporting all schedule changes to their academic adviser.

**Special Group (SG) Studies**

Special group (SG) studies are courses developed by faculty and students to meet special needs and interests. These courses are not included in the University catalog, but are listed in the semester schedules.

**Student Load**

An average schedule load of 15 semester hours for each of eight semesters will meet the graduation requirements.

Students may register for 19 semester hours without special permission. Twelve semester hours is considered full time during a regular term for an undergraduate student. Students are restricted to a maximum summer course load of 6 semester hours per session and a total of 15 semester hours per summer.

Approval for enrollment beyond 19 semester hours spring or fall and 15 semester hours summer is required. Students with a cumulative grade point average of 3.0 or better may register for up to 21 hours per semester with approval from the student's advisor and chair of the student's major department. Approval for enrollment over 21 hours is required from the student's advisor, chair of the student's major department, and dean. Non-probationary sophomore, junior, and senior students in the Honors Program with an AU GPA of at least 3.5 may register for up to 21 hours of course credit without seeking approval.

It shall be the responsibility of the student to resolve schedule conflicts resulting from overloads. Credit in music ensemble may be added to the scheduled load without being counted as an excessive academic load.

**Credit and Grade Policies**

The unit for computing credit is the semester hour, which is equivalent to three 50-minute classes per week for at least 15 weeks. For example, a student satisfactorily completing work in a course which meets for recitation 150 minutes per week will receive three semester hours credit at the end of the semester.

Class schedules and expectations are based on requirements of 750 minutes per college credit. Additional expectations of college work are a minimum of two hours per week of homework, reading, or preparation per college credit.

**Grades and Quality Points**

The system of letter grades and quality points is:

- A 4.00
- A- 3.67
- B+ 3.33
- B 3.00
- B- 2.67
- C+ 2.33
- C 2.00
- C- 1.67
- D+ 1.33
- D 1.00
- D- 0.67
- F 0.00

Other grades are:

- AU - Audit - No Grade or credit assigned. This grade option is not available for private music lessons.
- S - Satisfactory - Applies to work rated "C-" or better.
- U - Unsatisfactory - Applies to work rated "D+" or lower

I - Incomplete - Applies to work of acceptable quality when the full coursework is not completed because of illness or other emergency. It is never applied to poor work. "I" becomes "F" if not removed by the date specified on the Office of Records and Registration calendar and carries the same grade value as an "F" until completed.

IP - In Progress - indicates that the student has not completed the scheduled coursework during the term because the nature of the course does not permit completion within a single term, such as work toward a thesis or a study away course that continues beyond the conclusion of the semester.

CR - Credit - assigned for satisfactory performance in non-academic courses and applies toward the total graduation requirement but is not used in computation of grade averages.

K - Credits accepted in transfer - recorded on the student's permanent academic record, but not included in the cumulative grade point average.

W - Withdrawn - assigned for official withdrawals during the first three weeks of a semester with no notation on the academic transcript (advisor's signature required); from weeks 4-12 with a notation on the transcript (not calculated in the GPA, and advisor's signature required); and during weeks 13-15 only if a student is withdrawing from the University for the term. The deadline for total semester withdrawal is the last day of scheduled classes before final exams.

NG - No Grade - grade not reported by instructor.

WF - May be assigned by the Office of Records and Registration for second Academic Integrity Violation.

Students will not earn credit for courses in which grades of F or U are received.

Satisfactory/Unsatisfactory Grade Option

Students with a cumulative grade point average of at least 2.00 for 16 semester hours of earned credit are eligible to register for courses, up to a maximum of seven, for which they earn the usual credit but are evaluated on a "Satisfactory/Unsatisfactory" basis. This opportunity is limited to one course each semester. (Exceptions: Courses offered only for S/U do not count toward the total.) Students with less than 16 semester hours of earned credit and/or less than a 2.00 cumulative grade point average are ineligible for the S/U option. Also, Post-Secondary Education Opportunity Students are not eligible for this option.

Courses excluded are those taken to fulfill a major, the business core, Composition I and II in the Core, Honors Program courses, applied music lessons and teaching or pre-professional requisites.

"Satisfactory" means the equivalent of "C-" work or better. Work rated "D+" or lower on the conventional scale would be graded as "Unsatisfactory."

Courses taken under the S/U option will be recorded on the student's permanent record, but not included in the computation of the student's cumulative grade point average. A course in which an "Unsatisfactory" is received does not count toward graduation. Any course in which a "U" or "F" is received may be repeated on a graded basis only.

Students will apply for the S/U option in the Office of Records and Registration at the midpoint of the course. Refer to the Office of Records and Registration Calendar for time frames to elect this option.

Student Grade Appeals

Ashland University seeks in the student grade appeal process to foster amicable and equitable resolution of disputes after a fair and impartial exploration of the facts. The purpose of the student grade appeal process is to provide the framework and method to resolve student complaints concerning a final course grade. A student grade appeal request can be considered when:

- a procedural error has been discovered in the evaluation or recording of a grade;
- a grade has been assigned to a student on some basis other than performance in the course; or
- a grade is assigned which departs from the faculty member's standards written in the syllabus or in written amendments to the syllabus.

A grade appeal request will not be considered solely on a disagreement about the content or quality of a student's course work.

The formal procedure must be started within 45 calendar days after the contested decision or grade was officially recorded. The Grade Appeal Process officially begins on the date the "Academic Appeal" document is received by the faculty member.

Any appeal must be initiated with completion of the Student Grade Appeal Cover Sheet. Once a formal appeal is presented to a faculty member, it must be presented in its original form at all later levels of appeal, although new statements may be added at any time.

Any evidence and all direct and supporting statements once made, become part of the permanent record of the appeal and must be produced at each level of appeal.

At each level of appeal, a written, dated decision and written reasons for the decision must be provided to the affected party or parties-the student, the faculty member and any person who has rendered a decision at an earlier level of appeal.

Students are permitted to submit evidence in writing. At the discretion of the University, students may be invited to present their appeal in person.

First Level: Appeal to the Faculty Member

A student will, where possible, attempt to resolve the issue informally with the professor before filing a written grievance. Should attempts at informal resolution fail, the student may wish to file a formal grade appeal. After receiving a formal appeal, the faculty member shall assure that a written decision with express reasons is available or delivered to the student within 30 calendar days. Should the student fail to take further action within 7 calendar days after receiving the faculty member's decision that decision shall stand. If the student is dissatisfied with the decision or does not receive a response from the faculty member within 30 calendar days, he/she may proceed to the second level of appeal.

Second Level: Appeal to the Department or Graduate Program Chair

If the student elects to continue the appeal, he or she may appeal to the chair of the department or graduate program. The chair shall assure that a written decision or recommendation about the appeal is available or delivered with express reasons within 30 calendar days after receiving the appeal. If the student is dissatisfied with the decision or does not receive a response from the chair within 30 calendar days, he/she may proceed to the third level of appeal. Should the student or faculty member fail to take action on the chair's decision or recommendation within 7 calendar days following its receipt, the accepted recommendation of the faculty member or new decision by the department chair shall be final.

Third level: Appeals Committee

If the student elects to continue the appeal after the chair's decision or recommendation has been received, he/she may take the matter to the dean of the appropriate College (or the dean's designee) within 7 calendar days.

The student must provide documentation and written responses from Level 1 and Level 2 and the completed Student Grade Appeal Form for the dean’s review. The dean shall ascertain within 30 calendar days whether the appeal procedures at the first and second levels have been duly followed; if they have not, he/she will require that they be followed before taking further action.
The appeals committee shall consist of three faculty members chosen by the dean or the dean's designee. The dean or designee shall serve on the appeals committee as chairperson without vote. All deliberations of the committee will be closed and confidential. Faculty from the same department as the faculty member involved in the case may not serve on the appeals committee.

The appeals committee should meet as soon as possible, but no later than 30 calendar days after a written, dated request for appeal at this level has been received and the Dean has ascertained that appeal procedures at the first and second levels have been duly followed. The presence of all eligible committee members (the three faculty members and the dean or designee) shall constitute the quorum.

A written recommendation shall be furnished by the appeals committee and transmitted through the office of the dean to the provost within 7 calendar days after the conclusion of the committee's deliberation. The provost will review documentation and the recommendation of the appeals committee and make the final determination regarding the grade appeal within 7 calendar days. His determination is final and will be sent to all affected parties within 7 calendar days.

Medical Withdrawal

In the event that a student is unable to complete the semester due to a medical condition that prohibits making up missed work, a withdrawal from all courses that semester may be processed providing that the following conditions are met:

1. Class absences and missed work can be directly attributed to the medical condition.
2. A qualified health professional verifies in writing that the medical condition prohibits completion of the semester requirements in one of two ways.
   a.) A "non-specific" medical withdrawal notice should be presented in writing to the Office of Records and Registration. This medical notice (signed by a physician) should state that a medical condition prohibits completion of the semester requirements; and, assign a date of condition onset (to verify times classes were missed).
   b.) A notice of "specific" diagnostic information including all recommendations must be sent to the Health Center Director or Director of Psychological Counseling Services, as warranted. This is to ensure confidentiality and coordinate any recommended treatment or follow-up in the event of readmission.
3. The medical withdrawal process is initiated by the student, the physician, and/or the parent/guardian, not AU.
4. The medical condition fits in one of the following categories: medical illness; mental illness (must include date of psychiatric hospitalization and date of clinical assessment); drug or alcohol addiction; or surgery.

All medical withdrawals need to be initiated by contacting the Office of Records and Registration. Once the Office of Records and Registration has the documentation to support the withdrawal, a "W" will be assigned and the faculty will be notified. Any refunds will be determined based on the effective date of withdrawal. Please refer to the refund policy on page 13.

Readmission after Medical Withdrawal

A notice of "specific" diagnostic information including all recommendations as they apply to readmission must be sent to the Health Center Director or Director of Psychological Counseling Services, as warranted. This is to ensure confidentiality and coordinate any recommended treatment or follow-up. Until this is complete, no readmission can occur.

Grade Reports

Final grades are reported at the close of each term (available on WebAdvisor) and become a part of the student's permanent record. These grades determine academic status, i.e., "good standing," "probation," or "dismissal."

It is the responsibility of the student to report to the Office of Records and Registration any discrepancy on their grade reports within 60 days of the end of the grading period.

At the mid-point of each regular semester, a report will be made by the instructor to a student receiving a "C-" or lower in a course. This information is used for advising purposes and is not a part of the student's permanent record.

Grievance Procedure

In cases where a student believes his or her academic rights have been infringed, the student should, if possible, discuss the matter with the instructor involved. If the student wishes to appeal the case, the student must appeal in writing, to the department chairperson and then to the Dean and the Provost, who may confer with the Student Senate President and the chairperson of the Judicial Board in order that the problem is settled satisfactorily.

Prior Learning Credit

Prior learning credit is accepted from recognized institutions and organizations based upon standard policies and practices in higher education. At Ashland University, prior learning may be defined as college-level learning achieved outside the traditional college classroom "prior to" any college coursework in that subject area. Prior learning is distinguished from prior experience by the key word "learning." Prior experience, while it is important, will not necessarily be equivalent to prior learning.

Students achieve competencies through workshops, seminars, personal or professional opportunities, and/or independent study. Prior Learning Credit (PLC) is academic credit awarded for college-level learning obtained outside the traditional college classroom which can be verified by either an academic transcript from an accredited undergraduate institution or via equivalencies determined by the American Council of Education.

A maximum of 32 semester hours credit may be granted and a processing/recording fee may be charged for each credit earned. Common forms of PLC accepted by Ashland University:

- standardized examinations: Advanced Placement (AP); College Level Examination Program (CLEP); Chauncey Group International (DSST Program), formerly DANTES
- military; American Council on Education (ACE); professional licensures
- corporate and professional training which demonstrates college-level learning
- credit by examination – Enrolled students may obtain credit by examination in any required course. Proficiency must be demonstrated prior to the student's last registration before graduation. Approval also must be given by the department chair concerned and the Academic Standards and Graduation Committee. No such application will be considered for any course which the student has previously taken or in any course for which a waiver has been previously granted. A grade of "B" of better must be obtained on the test to receive course credit; however, a grade of "S" will be entered on the student's record. A processing/recording fee will be charged. See Fees and Charges brochure for details.

When considering Prior Learning Assessment credit and transfer credit which reflects the same course work or student learning outcomes, credit from regionally accredited institutions shall take priority for transcripted values.
Transcripts
A copy of a student’s academic record (official transcript) is available from the Office of Records & Registration, Founders Hall, upon receipt of a written request and the required fee. Official transcripts may also be ordered online through the National Student Clearinghouse website. Official transcripts may not be available until after the final grading of that semester and will not be issued if there is an unmet financial obligation to the University.

Undergraduate Academic Probation Status
Students are placed on Academic Probation when their cumulative grade point average (GPA) is as listed below:
- Freshman (0-29 earned credit hours): At or below 1.500
- Sophomore (30-59 earned credit hours): At or below 1.750
- Junior (60-89 earned credit hours): At or below 1.900
- Senior (90+ earned credit hours): At or below 1.949

Academic Probation status indicates that students must take serious measures to return to good academic standing (a cumulative GPA of 2.0 or higher). Faculty Advisors will also be notified of advisees who are on probation.

Students placed on Academic Probation at the end of the fall semester will be required to complete the Academic Probation Support Program through the Center for Academic Support during their next registered term.

Students placed on Academic Probation at the end of the spring semester will have the option to complete summer courses at Ashland University to improve their GPA and potentially return to good academic standing. If a 2.0 cumulative GPA is not achieved at the end of the summer term, students will remain on Academic Probation for their next registered term. Students opting out of the summer option at AU will return on Academic Probation status for their next registered term and are required to complete the Academic Probation Support Program through the Center for Academic Support.

The Academic Support Program requires students to complete a self-assessment, meet with their Professional Academic Advisor regularly, and earn a minimum of a 2.0 cumulative GPA to remain at the University. Other support services may include, but are not limited to, Career Services, Counseling Services, Disability Services, Peer Tutoring, and the Writing Studio.

While the University is dedicated to student success, it is ultimately the student’s responsibility to improve his/her academic performance. Students earning a GPA placing them on Academic Probation status for two consecutive fall or spring semester may result in dismissal from Ashland University.

Undergraduate Dismissal Policy
Students in the on-line programs are considered for dismissal after completing 12 semester hours at Ashland University and follows the same procedures.
- Freshman (0-29 earned credit hours): At or below 1.500
- Sophomore (30-59 earned credit hours): At or below 1.750
- Junior (60-89 earned credit hours): At or below 1.900
- Senior (90+ earned credit hours): At or below 1.949

Students who are dismissed and desire immediate reinstatement must document extenuating medical circumstances or non-medical circumstances by filing a written appeal with the Director of Records and Registration.

The written appeal and any supporting documentation must be submitted within three weeks of the last day of final exams of the semester in question. This should include specific reasons for past performance, along with defined goals and objectives for the future. Appeals are heard by the Academic Standards and Graduation Committee. All appeals made to the committee and the resulting decisions will become a part of the student’s permanent records. All students filing an appeal must notify the Office of Records and Registration.

Students receiving dismissal after spring semester while enrolled in a summer session may finish the session, however the dismissal, pending appeal, will remain in effect through the fall term regardless of cumulative grade point average.

Any student who is reinstated after filing an appeal must meet with the Center for Academic Support to create a Plan for Academic Achievement and must obtain a minimum semester GPA of at least 2.500 for the return semester, or obtain a 2.000 cumulative GPA. This plan will include reviewing the student’s current major, outlining a plan for improving the GPA, and may, at the suggestion of the Academic Standards and Graduation Committee, also require additional evaluation and action. Such action may include taking a restricted load, taking specific courses, working one on one with the Center for Academic Support, attending required tutorial sessions, not participating in co-curricular activities, and/or being evaluated by a mental health professional.

Following the creation of an acceptable Plan for Academic Achievement and the completion of any tasks immediately required by the plan, the student may register for the coming semester only for courses approved by the Center for Academic Support.

Failure to adhere to the Plan for Academic Achievement at any point during the semester may, of itself, constitute grounds for dismissal. In addition, all information regarding the conditions of the dismissal will be placed in the student's permanent file and will be reviewed in any future probation and dismissal discussions, as well as any application for readmission.

Students not reinstated after filing an appeal are eligible to apply for readmission after a period of one fall or spring semester. During the appeal review, the Academic Standards and Graduation Committee may outline conditions to be observed in the event the student is readmitted. Unsatisfactory Academic Progress - Written Appeal required

Students earning a cumulative grade point average placing them in an academic probation status for two consecutive semesters are not eligible to continue enrollment automatically after the end of the second term. If students feel they have extenuating medical or non-medical circumstances, they may file written appeals for reinstatement as outlined within the Dismissed section of these policies.

Readmission after Dismissal
Students who have been academically dismissed are eligible for readmission after a period of one fall or spring term or summer term (for on-line students). Applications for readmission after dismissal will be reviewed by the Office of Records and Registration with consultation with the Center for Academic Support, the Counseling Center, the Judicial Affairs Office and any appropriate Department Chairs or Program Directors.

Applicants must submit a personal statement that includes assessment of past performance along with goals and strategies for future improvements. This may include, but is not limited to employment, education, and training during absence from Ashland University.

If readmitted to the university, the student is not guaranteed readmission into the same program. Additionally, all readmitted students re-enter the University under Academic Probation and must meet with the Center for Academic Support to complete their Academic Probation Support Program Contract. Students who are readmitted after one full year (to include one fall and spring term) will be admitted under the current academic catalog.
Registration Cancellation

All students who are dismissed may have their registrations automatically canceled. Students who are reinstated after appeal may not register or attend classes until they have completed their Academic Probation Support Program Contract, as outlined above. Students who are reinstated after appeal must re-register for classes.

Financial Aid Probation

Students who are not making satisfactory progress toward a degree may be placed on Financial Aid Probation even though they are not on Academic Probation. For information about Financial Aid Probation, contact the Director of Financial Aid.

Graduation Policies

Course Requirements and Grade Point Average

A candidate for a baccalaureate degree must have completed all the course and proficiency requirements for that particular degree and must earn not less than 120 semester hours (60 hours for associate degree) of college work with a grade point average of not less than 2.0.

Bachelor of Science in Education, Bachelor of Science in Athletic Training, and Bachelor with a major in Music Education degrees require an overall gpa of 2.5 (note other Bachelor of Music degrees do not require a gpa of 2.5). The grade point average in the candidate's major field must be at least 2.25 or 2.5 in certain majors.

Degree Applications

Applications for degree are accepted on the following schedule.

- By November 1 for May Conferral
- By May 1 for August and December Conferral

All coursework, including transfer, independent study, internship, etc., is to be complete before the conferral date. Students who have applied for conferral but have not met all requirements will be conferred on the next available conferral date. Final determination of conferral date is the decision of the Office of Records and Registration. In no case will a degree be posted to a transcript or diploma issued prior to the scheduled conferral date.

Ashland University Commencement Policy

May Commencement and Conferral - Students conferred for May are permitted to walk in commencement, provided that they have a documented plan for degree completion; degree evaluation must have a status of "pending" or students must have arranged transfer credit through the Office of Records and Registration. Latin honors will be published in the commencement program based upon the previous Fall term. Student's final Latin honors will be printed on the diploma and transcript based on all grades. Students with May conferral will be printed in the current commencement program only.

August Conferral - Students to be conferred for August are permitted to walk in the December commencement. Students with an August conferral date will be published in the December commencement program only. Latin honors will be published in the commencement program based upon final grades. Student's final Latin honors will be printed on the diploma and transcript based on all grades. Diplomas for August graduates will be mailed after conferral.

December Commencement Conferral - Students with a December conferral date will be permitted to walk in the December commencement.

Residence Requirement (Academic)

A candidate for a degree must take a minimum of 30 semester hours at Ashland University. The last 12 hours of coursework and at least one half of the student's work in his/her major field must be taken at AU.

Dean's List

Each semester an honor list (Dean's List) of names is prepared and published. The list is composed of the names of all full-time undergraduate students in the University who have received a grade point average of 3.5 or above for the preceding semester.

Second Degree

Students seeking a second degree after having achieved an initial undergraduate degree, must complete a minimum of 30 credit hours at Ashland University.

Students seeking two degrees simultaneously should petition the Academic Standards and Graduation Committee with a plan for completion and are required to obtain a minimum of 30 additional credits beyond the initial 120 credit hours for the first degree.

Honors and Degrees with Distinction

Valedictorian and salutatorian honors are computed based on the highest and second highest Ashland University GPA of those students with 80 or more institutional credits toward their initial baccalaureate degree. All students, regardless of catalog year, will fall under this policy.

Degrees with distinction will be awarded to graduates with 50 or more Ashland University credits. Only Ashland University grades will be used to assess honors. All students, regardless of catalog year, will fall under this policy.

Students may earn Latin honors on subsequent undergraduate degrees. All honors presented at commencement are based on the total GPA up to, but not including the student's final semester. Honors placed on student’s academic record will be based on all Ashland University coursework.

The averages necessary are:
- Summa Cum Laude 3.900 - 4.000
- Magna Cum Laude 3.700 - 3.899
- Cum Laude 3.500 - 3.699

Academic Honors Program

The academic transcript of each Honors graduate bears the acknowledgment of work completed in the Honors Program. For complete information on the program, see the Academic Honors Program section of the catalog.

Honor Societies based on GPA

Alpha Lambda Delta honors students who, during their first or first two semesters, have achieved a 3.5 cumulative grade point average.

Gamma Alpha Kappa honors graduates who have maintained a 3.6 cumulative scholastic average and have taken all their coursework at AU. This selection is announced at commencement.

Honor Societies in the subject areas:
- Alpha Gamma Omega Nu – see Health Sciences
- Alpha Phi Sigma – see Criminal Justice
- Alpha Psi Omega – see Theatre
- Beta Beta Beta – see Biology/Toxicology
- Delta Mu Delta – see Business and Economics
- Kappa Delta Pi – see Education
- Omicron Delta Epsilon – see Business and Economics, Economics section
- Lambda Pi Eta - see Communication Studies
- Phi Alpha – see Social Work Phi
- Phi Alpha Theta – see History
- Phi Sigma Iota – see Foreign Languages
- Phi Sigma Tau – see Philosophy
Pi Mu Epsilon – see Mathematics
Pi Sigma Alpha – see Political Science
Psi Chi – see Psychology
Sigma Gamma Epsilon – see Geology
Sigma Tau Delta – see English
Sigma Theta Tau – see Nursing
Theta Alpha Kappa - see Religion
Upsilon Pi Epsilon – see Computer Science

Center for Academic Support
Ashland University’s Center for Academic Support provides resources to students in a coordinated effort that focuses on individual needs of students with an emphasis on academic success. Comprehensive and individualized support services are offered in the following areas: scheduling, disability services, retention initiatives, tutoring and academic advising.

Tutoring Services
Tutoring services are designed to supplement the information presented by the faculty and assistance is offered in a variety of academic subjects. Tutors are full-time Ashland University students who have been recommended by faculty and have demonstrated academic excellence in their subject. Tutoring Services are coordinated out of the Center for Academic Support. See also Undergraduate Writing Center.

Academic Advising
The mission of academic advising at Ashland University is to support students through their college transition and help create academic plans that promote educational, professional, and personal development within a collaborative environment.

Ashland University uses a collaborative advising model that includes both faculty and professional advising. The Center for Academic Support will focus on providing students with a strong foundation for success at Ashland University, while the faculty advisors will focus on the details and issues inherent to their individual majors. Incoming freshmen students will receive individual attention and proactive advising during their first year in college. The Center for Academic Support assigns freshmen to faculty advisors based on their major selection during the second semester of enrollment. Deciding students and special populations will continue to be advised by the Center for Academic Support.

Students are strongly encouraged to develop an early and ongoing relationship with both their Faculty Advisor and the Center for Academic Support Professional Advisor. This will enable them to learn curriculum requirements, better understand course demands, adhere to academic policies and deadlines, and to engage in thoughtful exploration and preparation of potential career and graduate school opportunities.

Undergraduate Writing Center
The Undergraduate Writing Center is administered through the College of Arts and Sciences. Its primary purpose is to offer face-to-face individual consultation for papers across the curriculum to on-campus undergraduate students.

Writing Assistants provide guidance and instruction in the following areas: understanding writing assignments and styles, writing the essay and critical analysis, supporting theses, revising for structure and grammar, documenting research, and teaching proofreading strategies.

More intense writing support is available to on-campus students through a Writing Lab, a one-credit course called ENG 110 that is arranged in the Writing Center. Students may take the lab concurrently with ENG 101 or 102 or by arrangement with any course. The lab course may be taken for a maximum of two credit hours. The Writing Lab allows students to collaborate on a current writing assignment to reinforce skills for college papers.

The Writing Center is located in 104 Center for the Humanities Bixler (CFHB) and is open five days a week during the academic year. Appointments are scheduled online at https://ashland.mywconline.com. Visit the Writing Center webpage for updated information: https://www.ashland.edu/administration/center-academic-support/university-writing-center

Fully Online Undergraduate Writing Support:
Online-only undergraduates can access writing support, as well as tutoring in other subjects, via Ashland University’s free e-Tutoring service. Click here for information about how to login and access the service: https://www.ashland.edu/administration/sites/ashland.edu.administration/files/ashlanduniversity-etutoringstudentinstructions.pdf
The Online Writing Lab allows you to submit a draft of your paper to a tutor, ask for specific feedback, and receive a tutor’s response within 24-48 hours.

Graduate Student Writing Support
Graduate students (online and on-campus) can access writing support through the Graduate Writing Consultation Service (GWC). GWC is a free service available for students in graduate degree programs at Ashland University. The aim of the service is to support and mentor students as they explore ways to improve their graduate-level academic writing skills. All consultations are confidential. Send your requests for writing consultation to: gwc_group@ashland.edu.
You will need to allow 24-48 hours for a response.

Masters’ qualified Graduate Writing Consultants (GWCs) and e-Tutoring tutors can help with the following issues:
• Improving organization and structure
• Enhancing word flow, clarity, and readability
• Fulfilling APA or other formal style guidelines, including in-text citation and final documentation
• Identifying and correcting grammar and punctuation errors

Please remember, however, that the GWC and e-Tutoring tutors are not permitted to write or revise a paper.

Disability Services
Disability Services (DS) at Ashland University collaborates with students who have disabilities to enable equal access to education and university life. Disabilities can include hearing or visual impairments, learning disabilities, mobility impairments ADD/ADHD, and psychiatric or medical disabilities.

Students requesting accommodations, will be asked to provide DS with documentation that verifies the existence of a disability. Student documentation will be reviewed, and eligibility for reasonable accommodations will be determined on an individual basis. Accommodations may include extended time for exams, alternative versions of textbooks and classroom materials, sign-language interpreters, assistive technology, etc. The confidential handling of student documentation is our policy.

Students who believe they may be eligible for accommodations due to barriers they face as a result of a disability should contact the Director of Disability Services for additional information at:

Director, Disability Services

Information Technology

The Office of Information Technology, located in 100 Patterson, provides a wide range of computing services to students. The office provides computing support to students for AU email, network, wireless, and other issues. The Technical Support Center (TSC) can be reached at 419-289-5405 or 1-866-434-5222. Open hours are posted at the TSC (100 Patterson) and can be found at https://www.ashland.edu/administration/departments/information-technology-0.

Computers are available 24 hours a day, 7 days a week via EagleCard access in the 200 Patterson computer lab. This lab has 34 PCs, 2 Apple computers, 1 scanner, black & white and color laser printing (subject to print quota limits). Computers for homework and other student activities are available in the Hawkins-Conard Student Center (25 systems in various locations), the Library, and Dauch College of Business. Black & white laser printing is also available in these areas. Student-owned systems may be dropped off at the TSC for basic troubleshooting during the open hours (posted on https://www.ashland.edu/administration/departments/information-technology-0).

Students may also download their free copy of Microsoft Office Professional suite (Mac and PC) at the Tech Support Center portal webpage.

Multidisciplinary Major

The B.A. or B.S. degree in Multidisciplinary Studies (MDS) is an individualized, multidisciplinary degree which allows students flexibility in designing degree programs that relate to their personal academic and career goals. Students will complete the University Core Curriculum requirements, take a cohesive set of courses from two different content areas (cognates), and complete a Multidisciplinary Capstone Experience (3 hours). This degree program will provide a path to achieve baccalaureate degrees for those students whose interests lie in multiple areas and/or whose accumulated semester credit hours may not otherwise combine to qualify them for one of AU's existing baccalaureate degrees.

"Cognate" is defined as a coherent program of study developed in conjunction with a faculty member from that area of study that consists of 24 credit hours minimum. Of those 24 credit hours, at least 9 hours must be 300/400 level courses. The two cognates must total at least 57 hours.

Students selecting the Multidisciplinary Studies Major will be expected to achieve the following student learning outcomes: (1) identify the issues, problems, or goals addressed by each cognate area; (2) demonstrate familiarity with the terminology commonly used in each cognate area; (3) appraise key texts or significant works in each cognate area; (4) explain the mode of inquiry or creative process that characterizes each cognate area; (5) describe how the two cognate areas contrast with each other, or complement one another, in ways that create a greater understanding that either would provide alone; and (6) apply knowledge and skills from both cognate areas to address a relevant problem or issue.

Students must take a minimum of 30 semester hours at Ashland University. The last 12 hours of coursework, and at least one half of the student’s work in the two cognate areas, must be taken at AU.

These programs of study are academically rigorous and require significant student initiative. Conceptualizing the major is the responsibility of the student and the MDS Coordinator or a GOA Advisor in consultation with two faculty and deans.

Interested students should contact the Coordinator of MDS or the GOA Admissions Office who will review program requirements, application process, discuss the student’s areas of interest, and assist the student in identifying university faculty members who may be of assistance in advising the student.

Once the program is approved by the two faculty mentors, their respective deans, and the Coordinator of MDS or the COAS Director of Curriculum, the completed proposal must be submitted to the Office of Records and Registration for verification and inclusion in the student’s permanent file.

Pre-Professional Programs

Ashland University will assist students to meet the preparatory professional requirements of the schools they wish to attend. It is the student’s responsibility to make early application to the schools of their choice. The following are the minimum course requirements for pre-professional training in the areas indicated. It is recommended that students contact professional schools that they are interested in attending to be sure that their admission requirements are properly met. Students should also discuss their professional ambitions with their advisors in order to get recommendations of courses that will best prepare them for their choice of programs. Students interested in the health sciences can join our student-led Pre-Health club and campus chapter of the American Medical Association.

Pre-Law

The study of law requires a variety of skills, including critical reasoning, analytical reading, clear writing and self-discipline. Good legal practice requires an appreciation of history, social and political institutions and, in general a developed understanding of human nature. Those approaching a profession in law should possess a morally serious character, since their actions will affect the lives of many people.

We do not believe that any particular major or set of courses uniquely provides these skills and virtues. Thus, Ashland University does not offer a Pre-Law major or minor. We instead believe that a broad background in the liberal arts is the best way to prepare for the study of law, perhaps supplemented by some courses which introduce legal concepts. Students are encouraged to contact one of the Pre-Law advisors: Dan Sullivan in the College of Business and Economics or Marc Hendrick in the Criminal Justice Department in order to further define their course of studies.

Pre-Art Therapy

Students interested in Pre-Art Therapy should take a combination of courses found in the Department of Art and Design and the Department of Psychology. Typical requirements for graduate programs in Art Therapy and Counseling include:

- 18 semester hours in studio art to include: Drawing
- Painting Ceramics Sculpture
- 12 semester hours in psychology:
  - General Psychology
  - Developmental Psychology
  - Personality
  - Abnormal Psychology
- Working with people in a human service context (e.g., though an internship) is also recommended.
- These requirements can be completed by earning Bachelor of Arts degrees in both Fine Arts and Psychology. The completion of both degrees is possible within a typical 4-year framework.

Pre-Dentistry

For students interested in Pre-Dentistry, a major in biology, toxicology, biochemistry, forensic chemistry, or chemistry is recommended. Minimum course requirements for admission to dental school typically include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- CHEM 103/104 General Chemistry
- CHEM 307/308 Organic Chemistry
- MATH 205/206 The Calculus or MATH 201/202 Calculus
- PHYS 205/206 University Physics or PHYS 201/202 General Physics
- Additional upper level courses in biology and chemistry (specific recommendations available from the departments)
  Students must maintain a competitive GPA and perform well on the DAT to be considered competitive for admission to dental school.

**Pre-Medical Laboratory Science**

This program is designed to prepare students for acceptance into a school of medical laboratory science following the completion of three years of undergraduate coursework. Ashland University maintains a 3+1 partnership with the Cleveland Clinic School of Medical Laboratory Science.

Following three years of coursework at Ashland University and subsequent completion of the medical laboratory science program at the Cleveland Clinic, the student will be granted the baccalaureate degree from Ashland University and will be prepared to take the State licensing exam. Minimum course requirements recommended prior to beginning a medical laboratory science program include:

- Ashland University core requirements
- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- BIO 303 Genetics
- BIO 325-326 Anatomy & Physiology I & II
- BIO 340 Microbiology
- BIO 424 Cell Biology
- BIO 429 Biochemistry
- CHEM 103/104 General Chemistry
- CHEM 307/308 Organic Chemistry I and II
- MATH 201 Calculus with Applications MATH 208 Elementary Statistics PHYS 201/202 General Physics

**Pre-Medicine**

For students interested in Pre-Medicine, a major in biology, toxicology, biochemistry, chemistry, forensic chemistry, or health sciences programs is recommended. Minimum course requirements for admission to medical school typically include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- CHEM 103/104 General Chemistry
- CHEM 307/308 Organic Chemistry
- MATH 205/206 The Calculus
- PHYS 205/206 University Physics or PHYS 201/202 General Physics
- Additional upper level courses in biology and chemistry (specific recommendations available from the departments)
  Several factors, including coursework, grade point average, and MCAT performance contribute to a competitive application to medical school.

**Pre-Optometry**

For students interested in Pre-Optometry, a major in biology is recommended. Minimum course requirements for admission to a school of optometry typically include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- CHEM 103/104 General Chemistry
- CHEM 307/308 Organic Chemistry
- MATH 205/206 The Calculus or MATH 201/202 Calculus

Applications

- PHYS 205/206 University Physics or PHYS 201/202 General Physics
- Additional upper level courses in biology and chemistry (specific recommendations available from the Department of Biology/Toxicology)
  Students must maintain a competitive GPA and perform well on the OAT to be considered competitive for admission to optometry school.

**Pre-Pharmacy**

For students interested in Pre-Pharmacy, a major in biology, toxicology, biochemistry, forensic chemistry, or chemistry is recommended. Minimum course requirements for admission to a school of pharmacy should include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- BIO 325/326 Anatomy and Physiology I & II
- BIO 340 Microbiology
- CHEM 103/104 General Chemistry
- CHEM 320 Quantitative Analysis
- CHEM 307/308 Organic Chemistry
- MATH 205/206 The Calculus or MATH 201/202 Calculus with Applications
- MATH 208 Elementary Statistics
- PHYS 205/206 University Physics or PHYS 201/202 General Physics
- Additional course recommendations are available from the Department of Biology/Toxicology and Chemistry/Geology/Physics

**Pre-Physician Assistant**

For students interested in Pre-Physician Assistant, a major in biology, biochemistry or toxicology is recommended. Minimum course requirements for admission to a school of physician assistant typically include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
- BIO 303 Genetics
- BIO 325/326 Anatomy and Physiology I & II
- BIO 340 Microbiology
- BIO 425 Advanced Human Physiology
- BIO 340 Microbiology
- CHEM 103/104 General Chemistry
- CHEM 307/308 Organic Chemistry
- MATH 208 Statistics
- Additional course recommendations are available from the Department of Biology/Toxicology and Chemistry/Geology/Physics

Additional requirements for acceptance to a physician assistant program usually include health care experience in a clinical setting that can be acquired through shadowing and internship experience as well as work as a state tested nursing assistant.

**Pre-Physical Therapy**

For students interested in Pre-Physical Therapy, a major in biology or one of the health sciences majors is recommended. Minimum course requirements for admission to a school of physical therapy typically include:

- BIO 201 Molecular & Cellular Basis of Life
- BIO 202 Organisms, Adaptation, & Diversity
• BIO 325/326 Anatomy and Physiology I & II
• BIO 425 Advanced Human Physiology
• BIO 340 Microbiology
• CHEM 103/104 General Chemistry
• ES 190 Anatomy & Physiology for the Exercise Sciences
• ES 308 Kinesiology
• ES 309 Physiology of Exercise
• MATH 201 Calculus
• MATH 208 Statistics
• PHYS 201/202 General Physics
• PSYC 101 General Psychology
• SOC 111 Principles of Sociology
• Additional upper level courses in biology, physical education, and other departments (specific recommendations available from the Department of Biology/Toxicology)

Additional requirements for acceptance to a physical therapy program usually include experience and exposure to physical therapy through direct association with a licensed physical therapist in a clinical setting. Credit for this may be received through BIO 493 Professional Internship. Contact Chair of the Biology Dept. for more information.

Pre-Seminary
See Department of Religion for information.

Pre-Veterinary Medicine
For students interested in Pre-Veterinary Medicine, a major in biology, toxicology, biochemistry, forensic chemistry, or chemistry is recommended. Minimum course requirements for admission to a school of veterinary medicine typically include:
• BIO 201 Molecular & Cellular Basis of Life
• BIO 202 Organisms, Adaptation, & Diversity
• CHEM 103/104 General Chemistry
• CHEM 307/308 Organic Chemistry
• MATH 205/206 The Calculus
• PHYS 205/206 University Physics or PHYS 201/202 General Physics
• Additional upper level courses in biology and chemistry (specific recommendations available from the departments)

Students must maintain a competitive GPA and perform well on the GRE or MCAT to be considered competitive for admission to a school of veterinary medicine.

Affiliate Programs
Ashland University has affiliate programs with a number of institutions. A student who enters one of these programs at Ashland and who fulfills the institutional requirements for graduation, as well as the program of the cooperating institution, will receive the baccalaureate degree from Ashland University and the professional certificate or degree from the cooperating school or university if applicable.

Students enrolled in study abroad or affiliate programs are not eligible for Ashland University grants or scholarships.

For more information, see the chair of the department offering the affiliate program.

FASHION MERCHANDISING - Department of Marketing/Hospitality Management/Fashion Merchandising
• Fashion Institute of Technology, New York City
• Paris Fashion Institute

Four Year Graduation Guarantee
Students entering as freshmen beginning the fall 2012 semester will have the opportunity to elect a Four Year Graduation Guarantee program. This program guarantees that, provided all academic, advising, and financial guidelines are met by the student, if a degree is not achieved in eight consecutive fall and spring semesters, Ashland University will pay up to one additional year of tuition in order that the degree may be obtained. Students will have an opportunity to apply for this program through the Office of Records and Registration by submitting an application along with a four year plan. Students are restricted to one comprehensive major or one major and one minor/endorsement for their Four Year Graduation Guarantee Program.

As not all degree plans are eligible for the guarantee, approval is required by the Office of Records and Registration for each application. Students accepted for the plan will be required to sign a Federal Educational Rights and Privacy Act waiver for release of student academic and financial information to their parent or guardian.

This guarantee does not apply to students who elect to extend their studies beyond eight semesters to take advantage of research, license, endorsement, minor program opportunities and/or athletic eligibility. Students are expected to adhere to all aspects of the Four Year Graduation Policy found by visiting https://www.ashland.edu/administration/office-records-and-registration.

Three Year Degree Program
Students planning to complete one of the degree programs listed below in three years should confer with their advisor, plan accordingly, and file a Major Change Form with the Office of Records and Registration. Provided that students do not utilize their 19 credits during each of the fall and spring terms, a two credit award will be granted for billing purposes for summer courses when registered for the planned six summer credits.
• Bachelor of Science in Criminal Justice
• Bachelor of Arts in Communication Studies
• Bachelor of Arts in Health & Risk Communication
• Bachelor of Arts in Public Relations & Strategic Communication
• Bachelor of Arts in Sport Communication
• Bachelor of Arts in Psychology
• Bachelor of Science in Psychology
• Bachelor of Arts in Spanish
• Bachelor of Arts in French
• Bachelor of Arts in Music
• Bachelor of Arts in Philosophy
• Bachelor of Arts in Fine Art
• Bachelor of Arts in Business Administration
• Bachelor of Arts in Economics

General Goals of the Ashland University Core Curriculum
Our University’s institutional mission articulates four key elements: those of intellectual development and wisdom, ethical behavior and justice, preparation for living and working as citizens, and awareness of global responsibilities.

For students to develop intellectually means to think critically with regard to their futures as human beings, as employees and citizens. In terms of our liberal arts core, the development of these skills is best measured in terms of critical thinking skills. As such, the Core seeks measurable student learning outcomes in the areas of critical thinking skills, analytical reasoning, problem solving and written communication skills. These outcomes are measured.
Transfer students are defined as those who attended another institution of higher education after high school graduation. Post-secondary student credit transfer will be applied to the student’s academic record based on standard course equivalencies. CLEP, AP, and military credits will be applied to the student academic record based on university guidelines.

1. For students transferring to Ashland University, course credits from other institutions will be evaluated by the Registrar, in consultation with department chairs and the Core Director.

2. All matriculated undergraduate students must complete more than 50% of their remaining Core requirements via Ashland University coursework. A student is “matriculated” beginning on the first day of the first semester of the student’s enrollment in an Ashland University program.

Online Undergraduate Transfer Students
Transfer students are defined as those who attended another institution of higher education after high school graduation. Post-secondary student credit transfer will be applied to the student academic record based on standard course equivalencies. CLEP, AP, and military credits will be applied to the student academic record based on university guidelines.

1. Liberal arts equivalencies are subject to preliminary comprehensive review by the Core Director and the Director of Records and Registration, in conjunction with primary discipline chairs and representatives. These may be redistributed as general core credits in select transfer cases. These cases are limited to transitional students admitted uniquely in online programs who have transfer credits beyond the requirements of the institutional undergraduate core curriculum, the student’s desired major, and any bachelor’s degree electives.

2. All undesignated liberal arts transfer credits should meet the established Student Learning Outcomes for the area of the core with which they correspond.

3. For those unique students who meet the criteria spelled out in this recommendation, and who have undesignated core equivalencies being applied to the core, are required to complete both Composition requirements, 3 hours in Communications, 3 hours of Religion, 3 hours of Historical reasoning, 3 hours in CCI, 3 hours in Math/Logic and a minimum of 3 hours each in Humanities, Aesthetics, Social Science and Natural Science. An additional 3 hours must be completed within one of these four areas as well. Up to 9 credits from undesignated equivalencies will then be used to reach 45 credit hours. If less than 9 credits are being applied then the student would complete additional courses within the Humanities, Aesthetics, Social Science and Natural Science areas as required.

4. All matriculated undergraduate students must complete more than 50% of their remaining Core requirements via Ashland University coursework. A student is “matriculated” beginning on the first day of the first semester of the student’s enrollment in an Ashland University program.

Current Students
1. All matriculated undergraduate students must complete more than 50% of their remaining Core requirements via Ashland University coursework. A student is “matriculated” beginning on the first day of the first semester of the student’s enrollment in an Ashland University program.

2. Students must fill out a transient student form in advance of taking a course for an evaluation of the transfer course credit.

NOTE: Where articulation agreements have been signed with other institutions, university officials will strive whenever possible to recommend courses in keeping with the spirit of AU’s Core Curriculum.

ASSOCIATE OF ARTS INSTITUTIONAL DEGREE REQUIREMENTS
The Associate of Arts degree is designed for those students who are entering careers which do not require four years of college. Ashland University offers an associate degree with concentrations in General Studies (see note below); Art (see Art); Business (see Business); and Criminal Justice (see Criminal Justice). The associate degree includes the following core requirements:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication Courses</td>
<td>3</td>

</table>

Students fulfilling the CCI requirement through the study abroad option may not have hours recorded in the CCI category.

NOTE: For the Associate Degree with a concentration in General Studies, the student chooses the electives of interest to make up the 36 hours above. For specific programs, see the alphabetical listing for that subject.

BACCALAUREATE DEGREES
Ashland University’s baccalaureate degree program, with the traditional four-year bachelor degrees, offers its students the wide sampling of courses and opportunities that a well-rounded student needs.

BACHELOR OF SCIENCE DEGREES
Candidates for a BS degree must complete a concentration totaling at least 60 hours in either:

a. A comprehensive major, which is defined as a major that does not require a minor;

b. A major and related concentration totaling at least 60 hours; or

c. A major, related minor and related concentration totaling at least 60 hours
INSTITUTIONAL BACCALAUREATE DEGREE REQUIREMENTS

Institutional Baccalaureate Degree Requirements include: a Core Curriculum of 45 hours.

**Critical Cultural Inquiry (CCI) Initiative**  
The overall goal of the CCI Initiative is to internationalize our curriculum so as to better prepare students to face conditions of globalization that will greet them upon graduation. The three general paths by which a student can meet this requirement are through language study, travel options, or specially designed coursework.  
Students with appropriate military service may elect to complete a narrative illustrating global competencies gained through military service. Students electing this option will enroll in FL 299 and complete a narrative under the direction of a Critical Cultural Inquiry (CCI) Liaison or core director.

Ashland University aspires to a goal of academic excellence. The Graduate School sets this standard for intellectual excellence, which encompasses all considerations concerning faculty, students, curriculum, and research direction. The Graduate School establishes, through the faculty, policies that define good practice in graduate programs, high quality in curriculum, excellence in student selection, and rigor in faculty appointments. The Graduate School is responsible for all aspects of graduate education and defines the minimum standards acceptable for post-baccalaureate work. By establishing minimum admission, credit hour, grade point, and completion requirements, the Graduate School ensures equity in the standards for all master’s and doctoral degrees. The graduate dean represents the interests of the University as a whole and views departments from an institution-wide perspective. The dean articulates this vision for all post-baccalaureate endeavors.

This catalog, its policies, programs, and course offerings represent institutional policy and program requirements at the time of print. Students should contact their adviser to discuss any changes to programs or course offerings after print. Revisions to the printed catalog for academic policy changes are available on the Office of Records and Registration web page at https://www.ashland.edu/administration/office-records-and-registration.

Mission and Purposes of the Graduate School

The Graduate School exists to promote the development of a graduate culture at Ashland University. This encompasses the following purposes:

1. The Graduate School sets the standard for academic excellence for faculty, students, curriculum, and institutional research by establishing policies that define good practice in graduate programs.
2. The Graduate School serves as an advocate for a diverse population of graduate students and for graduate programs.
3. The Graduate School promotes academic collaboration between graduate students and faculty, ensuring that faculty are fulfilling their roles as academic and professional mentors.
4. The Graduate School reinforces the importance of research, inquiry, and creative endeavor.
5. The Graduate School promotes Ashland University as a year-round comprehensive institution.

Student Learning Outcomes

1. Intellectual Development and Wisdom
   Students will analyze evidence, apply specialized knowledge, and think critically and creatively to solve problems.
2. Ethical Development
   Students will apply principles of integrity and ethical decision-making to address real-world issues, will seek justice, and behave honorably and fairly to others.
3. Civic Engagement
   Students will apply knowledge, skills, and values in order to work, serve, and lead in their communities.
4. Global Responsibilities and Intercultural Competence
   Students will exhibit competence for constructive engagement within global and intercultural contexts.

Graduate Faculty
Faculty who teach graduate courses are not only graduates of a wide range of universities, but they also bring with them many years of non-university workplace experience. As a result, students are exposed to teacher-scholars who are also aware of the expectations of the workplace. Because of the nature of Ashland University, professors are not only expected to be experienced and continuously engaged in scholarly activity, but they are also required to be effective teachers. Ashland faculty are committed to preparing students to be competent and confident professionals. Faculty are involved in their students' programs and, therefore, are available to help students gain valuable insights into the influences that shape their fields.

Ashland offers master's degree programs on the main campus, online, and at approved off-campus centers.

Regardless of the location in which the student takes course work, the student will experience the same curriculum and many of the same professors.

It is our hope that students will easily discover that Ashland’s motto, “Accent on the Individual,” applies equally to graduate and to undergraduate programs. In the pages that follow, the reader will find more specific information about such things as admissions, graduation, curriculum, and program locations.

Maintaining Quality Instruction
Graduate instruction at Ashland University may be provided by full-time faculty or by carefully selected adjunct faculty. To ensure the quality of instruction at all Ashland University locations, all instructors are expected to utilize master syllabi designed to specify content and standards for each course, and all instructors are evaluated by students at the end of each course. The part-time faculty used have practical and often concurrent experience in their fields of expertise. These faculty often work full time in schools, businesses, and corporations, or they are retirees.

To assure competency in the quality of graduate instruction at all Ashland University locations, part-time faculty engage in several quality assurance measures. Each year, faculty members receive an orientation and are evaluated by center directors, department chairs, and/or coordinators assigned these responsibilities at each of the five major centers. A handbook provides each with an easy reference regarding the Ashland University rules, regulations, policies, and procedures.

All of these safeguards work together to assure high quality teaching. Professional development opportunities are also provided as appropriate to further improve the teaching effectiveness and content delivery of part-time faculty.

Graduate Programs Offered
The Graduate School administers all graduate programs offered by the University. The various graduate programs are housed in the academic colleges which provide faculty, curriculum, and policies specific to the unique status of each program. The Graduate School administers the following programs:

* Doctor of Education in Leadership Studies
* Doctor of Nursing Practice
* Master of Arts
* Master of Education

* Master of Fine Arts

Courses are available for this degree in the following major program areas:

* M.Ed. Curriculum and Instruction with areas of concentration in:
  - Teaching & Learning in the 21st Century
  - Intervention Specialist—Mild/Moderate Talent Development Education
  - Reading & Literacy Educational Technology
* M.Ed. Educational Leadership
* M.S. Applied Exercise Science
* Master of Business Administration
* Master of Arts
  - American History and Government
  - Specialization in Teaching American History & Government
  - Corporate and Strategic Communication
* Master of Fine Arts in Creative Writing
* School Nurse Licensure

Degrees Offered by Ashland Theological Seminary
Master of Arts (Biblical Studies)
Master of Arts (Historical and Theological Studies)
Master of Arts in Clinical Mental Health Counseling
Master of Arts in Counseling
Master of Arts in Practical Theology, Black Church Studies, Chaplaincy, Pastoral Counseling and Care, and Spiritual Formation
Master of Divinity
Doctor of Ministry

Graduate Council
The Graduate Council is a faculty body assigned authority to endorse policy recommendations on matters concerning graduate education. In addition, the Graduate Council approves additions and changes to the graduate curriculum and, in general, advises the dean of the Graduate School. Although most major program areas follow an orderly development, the student should understand that some modifications may become necessary because of state, institutional, or student expectations.

Office of Records and Registration Services
The Office of Records and Registration’s Office on main campus provides several services to graduate students. Among them are:

1. Processing requests for transcripts. The transcript request form is available online at: http://www.ashland.edu/transfer.
2. Processing loan deferment forms. Forms can be faxed to 419.289.5939, emailed to regis@ashland.edu, or mailed to Ashland University, Office of Records and Registration, 401 College Avenue, Ashland, Ohio 44805.
3. Receiving applications for graduation. Graduation applications are accepted through WebAdvisor or through a completed form found at https://www.ashland.edu/administration/Office of Records and Registration/graduation-information.
4. Recording the transfer of approved hours toward the completion of an Ashland University degree.

Registration Deadlines
Registration for courses must occur during the open registration dates applicable to each course.
Registering for Courses

All students registering for a course must be officially accepted before the registration can be processed.

Six semester hours is considered full time for financial aid purposes. Some graduate programs are designed to accommodate more hours. A graduate student with full-time employment should normally register for no more than seven semester hours per semester. A student wishing to deviate from the normal credit limitation must have the approval of his or her faculty adviser and the dean. Petition for overload may be made through the dean for some programs.

Courses by Conference

Courses by conference are not allowed in most program areas. Permission must be granted by the department.

Schedule Changes

Doctor of Education

Students need to register for Doctoral classes at least one week prior to the beginning of the term. No registrations will be accepted after the first class meeting without the consent of the chair of the Department of Leadership Studies.

Registration for any course (including the cognate), mentorship component, dissertation hours, or any other faculty supervised student activity should be completed at the Leadership Studies Office one week prior to beginning the activity. After the second class meeting, the Leadership Studies Office will send official class lists to instructors for verification with their signatures. Instructors must return a verified class list to the Leadership Studies Office no later than the third week of classes. During the summer period, faculty need to verify class lists by the end of the first week of classes.

MA History and Government and Specialization in Teaching American History and Government

Registration for all MAH and MASTA students is conducted via WebAdvisor (webadvisor.ashland.edu).

Students who wish to drop a course at academic penalty must do so no later than:
- For summer on-campus courses, students must notify the program office in writing at mahg@ashland.edu or in person no later than 12:30 pm on the second day of class. (Monday).
- For online courses, students must notify the program office in writing at mahg@ashland.edu or in person prior to the start of the second class meeting.

Students who properly notify the program office of a drop within these deadlines will receive a full refund of tuition and a prorated refund for room and board charges (if applicable).

Master of Business Administration

Registration materials are available to students well in advance of each semester. Course schedules include registration dates and semester meeting dates; tentative offerings for two semesters are also included with each schedule.

All student registration follows the approved drop, add, and withdrawal dates for the courses set by the Office of Records and Registration.

Students wishing to add a course to their registration should immediately contact the MBA Office. If the enrollment in the class has not reached capacity, the course may be added upon the professor’s approval and only if the proper prerequisites are met. A registration form must then be submitted by fax, mail, or online.

Students wishing to drop a course from their registration may be able to accomplish this online via WebAdvisor if done early enough in the semester. Otherwise, students must mail, e-mail (mba@ashland.edu), or fax (419.289.5910) a note to the Master of Business Administration office stating
1. the course to be dropped(course number, name, and section);
2. a brief but complete reason for withdrawal from the course;
3. future plans, if any, for reenrolling in the same course. Upon receipt of this notification by the Master of Business Administration office and approval of the request by the Director of the MBA program, a registration change will be completed and the course instructor will be notified.

A student who merely stops attending, while failing to officially drop the course, will have the final grade as reported by the instructor entered on the official record.

Program Change

Any student wishing to change their major within or between colleges after initial registration must apply for admission to the new program. Students changing specializations are not required to reapply for admission. Students are not required to pay an application fee or submit transcripts.

Auditing Courses

Persons who do not wish to receive college credit may register as auditors upon payment of the audit tuition (see schedule of fees) and completion of all requirements for non-degree seeking students. Official records and grades are maintained for auditors and audit classes cannot later be changed to a graded status. Students are required to attend class and complete all assignments directed by faculty for audit status and will receive a grade report reflecting audit status. Auditing is not an option in every program.

Courses in the Doctor of Education program are not open for auditing.

Course Repeat Policy

Any student receiving a “B–” or lower grade in a course may choose to retake the course in an attempt to raise his or her grade point average. All grades appear on official transcripts, however, only the second grade will be used in calculating the grade point average.

Master of Fine Arts students may elect to take any course in the program a second time. Both first and second grades will appear on the student’s transcript. Any student receiving U (Unsatisfactory) for a course will be required to retake the course.

The course repeat policy does not apply to the Doctor of Education program.

Grade Point System

The following system of grading and point values applies to the Doctor of Education, Doctor of Nursing Practice, Master of Education, Master of Arts, and Master of Business Administration programs:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A–</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B–</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C–</td>
<td>1.67</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>
The following system of grading applies to the Master of Fine Arts Program:

S........ Satisfactory: Applies to performance equivalent of B– or higher.

U........ Unsatisfactory: Applies to performance equivalent of C+ or lower.

SR........ Satisfactory with Revision: A grade option available only for English 701: MFA Thesis. The SR grade indicates that the thesis shows promise and should be of sufficient quality to pass following substantial revision. Students receiving the SR grade in the spring for English 701: MFA Thesis will have until July 1 to complete thesis revisions if they intend to graduate that summer. The student’s faculty mentor for English 701 will review thesis revisions within one week of submission following July 1 and consult with one other MFA faculty member before deciding whether or not to change the SR grade to S (Satisfactory).

Other grades are:

AU—Audit: No grade or credit assigned.

I *—Incomplete: May be given when a student is not able to complete the course work due to illness, accident, or other emergencies. This grade applies to work of acceptable quality when the full amount is not completed. It is never applied to unsatisfactory work. The required work must be completed during the next academic semester. The “I” grade becomes “F” if not removed by the date specified. It is the student’s responsibility to follow up with professors regarding courses given a grade of incomplete. Use may vary by program.

IP*—In-Progress: Given for dissertation studies, theses, capstones, research projects, and directed study courses that are in progress. The required work must be completed within one year of the posting of the IP grade. The “IP” grade becomes an “F” if not removed after the one-year time frame for completing work. Use may vary by program.

K—Transfer: Credits accepted in transfer. Courses are recorded on the student’s permanent academic record but not included in the grade point average computation. See individual program information for guidelines regarding transfer credit.

W—Withdrawn: Policies vary by program. Students should consult their program representative for further information.

*NOTE: Any student who receives an “I” or “IP” grade, needs access to the Learning Management System for course completion, and is not registered for another course while working to complete course requirements will be registered for a non-credit “continuing studies” course that will allow the student access to the Learning Management System. Registration in this course may be subject to a technology fee.

Grade Reports

Final grades are reported at the close of each term (available on WebAdvisor) and become part of the student’s permanent record. These grades determine academic status, i.e., “good standing,” “probation,” or “dismissal.”

It is the responsibility of the students to report to the Office of Records and Registration any discrepancy on their grade reports within 60 days of the end of the grading period.

Student Grade Appeals

Ashland University seeks in the student grade appeal process to foster amicable and equitable resolution of disputes after a fair and impartial exploration of the facts. The purpose of the student grade appeal process is to provide the framework and method to resolve student complaints concerning a final course grade. A student grade appeal request can be considered when:

- a procedural error has been discovered in the evaluation or recording of a grade;
- a grade has been assigned to a student on some basis other than performance in the course; or
- a grade is assigned which departs from the faculty member’s standards written in the syllabus or in written amendments to the syllabus.

A grade appeal request will not be considered solely on a disagreement about the content or quality of a student's course work.

The formal procedure must be started within 45 calendar days after the contested decision or grade was officially recorded. The Grade Appeal Process officially begins on the date the "Academic Appeal" document is received by the faculty member.

Any appeal must be initiated with completion of the Student Grade Appeal Cover Sheet. Once a formal appeal is presented to a faculty member, it must be presented in its original form at all later levels of appeal, although new statements may be added at any time.

Any evidence and all direct and supporting statements once made, become part of the permanent record of the appeal and must be produced at each level of appeal.

At each level of appeal, a written, dated decision and written reasons for the decision must be provided to the affected party or parties—the student, the faculty member and any person who has rendered a decision at an earlier level of appeal.

Students are permitted to submit evidence in writing. At the discretion of the University, students may be invited to present their appeal in person.

First Level: Appeal to the Faculty Member

A student will, where possible, attempt to resolve the issue informally with the professor before filing a written grievance. Should attempts at informal resolution fail, the student may wish to file a formal grade appeal. After receiving a formal appeal, the faculty member shall assure that a written decision with express reasons is available or delivered to the student within 30 calendar days. Should the student fail to take further action within 7 calendar days after receiving the faculty member’s decision that decision shall stand. If the student is dissatisfied with the decision or does not receive a response from the faculty member within 30 calendar days, he/she may proceed to the second level of appeal.

Second Level: Appeal to the Department or Graduate Program Chair

If the student elects to continue the appeal, he or she may appeal to the chair of the department or graduate program. The chair shall assure that a written decision or recommendation about the appeal is available or delivered with express reasons within 30 calendar days after receiving the appeal. If the student is dissatisfied with the decision or does not receive a response from the chair within 30 calendar days, he/she may proceed to the third level of appeal. Should the student or faculty member fail to take action on the chair’s decision or recommendation within 7 calendar days following its receipt, the accepted recommendation of the faculty member or new decision by the department chair shall be final.

Third level: Appeals Committee

If the student elects to continue the appeal after the chair’s decision or recommendation has been received, he/she may take the matter to the dean of the appropriate College (or the dean's designee) within 7 calendar days.
The student must provide documentation and written responses from Level 1 and Level 2 and the completed Student Grade Appeal Form for the dean’s review. The dean shall ascertain within 30 calendar days whether the appeal procedures at the first and second levels have been duly followed; if they have not, he/she will require that they be followed before taking further action.

The appeals committee shall consist of three faculty members chosen by the dean or the dean's designee. The dean or designee shall serve on the appeals committee as chairperson without vote. All deliberations of the committee will be closed and confidential. Faculty from the same department as the faculty member involved in the case may not serve on the appeals committee.

The appeals committee should meet as soon as possible, but no later than 30 calendar days after a written, dated request for appeal at this level has been received and the Dean has ascertained that appeal procedures at the first and second levels have been duly followed. The presence of all eligible committee members (the three faculty members and the dean or designee) shall constitute the quorum. A written recommendation shall be furnished by the appeals committee and transmitted through the office of the dean to the provost within 7 calendar days after the conclusion of the committee’s deliberation. The provost will review documentation and the recommendation of the appeals committee and make the final determination regarding the grade appeal within 7 calendar days. His determination is final and will be sent to all affected parties within 7 calendar days.

**Academic Probation/Dismissal**

Anytime a student's cumulative grade point average falls below a 3.0, the student may be placed on academic probation and is subject to dismissal. Academic probation is recorded as a permanent entry on the student’s official record. The student has one semester in which to raise the grade point average to at least 3.0. Failure to meet this requirement may result in academic dismissal.

For information about academic probation or dismissal, students should consult their Program Director.

**Graduate Student Writing Support**

Graduate students (online and on-campus) can access writing support through the Graduate Writing Consultation Service (GWC). GWC is a free service available for students in graduate degree programs at Ashland University. The aim of the service is to support and mentor students as they explore ways to improve their graduate-level academic writing skills. All consultations are confidential. Send your requests for writing consultation to: gwc_group@ashland.edu.

You will need to allow 24-48 hours for a response.

Masters’ qualified Graduate Writing Consultants (GWCs) and e-Tutoring tutors can help with the following issues:
- Improving organization and structure
- Enhancing word flow, clarity, and readability
- Fulfilling APA or other formal style guidelines, including in-text citation and final documentation
- Identifying and correcting grammar and punctuation errors

Please remember, however, that the GWC and e-Tutoring tutors are not permitted to write or rewrite a paper.

**GPA Requirement for Doctor of Education (Ed.D) Program**

In order to remain in good standing and to graduate from the Ed.D. program, a student must demonstrate satisfactory progress toward completion of the degree. Students must be enrolled every semester from beginning the program through graduation and must maintain a 3.5 GPA in the Leadership Studies Program Core courses and an overall 3.2 GPA in all course work completed. If a student’s GPA falls below these minimums, the student will be placed on academic probation for two consecutive semesters. The student and the advisor will immediately meet and write a plan that delineates the expectations for the student’s improvement. This plan will be signed by the student, the advisor and the department chair. A copy of the plan will be placed in the student’s file. After two consecutive semesters, if the student has not improved as defined in the plan, the adviser and chair, in consultation with the Doctoral Admission and Retention Committee, may determine that the student should not be allowed to continue in the program.

**Medical Withdrawal**

In the event that a student is unable to complete the semester due to a medical condition that prohibits making up missed work, a withdrawal may be processed providing that the following conditions are met:

1. Class absences and missed work can be directly attributed to the medical condition.
2. A qualified health professional verifies in writing that the medical condition prohibits completion of the semester requirements in one of two ways.
   a.) A "non-specific" medical withdrawal notice should be presented in writing to the Office of Records and Registration. This medical notice (signed by a physician) should state that a medical condition prohibits completion of the semester requirements; and, assign a date of condition onset (to verify times classes were missed).
   b.) A notice of "specific" diagnostic information including all recommendations must be sent to the Health Center Director or Director of Psychological Counseling Services, as warranted. This is to ensure confidentiality and coordinate any recommended treatment or follow-up in the event of readmission.
3. The medical withdrawal process is initiated by the student, the physician, and/or the parent/guardian, not AU.
4. The medical condition fits in one of the following categories: medical illness; mental illness (must include date of psychiatric hospitalization and date of clinical assessment); drug or alcohol addiction; or surgery.

All medical withdrawals need to be initiated by contacting the Office of Records and Registration. Once the Office of Records and Registration has the documentation to support the withdrawal, a "W" will be assigned and the faculty will be notified. Any refunds will be determined based on the effective date of withdrawal.

**Readmission after Medical Withdrawal**

A notice of "specific” diagnostic information including all recommendations as they apply to readmission must be sent to the Health Center Director or Director of Psychological Counseling Services, as warranted. This is to ensure confidentiality and coordinate any recommended treatment or follow-up. Until this is complete, no readmission can occur.

**Residence Requirement (Academic)**

Adult Study candidates for degree must take a minimum of 30 semester hours at Ashland University. The last 12 hours of coursework must be taken at AU. A minimum of 50 course credits must be taken at a four year college or university. Regardless of credits accepted at AU, students must take a minimum of five of the nine online Criminal Justice core courses.

**Transfer of Credit**

**Doctor of Education**

Upon admittance to the doctoral program, a student’s transcripts are evaluated on an individual basis. Up to nine semester credits from a recognized accredited institution may be accepted for post-master’s level courses not used toward another degree, but only in the cognate
area and for courses taken within five years of admission to the program.

**Doctor of Nursing Practice**

A maximum of nine (9) graduate level credits from an accredited college or university may be transferred toward completion of the requirements for the Doctor of Nursing Practice (DNP) degree. Official transcripts certifying graduate level courses completed at another institution prior to admission to Ashland University should be submitted at the time of application and will be evaluated by the DNP program director for acceptability as transfer credit.

Transfer credit will only be accepted for courses in which a grade of B (3.0 on 4.0 scale) or higher has been received. Courses taken over 5 years (over 2 years for APN core courses) prior to admission may not be accepted. All FNP Core courses must be taken at Ashland University.

The student is responsible for initiating the request for transfer credit. For each course for which the student requests transfer credit, the student must:

1. Complete a Request for transfer credit form as part of the DNP Admissions application identifying the institution attended, course title, semester and year completed, and the number of credits for which transfer is requested.
2. Attach a copy of the transcript, which includes the grade received for the requested transfer credits, and a detailed course description/outline.
3. Submit these materials to office of Graduate Admissions with the application. The request will be forwarded to the DNP Program Director.
4. Approval/disapproval of accepted transfer credits will be included in the admission letter to the applicant.
5. Approved transfer credits will be forwarded to Administrative Assistant for Graduate Programs for inclusion in the student file and processing with the Office of Records and Registration.

**Master of Arts in Corporate and Strategic Communication**

Students in the Master of Arts in Corporate and Strategic Communication are limited to six hours of transfer credit.

1. The course work should have been completed within six years prior to application at Ashland University.
2. Course work must be comparable with the Ashland University program course work. Comparability of transfer credit is determined by the program director.
3. The final grades in the courses to be transferred must be “B” or higher.
4. Transfer credit does not affect the cumulative grade point average established with Ashland University.
5. Quarter hours transferred into the university will be converted to semester hours.

**Master of Arts in American History and Government**

Up to six semester credit hours may be transferred from other institutions to satisfy degree requirements in the master’s program. The maximum number of transfer credits accepted toward degree requirements may be reduced depending upon the number of semester credit hours the student earns in online courses.

To transfer credit hours, the following conditions must apply:

- Credit hours transferred cannot have been used for another degree.
- A student must have earned the credit hours no longer than six years prior to acceptance into the master’s program.
- A student must have earned the credit hours at a regionally-accredited institution.
- The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
- Quarter hours transferred into the university will be converted into semester hours, and all conversions will be rounded down to the nearest semester hour.

Additionally, coursework transferred must be substantially similar to AHG-prefix courses offered by Ashland. The topics of courses for transfer must be in US history (including state and local history), American government (including state and local government), or US-related political science or politics topics. Non-US history (e.g. European history, world history, etc.), comparative government, or other courses with a focus on other than the aforementioned topics cannot be accepted in transfer. Further, courses for transfer must require readings and written assignments commensurate with a similar course at Ashland. Courses for transfer must also have been graded on an A-to-F scale (or equivalent numerical scale). Courses taken on a Pass/Fail or Satisfactory/Unsatisfactory basis may not be transferred.

All transfer credit will be applied as elective hours regardless of the topic of the transferred course. Transfer credit may not be applied to MAHG core course requirements. Grades from transferred courses are not included in the calculation of the student’s cumulative grade point average.

The student’s academic advisor approves credit transfers. Advisors may request a copy of the course syllabus to verify the course’s required readings and written assignments. To transfer credit, a student should ask the registrar of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits. Transcripts should be sent to:

**MAHG Program**
Ashbrook Center at Ashland University
401 College Avenue
Ashland, Ohio 44805

Students who plan to take courses elsewhere for transfer after enrollment at Ashland must contact their advisor in writing for approval prior to beginning such coursework. A copy of the course syllabus must accompany the request. No other guarantees exist that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

Any exceptions to this policy, which are granted rarely, must be approved by the program’s faculty committee.

**Master of Arts with a Specialization in Teaching American History and Government**

Up to nine semester credit hours may be transferred from other institutions to satisfy degree requirements in the master’s program. To transfer credit hours, the following conditions must apply:

- Credit hours transferred cannot have been used for another degree.
- A student must have earned the credit hours no longer than six years prior to acceptance into the master’s program.
- A student must have earned the credit hours at a regionally-accredited institution.
- The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
- Quarter hours transferred into the university will be converted into semester hours, and all conversions will be rounded down to the nearest semester hour.

Additionally, coursework transferred must be substantially similar to courses offered by Ashland. To be applicable to AHG core and elective requirements, the topics of courses for transfer must be in US history (including state and local history), American government (including state and local government), or US-related political science or politics topics. Non-US history (e.g. European history, world history, etc.), comparative government, or other courses with a focus on other than the aforementioned topics cannot be accepted in transfer. Further, courses for transfer must require readings and written assignments commensurate with a similar course at Ashland. Courses for transfer must also have been graded on an A-to-F scale (or equivalent numerical scale). Courses taken on a Pass/Fail or Satisfactory/Unsatisfactory basis may not be transferred.

All transfer credit will be applied as elective hours regardless of the topic of the transferred course. Transfer credit may not be applied to MAHG core course requirements. Grades from transferred courses are not included in the calculation of the student’s cumulative grade point average.

The student’s academic advisor approves credit transfers. Advisors may request a copy of the course syllabus to verify the course’s required readings and written assignments. To transfer credit, a student should ask the registrar of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits. Transcripts should be sent to:

MASTAHG Program
Ashbrook Center at Ashland University
401 College Avenue
Ashland, Ohio 44805

Students who plan to take courses elsewhere for transfer after enrollment at Ashland must contact their advisor in writing for approval prior to beginning such coursework. A copy of the course syllabus must accompany the request. No other guarantees exist that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

Any exceptions to this policy, which are granted rarely, must be approved by the program’s faculty committee.

Master of Business Administration
Ashland University will accept up to 9 hours of graduate transfer credit into the Master of Business Administration Program. Several factors should be noted when transferring credit:

* A student must have earned the credit hours no longer than six years prior to acceptance into the master’s program.
* Credit hours transferred cannot have been used for another degree.
* A student must have earned the credit hours at an accredited institution.
* The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
* Quarter hours transferred into the University will be converted into semester hours.

The student’s academic advisor approves credit transfers. Any exceptions to this policy, which are granted rarely, must be approved by the program’s faculty committee.

To transfer credit, a student should ask the Office of Records and Registration of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits.

Transcripts should be sent to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

For prior approval of credit hours to be transferred, the student must submit a letter to the student’s Academic Advisor along with a copy of the other institution’s syllabus for the course. No guarantee exists that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

The maximum number of transfer credits accepted toward degree requirements may be reduced depending upon the number of semester credit hours the student earns in online courses.

Master of Education
The policy of the Dwight Schar College of Education specifies that graduate students may take courses for personal or professional development offered or sponsored by another institution.

Course credit may be transferred providing:

1. The course(s) is given or offered by an accredited college or university. Documentation is required for all courses if acceptance of them for degree credit is requested. Minimally, the course must be listed and described in this catalog or other official publication of the institution. The content of the course must satisfy a requirement in a degree program at the offering institution and be able to satisfy a degree requirement at Ashland University.

2. For prior approval of credit to be transferred, the student must have the transfer approved by either a resident program director or the dean of the Dwight Schar College of Education. Prior assurances given verbally by faculty members or staff at Ashland must be regarded as estimates or opinions. They do not commit the University to a course of action. Transfer credits that have not been approved in advance will be considered at the discretion of the resident program director and/or a dean of the Dwight Schar College of Education using the guidelines for accepting any previously completed and acceptable graduate credits. Transfer credit is not considered official until it has been approved by both the dean and Office of Records and Registration. Students are responsible for providing appropriate transcripts in a timely manner and confirming the transfer of credit with their respective program directors.

3. Written requests for acceptance of special courses, i.e., “tour” or “travel” type courses, must be fully documented so that their academic integrity can be judged. Promotional literature from a tour or travel agency or institutional sponsor is not considered appropriate documentation. Many accredited colleges or universities offer such courses for personal and professional development that can carry graduate credit but are not applicable to their degree programs.

4. Twelve semester credits may be transferred from other institutions under the following conditions:
   a. The student is in good standing at the other institution;
   b. The grades in graduate courses to be transferred are “B” or better or an “S.”
   c. Course work accepted must be no older than five years from the date of admission into the M.Ed.;
   d. The student has been admitted to a Master of Education degree program;
   e. Exceptions to the above must be approved by the dean of the Dwight Schar College of Education;
   f. Quarter hours transferred into the University will be converted into semester hours.

Master of Fine Arts
No more than nine credit hours of graduate creative writing courses can be transferred into the MFA program.

Graduate Course Work Opportunity Policy
Ashland University undergraduate students wishing to take graduate courses under the Graduate Course Work Opportunity Policy should consult the undergraduate academic affairs section of this catalog.
Transient Student Registration
1. Students who are Post Baccalaureate and wish to attend courses but not apply to a program may do so with a transient status and should complete the Application for Transient Student Admission through the appropriate program office.
2. A copy of an official transcript from the applicant’s home institution is required.
3. Students from other institutions interested in attending Ashland University graduate level courses prior to obtaining an undergraduate degree should complete the Application for Transient Student Admission through the appropriate program office. Students should be senior status at the time of the course and possess a cumulative GPA of 3.0 or better from their home institution. A faculty reference along with an official transcript must accompany the application.
4. All enrollments are at the discretion of the dean or director of the program and application is on a per semester basis.

Policy for Determining Graduate Credit
The Graduate School of Ashland University ascribes to the general policy of granting credit equal to the number of hours per week the student attends class. It is in furtherance of this policy that consideration must be made to the different programs within the Graduate School, as well as changes in the presentation of classes through technology or recognition of learning activity other than in the traditional classroom setting. The following are definitions for the Ashland University Graduate School in determining graduate credit:
1. Contact Hour
   A contact hour is the time scheduled for a class to meet each week during an academic semester. One contact hour consists of 50 minutes.
2. Class
   A class is the scheduled meeting of students with the assigned instructor organized for the pursuit of knowledge according to the description of the course. A distance learning method of presentation is considered a class for the purpose of granting credit.
3. Academic Semester
   An academic semester is the length of time, measured in calendar weeks, a class shall meet for the purpose of determining graduate credit.
4. Academic Program
   An academic program is a graduate program, consisting of approved courses, contained within the Graduate School of Ashland University.
5. Flexible Learning Environment
   A flexible learning environment is any learning arrangement whereby the student engages in a planned course of study outside the physical presence of the instructor or without an expectation of the exchange of the knowledge acquired at the time. Homework assignments are not a part of a flexible learning environment.

Graduate Credit
Subject to any variation approved or required by an accrediting agency, graduate credit shall be based on the number of contact hours the class meets during an academic semester. One graduate credit, measured in hours, is equivalent to each contact hour the class meets per week.

Fractions of a graduate credit shall not be computed. Classes meeting on an accelerated schedule, e.g., seminars or workshops, shall be converted to an equivalency based on the total number of hours the class meets compared to the total number of hours required for satisfaction of contact hours during the semester.

Flexible Graduate Credit
The goal of a flexible learning environment is the enhancement of the quality and concentration of student involvement with his or her own education. In creating a legitimate balance between faculty guidance and independent student activity, the instructor must maintain a commitment to the learning process commensurate with that ordinarily taking place in a scheduled class meeting. Any flexible learning environment shall be structured in such a manner that the time involved reflects contact hours with the student.

In those courses offered in a manner not involving actual contact hours, i.e., outside the “usual” classroom context, graduate credit may be determined, so long as the instructor, pursuant to the prior approval of the academic program director, maintains an approved monitoring process and resultant assessment of such activity. There shall be no distinction between credit given based on contact hours and those arising out of a flexible learning environment.

Special group (SG) studies are courses developed by faculty to meet special needs and interests. These courses are not included in the University catalog, but are listed in the semester schedules.

Degree Application Deadlines
The University has three degree conferral dates: December, May, and August, with ceremonies in May and December. In order to have the degree status listed on a transcript, students must apply for conferral (December, May, or August) by the appropriate deadline. Graduation applications are available online at www.ashland.edu/students/Office of Records and Registration/graduation-information. All applications are to be returned to the Office of Records and Registration, 206 Founders Hall.

December Graduates: September 1
May Graduates: November 1
August Graduates: May 1

Conferral and Commencement for Graduate Students
May Conferral and Commencement – Students to be conferred for May are permitted to walk in May commencement, provided that they have a documented plan for degree completion; degree evaluation must have a status of “pending” or approved by the program director.

August Conferral - Students conferred for August are permitted to walk in December commencement. Students with an August conferral date will be published in the December commencement program only. Diplomas for August graduates will be mailed after December conferral. Diploma covers will be given at commencement only.

December Conferral and Commencement – Students with a December conferral date will be permitted to walk in December commencement provided that they have a documented plan for degree completion; degree evaluation must have a status of “pending” or students must have arranged transfer credit through the Office of Records and Registration. December conferrals will be printed in the December commencement program only.

Conferral and Commencement for Doctoral Students
May Conferral and Commencement – Only Students who have the approval of the doctoral program will be permitted to walk in May commencement ceremonies. All students who participate will be announced; however, only students who are approved prior to program preparation will have their names in the program.

August Conferral – Doctoral students with an August conferral will be permitted to participate in the following December commencement. Names will appear in the December commencement program only.
December Conferral and Commencement – Only Students who have the approval of the doctoral program will be permitted to walk in December commencement ceremonies. All students who participate will be announced; however, only students who are approved prior to program preparation will have their names in the program. Names will appear in the December commencement program only.

Questions about the graduation process should be directed to the Office of Records and Registration at 419-289.5027

Simultaneous Degree Candidacy in More Than One Graduate Program

It is possible to pursue two graduate degree programs simultaneously at Ashland University. Graduate students must have an advisor in each graduate degree program and plan with them an integrated course of study that satisfies the requirements of both degree programs. A program plan for more than one degree program must be completed and submitted to the dean of the Graduate School within the first semester of enrollment at Ashland University. The student must qualify for admission to each program and the program directors for both programs must sign the program plan. No more than 12 semester hours may be counted in both degree programs, and this must be specified in the proposal.

Students who have been admitted to graduate study at Ashland University may take courses in any graduate program provided that the prerequisites have been met and providing that they have approval of the instructor or program director. Students applying for a dual graduate degree or a second master’s degree may have the second application fee waived.

Second Master’s Degree

Students may pursue a second master’s degree following completion of a master’s degree providing that they meet the requirements for admission to the second master’s degree.

No more than 12 semester hours from the first master’s program may be counted in the second master’s program. The student must have earned a B or better in the courses. The transfer of these hours must be approved by the advisor in the second program and recorded in the Office of Records and Registration.

Students changing from one graduate degree program to another must record that change and notify both program directors. They must meet the entrance requirements for admission to the new graduate program. The acceptance of course work from the original graduate program must be approved by the advisor in the new program.

Students may pursue a second M.Ed. following completion of a master’s degree providing that they meet the requirements for admission to the second master’s degree.

Second M.Ed. degrees are awarded to students who complete all requirements for the second degree. Guidelines for the second master’s degree include:

- Students pursuing a second M.Ed. must complete a graduate application form and meet with the resident M.Ed. Program director.
- Only 12 hours from the first M.Ed. may be applied to the second degree.
- Core courses, completed for the first master’s degree and used for the second, are to be audited if they are older than five years.
- The second degree will be granted only if it differs significantly from that pursued for the first degree. A student may choose from either of the following M.Ed. Programs: M.Ed. Curriculum and Instruction, M.Ed. Educational Administration. For example, students may not earn two M.Ed. Degrees within two areas of concentration within the Curriculum and Instruction degree program.

Waivers of Degree Requirements

Waivers of degree requirements are not available for all programs and will be granted rarely. Any such waivers must be submitted in writing to the program director.

Degree Completion Time Limits

Time limits for degree completion vary by program. Students should refer to program areas within this catalog for specific information.

Master of Arts in American History and Government and Master of Arts Specializing in Teaching American History and Government

Students must complete all requirements for the Master of Arts programs in American History and Government within ten years. The period begins with the date of the earliest course and ends with the last coursework applied toward the degree. In extraordinary circumstances, a time extension may be granted through the approval of the program’s faculty committee.

Master of Business Administration

Students must complete all requirements for the Master of Business Administration degree within five years, but this time span does not include Master of Business Administration Foundations course work or Master of Business Administration seminars. This period begins with the date of the earliest Master of Business Administration course and ends with the last hours applied toward the degree. In extraordinary circumstances, a time extension may be granted through approval of the Master of Business Administration executive director. Students must contact the Master of Business Administration executive director to initiate a time extension appeal.

A student’s file will be removed from the active program file if he or she fails to take courses for a period of two semesters. The student will then be required to apply for reactivation of the records. Although the five-year time limit should be observed, no loss of credit results.

Master of Education

The student must complete all requirements for the Master of Education Degree within five years. The time limit normally is from the beginning date of the formal admission to the Master of Education Program to the last hours applied toward the degree. Special consideration will be given for leaves of absence for adequate cause. The student who fails to take courses or otherwise continue to pursue the degree for a period of two years will be terminated from the program’s active file and will be required to reapply for reactivation of his or her records.

Master of Arts in Corporate and Strategic Communication

Master of Arts in Corporate and Strategic Communication students have a minimum length of 18 months to complete the MACSC program. The maximum length to complete the program is five years. Once the maximum allotted time has passed, students must reapply for admission. Any credits earned prior to readmission cannot be used toward the fulfillment of the degree.

Master of Fine Arts in Creative Writing

The minimum length to complete the Master of Fine Arts Program is two years and two weeks. The maximum length to complete the Program is four years and six months. Once the maximum allotted time has passed, students must reapply for admission. Any credits earned prior to readmission cannot be used toward the fulfillment of the degree.
Doctor of Nursing Practice Program

A student is required to satisfy the Doctor of Nursing Practice (DNP) degree requirements within 5 years for full-time enrollment and 6 years for part-time enrollment from the semester in which the student completes the first course for the degree. All students are expected to follow the approved program plan. Students are required to be continuously registered for credit each semester from admission through graduation. If a student is unable to register for a class for a semester, an official leave of absence must be requested and approved by the DNP Program Director in order to maintain a place in the program.

Distinguished Graduate Student Awards

Awards are presented at each commencement ceremony honoring those students who, by the determination of their respective program administrators, have exemplified outstanding academic achievement.

Master of Business Administration students who have completed at least one-half of the Master of Business Administration requirements with a GPA of 3.8 or higher are eligible for membership in Delta Mu Delta, an international honor society in business. Candidates must receive faculty approval to be accepted.

Disability Services

Disability Services is located in the Center for Academic Success, 7th floor of the library. More information may be obtained by contacting 419.289.5953.

Students must be able to document fundamental limitations as they apply to academic access, in order to receive services. Documentation must be from a licensed professional and clearly support the need for accommodations. Students who have received interventions in the past or suspect they may have a disability are encouraged to inquire.

Official Student Notification

It is required that all students use the e-mail address and mailbox (if assigned) provided to them by Ashland University. Correspondence sent to students using these media will be considered a legitimate attempt to contact a student. Students will be responsible for information sent to their Ashland University e-mail address and campus mailbox (if assigned) at the time that this information is sent. Ample notice will be defined by the University office that seeks to initiate contact. Please note that University offices are in no way obligated to accept a student’s failure to check e-mail or AU mailbox as a legitimate excuse for noncompliance with instructions, requests, or appointments.

Student Appeals

Students who have questions about instructional faculty performance or conduct should follow the procedure listed below. Any appeals must be initiated no later than the end of the following semester.

Student Appeal Policy

1. The student should consult the faculty member in question. It is only after this approach has been attempted that further recourse is appropriate. No appeal will be heard until this initial step has been taken, unless the complaint involved conduct that the student does not feel comfortable raising with the faculty member. In this case, the student may initiate the complaint by writing directly to the academic head of the graduate program as described in step 2 of this process.

2. If consultation with the faculty member in question does not produce satisfactory results, the student should submit his or her appeal in writing to the academic head of the graduate program. The written appeal should specify the details and circumstances that justify the appeal and state the action or decision sought by the student.

3. If the academic head of the graduate program, after having consulted with the individual who is the subject of the complaint, denies the student’s appeal or complaint, the student may submit a copy of the appeal to the dean of the academic college in which the graduate program is housed.

4. The academic dean will review the information presented, make such inquiries as necessary, and render a judgment. If the student is dissatisfied with the dean’s decision, the student may make a final appeal to the provost.

If a written appeal is made to the provost, the provost will schedule a meeting including the student, the faculty member in question, and a Review Committee, consisting of the academic graduate program head and the academic dean. The provost, in consultation with the Review Committee, will make a final decision on the appeal or complaint and will specify what action, if any, is required by the student, the faculty member, and/or the University.

Academic Integrity Policy

The Ashland University community strives to model leadership which is based upon Christian beliefs and virtues that will encourage, develop, and sustain men and women of character to serve their professions, their communities, and the world (AU Statement on Ethical Leadership). As members of Ashland University, students hold themselves to the highest standards of academic, personal, and social integrity (Ashland University Campus Creed). In keeping with the Ashland University commitment to the highest standards of academic, personal, and social integrity, students are expected to abide by the academic integrity standards outlined in this policy.

The Ashland Theological Seminary has its own Academic Honesty and Plagiarism policy stated on pages 19–20 of its Student Handbook.

Section 1. Purpose

Academic integrity is as important to our mission today as it was at the University’s founding. The founders declared that Ashland “would develop students intellectually,” and our current mission speaks to the purpose of leading meaningful lives in the world community. Since the educational and social environment is built upon a long-standing commitment to Judeo-Christian values, it is clear that academic integrity is an essential part of students’ personal and intellectual growth.

At Ashland University, academic integrity is to be revered, honored, and upheld. Therefore, an academic integrity infraction is considered a very serious matter, as it corrupts the educational process and undermines the foundation of our community.

Section 2. Conduct that Violates Academic Integrity- Academic Dishonesty

Ashland University expects each student to advance the University’s mission by furthering an environment that is both challenging and supportive. In such an environment a student will neither seek nor offer improper assistance. All students have an obligation to be forthright in their academic endeavors and to respect ethical standards. The work that one submits for academic evaluation must be his or her own, unless an instructor expressly permits certain types of collaboration. Academic integrity requires that each student will use his or her own capabilities to achieve his or her fullest potential and will neither offer nor accept aid that is not in keeping with regularly accepted standards of academic integrity. Failure to conform to this conduct shall constitute academic dishonesty.
Section 3. Forms of Academic Dishonesty

Proper acknowledgment of ideas and sources is central to academic honesty. To ensure academic honesty, it is important to examine that which constitutes academic dishonesty. Academic dishonesty includes:

Plagiarism

Plagiarism is the intentional or unintentional presentation of someone else’s words, ideas, or data as one’s own work. In the event the faculty member deems the plagiarism is unintentional, he or she shall typically require the student to rewrite the assignment. In the event the faculty member believes the plagiarism is willful, the sanctions in this document will apply. If the work of another is used, acknowledgment of the original source must be made through a recognized reference practice, and, if verbatim statements are included, through quotation marks as well. To assure proper crediting, a student will acknowledge the work of others:
1. Whenever one quotes another person’s actual words.
2. Whenever one uses another person’s idea, opinion, or theory, even if it is completely paraphrased in one’s own words.
3. Whenever one borrows facts, statistics, or other illustrative materials, unless such information is of such common knowledge so as not to be questioned.

Fabrication

Fabrication is the intentional falsification or invention of research, data, citations, or other information. Examples of fabrication include:
1. Citing information not taken from the source indicated.
2. Including in a reference list sources that have not been consulted.
3. Inventing or altering data or source information for research or other academic exercise.
4. Submitting as his or her own any academic assignment (e.g., written work, painting, sculpture, etc.) prepared totally or in part by another.
5. Using a portion of a piece of work previously submitted for another course or program to meet the requirement of the present course or program without the approval of the instructor involved.
6. Permitting one’s work to be submitted by another person as if it were his or hers.
7. Taking a test (or other evaluation) for someone else or permitting someone else to take a test for oneself.
8. Other offenses of this form that incorporate dishonesty for academic gain.

Cheating

Cheating is an act of deception in which a student represents mastery of information that he or she has not mastered. Cheating may be suspected if an assignment that calls for independent work results in two or more solutions, sequences, or language so similar as to merit the charge.

Cheating may be suspected if there is a statistical inconsistency in the student’s performance and the student cannot explain or reproduce both the intricacies of the solution and the techniques used to generate the solution; or in the case of an essay examination, the student cannot explain or reproduce the thought-processes used to generate the writing.

Examples include:
1. Copying from another student’s test paper.
2. Allowing another student to copy from a test paper.
3. Using notes, textbooks, or other information in homework, examinations, tests, or quizzes, except as expressly permitted.
4. Securing, giving, or exchanging information during examinations without authority to do so.
5. Other offenses of this form that incorporate dishonesty for academic gain.

Other Forms of Academic Misconduct

These examples are not meant to be exhaustive. Further, they refer only to academic areas; appropriate action may also be undertaken by other agencies.

Examples include:
1. Obtaining confidential information about examinations, tests or quizzes other than that released by the instructor.
2. Stealing, buying, or otherwise obtaining all or part of an unadministered test in which the origins of the materials are suspect.
3. Selling or giving away all or part of an un-administered test including answers to an un-administered test.
4. Inducing any other person to obtain an un-administered test, or any information about the test.
5. Changing, altering, or being an accessory to the changing and/or altering of a grade in a grade book, computer file, on a test, a “change of grade” form, or other official academic record of the University that relate to grades.
6. Cooperating with another person in academic dishonesty, either directly or knowingly, as an accessory.
7. Using computing resources in a manner that violates University academic integrity policies.
8. Other offenses of this form that incorporate dishonesty for academic gain.

Section 4. Procedures following an Allegation of Academic Dishonesty at the Graduate Level

a. When a faculty member has observed a student violating any of the policies stated herein, he or she shall first inform the student of the allegation, then file a report with the Office of Records and Registration with supporting documentation.

b. When a proctor has observed a student violating any of the policies stated herein, the faculty member, under whose authority the proctor oversaw the academic activity, shall file an allegation of academic dishonesty, with supporting documentation, with the Office of Records and Registration.

c. When a faculty member has not observed a student violating any of the policies stated herein, but has a firm conviction of academic dishonesty, based on probative evidence, the faculty member shall file an allegation of academic dishonesty, with supporting documentation, with the Office of Records and Registration.

d. Upon the filing of an allegation of academic dishonesty, the Office of Records and Registration shall inform the student of the nature of the allegation and supply the student with documentation.

e. Within ten business days of receiving an allegation of academic dishonesty, the Office of Records and Registration shall notify the student of the procedures for refuting such allegation and for appealing any resulting penalty.

f. Within ten business days of receiving an allegation of academic dishonesty, the Graduate Academic Integrity Standing Committee shall schedule a hearing and inform the student of his or her right to refute the allegation at the hearing.

g. Time frames for taking actions may be extended upon agreement of the parties.
Section 5. Penalties and Penalty Determination

a. In addition to submitting the allegation of academic dishonesty to the Office of Records and Registration, the faculty member may assign a grade of zero for the assignment or test involved and/or assign an F for the course. Any grade appeal in process will be suspended until any integrity violation is resolved.

b. The Graduate Academic Integrity Standing Committee shall determine the penalty, adhering to the stated policies of the program, up to and including permanent dismissal from the graduate program, without opportunity to reapply. Within ten business days of the hearing, the committee shall notify the student of its decision and report its decision to the Graduate School dean. In determining the penalty, the committee shall take into consideration the seriousness of the offense, including:
   1. The willfulness of the incident; e.g., an error in the form of a citation is less serious than no attempt to credit the work of another;
   2. The extent to which the student had been previously instructed or warned about the academic integrity policy;
   3. Previous violations of academic integrity.

c. The action taken pursuant to paragraph B above does not prevent any additional action taken pursuant to stated policies of individual colleges, departments, or programs.

Section 6. Student Appeal Procedure

a. The student shall have an opportunity to attend the Graduate Academic Integrity Standing Committee’s hearing and refute the allegation of academic dishonesty.

b. Within ten business days of receiving notice of the committee’s decision, the student may appeal the decision to the dean of the Graduate School.

c. The dean of the Graduate School shall review the information presented, make such inquiries as necessary, and render judgment, which shall affirm, modify, or overturn the decision of the Graduate Academic Integrity Standing Committee.

d. Students may appeal a decision of the dean of the Graduate School to permanently dismiss a student from the program to the provost by submitting an appeal to the Provost’s Office within ten calendar days of notification of the decision.

ADA Accommodation

Students with disabilities who are in need of any special accommodations for the Academic Integrity Hearing, should contact the Office of Disability Services at 419.289.5904, or visit the Library, 7th Floor at their earliest convenience. The Office of Records and Registration will work with the Office of Disability Services to accommodate any documented disability.

Notes

Definition
In sections 4, 5, and 6, “Graduate Academic Integrity Standing Committee” refers to a committee that is comprised of a representative from each graduate program.
Representatives are elected by those full-time faculty with graduate faculty designation.

Graduate Student Judicial Code

I. Statement of Purpose
Ashland University subscribes to and strongly supports the right of each student to study and work in a quiet, peaceful, and respectful atmosphere that is conducive to the pursuit and acquisition of knowledge. Students who enroll in Ashland University are assumed to be adults who understand the obligation to conduct themselves in a manner that is compatible with the University’s function as an educational institution. Each student is expected to be fully acquainted with all published policies, rules, and regulations of the University and will be held fully responsible for compliance with them.

The Board of Trustees of Ashland University and its designates reserve the right to establish and enforce rules and regulations and to modify or amend existing rules and regulations that create and enhance an environment conducive to learning, and which it deems necessary to preserve the educational mission of Ashland University. The rules and regulations of the University community have been established to help ensure a positive educational experience for every student. These rules and regulations are based on the University’s commitment to developing personal integrity and self-respect, respect for the rights of others, and respect for the functioning and property of the University. It remains the student’s responsibility to be aware of and comply with all federal, state, and local laws and to abide by the Ashland University rules and regulations.

II. Authority and Jurisdiction of the University
Ashland University possesses the authority to regulate the conduct of any visitor, whether enrolled as a student or otherwise, to its main campus, or to any location at which it provides classes. Ashland University also possesses the authority to regulate the conduct of any person engaged in an activity sponsored in whole or in part, whether on or off University property.

The University may assert jurisdiction over a graduate student while on property owned or occupied by the University, as well as graduate students engaging in University activity, whether on property owned or occupied by the University or elsewhere. The University reserves the right to take action for behavior of a graduate student not occurring on property owned or occupied by the University, or not engaging in a University activity, when such behavior has, or reasonably may have, an adverse impact on Ashland University. Any graduate student involved in an activity that may give rise to civil or criminal culpability may also be subject to disciplinary action by the University when, in the sole discretion of the University, such action has, or reasonably may have, an adverse impact on Ashland University. The University reserves the right to determine the timing of implementing disciplinary action against the graduate student.

III. Definitions

a. Student: Any person registered in one or more courses in any school, college, or special program offered by the Ashland University Graduate School. Teaching or research assistants, if also registered as students, are classified as students for the purpose of this Code.

b. Campus: All property owned or leased by Ashland University.

c. Member of the University Community: Any Ashland University faculty member, student, employee, or Trustee, as well as any person on campus who is an employee of an entity with an ongoing relationship, whether contractual or otherwise, with Ashland University.

d. Incident Report: The initial document setting forth facts suggesting the violation of a rule or regulation of Ashland University by a graduate student.

e. Complaint: The formal document alleging the violation of a rule or regulation of Ashland University by a graduate student for which a sanction may be imposed.

f. The Appropriate Administrator shall be:
*The graduate chair of the Master of Business Administration Program, in the case of a Master of Business Administration student;
*The dean of the College of Education, in the case of a graduate Education student in any program, excluding the
Doctor of Education.
*The chair of the Master of Arts program, in the case of a Master of Arts of American History and Government student or the director of the Master of Arts with a Specialization in Teaching American History and Government, in the case of a MASTAHG student;
*The chair of the Department of Leadership Studies, in the case of a Doctor of Education student;
*The director of the Master of Fine Arts program, in the case of a Master of Fine Arts student.
*The director of the Master of Arts in Corporate and Strategic Communication program, in the case of an MACSC student.
*The director of the Doctor of Nursing Practice Program, in the case of a Doctor of Nursing Practice student.
*The director of the School of Nurse Licensure Program, in the case of a School Nurse Licensure student.
*The director of the Master of Science in Applied Exercise Science Program, in the case of a Master of Science in Applied Exercise student.

IV. Regulations and Policies
Most regulations follow. However, others are published elsewhere, either in this catalog or in other University publications. To the extent they apply, a graduate student is obligated to comply with the regulations/policies also set forth in the Student Handbook. Therefore, the following is not all-inclusive.

A. Safety
As applicable to graduate students, the following activities are hereby prohibited:
2. Harassment: Threatening to harm, intentionally harassing, hazing, stalking, coercing, intimidating, or seriously embarrassing any person through conduct that would offend a reasonable person. Any harassment because of the status of a victim as being a member of a protected class shall also be prohibited.
3. Dangerous Weapons: Possession, use, sale, or distribution anywhere on any campus or at any activity sponsored, either in whole or in part by Ashland University, of a dangerous weapon is prohibited. “Dangerous weapons” include but shall not be limited to all firearms, BB and pellet guns, knives, ammunition, explosives, fireworks and firecrackers of any type, and all other illegal weapons. No person shall carry a concealed weapon, whether under proper license or otherwise, on any campus or other property occupied by Ashland University.
4. Sexual Imposition: Engaging in sexual contact with another person when (a) the sexual contact is offensive to the victim, (b) the victim’s ability to appraise the nature of or control the offender’s conduct is substantially impaired, or (c) the victim is unaware of the sexual contact.
5. Drugs: Possession, use, cultivation or manufacture, sale or distribution on any campus of any drug, or drug paraphernalia, except under the direction of a licensed physician or as expressly permitted by law. Conviction of any federal, state, or local law of any drug offense is a violation of this policy.
6. Alcohol: Use and/or possession of alcoholic beverages and/or containers anywhere on any campus.

B. Property
1. Unauthorized possession, use, or removal: Unauthorized possession, use, or removal from a designated area of property belonging to Ashland University, any member of the University community, or any guest or vendor.
2. Destruction/Damage to Property: Destruction, damage, or defacement, including damage to technological equipment or network services belonging to Ashland University, any member of the University community, or any guest or vendor.

C. Integrity
1. Failure to meet financial obligations: Failure to meet financial obligations to Ashland University or giving the University a worthless check.
2. Failure to comply with requests/sanctions: Failure to follow the oral or written instructions regarding University policies or federal, state, or local laws by a properly identified University official whom the Board of Trustees or the president of the University has vested authority to give such instruction, or knowingly interfering with or obstructing students, faculty, or staff acting in the performance of their assigned duties. Cooperation with staff members in their assigned duties is expected. Failure to comply with a judicial sanction may result in suspension or dismissal.
3. Deception, Fraud, and/or Misuse of Documents/Technology: Furnishing false information to Ashland University, including, but not limited to, representing oneself as another (in writing or in person), knowingly supplying false or misleading information to University officials, unauthorized possession of an ID or false ID or falsifying, tampering, altering, forging, or misusing any University record, computer, technology, or official document.
4. Dishonesty in Judicial Matters: Dishonesty before University judicial bodies, knowingly misrepresenting verbally or in writing the nature of events or identification of persons or failing to appear before an appropriate judicial body by a complainant or witness when requested by an official member of the Judicial System.
5. Inappropriate Behavior: Disorderly conduct or an act that is morally shameful or that jeopardizes the integrity of Ashland University, any member of the University community, or any guest or vendor. Inappropriate behavior violations by persons representing Ashland University can include activities that occur off campus. Conviction of any federal, state, or local criminal statute is a violation of this policy.
6. Classroom Disruption: Activity or behavior that interferes with an instructor or faculty member’s ability to teach or a student’s ability to learn. The instructor or faculty member retains latitude in determining whether activity or behavior is disruptive.

D. Accessory Responsibility
Aiding, abetting, inciting, or cooperating with another person in the commission of a violation of regulations. All members of the University community have the responsibility for enforcing rules and reporting violations. Any individual, when University policies are being violated, is subject to the same disciplinary action as the violating party. Students are responsible for the behavior of their guests.

E. Traffic, Parking, and Vehicle Operation
Any person operating a motor vehicle on Ashland University property, or any campus, will be responsible for complying with University vehicle and parking regulations. Persons found to be in violation of such regulations may be ticketed and/or subject to judicial action in accordance with the severity of the offense.
F. Academic Integrity
   Please see the Academic Integrity Policy in this catalog.

V. Student Rights
   Please see Ashland University’s Student Handbook. Those rights are incorporated by reference herein.

VI. Complainant’s/Victim’s Rights
   Please see Ashland University Student Handbook. Those rights are incorporated by reference herein.

VII. Judicial Process
   a. Initiation of Incident Report
      When the conduct of a graduate student reasonably appears to constitute a violation of any rule or regulation of Ashland University, any member of the University community may file an Incident Report with the appropriate administrator. Such Incident Report shall contain facts upon which the person filing the document believes constitute the violation of a rule or regulation of Ashland University.
   b. Reasonable Grounds Determination
      If, in the opinion of the appropriate administrator, there exists grounds to believe a graduate student has violated a rule or regulation of Ashland University, such appropriate administrator shall prepare and file a complaint, setting forth the conduct alleged to be a violation of a rule or regulation of Ashland University, the place or places, and the date or dates on which such conduct occurred and shall state the specific rule or regulation alleged to have been violated. The appropriate administrator shall sign such complaint.
   c. Notice to the Graduate Student
      A copy of the complaint shall be delivered to the graduate student, along with a notice of the date and place a judicial conference hearing shall take place. Such notice shall include an indication of the penalties capable of being imposed. Where suspension or dismissal is a possible penalty, the notice shall specifically state that fact. The notice shall be delivered in person or by certified mail, return receipt requested.
   d. Judicial Conference Hearing
      No sooner than three nor later than twenty business days after the filing of a complaint, a judicial conference hearing shall be held. For good cause, this hearing may be continued for a reasonable period. The administrator filing the complaint shall be the hearing officer at such hearing. At the beginning of the hearing, the hearing officer shall indicate the nature of the offense, the rule or rules alleged to have been violated, and the possible penalty or penalties capable of being imposed. The graduate student shall admit or deny the allegations contained in the complaint.
      In the event of an admission by the graduate student, the hearing officer may reach an agreed disposition with the graduate student. In such event, a document stating the conduct, the rule or regulation that has been admitted to have been violated, and the disposition because of such admission shall be prepared and signed by the hearing officer and the graduate student. Such document shall be a final decision for the purposes of imposing a penalty as well as an appeal.
      In the event an agreed disposition cannot be reached or the complaint is denied by the graduate student, the hearing officer shall refer the matter to a Judicial Committee.
   e. Judicial Committee Hearing

1. Members of the Committee
   In the event it becomes necessary to convene a Judicial Committee, at least three University faculty and/or staff employees shall be selected by the graduate dean, or in his or her absence, the provost, to serve on the Committee. The graduate student may challenge the selection of any member of the Committee for cause. The members so chosen shall not be familiar with the graduate student nor have a direct interest in the matter constituting the grounds for the complaint. Mere employment by Ashland University of any faculty member or staff employee shall not constitute cause of recusal.

2. Time for Hearing
   Within fifteen business days after the matter has been referred to a Judicial Committee, a hearing shall be held. For good cause, this hearing may be continued for a reasonable period. The purpose of such hearing shall be to resolve any defects in the procedure to date as well as to identify any defenses presented by the graduate student. Any affirmative defenses shall be asserted at this hearing. Both the appropriate administrator and the graduate student shall identify the names of any party who may be called to give testimony in the matter. The Committee shall set a date certain for an adjudication of the complaint.

3. Representation at the Adjudicatory Hearing
   The graduate student shall have, but is not required to have, a resource person who may be an attorney. In the event the graduate student may be subject to suspension or expulsion, the resource person may act on behalf of the graduate student. In the event the graduate student is not subject to suspension or expulsion, the resource person shall not participate in the proceedings but may advise the graduate student in his or her defense. In the event the graduate student does have an attorney as his or her resource person, the graduate student shall notify the Committee and the appropriate administrator at least seven business days prior to the date of the adjudicatory hearing.

4. Procedure
   At the adjudicatory hearing, the charge shall again be read to the graduate student. The appropriate administrator shall then present to the Committee all information relevant to such complaint. The graduate student shall have the right to confront and cross-examine all witnesses. The graduate student shall then present to the Committee all information relevant to the defense asserted. Formal rules of evidence shall not apply; however, the chair of the Committee shall limit testimony when appropriate. The chair of the Committee shall rule on any objections to the admissibility of evidence. Upon conclusion of the presentation of evidence by both the appropriate administrator and the graduate student, both parties shall be entitled to make a closing argument.

5. Deliberations and Decision of the Committee
   Deliberations of the Committee shall not be public. In cases not involving suspension or dismissal, at least two-thirds of the members of the Committee must agree upon a decision. In cases involving suspension or dismissal, a decision to suspend or dismiss must be unanimous. The standard of proof is a preponderance of the evidence. The Committee shall present its decision in written form and shall make findings of fact and conclusions based on the application of the facts found to the rule or regulation involved. A recording of the hearing, but not the Committee’s deliberation, may take place, but any recording made by the University shall be the property of the University. In the event the graduate student desires a copy of a transcript of such recording, it shall be at the expense of the graduate student. Any decision by the Committee shall be a final decision.
VIII. Sanctions

a. Disciplinary Probation
   A sanction that defines a student’s status for a specific amount of time; future infractions will result in either suspension or dismissal.

b. Suspension
   Exclusion from the University campus, classes, and other University activities for a specified amount of time, which may range from several days or weeks to the remaining portion of a semester or to a period of up to two years.

   During this time period the student is not allowed on campus or at University activities. A student given the sanction of suspension is excluded from classes with no right to take tests or make up work missed during the remainder of the semester. The student shall be withdrawn from classes at the request of the appropriate administrator or the dean of the Graduate School. If the suspension occurs at any time in the first three-quarters of the course meeting time, any classes in which the student is enrolled must be graded as “withdraw (W),” if the suspension occurs after the first three-quarters of the course meeting time, an “F” must be recorded.

c. Dismissal
   Termination of student status either permanently or for a period of no less than two years after which the student may apply for readmission. During this time period the student is not permitted on campus or at University activities. A student dismissed at any time in the first three-quarters of the course meeting time will be assigned a “withdraw (W)” grade, whereas a student dismissed after the first three-quarters of the course meeting time will be assigned an “F” grade in all classes.

   Readmission following suspension or dismissal may be conditional requiring the continuation or issuance of sanctions (i.e., probation, disciplinary probation, etc.).

d. Restitution
   Reimbursement for damage, destruction, or misappropriation of property. This shall not be considered a punitive fine, but a charge to repair, replace, or compensate for the damage, destruction, or misappropriation of the property involved.

e. Notification to Others
   Providing notice to those deemed necessary or appropriate to further support the student, or to whom such notice may be necessary or required. Persons or institutions that may supervise the licensing of a student or other persons or institutions that may have a direct interest in the conduct of a student may be notified, absent any overriding privacy issue.

f. Education/Judicial Assignment
   An assignment to be completed by a specified time in a satisfactory manner. It can include drug and/or alcohol education or assessment, meeting with University officials, accompanying or assisting staff with responsibilities, or writing letters of apology. Any cost associated with this sanction shall be the responsibility of the student.

g. Loss of Privilege
   The temporary or permanent loss of the privileges associated with the use of services or goods provided by Ashland University or affiliated entities.

h. Removal of Property
   Requiring the student to remove any property owned or possessed by the student and situated on campus property.

i. Restriction
   Restriction and/or revocation of campus privileges for a specified period of time. Such restriction shall exclude the student from a designated area and/or a designated activity.

j. Withholding of Degree
   In order for a student to be approved for graduation, the student must resolve any outstanding judicial charges and must comply with all sanctions issued. A degree shall be withheld should there remain any further activity on the part of a student subject to judicial sanctions.

IX. Interim Suspension

In the event the conduct of a graduate student poses a risk to the health, welfare, or security of members of the University community, or to the property of Ashland University, the University may, during the pendency of any matter, either before or after a complaint has been filed, suspend the graduate student. In such event, the appropriate administrator shall notify the dean of the Graduate School, setting forth facts that state that the conduct of the graduate student poses or could reasonably pose a threat to (a) the stability and continuance of normal University functions; (b) University property, and/or (c) the emotional/physical welfare of the graduate student in question, or to other persons.

In such event the dean of the Graduate School imposes an interim suspension without a hearing, the graduate student will immediately be notified and shall have the right to a hearing on such suspension within ten (10) business days from receiving notice of such suspension. Any hearing requested by the graduate student shall be limited to a determination as to whether grounds exist for the imposition of the interim suspension. The standard of proof shall also be a preponderance of the evidence.

X. Appeals

In the event the graduate student disagrees with the decision of the Committee, he or she may appeal such decision to the graduate dean. The graduate student shall give notice of appeal no later than fifteen business days from the date of the decision. The graduate student shall also indicate the grounds for and evidence in support of such appeal and indicate what relief he or she seeks. Any appeal is limited to proof of (1) prejudicial errors in the procedure of the hearing of the Judicial Committee, (2) the penalty is excessive, (3) the decision of the Judicial Committee is arbitrary and/or capricious, and (4) evidence unavailable for presentation at the hearing of the Judicial Committee, which was unavailable for reasons not caused by the graduate student, is now available (this claim may be brought only within sixty days from the date of the decision of the Judicial Committee). The graduate student shall serve on the appropriate administrator a copy of his or her appeal. The appropriate administrator may, but is not required to, respond to such appeal.

The decision of the dean to any appeal must be in writing and signed. The dean of the Graduate School may:
(1) affirm the findings and conclusions of the Judicial Committee, and affirm the imposition of the sanction involved, or affirm the findings and conclusions of the Judicial Committee, but modify the imposition of any sanction or sanctions, (2) reverse the findings and/or conclusions of the Judicial Committee, and convene another Judicial Committee to hear the matter not inconsistent with the terms of the decision of the appeal, or (3) reverse the findings and/or conclusions of the Judicial Committee, and dismiss the matter.

XI. Exclusions

This Code shall not apply to matters involving Academic Integrity. Such matters are covered by the Academic Integrity Policy.

XII. Amendments

The University reserves the right to amend this Code from time to time.
Library

Located near the center of the Ashland University Campus, the library symbolizes the University's commitment to the values of learning, research, and exploration in the educational experience of its students. In addition to the main library system, the library at the Ashland Theological Seminary campus is a part of the University system. The resources of both libraries are available to off-campus teaching centers and students through the Internet. The combined holdings of both libraries include of 300,000 items. The library has several study rooms and offers a welcoming space where students are encouraged to research, study, or work in groups.

Ashland University students are able to enjoy online access to the library catalog and the library's digital resources from both on and off campus. The library is a member of OhioLINK, a consortium of academic, public, and special libraries across Ohio. Through OhioLINK, Ashland students have access to over 50 million items from all eighty-nine of the participating libraries and more than 100 electronic research databases containing thousands of scholarly journal titles.

The library serves as the federal government document depository for Ashland County. Special collections areas within the library are the Instructional Resource Center, the Lulu Wood Library of Children's Literature, the Harold E. Andrews Collection of Special and Rare Books, the John F. Kennedy Reading Area, the Richard Snyder Poetry Collection, and the Leo and Laura Thomas Numismatic Center. Also housed in the library building are the Center for Academic Support, the John M. Ashbrook Center for Public Affairs, and a 135-seat lecture room.

The library staff is committed to enhancing each student's academic experience by providing the resources, skills and confidence to access, evaluate and synthesize information.

To that end, professional reference librarians introduce the basics of information literacy to every incoming freshman class, schedule course-specific research classes for upper-level courses, offer individual research appointments for any student project, and provide reference assistance in person, by phone and by e-mail. Instructional classes are held in the Library Instruction Classroom, a thirty-workstation facility including projection capabilities, which offers students immediate hands-on practice in the skills being taught.

Instructional Resource Center (IRC)

The IRC is located on the second floor of the Ashland University Library. Its collection, Library of Congress Classification L - education, juvenile and young adult literature, and the IRC collections, support the teaching programs and curriculum of the Dwight Schar College of Education.

The IRC circulating collection includes K-12 student and teacher edition curriculum textbooks, activity books, and book kits. Be sure to browse our extensive juvenile collection featuring picture books, juvenile fiction, juvenile non-fiction, big books, chapter books, graphic novels, young adult fiction and young adult non-fiction, and book kits.

Available IRC technology resources include computers, scanners, AU print quota and color printing. AU Library's IRC is a self-serve work area for all Ashland University students, faculty, and staff, offering laminating, binding, resources, Ellison Die Cut Machines, and a library of Ellison dies. The Instructional Resource Center is staffed by a faculty librarian and student workers.

Visit the IRC web site for more information including hours of operation and links to the IRC blog, IRC Twitter, and IRC Pinterest sites. Call the IRC directly at 419-289-5406, on campus ext. 5406.
International Programs

Ashland University educates and challenges students to develop intellectually and ethically, to seek wisdom and justice, and to prepare for the rigors of living and working as citizens aware of their global responsibilities. Opportunities to study, work, travel, and teach away from campus enrich the educational experience by increasing awareness and understanding of other cultures, languages, and lifestyles.

Office of International Student Services

At Ashland University, the presence of international students enhances the educational experience. These students bring new perspectives through participation in classroom and extracurricular activities. Staff members of the Office of International Student Services and the Center for English Studies (ACCESS) work to meet their special academic, linguistic, cultural, and immigration needs. Programs of community outreach facilitate interaction between AU’s international students and the residents of Ashland. Promotion of understanding among people and the development of an appreciation of global issues are the twin goals of our international programs.

Office of Study Abroad

The Global Education Office promotes learning opportunities for all eligible Ashland University students to gain an understanding of other regions, countries, languages, and cultures through educational travel in the U.S. and abroad.

PRE-APPROVED PROGRAMS

[Semester/Academic Year/Summer]

Ashland University has pre-approved programs in 38+ countries. Students receive credit for courses taken abroad that advance their AU academic program. For a list of AU-approved programs, visit the Abroad Office online at ashland.abroadoffice.net.

EXCHANGE PROGRAMS [Semester/Academic Year]

Spend a semester or academic year studying at one of AU’s partner universities for the same tuition cost as AU. Major/minor courses as well as core courses are pre-approved. Locations include: France, The Netherlands, Taiwan, Brazil and Spain. See ashland.abroadoffice.net for more information.

AU SUMMER PROGRAMS [4-8 Weeks]

AU in Germany — AU in Germany offers students the opportunity to take two core courses taught by AU Faculty and travel. Students spend one week in Ashland and then travel with faculty members to Wittenberg, Germany for three weeks.

AU in Costa Rica — The best way to learn a language is through an immersion experience. AU in Costa Rica offers students the opportunity to study Spanish for 4-8 weeks, live with a host family, visit exciting sites and even receive customized Spanish language instruction for their particular career field.

AU in France — AU in France is a 6-week summer program designed to provide students with an immersion experience. Students will earn 6 credit hours of French language, participate in excursions and live with French families.

COBE in Taiwan — The College of Business and Economics (COBE) offers students the opportunity to spend six weeks in Taiwan and learn basic Chinese Language, take a course on Taiwanese Business Culture and participate in company site visits.

FACULTY-LED TOURS [1-3 Weeks]

Each year Ashland University coordinates faculty-led tours to locations all over the world from England to Africa to China. These academic programs allow students to accompany one or more faculty members as they explore a focused topic that uses the destination as the classroom. Past programs have traveled to Austria, Belgium, China, Costa Rica, England, France, Germany, Greece, Hong Kong, India, Ireland, Italy, Massachusetts, Mississippi, South Africa and Spain.

STUDENT TEACHING ABROAD [6 weeks]

The College of Education’s Cross-Cultural Internships in Teacher Education (CITE) program offers pre-service teachers the opportunity to complete their student teaching requirement outside of Ohio. Students are assigned to a school that utilizes English as the language of instruction. International locations include: Australia, Bahamas, China, Costa Rica, Ecuador, Finland, Germany, Greece, India, Ireland, Italy, Netherlands, New Zealand, Puerto Rico, South Africa and Taiwan.

Ashland Center for English Studies (ACCESS)

The Ashland Center for English Studies (ACCESS) equips international professionals, undergraduate, and graduate students with the knowledge, skills and experiences in English needed to fully engage with the intellectual, professional and social communities on campus and in university classrooms and acquaint them with American people and culture through real-world experiences, both inside and outside the classroom.
Ashland Theological Seminary

Ashland Theological Seminary is a graduate division of Ashland University under the governance of the same Board of Trustees. The Seminary seeks to fulfill the identity statements of the University, while at the same time being true to its own unique calling as found in its mission statement and other identity statements.

Mission Statement:
Ashland Theological Seminary integrates theological education with Christ-centered transformation as it equips men and women for ministry in the church and the world.

Dean
Mignon Jacobs, Ashland Theological Seminary Academic Dean and Chief Academic Officer

John Swope, Director of Field Education
Sarah Thomas, Digital Services Librarian

Philosophy of Theological Education
In order to carry out its mission, Ashland Theological Seminary brings together faculty with shared commitment to biblical, evangelical faith; the pursuit of excellence in teaching; professional development through continuing education and research; and service to the church and the world. The interdenominational team of educators attempts to create both a community of fellowship and a climate for learning. The faculty recognizes teaching supported by research and scholarship as their central and most important responsibility.

Learners are challenged to ground their Christian identity in an intimate relationship with God as they grow and mature in Christ under the guidance of the Holy Spirit. This growth takes place in the context of a nurturing community that encourages learners to develop and exemplify a Christ-like character. Through the classroom and co-curricular experiences, learners are challenged to clarify their unique calling in the Kingdom of God. The curriculum is designed to develop competence in hermeneutics, biblical studies, history, and theology, as well as ministry areas such as preaching, teaching, leadership, worship, pastoral care, counseling, spiritual formation, missions and evangelism.
The Seminary creates a learning environment that emphasizes both biblical conviction and tolerance. This climate facilitates the appreciation of persons and ideas from diverse Christian traditions within a cross-cultural perspective. Learners are encouraged to deepen their understanding of and involvement in their own denominational traditions. The Seminary models and fosters a commitment to servant leadership according to the example of Jesus and to lifelong learning which balances ministry and family life.

The administration and staff serve an essential role in helping faculty fulfill the mission of Ashland Theological Seminary. Modeling an attitude of servant-leadership, they seek to provide all the necessary institutional resources for all members of the Ashland Theological Seminary community to excel in their areas of ministry and responsibility.

Centers
ASHLAND, OH - Students can earn a degree in Master of Arts (Biblical Studies), Master of Arts (Historical & Theological Studies), Master of Arts in Chaplaincy, Master of Arts in Clinical Mental Health Counseling, Master of Arts in Pastoral Counseling & Care, Master of Arts in Spiritual Formation, Master of Divinity or Doctorate of Ministry. We are located at 910 Center Street, Ashland, OH 44805.

CLEVELAND, OH - Students in metropolitan Cleveland can earn a Master of Arts in Black Church Studies, Master of Arts in Practical Theology or Master of Divinity degree completely at our Cleveland Center. Courses are also offered leading to the Doctorate of Ministry in Black Church Studies. We are conveniently located at 6500 Rockside Road, Suite 130 Independence, OH 44131.

COLUMBUS, OH - Our Columbus Center is located at 8425 Dublin-Granville Rd, Columbus, OH 43229. Students can earn a degree in Master of Arts in Clinical Mental Health Counseling, Master of Arts in Practical Theology or Master of Divinity.

DETROIT, MI - The Detroit Center offers the Master of Arts in Counseling, Master of Arts in Practical Theology, Master of Divinity, and courses leading to the Doctor of Ministry. We are located in the Centrum Building at 24901 Northwestern Highway, Suite 600, Southfield, MI 48075.
Mission Statement
The mission of the College of Online and Adult Studies is to provide quality online distance education programs through a variety of modalities, and to establish distance education as an effective method for extending educational opportunities.

Curricular Structure
Most online courses consist of seven consecutive weeks of coursework, followed by one week off. Online courses are available in the fall, spring, and summer semesters.

General Admissions Procedures for Online Programs
See Online Undergraduate Admissions Procedures and Graduate School Admissions Procedures complete details. Complete appropriate online application under “Graduate, Online, and Adult” at www.ashland.edu/admissions/apply-now.

Directors
Dr. Don Tharp, Executive Director of LearnAU
Shawn Orr, Director of Faculty Services
Beth Bilek-Golias, Director of Curriculum
Brandy Schaad, Project Specialist
Founders School of Continuing Education

Dean
Eugene P. Linton

Founders School Mission
The mission of the Founders School of Continuing Education is to provide high quality educational opportunities for adult learners in unique, innovative and collaborative environments that meet the 21st century needs of the business, education and professional communities.

College Credit Plus
Through Ashland’s College Credit Plus program, high school students with strong academic records can earn college credit and/or high school graduation credit by taking college courses at the University or at participating high schools.

Admission Requirements College Credit Plus
The student must have participated in a college preparatory curriculum and completed the following:

- Two or more years of high school English
- Two or more units of math (algebra or higher)
- Two or more units of science (one must be a laboratory science)
- Two or more units of social studies
- The student must have a cumulative grade point average of at least 2.50 on a 4.00 scale at the time of application.
- The student must have a composite score of 18 or higher on the ACT.

Student must complete the free application for admission into College Credit Plus program available online at http://www.ashland.edu/apply. Student must complete and submit all approval forms required from their high school. Registration is limited to a maximum of 16 credit hours per semester, and 30 credit hours per year.

All of the above criteria are considered for acceptance into College Credit Plus programs. Acceptance does not guarantee course availability. The cost for taking courses at the University campus is $33.00 per credit hour.

Professional Development Services
Mission
The mission of Ashland University's Professional Development Services is to incorporate nationally-recognized standards in support of transformative learning opportunities for educators and other professionals.

Directors
Eugene Linton, Executive Director of Professional Development Services, Main Campus
Georgine Collette, Director of Professional Development Services, Columbus Center
Renee Yoder, Director of Professional Development Services, Elyria Center
Paul Steller, Director of Professional Development Services, Massillon Center
Patrick Crahan, Director of Professional Development Services, Southwest Center

Telego Center for Educational Improvement
Director
David Silverberg

Mission
Our mission is to provide schools and other institutions with customized services that address education and business issues and represent the highest possible levels of professional expertise.

Information
The Telego Center for Educational Improvement is a knowledge and skill-based resource offering customized solutions to educators and business professionals.

The Telego Center provides technical skills and expertise to school administrators and organizational leaders in meeting state and federal mandates, improving leadership skills, and enhancing performance.

The Telego Center operates under the auspices of Ashland University. The center’s personnel have all been or are currently associated with the public school system and business organizations throughout Ohio and other regional dates.

Interim Director, Gill Center for Business and Economic Education and Outreach Programs
Jerry McGlone

Outreach Program
David Webb, Director of Correctional Programming
Vickie Taylor, Director of Correctional Instructional Design
Jeremy Vogel, Associate Director of Enrollment and Financial Aid
Sandra Evans, Assistant Director of Enrollment
Pamela Justice, Louisiana Site Director

Mission
One of the building blocks of a free society is a market economy where individual choice is valued and individual effort is rewarded. These concepts imply responsibility both for oneself and to the community. While we believe that freedom is natural to humans, we also believe that it must be nourished through education.

The Gill Center specifically promotes increased knowledge of the private enterprise system in its various education, public, business, and government constituencies.

Ashland University’s Gill Center for Business and Economics Education is dedicated to improving our youths’ understanding of economic principles and the global economy. Working with teachers and school systems we strive to prepare students to be knowledgeable consumers, prudent savers and investors, productive members of the workforce, responsible citizens and effective participants in the global economy. The Center is affiliated with the Ohio Council on Economic Education (http://ohiocene.org/) and the Council for Economic Education (http://councilforeconed.org/).

The Gill Center for Business and Economic Education
The Gill Center for Business and Economic Education facilitates a flow of economic and business intelligence and know-how to students, teachers and business professionals at all levels of education. The Center’s staff provides pre-service and in-service teacher training through professional development programs, graduate level courses, and classroom curriculum materials. The
Center also conducts economic research which provides the student with practical experience and simultaneously serves the business community. The tenet of private enterprise – freedom of enterprise, freedom of individual choice, and freedom to gain from one’s efforts – is foundational to the Center’s programs.

**Continuing Education**

Continuing Education offers students and adults an opportunity to take credit courses and non-credit seminars, workshops and courses. Continuing Education Units (CEUs) are awarded for non-credit offerings, one CEU per 10 contact hours. Professional Development Units (PDUs) are offered for some workshops. Non-credit offerings include, but are not limited to, nursing home administration, real estate licensing, project management, banking, supervisor management, and social service.

**Corporate Education**

The Corporate Education Program was established to better serve the needs of the business community. Ashland University is in a position to offer services to business and industry throughout northeastern Ohio. This program provides business and industry with on-site training and services tailored to the needs of the organization.

**Chillicothe Correctional Institution, Grafton Correctional Institution, Lake Erie Correctional Institution, Richland Correctional Institution Mansfield Correctional Institution Programs and the Louisiana Correctional Institution Programs**

These programs provide inmates with a recognized educational certificate program. The certificates include Basic Business, Business Management, Hospitality Administration, Hospitality Sales, Hotel/Restaurant Administration, Hotel/Restaurant Management, Office Management, Office Skills, Retail Administration, Retail Management, and Retail Sales.

**Certificate Programs Paralegal Certificate**

This intensive program is designed for beginning as well as advanced legal workers. Training includes instruction on how to assist trial attorneys, interview witnesses, investigate complex fact patterns, research the law, and assist in preparing cases for courtroom litigation. The instruction is practice-oriented and relates to those areas of the law in which paralegals are most in demand. The Paralegal Certificate Course® offers instruction on how to work as a full-time or part-time paralegal, or how to open your own freelance business. There are no prerequisites other than a high school diploma (or GED), but students must be prepared to complete a significant amount of homework each week.

This program can help students increase their office’s efficiency, productivity, and billable hours as well as learn new marketable job skills. This course is available in Live Lecture, Online, DVD, and Text-Only formats.

Successful graduates will be awarded a Certificate of Completion from Ashland University. To receive a Certificate, students must pass numerous quizzes and successfully complete several legal document writing assignments.

**Advanced Paralegal Certificate**

These classes build upon the Paralegal Certificate Course. Students can interact through an online forum, and assignments and exams are completed online for critique and grading. Each of these topics is completed in one 7-week online session, and due to significant homework requirements, students can take a maximum of three topics per session.

The Advanced Paralegal Certificate Course enhances understanding of many of the substantive law areas that are discussed during the Paralegal Certificate Course®. The additional training gained through participation in these advanced classes can embolden legal knowledge and skills. Students who successfully complete at least six advanced topics will receive a Certificate of Completion.
Honors Program

https://www.ashland.edu/administration/honors-program

Professional Staff
Christopher Swanson, Director, Professor of Mathematics
Becky Schaa, Coordinator

Mission Statement
The mission of the Honors Program is to offer academically talented undergraduate students cross-disciplinary experiences, participation in an intellectual community devoted to discussion and dialogue, and special projects and courses that challenge the mind. The cornerstone of the Honors Program is the belief that intellectual stimulation and camaraderie among Honors students give them a more complete college experience.

To satisfy this mission, Honors freshmen enroll in the First Year Honors Seminar during the fall semester, in which they are introduced to the Honors Program and Ashland University while learning how to think critically and communicate clearly, thereby helping with their transition from high school to college. Honors students also have the opportunity to enroll in Honors sections of the core curriculum, capped at 15 students per section and taught by some of the best professors at Ashland University. The Honors Interdisciplinary Seminar will continue to develop the Honors students’ critical thinking and communication skills, building upon their involvement with previous Honors courses and helping them prepare for the rigors of the Honors Capstone Project. The pinnacle of the Honors experience is the Honors Capstone Project during which a student works closely with a faculty mentor in his or her major for at least two semesters to develop an original composition which is orally defended during the final semester of the project.

Requirements for Admission to the Honors Program

Entering first year students generally have a high school GPA of 3.5 or above, and an ACT of 27 or above or SAT (critical reading and math) of 1280 or above. First year students must complete an application form and may request an interview with the Director of the Honors Program.

Students who wish to participate in the Honors Program and do not meet the GPA or test score guidelines above are especially encouraged to request an interview. Students who are admitted to the Honors Program will receive notification typically within two weeks of completing their applications.

AU students and transfer students who wish to apply for admission to the Honors Program must have an overall university GPA of 3.5, complete an application form, provide a letter of recommendation from a faculty member, and meet with the Honors Director for an interview (optional for transfer students). AU students and transfer students accepted into the Honors Program after the 1st semester of their freshmen year are not required to complete the First Year Honors Seminar. Students who begin in the Honors Program with sophomore status will only be required to complete Honors designated core courses in three different areas.

Continuation/Graduation Requirements
In order to remain in the Honors Program, students must maintain an overall GPA at AU of at least 3.3 during their freshman year, 3.4 during their sophomore year, and 3.5 during their junior and senior years. If the GPA drops below this standard, the student will be placed on probationary status if he or she can meet the standard by the end of the subsequent semester; otherwise, the student will be dismissed from the Honors Program. A student on probationary status who does not raise his or her cumulative GPA to meet the standard by the end of the subsequent semester will be dismissed from the Honors Program. Students who are dismissed from the Honors Program may reapply to the Honors Program if they raise their overall GPA to a 3.5. Students must meet the 3.5 standard at the time of graduation.

To remain a member of the Honors Program, an Honors student must complete one Honors Core course by the end of his/her first year in the Honors Program, three Honors Core courses by the end of his/her second year in the Honors Program, be enrolled in Honors 310 during his/her junior year, and be working on the Honors Capstone Project during his/her senior year. Additionally, Honors students are required to attend 4 events each year—the Honors Retreat, the Fall Honors Lecture, the Spring Honors Lecture, and the Academic Honors Convocation. Failure to attend these events may result in dismissal from the Honors Program.

Recognition and Achievement Award
The academic transcript of each Honors graduate bears an acknowledgment of work completed in the Honors Program. The Howard O. Rowe Faculty Honors Scholarship is awarded annually to the graduating student whose Honors Capstone Project is considered to be the best among his or her peers.

For more information, call or visit the Academic Honors Program office in 103 Clayton Hall (x5260), or visit the website.

Honors Curricular Information Honors Capstone Project
The Honors Capstone Project will officially begin in the Honors student’s next to last semester, although it may start earlier if the student, faculty mentor, and Honors Director agree. The Honors Capstone Project is typically completed in two semesters as two sections of Independent Study 498 in the student's major, and thus the student must complete an Independent Study Request form from the Office of Record’s and Registration prior to registration. For more information, see the Independent Study Program section of the catalog. A written prospectus is required of all Honors students by the conclusion of HON 310, and this prospectus (approved by the faculty mentor and the Honors Director) should serve as a guide to the Capstone Project. The Honors Capstone Project will typically be completed in the Honors student's final semester, will be reviewed and approved by the faculty mentor, Honors Director, and an additional faculty reviewer of an appropriate academic department, and will be publicly presented to the Ashland University community. The Honors Capstone Project Handbook distributed in HON 310 should be consulted for the appropriate deadlines.
Honors Elective

Honors students have four options for completing the Honors Elective: taking a 2nd HON 390, taking an Honors designated core course in a 5th area, completing two Honors Contract Courses, or completing an Honors Study Abroad experience. The latter two options are described in more detail below.

Honors Contract Course

To fulfill the Honors elective requirement, an Honors student may add-on one credit to two upper level courses within his or her major by completing additional work beyond the normal requirements and expectations of the courses. The additional work should focus on inquiry, discovery, and critical thinking, important skills the student will need as he or she works on the Honors Capstone Project.

An Honors student wishing to enroll in an Honors Contract course must fill out a contract, in consultation with the course instructor describing in detail the additional work or project that will be tied to the academic content of the course. This contract available on the Honors Program website must be signed by the student and the course instructor, and should be submitted to the Honors Program Director when the student registers for classes. The contract must be submitted by no later than the end of the 1st week of classes.

The Honors portion of an Honors Contract course will be evaluated satisfactory/unsatisfactory (S/U) by the course instructor. The course to which the Honors Contract is attached will be graded according to the course criteria. Acknowledgment of Honors Contract courses will be indicated on the student's transcript.

Honors Study Abroad Experience

An Honors student participating in a Study Abroad Experience with an academic component related to the Honors Program Mission Statement may submit a petition requesting a waiver of the Honors Elective. This petition available on the Honors Program website must be approved prior to the beginning of the Study Abroad Experience and will be reviewed by the Honors Advisory Committee. At the request of this committee, the Honors Program Director may require a student to complete additional work beyond the normal expectations of the Study Abroad Experience in order to waive the Honors Elective. In particular, Study Abroad Experiences connected directly to Ashland University courses will almost always require a student to complete additional work. The student must submit a Course Substitution and Waiver Form signed by his/her advisor and the Honors Program Director upon completion of the Study Abroad Experience to the Office of Record’s and Registration. No Honors Program academic credit will be awarded for this experience, although the student may receive academic credit from the university.

Honors Requirements

Honors designated core courses will be capped at 20 students, with Honors students given first priority during registration. A non-Honors student may take an Honors designated core course if it is not fully enrolled and the student receives permission from the Director of the Honors Program in consultation with the instructor. An Honors course taken with the S/U option will not count towards fulfilling Honors Program curricular requirements (except for HON 310). Note that an Honors Core course taken with an S/U option will count towards completing a category of the Core curriculum, but it will not count as one of the required Honors designated Core courses.

To remain a member of the Honors Program, an Honors student must complete one Honors Core course by the end of his or her first year in the Honors Program, three Honors Core courses by the end of his/her second year in the Honors Program, be enrolled in Honors 310 during his/her junior year, and be working on the Honors Capstone Project during his or her senior year.

Undergraduate Programs
Art

Department of Art and Design
The College of Arts and Sciences

Chair
Daniel McDonald, Associate Professor of Art

Faculty
Keith Dull, Professor of Art
Priscilla Roggenkamp, Associate Professor of Art
Wendy Schaller, Associate Professor of Art
Michael Bird, Professional Instructor of Art
Cynthia Petry, Professional Instructor of Art / Director of Coburn Gallery

Degrees Offered
Bachelor of Arts
Bachelor of Fine Arts
Bachelor of Science
Bachelor of Science in Education
Associate of Arts

Student Learning Outcomes
The Art Department provides programs in fine art, art education, commercial art, and computer art and graphics programming (CAGP). The mission of the Art Department is to provide education in the visual arts and to prepare students to function in a productive capacity within the larger culture, including the qualifications necessary for pursuit of graduate studies. The Art Department provides a comprehensive and contemporary approach to the field and is committed to maintaining an environment that encourages seriousness of purpose in the creation, criticism, exhibition, and understanding of art. To fulfill the mission, the Art Department has established the following student learning outcomes:

- demonstrate high levels of technical skill;
- critically analyze works of art;
- fully illustrate their ideas visually;
- think critically and solve problems creatively; and
- analyze topics in the history of art.

Evidence of a student's ability to fulfill these learning outcomes is measured in their ability to successfully complete the following elements of the departmental assessment process (see Degree Requirements):

- complete coursework as outlined in their major requirements;
- exhibit high standards of achievement in the Foundations Portfolio Assessment;
- exhibit high standards of achievement in the Concentration Portfolio Assessment;
- exhibit high standards of achievement in the Senior Review Assessment; and
- fulfill the Senior Exhibition Requirement.

In addition, CAGP students through courses in computer science and the allied field of mathematics, will:

- employ discrete structures;
- examine computer architecture;
- practice programming;
- design and analyze algorithms; and
- implement critical thinking.

Facilities and Equipment
Six studios and one specially equipped lecture classroom accommodate the needs of our faculty and students. Studios are well-equipped with specialized tools for each of the disciplines offered.

- Printmaking equipment including a 36" intaglio press and a lithography press
- Ceramics lab with 16 wheels and both electric and gas-fired kilns
- Computer lab for digital arts and graphic design with archival large format printer
- Sculpture studio equipped for metal fabrication, metal casting, wood working, etc.
- Slide/video library

The Coburn Gallery at Ashland University provides exhibitions of contemporary and historical significance for the campus community and the Ashland area. Eight exhibitions annually provide excellent opportunities for supplementing academic studies.

Description of Majors
Fine Arts – Our majors in the fine arts offer concentrations in painting, sculpture, printmaking, ceramics, and digital art. These majors prepare students for careers as professional artists or for post graduate studies. Students begin with introductory drawing, design, and art history classes in the foundations sequence. Upper level work in the students' concentration area, as well as electives from the other areas, gives graduates well-rounded art training that allows them to develop creative ideas in a variety of media. A series of reviews after the foundations sequence and during the junior year prepares students for the senior exhibition which takes place in the department’s Coburn Gallery. A year-round program of exhibitions in the gallery by serious fine artists allows students the opportunity to deepen and expand ideas through constant exposure to new concepts and techniques. A student exhibition with cash awards, juried by an outside juror, gives students the opportunity to exhibit their work in a professional setting. Students interested in the B.F.A. degree must receive approval from the individual area professor, confirmed by the department faculty.

Commercial Art - Commercial art majors have two primary options within the program: Graphic Design and Digital Video Production. These concentrations prepare students for creative careers that develop visual solutions for clients. Students are grounded in solid art foundations including drawing, design and art history classes. Then students advance to upper level classes specializing in their given fields, culminating with a portfolio of work that will prepare them for entry into the workforce in their given field. Between their junior and senior years, students are required to acquire and complete an internship for in-field experience. In their senior year students select a body of work from their portfolio to be presented as part of their Senior exhibition in the Coburn Gallery.

Computer Art & Graphics Programming – This program is a combined major with the Mathematics/Computer Science Department and is designed to educate technologically literate artists. These graduates will enter the workforce with both creative and technical skills in Programming and Digital Fine Arts. In the first two years, students take the Art Foundations Sequence and the prerequisite Math and Computer Science programming courses. Upper level students will take advanced classes in digital art and Computer Science classes related to computer graphics. In their upper level courses students will use industry-standard software to develop personal bodies of work in preparation for their senior exhibition requirement. A two-track
curriculum allows students to complete their degree by focusing on either digital art or web programming, depending on the final courses chosen.

Art Education – This program combines training in studio art with teacher education instruction, leading to teacher certification. The advantage of this program lies in the amount of studio training received in conjunction with education classes. Graduates are not only trained to teach, but also to be well-rounded, practicing artists.

Degree Requirements

General Requirements – In recognition of the time commitment necessary for an adequate fulfillment of the requirements of the classroom/ studio, students are required to attend all classes as scheduled and remain in the class for the prescribed time. Academic penalties may be invoked in cases of excessive absences.

The Department of Art and Design reserves the right to retain work done under classroom instruction.

Assessment – The assessment process is designed to monitor student development in the various areas of skill and knowledge the department teaches. This process is conducted on a yearly basis and takes place outside the context of individual classes. It is intended to benefit the students by giving them a set of guidelines by which they may improve artistic skills and understanding. The process is also intended to help departmental faculty update and improve the content of courses, and the program as a whole, as needs are identified. The process includes Foundations Review, Concentration Review, Senior Review, and the Senior Exhibition.

Foundations Review follows the completion of at least four of the five studio foundations courses (2-D Design, 3-D Design, Color Theory, Drawing I, and Drawing II). Students present a portfolio of foundations work to a committee composed of Art Department faculty. The committee gives written and oral assessments of strengths and weaknesses, and makes appropriate recommendations. Students will demonstrate proficiency in two-dimensional composition, three-dimensional design, the usage of color, the usage of spatial devices, observational and drawing skills, understanding of anatomy, and the quality of craft and sensitivity to artist’s materials.

Concentration Review should take place near the end of the second semester of a student’s concentration. Candidates present a portfolio of upper level studio work that is critiqued in open session by the Art Department faculty, art majors, and visiting artists. The faculty will provide written assessments of the work, indicating areas of strength and weakness and advising the student how best to fulfill the senior exhibition requirement. Students will be advised as to whether or not their portfolio meets department expectations relative to the process of producing a body of work sufficient for a final exhibition. The areas evaluated are the seriousness of the artistic direction, the consistency of the artistic direction, the volume of work created, and the potential for artistic growth.

Senior Review takes place the semester preceding the senior exhibition. Candidates are expected to present a further refined portfolio of work leading to the senior exhibition to be critiqued in open session similar to the Concentration Review. The faculty will provide written assessment of progress towards the student’s readiness with respect to the senior exhibition. If a portfolio does not exhibit the necessary progress the student may be required to repeat the review process or postpone the senior exhibition until sufficient progress is made.

Senior Exhibition is a graded component of Senior Seminar and is the final graduation requirement. When applying for graduation, students must submit a body of work to the Art Department faculty for approval. Candidates must provide a minimum of three pre-approved works for the exhibition and display them in a professional manner that conforms to the standards of the Coburn Gallery and the Art Department. Areas evaluated are the cohesiveness and excellence of the body of work, the professionalism of the presentation of the body of work, and the degree of understanding and application of techniques of documentation of artwork.

Bachelor of Science in Education with a comprehensive major in Art, Multi-Age (PreK-12)

Assessment – Assessment in teacher education programs begins with admission to teacher education and continues throughout the program. Exit assessment includes a professional portfolio and completion of all appropriate interim assessments. See the Education section of the catalog for the detailed description of the entire process.

Note: Students are required to take at least one course from each of the department’s concentration areas as part of their 15 hours of studio electives.

Chair
Mason Posner, Professor of Biology

Faculty
Soren Brauner, Professor of Biology
Douglas A. Dawson, Professor of Biology/Toxicology
Paul Hyman, Associate Professor of Biology
Patricia A. Saunders, Associate Professor of Biology
Andrew J. Trimble, Associate Professor of Biology/Toxicology
Dolly L. Crawford, Assistant Professor of Biology
Merrill Tawse, Professional Instructor of Biology
Jenna Dolhi, Visiting Assistant Professor of Biology
Kristin Simokat, Visiting Assistant Professor of Biology
Barbara Zingale, Adjunct Professional Instructor of Biology
Susan Harrington, Adjunct Assistant Professor

Degrees Offered
Bachelor of Science
Bachelor of Science in Education

Pre-Professional Programs
Biology courses make up a substantial component of the required curriculum for a number of pre-professional programs. For minimum requirements, see the Academic Affairs section on pre-professional programs. The Biology Department, along with other departments, has prepared recommended course sequences that give students the greatest probability of acceptance into professional schools. In most of these programs a biology major is a strong preparation. Those programs with a strong biology component include pre-medicine, pre-dentistry, pre-veterinary medicine, pre-medical laboratory science, pre-pharmacy, pre-physical therapy, pre-physician assistant, pre-occupational therapy and pre-optometry.

Mission and Goals
The mission and goals of the Department of Biology/Toxicology are:

- To educate B.S. and B.S.Ed. Students in biology and toxicology, and to successfully prepare them for jobs or graduate/professional schools;
- To educate future teachers, providing them with the knowledge and skills necessary to teach children biology;
- To educate students from other disciplines, encouraging them to become citizens who are knowledgeable about biological issues;
- To advance biological knowledge through research and scholarship; and
- To enhance the knowledge and understanding of biology in the community at large.

Student Learning Outcomes
Students graduating with a major in biology or toxicology will be able to:

- Understand and use the scientific method (including experimental design, sampling strategy, and data analysis) as a means of investigating biological problems;
- Demonstrate a breadth of knowledge commensurate with their coursework, including an understanding of cellular structure and function, homeostasis, growth and reproduction, molecular and population genetics and evolution, taxonomic organization, and principles of ecology;
- Demonstrate practical knowledge in the use and application of equipment employed in the study of biology, including sampling techniques, separation techniques (e.g., gel electrophoresis and chromatography), microscopy, and appropriate techniques for quantitative analysis (e.g., spectroscopy and ion-specific electrodes);
- Read, analyze and summarize biological literature, and communicate research findings through oral presentation and written papers.

Facilities and Equipment
Biology facilities in the recently renovated Kettering Science Center includes four teaching and four faculty/student research laboratories; a microscopy room and tissue culture facility; an animal facility with multiple rooms housing fishes, amphibians, rodents, bats, birds, and invertebrates; an anatomy lab housing four human cadavers and an extensive anatomy model collection; a collections room for preserved specimens; and a 2500 square foot greenhouse with an adjoining laboratory that houses a permanent plant collection and provides space for student and faculty research. The department is well-equipped to provide students with a broad hands-on experience in biological techniques. Equipment available for student use includes:

- Large number of compound and dissecting microscopes as well as an Olympus inverted microscope with phase, Nomarski, and fluorescence optics and Nikon research grade microscope with phase optics. These microscopes are equipped with digital cameras and image analysis software.
- Wide range of tools for molecular and cellular biology, including two refrigerated centrifuges, ultracentrifuge, shaking incubator, five thermal cyclers for PCR (including real-time qPCR), digital imaging stations for DNA and protein gels and western blots, and a full complement of DNA and protein electrophoresis equipment including 2D gel electrophoresis.
- Tissue culture facility with biological containment hood, CO2 incubator and inverted microscope.
- Separate microbiology teaching and research laboratories, both with biological containment hoods capable of Biosafety Level 2 experiments.
- A Leica cryostat for histological studies.
- Two UV/VIs spectrophotometers for diverse biological applications.
- Microtox system for studies in aquatic toxicology.
- Tools for environmental studies, including a Seabird profiling instrument for lakes and oceans, a YSI handheld instrument for streams and shallow wetlands, a photosynthesis measuring system for studies of plant physiology, and CCI instruments and GIS software for mapping and collection of spatial data.
- Field sampling equipment, including gear appropriate to both aquatic and terrestrial studies.
- Numerous growth chambers, environmental chambers, and incubators.
• Multiple aquariums, including a 75-gallon saltwater tank for study of marine organisms.
• Physiology analysis equipment including the Vernier system with a wide range of sensors (EKG, spirometry, etc.) and the Iworx system.
• Access to a large number of laptops and desktop workstations for use in the classroom and laboratory.

Field Studies
In addition to five Environmental Preserves managed by the Environmental Science Program, Ashland University’s location enhances field study opportunities. Various field courses utilize the close proximity of diverse bodies of water (including Lake Erie), swamps, bogs, prairie habitats, rich deciduous forests (including Mohican State Forest), and the boundary between glaciated and unglaciated Appalachian Plateau. Summer field studies give students the opportunity to study other unique habitats around the country. The University owns the Black Fork Wetlands Environmental Studies Center (BFWESC), which serves as a base for student/faculty research studies, classroom activities and public outreach.

Student Honor Society
Beta Beta Beta, Xi Mu chapter, honors biology majors and minors. Regular members maintain a 3.0 GPA and have completed at least three biology courses. Associate membership is available to all other students with an interest in biology.

Description of Majors
Biology Major – Majors in the Biology program explore the characteristics of life, living organisms, and the environments that support life. This exploration comes at many levels—from the molecular and cellular to the interactions between organisms and their environment. Along with classroom work, students gain extensive laboratory and field exposure and are encouraged to conduct undergraduate research. Biology majors have many career options, including medicine and other health-related fields, pharmaceuticals, biochemistry, engineering, forensics, education, environment, or agriculture. They may work with animals, manage wildlife, work with plants, manage forests, work in the field or parks, or work in laboratories. Biology majors may choose to add a concentration in forensic biology.

Forensic Biology Concentration – The Forensic Biology program was developed to meet the needs of students interested in pursuing a career in forensic biology, the application of biological principles to law enforcement. The major provides a strong basic background in both biology and chemistry, along with specialized upper level courses specifically applicable to forensics. Course work in criminal justice and other areas provide additional perspectives. After graduation, forensic biology majors will be well prepared for either on-the-job training in a forensics laboratory or for graduate study in the area of forensics.

Medical Laboratory Science Concentration - This concentration provides students with a Biology degree, and with the completion of the extended senior year at the Cleveland Clinic, eligibility for certification as a Medical Laboratory Scientist. Certified Medical Laboratory Scientists work in hospitals and other clinical laboratories, processing patient samples and performing tests essential for doctors to properly diagnose and treat patients. With increasing numbers of aging persons requiring more medical care in the United States, Medical Technology is an expanding field with an excellent employment rate for graduates, especially those with the appropriate certifications.

Toxicology Major – Toxicology is a field that combines elements of biology and chemistry to study the actions of poisons (toxicants) on living systems. Toxicologists apply their knowledge and skills to interesting and relevant biomedical and environmental problems in areas such as cancer research, drug development, environmental health, forensics, and ecological toxicology. While at AU, toxicology majors take courses in basic and applied toxicology and have the opportunity to participate in undergraduate research and/or internships. After graduation, toxicology majors may choose to go on to graduate or professional school, or may choose to enter the workforce directly. Our Toxicology majors often work as paid interns and gain full-time employment at Charles River Laboratories, a drug safety testing company in Ashland, Ohio.

Degree Requirements
Assessment – All majors will begin the assessment process during the freshman year with a standardized assessment test in BIO 201/202 and continue the process in the senior year in BIO 495.

Rene Rawraway, Assistant Professor of Hospitality Management
Kenneth Brubaker, Professional Instructor of Sport Management
Alison Rossi, Professional Instructor of Fashion Merchandising

Degrees Offered
Bachelor of Arts
Bachelor of Science in Business Administration
Bachelor of Science
Master of Business Administration

Accreditation of the Program
The College of Business and Economics received its initial professional accreditation for its degree programs (BA, BSBA and MBA) at all sites from the Accreditation Council for Business Schools and Programs (ACBSP) in June 1993. ACBSP granted the BSBA with a major in accounting, the MBA with a specialization in accounting, and the accelerated BSBA/MBA in accounting specialized accreditation in 2013, the eighth school in the U.S. and the first school in Ohio to be so recognized. The degree programs are also approved by the Ohio Board of Regents. These certifications serve to assure the public that the business education at Ashland University meets nationally recognized standards of quality in terms of professors, curriculum, methods of instruction, and financial support.

Vision/Mission/Core Values
Our program's vision is to be the provider of choice of managerial resources to organizations in the geographical areas we serve.

Our mission is to help our students achieve those competencies most prized by organizations wishing to hire or promote individuals into positions of increasing responsibility.

The core values of the program are:
- Competency-based education;
- Student-centered, experiential learning;
- Systematic stakeholder involvement and outcomes assessment;
- Continual program review and improvement;
- Partnership with current and potential employers; and
- Scholarly activities in research, application, integration, teaching, and service.

Facilities and Equipment
Offices and classrooms are in the Dauch College of Business and Economics building, completed in 2004, and the Rybolt Sport Science Center. Dauch includes the Burton D. Morgan Center for Entrepreneurial Studies. The business and economics programs provide more than 100 personal computers for student use with wireless Internet access available throughout the building. All classrooms are equipped with advanced instructional technology. The entrepreneurship program maintains a creativity/innovation lab that is available for all Ashland University students to use. A fully-equipped trading room is used by the finance program's Eagle Investment Group, enabling students to manage an investment portfolio with funds from the University's endowment.

Student Learning Outcomes
Success in business requires competence in the areas of communication, critical thinking, business knowledge and technical skills, leadership and teamwork skills, ethics, analytical and quantitative skills, and international and global perspective. Students graduating with a degree in Business Administration will demonstrate:
- The ability to communicate correctly and purposefully, integrating technology into writing and presentations;
- The ability to identify problems, analyze information, and form conclusions within the business context;
- Business knowledge from a variety of sub-disciplines and the ability to apply the knowledge and skills to reach solutions to business needs;
• The ability to inspire a shared vision, foster a realization of that vision, and facilitate a culture to realize goals of the vision;
• An understanding of the ethical behaviors and issues relevant to the business community;
• The ability to apply analytical and quantitative skills appropriate to support business decision making;
• An international and global perspective appropriate to a progressive business community that engages in international business activities.

Institute for Contemporary Financial Studies
The mission of the Institute is to complement the work in the discipline of finance, balancing theoretical understanding of the principles of corporate finance and investment management with hands-on experience in the field. The objective is to link the classroom with current financial research, elements of corporate finance, securities trading, and investment management functions as conducted by leading financial management firms across the country.

Specifically, it is the goal of the Institute to prepare students of finance to be able to “Walk Down Wall St. With Anyone.”

Student Organizations
The College of Business and Economics offers student groups which assist in the professional development of their disciplines: The American Marketing Association (AMA); APICS The Association for Operations Management; Business & Economics Scholars Team (BEST); Eagle Investment Group; Eagle Entrepreneurs; Eagle Eye Marketing; Enactus; Institute of Management Accountants (IMA); National Society of Minorities in Hospitality (NSMH); Sport Business Club (SBC); Society for Human Resource Management (SHRM); and Delta Mu Delta honor society (see below).

Student Honor Society
Students who excel in business administration are eligible for membership in Delta Mu Delta, an international honor society in business. The society honors junior and senior undergraduate students who have completed at least one-half of the work required for the degree with a GPA of 3.5 and who are in the top 20 percent of their college class in cumulative average grades. It also honors graduate students who have completed at least one-half of the MBA requirements with a GPA of 3.8. Candidates must receive faculty approval to join.

Description of Majors
Accounting – Accounting majors find jobs in public accounting firms as well as internal accounting departments of businesses and government agencies. Accounting is also an excellent background for those who desire leadership and executive positions. In addition to a focus on specialized knowledge, managerial thinking skills, and communication skills, the program highlights the following competencies that are relevant to success in the accounting field: maintaining high ethical and professional standards, teamwork, and pro-activity.

Accounting Program Mission: The mission of the accounting program is to help our students achieve CPA licensure, professional accounting certifications, and those competencies most prized by accounting firms and other organizations wishing to hire or promote individuals into position of increasing responsibility.

Students may choose to broaden their career options by pursuing one of the following professional certifications:
CPA – Certified Public Accountant
CMA – Certified Management Accountant
CIA – Certified Internal Auditor
CFE – Certified Fraud Examiner

Eligibility requirements for taking the examinations to earn these certifications include a baccalaureate degree in accounting with a prescribed core of additional business courses. The student who plans to take one of the professional certification exams should meet with his or her advisor for guidance in selecting the appropriate electives.

Those planning to take the CPA exam in the state of Ohio must complete at least 150 hours of undergraduate and/or graduate education. AU graduates must, therefore, take an additional 30 semester hours of coursework beyond the 120-hour requirement for their baccalaureate degree in order to take the CPA examination. These courses may be taken at AU or another university in either an undergraduate or graduate program. Students planning to take the CPA examination outside of the state of Ohio must contact the relevant State Board of Accountancy for specific course and degree requirements.

Ashland University offers an accelerated BS/MBA (Bachelor of Science/Master of Business Administration with an Accounting Specialization.) Students who meet the admissions requirements can apply during their junior year and, if accepted, begin taking graduate classes during their senior year. Both the baccalaureate and graduate degrees will be conferred upon the completion of all program requirements. The combined degrees will require a minimum of 150 hours.

Student Learning Objectives for Accounting:
1. Students will demonstrate an in-depth understanding of the nature and use of various financial statements and how they should be analyzed.
2. Students will demonstrate their knowledge of taxation by calculating the tax liability for a C Corporation and its majority shareholder.
3. Students will identify auditor requirements and responsibilities both ethically and legally.

Student Learning Objectives for accelerated BS/MBA (Bachelor of Science/Master of Business Administration with an Accounting Specialization):
1. Students will be able to identify and journalize revenues, expenditures, assets and long-term obligations for a fund accounting entity.
2. Students will be able to evaluate the concepts of transfer pricing alternatives including issues that arise in international settings.
3. Students will be able to consolidate the income statements and balance sheets of subsidiaries with those of the parent corporation.

Business Management – Business management majors are provided the knowledge and skills to be successful business managers, form effective teams, lead people, manage resources, understand the conceptual frameworks required to operate a business, and pursue graduate programs or management careers in a wide variety of business and non-business enterprises. Majors develop personal portfolios listing accomplishments and showing examples of their work to prepare for the interview process and to provide prospective employers information about their potential.

In addition to a focus on specialized knowledge, managerial thinking skills, and communication skills, the management program helps students develop the competencies of: setting and achieving high standards; teamwork and managing/facilitating group processes,
Student Learning Objectives for Business Management:

1. Students will apply specialized business knowledge at an advanced level of expertise and proprietary essentials within the field of management.
2. Students will formulate and identify a systematic approach in identifying relevant business issues and analyze their interrelationships in solving problems.
3. Students will develop, implement, and manage leadership skills in developing successful team building and motivation techniques effectively within a business organization.
4. Students will demonstrate proficiency in oral, written, and traditional graphic communication skills when explaining issues in the business and validate the ability to speak and write effectively on subject matter contained in the curriculum.
5. Students will apply a professional business attitude in conducting your business with complete respect for the feeling of others.

Entrepreneurship – The Entrepreneurship program prepares students for administrative and leadership positions in business, government, and other institutions. Specialized training is directed at understanding the broader aspects of business as it functions within a national and international environment. The program focuses on the development of entrepreneurial and leadership capabilities, including recognizing viable business opportunities, and developing business concepts that allow firms to take advantage of unique competencies and capabilities. There is substantial emphasis on the acquisition and allocation of resources and on organizing, leading, and empowering people. In addition, the program familiarizes the student with small and family businesses, including the analysis of personal strengths and weaknesses as they relate to launching an entrepreneurial career. The program provides considerable attention to elementary concepts of planning, financing, starting, and managing a new business.

Student Learning Objectives for Entrepreneurship:

1. Students will apply specialized business knowledge at an advanced level of expertise and proprietary essentials within the field of entrepreneurship.
2. Students will formulate and identify a systematic approach in identifying relevant business issues and analyze their interrelationships in solving entrepreneurship problems and challenges.
3. Students will develop, implement, and manage interpersonal skills in developing successful team building and motivation techniques effectively within an entrepreneurial organization.
4. Students will demonstrate proficiency in oral, written, and traditional graphic communication skills when explaining issues as an entrepreneur and validate the ability to speak and write effectively on subject matter of entrepreneurship.
5. Students will apply a professional business attitude in conducting your business with complete respect for the feeling of others.

Fashion Merchandising – This Fashion Merchandising major combines coursework on product knowledge (fashion analysis, textiles, and fashion evolution) with courses in business (marketing, retail merchandising, and advertising). Students are prepared for careers in buying, selling, visual merchandising, or retail management. Students complete internships in the fashion industry. A cooperative program between Ashland University and the Fashion Institute of Technology in NYC gives the interested student the opportunity to spend the junior year completing an associate’s degree in fashion merchandising management at FIT.

In addition to focusing on specialized knowledge, managerial thinking skills, and communication skills, fashion merchandising majors also focus on competency of experiential learning and working in teams.

Student Learning Objectives for Fashion Merchandising:

1. Apply the elements and principles of design to the development, selection, and evaluation of apparel.
2. Recognize fundamental factors necessary for profitable operations of a firm operating in the fashion industry.
3. Understand and apply appropriate technology in the functional operations of a retail fashion firm.
4. Identify target markets and develop products and solutions to satisfy the needs of the consumer.
5. Recognize fashion trends and the environmental factors driving them.
6. Analyze the effect of clothing on human behavior.
7. Develop a global awareness of the factors influencing trends in the production, marketing, and sales of textiles and apparel.

Finance – Finance students obtain knowledge in corporate finance, financial strategies, security analysis, investment portfolio management, money and banking, insurance, and global finance. They also have the unique opportunity to manage a portion of Ashland's endowment fund—actually making decisions about buying and selling of equity, fixed income, and other securities. They may also choose a curriculum to prepare to take the NASD Series Seven examination and become a licensed securities broker immediately upon graduation.

In addition to a focus on specialized knowledge, managerial thinking skills and communication skills, our finance program will help students to develop the competency of maintaining high ethical and professional standards.

Hospitality Management – The hospitality management program concentrates on the management aspects of the industry. The major begins with the business administration core and adds courses in hospitality operations, both lodging and food and beverage, hospitality marketing, hospitality human resources, food safety, and strategic management of hospitality operations.

A wide range of elective courses allow the students to focus their studies in the areas of hospitality in which their career interest lies. Our students work at industry leading companies such as Disney, Marriott, and Hyatt. Students who complete internships and work experience obtain first- hand knowledge of the industry and a head start on their career.

Our hospitality management students are in demand because, in addition to a focus on specialized knowledge, managerial thinking skills, team work, and communication skills, a special emphasis is placed on the students to set and achieve high standards and to develop stamina and adaptability.

In addition to focusing on specialized knowledge, managerial thinking skills, communication skills, hospitality management majors also focus on competency of experiential learning and working in teams.

Student Learning Objectives for Hospitality Management:

1. Distinguish the different market segments and career opportunities available in the hospitality industry through experiential learning.
2. Develop a working knowledge of quality service and operational standards to meet customer expectations.
3. Application and preparation of basic food and beverage management principles including menus, recipes, ordering, receiving and cost control.
4. Demonstrate an understanding of the hospitality financial management functions of budgeting, forecasting, and financial statements.
5. Comprehension of facilities management systems including safety, sanitation, equipment, energy, efficiency, building services, and security.

6. Working knowledge of event planning: market, plan, develop, and deliver.

7. Prepare and manage a hospitality market plan that meets the requirements of the business segments of lodging and resort management: front desk, reservations, housekeeping, guest services, security, and revenue management.

Information Systems – Information systems (IS) combines the fields of computers and information technology with business to prepare students for careers in systems analysis, systems design, or IS. Our program focuses on managing technology and change, a very real challenge for those who work with computing and IS.

In addition to a focus on specialized knowledge and communication skills, the IS program focuses heavily on the key managerial thinking competencies of logical thinking, conceptualization, and the application of theories and concepts to the real world.

Student Learning Objectives for Information Systems:

1. Students will examine the life cycle of an information system from initial business problem through systems development, implementation, and maintenance. Students will follow the development of various systems through the use of select business cases.

2. Students will present aspects of relational database theory including cardinality, normalization, and referential integrity. Students will then apply those theories to design and implement databases using a variety of database management systems.

International Business – This major combines a solid core of business courses with classes in international business/culture, international marketing, global finance, global management, international economics, and foreign languages. This major prepares the student to work for a foreign corporation or serve as an international business specialist for an American company.

Student Learning Objectives for International Business:

1. Communicate clearly and effectively in a non-native language (e.g., using Spanish if your native language is English) in a business environment for business interactions.

2. Solve business problems related to doing business internationally (e.g., completing business forms, applying and complying with government regulations, and analyzing options for funding.)

3. Demonstrate knowledge and awareness of environmental similarities and differences with other countries (e.g., culture, government, political and economic issues) that impact interaction with multinational companies, buyers, and clients.

4. Analyze company operations for consistency with international business practices and requirements, e.g. monetary policy, capital markets, labor markets, transport of goods, tariffs, and international law.

Marketing – Organizations increasingly rely on marketing professionals to guide all aspects of business, from product conception to promotion to distribution. The marketing courses at Ashland provide the knowledge to succeed in many areas such as advertising, market research, brand management, new product planning, sales, and international marketing, to name just a few.

Our students take professional internships and participate in organizations such as the student chapter of the American Marketing Association and Students In Free Enterprise (SIFE) to gain different perspectives and experience.

In addition to focusing on specialized knowledge, managerial thinking skills, and communication skills, marketing majors also focus on competency of teamwork as they learn to work well with others.

Student Learning Objectives for Marketing

1. Perform appropriate market research, define market segments, and describe critical market characteristics and trends.

2. Develop operational product plans.

3. Develop product placement criteria and distribution channel alternatives.

4. Develop pricing practices based on appropriate quantitative pricing models.

5. Develop product promotion and sales plans.

6. Prepare, implement, and manage an integrated market plan that meets the domestic and/or global requirements of the business.

Supply Chain Management – Supply chain management (SCM) prepares students to become leaders in supply management, the emerging paradigm for world-class corporations. It is a total systems approach taken by companies, suppliers, and partners to deliver manufactured products and services to the end customer. Information technology is used to coordinate all elements of the supply chain from sourcing parts to coordination of retailers to achieve a level of integration that results in a competitive advantage not available in traditional logistics systems. SCM is a major for students who wish to be involved in the management of operations (value-adding) processes; i.e., manufacturing, service production and delivery, distribution, and supply.

SCM builds on other areas of functional expertise that are part of the business degree, including marketing, finance, accounting, and strategic planning. The major provides a framework for linking these functional areas with specific areas of skill development that are focused in SCM, i.e., total quality management, productivity enhancement, and time-based competition. The major also provides in-depth analysis of operations decisions such as new product development, supply chain capacity planning, process technology planning, factory automation, and production systems planning.

Student Learning Objectives for Supply Chain Management:

1. Integrate global procurement, distribution, storage and transportation principles as a foundation for adding value to an organization.

2. Design a robust system for communicating changes in supply chain capabilities throughout the supply chain network.

3. Design an assessment system for supply chain management based on principles of continuous improvement.

4. Develop, implement and manage a supply chain plan composed of strategy and tactics that align with a corporate business plan.

5. Apply a professional management philosophy to a supply chain management plan.

Opportunities for Global Study

There are programs for summer and semester-long study abroad specifically for business students in Taiwan, France, and the Netherlands. Shorter-term business study-tours are available as well. In addition, business students can participate in all other options available through the Global Education office. For all the details, visit Global Education on-campus or on-line: https://www.ashland.edu/administration/office-provost/academic-affairs/study-abroad.

Degree Requirements

Assessment – The assessment of student learning outcomes for all business majors includes both internal and external assessments in selected courses, culminating in the MGT 489 Senior Seminar - Business Capstone course and the MGT 499 Senior Assessment
course.

**Bachelor of Arts with a major in Business Administration (Offered on-campus and online)**

Candidates for the BA degree with a major in Business Administration must complete the following courses for the major, plus a minor (or a second major.) Candidates also must complete the Institutional Baccalaureate Degree requirements, including the CCI requirement.

ACCT 453 Spec. Topics Acct. (3) ACCT 208
70-73 hrs.

Plus remaining Institutional Baccalaureate Degree Requirements.

Note: The Internship must be related to the major and pre-approved by the COBE internship coordinator. It also fulfills the accounting core internship/work experience requirement.

Bachelor of Science in Business Administration (BSBA)

Candidates for the BSBA degree must complete the BSBA Core Requirements, plus one of the following BSBA majors, plus a minor (or a second major). Candidates also must complete the Institutional Baccalaureate Degree requirements, including the CCI requirement.

BSBA students are required to complete either an internship or work experience. Pre-approval by the BSBA Internship Director, completion of Learning Contract and registration in BUS 339 for internship or BUS 239 for work experience is required. A student must work a minimum of 225 hours and prepare a professional portfolio.

On-line registration for BUS 239/339/439 is not permitted.

For more details visit https://www.ashland.edu/cobe/internship-guidelines.

Note: This major may only be taken as part of the BSBA degree, including the BSBA Core Requirements. Note: Courses may not count both in the required area and the elective area.

### Minors for Business Majors and Non-Business Majors

A Business minor can be selected to broaden the student's background and supplement the education necessary for a chosen vocation. Business and economics majors may also choose a minor from other areas. Please see a business faculty adviser before declaring a business minor.

Business Courses and Descriptions

See Business Course Descriptions section of catalog.

Economics

Student Learning Outcomes

1. To provide an understanding of economic principles and institutions as an essential preparation for effective citizenship.
2. To enhance the liberal arts philosophy through knowledge in applied logic and problem solving.
3. To provide basic educational background for positions in business and government.
4. To prepare interested students for graduate study in economics.
5. To provide training for effective teaching of economic subject matter in grades K through 12

Student Honor Society

Omicron Delta Epsilon, Phi chapter, an international honor society in economics, honors junior economics majors and/or senior students with majors or minors in economics and a 3.0 cumulative average.

Description of Major

Economics majors study the principles and institutions that form the foundation of our economy. We look at the policies that affect the development of industries, the growth of the economy, and consumers' standard of living. In addition to gaining specialized knowledge and communication skills, economics majors focus most of their attention on the key managerial thinking competencies of logical thinking, conceptualization, and the application of theories and concepts to the problems found in the real world.

Degree Requirements

Assessment-First, the student will be required to demonstrate a level of professional economic thought and practice. An instrument that measures knowledge given at the completion of a project completed in one of the advanced courses will assess this.

Second, the student will provide evidence of the ability to collaborate successfully with other people in the profession. Activities which satisfy this requirement may include an internship, an independent research project, or a presentation of joint faculty/student papers at a professional conference.

Bachelor of Arts in Business Administration with a major in Economics

Candidates for the BA degree with a major in Economics must complete the following courses for the major, plus a minor (or a second major.) Candidates also must complete the Institutional Baccalaureate Degree requirements, including the CCI requirement.

Sport Management
Mission Statement
The mission of the Department of Sport Management is to prepare professional sport managers to succeed at the highest levels in their chosen field, with major emphases on professional, intercollegiate, and recreational sport.

Student Learning Outcomes
The sport management program is a comprehensive major that provides opportunities for students to develop requisite proficiencies in preparation for a career in the sport industry. The coursework reflects established standards for sport management programs (Sport Management Program Review Council, 2000). Students completing the sport management major will be able to:
1. Recognize that sport is a product of society influenced by culture traditions, social values, and psycho-social experiences;
2. Understand sport and business knowledge from a variety of sub-disciplines and the ability to apply the knowledge and skills to reach solutions to business needs.
3. Define and understand the concepts of management and leadership;
4. Describe the various skills, roles, and functions of sport managers;
5. Develop a personal philosophy regarding social, ethical, and leadership responsibility in the sport management setting;
6. Describe the principles of economics, finance, marketing, and communication particularly as they relate to the sport agency and business community;
7. Understand the agencies governing sport, their authority, organizational and legal structures, and functions; and
8. Demonstrate knowledge, skills, and dispositions through integrated field experiences and internship.

Description of Major
Sport is an integral part of our culture, both as an entertainment and a leisure activity. It has a tremendous economic impact as well. The sport management major prepares graduates for diverse roles in the areas of sport marketing and promotions, sport administration, facility management and planning, activity programming, and events management. Students pursuing degrees in sport management will develop their potential through the acquisition of knowledge, skills, and dispositions that will facilitate and enhance their opportunities to successfully acquire and execute careers within the sport industry.

Bachelor of Science with a comprehensive major in Sport Management
Candidates for the BS degree with a major in Sport Management must complete the following Sport Management course requirements. Candidates also must complete the Institutional Baccalaureate Degree requirements, including the CCI requirement.

### Courses and Descriptions

See Course Descriptions section of catalog.
Chemistry and Biochemistry  
Department of Chemistry/Geology/Physics  
The College of Arts and Sciences

Chair  
Rebecca W. Corbin, Professor of Chemistry

Faculty  
Perry S. Corbin, Professor of Chemistry  
Brian K. Mohney, Professor of Chemistry  
Jeffrey D. Weidenhamer, Professor of Chemistry, Trustees' Professor  
Robert G. Bergosh, Associate Professor of Chemistry  
Nicholas A. Johnson, Assistant Professor of Chemistry  
Trina M. Mohney, Professional Instructor of Chemistry  
Steven M. Boyer, Visiting Assistant Professor of Chemistry

Degrees Offered  
Bachelor of Science  
Bachelor of Science in Education

Mission and Goals  
The chemistry program prepares chemistry and other science majors to apply the scientific method to problems and to discover the intimate relation of chemistry to all phases of everyday life and to other sciences. Chemistry majors graduate with the background and skills necessary for jobs in commerce, industry, or education, or further graduate or professional training.

The program places heavy emphasis on faculty/student interactions, hands-on training with instrumentation, and data analysis tools such as computer modeling and spreadsheets. The importance of writing and communication skills is stressed throughout the curriculum, beginning in the introductory courses and carried through every course offered by the department.

The chemistry program seeks to provide non-science majors with the basic understanding of the nature of science needed to live as responsible citizens in a technological society. Students gain an understanding of the scientific method through an in-depth analysis of topics and case studies, selected hands-on activities in classroom and laboratory, and exploration of the consequences of scientific discoveries for society.

Student Learning Outcomes  
Students in chemistry and related programs will:
1. Describe and apply the major concepts, experimental findings, and theories of chemistry;
2. Effectively use the laboratory techniques and methods of chemistry;
3. Follow proper safety procedures and regulations for use of chemicals and laboratory equipment;
4. Design appropriate investigations, interpret the results and make decisions within the context of chemistry;
5. Communicate scientific information both orally and in writing; and
6. Practice ethical and professional behavior within the context of the discipline.

Chemistry Facilities and Equipment  
The chemistry program is approved by the American Chemical Society. Eight laboratories and ample classroom space accommodate the needs of the faculty and students. The Ingman laboratory houses chromatography and spectroscopy instruments that students will use in industry, a clinical setting, or graduate school. Recent acquisitions include a graphite furnace atomic absorption spectrophotometer for measuring trace metals, a high-performance liquid chromatograph for determination of natural products and pharmaceutical agents, a spectrophotometer for protein-ligand binding studies, a MALDI-TOF mass spectrometer, and a high field NMR spectrometer. The chemistry curriculum is structured so that students begin hands-on use of these instruments during their first two years at Ashland University.

Pre-Professional Programs  
Chemistry courses make up a substantial component of the required curriculum for a number of pre-professional programs. For minimum requirements, see the Academic Affairs section on pre-professional programs. The chemistry faculty along with other departments has developed recommended course sequences that give students the needed background to continue studies in professional schools. A major in chemistry, biochemistry, or forensic chemistry is a strong preparation for professional schools in medicine, dentistry, veterinary medicine, and pharmacy.

Description of Majors  
Chemistry-Chemistry is the study of the structure and behavior of atoms, compounds and their properties, and reactions. Whether it is the development of new pharmaceuticals to treat disease, new materials, or reduction of environmental hazards, chemists are at work in many industries and related disciplines such as geology and biology. A degree in chemistry can open the door to almost any scientific or technological field, as well as careers in medicine, business, and law.

Biochemistry-Biochemists apply chemistry to understand biological processes at the cellular and molecular level. Biochemists seek to understand the structure and function of molecules found in living organisms. The interdisciplinary nature of biochemistry and molecular biology are blurring the traditional boundary lines between biology and chemistry.

Forensic Chemistry-Forensic chemists apply modern instrumental methods of analysis to criminal investigations. The forensic chemistry major equips students with a well-rounded, multidisciplinary experience necessary for careers and advanced graduate work in forensic science, law, chemistry, and associated fields of science and engineering.

Majors in chemistry, biochemistry, and forensic chemistry are provided with broad training in chemistry and biochemistry and extensive, hands-on laboratory training, along with the opportunity to conduct independent research with one of our faculty. Our graduates have been successful in continuing their education in graduate and professional schools, and in obtaining positions in chemical and pharmaceutical companies, and government laboratories.
Degree Requirements

Assessment – The assessment of student learning outcomes for chemistry, biochemistry, and forensic chemistry majors includes both internal and external assessments in selected courses, typically culminating in the CHEM 497 Laboratory and Field Research course or the CHEM 493 Internship course.

Communication Studies

Department of Communication Studies
(Communication Studies, Health & Risk Communication, Public Relations & Strategic Communication, Sport Communication)
The College of Arts and Sciences

Interim Chair
Shawn Orr, Interim Chair

Faculty
Deleasa Randall-Griffiths, Associate Professor of Communication Studies
Dan O'Rourke, Associate Professor of Communication Studies

Degrees Offered
Bachelor of Arts

Mission Statement
The Department of Communication Studies is dedicated to its students by providing innovative and diverse leadership, intellectual rigor, and collaboration in a culture of scholarship.

Student Learning Outcomes
The Communication Studies student will:
1. Critically analyze the complexity of human communication addressing the ongoing transaction between and among parties.
2. Create messages by identifying and evaluating the audience, purpose, and context.
3. Examine the persuasive nature of human and mediated communication.
4. Demonstrate proficiency in presenting oral communication skills for an audience.
5. Implement written communication skills through written projects.
6. Critically analyze messages through the use of listening skills.
7. Explain the social, cultural, and ethical responsibilities of communicators.

Description of Majors
Communication Studies - The Communication studies major prepares students for a broad range of careers by providing a strong communication foundation involving speaking, listening, writing, organizational, leadership, and conflict negotiation skills as they apply to a variety of institutional and relational contexts. Students have the opportunity to build their portfolio consisting of research projects, accomplishments, and experiences. The program does require a minor or dual major.

Health & Risk Communication - The Health and Risk Communication major prepares students for careers by use of theory, data, and skills that are applicable to a wide range of cultures and people. The major also prepares the student with a sense of equity and justice in the realm of healthcare and safety regarding those who are most vulnerable and susceptible to danger. Students are engaged in and contribute to the ethically-based discourse of communication-related issues regarding healthcare and risk that are being deliberated daily at local, national, and international levels. This program is also one of the most innovative programs nationally for communication studies students in both its form and function.

Public Relations & Strategic Communication - Students majoring in public relations and strategic communication master the art and science of relating to diverse publics using a variety of media and communication strategies and vehicles. Students are prepared to work in public relations with a focus on message construction and image management, bridging organizations and their public audiences. An emphasis will be placed on leadership and organizational communication. Students will develop critical thinking, research, and audience analysis skills that are necessary for any organization. Students will be prepared to execute successful public relations campaigns for any organization or sector including industry, government, education, and healthcare.

Sport Communication - Sport communication majors focus on communication theory, research, and application that covers a broad range of communication phenomena within the sport industry. Students study sport culture, sport organizations, informatics, sport relationships, and fandom to prepare them for fields such as sport public relations, sports sales, marketing, management, coaching, and continuation in graduate studies.

Experiential Learning
The communication studies programs offer off-campus opportunities in a variety of organizations including industry, healthcare, non-profit, and government agencies. Practical research opportunities will be available to students desiring to apply their skills to actual organizations (serving as consultants and/or trainers) resulting in the student accumulating valuable professional experience and credentialing.

The sport communication program offers opportunities for students to work in cooperation with the Ashland University sports information office and with its NCAA Division II athletic teams in a wide variety of men's and women's sports. Sport communication students also have the opportunity to work with external amateur and professional sport organizations in the Cleveland, Columbus, and Akron areas.

Degree Requirements
Assessment - Majors in the department will be expected to participate in programmatic assessment during the process of completing their degree requirements. This process includes, but is not limited to, the submission of writing samples and presentations. Faculty will inform the students in their major classes as to which projects will be collected for assessment.

Student Honor Society
Students who have excelled in communication studies are eligible for membership in Lambda Pi Eta, the National Communication Association’s Honor Society. This organization recognizes scholarly excellence in the field of Qualifications for Lambda Pi Eta: 1. Communication Studies Major, 2. Have completed at least 60 credit hours of undergraduate courses by December 31, 3. Have completed at least 12 credit hours of communication courses (COM prefix), 4. A minimum GPA of 3.25 in communication courses, 5. A full-time student.
**Bachelor of Arts in Communication Studies**  
(Offers on-campus and online)

This program prepares students for a broad range of careers by providing a strong communication foundation involving speaking, listening, writing, organizational, leadership, and conflict negotiation skills as they apply to a variety of institutional and relational contexts. Students have the opportunity to build their portfolio consisting of research projects, accomplishments, and experiences. The program requires a minor or dual major.

*Note: Due to the percentage of coursework overlap, students may not combine this major with the B.A. in Health & Risk Communication, the B.A. in Public Relations & Strategic Communication, or the B.A. in Sport Communication for a dual major. Students may not combine this major with a minor in Health & Risk Communication or a minor in Public Relations.

**Plus Institutional Baccalaureate Degree Requirements.**

**Bachelor of Arts with a major in Health & Risk Communication**

This program prepares students to effectively navigate the many relational and logistic challenges of modern day health and safety organizations. Students have the opportunity to build their portfolio consisting of research projects, accomplishments, internships, and other health and risk communication experiences. The program does require a minor or dual major.

Computer Science

Department of Mathematics and Computer Science
The College of Arts and Sciences

https://www.ashland.edu/cas/departments/mathematics-and-computer-science

Chair
Iyad Ajwa, Professor of Computer Science

Faculty
Iyad Ajwa, Professor of Computer Science

Degrees Offered
Bachelor of Science
Bachelor of Arts

Mission
The mission of the Department of Mathematics and Computer Science is to educate students in the areas of mathematics and computer science. The department is committed to providing the students with a broad overview of the central concepts of mathematics, computer science, and logic. The mathematics and computer science curricula are supported by the foundation of a liberal arts education.

Student Learning Outcomes
1. Students will learn and demonstrate the fundamental knowledge of the discipline.
2. Students will have an understanding of and demonstrate competence in logical thought, critical thinking, and problem solving.
3. Students will clearly and accurately express discipline-specific ideas in both written and oral form.

Facilities and Equipment
All classrooms are equipped with networked instructor workstations, including audiovisual and computer projection systems. Programming courses are taught in a computer classroom with student workstations. In addition to the university network and open computer labs, the department maintains a dedicated laboratory for majors. The lab contains a wide variety of computer hardware, running Windows, Linux, and Mac OS X. The computers are equipped with scientific typesetting software, software development tools, compilers, word processors, spreadsheet programs, database programs, web design and programming tools, audio and video editing software, multimedia software, computer algebra systems, statistical and geometric software, and many other applications.

Internships
Computer science majors and minors are encouraged to take advantage of internship opportunities. Most computer-related internships are paid positions. Some positions are available on campus during the school year while others are in industry, usually during the summer. A student may receive course credit for an internship through the University Elective Internship Program (see the description of CS 493 for requirements).

Student Organizations
Any interested student may join either the student chapter of the Association for Computing Machinery or the Mathematics Association of America.

Upsilon Pi Epsilon, Ohio Epsilon chapter, honors students who have shown academic excellence in the computing sciences. The purpose of the society is to promote the computing sciences and to encourage its contribution to the enhancement of knowledge. Computer science majors who have completed 60 hours of overall course work with a GPA of at least 3.5 are eligible for membership.

Description of Majors
Both the Bachelor of Science and Bachelor of Arts degrees prepare students for jobs in industry, such as computer programmer, software developer, systems analyst, or for further study in graduate school. The breadth of learning in the program will enable the student to be a versatile employee.

Degree Requirements
Assessment-As part of the department assessment process, majors in computer science will be asked to complete a survey during the spring of their sophomore year and again during their last semester before graduating.

Bachelor of Science with a comprehensive major in Computer Science
This program is designed for those students who wish to pursue a career in science, with heavy emphasis on computer science.

Marc Hedrick, Professional Instructor of Criminal Justice
Mark Rubin, Professional Instructor of Criminal Justice

Degrees Offered
Associate of Arts
Bachelor of Science

Mission
The mission of the Criminal Justice program is to provide a strong knowledge base in law enforcement, courts, and corrections in an effort to prepare students with practical and professional knowledge for employment in the criminal justice system.

Student Learning Outcomes
Students will:
1. Explain the major components of the criminal justice system including police, courts, and corrections;
2. Describe the importance of the criminal justice system to society;
3. Differentiate between the Classical School explanation of crime and the Positivist School explanations of crime including biological, psychological, and sociological theories;
4. Create and defend solutions to a criminal justice ethical dilemma using an ethical theory.

Description of Major
The criminal justice major is built upon a strong liberal arts base provided by the University’s core curriculum. Course work in the major is structured in a manner that acquaints students with the basic concepts and content areas of the field of criminal justice including law enforcement, corrections, and the courts. The major introduces the criminal justice system as a concept that demonstrates the connectedness and the interdependence of making laws, breaking laws, and reacting to the breaking of laws. This process is referred to as justice, and its application as the criminal justice system. The criminal justice major acquires a basic understanding of the importance of the liberal arts to criminal justice, a sound knowledge base of criminal justice, and an understanding of the basic philosophical foundation and the major theories of the cause of crime and the application of law.

Student Honor Society
Students who have excelled in criminal justice are eligible for membership in Alpha Phi Sigma, a national honor society. Membership is by invitation to those students who have demonstrated good character, maintained an overall GPA of 3.2 and a 3.2 in criminal justice course work, and completed at least three semesters or equivalent of full-time studies and a minimum of 12 hours in criminal justice. Students must also have the recommendation of the Alpha Phi Sigma adviser.

Pre-Law
There is no one way to prepare for law school or a legal career. The study of law requires a variety of skills, including proficient writing, critical reasoning, analytical reading, and self-discipline. Good legal practice requires an appreciation of history, social and political institutions, and, in general, a developed understanding of human nature. Those approaching a profession in law should possess an especially acute sense of values, since their actions will affect the lives of many people.

We believe that a broad background in the liberal arts is the best way to prepare for the study of law, supplemented by some courses which introduce legal concepts. The following courses would be appropriate choices to introduce legal concepts:

- CJ 235: Courts and Justice
- CJ 362: Criminal Law
- CJ 366: Criminal Procedure
- CJ 403: Field Experience/Instruction
- MGT 401: Business Law I
- MGT 402: Business Law II
- POLSC 336: Constitutional Powers
- POLSC 337: Constitutional Rights

Degree Requirements
Assessment – Students will submit specified assignments during certain CJ classes as indicated on the course syllabi and assessment plan. These assignments will be analyzed to determine whether the student learning outcomes of the department have been met.

Bachelor of Science with a comprehensive major in Criminal Justice (Offered On-Campus and Online)
The focus requirement can be met through the completion of an 18-hour minor from another discipline, a second major from another area, or a collection of 18 hours from another area which supports the student’s interest. All focuses must be approved by the chair of the Department of Criminal Justice/Sociology.

Course Number and Title | Hrs. | Prerequisites
--- | --- | ---
SOC 111 Principles of Sociology | 3 | None
CJ 130 Intro to Criminal Justice | 3 | None
CJ 227 Intro to Corrections | 3 | None
CJ 270 Role of Police | 3 | CJ 130
CJ 242 Criminology | 3 | None
CJ 362 Criminal Law | 3 | CJ 130
CJ 450 Ethics in Criminal Justice | 3 | CJ 130, 362, and Jr. or Sr. Status
MATH 208 Elementary Statistics | 3 | MATH 100 or ACT 18 or SAT 480
SOC 360 Research Methods | 3 | MATH 208, SOC 111
Concentration Area:* | 18 | CJ Chair approval
One of the tracks below | 18 | 63 hrs.

General Track
Electives (9 hours must be 300-level or above)

- CJ 200 Crim. Investigation I (3) | CJ 130

Mission of the College

The Dwight Schar College of Education guides all students through innovative and diverse field-based experiences that are grounded in theory and result in skilled and responsive practitioners, well-prepared to meet tomorrow’s challenges.

Values

Accent on the Individual – Candidates in the Dwight Schar College of Education (DSCOE) understand how individuals are shaped by social, economic, and psychological factors as well as gender and other characteristics. They appreciate the diverse talents, cultural understanding, and experiences of all individuals.

Collaboration – Candidates in DSCOE listen carefully to other members of the learning community (faculty members, students, school personnel, and human service professionals). They share information and insights in order to clarify and deepen their understanding to improve society.

Knowledge – Candidates in DSCOE continually pursue new understandings about the world and communicate the humanistic and spiritual value of learning. They draw on this knowledge to create meaningful learning experiences that employ appropriate technology and are differentiated to respond to the wide diversity among students.

Reflection – Candidates in DSCOE use reflection as a tool to find stability in the midst of change. They demonstrate reflection by identifying professional strengths and needs and by planning for professional growth to improve future performance.

Ethics – Candidates in DSCOE assume responsibility to be active in improving their profession. They can articulate a moral framework from which they derive standards of professional behavior in teaching, in research, and leadership studies.

Student Learner Outcomes

Guiding Principle 1: Practitioner- and Field-Based Experiences, Core to All Programs, Link Theory and Practice
1. Candidates apply theory and practice within a professional environment.

Guiding Principle 2: Partnerships with External Stakeholders Broaden Insights and Support Student Success
2. Candidates collaborate with stakeholders to impact the success of diverse individuals and organization.

Guiding Principle 3: Pedagogical and Content Expertise Lead to Positive Outcomes within Diverse Learning Environments
3. Candidates demonstrate pedagogical and content expertise when working within a diverse professional environment.

Guiding Principle 4: A Culture of Assessment Creates Avenues for Reflection, Leading to Excellence
4. Candidates make data-driven decisions within a professional environment.
Guiding Principle 5: Ethical Development

5. Candidates apply principles of integrity and ethical decision making within a professional environment.

Degree Offered
Bachelor of Science in Education

Description of Majors
Majoring in a given field of education will enable students to become knowledgeable of the content and pedagogy needed to teach within various learning environments. The students must also complete additional requirements to obtain a teaching license. These requirements include passing appropriate licensure exams, completing background checks, and successfully meeting additional criteria as determined by the College of Education and the Ohio Department of Education.

Programs (Licensures unless otherwise indicated.)

Early Childhood PreK-3
- Early Childhood (PreK-3)
- Early Childhood Intervention Specialist (PreK-3)
- Early Childhood & Early Childhood Intervention Specialist (PreK-3) - Dual Licensure

Middle Grades 4-9 (Students may choose two):
- Language Arts
- Mathematics
- Science
- Social Studies

AYA Grades 7-12
- Integrated Language Arts/English
- Integrated Science
- Integrated Social Studies
- Integrated Math
- Earth Science
- Biology/Life Science
- Chemistry
- Physical Science

PreK-12
- Art
- Foreign Language:
  - French
  - Spanish
- Music

Intervention Specialist
- Intervention Specialist Mild/Moderate (K-12)
- Intervention Specialist Moderate/Intensive (K-12)
- Intervention Specialist Mild/Moderate (K-12) & Intervention Specialist Moderate/Intensive (K-12)-Dual Licensure

Minor
- Online Teaching and Instructional Technology

Endorsements
- Early Childhood 4-5 Generalist, limited to candidates in PK-3 licensure
- Middle Childhood 4-6 Generalist, limited to candidates in 4-9 licensure

Checklists of requirements for each program can be obtained from the Center for Academic Support Office, 7th floor of the Library.

Accreditation of the College
The teacher education programs have been approved by the Ohio Department of Higher Education. The Dwight Schar College of Education at Ashland University is accredited by the National Council for Accreditation of Teacher Education (NCATE). NCATE can be contacted through: Council for the Accreditation of Educator Preparation, 2010 Massachusetts Ave., NW, Suite 500, Washington, DC 20036; phone (202) 223-007. This accreditation covers initial teacher preparation programs and advanced educator preparation programs. NCATE is recognized by the U.S. Department of Education and the Council for Higher Education Accreditation to accredit programs for the preparation of teachers and other professional school personnel.

These two agencies serve to (a) assure the public that Ashland University offers an educator preparation program that meets national standards of quality, (b) ensure that children and youth are served by well-prepared school personnel, and (c) advance the teaching profession through the improvement of teacher education programs. Licensure requirements are subject to the authority of the Ohio State Department of Education and Ohio law. Course and field experiences may change, subject to requirements approved by the Ohio Department of Higher Education and/or Ohio law.

According to the 2016 Title II Report, 96% of those candidates who completed Ashland University’s initial licensure teacher preparation programs during the 2014-2015 academic year passed their state-mandated licensure tests.

Student Honor Society
Kappa Delta Pi, an international honor society in education, honors education majors who have maintained a 3.0 average overall, a 3.5 in education courses, who have completed 30 hours, and who are outstanding in campus leadership.

Field and Clinical Experiences
All education students are required to complete the number of clock hours of field and clinical experiences determined by their licensure prior to their student teaching and a minimum of 14 weeks of student internship. The departments have established an excellent working relationship with area schools to provide these experiences. Students enrolled in field experiences and student internship are responsible for providing their own transportation to and from the field site locations.

Education students are not permitted to request a school district in which he/she attended or the experience may be compromised by pre-existing relationships with other personnel or pupils (siblings, children, or relatives) who attend the school.

Policies related to Maintaining Good Standing in the Teacher Education Program:
1. The student must maintain a 2.5 cumulative average overall.
2. The student must maintain a 2.5 GPA in their content area(s)
3. The student must maintain a 2.5 GPA in the professional education courses.
4. If, at any time, the student’s cumulative, content, or professional GPA falls below the 2.5 requirement, the student must meet with his or her faculty advisor and complete the “Student Interview and Action Plan Form.” This form requires that the
student meets with their academic advisor and develop an action plan. This form is to be signed by the student, faculty advisor, and the department chair. This form is to be kept by the faculty advisor and a copy is to be submitted to the Director of Quality Assurance and Accreditation in the College of Education.

5. A grade of C or higher is required in each professional education course required for the Licensure Program. Any teacher education student who receives a grade lower than a C must retake the course. (For ECE and ECIS this also includes PSYC 264.)

6. Students are required to complete the Ohio BCI and FBI background checks prior to their sophomore field experience or first active field experience at Ashland University. The remaining field experiences or internships will require a current Ohio BCI background check. The FBI check must be completed again for licensure.

7. Students who participate in the Southern Internship Program are required to complete a background check in the selected placement state.

Admission to Teacher Education:

1. Sign a “Good Moral Character” statement verifying his or her awareness of the law in order to become licensed in Ohio, students must undergo a background check at the Bureau of Criminal Identification and Investigation (BCI) and a background check at the Federal Bureau of Identification and Investigation (FBI). The background checks are required for the sophomore field experience or the student’s first active field experience. Subsequently, the BCI must remain current for any additional field experiences or internships

2. Satisfactorily complete the Testing Pathway or the Academic Pathway described below.

3. Testing Pathway: ACT/SAT tests: Test scores should be submitted directly to Ashland University or the student must provide an official copy of test scores to the appropriate office. If the ACT composite score is 21 or above, or the SAT composite score is 1010 (prior to March 2016) or 1090 (March 2016 forward), or above, the student has met the requirement. Please note that for the SAT only the Critical Reading and Mathematics scores are added to find the composite score. If the score is below the required ACT or SAT composite score, the student takes the Core reading, writing, and math tests. If the student earns a score of 156 or higher on the reading, 162 or higher on the writing, and 150 or higher on the math, the student has met the requirement. If the student does not pass all sections of the Core test, he or she may retake any section(s) below the cut-off score. If the required scores are met, the student has met the test requirement. Registration and preparation material for the Core tests are available at Praxis.

4. Academic Pathway: If the student has taken the Core test at least once and does not pass either the math or the writing section, he or she may opt to participate in the Academic Pathway. The Academic Pathway may not be taken for both the math and writing requirements. There is no academic pathway for reading; students must meet the Core Reading Test score of 156 or higher. The Academic Pathway requires that the student show evidence of success (a grade of B or above) in an appropriate math (general mathematics – not math methods, statistics, or business math) or a writing course. This course must have been completed within five years of the start of course work at Ashland University. The area (math or writing) used for the Academic Pathway must not be in the same content area or concentration as the student’s sought after license. (Example: The middle grades math concentration may not use the Academic Pathway for math.) The Director of Quality Assurance and Accreditation will determine if the course can be used in place of an assessment test. Students should contact

Director of Quality Assurance and Accreditation for Academic Pathway information and the application.

5. Transfer students are not officially admitted into the Teacher Education program, and may not take field or internship courses, until they have successfully completed 12 credit hours of course work at Ashland University, achieved a 2.5 GPA for the first 12 credit hours of Ashland University courses, and submitted evidence of having met the Testing Pathway or the Academic Pathway. Students not meeting this admittance requirement will not be allowed to continue course work until these requirements are achieved. Exceptions may be made for transfer students who have completed appropriate and equivalent assessment requirements at another institution.

6. Satisfactorily complete the Sophomore Field Experience course with a C or better;

7. Apply for “Admission to Teacher Education” prior to the first junior level methods/field experience course block and comply with the following criteria:

   a. Competence in academic field(s) – minimum 2.5 GPA;
   b. Demonstrate proficiency in written English, reading, and basic math skills by satisfactorily completing the Testing/Academic Pathway;
   c. Proficiency in oral communication (successful completion of a Core communication course with a grade of C- or higher);
   d. Meets dispositional guidelines as outlined by the College of Education;
   e. Sincerity of purpose, good moral character and social adaptability;
   f. Have a current Ohio BCI Criminal Background Check processed by the Bureau of Criminal Identification and Investigation and had FBI completed from sophomore or previous field experience;

1. At the conclusion of the screening process, the student's application will be categorized as one of the following: Approved or Rejected by the College of Education.

Guidelines for Transfer Students

While all students must meet the same criteria to be admitted to Teacher Education, those transferring in with an associate degree or a significant number of credit hours that places them at the level of a mid-sophomore year or above, are not considered for candidacy into Teacher Education until they have completed 12 semester hours of Ashland University course work and have achieved testing and GPA requirements.

Admission to Student Teaching/Internship:

1. Complete all required field-based experiences in culturally, racially and socioeconomically diverse urban and non-urban settings;

2. Receive approval for student internship after fulfilling the following requirements:

   a. Application for student internship should be submitted to the Office of Internship and Field Experiences and should be completed two months prior to course registration.
   b. Maintain 2.5 grade point average (cumulative, content, and professional GPA);
   c. Have a current Ohio BCI Criminal Background Check processed by the Bureau of Criminal Identification and Investigation and have FBI completed from sophomore or previous field experience;
   d. Completion of a satisfactory interview with the Director of Field Experiences and Internships, if requested. If a teacher education student is found to be deficient in any of the above, permission to enroll in student internship courses may be denied until the deficiencies are removed.
Exit from Student Teaching-Internship
To successfully complete the internship, the candidate is required to:
1. Successfully complete the Impact on Student Learning assignment.
2. Successfully complete field requirements.
3. Successfully complete all other professional activities required by the College of Education

Recommendation for Licensure:
1. Complete the prescribed program (including student internship).
2. Receive passing scores on the Teacher Licensure Examination.
3. Apply for teaching license
4. Background check must be completed within the year of applying for a new license

Transfer Students
Transfer students must meet the same criteria for admission into teacher education. The only exception would be if they have completed appropriate and equivalent assessment requirements. Transfer students may have to take and pass the Core test prior to the first field experience.

The Department of English

The College of Arts and Sciences

Chair
Hilary Donatini, Associate Professor of English

Faculty
Deborah Fleming, Professor of English
Joseph Mackall, Professor of English
Naomi Saslaw, Professor of English
Russell Weaver, Professor of English
Linda Joyce Brown, Associate Professor of English
Christian Kiefer, Associate Professor of English and Director of the MFA in Creative Writing
Sharleen Mondal, Associate Professor of English
Jayne Waterman, Associate Professor of English

Degrees Offered
Bachelor of Arts
Bachelor of Science in Education

Mission Statement
The Department of English prepares students to read and think carefully as well as to write clearly, logically, and creatively. It values intellectual rigor and contextual understanding. In the spirit of the Ashland University Mission Statement, the department strives to prepare students to “work, serve, and lead with integrity in their local, national, and global communities.” The department achieves this goal by broadening and deepening the minds of its students through reading and critical exploration of texts and analytical and creative writing with academic and professional applications.

Student Learning Outcomes
The English major should be able to read well, write clearly, and demonstrate an understanding of the complexity and range of literature. Specifically, students should be able to perform the following tasks:
1. Analyze a text through appropriate close reading.
2. Evaluate a literary and imaginative work within a social or historical context.
3. Use appropriate secondary materials to explore a literary issue or individual text.
4. Read and interpret a text by one or more writers who have defined and shaped the Western literary tradition.
5. Recognize significant differences between literary periods.
6. Use conventions of analysis appropriate to different genres.
7. Read and interpret one or more literary texts as expressions of a culture outside the British and American traditions.
8. Write a sustained paper focusing on a critical problem.
9. Edit critical and expository prose according to the conventions of standard academic English.

Students working toward certification in Integrated Language Arts also are expected to be able to do the following tasks, as well as those tasks identified by the College of Education:
1. Lead a discussion that involves students in actively reflecting on a literary text.
2. Use the language of traditional grammar to support explanations of the teaching of literary conventions.
3. Teach the writing and editing process appropriately at different grade levels.

Student Honor Society
Sophomores, juniors, and seniors who achieve at least a 3.00 GPA in their English major may apply to join Sigma Tau Delta, an international honor society.

Description of Majors

English – The primary reason to major in English or one of its related programs is the pure love of language and literature itself—a pathway through the beauty, emotion, and universal themes that link writers as diverse as William Shakespeare, John Milton, Emily Dickinson, and Toni Morrison. Majors also learn to think deeply and write carefully about a rich array of texts and topics—skills that prove useful to many occupations. Employers recognize in English majors the ability to analyze problems, sift through evidence, and speak and write coherently. That experience prepares majors for a variety of careers in the arts, education, business, or communications.

Graduates of English programs are prepared to learn for a lifetime because careful reading, deep thinking, and effective communication never become obsolete.

Creative Writing – The Creative Writing major emphasizes the development of creative writing from a grounding in craft and from a study of literary genres and historical periods of literature. The course work features writing workshops and culminates with a senior-level capstone course in which students work toward a polished series of stories or essays, longer narrative, or chapbook of poems.

Statement on Foreign Language
All students majoring in Creative Writing, English, or Integrated Language Arts are encouraged to study a foreign language as part of the Critical Cultural Inquiry requirement.

Degree Requirements
Assessment – All English and Creative Writing majors with sophomore status or higher are required to participate annually in the department’s portfolio assessment process.

### Plus Institutional Baccalaureate Degree Requirements.

**Bachelor of Science in Education with a comprehensive major in Integrated Language Arts (Grades 7-12)**

Assessment – Assessment in teacher education programs begins with admission to teacher education and continues throughout the program. Exit assessment includes a professional portfolio and completion of all appropriate interim assessments. See the Education process section of the catalog for the detailed description of the entire process.

Environmental Science

Department of Environmental Science
The College Arts and Sciences

Director
Patricia A. Saunders, Associate Professor of Biology

Faculty
Soren Brauner, Professor of Biology
Nigel Brush, Professor of Geology
Douglas A. Dawson, Professor of Biology/Toxicology
Mason Posner, Professor of Biology
Jeffrey D. Weidenhamer, Professor of Chemistry, Trustees' Professor
Andrew J. Trimble, Associate Professor of Biology/Toxicology
Dolly Crawford, Assistant Professor of Biology
Jenna Dohli, Visiting Assistant Professor of Biology
Merrill Tawse, Professional Instructor of Biology

Degrees Offered
Bachelor of Science

Mission
The mission of Ashland University's environmental science program is to deepen understanding of our environment and contribute to the solution of environmental problems through the education of students, research and scholarship, stewardship of several environmental preserves, and community outreach programs.

Student Learning Outcomes
Students majoring or minoring in environmental science will be able to:
1. Demonstrate a breadth of knowledge commensurate with their coursework in the understanding of environmental issues from a natural science perspective;
2. Demonstrate proficiency in understanding and explaining the underlying causes and effects of human impacts, based on fundamental science concepts and basic knowledge of natural systems; and
3. Assess and discuss economic, policy, and ethical aspects of environmental issues as they relate to environmental problems and solutions to these problems.

In addition, environmental science majors will double major in a primary science area (biology, chemistry, geology, or toxicology) and will demonstrate the competencies common to all science majors, summarized briefly below.

The details of these competencies are presented in their respective program descriptions and will be assessed separately by the biology, chemistry, geology, and toxicology programs as appropriate to those specific disciplines.

Students majoring in environmental science will be able to:
1. Apply the scientific method to scientific problems in a variety of contexts;
2. Apply fundamental concepts and demonstrate a breadth of knowledge commensurate with course work;
3. Demonstrate practical knowledge and skill in the use and application of scientific equipment and instrumentation, experimental design, sample collection and preparation, and data analysis;
4. Read, understand, summarize and think critically about scholarship and research projects presented in the primary scientific literature; and
5. Communicate scientific findings successfully to colleagues, including data analysis, oral presentations, and written papers.

Facilities and Equipment
Environmental Science students and faculty use the facilities and equipment within the biology, chemistry, geology, and toxicology laboratories described in those areas. Ashland University maintains five environmental preserves that encompass 390 acres, most near campus that include wetlands, streams, old field, forest, and prairie. The Black Fork Wetlands Environmental Studies Center includes a classroom building, 400-foot boardwalk, and observation tower. A 2500-square foot greenhouse with adjoining lab houses a permanent plant collection and provides space for student and faculty research.

Description of Major
Environmental science students acquire a strong foundation in sciences with a major in a primary area, along with the interdisciplinary foundations of the environmental science major. The double major enables students to understand environmental problems and seek solutions from a scientific perspective while also considering the economic, social, political, and ethical aspects of environmental issues. Environmental science graduates enter a variety of careers. Many students choose to go directly into the workforce, while others pursue graduate studies. AU graduates are working in environmental monitoring, environmental and toxicology labs (both private and governmental), parks and zoos, research laboratory settings, and environmental education.

Degree Requirements
Assessment – All environmental science majors will be assessed during EVS 276 Environmental Science Seminar and EVS 476 Issues in Environmental Science for proficiency in the EVS student learning objectives listed above. In addition, they will be assessed for competency in their primary discipline through the process administered by that department (biology, chemistry, geology, or toxicology).

Bachelor of Science with a comprehensive major in Environmental Science
This double major is designed for students who wish to pursue a career in Environmental Science or Biology, Chemistry, Geology, or Toxicology with an emphasis in Environmental Science. Four alternate tracks are possible.

**Environmental Science Courses and Descriptions**

See Course Descriptions section of catalog.
Foreign Languages
Department of Foreign Languages
The College of Arts and Sciences

Chair
Jennifer Rathbun, Professor of Foreign Languages

Faculty
Barbara Schmidt-Rinehart, Professor of Foreign Languages
Richard Gray, Associate Professor of Foreign Languages

Degrees Offered
Bachelor of Arts
Bachelor of Science in Education

Mission and Goals
The Department of Foreign Languages provides educational opportunities that nurture the development of proficiency in a foreign language and knowledge of other cultures. All foreign language courses are taught in the target language, in context, and make use of authentic materials. The learning experience is enhanced by the use of state-of-the-art technology, meaningful learning activities and assessment within a challenging, comprehensive, and balanced curriculum of language, civilization, and literature.

Student Learning Outcomes
For non-majors meeting the CCI requirement with language study:
Students must demonstrate measurably to the point where critical inquiry can be engaged:

1. Evidence of interpersonal, interpretive, and presentational communication skills [speaking, writing, listening, reading, viewing] in the foreign language.
2. An informed understanding of the cultures of the countries represented by the foreign language.
3. The ability to communicate across linguistic, cultural, and geopolitical boundaries.

For majors in French and Spanish:
1. To demonstrate advanced-level proficiency in the four skills of the foreign language — speaking, writing, listening, and reading;
2. To demonstrate a strong knowledge of the foreign language as a system;
3. To demonstrate a broad knowledge of the civilization(s) of the foreign language;
4. To demonstrate a broad knowledge of the literature(s) of the foreign language; and
5. To demonstrate strong reasoning skills through comparison of cultures and analysis of language and literature.

Facilities and Equipment
Language classrooms are equipped with media stations that link the classroom to the University computing network.

Student Honor Society
Phi Sigma Iota, Gamma Tau chapter (International Foreign Language Honor Society), honors students who pursue a major or minor in foreign languages or an interdisciplinary major or minor which includes foreign languages as an essential component. Juniors and seniors are eligible for membership who have completed one 300-level course at A.U., have an overall GPA of at least 3.3, and a GPA of at least 3.3 in their foreign language courses. Membership is by invitation.

Description of Majors
French and Spanish (B.A.) – Majors study to achieve advanced level proficiency in the language as well as a solid foundation in the civilization and literature of the countries in which that language is spoken. The annual portfolio process allows majors to measure their progress in a supportive environment. The program is enhanced by study abroad opportunities in Quebec and France for French majors and Costa Rica, Spain, and other Spanish-speaking countries for Spanish majors. A B.A. degree allows graduates to pursue careers that require foreign language proficiency or graduate school.

French and Spanish Education – The education program consists of courses in the language, foreign language methodology, and general education. Students study to achieve an advanced level of proficiency in the language as well as a solid foundation in the civilization and literature of the countries in which that language is spoken through coursework at A.U. and abroad. Foreign language education courses and field experience supervision are provided by foreign language specialists. All foreign language education majors are encouraged to study abroad for at least one semester. The B.S.Ed. Leads to licensure to teach the language in all grades Pre-K-12.

Foreign Language Placement
Foreign language placement is based on four factors: 1) years of previous study of the foreign language; 2) ACT score; 3) high school GPA; and 4) a placement test. In order to enroll for a foreign language course at the 100 or 200 level, the student must first receive placement. The online placement tool may be found on the Academic Advising web page.

Degree Requirements
Assessment – All foreign language majors with sophomore status or higher are required to participate annually in the department’s portfolio assessment process.

Students taking a foreign language course for a French or Spanish major must earn a “C-“ or better to count the course toward the major.

Students pursuing a Bachelor of Science in Education with a major in French or Spanish have minimum oral proficiency requirements associated with field experiences and licensure. In order to complete foreign language education field experiences at the 300 level and above, students must demonstrate the minimum oral proficiency score for that level experience on the Foreign Language Department’s oral proficiency test. For licensure, students must demonstrate proficiency in the foreign language at the level set as the standard by the College of Education.

General Studies
The College of Arts and Sciences

Program Director
On-Campus: Greg McBrayer, Core Director
Online: Beth Bilek-Golias, College of Adult Studies Director of Curriculum

Associate of Arts in General Studies
(Offered On-Campus and Online)

Student Learning Outcomes
• Produce written communication befitting the context and audience.
• Produce oral communication befitting the context and audience.
• Utilize mathematical, symbolic, logical, graphical, or statistical analysis for the interpretation and solution of problems.
• Identify and analyze a problem, generate and consider potential solutions, and defend the best solution based on evidence and reasoning.
• Purposefully synthesize information from a variety of academic disciplines.

The Associate of Arts degree is designed for those students who are entering careers which do not require four years of college. Ashland University offers an associate degree with concentrations in General Studies (see note below); Art (see Art); Criminal Justice (see Criminal Justice), and Business (see following Business courses). The associate degree includes the following institutional degree requirements as well as selected elective or concentration courses:

Course Number and Title Hrs. Prerequisites
Communication 3
Composition I 3
Composition II 3
Math/Logic 3
Religion 3
Aesthetics course 3
Humanities course 3
Natural Science course 3
Social Science course 3
Historical Reasoning 3
CCI (Critical Cultural Inquiry) 3
Core Elective 3
Electives and Concentration(s) 24

60 hrs.

Plus remaining Associate of Arts Institutional Degree Requirements.

Courses and Descriptions
See Course Descriptions section of catalog

Associate of Arts in General Studies with a concentration in Business (Offered On-Campus and Online)

Course Number and Title Hrs. Prerequisites
ACCT 201 Financial Accounting 3 None
ACCT 202 Managerial Accounting 3 ACCT 201
ECON 232 Prin. Of Microeconomics 3 None
ECON 233 Prin. Of Macroeconomics 3 None
FIN 322 Personal Asset Management 3 Sophomore Status
IS 221 Information Technology 3 None
MATH 208 Elementary Statistics 3 MATH 100, ACT 18 or SAT 480
MGT 240 Intro to Management 3 None
MGT 323 Business Communication 3 ENG 102
MGT 401 Business Law 3 Jr. Status
MKT 233 Principles of Marketing 3 None

33 hrs.

Plus remaining Associate of Arts Institutional Degree Requirements.

Courses and Descriptions

Geology

Department of Chemistry/Geology/Physics
The College of Arts and Sciences

Chair
Rebecca W. Corbin, Professor of Chemistry

Faculty
Nigel Brush, Professor of Geology

Degrees Offered
Bachelor of Science
Bachelor of Science in Education

Mission and Goals
The geology program strives to provide geology and other science majors with the detailed knowledge and technical skills that will allow them to move successfully to pursue jobs, careers, or advanced degrees in geology, related sciences, or education. The program places heavy emphasis on faculty/student interactions, which occur especially well during field trips and junior/senior-level independent research projects. Writing and the use of instrumentation are especially significant in upper-level courses, where most laboratory exercises are project-oriented and problem-based.

The geology program seeks to provide non-majors with a workable knowledge of geological concepts and principles in order to gain an understanding of the forces and processes that shape the world around them. Students develop a deeper familiarity with the scientific method by critically examining the physical evidence upon which current geological models of the earth are built.

Student Learning Outcomes
Students in geology and related programs will:
1. Describe and apply the major concepts, experimental findings, and theories of geology;
2. Effectively use the laboratory techniques and methods of geology;
3. Follow proper safety procedures and regulations for use of chemicals and laboratory equipment;
4. Design appropriate investigations, interpret the results, and make decisions within the context of the discipline;
5. Communicate scientific information both orally and in writing; and
6. Practice ethical and professional behavior within the context of the discipline.

Facilities and Equipment
Four laboratories and sufficient classroom space meet the needs of the faculty and students in the geology program. The Fran and Warren Rupp Environmental Geochemistry laboratory, shared with the chemistry program, houses a variety of equipment and provides a clean chemical environment for the analysis of liquids and solids. Instruments in the chemistry program's Ingmand laboratory, especially the ion chromatographs and graphite furnace atomic absorption spectrophotometer, are also utilized in the geology curriculum. A research grade polarizing microscope with audio, video, and photographic capabilities is used for mineralogical analyses. These instruments plus extensive mineral, rock, thin section, fossil, and map collections, rock preparation equipment, and an active field trip program give geology students a significant amount of hands-on exposure throughout their curriculum.

Field Studies in Geology
Majors in geology and earth science have excellent opportunities to observe in the field those theories and principles learned in the lecture halls and laboratories at Ashland University. Ashland is located within easy driving distance of many geologically significant areas within the state and in neighboring states. Students are afforded opportunities to visit these areas periodically.

Most graduate schools require the successful completion of a summer geological field camp. Although this is not a requirement for graduation from Ashland University, it is strongly recommended. There are many comprehensive summer field courses that include the fundamentals of field analysis and interpretation. These are conducted by leading universities or in cooperation with other geology departments and allow for the earning of six to eight hours. Scholarships are available for many of these camps.

Student Honor Society
Students who have excelled in geology courses are eligible for membership in the Zeta Lambda chapter of Sigma Gamma Epsilon, a national honor society for the earth sciences. Membership is by invitation, selected from students who have completed 12 hours or more of geology courses with a 3.0 GPA and who have greater than a 2.75 overall GPA.

Description of Majors
Geology - Geology is the study of the earth, the rocks and minerals that compose the earth, and the processes that have shaped and continue to shape our planet. Geology also includes the study of the history of life on earth and how these organisms and the earth have changed over earth's history. Understanding geology provides an important foundation for understanding environmental issues such as groundwater pollution, mitigation of natural hazards, and climate change. Ashland provides its majors in geology with a broad training that emphasizes both hands-on laboratory training as well as extensive field experience. Students have the opportunity to conduct independent research with one of our faculty. A majority of our graduates continue their studies in graduate school, and Ashland graduates have been successful in obtaining a wide range of positions with natural resource and environmental companies and with governmental agencies.

Geoscience Technology and Management - This interdisciplinary major will produce graduates who can enter the geoscience industry as geologists and/or managers. Moreover, majors will be sufficiently prepared for entry into advanced educational programs. Lower-level geology courses present fundamental geologic principles while advanced courses cover topics specific to geologic resources-- their origin, location, and responsible development as economic commodities. Business and economics courses in the curriculum provide a foundation in the concepts, theories, procedures, practices, and applications of accounting, management, and law that are essential to operations in geoscience industries.

Degree Requirements
Assessment – The assessment of student learning outcomes for geology and geoscience technology and management majors includes both internal and external assessments in selected courses, typically culminating in the GEOL 497 Laboratory and Field Research or the GEOL 493 Internship course.

John E. Moser, Professor of History
Emily Hess, Visiting Assistant Professor of History
Jason Stevens, Visiting Assistant Professor of History

Degrees Offered
Bachelor of Arts
Bachelor of Science in Education

Mission

The history program is designed to introduce students to the great individuals, events, and ideas of the past; to broaden and deepen their knowledge and understanding of historical continuity and change; and to help students to interpret the forces that shape human events. By examining the political, cultural, and moral forces that have shaped the modern world, we hope to provide the context by which students can better understand themselves and the world in which they live.

Put another way, we see the study of history as one path to becoming a liberally educated person, one who is in the habit of reading carefully, following arguments closely, writing clearly, and speaking thoughtfully.

Student Learning Outcomes

Students who successfully complete the major in history will be able to:

1. Identify, compare, and evaluate concepts, texts, persons, and events in American history
2. Identify, compare, and evaluate concepts, texts, persons, and events in European history
3. Evaluate sources of information about the past and draw appropriate conclusions from them (that is, demonstrate the capacity for historical reasoning)

Facilities and Equipment

The main library has a large collection of historical literature, books, government documents, newspapers, magazines, maps, references, and media which complement the study of history and listed history courses. Classrooms are also provided with maps.

Student Honor Society

Students who have excelled in history are eligible for membership in Phi Alpha Theta, Omicron Zeta chapter, an international honor society in history. Membership is by invitation, selected from junior and senior students with a 3.1 or higher GPA and a minimum of 12 hours of history.

Description of Major

History, the study of how human beings have lived in the past, tries to describe the past and account both for continuity and change over time. While every aspect of human life falls within the historian’s concern, in this department we focus particularly on political and intellectual history. In our history courses, students will interpret historical figures and events; they will study times and places very different from our own, and they will examine the political, intellectual, and cultural forces that produced and now shape the modern world. The overall aim of these studies is to help students better understand themselves and their world. The major in history does not aim to produce specialists in a particular area, but to enliven students’ minds with the capacity to think seriously about human affairs and to consider prudently the important social and political questions they will face as citizens. Our strengths are American and European history (both ancient and modern); we also offer courses on particular areas of the world, most notably Africa, the Middle East, and Modern Asia.

Degree Requirements

Assessment – As part of the department's assessment process, history majors will be asked to complete a test during their freshman year and again during their senior year.

Bachelor of Arts with a major in History

Journalism and Digital Media

Department of Journalism and Digital Media
The College of Arts and Sciences

Chair
David McCoy, Associate Professor of Journalism & Digital Media

Faculty
Maggie Cogar, Professional Instructor of Journalism & Digital Media
John Skrada, Operations Manager

Degrees Offered
Bachelor of Arts

Mission Statement
The Journalism and Digital Media program educates students to become ethical, creative, informed media scholars and practitioners. Students will develop their ideas into relevant stories that are built on a foundation of good writing and told using emerging technology. Our faculty encourages a broad-based learning environment balancing theory and practical experience for students to gain a better understanding of the role and current practices of today's media. The department provides a liberal arts education with individualized instruction and hands-on learning enabling students to receive a college degree designed to prepare them for success in today's converging media industry.

Student Learning Outcomes
The Journalism and Digital Media student will:
1. Demonstrate an understanding of the history, theory, and practice of journalism and digital media;
2. Understand and practice written and verbal storytelling;
3. Demonstrate technical proficiency in the production of journalism and digital media using industry standard practices and digital media tools;
4. Apply ethical principles in the analysis and production of journalism and media projects; and
5. Demonstrate critical thinking and an understanding of the power and influence of the media in a digital world.

Laboratory Opportunities
As a part of the Journalism and Digital Media program, students will produce content for print, web, and broadcast. The program publishes The Collegian, a regional award-winning weekly newspaper, and http://www.ashlandcollegian.com, the newspaper's on-line counterpart, from its campus newsroom. Our national award-winning university radio station WRDL broadcasts daily student-produced programming on our 3kW FM (88.9) radio station serving Ashland and surrounding counties. Television programming is broadcast to campus and to the Ashland Community via Armstrong Cable on the national award-winning AUTV-20 and JDM-created sports broadcast programming is telecast on Sports Time Ohio. Television content is produced from the High Definition digital television studio and post-production facility in the Center for the Arts. The Journalism and Digital Media program offers a variety of unique, practical, and converged media experiences for future storytellers. Students are encouraged to get involved as freshmen and continue through their senior year. Program alumni have worked at a number of media outlets and organizations locally, regionally, and nationally, including NBC New York, Fox Sports Ohio, Sports Time Ohio, the Cleveland Indians, WJW-TV Cleveland, HLN, Sirius Satellite Radio, Sinclair Broadcasting, the Columbus Dispatch, the Toledo Blade, and ESPN.

Description of Majors

Digital Media Production – Production students will be prepared for positions in broadcast and production facilities in the areas of radio production, television production, professional video, media management, and related fields. A range of laboratory experiences in the campus radio station, television station, and video production facility are open to qualified students regardless of class rank. This program instills in students an understanding of the power and influence of the media as well as the social and ethical responsibility it places upon media professionals and consumers.

Digital Media Journalism - Journalism students learn how to gather and create news content for multiple platforms including print, broadcast, and the web. AU is the only small college in Ohio to offer this type of fully converged journalism degree. Students learn a core curriculum of writing, reporting, shooting, and editing through classroom and laboratory experiences. Digital Media Journalism students are prepared for news reporting, sports reporting, editing, and producing jobs at newspapers, websites, television stations, and radio outlets.

Degree Requirements
Assessment – Majors in the department will be expected to participate in programmatic assessment during the process of completing their degree requirements. This process includes, but is not limited to, the submission of writing samples, speeches, and video/audio projects. Faculty will inform the students in their major classes as to which projects will be collected for assessment.

Bachelor of Arts with a major in Digital Media Journalism

### JDM Courses and Descriptions

See course descriptions.
Chair
Iyad Ajwa, Professor of Computer Science

Faculty
Gordon Swain, Professor of Mathematics
Christopher Swanson, Professor of Mathematics
Darren Wick, Professor of Mathematics

Degrees Offered
Bachelor of Science
Bachelor of Arts
Bachelor of Science in Education

Mission
The mission of the Department of Mathematics and Computer Science is to educate students in the areas of mathematics and computer science. The department is committed to providing students with a broad overview of the central concepts of mathematics, computer science, and logic. The mathematics and computer science curricula are supported by the foundation of a liberal arts education.

Student Learning Outcomes
1. Students will learn and demonstrate the fundamental knowledge of the discipline;
2. Students will have an understanding of and demonstrate competence in logical thought, critical thinking, and problem solving;
3. Students will clearly and accurately express discipline-specific ideas in both written and oral form.

Facilities and Equipment
All classrooms are equipped with networked instructor workstations, including audiovisual and computer projection systems. Programming courses are taught in a computer classroom with student workstations. In addition to the university network and open computer labs, the department maintains a dedicated laboratory for majors. The lab contains a wide variety of computer hardware, running Windows, Linux, and Mac OS X. The computers are equipped with scientific typesetting software, software development tools, compilers, word processors, spreadsheet programs, database programs, web design and programming tools, audio and video editing software, multimedia software, computer algebra systems, statistical and geometric software, and many other applications.

Student Organizations
Any interested student may join the student chapters of the Mathematical Association of America or the Association for Computing Machinery.

Pi Mu Epsilon, Ohio Rho chapter, honors students who have excelled in mathematics and promotes scholarly activity in mathematics among students. Membership is offered to sophomore mathematics majors who have completed three semesters of college mathematics including one semester of calculus, with a 4.0 GPA in their mathematics courses, and who are in the top quarter of their class overall; or juniors and seniors who have completed at least two years of college mathematics including calculus, with a 3.0 GPA in their mathematics courses, and who are in the top 1/3 of their class.

Description of Majors
Both the Bachelor of Arts and Bachelor of Science degrees prepare students for jobs in industry such as actuary, operations research analyst, quality control engineer, mathematics consultant, or for further study in graduate school. The analytical and logical abilities developed in these programs prepare students for further study in many other areas, such as business, law, or medicine. Additionally, the Comprehensive Major in Actuarial Science prepares students for the Society of Actuaries' Actuarial Examinations on Probability and Financial Mathematics.

The Bachelor of Science in Education degree, along with teacher licensure, prepares students to teach mathematics in grades 7-12.

Degree Requirements
Assessment – As part of the department assessment process, majors in mathematics, integrated mathematics, and actuarial science will be asked to complete a survey during the spring of their sophomore year and again during their last semester before graduating.

Bachelor of Science with a comprehensive major in Mathematics
This program is designed for those students who wish to pursue a career in science, with heavy emphasis on mathematics.

Multidisciplinary Studies

The College of Arts and Sciences

Program Director
On-Campus: Cindy Moseman, Assistant Dean in College of Arts & Sciences, Coordinator of On-Campus MDS
Online: Beth Bilek-Golias, College of Online and Adult Studies Director of Curriculum

Multidisciplinary Studies

The B.A. or B.S. degree in Multidisciplinary Studies (MDS) is an individualized, multidisciplinary degree which allows students flexibility in designing degree programs that relate to their personal academic and career goals. Students will complete the University Core Curriculum requirements, take a cohesive set of courses from two different content areas (cognates), and complete a Multidisciplinary Capstone Experience (3 hours). This degree program will provide a path to achieve baccalaureate degrees for those students whose interests lie in multiple areas and/or whose accumulated semester credit hours may not otherwise combine to qualify them for one of AU's existing baccalaureate degrees.

"Cognate" is defined as a coherent program of study developed in conjunction with a faculty member from that area of study that consists of 24 credit hours minimum. Of those 24 credit hours, at least 9 hours must be 300/400 level courses. The two cognates must total at least 57 hours.

Students selecting the Multidisciplinary Studies Major will be expected to achieve the following student learning outcomes: (1) identify the issues, problems, or goals addressed by each cognate area; (2) demonstrate familiarity with the terminology commonly used in each cognate area; (3) appraise key texts or significant works in each cognate area; (4) explain the mode of inquiry or creative process that characterizes each cognate area; (5) describe how the two cognate areas contrast with each other, or complement one another, in ways that create a greater understanding that either would provide alone; and (6) apply knowledge and skills from both cognate areas to address a relevant problem or issue.

Students must take a minimum of 30 semester hours at Ashland University. The last 12 hours of coursework, and at least one half of the student's work in the two cognate areas, must be taken at AU.

These programs of study are academically rigorous and require significant student initiative. Conceptualizing the major is the responsibility of the student, the MDS Coordinator or a GOA Advisor in consultation with two faculty and deans.

On Campus: A student will work with the on-campus Coordinator of MDS who will coordinate with two full-time faculty mentors and their respective dean(s), chosen from each of the cognate areas, to design a Multidisciplinary Studies Major which falls within the competence of university faculty.

Interested students should contact the Coordinator of MDS who will review program requirements, application process, discuss the student's areas of interest, and assist the student in identifying two university faculty members to mentor the student. More information and the application form can be found: https://www.ashland.edu/cas/multidisciplinary-studies-major/programs

On-line: A student will work with their GOA Advisor who will coordinate with two full-time faculty mentors and their respective dean(s), chosen from each of the cognate areas, to design a Multidisciplinary Studies Major which falls within the competence of university faculty. Interested students should contact the GOA Admissions Office.

Both On Campus and On-line: Once the program is approved by the two faculty mentors, their respective deans, and the Coordinator of MDS or COAS Director of Curriculum the completed proposal will be submitted to the Office of Records and Registration for verification and inclusion in the student's permanent file.

Bachelor of Arts/Bachelor of Science in
Multidisciplinary Studies (Offered On-Campus and Online)

Course Number and Title | Hrs.
--- | ---
Cognate Area #1 | 24-33
Cognate Area #2 | 24-33
MDS 490 Multidisciplinary Capstone | 3
 | 60 hrs.

Plus Institutional Baccalaureate Degree Requirements.

Courses and Descriptions

See courses and descriptions section of the Ashland University Undergraduate Catalog
Music

Department of Music
The College of Arts and Sciences

Chair
Thomas Reed, Professor of Music

Faculty
Rowland F. Blackley, Professor of Music
Scott Garlock, Professor of Music

Degrees Offered
Bachelor of Music
Bachelor of Arts

Mission and Goals
The Department of Music provides students with a thorough education in the performance, theory, composition, pedagogy, history and literature of music within the context of a liberal arts education. The curriculum is designed to prepare the music student for advanced study at the graduate level in any of these areas. The department further provides, along with the College of Education, professional preparation for those who wish to teach music in preschools, elementary schools and secondary schools.

The Department of Music affords opportunities for the general college student to participate in performing ensembles, to study voice or an instrument privately (applied lessons) or in groups, and to enroll in music courses as part of the University Core curriculum. In addition, students who minor in music, major in theatre with a musical theatre emphasis, or major in early childhood education rely on the department to provide fundamental techniques and instruction to integrate music into their chosen discipline.

The faculty members emphasize individual mentoring and monitoring of student progress. They have specialized training and extensive experience in a wide range of musical areas, but share a dedication to training skilled music professionals, and to providing quality musical experiences to all students.

The department recognizes its place as a cultural force in the University community and the Ashland area by sponsoring and producing public performances of its resident faculty and ensembles as well as guest artists. The department demonstrates its strong commitment to the cultural enrichment of the Ashland community at large by providing musical leadership and expertise for the benefit of all

Student Learning Outcomes
Graduating majors should have a broad base of knowledge, skills and experiences that enable them to be competent musicians, effective teachers and leaders, and lifelong learners. They should be ethical individuals who are active contributors to their professional, artistic and local communities. They should demonstrate a substantial command of these areas of the curriculum, and will demonstrate:

1. Explain aspects of music literature
2. Gather and synthesize information culminating in a music research paper
3. Perform aural skills including sight singing and diction
4. Identify and write music fundamentals elements
5. Complete musical analyses and part-writings
6. Employ functional piano skills
7. Perform effectively as ensemble members
8. Perform significant solo repertoire
9. Create original analytic or musical work for the Senior Project (B.A. students only)
10. Utilize classroom musicianship skills (Music Education students only)
11. Conduct instrumental and/or vocal ensembles (Music Education students only)
12. Integrate teaching methodologies (Music Education students only)

Early childhood education majors or theatre majors with musical theatre emphasis will demonstrate basic knowledge and skills in musical notation, vocal production and performance, piano, solfege and dictation, as required in their curricula. Music minors and general students should, as a result of their music courses, have a heightened understanding of music as an art form and an interest in further musical experiences.

Facilities
The music department is located in the Center for the Arts. The building also includes the 730-seat Hugo Young Theatre for the Performing Arts and the Elizabeth Pastor Recital Hall, along with ample classroom, rehearsal and private practice facilities which afford students opportunities to make music in a pleasant atmosphere.

Accreditation
The Ashland University Department of Music is an accredited institutional member of the National Association of Schools of Music.

Private Music Lessons
Private music lessons are open to all students for credit only. At no time will a student be permitted to audit Applied Music Lessons.

Description of Majors
The music education major (Bachelor of Music) is professional preparation for students who desire to become music teachers in preschools, elementary schools, or secondary schools. The music performance major (Bachelor of Music) is for students who desire professional preparation in music performance within the context of a comprehensive major in music.

The music major (Bachelor of Arts) is for students who desire a thorough study of music within a liberal arts program.

Admission Requirements & Procedures for Music
Students wishing to pursue a major or minor in music must meet proficiency requirements as established by the music department. This procedure also applies to students transferring from other institutions. These requirements include:
1. Formal application;
2. Performance audition in student’s principal area of performance (vocal or instrumental) to include appropriate solo repertoire, scales, studies, sight reading;
3. Aural proficiency test;
4. Personal interview with music faculty.

Details concerning requirements, appropriate audition repertoire and materials are available upon request from the Department of Music.
Degree Requirements

Ensemble Requirements - All full-time music majors must enroll in a major ensemble, determined by his/her principal applied area or as approved by the department chair. Music education majors generally are not required to enroll in a major ensemble during the student internship semester. Ensembles recognized by the department as major ensembles are University Band, University Choir and the Ashland Symphony Orchestra.

Assessment

Assessment of student learning outcomes for music majors is conducted through a variety of means: in-class assessments in Music History, Music Theory and Aural Skills, the Music Skills Exam (Music 499) for B.M. students, ensemble performances, and capstone experiences such as junior and senior recitals (Music 303 and 403), senior projects (Music 497), and student internships (EDCI 469). Contact the Department for detailed information regarding these assessments.

Degree Recitals - All students majoring in music education are required to perform a recital of thirty (30) minutes of music in their applied major area.

All Music Performance majors are required to perform a Senior Recital of forty-five (45) minutes of music during their last year of study and a Junior Recital of thirty (30) minutes of music during a prior year.

All students pursuing the Bachelor of Arts with a major in Music must complete either a Junior Recital of thirty (30) minutes of music or a Senior Project (Mus 497).

Bachelor of Music with a comprehensive major in Music Education, Multi-Age (Pre-K-12)

Assessment - Assessment in teacher education programs begins with admission to the teacher education program and continues throughout the program. Exit assessment includes a professional portfolio and completion of all appropriate interim assessments. See Education for a detailed description of the process.

The curriculum prepares Music Education graduates for the Ohio Four-Year Provisional License-Mus PK-12. See the Education section for additional licensure requirements.

College Mission
The mission of the College of Nursing and Health Sciences is to educate individuals to become health care professionals committed to health related practice, leadership, and service. The programs provide undergraduate and graduate education in health science professions. Our guiding values are integrity, caring, accountability, respect, and excellence. Our vision is to be the premier College of Nursing and Health Sciences in the Midwest, educating graduates to serve a global and diverse society.

College Facilities
The Health Sciences Department is located in the Arthur L. and Maxine Sheets Rybolt Recreation and Health Sciences Center. The state-of-the-art center houses six fully equipped multi-media classrooms, a 4,000 square foot athletic training room, and the 1,600 square foot Messerly Human Performance Laboratory. The Recreation Center contains a walking/running track, fitness center, golf simulator, racquetball court, climbing wall, billiard lounge, natatorium, two basketball courts, and a multi-purpose court.

Students enrolled in the nursing program will take classes on the AU main campus, in classroom and laboratory/simulation spaces located at 1020 S. Trimble Road, Mansfield, and in the on-line environment. Campus housing is available on both the Ashland University main campus and the Mansfield campus.

Simulated learning experiences are a vital part of student nurses education. The Simulation Center on the Mansfield campus includes a health foundations laboratory, family health laboratory, adult health laboratory, complex health laboratory, advanced care laboratories, community health laboratory, and examination rooms. High and mid-level fidelity simulators are computerized and interactive. They may be programmed to give realistic patient responses and outcomes. Simulation is used to teach the basics of nursing care, communication, teamwork, and critical thinking. Students participate in complex patient care such as cardiac arrest, prioritization, and delegation scenarios. Simulation for graduate students include advanced assessment skills and standardized patients. Simulation is not a replacement for clinical, but supplements clinical experiences, enhancing student outcomes.
Health Sciences Programs

Mission

The mission of the Department of Health Sciences is to prepare students for professional success as athletic trainers, dietitians, and exercise science professionals as well as create a positive, challenging, and rigorous learning environment for students at the undergraduate and graduate level. Faculty are dedicated to personal life-long learning and strive to be at the forefront of their respective disciplines.

Athletic Training Program

Mission

The Athletic Training (AT) program provides a nurturing and supportive educational experience for AT majors. Through the integration of the missions of the University and the Health Sciences Department, the AT major prepares the individual for a career in athletic training. The program integrates the standards outlined by the Commission on Accreditation of Athletic Training Education (CAATE) through didactic and clinical experiences in order to prepare the student to be a practicing athletic trainer.

AT students will conduct themselves with the highest integrity by observing and practicing the Code of Ethics as outlined by the National Athletic Trainers Association.

Accreditation

The AU Athletic Training Program is accredited by the CAATE. The program has been placed on Probation as of February 24, 2017, by the CAATE, for the first-time pass rate being below 70 percent; additional information can be found on the Program’s webpage.

Program Description

Athletic trainers work with team physicians, physical therapists, exercise physiologists, and other health care providers in the care, prevention, and rehabilitation of illness and injuries related to sport and exercise. A bachelor’s of science degree in athletic training also prepares graduates for graduate studies, entry level practice and other allied health professions.

Goals and Student Learning Outcomes

Goal 1. The AU AT program will provide the student a learning environment that offers the knowledge, skills and abilities necessary to become an entry-level athletic trainer.

Outcomes:
1. Upon completion of the program, the student will demonstrate the synthesis of knowledge from athletic training and a liberal education as the basis for clinical judgment, reflective practice and decision making.
2. Upon completion of the program, the student will demonstrate meaningful engagement in active academic study and the facilitation of theory into practice transference by utilizing athletic training knowledge, skills and abilities effectively in the Field Experiences.

Goal 2. The AU AT program will provide the student the ability to develop and apply leadership and decision-making skills that include ethics and self-reflection in the application of the foundational behaviors of professional practice in the service of the profession, university and community.

Outcomes:
1. Upon completion of the program, the student will demonstrate an entry-level understanding of the Foundational Behaviors of Professional Practice.
2. Upon completion of the program, the student will demonstrate leadership development for the profession.

3. Upon completion of the program, the student will demonstrate meaningful engagement in service to the profession, university and members of the community.

Benchmarks:

1. 80% of students will score an 80% or higher on the Exit Portfolio in ATR 420 according to the Portfolio Rubric.
2. 80% of students will score an 80% or higher on the Self-Assessment evaluation in ATR 420. Goal 3. The AU AT program will provide the student the ability to promote the importance of evidence and provide the tools for understanding basic research and evaluation techniques. Students will develop skills in the facilitation of theory into practice transference by utilizing athletic training knowledge, skills and abilities.

Outcomes:

1. Upon completion of the program, the student will select current theory and evidenced-based knowledge regarding the competencies of athletic training education to guide and teach patients, families and populations.
2. Upon completion of the program, the student will demonstrate meaningful engagement in the application of scholarship related to athletic training.
3. Upon completion of the program, the student will commit to the responsibility of academic, professional and ethical growth and self-reflection in contributing to the profession.

AT Program Selective Admission Requirements

Entrance into the Athletic Training program is by selective admission. A student is permitted to apply for admission into the program during the second semester of the freshman year, or during the sophomore year. The formal application process must be completed by the second Monday of February. The formal application process requires that each student complete the following criteria:

1. Prerequisite coursework – Students must attain a “C” or better grade in the following courses: ATR 165, ATR 166, ATR 167, and ATR 170.
2. Completed application – Each student must submit a completed application which includes a brief essay on why they have selected athletic training as their intended profession. The form may be found on the AU athletic training website.
3. Three letters of recommendation – A professor/instructor at Ashland University must complete one letter. The professor should elaborate on the student’s academic ability. The other two letters should address the individual’s moral character and/or academic abilities.
4. Cumulative grade point average of 2.5.
5. Interview with the Athletic Training Selection Committee.
7. After the student has been selected into the program, he/she must complete formal training in blood-borne pathogens which includes obtaining or declining the Hepatitis B vaccination. Students must pass a 10-panel drug screen through AIMS Occupational Health Clinic at Samaritan Hospital at a cost of $41. Students must pass an FBI/BCI background check through AU Safety Services at a cost of $60. Students must also pass a physical examination and provide a copy of his/her immunizations. The physical exam must be completed by the AU Health Center and is at a cost of $30.
AT Program Exit Criteria
To graduate with the Athletic Training major, the student must:

1. Successfully complete all university requirements.
2. Successfully complete all required Athletic Training Program courses and requirements.
3. Pass all AT courses with a “C” or better. Any student receiving a “C-” or below must retake the course. Program retention and progression information can be found at: http://www.ashland.edu/conhs/majors/athletic-training
4. Have a minimum cumulative GPA of 2.5.
5. Have a completed and passing (73% or better) Athletic Training portfolio.

Clinical Field Experiences
Program standards require students to complete 6 field experience courses over a period of at least two years, under the direct supervision of an approved Preceptor in a program-approved clinical setting. The clinical experiences will be gained through on and off campus work. The AT student is required to spend at least one semester off campus. This may require driving to the clinical site. There is no reimbursement for gas or automobile expenses. The Program Director and/or Clinical Coordinator will attempt to accommodate the student and minimize the out-of-pocket expenses. All field experience classes require a $60 fee. AT field experience classes require a $60 fee with the exception of ATR 472 an additional fee of $270 for the ACES Workshop is added.

Dietetics Program

Mission
The Ashland University didactic program in Dietetics (AU DP) mission is to provide the foundation knowledge, skills, and experiences necessary to encourage the development of ethical behavior, intellectual growth, critical thought, communication, and problem solving skills, in preparation for entry into post-baccalaureate dietetics internships, professional employment, and/or graduate school, as well as developing students to become contributing members of the scientific/professional community.

Accreditation
The AU DP is fully accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (AND), 120 South Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-0040, extension 5400, http://www.eatright.org

Program Description
The didactic program in Dietetics (DP) is designed for students who wish to become Registered Dietitians (R.D.) and practitioners in clinical, community, food industry, and foodservice areas of nutrition. Registered dietitians are employed by hospitals, community agencies, and various government or private organizations. Completion of degree requirements will result in the student being awarded a Verification Statement of completion of the AU didactic program in Dietetics. Following completion of the program, the completion of an accredited dietetic internship program is required before students are eligible to take the registration examination and obtain the Registered Dietitian (R.D.) credential.

Goals and Outcomes
To assess and guide the AU DP, several goals and outcomes have been developed. These include the following three program goals and outcomes:

Program Goal I:
The AU DP will prepare, assist, and encourage program graduates to seek admittance into an ACEND accredited internship program, professional employment, graduate school or obtain professional credentialing.

- 1.1 Over a five-year period, at least 60% of AU DP graduates will apply to a supervised practice program within 12 months of graduation.
- 1.2 Over a five-year period, at least 50% of those applying to a supervised practice program in the academic year they complete the program will be accepted.
- 1.3 Over a five-year period, at least 50% of program graduates who sought employment in dietetics will be employed within 12 months of program completion.
• 1.4 Over a 5-year period, at least 50% of AU DP graduates not going into an internship, employed or seeking employment, will report pursuing an advanced degree.

• 1.5 Over a 5-year period, the pass rate for AU DP graduates taking the DTR examination will be greater than or equal to 80%

Program Goal 2:
The AU DP will prepare graduates to become contributing members of the scientific/professional community who can function as competent entry-level dietitians in a variety of settings.

• 2.1 Over a 5-year period, the pass rate for AU DP graduates taking the registration (RD) examination for the first time will be greater than or equal to 80%.

• 2.2 At least 80% of AU DP graduates will receive satisfactory or higher ratings from supervisors/employers in at least 75% of the areas surveyed.

Program Goal 3:
The AU DP will assist students in completing the program of study, as well as prepare and encourage students to serve the community through volunteerism, educational, and professional involvement.

• 3.1 At least 75% of students enrolled in the AU DP, after completing the course DIET 210 Introduction to Dietetics, will meet the criteria for receiving a verification statement within three years; 150% of the program length.

• 3.2 At least 75% of AU DP graduates will have been a member of a pre-professional or related professional organization (such as AU Student Dietetic Association, Mohican Dietetic Association, Ohio Academy of Nutrition and Dietetics, or the Academy of Nutrition and Dietetics) prior to program completion.

• 3.3 At least 75% of AU DP graduates will have completed >20 hours of volunteer or philanthropic activities prior to program completion.

Post-Graduation: Admission to a Dietetic Internship Program
Acceptance into an accredited dietetic internship program is extremely competitive. Currently, there is a significant shortage of available internship positions for the number of students applying for acceptance into an internship program. Acceptance into an internship program cannot be guaranteed. Because of this shortage, it is vitally important to excel academically and gain work-related experiences to improve your chances of being accepted.

Exercise Science Program
Mission
Exercise is vital to human health and well-being. Through accurate methods of fitness evaluation and the safe and effective implementation of the fitness prescription, potential benefits are afforded to all stakeholders, including individuals, communities, and the greater society. The program in exercise science enables students to develop their potential through the acquisition of knowledge, skills, and dispositions that facilitate opportunities to successfully pursue careers within the rapidly growing domain of exercise science.

Student Learning Outcomes
The exercise science program is a comprehensive major that provides opportunities for students to develop requisite proficiencies in preparation for careers in the exercise sciences and for admission to graduate profession schools (physical therapy, medicine, etc.). The coursework reflects standards established by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). Students completing the exercise science major will:

1. understand the physiology of the human body at rest and during times of physical stress, with the goal of improving human performance;

2. assess the fitness level of apparently healthy individuals and those with known pathology; and

3. prescribe and develop appropriate exercise and lifestyle modification programs to assist clients in achieving their fitness and/or rehabilitation goals.
Degree Requirements
Bachelor of Science with a comprehensive major in Exercise Science

Nursing Programs
Mission
The mission of the Nursing Department is to educate individuals to become nurse leaders committed to evidence-based practice and service in a diverse and global society. Our innovative nursing programs embrace the college's ICARE values (integrity, caring, accountability, respect, and excellence), interprofessional collaboration, scholarship, and lifelong learning.

Accreditation and Approval
The baccalaureate nursing program is accredited by the Commission on Collegiate Nursing Education (CCNE), One Dupont Circle, N.W., Suite 530, Washington, DC 20036, 202-887-6791. [http://www.aacn.nche.edu/ccne-accreditation](http://www.aacn.nche.edu/ccne-accreditation); and the pre-licensure nursing program is approved by the Ohio Board of Nursing (OBN), 17 South High Street, Suite 400, Columbus, OH 43125, [http://www.nursing.ohio.gov](http://www.nursing.ohio.gov).

Student Learning Outcomes
Upon completion of the program, the student will be able to:
1. Synthesize knowledge from nursing and a liberal education as the basis for clinical judgment, reflective practice, and decision making.
2. Incorporate professional standards in the practice of nursing.
3. Value integrity, caring, accountability, respect and excellence in nursing practice.
4. Collaborate with patients and health professionals to develop and implement culturally appropriate health promotion, disease prevention, and illness care methods.
5. Select current theory and evidenced-based knowledge to guide and teach individuals, families, and populations regarding health promotion, and illness prevention.
6. Employ patient care technologies, information systems, and communication devices that support safe nursing practice and development of nursing knowledge.
7. Demonstrate knowledge of healthcare policy, finance, and regulatory environments that impact patient care.
8. Incorporate effective communication and collaboration skills to form partnerships to provide care and to promote positive outcomes to a diverse society in a global context.
9. Apply leadership concepts, principles of advocacy and decision making in the provision of quality patient care, healthcare team coordination and accountability for care delivery in a variety of settings.
10. Collaborate with healthcare professionals to enhance quality improvement and safety initiatives at individual and systems levels of care.
11. Investigate health-related social justice concerns within legal, ethical, and political contexts.
12. Value lifelong learning for personal and professional growth to support excellence in nursing practice.

Nursing Programs Description

The Bachelor of Science in nursing degree prepares students to practice the art and science of professional nursing. Nursing majors are introduced to the profession’s theoretical knowledge base, research for evidence-based practice, focus on international perspectives in healthcare, apply the nursing process to families and aggregates in the community setting, explore the role of nurse as leader and manager, investigate the role of nurses in legal, ethical, and political settings, and learn the highly technical and clinical skills needed for working with patients and their families in a variety of settings. This degree also provides the foundation for graduate education in nursing.

Four programs leading to a Bachelor of Science in Nursing are offered. Each student’s previous education and experience are evaluated to determine placement in the appropriate program within the College.

Admission to Nursing Programs

As of April 2002, the Ohio Board of Nursing (OBN) has the authority to refuse to grant licensure to applicants with any of the felony convictions specified in the law. The law requires a criminal records check for new applicants for licensure in Ohio who entered a pre-licensure nursing education program on or after June 1, 2003.

Criminal background inquiries and drug screening (ten panel screen) will take place during the fourth term of enrollment for the traditional four-year program students and prior to clinical experiences for advanced entry and accelerated program students. RN to BSN program students who plan clinical experiences outside of their current place of employment will obtain criminal background inquiries and drug screenings one semester prior to clinical coursework.

Background checks and drug screenings will be performed by the agency chosen by the College for nursing program students. Results are sent directly to the College. RN to BSN students required to obtain background checks or drug screenings may select an alternative agency at their own cost. Results for all students are sent directly from the agency to the College. Students who fail an initial drug screen will be allowed one additional repeat test to confirm the results. The College reserves the right to deny any student based on the results of the inquiries regardless of whether it is a positive drug screen, a misdemeanor, or a felony conviction.

Basic life support for health care providers from the American Heart Association certification is required prior to clinical classes for the traditional four-year track students and prior to admission to the program for advanced entry and accelerated track students. For post-licensure students, certification is required upon admission.

Nursing students are required to meet the health and clinical requirements by submitting the appropriate student health documentation, including physical examination and immunization records, and documentation of health insurance. The Medical Record and Health History forms are available on the MyAU Portal page on the AU website nursing page for the College of Nursing and Health Sciences. This requirement may be waived for RN to BSN students. See the nursing student handbook for detailed information on these requirements.

Admission Requirements:

Traditional 4-year Pre-licensure Program

The Traditional Four-Year program is designed for the student who has completed high school level education. Students in this program complete Ashland University core coursework in the first two academic years and begin clinical nursing coursework in their junior year.

Students who meet the criteria below will be directly admitted to AU and the CONHS for their freshman year.

Academic Requirements:

1. Graduated from an accredited high school or equivalent
2. Cumulative high school GPA of 3.0/4.0 (or GED with achievement at a minimum of the 55th percentile in each of the sub core areas)
3. ACT composite of 20 or a combined SAT score of 950 (CR/M)

Other Requirements:

1. Pass a criminal background check and drug screen.(done prior to entering clinical coursework)
2. Meet the health status criteria for mental and physical health.
3. Documentation of ability to perform the essential functions for clinical course work
4. Complete record of required immunizations

Students who do not meet the nursing criteria, but meet the requirements for admission to AU will be admitted to AU. They will be in a pre-nursing list for CONHS and evaluated at the end of the year for potential admission into the nursing program. To be considered, students must have achieved a 2.5 GPA in non-nursing required coursework (11 credit hours).

Pre-nursing students will be encouraged to begin taking science and other courses that will apply toward their nursing degree. They should also begin taking courses that will satisfy their AU institutional degree requirements. These students should meet with Academic Advising to discuss their coursework plan while they are pre-nursing students.

Clinical Locations

Clinical experiences prepare students for nursing practice in diverse settings. Clinical experiences occur in acute care facilities, community agencies, and long-term care in the Mansfield area and surrounding counties. In addition, clinical rotations occur in facilities located within an 80-mile radius including Akron, Cleveland, and Columbus. Students participating in clinical experiences are responsible for providing their own transportation to and from the clinical site.
Degree Requirements:
To earn a BSN degree from Ashland University, 64 hours of nursing credit hours must be earned through Ashland University, or approved in transfer by the Nursing department.

Course and Descriptions
See Course Descriptions section of catalog

Admission Requirements:

**Advanced Entry Pre-licensure Program**

The Advanced Entry program is designed for students who have college transfer credits and/or college credit plus. Students enrolled in this program complete freshman and sophomore level nursing coursework in a fast paced format during the summer and then transition immediately into the junior year of the Traditional Four-Year Program the following semester.

Admission to the Advanced Entry Program is extremely competitive as spaces are limited. Prospective students are highly encouraged to begin the application process early.

Application review will occur as the application is completed and required documents are received. Only applicants who complete the necessary application requirements listed below on or before the application deadline will be considered for admission.

Requirements:
1. Attended an accredited college or university.
2. At least a 3.0/4.0 cumulative grade point average in college coursework.
3. Completion of the following prerequisite courses from an accredited college or university. All prerequisite courses must be completed with a minimum letter grade of "C" in order for that credit to be counted as meeting the prerequisite requirement. Science prerequisite coursework must have been completed within 10 years prior to the program start date.

The following courses must be completed before the program start date:
- Developmental Psychology
- Nutrition
- Microbiology*
- Organic/Inorganic/Bio Chemistry*
- Human Anatomy and Physiology I & II*
- Ethics
- Statistics
- English Composition I and II
- *denotes that the course must include a laboratory

4. Successful completion of all but four (4) university required core courses. Students may take no more than four (4) university required core courses during summer break and/or not more than one (1) course during the last semester provided the course is an online option.

5. Submission of application.
6. Meet all other requirements of the Traditional 4-year program:
   - Pass a criminal background check and drug screen.(done prior to entering clinical coursework)
   - Meet the health status criteria for mental and physical health.
   - Documentation of ability to perform the essential functions for clinical course work.
   - Complete record of required immunizations

Clinical Locations
Clinical experiences prepare students for nursing practice in diverse settings. Clinical experiences occur in acute care facilities, community agencies, and long-term care in the Mansfield area and surrounding counties. In addition, clinical rotations occur in facilities located within a 80-mile radius including Akron, Cleveland, and Columbus. Students participating in clinical experiences are responsible for providing their own transportation to and from the clinical site.
Degree Requirements:
To earn a BSN degree from Ashland University, 64 hours of nursing credit hours must be earned through Ashland University, or approved in transfer by the Nursing department.

Course and Descriptions
See Course Descriptions section of catalog

Admission Requirements:

Accelerated Pre-licensure Program

The Accelerated program is designed for students who have already earned a college degree and who have life experiences in a field other than nursing. Students in the Accelerated program are recognized as having completed core education requirements in their past degree. Unlike the Traditional Four-year program, students in this program complete coursework at an accelerated rate, completing the BSN in 15 months.

Admission to the accelerated program is extremely competitive as spaces are limited. Prospective students are highly encouraged to begin the application process early. Application review will occur as the application is completed and required documents are received. Only applicants who complete the necessary application requirements listed below on or before the accelerated orientation week will be considered for admission.

The requirements of admission have been established to ensure that prospective students have a strong science background necessary to be successful in the program and in the profession of nursing.

Requirements:
1. Earned a baccalaureate degree from an accredited college or university prior to beginning course work.
2. At least a 3.0 cumulative grade point average in college coursework.
3. Science prerequisite coursework cumulative grade point average must be a 2.5 GPA on a 4.0 GPA scale.
4. Completion of the following prerequisite courses from an accredited college or university. All prerequisite courses must be completed with a minimum letter grade of “C” in order for that credit to be counted as meeting the prerequisite requirement. Science prerequisite coursework must have been completed within 10 years prior to the program start date.

The following courses must be completed before the program start date:

- Developmental Psychology
- Microbiology*
- Nutrition
- Organic/Inorganic/Bio Chemistry*
- Human Anatomy and Physiology I & II*
- Statistics

*denotes that the course must include a laboratory

Admission Process:
1. Submission of application.
2. Meet all essential functions of clinical coursework listed in the Nursing Program Student Handbook.
3. Meet the health status criteria for mental and physical health.
4. Upon meeting all acceptance requirements of the program the student must complete a federal and Ohio state criminal background check and a drug-screening test. The results of these tests will determine final acceptance of the student.
5. Applicants who request transfer credit for prior nursing coursework must follow the process for transfer nursing course credit prior to the start of the program.

Clinical Locations
Clinical experiences prepare students for nursing practice in diverse settings. Clinical experiences occur in acute care facilities, community agencies, and long-term care in the Mansfield area and surrounding counties. In addition, clinical rotations occur in facilities located within a 80-mile radius including Akron, Cleveland, and Columbus. Students participating in clinical experiences are responsible for providing their own transportation to and from the clinical site.
General Requirements:
To earn a BSN degree from Ashland University, 64 hours of nursing credit hours must be earned through Ashland University, or approved in transfer by the Nursing Department.

Course Descriptions
See Course Descriptions section of catalog

Transfers Applying to the Traditional 4-year Program without Nursing Transfer Credit
Students applying to transfer must file an AU transfer application.

Requirements:
1. Attended an accredited college or university. Students who have completed less than 30 semester hours of coursework from an accredited high school or equivalent must provide acceptable ACT and high school transcripts for acceptance.
2. Achieved at least a 3.0/4.0 cumulative grade point average in college coursework.
3. Meet all other program requirements listed in the 4-year program:
   - Pass a criminal background check and drug screen. (Done prior to entering clinical coursework)
   - Meet the health status criteria for mental and physical health.
   - Documentation of ability to perform the essential functions for clinical course work.
   - Complete record of required immunizations

Credit for Transfer Nursing Coursework:
1. Nursing course credits from an accredited program may be granted transfer credit. The Department Chair, Program Director, and/or College Admission, Progression and Retention Committee review transcripts for clarification of course related content and assessment of transfer credit.
2. Transfer nursing course credit accepted to meet degree requirements for AU’s nursing program must have met the nursing degree requirements of the institution where the course credit was completed.
3. Clinical orientation, auditing of nursing courses, or retaking of nursing courses may be required in the admission process.
4. Students may be required to demonstrate safe practice in medication administration and other skills to progress even if transfer credit is granted.

Current AU Students Who Want to Change Majors to Nursing
Students who wish to change majors will be accepted to the program pending space availability. Existing AU students who have already taken the required science coursework and received a ‘C-’
or below, will be required to retake these courses in order to gain admission to the CONHS. Exceptions to this may be granted for those who have taken subsequent (higher level) science courses and received grades of "C" or above.

Readmission to Traditional, Advanced Entry, Accelerated Nursing Programs

The College of Nursing and Health Sciences Admission, Progression, and Retention Committee will determine if a student will be readmitted to the nursing program. Students may be readmitted to the nursing program no more than one time.

Clinical orientation, auditing of nursing courses, or retaking of nursing courses may be required in the readmission process.

Students who are readmitted to the nursing program are subject to the degree and graduation requirements in the AU catalog and nursing student handbook at the time of readmission.

If a student continues to take classes at AU while not enrolled in the nursing program, they will be subject to the core requirements of their original AU catalog. However, they will be subject to the nursing program requirements and policies in the AU catalog and student handbook at the time of readmission to the nursing program.

Readmission Process:
1. Contact the Office of Records and Registration to notify the college of potential readmission at least 3 months prior to the semester the student is applying.
2. Submit a letter of intent to the Office of Records and Registration stating the desire for readmission, including additional education that has occurred since applicant’s last classes at AU.
3. The CONHS Admission, Progression, and Retention Committee will review the student’s letter of intent, transcripts and any other written material or letters submitted by the student in the readmission decision.
4. The readmission decision will include requirements to determine appropriate course placement including but not limited to skills testing, ATI testing, and/or medication calculation tests. Course placement will be determined by the committee in conjunction with the program director.
5. Final course recommendations will be sent to the Office of Records and Registration. The Office of Records and Registration will enroll the student in the required courses the student’s first readmitted semester in the CONHS.

Readmission Criteria:
The following will be used in making a readmission decision:
1. Applicant’s stated reason for requesting readmission.
2. Past academic performance and any work completed while absent is evaluated to determine potential for success and/or placement.
3. Demonstration of skills learned in courses completed prior to the student’s leaving the program. This may include passage of a drug calculation exam and demonstration of clinical skills, as deemed appropriate. Successful completion of these requirements must occur prior to the student's readmission.
4. Applicant’s ability to complete the program within the 6-year requirement.
5. Space availability in the appropriate courses.

Readmission Progression Requirements:
1. The admission decision applies to the upcoming semester and cannot be deferred.
2. Applicants must repeat or audit courses (even if passed) when the CONHS deems necessary.
3. Readmitted students must follow the progression grade requirements.
4. Dismissed students will enter on probation and be assessed at the end of the first term.

Withdrawals from Traditional, Advanced Entry, Accelerated Nursing Programs

Students who do not register for nursing coursework within two academic terms (fall/spring) will be administratively withdrawn from the nursing program so that another student may be placed in that spot. They must wait one calendar year before reapplying to the nursing program and must follow the readmission process.

The student may also be tested for safety in a clinical setting before being readmitted. Students are free to continue taking courses to satisfy their AU degree requirements while awaiting readmission to the nursing program.

Students who voluntarily withdraw from the nursing program may reapply for admission without waiting one full calendar year and will be considered on a case by case basis. Readmission to the nursing program is possible with the following guidelines:

- Students can continue to take AU core requirements while they await readmission.
- A withdrawal of up to two semesters is available for students who need to leave the nursing program for personal reasons but intend to return to the nursing program (i.e. medical or family problem); however, permission for this must be granted by the CONHS Admission, Progression, and Retention Committee.

International Student Admission to the Traditional, Advanced Entry, Accelerated Nursing Programs

In addition to the nursing program admission requirements, international students will also need to meet the following English proficiency requirements:

- TOEFL iBT score of 84 (Speaking subscore of 26) or IELTS 7.0 (Speaking subscore of 7.0).

Admission Requirements: RN to BSN Post-licensure Program

Registered nurses (RN) are provided the knowledge and skills to advance their nursing careers and build on their basic nursing education. They have the opportunity to earn the baccalaureate degree in nursing while building a strong foundation in the arts, sciences, and humanities.

To facilitate access to baccalaureate education for working registered nurses, all nursing courses for the RN to BSN program are offered in an online format. Full and part-time study is available. Non-nursing courses are available online.

Admission requirements:

Complete the RN to BSN application form and submit official transcripts from all institutions of higher education. Hold a current, valid license (a license that is not inactive, suspended, revoked, or subject to restrictions, and for which the individual continues to meet all requirements for issuance) to practice as a registered nurse in one U.S. state or territory, or be dually enrolled in a RN licensure program, or be a graduate of a RN program and eligible for the NCLEX. Students admitted without a current, valid license shall adhere to additional program progression requirements.

Clinical Locations

RN to BSN student clinical experiences are designed to be meaningful and supportive contributing to the student learning and work setting. Students will work with their supervisors to determine an appropriate need that a clinical project will fulfill at the students’
place of employment to meet course learning outcomes. Unemployed students are offered ability to complete projects for the CONHS in the same context. Clinical projects will be approved through a course contract and faculty approval. Requires current CPR certification, blood borne pathogen, and HIPAA education.

Readmission to RN to BSN Nursing Program

Students who have withdrawn from the RN to BSN program for personal reasons are to notify the Online/Adult college admissions counselor and the RN to BSN program director of intent to return.

Students who are readmitted to the nursing program are subject to the degree and graduation requirements in the AU catalog and nursing student handbook at the time of readmission.

If a student is dismissed from the RN to BSN program for academic performance or conduct reasons, the CONHS Admission, Progression, and Retention Committee will determine if a student will be readmitted to the nursing program. Students may be readmitted to the nursing program no more than one time.

Readmission Criteria:
1. Applicant continues to meet RN to BSN program admission criteria.
2. Applicant’s stated reason for requesting readmission.
3. Past academic performance and any work completed while absent is evaluated to determine potential for success.
4. Applicant’s ability to complete the program within the 6-year requirement.

International Student Admission to the RN to BSN Program

In addition to the nursing program admission requirements, international students will also need to meet the following requirement:
- Applicants will need to have passed the NCLEX examination and be licensed to practice nursing in the United States

Degree Requirements:

Thirty semester hours of Ashland University required nursing and required non-nursing degree requirements can be used toward meeting university requirements. RN to BSN program proficiency credit may be earned for a maximum of two nursing courses. The last 12 semester hours earned before graduation must be earned from AU.

Course and Descriptions:
See Course Descriptions section of catalog

Elective Concentration:
Courses may be taken as needed to obtain 120 credit hours for degree completion. Student will work with their advisor for this option. Options include, but are not limited to the following: Design Your Own (e.g., nursing electives, management electives, and/or other electives) and School Nursing Program.

For information on the School Nursing Program, see the Graduate section of this catalog. It requires 15-17 hours. A bachelor’s degree is required for acceptance into the program. Students selecting this concentration will work with an advisor to petition to take 3 graduate-level courses concurrently while earning the BSN, and upon graduation will be prepared to apply and finish the School Nursing Program requirements.
Philosophy

Department of Philosophy
The College of Arts and Sciences

Chair
Louis A. Mancha, Associate Professor of Philosophy

Faculty
William Vaughan, Professor of Philosophy
Mark Hamilton, Associate Professor of Philosophy

Degree Offered
Bachelor of Arts

Mission
Unlike any other discipline, the intrinsic mission of the Department of Philosophy is to transform ordinary students into flourishing adults. When students are instructed in Philosophy, they learn not only how to make a living, but how to live well. While other departments focus on specific topics and work-related skills, we provide students with the tools to be educated and productive members of the world, regardless of their profession or vocation. It is the duty of the Philosophy Dept. to teach students the love of learning itself, to seek purpose in their lives, and to make informed, objective, and consistent judgments. Hence, our program provides majors, minors, and other students a basic liberal arts understanding of the history of philosophy, with an emphasis on critical thinking, reading, and writing. We train students in the first principles of logic, ethics, science, politics, and theology. A Philosophy degree emphasizes academic and professional integrity, and the importance of defending one’s beliefs—as well as assessing the beliefs of others—in order to educate marketable, responsible, and free citizens. We believe this is consistent with the historic purpose of Ashland University itself.

Student Learning Objectives
The student who is successful in the study of philosophy learns how to support his or her own claims with logical arguments, learns how to organize and analyze moral perspectives in a coherent and philosophically informed manner, and can locate his or her intellectual parameters and engage deeply in critical consultation with major texts in the history of philosophy.

For centuries, philosophical participation has been an essential component of self-realization. It generates human beings with greater democratic dispositions, greater tolerance of difference, more sensitivity to reciprocity, better able to engage in rational and moral discourse, and more prone to examine their own preferences—all qualities conducive to success in any field and living a more complete human life.

Student Learning Outcomes
The Philosophy Department student learning outcomes focus primarily on critical thinking and analytical reasoning skills. As a result of philosophical studies, students should be able to:

1. Identify, summarize, and appropriately reformulate philosophical problems, questions, or issues;
2. Identify and consider the influence of context and assumptions with regard to philosophical ideas;
3. Develop, present, and communicate their own perspective, hypothesis, or position, with regard to philosophical issues, topics, or controversies.
4. Present, assess, and analyze appropriate supporting data, evidence, and arguments;
5. Integrate other (disciplinary) perspectives and positions with regard their thinking;
6. Identify and assess conclusions, implications, and consequences of their views; and
7. Communicate those views effectively

Facilities and Opportunities
- Philosophy bibliography databases
- Access to Ashland Theological Seminary holdings and foreign languages
- Research internships
- Participation in Ohio Philosophical Association
- International Philosophy Honor Society (Phi Sigma Tau)
- Participation in Philosophy Club

Student Honor Society
Phi Sigma Tau, Ohio Mu Chapter, honors students who have demonstrated academic excellence in philosophy. Membership is by invitation, selected from students who have completed at least 9 semester hours of philosophy with a GPA of at least 3.2 in two of those classes, and have a cumulative GPA of 3.0 or higher.

Description of Major
Philosophy is unique both in its methods and in the nature and breadth of its subject matter. It pursues questions in every dimension of human life, and its techniques apply in any field of study or endeavor. No brief definition expresses the richness and variety of philosophy. It is a reasoned pursuit of fundamental truths, a quest for understanding, and a study of principles of meaning and conduct. It seeks variously to establish and to set into question standards of evidence, to provide rational methods of resolving conflicts, and to create techniques for evaluating ideas and arguments. Philosophy is both a group of activities and a body of knowledge, and our department teaches from original texts in ways that enable students to acquire the relevant skills so that they can think for themselves.

Degree Requirements
Assessment-All philosophy majors and minors are required to participate in the department assessment process throughout their academic career. The assessment process seeks to measure the department’s stated learning outcomes, and involves the completion of a systematic exit exam designed to evaluate student learning in three core areas: logic and reasoning, ethics, and the history of philosophy.

### Philosophy Courses and Descriptions

See Course Descriptions section of catalog.
Physics
Department of Chemistry/Geology/Physics
The College of Arts and Sciences

Chair
Rebecca W. Corbin, Professor of Chemistry

Faculty
Rodney A. Michael, Associate Professor of Physics

Degrees Offered
Bachelor of Science
Bachelor of Science in Education

Mission and Goals
The physics program prepares students to approach scientific problems in a logical, succinct fashion; to ascertain the relationship of physics to the other sciences and the nature of the world in which they live; and to develop skills needed to be successful in graduate study or professional careers in science, education, or technology.

Student Learning Outcomes
Students in physics and related programs will:

1. Describe and apply the major concepts, experimental findings, and theories of physics;
2. Effectively use the laboratory techniques and methods of physics;
3. Follow proper safety procedures and regulations for use of chemicals and laboratory equipment;
4. Design appropriate investigations, interpret the results, and make decisions within the context of physics.
5. Communicate scientific information both orally and in writing; and
6. Practice ethical and professional behavior within the context of the discipline.

Facilities and Equipment
The physics program uses two multi-purpose laboratories and a dark room. Equipment available for every student's use includes Tektronix oscilloscopes, function generators, multi- meters, and a variety of illustrative introductory laboratory equipment. One laboratory room includes interfacing electronics to allow for computer collection and analysis of data. Advanced students also have access to equipment for reproducing several famous 20th century experiments, and a small Unix sub-network is available to upper level students for use in computation and modeling.

Description of Major
Physics is the study of matter, energy, space, and time. The study of physics is foundational to the scientific disciplines of biology, chemistry, and geology. Physicists study the fundamental particles of matter (quarks and leptons), the four fundamental forces, and the properties of energy in all of its varied forms, seeking to understand the underlying laws or patterns that govern the behavior of matter. Fundamental advances in physics undergird modern technology. Ashland provides its majors in physics with a broad training in physics that challenges students to learn to think as physicists, along with having the opportunity to conduct independent research as part of their major.

Degree Requirements
Assessment – The assessment of student learning outcomes for physics majors includes both internal and external assessments in selected courses, typically culminating in the PHYS 497 Laboratory and Field Research course or the PHYS 493 Internship course.

Bachelor of Science with a comprehensive major in Physics
This program is designed for those students who wish to pursue a career in science, with heavy emphasis on physics.

Course Number and Title | Hrs. | Prerequisites
--- | --- | ---
PHYS 205-206 Univ. Physics | 10 | MATH 206
3 courses from: | | |
PHYS 301 Elect. & Mag. I | 3 | PHYS 206, MATH 305

Political Science

Department of History and Political Science
The College of Arts and Sciences

Chair
David Foster, Professor of Political Science

Faculty
Jeffrey Sikkenga, Professor of Political Science
Christopher Burkett, Associate Professor of Political Science
Justin Lyons, Associate Professor of Political Science
Rene Paddags, Associate Professor of Political Science
Gregory McBrayer, Assistant Professor of Political Science
Brienne Wolf, Assistant Professor of Political Science
Daniel Schillinger, Visiting Assistant Professor of Political Science
Jason Stevens, Visiting Assistant Professor of Political Science

Degrees Offered
Bachelor of Arts
Bachelor of Science in Education

Mission
The political science program studies the great political thinkers, the institutions and practices of government, and selected statesmen with the intention of helping students think more clearly about politics, American government, and international relations. The program does not aim to train specialists in a particular skill, but to enliven students with the capacity to think seriously about themselves as human beings and to consider prudently the important social and political questions they will face as citizens. We believe that the study of politics is an important part of a liberal education, and that it contributes to learning how to read carefully, follow arguments closely, write clearly, and speak thoughtfully.

Student Learning Outcomes
Students who successfully complete the major in political science will be able to:
1. Identify, compare, and evaluate concepts, texts, and persons in political philosophy
2. Identify, compare, and evaluate concepts, texts, persons, and events in American government
3. Identify, compare, and evaluate concepts, texts, persons, and events in International politics
4. Discuss, interpret, and analyze political problems

Student Honor Society
Pi Sigma Alpha, Rho Omega chapter, is the national political science honor society. Membership is open to students who have completed a minimum of 15 credit hours in political science and have a cumulative GPA of 3.3.

Ashbrook Center for Public Affairs
The Ashbrook Center for Public Affairs is an academic forum for the study, research, and discussion of the principles and practices of American constitutional government and politics. The Ashbrook Center sponsors the Ashbrook Scholar program, hosts a series of campus lectures and conferences, and provides internship opportunities for students interested in careers related to public affairs.

Description of Major
Political science is the study of how and why human beings live together in society. This study is centered on the great questions animating political life: What is justice? Who should rule? What is the best kind of society?

As history shows, there are different kinds of political societies with distinct characters or regimes. For example, modern societies have democratic institutions and a way of life based on ideas of equality and freedom. The difference between political societies naturally leads to the comparative question of which one is best. This question—What is the best regime?—is the highest theme of political science; for it is only with knowledge of the best society that we can understand and adequately evaluate the variety of actual societies and ways of life. To pursue that question, we must identify and describe the forces, needs, and desires which bring human beings together and then explain how these things account for all the various regimes and forms of political life such as the city, the nation-state, or the empire. One fundamental way is to study the works of the greatest political thinkers like Plato, Aristotle, Locke, or The Federalist.

At the same time, we also must study the world of political action: laws, governing institutions, relations between countries, and the words and deeds of statesmen who practice political art at its highest, like George Washington, Abraham Lincoln, or Winston Churchill. This combined study of political philosophy, political institutions, and statesmanship makes up political science in all aspects.

Degree Requirements
Assessment – As part of the department's assessment process, majors in political science and international political studies will be asked to complete a test during their freshman year and again during their senior year.

Bachelor of Arts with a major in Political Science
This program is a traditional major in political science designed for students who wish to prepare themselves for careers that build on a background in political science or who seek knowledge of political life as part of a liberal education.

The program offers courses in the following fields:

(A) American Politics (POLSC 236, 305, 310, 312, 336, 337, 352, 370, 375)
(B) Political Thought (POLSC 320, 321, 343, 344, 345, 346, 380, 385)
(C) Comparative and International Politics (POLSC 205, 231, 355, 360, 390)

Electives from political science
Electives from political science

Majors are required to demonstrate either:
Proficiency in a modern or ancient language through the intermediate level

156
OR
Proficiency in a modern or ancient language through the elementary level and completion of a study or internship abroad

36 hrs.

*Students should consult their academic advisor or the Department Chair for definitions of “elementary” and Intermediate” and for how to demonstrate proficiency in a language not learned at Ashland University. For this major, study or internship abroad must involve at least four weeks of travel outside of the United States, and may be completed through an AU study abroad/away, an independent study course (498), or an elective internship (293, 393, or 493).

Note: No more than 24 hours of required or elective courses may count toward both the IPS and the POLSC majors.

Plus Institutional Baccalaureate Degree Requirements.
Bachelor of Arts with a major in International Political Studies

Psychology

Department of Psychology
The College of Arts and Sciences

Chair
Mitchell Metzger, Professor of Psychology

Faculty
Diane Bonfiglio, Associate Professor of Psychology
Christopher Chartier, Associate Professor of Psychology
Curt Ickes, Associate Professor of Psychology

Degrees Offered
Bachelor of Arts
Bachelor of Science

Mission
The Department of Psychology provides a balanced education in psychology, presenting a thorough foundation in the scientific study of behavior and mental processes, while emphasizing ethical applications of psychology as a discipline to individuals and to society. The department maintains a current curriculum and provides students with opportunities to become proficient in fundamental intellectual and social skills that are essential for achievement in the work world.

Student Learning Outcomes
Students majoring in psychology will be expected to demonstrate:

* Knowledge in the basic content areas of the discipline of psychology, as evidenced through exams and papers submitted in their psychology courses;
* An understanding and use of scientific methodology, as seen through successful completion of research methods course(s);
* Intellectual and social skills that are needed for a career in psychology and required for achievement in the work world, as seen through successful completion of assignments in service learning courses, internships, or pre-professional seminars; and
* The expression of psychological concepts and ideas in both written and oral form, as shown through formal research projects or the student's psychology coursework.

Opportunities
Internships and individual research projects are encouraged. There are opportunities to assist professors with research and to present research at regional conferences in places such as Chicago, Boston, and Philadelphia.

The Psychology Club offers the opportunity for social interaction with other students interested in psychology.

Student Honor Society
The Psi Chi International Honor Society is for majors or minors in psychology. Undergraduates who are elected to Psi Chi must rank in the upper 35% of their class, have completed at least 9 semester hours of psychology courses, and have earned a minimum 3.0 in psychology courses.

Description of Majors
The psychology major is built upon a strong liberal arts base as provided by the University’s core curriculum. The coursework is designed to acquaint the student with basic content areas of the science of psychology. Scientific methodology, thought, and the ethical application of knowledge outside of the classroom is emphasized.

Psychology students become proficient in fundamental intellectual and social skills essential for a career in psychology and required for achievement in the world of work. The department assists students with professional aspirations in pursuing graduate education and provides a broad psychology background for those with other career plans. Students pick a B.A. or B.S. degree based on their areas of academic strength and their career plans. Individual research projects and internships are encouraged for all psychology majors.

Degree Requirements
Assessment - All psychology majors with sophomore or higher status are required to develop an experimental research project or complete an internship or independent study.

Psychology Courses and Descriptions

See Course Descriptions section of catalog.
Religion

Department of Religion
The College of Arts and Sciences

Chair
Peter Slade, Professor of Religion

Faculty
David C. Aune, Associate Professor of Religion
Sue Dickson, Associate Professor of Religion
Craig Hovey, Associate Professor of Religion

Degree Offered
Bachelor of Arts

Mission
The Department of Religion furnishes a basic Biblical understanding and appreciation of Christian thought for all graduating students. It seeks to help students become aware of how religious commitments and values continue to shape our worldviews and affect our ethics. It also seeks to be a learning environment for intensive and advanced work in religious explorations as a means of preparing students for graduate study and professional careers in churches and ministry.

Objectives of the Religion Department
1. To furnish a basic Biblical understanding and appreciation of Christian thought for all graduating students;
2. To provide preliminary studies for students wishing to do graduate work in religion;
3. To prepare students to enter seminary training, religious vocations and related social professions;
4. To provide courses of study for students who wish to teach religion in primary and secondary schools; and
5. To provide courses of study for students who have interests in Christian involvement in community and church.

Student Learning Outcomes
1. Identify the main events and themes in the Bible.
2. Analyze the Biblical text and secondary Biblical studies writings.
3. Examine the history of Christian thought and practice.
4. Identify major themes in Christian theology and ethics.
5. Evaluate primary works in Christian theology and ethics
6. Identify beliefs and practices in major world religious traditions.
7. Integrate religious studies into life and vocation.

Clinical Experience in Religion
Majors in religion may elect an internship in a congregation or other ministry setting for up to nine credit hours (typically three credit hours at a time) under the supervision of a leader approved by a Religion Department faculty member. Students must comply with all Independent Study Program requirements and guidelines developed by the Career Services Center.

Study Abroad options include following the footsteps of the Apostle Paul in Greece, exploring the legacy of Peter and Paul in Italy and participating in mission trips coordinated through the Office of Christian Ministry in conjunction with a course on short term missions.

Pre-Seminary Group and Accelerated BA/MAPT
An important objective of the department is to prepare students to enter seminary training, and explore religious vocations. The pre-seminary group helps students who wish to explore the possibility of entering seminary after graduation and/or who wish to pursue a vocation in Christian ministry. Participants in the group will:
1. Major or minor in Religion (Required);
2. Be paired with one of the religion professors who will serve as a pre-seminary mentor;
3. Participate in the Clinical Experience in Religion (Recommended).

In their junior year, pre-seminary students will be encouraged to take advantage of the close relationship between the department and Ashland Theological Seminary by applying to enter the accelerated Bachelor of Arts/ Master of Arts in Practical Theology (BA/MAPT). This acceleration consists of a combination of classes taken for the religion major counting as courses with advanced standing with credit in the MAPT, graduate classes from the seminary counting as undergraduate general electives, and summer internships with churches. For students planning on going into the ministry, the accelerated BA/MAPT will enhance the undergraduate major in religion and significantly reduce the time and cost of a seminary degree. For additional information, contact Dr. Peter Slade (419-289-5237; pslade@ashland.edu).

Description of Major
Religion majors become a part of a learning community that is both academically rigorous and sensitive to issues of faith development and spiritual formation. Students take courses in the areas of Biblical studies, theology and ethics, Christian history, world religions, and practical theology. The religion major not only prepares those who are called to a life of ministry in the church or academy but also helps those who are planning a career in other fields to apply a Biblical and theological worldview to their respective disciplines.

Degree Requirements
Assessment – Upon declaring a religion major, the student should fill out the “Religion Major Information Form” and return it to his or her adviser. As part of the 30- hour degree requirement, majors must successfully fulfill all requirements of the REL 497 Religion Thesis Seminar course in their junior or senior year, resulting in the completion of the Religion Thesis. Finally, before graduation, majors must complete and submit the “Senior Assessment Survey.”

Social Work

Department of Social Work
The College of Arts and Sciences

Chair
Mitchell Metzger, Professor of Psychology

Faculty
Nancy Udolph, Field Director, Associate Professor of Social Work
Michael Vimont, Program Director, Associate Professor of Social Work

Degree Offered
Bachelor of Science in Social Work

Mission and Goals
The Department of Social Work prepares beginning generalist social work practitioners for leadership in service to those people who are at risk and oppressed. It provides students with an academic program, founded in the liberal arts, that develops social work knowledge, values and skills. It also incorporates an appreciation of diversity, a commitment to social justice and an understanding of the need for continuing professional development in the ever changing local, national and global contexts of social work practice."

Student Program Goals
Program goal #1: Prepare students for competent professional generalist social work practice with diverse individuals, families, small groups, organizations, and communities in local, national, and global contexts.

Program goal #2: Prepare students for critical thinking through an educational process combining the liberal arts core curriculum with professional social work education.

Program goal #3: Prepare students to incorporate the values and ethics of the social work profession into their professional practice.

Program goal #4: Prepare students to advocate for change in policies, programs, and resource allocations that seek to advance human well-being, promote social and economic justice, empower clients, and respect diversity.

Program goal #5: Prepare students with a foundation for lifelong learning, continuing professional development, and advanced study.

Student Learning Outcomes:
A student graduating with a degree in Social Work will be able to:
1. Demonstrate ethical and professional behavior
2. Engage diversity and difference in practice
3. Advance human rights and social, economic, and environmental justice
4. Engage in practice-informed research-informed practice
5. Engage in policy practice
6. Engage with individual, families, groups, organizations, and communities
7. Assess individuals, families, groups, organizations, and communities
8. Intervene with individuals, families, groups, organizations, and communities
9. Evaluate practice with individuals, families, groups, organizations, and communities

Accreditation
The program is accredited by the Council on Social Work Education (CSWE) at the baccalaureate level. Graduates are eligible to take the standardized national licensing examination required for licensure in the State of Ohio.

Field Experience in Social Work
Field experience is integrated into every social work course. Students complete an agency observation, interview persons who work in agencies, interview individuals and families for specific assignments, visit a nursing home resident for a semester, and attend support groups. In addition, social work majors have the option of adding one credit of service learning to each practice class.

Seniors complete a 500-hour agency placement in their final semester. They must meet field entrance requirements before being admitted to SOCWK 418 Field Instruction.

Students are advised that licensure in social work requires a criminal background check. In addition, many internship agencies require background checks and drug screening to be admitted as a student intern.

Admission Requirements
Students may provisionally declare a social work major early in their academic careers at Ashland University. However, in accordance with requirements set forth by the Council on Social Work Education, the Social Work Program conducts an admission-to-the-major process which must be successfully completed before the student is permitted to proceed with taking SOCWK 310. In order for a student to be considered for admission to the major, the following requirements must be met:
1. A course grade of C or better in SOCWK 221 (Introduction to Social Work) or an equivalent transfer course approved by the Social Work Program;
2. A cumulative GPA of 2.25;
3. Completion of an application packet that contains the following:
   a) signed Application for Admission to the Major;
   b) signed Student Agreement;
   c) current transcript; and
   d) autobiographical summary completed according to program guidelines;
4. Three written references;
5. Completion of an interview conducted by social work faculty (Note: a student who transfers to Ashland University as a junior or who changes his or her major to social work during their sophomore year may take SOCWK 221 during the same semester that SOCWK 310 is taken with the program’s permission, and may be admitted on a conditional basis.)

Student Honor Society
Epsilon Tau chapter of the Phi Alpha National Social Work Honor Society honors senior social work majors who have attained excellence of scholarship and distinction of achievement as students of social work. Requirements include an overall GPA of 3.25 with a 3.4 GPA in required social work courses.
Description of Major

Social work is an action-oriented, value-based profession that assists people in society who are facing a variety of social problems. The social work major is designed to give students an understanding of human functioning in contemporary society, the challenges and problems people face, and the social policies and services designed to help them. The program’s faculty creatively engages and challenges students in an educational process which prepares them for professional practice, graduate education, and for leadership roles in the social work profession. Students develop an awareness of the interaction of biological, psychological, and social influences on human behavior within the social environment, an understanding of the impact of prejudice, discrimination, and oppression on at-risk groups within society, and an appreciation of and dedication to working for social, political, and economic justice. They learn practice skills such as interviewing, assessment, planning, intervention, evaluation, and termination. Social workers serve people of all ages in a variety of settings including mental health centers, schools, hospitals, social service agencies, correctional facilities, and programs serving older adults.

Degree Requirements

Assessment – All social work majors with graduating senior status are required to participate at year’s end in the department’s Montana Social Work Competence Exam and the Field Instructor’s Evaluation, which are elements of the assessment process. In compliance with the Council on Social Work Education guidelines, the Ashland University Social Work Program does not grant academic credit for life experience or previous work experience.

Bachelor of Science in Social Work

This degree is built upon a strong liberal arts base that includes courses from several disciplines. Because the credit hours for the core curriculum and the prerequisites total more than 60 hours, social work is considered a comprehensive major. No minor is required, but some students cluster their electives in a discipline that supports their area of interest in social work practice.

The required social work major courses must be taken in the specified sequence. To assure completion of the program in four years, a student interested in the social work major should meet with a social work faculty adviser in the spring of his or her freshman year.

Theatre

Department of Theatre
The College of Arts and Sciences

Chair
Thomas Reed, Professor of Music

Faculty
Teresa Durbin-Ames, Associate Professor of Theatre; Artistic Director
Sean Parker, Assistant Professor of Theatre, Director
J. Michael Desper, Technical Director

Degrees Offered
Bachelor of Arts

Mission
The Department of Theatre educates and prepares undergraduate students for careers in professional theatre. We are committed to providing students with a solid general theatre foundation which includes courses in acting, dance, design, directing, dramatic literature, history, stagecraft, and theory. In these foundation courses, the fundamental skills and tools are provided which enable students to work in theatre. As a department in the College of Arts and Sciences, we also provide general education courses designed to foster an aesthetic sensibility and appreciation of theatre as an art as well as an understanding of the relationship between the theatre and culture and society in which it is created and performed. We are committed to providing opportunities for students to develop and practice skills learned in the classroom in the laboratory setting of our production program enabling them to develop as performers, directors, technicians, and designers. We prepare students who are effective written, oral, and visual communicators as evidenced in research papers and class assignments, presentations and performances, and set, costume and lighting designs. We are committed to instilling in students a sense of professionalism, discipline, and accountability expected of theatre artists.

Student Learning Outcomes
Students graduating with a major in theatre will be able to:
1. Identify the history and terminology related to theatre performance, design, technology, and dramaturgy;
2. Evaluate appropriate primary and secondary resources and research tools for theatre;
3. Defend the effectiveness and cohesiveness of theatrical performances and designs;
4. Analyze a script for theatrical production;
5. Create performances, designs, and research projects they are able to discuss critically, creatively and objectively;
6. Apply theatre history and terminology to theatre performance, design, technology and dramaturgy;
7. Demonstrate the skills, practice and mindset necessary to thrive as a collaborative theatre professional;
8. Develop and articulate a personal, value-based, artistic vision for performance, design, technology, and dramaturgy;
9. Demonstrate an understanding of the culture and society in which theatre is created and performed;
10. Create performances and designs which enable students to work in theatre. As a department in the College of Arts and Sciences, we also provide general education courses, the fundamental skills and tools are provided which enable students to work in theatre.

Theatre Facilities and Equipment
The theatre program is the primary resident of the Hugo Young Theatre, a 730-seat proscenium house. The Studio Theatre is a 75-seat thrust playing space. Storage facilities adjacent to Hugo Young house stock in costumes, scenery and lighting equipment. A fully equipped scene shop is immediately adjacent to the Hugo Young stage. A costume shop and additional scenery storage are located within a short distance of the scene shop.

Student Honor Society
Alpha Psi Omega, a national honor society in theatre, honors students who have excelled in acting, directing, design, and production. Membership by application and review.

Description of Majors
Theatre majors take foundation courses in all areas including performance, design, and theatre history in an effort to create graduates who are “whole theatre artists.” In addition to the foundation courses, majors select either the Theatre Studies Track or the Musical Theatre Track. Elective courses allow additional focus in design/tech, or acting/directing. All majors are encouraged to develop skills in more than one area and to hone those skills through our production program, the laboratory component of our curriculum, as well as with summer internships at professional theatres. Actors have the opportunity to stitch costumes, hang lights, and paint scenery, while designers may build sets or act. Graduates are prepared for graduate school or professional work in regional theatre.

Degree Requirements
Assessment – Assignments from theatre classes are used to assess Student Learning Outcomes for all theatre majors each year. Theatre majors also participate in Assessment Auditions and Interviews each Spring.

Majors: Theatre majors are required to successfully complete eight (8) semesters of TH 100 Theatre Practicum and six (6) semesters of TH 150 Theatre Production Laboratory.

Minors: Theatre minors are required to successfully complete four (4) semesters of TH 100 Theatre Practicum and three (3) semesters of TH 150 Theatre Production Laboratory.

Graduate School Programs
Master of Business Administration
Dauch College of Business and Economics

Dauch College of Business and Economics
Ashland University offers a Master of Business Administration degree through the Dauch College of Business and Economics. The MBA program, initiated in 1978, is designed to provide mid-level professionals with a top-management perspective on organizational effectiveness by equipping them with the conceptual frameworks necessary to operate a business or business segment. It also helps them to develop their ability to lead people and manage resources by developing key managerial competencies. Finally, it guides students toward more fruitful ways of integrating their individual efforts with those of their colleagues by employing a team-based, integrated, cross-disciplinary approach to understanding organizational management.

Dean
Elad Granot, Dean, Dauch College of Business and Economics; and Professor of Marketing

Associate Dean
Raymond A. Jacobs, Associate Dean; Chair, Master of Business Administration Program; and Professor of Management

Administrators
Stephen W. Krispinsky, Executive Director MBA Program
Katherine M. Rivera, Administrative Assistant

Core Values
Ashland University’s Master of Business Administration program values:
1. Competency-based education
2. Student-centered, experiential learning
3. Systematic stakeholder involvement and outcomes assessment
4. Continual program review and improvement
5. Partnership with current and potential employers
6. Scholarly activities in research, application, integration, teaching, and service

Admission Procedures
Master of Business Administration Program
An applicant possessing a bachelor’s degree from an accredited institution, with a cumulative undergraduate grade point average of at least 2.75 on a 4.00 scale, and a minimum of two years full-time work experience may be accepted for admission to Ashland University’s MBA program on an unconditional basis.

An applicant possessing a bachelor's degree from an accredited institution, with a cumulative undergraduate grade point average of at least 3.0 on a 4.0 scale, and less than two years full-time work experience may also be unconditionally accepted for admission to Ashland University's MBA program.

An applicant without these requirements may be admitted on a conditional basis, depending on his or her situation. Students with a GPA less than 2.25 may be considered for conditional admission after the additional review and approval by the Chair of the MBA program. In such cases, the number of courses taken will be limited to two per semester, and a grade point average of 3.0 must be achieved at the conclusion of 12 semester hours of course work. In the event a minimum cumulative GPA of 3.0 is not achieved after 12 semester hours, the student may be dismissed from the program.

Please see the Graduate Admission Policy earlier in this section of the catalog for more information concerning GPA requirements. If the applicant’s baccalaureate history fails to reflect sufficient course work in business to assure an understanding of the concepts contained in the Phase II courses, the applicant may be admitted, but be required to enroll in MBA Foundations course work.

How to Apply
The following materials must be submitted to finalize the application process:
1. Completed Ashland University Application.
2. Submit a $35 application fee.
3. Submit an updated resume or vitae
4. Submit official academic transcripts(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Accelerated Accounting BS/MBA Program
Highly qualified undergraduate students may be admitted into the MBA program on a provisional basis before completing their undergraduate degree, as part of the accelerated BS/MBA program. To be eligible, students must have senior status at Ashland University with a declared major in Accounting, have completed a minimum of fifteen hours of course work in the Accounting major, and have a cumulative grade point average of at least 3.0 on a 4.0 scale. Provisional admission will allow students to take up to nine credit hours of graduate courses. Upon completion of a total of 120 hours or more in the accelerated BS/MBA program, including at least one internship specific to Accounting, the student can apply to the Graduate School for admission. Students will receive bachelor's and master's degree concurrently at the commencement ceremony. Refer to the undergraduate catalog for more information on this program, including curriculum details.

Student Learning Outcomes
Students graduating with a Master of Business Administration degree will demonstrate competency in several areas found to be important for success in business. These competency areas include leadership, communication skills, problem solving skills, integrity and accountability, specialized knowledge, and international and global perspective.

The assessment of student learning outcomes for all MBA students includes both internal and external assessments in selected courses, culminating in the MBA 517 Strategic Planning and Policy Analysis capstone course.

Specific Student Outcomes include:
- the ability to communicate correctly and purposefully, integrating technology into writing and presentations;
- the ability to identify problems, analyze information, and form conclusions within the business context;
- business knowledge from a variety of sub-disciplines and the ability to apply the knowledge and skills to reach solutions to business needs;
- the ability to inspire a shared vision, foster a realization of that vision, and facilitate a culture to realize goals of the vision;
- an understanding of the ethical behaviors and issues relevant to the business community;
- the ability to apply analytical and quantitative skills appropriate to support business decision making;
- an international and global perspective appropriate to a progressive business community that engages in international business activities.

Program Objectives

1. To provide for the needs of future and practicing executives by offering an education integrating relevant theory with practical application.
2. To offer a curriculum that provides the necessary tools for decision making and problem solving while exposing the student to the functional areas of business that are appropriate in today’s business environment.
3. To meet the needs of diverse groups of students by integrating international students into our American business culture in order to develop a global awareness.
4. To provide fundamental business courses and skills for nonbusiness degree holders and for international students by offering a foundation program to prepare them for graduate studies in business.

Structure

Ashland University offers students the Master of Business Administration course work in four program centers across the state. Classes meet in the evenings, on alternate Saturdays, or in a hybrid online model, and virtual (synchronous online) options are often an alternative to classroom attendance. These options enable students to learn without interrupting their normal working schedules and to choose the format that best fits their individual learning styles. By completing two courses each semester, students may earn their degree after two years of study.

Ashland University also offers a totally online MBA program. Our online courses are designed according to the Quality Matters TM Program standards and delivered via the Blackboard Learn management system (LMS), ensuring high quality.

The MBA program also is offered in an accelerated, 1-year format, with two international study tours. Cohorts for the 1-Year International MBA program typically begin in January and August, although it is possible to join a cohort at other entry points. Contact the MBA office for information on timing, pricing, location, and course options for specific cohorts.

Accreditation of MBA Program

The College of Business and Economics received its initial professional accreditation for its degree programs (BA, BSBA, and MBA) at all sites from the Accreditation Council for Business Schools and Programs (ACBSP) in June 1993. The ACBSP granted the BSBA with a major in accounting, the MBA with a specialization in accounting, and the accelerated BSBA/MBA in accounting specialized accreditation in 2013, the eighth school in the US and the first school in Ohio to be so recognized. These certifications serve to assure the public that the business education at Ashland University meets nationally recognized standards of quality in terms of professors, curriculum, methods of instruction, and financial support.

Degree Completion Timeline

Students must complete all requirements for the Master of Business Administration degree within five years, but this time span does not include Master of Business Administration Foundations course work or Master of Business Administration seminars. This period begins with the date of the earliest Master of Business Administration course and ends with the last hours applied toward the degree. In extraordinary circumstances, a time extension may be granted through approval of the Master of Business Administration executive director. Students must contact the Master of Business Administration executive director to initiate a time extension appeal.

A student’s file will be removed from the active program file if he or she fails to take courses for a period of two semesters. The student will then be required to apply for reactivation of the records. Although the five-year time limit should be observed, no loss of credit results.

Distinguished Graduate Student Awards

Awards are presented at each commencement ceremony honoring those students who, by the determination of their respective program administrators, have exemplified outstanding academic achievement.

Master of Business Administration students who have completed at least one-half of the Master of Business Administration requirements with a GPA of 3.8 or higher are eligible for membership in Delta Mu Delta, an international honor society in business. Candidates must receive faculty approval to be accepted.

Schedule Changes

Registration materials are available to students well in advance of each semester. Course schedules include registration dates and semester meeting dates; tentative offerings for two semesters are also included with each schedule.

All student registration follows the approved drop, add, and withdrawal dates for the courses set by the Office of Records and Registration.

Students wishing to add a course to their registration should immediately contact the MBA Office. If the enrollment in the class has not reached capacity, the course may be added upon the professor’s approval and only if the proper prerequisites are met. A registration form must then be submitted by fax, mail, or online.

Students wishing to drop a course from their registration may be able to accomplish this online via WebAdvisor if done early enough in the semester. Otherwise, students must mail, e-mail (mba@ashland.edu), or fax (419.289.5910) a note to the Master of Business Administration office stating:

1. the course to be dropped(course number, name, and section);
2. a brief but complete reason for withdrawal from the course;
3. future plans, if any, for reenrolling in the same course. Upon receipt of this notification by the Master of Business Administration office and approval of the request by the Director of the MBA program, a registration change will be completed and the course instructor will be notified.

A student who merely stops attending, while failing to officially drop the course, will have the final grade as reported by the instructor entered on the official record.

Transfer of Credits

Ashland University will accept up to 9 hours of graduate transfer credit into the Master of Business Administration Program. Several factors should be noted when transferring credit:
- A student must have earned the credit hours no longer than six years.
years prior to acceptance into the master’s program.

- Credit hours transferred cannot have been used for another degree.
- A student must have earned the credit hours at an accredited institution.
- The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
- Quarter hours transferred into the University will be converted into semester hours.

The student’s academic advisor approves credit transfers. Any exceptions to this policy, which are granted rarely, must be approved by the program’s faculty committee.

To transfer credit, a student should ask the Office of Records and Registration of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits. Transcripts should be sent to:

Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to: enroll-grad@ashland.edu

For prior approval of credit hours to be transferred, the student must submit a letter to the student’s Academic Advisor along with a copy of the other institution’s syllabus for the course. No guarantee exists that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

The maximum number of transfer credits accepted toward degree requirements may be reduced depending upon the number of semester credit hours the student earns in online courses.

Instructional Facilities

Classes are held on the main campus in the Dauch College of Business and Economics and at three off-campus centers:

- Cleveland MBA Center
  6393 Oak Tree Boulevard
  Independence, OH  44131
- Columbus Center
  1900 E. Dublin-Granville Rd.
  Columbus, OH  43229
- Stark County Center
  Stark State College ATC
  6200 Frank Rd. NW
  North Canton, OH  44720
- Medina Center
  Sharon Commons
  2498 Medina Rd.
  Medina, OH  44249

Academic Advisor

The program director will be the student’s adviser throughout the MBA program. However, students may wish to select a graduate faculty member who will assist in defining their personal and professional objectives. The faculty advisors are not necessarily the research advisors if the student decides to pursue an independent research project.

Academic Probation/Dismissal

The academic records for all MBA students are reviewed at the end of each semester. Students whose cumulative grade point averages fall below 3.00 are automatically placed on probation and are subject to dismissal. Student status is determined by the number of hours of MBA course work completed and the cumulative grade point average (GPA), as shown in the following table.

<table>
<thead>
<tr>
<th>Hours of MBA Course Work Completed</th>
<th>GPA Range for Student to Be Placed on Academic Probation</th>
<th>GPA Range for Student to be Dismissed, Eligible for Conditional Reinstatement</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-8</td>
<td>2.00-2.99</td>
<td>&lt;2.00</td>
</tr>
<tr>
<td>9-15</td>
<td>2.33-2.99</td>
<td>&lt;2.33</td>
</tr>
<tr>
<td>15-23</td>
<td>2.67-2.99</td>
<td>&lt;2.67</td>
</tr>
<tr>
<td>24-30</td>
<td>2.91-2.99</td>
<td>&lt;2.91</td>
</tr>
</tbody>
</table>

A student who is placed on academic probation is normally permitted to register for a maximum of six hours per semester until his or her cumulative grade point average reaches 3.00 or higher and he or she is removed from probation. International students must register for six hours. Exceptions to this must be approved by the MBA academic probation committee.

Students who are dismissed from the program should carefully consider their options, as there is no guarantee that they will be able to successfully complete the program, even if permitted to continue. If a dismissed student would like to continue in the MBA program, he or she must make a written request for permission for conditional reinstatement in the program from the MBA academic probation committee. If permitted to continue, the student must retake one or more courses in which he or she received a grade of “C+” or lower. The grade for the repeated course will affect the student’s grade point average as described in the “Course Repeat Policy.” A dismissed and conditionally reinstated student may not take any new courses until the cumulative grade point average has increased to at least the academic probation range.

If the student is placed under academic probation during his or her last semester in the program, the MBA academic probation committee will determine what additional work, if any, must be completed for the student to continue and graduate. This additional work may include a requirement to retake one or more courses in order to increase the student's grade point average.

The Master of Business Administration academic probation committee and Ashland University reserve the right to dismiss any student at any time for good cause. Please refer to the Academic Affairs section of this catalog for information concerning the Student Appeal Policy.

Degree Requirements

Ashland University’s Master of Business Administration degree requires the completion of a minimum of 30 credit hours, excluding Foundation courses that may be required for students without sufficient coursework in business at the undergraduate level.

Phase III: Electives/Specializations 12
(see following sections)

Phase IV: Capstone 3
MBA 517 Strategic Planning and Policy Analysis

Foundations Program
Applicants holding non-business baccalaureate degrees may be required to complete MBA Foundations course work. The MBA Foundations Program offers accelerated, intensified learning of basic business concepts.

The MBA Foundation courses include economics, finance, management, accounting, information technology, marketing, and quantitative and statistical methods. Students earn graduate credit for each MBA Foundation course. However, this credit does not apply toward the 30 semester hours of credit necessary to earn the MBA degree. Performance in these courses is evaluated by a letter grade, and all students enrolled in MBA Foundation courses must meet the academic standards of the MBA program (see “Academic Probation/Dismissal” section of catalog).

MBA Foundation courses may be taken concurrently with MBA core courses as long as the core prerequisites are met. However, students considering this option must obtain approval from the program director. Students taking six hours per semester are considered part-time. Those taking less than six hours per semester are considered full-time students. MBA Foundation courses are offered in many formats and modalities. MBA Foundation courses can be taken fully online, in the face-to-face classroom, a virtual (synchronous online), or hybrid format.

MBA Curriculum
Students must complete a minimum of 30 credit hours above the MBAF 500 level to meet their curriculum requirements. All students also must complete an orientation program, offered in both face-to-face and online formats, ensuring that students are acclimated to the requirements of the program. Five required courses (15 credit hours) make up the Master of Business Administration core, or “Phase II” of the program. These courses are also available in both face-to-face and online formats. A minimum of 12 additional credit hours must be comprised of elective courses, including seminars, special topics/specialization courses, or an independent research project. Complete information and guidelines for these options are found under “Phase III” and “Independent Research Project Option” below. A “Phase IV” capstone course (MBA 517) is also required. Some of our special topics/specialization courses are also available online allowing for a fully online program, if desired.

Master of Business Administration Foundation Courses
Phase I (0-21 Hours)
Applicants holding non-business baccalaureate degrees may be required to complete one or more MBA Foundation courses in order to meet admission requirements.

Course Number and Title
MBAF 500A Business Organization
MBAF 500B Accounting
MBAF 500C Economics
MBAF 500E Marketing
MBAF 500F Finance

Master of Business Administration Core Courses
Phase II: Business Core (15 Hours)
All students must complete MBA 501, MBA 503, MBA 505, MBA 507, and MBA 511. These requirements ensure that all students possess an understanding of the business functional areas.

Course Number and Title
MBA 501 Org, Design, Dev & Change Management
MBA 503 Operations Management
MBA 505 Financial Management
MBA 507 Marketing Management
MBA 511 Managerial Accounting

Master of Business Administration Elective Courses
Phase III: Electives with Optional Specializations (12 Hours)
In addition to the broad coverage provided by the courses in the core, students may select from a wide range of elective offerings. Each student must choose a minimum of 12 hours of elective courses. Elective offerings include MBA Seminars, special topics courses, Specialization courses, and an Independent Research Project. Electives may be taken in any order, once prerequisites have been satisfied.

Course Number and Title
MBA 502 Managerial Economics
MBA 504 Business Statistics
MBA 506 Business & Society
MBA 509 International Business Management
MBA 510 Organizational Behavior
MBA 513 Management Information Systems
MBA 514 Special Topics in Business
MBA 516 MBA Seminars
MBA 530-599 Specialization Courses

Master of Business Administration Specializations
As part of their elective courses, students may select courses from a designated list to earn a specialization in one or more of the following areas: Project Management, Entrepreneurship, Human Resource Management, Finance, Global Management, Supply Chain Management, Management Information Systems, Accounting, Business Analytics, Sport Management, and Health Care Management and Leadership.

Customized Specializations
Because today’s corporate setting is dynamic, a student may also propose a customized specialization consisting of nine hours of related elective course work, including special topics courses. Students proposing a customized specialization must obtain approval from a faulty mentor and the chair of the MBA program.

Summary of MBA Specializations
Business Analytics (12 hours)
MBA 545 Business Intelligence and Data Analytics
MBA 546 Business Analytics 1
MBA 547 Business Analytics 2
MBA 548 Analytical Modeling for Decision-Making

Project Management (Available Online)
MBA 530 Foundations of Project Mgmt.
MBA 531 Increasing Organizational Capacity In Project Mgmt.
MBA 533 Adv. Topics in Communications for Project. Managers

**Entrepreneurship**

Required Course: MBA 540 Entrepreneurship an Intrapreneurship
Choose two from the following:
- MBA 541 Business Info. Systems for the Small Business
- MBA 542 Business Tax Planning
- MBA 543 Entrepreneurial Law
- MBA 544 Small Business Management

Recommended prerequisite:
- MBA 510 Organizational Behavior

Required Course:
Choose two from the following:
- MBA 551 Labor Relations and Collective Bargaining
- MBA 552 Training and Development
- MBA 553 Compensation and Benefits

**Finance (Available Online)**

Recommended prerequisite:
- MBA 505 Financial Management

Required Course:
- MBA 560 Investments
Choose two from the following:
- MBA 561 Emerging Financial Markets
- MBA 562 Global Finance
- MBA 564 MBA Financial Markets Tour

**Global Management**

Recommended prerequisite:
- MBA 509 International Business Management

Required Course:
- MBA 567 Multinational Management
Choose two from the following:
- MBA 561 Emerging Financial Markets
- MBA 562 Global Finance
- MBA 568 International Business Study Tour

**Supply Chain Management (Available Online)**

MBA 570 Supply Chain Management
MBA 571 Logistics and Procurement
MBA 572 Supply Chain Strategy

**Accounting**

Required Undergraduate Course Prerequisites:
Intermediate Accounting I and II, and Cost Accounting
Choose three of the following:
- ACCT 514 Accounting Special Topics
- ACCT 535 Fund and Non-Profit Accounting
- ACCT 538 Advanced Cost Management
- ACCT 540 Advanced Accounting

**Management Information Systems**

MBA 513 Management Information Systems
MBA 535 Systems Analysis and Design
MBA 545 Business Intelligence and Data Analytics

**Sport Management (12 Hours, Available Online)**

SMG 572 Sport Management
SMG 574 Social & Ethical Issues in Sport
SMG 580 Sport Marketing & Promotion
SMG 581 Legal Aspects in Sport Organizations

**Health Care Management and Leadership**

MBA 575 The Health Care Organization
MBA 577 Managing the Health Care Organization
MBA 579 Improving the Health Care Organization

**Master of Business Administration Capstone Course**

**Phase IV: Capstone (3 Hours)**

The capstone course (MBA 517 Strategic Planning and Policy Analysis) must be taken by all students. The capstone course may be taken at any time upon completion of 24 hours of course work in the Business Core (Phase II and Phase III). The Capstone course provides a semester-long integrated experience requiring the student to synthesize the knowledge and skills acquired earlier in the MBA program.

**Master of Business Administration**

Optional Independent Research Project (MBA 601/602)

MBA students have the option of completing an Independent Research Project as part of their Phase III elective course work. Students choosing this option will take MBA 601, or MBA 601 and MBA 602, for up to six semester hours.

**Eligibility**

The Independent Research Project (IRP) is chosen by the candidate and approved by the IRP project review committee with the consent of the primary and secondary faculty advisers who will direct the candidate’s research project. To enroll in MBA 601/602, students must have a 3.50 grade point average when the project application is submitted for approval to the MBA executive director (forms available from the MBA Office). Before beginning work on the project, student must have completed 15 semester hours of core subjects, including MBA 501, MBA 503, MBA 505, MBA 507, and MBA 511.
Proposal Approval

A committee of three MBA professors, comprising the Independent Research Project Committee, will review the project proposal and approve or disapprove it based on relevance to the learning experience of the student. In most cases, the MBA executive director will assign two faculty members as primary and secondary advisers to work with the student throughout completion of the project.

Style and Typing of Project Report

Guidelines given in the standard style manuals (by Turabian or by the American Psychological Association (APA)) should be followed. Students are also responsible for the typing and copying of the research project.

Oral Defense

The project process will culminate with the oral examination of the candidate by a faculty committee. This group consists of the student’s research advisers, the MBA executive director, two readers, and others invited to the oral review.

Registration and Completion

The student should register for MBA 601 in the semester during which he or she expects to begin the project. Failure to complete the assignment for MBA 601 during that term will result in an “IP” (In Progress) grade for the course. This grade will not adversely affect the grade point average of the student for that particular term. However, the required work must be completed within one year of the posting of the IP grade. Completion of the work will result in a change to the earned grade. Failure to complete the work within one year will result in an “F.”

Students are reminded that the MBA project, as part of the MBA curriculum, must be completed within the five-year time limit. Also, completion of the project will rarely take less than a year.

Once the final thesis is completed and changes or corrections made, the MBA program office submits the text for binding. A student should submit at least three copies to be bound for himself or herself, the MBA program office, and the Ashland University Library. The student pays only for his or her personal copies; however, the student's first bound book is available at no charge, and the additional student copies are available at $11.00 each.

Student Honor Society

Master of Business Administration students who have completed at least one-half of the Master of Business Administration requirements with a GPA of 3.8 or higher are eligible for membership in Delta Mu Delta, an international honor society in business. Candidates must receive faculty approval to be accepted.

The Master of Arts in Corporate and Strategic Communication (MACSC) is delivered 100% online in an asynchronous format allowing for flexible schedules. Students can study at their convenience, minimizing the sacrifice of time dedicated to job and family. The program is designed to be completed by working professionals in as little as 18 months. The MACSC will prepare students with theory, data, and skills that will be applicable to a wide range of cultures and people. An understanding of the role of communication within national and global healthcare and the role of communicating risk to affected publics together with the ability to effectively relay information during crises will make students better able to formulate message strategies and campaigns that effectively reach their intended publics in efforts to contain the crises and relay appropriate risk information. This program will provide students with the skills and knowledge to understand, analyze, and respond to some of the most impactful events at local, national, and international levels.

Mission Statement
The Master of Arts in Corporate and Strategic Communication (MACSC) program is dedicated to serving its students through excellent educational experiences leading to professional transformation, intellectual growth, and a culture of life-long learning.

Student Learning Outcomes
1. Clearly describe the growing fields of Corporate, Strategic, and Health Communication.
2. Describe the complexity of human communication as an ongoing transaction between communicators and various audiences in organizational and health based settings through the practice of communication.
3. Explain the power and influence of human communication within business, healthcare, and safety through analysis and development of communicative messages.
4. Demonstrate professional oral communication skills by constructing and delivering persuasive messages to target audiences.
5. Demonstrate professional written communication skills by constructing and delivering persuasive messages to target audiences and through written projects.
6. Adhere to the accepted social, legal, ethical, and justice seeking responsibilities of communication professionals in their evaluated projects.
7. Identify how information is generated, utilized, and transmitted in risk and crisis situations.
8. Apply theory and research to create effective risk and crisis communication plans predicated on evidence-based data and thorough analysis of risk conditions for various organizational structures.

Dean
Dawn Weber, Dean, College of Arts and Sciences

Faculty
Ashland University Graduate Faculty
Dariela Rodriguez, Chair, Associate Professor of Communication Studies

Master of Arts in Corporate and Strategic Communication
Admission Procedures
An applicant possessing a bachelor’s degree from an accredited institution, with a cumulative undergraduate grade point average of at least 2.75 on a 4.00 scale may be accepted for admission to the Master of Arts in Corporate and Strategic Communication on an unconditional basis. Students with a GPA higher than 2.25, but lower than 2.75 are eligible for conditional admission to the Master of Arts in Corporate and Strategic Communication. Students with a GPA less than 2.25 may be considered for conditional admission after submission of all transcripts from all postsecondary institutions, submission of a letter of explanation, and review by the Graduate Program Director.

How to Apply
The following materials must be submitted to finalize the application process:
1. Completed Ashland University Application.
2. Submit a $30 application fee.
3. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Curricular Structure
Each course in the program is offered for three (3) semester credit hours, with the exception of Introduction to Graduate Studies in Communication (one semester credit), Informatics in Corporate and Strategic Communication (one semester credit), and Capstone in Communication Studies (one semester credit). Courses are offered in an online format only. The program is delivered in an asynchronous format.

Each course is 7 weeks in length, with the exception of Introduction to the Graduate Studies in Communication, Health Informatics, and Capstone in Communication Studies courses which are 4 weeks in length.

The degree requires a total of 30 semester credit hours and may be completed in as little as 18 months.
Prerequisites

The prerequisite of COM 510 Introduction to Graduate Studies in Communication will be waived when taken concurrently with COM 520 Research Methods in Communication and/or COM 530 Theories of Communication.

Transfer of Credits

Students in the Master of Arts in Corporate and Strategic Communication are limited to six hours of transfer credit.

6. The course work should have been completed within six years prior to application at Ashland University.
7. Course work must be comparable with the Ashland University program course work. Comparability of transfer credit is determined by the program director.
8. The final grades in the courses to be transferred must be “B” or higher.
9. Transfer credit does not affect the cumulative grade point average established with Ashland University.
10. Quarter hours transferred into the university will be converted to semester hours.

Program Time Limits

The minimum length to complete the Master of Arts in Corporate and Strategic Communication is 18 months. The maximum length to complete the program is five years. Once the maximum allotted time has passed, students must reapply for admission. Any credits earned prior to readmission cannot be used toward the fulfillment of the degree.

Capstone

Students will be required to complete the capstone course to be eligible for graduation from the Master of Arts in Corporate and Strategic Communication program. Students will be required to create an original project that will need to be approved by the instructor and will be guided by the instructor through the capstone completion process. For the capstone project, students will be required to identify an area of corporate, strategic, health and/or risk communication need, identify a communication theory that can be used to research the issues, identify the appropriate method for investigating the needs, and execute the study. Student projects will be a culmination of research, theory, and methods that the student has learned while in the graduate program.

Grade and Course Repeat Policy

Any student receiving a B- or lower grade in a course may choose to retake that course in an attempt to raise their grade point average. Both grades will appear on the student's transcript. However, only the second grade will be used in calculating the GPA.

All students take 18 hours of required courses. They select one of the two tracks (9 hours), and one course (3 hours) form the other track to equal the 30 required hours.

Course of Study

Courses and Descriptions

See Course Descriptions section of catalog.
The Master of Fine Arts degree in Creative Writing is a low-residency program in poetry, creative nonfiction, and fiction, with intensive 14-day summer residencies and course delivery via the Internet during fall and spring semesters.

Mission Statement
The low-residency Ashland University Master of Fine Arts in Creative Writing will enhance talent in the areas of creative nonfiction, fiction, and poetry in order to provide students with the aesthetic tools to embody, in writing, a deep understanding of human experience, both within the context of the personal self and within the broader cultural and spiritual contexts that define the self. The program will also guide student writers as they pursue publication, and potential employment, as active members of the American literary community. Student writers will develop their practical and artistic pursuits through the program’s emphasis on a sustained and committed devotion to writing, through deep and wide reading, through mentorship with established writers who are also devoted teachers, and through participation in workshops, seminars, lectures, and readings, all of which will enhance the students’ shared sense of belonging to a community of writers.

Student Learning Outcomes
1. Student will be able to write and effectively edit poems, creative nonfiction, and/or fiction.
2. Student will be able to engage in critical analysis of contemporary literature in the form of critical essays or book reviews.
3. Student will have compiled a creative thesis in poetry, nonfiction, or fiction.
4. Student will be able to analyze the characteristics of his or her collection of poetry, nonfiction, or fiction and the process by which that collection came into being.

Degree Completion Timeline
The minimum length of time to complete the Master of Fine Arts Program is two years and two weeks. The maximum length of time to complete the Program is four years and six months. Once the maximum allotted time has passed, students must reapply for admission.

Transfer of Credits
No more than nine credit hours of graduate creative writing classes can be transferred into the MFA program.

Academic Policies-Thesis Guidelines
Faculty mentors for English 701 will serve as thesis advisors through to the completion of their advisees’ degrees. Thesis advisors will recommend for a thesis defense only those manuscripts that realize fully or largely the character of a volume informed by unifying aesthetic traits. Each student will define for a Faculty Thesis Committee attributes that contribute toward the integrity of the thesis as a volume of writing.

A thesis will be ready for a defense when it is clearly defined by one or more of the following:

- common controlling ideas or interaction between ideas;
- specific aesthetic effects that provide a sense of balance, order, or unity;
- distinct relationships of one poem to another, one essay to another, one story or narrative segment to another, in the body of the thesis as a whole.

Receiving the S-Satisfactory grade in ENG 701 indicates that the faculty mentor recommends the thesis for defense. Faculty mentors may assign the SR grade to a nearly complete thesis that is of such quality that the student’s advisor expects a passing grade will result after the student completes final revisions. The U grade will be used if the thesis shows little sign of promise, even with the possibility of further revision.
Submitting the Thesis

Within two weeks of the completion of the spring semester, the following material needs to be submitted to the Administrative Director:

- Final draft of thesis, approximately 50-60 pages of poetry or 125 pages or more of prose. Students who complete a semester of cross-genre study may petition to submit a multi-genre manuscript.
- List of 50 texts (most of which are books) that have informed the student’s growth as a writer. List texts alphabetically by author. It is not necessary to include more than title and author. Texts are not limited to assigned readings within the coursework or duration of the program.
- Five-pages (double-spaced) introduction in which the student defines ways a smaller (5-10) select group of texts informed the process of developing the thesis. Each student should think of this essay as the act of defining a literary genealogy, in the form of 5-10 texts, from which the thesis descends. Students should define in this paper specific effects or techniques that they have learned through the experience of reading particular authors and particular texts.

Non-Residential Courses

Non-Residential Courses in the Master of Fine Arts Program are designed as mentorships: students will work individually with one faculty mentor per semester and will work collectively with other students assigned to the same mentor. Throughout each of the four non-residential semesters (English 631, 632, 633, and 701), students will interact with their mentors via e-mail and online forums. Students will work individually with faculty mentors, and collectively with other students, in enhancing their ability to write and effectively edit poems and prose, and in developing the ability to read and write critically in response to canonized and contemporary authors in their chosen genre. Each faculty mentor will work with no more than five students during the four non-residential semesters required by the program.

Summer Residencies

During 14-day summer residencies (English 501, 502, and 503), students will work at Ashland University with Master of Fine Arts faculty and with visiting writers by attending workshops, lectures, seminars, readings, discussion groups, and individual conferences. Students will also attend technical support workshops. During summer residencies, each visiting writer will present one reading and lead one Craft and Publishing Seminar.

Courses and Descriptions

See Course Descriptions section of catalog.
The Master of Arts in American History and Government (MAHG) integrates the study of American history with the study of the philosophy and structure of American government. Designed with the content needs of secondary school social studies teachers in mind, the program is open to teachers, community college faculty, history and civic education curriculum professionals, social studies professional development coordinators, library and museum personnel, and others with a personal, scholarly, or professional interest in American history and government. Each course in the program is built around the reading and discussion of original historical documents. With a combination of summer and online study, motivated students can complete the degree in two years.

Mission Statement

The Master of Arts in American History and Government at Ashland University will provide students with an integrated program built around the reading and discussion of original documents. In doing so, the degree program aims to give students the subject mastery and interpretive skills necessary for further study, research, and scholarship in the fields of American history and government.

Student Learning Outcomes

1. Students will evaluate important original texts and documents in light of their sources, the reasons they were produced, and important historical and political facts relevant to where, when and why they were produced.
2. Students will analyze texts through identification of arguments, assumptions and relevant facts, through appraisal of the validity of inferences and deductions, and through comparison and contrast of arguments in two or more sources.
3. Students will interpret texts by articulating the meaning of the sources in their historical and political context and the effect and importance of the sources in history.

Dean

Dawn Weber, Dean, College of Arts and Sciences

Ashland University Graduate Faculty

John Moser, Co-Chair, Professor of History
Jeffrey Sikkenga, Professor of Political Science

David Foster, Professor of Political Science
Emily Hess, Visiting Assistant Professor of History
Jason Stevens, Visiting Assistant Professor of Political Science

Administrators

Christopher Burkett, Co-Chair
John Moser, Co-Chair
Christian A. Pascarella, Director
David Tucker, Associate Director
Emily Hess, Academic Advisor
Jason Stevens, Academic Advisor
David Foster, Chair, Department of History and Political Science and Thesis/Capstone Coordinator
Carrie Clever, Administrative Coordinator

Admission Procedures

The following are required for admission to the MAHG programs as a degree-seeking student:
1. A completed Ashland University Application for Graduate Admission
2. Official academic transcripts from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded. Additional transcripts may be requested at the discretion of the program chair.
3. A minimum undergraduate grade point average of 2.75 of a 4.00 scale, or a minimum graduate grade point average of 3.00 on a 4.00 scale.
4. A $30 application fee. The application fee is waived for applicants who have previously applied to another master's degree program at Ashland University.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Structure

Each course in the program is offered for two (2) semester credit hours. Courses are offered in two formats: as intensive, residential week-long summer courses during the months of June and July; and, as live online videoconference courses offered on various schedules throughout the academic year.

The degree requires a total of 32 semester credit hours.

Students may choose from either a thesis, capstone project, or a qualifying examination track.

Students may complete the degree in two or three years, depending upon their desired course load and track option. During summer semesters, students may take up to four (4) courses during any one summer. Students should consult with their program advisor to discuss their semester-by-semester load.

The Qualifying Examination, Capstone Project, and the Thesis Tracks

Students may choose the thesis, the capstone project, or the qualifying examination track. Each option serves the same goal: that is, by completing the qualifying examination, capstone project, or thesis a student will demonstrate mastery of the topics taught in the program. In addition to content mastery, students must also display well-developed analytical and interpretive skills in the use of original documents and their relationship to the broader subjects of American history and government.

The student need not choose a track until the semester during which he or she reaches 20 hours in the program. With the permission of the program chair, the student may switch tracks after he or she has made an initial decision.
Qualifying Examination Track

Students who choose this option must earn 12 hours of core course credit and 20 hours of elective credit. At the time the student registers for his or her final semester the student should contact the program director to schedule and prepare for the qualifying examination.

The qualifying examination is composed of essay response questions based upon the core and elective courses taken by the student as part of their curriculum. Students may repeat the examination once. If the student fails to successfully pass the exam after a second attempt, the student may face dismissal from the program.

Capstone Project Track

Students who choose this option must earn 12 hours of core course credit, 16 hours of elective credit, and successfully complete AHG 692.

The capstone project allows a student to demonstrate his or her mastery of subject matter, as well as analytical and interpretive skills in a practical, useful, or creative format of the student's choosing. A capstone project combines different kinds of practical experience (e.g., as a docent or historical reenactor) or other written work (e.g., lesson plans or historical fiction) with analytical and interpretive writing in the form of one or more essays. Capstone projects may include:

- Creation of a selection of materials (e.g. primary documents) to enhance a curriculum, with essays providing justification of the selections and analysis and interpretation to assist in their use.
- Participation in Civil War battle reenactment, with interpretive essays explaining the significance of the battle in the military and political outcome of the Civil War.
- Development of an exhibition at a school, library, or museum, along with analytical and interpretive essays explaining the significance of the exhibition.

Students will work individually with the program’s faculty to plan their capstone project proposal. The capstone project proposal requires the approval of the student’s capstone project committee, which will review proposals to make sure they meet substantive and methodological requirements of a master’s program. Once the proposal is approved by the committee, the student may begin work on the project. Each student will have a capstone advisor, who also heads the capstone project committee, to help him or her complete the capstone project.

Thesis Track

Students who choose this option must earn 12 hours of core course credits, 16 hours of elective credit, and successfully complete AHG 691.

The thesis allows a student to demonstrate his or her mastery of subject matter, as well as analytical and interpretive skills in a traditional written format. A thesis is written work stating a claim or interpretation and supporting it with data and argument. For example, a thesis might claim that a certain type of protestant theology is responsible for political reform movements in the United States and support that claim by examining, in one of a number of different ways, the civil rights movement of the 1960s.

Students will work individually with the program's faculty to plan their thesis proposal. The thesis proposal requires the approval of the student’s thesis committee, which will review proposals to make sure they meet substantive and methodological requirements of a master’s program. Once the proposal is approved by the committee, the student may begin work on the thesis. Each student will have a thesis advisor, who also heads the thesis committee, to help him or her complete the thesis.

Program Time Limits

Students must complete all requirements for the Master of Arts in American History and Government degree within 10 years. This period begins with the date of the earliest course and ends with the last coursework applied toward that degree. In extraordinary circumstances, a time extension may be granted through the approval of the program’s faculty committee.

Course Delivery

Courses are offered as intensive week-long summer courses at the main campus and as live online videoconference courses. On-campus room and board are available for a nominal fee for students attending summer courses.

Degree-seeking students may apply to their degree requirements up to 16 semester credit hours of combined online, transfer credit, and credit earned for AHG 670, AHG 691, or AHG 692. Of those 16 credit hours, no more than 6 may be transferred into the program from other universities.

All degree-seeking students must earn at least 16 hours on campus during the summer semester. There is no limit on the number of hours which may be earned on campus.

Schedule Changes

Registration for all MAHG and MASTAHG students is conducted via WebAdvisor (https://webadvisor.ashland.edu).

Students may add or drop courses at any time prior to the start of the course. After the start of the course, students who wish to drop a course at no academic penalty must do so no later than:

- For summer on-campus courses, students must notify the program office in writing at mahg@ashland.edu or in person no later than 12:30 pm on the second day of the class (Monday).
- For online courses, students must notify the program office in writing at mahg@ashland.edu or in person prior to the start of the second class meeting.

Students who properly notify the program office of a drop within these deadlines will receive a full refund of tuition and a prorated refund for room and board charges (if applicable).

Grade and Course Repeat Policy

No credit toward degree requirements will be awarded for courses in which the student has earned a grade below C+. Any student receiving a B- or lower grade in a course may choose to retake that same course in an attempt to raise their grade point average. Both grades appear on the student’s transcript. However, upon request of the student, only the second grade will be used in calculating the GPA.

Transfer of Credits

Up to six (6) semester credit hours may be transferred from other institutions to satisfy degree requirements in the master’s program. The maximum number of transfer credits accepted toward degree requirements may be reduced depending upon the number of semester credit hours the student earns in online courses.

To transfer credit hours, the following conditions must apply:

- Credit hours transferred cannot have been used for another degree.
- A student must have earned the credit hours no longer than six years prior to acceptance into the master’s program.
- A student must have earned the credit hours at a regionally-accredited institution.
- The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
Quarter hours transferred into the university will be converted into semester hours, and all conversions will be rounded down to the nearest semester hour.

Additionally, coursework transferred must be substantially similar to AHG-prefix courses offered by Ashland. The topics of courses for transfer must be in US history (including state and local history), American government (including state and local government), or US-related political science or politics topics. Non-US history (e.g., European history, world history, etc.), comparative government, or other courses with a focus on other than the aforementioned topics cannot be accepted in transfer. Further, courses for transfer must require readings and written assignments commensurate with a similar course at Ashland. Courses for transfer must also have been graded on an A-to-F scale (or equivalent numerical scale). Courses taken on a Pass/Fail or Satisfactory/Unsatisfactory basis may not be transferred.

All transfer credit will be applied as elective hours regardless of the topic of the transferred course. Transfer credit may not be applied to MAHG core course requirements. Grades from transferred courses are not included in the calculation of the student’s cumulative grade point average.

The student’s academic advisor approves credit transfers. Advisors may request a copy of the course syllabus to verify the course’s required readings and written assignments. To transfer credit, a student should ask the registrar of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits. Transcripts should be sent to:

MAHG Program
Ashbrook Center at Ashland University
401 College Avenue
Ashland, Ohio 44805

Students who plan to take courses elsewhere for transfer after enrollment at Ashland must contact their advisor in writing for approval prior to beginning such coursework. A copy of the course syllabus must accompany the request. No other guarantees exist that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

Any exceptions to this policy, which are granted rarely, must be approved by the program's faculty committee.

### Elective Courses:

All students must earn 20 semester hours of elective credit.

Students on the Thesis or Capstone Project tracks must complete 8 elective courses (16 semester hours), and either AHG 691 or AHG 692 (4 semester hours) Students on the Qualifying Examination track must complete 10 elective courses (20 semester hours) and AHG 693 (0 semester hours).
Master of Arts with a Specialization in
Teaching American History and Government

Department of History and Political Science
The College of Arts and Sciences

A program designed for secondary school teachers of advanced high school classes—including post-secondary enrollment option, dual-credit, dual-enrollment, or other accelerated academic programs—which combines the study of instructional best practices with the intensive study of American history and government.

Mission Statement
The Master of Arts with a Specialization in Teaching American History and Government will provide secondary school teachers with an integrated program combining advanced studies in curriculum and instruction with intensive study of American history and government through the analytical use of original documents. By combining educational methods with advanced content studies, the program will give teachers the content field and pedagogical expertise necessary to improve their effectiveness as teachers of college-level skills in the secondary school classroom.

Student Learning Outcomes
1. Students will evaluate important original texts and documents in light of their sources, the reasons they were produced, and important historical and political facts relevant to where, when and why they were produced.
2. Students will analyze texts through identification of arguments, assumptions and relevant facts, through appraisal of the validity of inferences and deductions, and through comparison and contrast of arguments in two or more sources.
3. Students will interpret texts by articulating the meaning of the sources in their historical and political context and the effect and importance of the sources in history.

Jason Stevens, Visiting Assistant Professor of Political Science

Admission Procedures
The following are required for admission to the MASTAHG programs as a degree-seeking student:
1. A completed Ashland University Application for Graduate Admission
2. Official academic transcripts from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded. Additional transcripts may be requested at the discretion of the program chair.
3. A minimum undergraduate grade point average of 2.75 of a 4.00 scale, or a minimum graduate grade point average of 3.00 on a 4.00 scale.
4. A $30 application fee. The application fee is waived for applicants who have previously applied to another master's degree program at Ashland University.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805
Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Structure
The Master of Arts with a Specialization in Teaching American History and Government, (MASTAHG), combines study in educational methodology, offered as a series of three-semester hour courses available at the Ashland University Main Campus, at the university's regional centers in Cleveland, Columbus, Elyria, and Massillon, Ohio, or online, with a series of two-semester hour history and political science courses offered as week-long, intensive seminars during the summer semester at the main campus or online throughout the academic year. Student may complete the degree in two to three years, depending upon their desired course load. Students should consult with their program advisor to discuss their semester-by-semester load. Students may take up to ten years to complete the degree.

Program Time Limits
Students must complete all requirements for the Master of Arts with a Specialization in Teaching American History and Government degree within 10 years. This period begins with the date of the earliest course and ends with the last coursework applied toward that degree. In extraordinary circumstances, a time extension may be granted through the approval of the program's faculty committee.

Course Delivery
No more than 9 semester credit hours may be transferred into the program from other universities.

Education courses, those with EDxx prefix, may be taken at the main campus, at a regional center, or online. AHG prefix courses are offered as intensive week-long summer courses at the main campus and as live online videoconference courses. On-campus room and board are available for a nominal fee for students attending summer courses.

Schedule Changes
Registration for all MAHG and MASTAHG students is conducted via WebAdvisor (https://webadvisor.ashland.edu).

Students may add or drop courses at any time prior to the start of the course. After the start of the course, students who wish to drop a course at no academic penalty must do so no later than:
- For summer on-campus courses, with an AHG prefix, students must notify the program office in writing at mahg@ashland.edu or in person no later than 12:30 pm on the second day of the class (Monday).

- For online courses, with an AHG prefix, students must notify the program office in writing at mahg@ashland.edu or in person prior to the start of the second class meeting.

Grade and Course Repeat Policy

No credit toward degree requirements will be awarded for courses in which the student has earned a grade below C+.

Any student receiving a B- or lower grade in a course may choose to retake that same course in an attempt to raise their grade point average. Both grades appear on the student's transcript. However, upon request of the student, only the second grade will be used in calculating the GPA.

Transfer of Credits

Up to nine (9) semester credit hours may be transferred from other institutions to satisfy degree requirements in the master’s program. To transfer credit hours, the following conditions must apply:

- Credit hours transferred cannot have been used for another degree.
- A student must have earned the credit hours no longer than six years prior to acceptance into the master’s program.
- A student must have earned the credit hours at a regionally-accredited institution.
- The credit hours must be graduate-level credit hours from a course in which the student received at least a B.
- Quarter hours transferred into the university will be converted into semester hours, and all conversions will be rounded down to the nearest semester hour.

Additionally, coursework transferred must be substantially similar to courses offered by Ashland. To be applicable to AHG core and elective requirements, the topics of courses for transfer must be in US history (including state and local history), American government (including state and local government), or US-related political science or politics topics. Non-US history (e.g. European history, world history, etc.), comparative government, or other courses with a focus on other than the aforementioned topics cannot be accepted in transfer. Further, courses for transfer must require readings and written assignments commensurate with a similar course at Ashland. Courses for transfer must also have been graded on an A-to-F scale (or equivalent numerical scale). Courses taken on a Pass/Fail or Satisfactory/Unsatisfactory basis may not be transferred.

All history, political science, or government transfer credit will be applied as elective hours regardless of the topic of the transferred course. Transfer credit may not be applied to AHG-prefix core course requirements. Grades from transferred courses are not included in the calculation of the student’s cumulative grade point average.

The student’s academic advisor approves credit transfers. Advisors may request a copy of the course syllabus to verify the course’s required readings and written assignments. To transfer credit, a student should ask the registrar of the institution where the credit was earned to send an official, sealed copy of his or her transcript to Ashland University. The transcript should make clear that the credit hours are graduate credits. Transcripts should be sent to:

MASTAHG Program
Ashbrook Center at Ashland University
401 College Avenue
Ashland, Ohio 44805

Students who plan to take courses elsewhere for transfer after enrollment at Ashland must contact their advisor in writing for approval prior to beginning such coursework. A copy of the course syllabus must accompany the request. No other guarantees exist that credit hours will be transferable. Prior assurances given verbally by faculty or staff at Ashland University must be regarded as estimates or opinions; they do not commit the University to a course of action.

Any exceptions to this policy, which are granted rarely, must be approved by the program’s faculty committee.

Qualifying Exam

The qualifying examination is composed of essay response questions based upon the American history and government core and elective courses taken by the student as part of their curriculum. Students may repeat the examination once. If the student fails to successfully pass the exam after a second attempt, the student may face dismissal from the program.

At the time the student registers for his or her final semester, the student should contact the program director to schedule and prepare for the qualifying examination.

Course of Study

A total of 36 semester hours of credit are required for the degree.

Online Master of Science in
Applied Exercise Science
College of Nursing and Health Sciences

Program Director
Randall Gearhart, Ph.D., CSCS, FACSM

Admission Requirements
An applicant possessing a bachelor’s degree from an accredited institution, with a cumulative undergraduate grade point average of at least 2.75 on a 4.00 scale may be accepted for admission to the Master of Science Applied Exercise Science program on an unconditional basis.

How to Apply
The following materials must be submitted to finalize the application process:
1. Completed Ashland University Application
2. Submit a $30 application fee
3. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.
4. Cumulative GPA of 2.75 or above

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805

Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Master of Science with a Specialization in
Applied Exercise Science

The Master of Science with a Specialization in Applied Exercise Science prepares students for professional practice in the health sciences. The program emphasizes the Strength and Conditioning areas of fitness. Teaching is based on the scientific and physiological basis for sport and exercise, fitness assessment and exercise prescription, and principles of strength and conditioning. Students are encouraged to complete the program within 5 years of their start date to assure that content knowledge is relevant when they enter practice. Upon completion of the program, students will be prepared to attain National Strength and Conditioning Specialist or American College of Sports Medicine Certified Health Physiologist certification.

The Master of Science with a Specialization in Applied Exercise Science consists of 33 credit hours and two years of part-time study. The hybrid delivery format of the program allows for flexibility while offering coursework in state-of-the-art classrooms and labs. Three options exist for the capstone experience: successful completion of a Thesis, an Internship, or a Practicum. Off-site components to the program will be primarily dependent on the capstone option selected.

Online Doctor of Nursing Practice

College of Nursing and Health Sciences

Dean
Faye Grund, PhD, APRN

Doctor of Nursing Practice
Program Director
Lisa Young, DNP, APRN, CNS

FNP Specialization Director
Julie Lehrer, MSN, APRN, FNP

Doctor of Nursing Practice Program

The Doctor of Nursing Practice Program (DNP) is a practice-focused degree that prepares nurses to function at the highest level of practice in the current health care environment based on a strong scientific foundation for practice. Emphasis is on evidence-based practice, leadership, cultural competence, organizational analysis, and policy.

The DNP program offers 2 tracks of study: Family Nurse Practitioner (FNP) and Health Systems Leadership (HSL).

Admission Requirements

- Bachelor of Science or Master of Science in Nursing Degree Minimum 3.0 GPA
- One year of clinical practice experience
- Three Letters of Recommendation
- Two to three page essay describing a potential clinical area of interest for DNP Project
- Undergraduate or graduate level statistics course
- Interview

BS/BSN-DNP

Applicants possessing a Bachelor of Science in nursing from an accredited institution, with a cumulative undergraduate grade point average of at least 3.0 on a 4.00 scale, currently practicing as an RN with at least one year of clinical experience, and a successful interview will be eligible for admission to the DNP program.

MS/MSN-DNP

Applicants possessing a Master of Science in nursing from an accredited institution, with a cumulative graduate grade point average of at least 3.0 on a 4.00 scale, current Certificate of Authority, with at least one year of experience as an Advanced Practice Nurse, and a successful interview will be eligible for admission to the DNP program.

How to Apply

The following materials must be submitted to finalize the application process:

1. Completed Ashland University Application
2. Submit a $30 application fee
3. Submit a copy of your resume or vitae
4. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.
5. Three letters of recommendation; two academic and one professional.
6. Submit a copy of your RN Licensure

7. If you are pursuing the MS/MSN to DNP submit your Certificate of Authority for advanced practice
8. Submit a 2-3 page paper on why you are pursuing the DNP degree and discussing a potential clinical area of interest for the DNP Project.

Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805
Official Electronic transcripts should be submitted to:
enroll-grad@ashland.edu

Curriculum Transition for DNP Program

Note that in this transitional year, as the DNP program transitions to 7 week online courses, some curriculum requirements will change. These changes will be under review by the overseeing committees during the 2016-2017 academic year. Once approved, next year’s catalog will list this revised curriculum in full. The changes involve increasing the number of credit hours required to complete the program.

The online format of the program allows for flexibility, although each cohort will be required to participate in residency requirements throughout the program. The DNP Project is an integral part of the total program of study as well as the culminating activity. The project represents an original application of knowledge in the area of student specialization. The target benefits of the intervention or innovation designed by the student would be beyond the individual patient or family and focus more on institutions, patient populations, or communities.

DNP Family Nurse Practitioner Program Student Learning Outcomes

Upon completion of the FNP graduate program, the student will be able to:

1. Implement nursing practice, including innovative approaches, based on scientific knowledge.
2. Evaluate health care policy and systems.
3. Plan for patient and family needs, anticipating their changing requirements, and ensuring patient comfort and safety in planning care.
4. Engage in interprofessional collaboration to meet the health needs of client systems in varied health care delivery systems.
5. Enhance the culture of safety in health systems through the application of information technologies.
6. Generate nursing practice knowledge to stimulate research and improve clinical outcomes.
7. Demonstrate professional values and ethical behavior in the advanced practice nursing role.
8. Assume specialized roles in advanced clinical practice.
9. Design culturally competent health services for vulnerable populations.
DNP Health Systems Leadership Program Student Learning Outcomes

Upon completion of the HSL graduate program, the student will be able to:

1. Implement best practice to improve health care and health systems using analytical methods.
2. Assume leadership positions at the systems level, integrating nursing science with organizational leadership and ethics.
3. Design, implement and evaluate quality improvement projects in health care systems to promote safe, effective and efficient patient centered care.
4. Evaluate health care policy and systems that provide care for individuals, communities and populations.
5. Engage in interprofessional collaboration to promote health, reduce risk and improve outcomes in varied health care delivery systems.
6. Enhance the culture of safety in health systems through the application of information technologies.
7. Use nursing knowledge to stimulate research, affect health policy and improve patient outcomes locally, nationally, and globally.
8. Demonstrate professional values and ethical behavior in nursing leadership.
9. Design culturally competent equitable health services for vulnerable populations.

Program Progression/Completion

A student is required to satisfy the DNP degree requirements within 5 years for full-time enrollment and 6 years for part-time enrollment from the semester in which the student completes the first course for the degree. All students are expected to follow the approved program plan. Students are required to be continuously registered for credit each semester from admission through graduation. If a student is unable to register for a class for a semester, an official leave of absence must be requested and approved by the DNP Program Director in order to maintain a place in the program.

Transfer of Credits

A maximum of nine (9) graduate level credits from an accredited college or university may be transferred toward completion of the requirements for the Doctor of Nursing Practice (DNP) degree. Official transcripts certifying graduate level courses completed at another institution prior to admission to Ashland University should be submitted at the time of application and will be evaluated by the DNP program director for acceptability as transfer credit.

Transfer credit will only be accepted for courses in which a grade of B (3.0 on 4.0 scale) or higher has been received. Courses taken over 5 years (over 2 years for APN core courses) prior to admission may not be accepted. All FNP Core courses must be taken at Ashland University.

The student is responsible for initiating the request for transfer credit. For each course for which the student requests transfer credit, the student must:

6. Complete a Request for transfer credit form as part of the DNP Admissions application identifying the institution attended, course title, semester and year completed, and the number of credits for which transfer is requested.
7. Attach a copy of the transcript, which includes the grade received for the requested transfer credits, and a detailed course description/outline.
8. Submit these materials to office of Graduate Admissions with the application. The request will be forwarded to the DNP Program Director.
9. Approval/disapproval of accepted transfer credits will be included in the admission letter to the applicant.
10. Approved transfer credits will be forwarded to Administrative Assistant for Graduate Programs for inclusion in the student file and processing with the Office of Records and Registration.

Online School Nursing Program
College of Nursing and Health Sciences

Program Director
Kimberly Stanislo, MSN, APRN, LSN, CPNP

School Nurse Certificate Program

The program curriculum is developed in accordance with the mission, goals, and expected student outcomes. The completion of the program requirements meets the ODE requirement to apply for the Professional Pupil Services License as a School Nurse. Following successful approval by ODE, the student may then attain the title of School Nurse (LSN).

The School Nurse Certificate was developed in alignment with the Ashland University mission, the purpose of the Ashland University Graduate School, the Ohio Department of Higher Education standards for school nurse preparation, and the National Association of School Nurse Standards of Practice.

Admission to the program is on a rolling basis. Students may apply and begin coursework during any semester. The flexible curriculum allows for students to complete the program on his/her own time schedule. Most students complete the program in 12-15 months (3-5 semesters). A curriculum guide will be completed for each student based upon the needs and timeframe that best fits the student’s schedule.

Admission Requirements
A registered nurse (RN) holding a bachelor’s degree from an accredited institution, with a cumulative undergraduate grade point average of at least 3.00 on a 4.00 scale may be accepted for admission to the School Nursing Program.

How to Apply
Applications can be submitted online at https://www.ashland.edu/admissions/apply-now.
1. Completed Ashland University Application
2. Submit a $30 application fee
3. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.
4. Cumulative GPA of 3.00 or above
5. Submit a copy of active RN Licensure

Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805
Official Electronic transcripts should be submitted to: school-nurse@ashland.edu.

Degree Completion Timelines
The student must complete all requirements for the School Nursing Program (SNP) within five years. The time limit normally is from the beginning date of the formal admission to the SNP to the last hours applied toward the program. Special consideration will be given for leaves of absence for adequate cause. The student who fails to take courses or otherwise continue to pursue the program for a period of three consecutive semesters will be terminated from the program’s active file and will be required to reapply for reactivation of his or her records. There is no loss of credit, though the five-year limit will be observed. The School Nursing Program Director will reevaluate the student's courses and recommend any course work for audit.

SNP 520 Educational Strategies for Healthcare Providers

School Nurse Certificate Program Student Learning Outcomes
Upon completion of the SN program, the student will be able to:
1. Utilize the nursing process to deliver age appropriate and culturally competent care in the school setting.
2. Demonstrate safe nursing practices in communication and information management.
3. Utilize professional behavior skills to provide leadership in the practice of school nursing.
4. Integrate evidence and research nursing to contribute to quality school nursing practice.
5. Evaluate his/her own nursing practice in relation to professional practice standards and guidelines of School Nursing.
6. Promote a healthy, safe, collaborative practice environment.

Online Nurse Educator Certificate
College of Nursing and Health Sciences

Program Director
Kimberly Stanislo, MSN, APRN, LSN, CPNP

Nurse Educator Certificate Program
This certificate prepares students for the roles and responsibilities of nurse educators in any setting that provides healthcare. Course content will provide the scope of practice for nurse educators specific to the academic environment that includes alignment of academic philosophy and mission, policies, quality improvement, curriculum development and implementation, learning theories, evidence based teaching/learning strategies and assessments to meet learner outcomes. A 48 hour practicum with a highly qualified nursing education faculty member is included in the Post Master's-Nurse Educator Certificate Program. Students who complete the Nurse Educator Certificate Program may apply for the Certified Nurse Educator™ examination through the National League for Nursing.

Admission Requirements
A registered nurse (RN) holding a valid Ohio RN license and currently enrolled in or completed a MS in Nursing program.

How to Apply
Applications can be submitted online at https://www.ashland.edu/admissions/apply-now.
1. Completed Ashland University Application
2. Submit a $30 application fee
3. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.

Nurse Educator Certificate Program Student Learning Outcomes
Upon completion of the SN program, the student will be able to:
1. Exhibit professional, ethical behaviors in the multidimensional role of Nurse Educator.
2. Facilitate learning using teaching strategies grounded in educational theory and evidenced-based teaching practices based upon the unique learning needs of all learners.
3. Engage learners, faculty colleagues, and clinical agency stakeholders in promoting safe, positive learning environments.
4. Implement a variety of evidence-based assessment and evaluation strategies to enhance the teaching-learning process.
5. Collaborate with colleagues to revise or create curriculum based on research, health care trends, learner needs, and program outcomes.
6. Provide leadership for organizational change in the various learning environments of the academic or practice community.
7. Participate in continuous quality improvement measures in teaching and learning.
8. Disseminate nursing and teaching knowledge to a wide-range of audiences through a variety of venues.
9. Advocate for nursing, nursing education, and learners through political and institutional learning environments.

Courses and Descriptions
See Course Descriptions section of catalog.
Ashland University offers a variety of graduate education programs at its regional centers located in Ashland, Columbus, Massillon, Elyria, and Cleveland. These programs include the Master of Education (M.Ed.), Bachelor’s Plus licensure, and other licensure and endorsement programs.

Not all centers include all of the above programs. Contact the graduate advising office for information regarding a specific program. Note that the Ed.D. program is offered only at the Ashland Center. The Columbus Center will also offer the Ed.D program starting in the Fall of 2018. (see Ed.D. section for details regarding this program).

All courses are taught within the parameters of master syllabi, which have been developed, reviewed, and approved by the faculty and Graduate Council prior to adoption. Convenience, personalized attention, and quality programs contribute to the attractiveness of Ashland University programs at all five regional centers.

See additional information at www.ashland.edu/coe/graduate.

Graduate Education Program Objectives

The graduate programs offered by the Dwight Schar College of Education are designed to provide functionally integrated academic, experimental, and field-based study necessary to the personal and professional growth of educators. Toward this end the M.Ed. And licensure programs each include three distinct components: (1) a common core of studies focusing on the foundations of education, (2) professional studies emphasizing the integration and application of functional knowledge, and (3) a field practicum or alternate options designed to deepen the student’s understanding of self through problem-solving and decision-making techniques.

Graduate education programs are developed on the premise that improvement requires change and that effective programs must be responsive to the needs of the educational community.

The programs are based on foundations of education, current research, effective practice, and dynamic collaborative relationships among educators at all levels. The program is implemented through diverse classroom, field, and clinical experiences. The faculty believe that a professional educator is a reflective practitioner who merges theory and practice. A major objective of the programs is to develop individual skills for solving particular educational problems, whether in teaching, supervision, or administration, while keeping such solutions in balance with institutional, community, or school system needs and expectations. A second objective is the acquisition of sound principles and techniques essential to working effectively in a wide range of instructional or organizational settings. A basic assumption of all graduate programs is that educational policies and procedures are constantly changing, and that the practices of tomorrow may have little similarity to current models. Thus, Ashland University’s programs emphasize the development of the individual’s professional capacity as a self-perpetuating facet of present and future personal development.

History

Ashland University’s Graduate Programs in Education were established in response to needs expressed by teachers and administrators of the area. Feasibility studies conducted by (at the time) Ashland College’s Department of Education, as well as other institutions, provided quantitative data supporting the need to develop a master’s degree program that could reasonably be facilitated within existing institutional guidelines.

In August of 1975, the Master of Education degree (M.Ed.) with major program areas in curriculum and instruction, supervision and reading supervision, was approved by the Ashland College Board of Trustees. Initial approval by the Ohio Department of Higher Education (formerly known as the Ohio Board of Regents) was given on October 17, 1975. The Ohio Board of Education provided its initial approval on January 12, 1976.

Subsequent visitations and approvals have occurred by both the Ohio Department of Higher Education (formerly known as the Ohio Board of Regents) and the North Central Association of Colleges and Schools. Program support and planning assistance is also received from non-institutional personnel and agencies through advisory committee memberships. In all, the breadth of the College’s programs now encompass a doctoral degree, three M.Ed. major programs, and numerous licences and endorsements, including the Bachelor’s Plus post-baccalaureate initial teacher licence program.

Admission Procedures

Master of Education Program from the Bachelor’s Plus Program

Bachelor's Plus students interested in the Master of Education Degree Program should contact the graduate advising office to schedule an appointment during the latter part of their licensure program. A student cannot be formally admitted to the master’s program until he or she has completed his or her licensure program, nor can any courses count as master's credit until the student is officially admitted into master's program. Some graduate courses may count as credit toward a Master of Education Degree.

Master of Education, Licensure, and Endorsement Programs

An applicant possessing a bachelor's degree from an accredited institution, with a cumulative undergraduate grade point average of at least 2.75 on a 4.00 scale may be accepted for admission to the College of Education, Certificate, Licensure, or Endorsement programs on an unconditional basis. Students with a GPA higher than 2.25, but lower than 2.75 are eligible for conditional admission to the College of Education, Certificate, Licensure, or Endorsement programs. Students with a GPA less than 2.25 may be considered for conditional admission after submission of all transcripts from all postsecondary institutions, submission of a letter of explanation, and review by the Dean of the College of Education.

How to Apply

The following materials must be submitted to finalize the application process:
1. Completed Ashland University Application.
2. Submit a $30 application fee.
3. Submit official academic transcript(s) from accredited institutions of higher education documenting all undergraduate and graduate degrees awarded.
4. Cumulative GPA of 2.75 or above.
Transcripts, application fees paid by check or money order, or other correspondence should be mailed to:
Office of Records and Registration
Ashland University
401 College Avenue
Ashland, OH 44805
Official Electronic transcripts should be submitted to: enroll-grad@ashland.edu

Transfer Credit
The policy of the Dwight Schar College of Education specifies that graduate students may take courses for personal or professional development offered or sponsored by another institution. Course credit may be transferred providing:
5. The course(s) is given or offered by an accredited college or university. Documentation is required for all courses if acceptance of them for degree credit is requested. Minimally, the course must be listed and described in this catalog or other official publication of the institution. The content of the course must satisfy a requirement in a degree program at the offering institution and be able to satisfy a degree requirement at Ashland University.
6. For prior approval of credit to be transferred, the student must have the transfer approved by the dean of the Dwight Schar College of Education. Prior assurances given verbally by faculty members or staff at Ashland must be regarded as estimates or opinions. They do not commit the University to a course of action. Transfer credits that have not been approved in advance will be considered at the discretion of the resident program director and/or a dean of the Dwight Schar College of Education using the guidelines for accepting any previously completed and acceptable graduate credits. Transfer credit is not considered official until it has been approved by both the dean and Office of Records and Registration. Students are responsible for providing appropriate transcripts in a timely manner and confirming the transfer of credit with their respective resident program directors.
7. Written requests for acceptance of special courses, i.e., “tour” or “travel” type courses, must be fully documented so that their academic integrity can be judged. Promotional literature from a tour or travel agency or institutional sponsor is not considered appropriate documentation. Many accredited colleges or universities offer such courses for personal and professional development that can carry graduate credit but are not applicable to their degree programs.
8. Twelve (12) semester credits may be transferred from other institutions under the following conditions:
   a. The student is in good standing at the other institution;
   b. The grades in graduate courses to be transferred are “B” or better or an “S.”
   c. Course work accepted must be no older than five years from the date of admission into the M.Ed.;
   d. The student has been admitted to a Master of Education degree program;
   e. Exceptions to the above must be approved by the dean of the Dwight Schar College of Education;
   f. Quarter hours transferred into the University will be converted into semester hours.

Workshop Credit
In order to meet one semester hour of credit, the workshop must have required the equivalent of 15 class hours for participation, the content must have been of appropriate magnitude, the student must have met successfully all workshop requirements, and it must be recorded as graduate credit on a transcript from a regionally accredited program. The three programs, which allow workshops to count toward elective credits, are (a) Curriculum and Instruction: Teaching and Learning in the 21st Century, six hours (b) Curriculum and Instruction: Literacy, three hours: (c) Curriculum and Instruction: Talent Development, three hours. The dean of the Dwight Schar college of Education must approve workshop credits. For information regarding Ashland University’s Professional Development Service’s workshops, refer to the Founders School.

Degree Completion Time Limits
The student must complete all requirements for the Master of Education Degree within five years. The time limit normally is from the beginning date of the formal admission to the Master of Education Program to the last hours applied toward the degree. Special consideration will be given for leaves of absence for adequate cause. The student who fails to take courses or otherwise continue to pursue the degree for a period of two years will be terminated from the program’s active file and will be required to reapply for reactivation of his or her records. There is no loss of credit, though the five-year time limit will be observed. The resident program director will reevaluate the student’s courses and recommend any course work for audit.

Special consideration will be given for leaves of absence for adequate cause. The student who fails to take courses or otherwise continue to pursue the degree for a period of two years will be terminated from the program’s active file and will be required to reapply for reactivation of his or her records. There is no loss of credit, though the five-year time limit will be observed. The resident program director will reevaluate the student’s courses and recommend any course work for audit.

Curricula
The Master of Education degree makes extensive use of integrated theoretical and field-related experiences in the major program areas of curriculum and instruction and educational administration. This approach helps the classroom teacher incorporate the works of knowledgeable practitioners and theoreticians into already existing classroom structures and instructional practices. All programs require successful completion of 12 semester hour credits of basic core (Core) subjects, American Psychological Association (APA) seminar, and an appropriate culminating experience (see Options for Capstone Experience).

Graduate classes are scheduled for evening hours during the fall and spring semesters. Some classes may be available in a combination of Friday/Saturday sessions. Summer classes normally meet during morning and/or early afternoon hours. Schedules are posted on the Ashland University web site.

Advanced Field Practicum
All advanced programs that lead candidates to work in pre-kindergarten through grade 12 educational setting require a field practicum. The practicum may be completed through a specific field practicum (for example, EDUC 710 or EDIS 710), internship (EDLS 721, EDLS 722, and 2 hours program-specific internship), or integrated into a professional course. See each program description for specific information.
Capstone Experiences

Students in M.Ed. Programs may have up to four options in which to complete their degree.

**Option 1:** A practicum project with a written report that is based on systematic inquiry demonstrated through action research.
These include:
- EDUC 738 Practicum in Curriculum and Instruction

Prerequisites: Students should have completed the Core requirements and total of approximately 21 semester hours in order to begin the capstone.

The practicum is a fully documented and procedurally defensible report of a specially formulated field practicum experience. The topic of this practicum paper should arise through personal exploration and application of major and elective course work and field experiences. The topic must be approved by the practicum advisor.

The original and appropriate copies of practicum reports, with grades, must be submitted prior to the time the degree is granted. The original will be retained for the archives, and one copy will be bound for general reference purposes. A bindery fee is paid by the graduate student for the Ashland University Library’s circulation copy and any bound copies wanted by the student.

**Option 2:** The inquiry seminar provides opportunities for students to collaborate and explore an area of interest identified by the professor. The choices for this option include:
- EDUC 728 Inquiry Seminar
- EDUC 788 Capstone Inquiry Seminar
- EDIS 788 Capstone Inquiry Seminar: Talent Development
- EDLS 701, 702, 703 Capstone Inquiry Seminar: Educational Leadership

Prerequisites: students should have completed the Core requirements and a total of approximately 24 semester hours in order to begin the capstone.

The inquiry seminar is a capstone experience conducted by full-time faculty. The class is limited to 15 students and may exceed one semester. The course has a broad theme (for like-minded students to enroll); the students will normally research more specific topics within the theme. Themes might include such topics as finance, curriculum, school improvement, etc. Requirements for the seminar include readings, focused discussions, a major paper following APA style, and a public presentation. Students must apply in advance to the professor in charge. The professor determines who is included in the seminar.

**Option 3:** An internship provides students with supervised field-based experiences that enable them to apply information learned through their respective programs.
- EDUC 747 Master of Education Internship Capstone
- EDFN 747 Teacher Internship Capstone

Prerequisites: Students should have completed Core requirements and a total of approximately 21 semester hours in order to begin the capstone.

The internship is a culminating field experience, taught and supervised by full-time faculty. Its focus is in two parts: (1) A seminar in preparation for experience with the outcome a written proposal stating professional development needs, goals set, review of related literature, techniques and procedures to be used; and (2) the internship, which involves the implementation of the proposal in a field-experience setting. The students are placed with practicing educators and are supervised by full-time faculty. The internship students will also document their experience through the preparation of a portfolio, which includes a written paper and evaluations from practicing educators and university faculty. The portfolio may also include field notes, journals, videotapes, audiotapes, etc.

**Option 4:** The thesis, a scholarly paper prepared on a topic that embodies research of a specific nature, enables students to explore a topic of interest.
- EDUC 791 Thesis
- EDUC 781 Thesis Capstone in Education
- EDIS 781 Thesis Capstone in Talent Dev. Education

Prerequisites: Students should have completed the Core requirements and a total of approximately 21-24 semester hours in order to begin the capstone.

The thesis is a capstone experience that focuses on a topic related to the student's field. In EDUC 781, the research may be the result of a field-based action experience pertaining to a school-based improvement project.

The student must submit and defend a proposal acceptable to a committee. Upon proposal acceptance, the student develops and defends the thesis around extensive and thorough research.

**Academic Policies and Regulations**

Although most major program areas follow an orderly development, the student should understand that some modifications may become necessary because of state, institutional, or student expectations.

**M.Ed. Core Course, by Standard 2017-2018**

A common CORE of knowledge is needed by all who seek the Master of Education degree. To fulfill this objective one course within each of the following four standards is required of all students whose major program area is in pre-K-12 education. NOTE: No “CORE” course may be taken by conference.

**Core Courses:**

**Curriculum Foundations Standard**
- EDFN 521: The Theory and Practice of Curriculum Development
- EDCI 522: Teaching and Learning in the 21st Century Classroom
- EDCI 523: Reading and Literacy Curriculum
- EDFN 524 Democracy in Education

**Social and Historical Foundations Standard**
- EDFN 503: School and Society
- EDFN 645: Educational Psychology and Human Development
- EDIS 579: Special Education Laws, Policies, and Procedures
- EDAD 683: Educational Leadership

**Inquiry Standard**
- EDFN 504: Action Research for Educational Improvement
- EDFN 505: Introduction to Applied Educational Research
- EDFN 506: Qualitative Research
- EDFN 507: Understanding Statistical Research for Classroom Professionals

**Diversity Standard**
- EDFN 502: Critical Dialogues in the Teaching and Learning Professions
- EDFN 510: The World in Your Classroom: Multicultural and Global Education
- EDCI 533: Culturally and Linguistically Diverse Learners: Social, Historical, and Legal Issues Related to the Education of English Language Learners
- EDIS 550: Social and Educational Perspectives of Disability

**ALSO:**
- EDFN 501: APA Seminar
M.Ed. Curriculum and Instruction: Teaching and Learning in the 21st Century (TL-21)

Teaching and Learning for the 21st Century (TL-21) is a graduate degree program designed to allow professional educators to tailor their graduate program to prepare them for the classroom of today and tomorrow. The goals of the program are to prepare the candidate to function effectively in today’s flexible educational setting. The program provides flexibility by allowing candidates to create content to meet their specific professional growth goals. Candidates can add certificates, endorsements or a selected program consisting of approved graduate courses and workshops.

Note: The TL-21 program requires up to 12 hours of elective courses that will be reviewed by the department and focuses on a specific area of study that may be a concentration, approved endorsement, or a cognate designed to meet a candidate’s professional goals. With prior approval by a program advisor, up to 6 hours of workshops, identified as components of the approved cognate, may be used in this program.

Certificates that are embedded in the TL 21 Program

The following certificates may be completed as a part of the TL-21 program. A given certificate will be awarded from Ashland University only after the candidate has successfully completed all requirements for the degree, including the embedded certificate, and has graduated from the M.Ed. Program. Certificates cannot be attached to teacher or administrative licenses.

Certificate Programs

These certificates, which are not attached to teacher or administrative licenses, provide candidates with specific skills.

NOTE: Candidates enrolled in the 12-hour certificate programs cannot receive federal (Title IV) financial aid for these courses.

Technology Coach

This online certificate will provide teachers with the knowledge, skills, and dispositions to meet the needs of 21st Century learning within traditional and online learning environments. Curriculum models, pedagogical applications, and emergent technologies are explored to master the technology integration framework.

M.Ed. Curriculum and Instruction: Intervention Specialist Mild/Moderate

A program for currently licensed teachers seeking to teach in grades K-12 with mild/moderate educational needs in a variety of settings. Course work may be applied to licensure in this area. Program prerequisite courses for M.Ed. and Licensure (students with appropriate previous course work may waive these courses): EDEC 564 Math Methods (3 hrs.), 12 additional hours of reading, including three hours of phonics, and prerequisites must be taken prior to taking EDIS 535, 541, and 548.

M.E.D. Curriculum and Instruction: Talent Development Education

The Ashland University Talent Development Education program includes an endorsement and/or the Master of Education in Curriculum and Instruction with emphasis in Talent Development Education. For the endorsement as a stand-alone, 18 semester hours are required. This program prepares teachers to teach gifted and talented students K-12 in Ohio.

M.E.D. Curriculum and Instruction: Reading and Literacy

The Literacy program is designed to help classroom teachers at both the elementary and secondary levels to deepen their understanding of literacy processes, purposes, and development and to broaden their range of instructional and assessment approaches so that they can have the greatest possible impact on their students' learning at either the elementary or middle/secondary levels. Candidates in the program will develop the confidence to make evidence-based instructional decisions in their own classrooms and to advocate appropriate practice with parents, colleagues, administrators, and policy makers. There is a five-year limit on literacy course work that can be transferred into this program.

This requirement is met through course-related activities.

30-33 hrs.

- Students enrolled in these course are required to perform one or more K-12 school based field placements that may involve the collaboration or supervision of a classroom teacher currently serving a specific population of students. Students enrolled in these courses are expected to arrange those field placements without the coordination of the Dwight Schar College of Education. These field placements are embedded thematically into the Education Technology Professional courses.

M.Ed. Educational Leadership

The program, leading to a Master of Education Degree in Educational Leadership prepares leaders for school building and central office responsibilities. Courses from this program may be applied toward a license issues by the Ohio Department of Education in one of two educational leadership areas: Building Principal, or Administrative Specialist in Curriculum, Instruction, and Professional Development.

The Educational Administration department is transitioning to the Educational Leadership Program. Students transitioning from the old Educational Administration program to the new Educational Leadership Program will receive additional advising assistance, and should consult
the new plan of study and transition documents issued to them. Courses taken in the EDAD program will be accepted in the new EDLS program.

M.Ed. Adult Education

The graduate program in Adult Education is designed for educators, trainers and development professionals in industrial and workforce training, informal learning settings such as museums, libraries, health and wellness centers, prisons and other settings serving adult learners. This program will provide in-depth training in program planning, identification or creation of adult-level instructional materials and methods for delivering training or education, methods to assess adult learning, and training in the use of technology to design and deliver instruction.

Mission Statement
The Dwight Schar College of Education guides all students through innovative and diverse field-based experiences that are grounded in theory and result in skilled and responsive practitioners, well-prepared to meet tomorrow's challenges.

Program Director
Dr. Jason Ellis

Master of Education Curriculum and Instruction: Educational Technology
The Technology Facilitator program prepares teachers to serve as building/campus-level technology facilitators. Candidates completing this program will exhibit knowledge, skills, and dispositions equipping them to teach technology applications; demonstrate effective use of technology to support student learning of content; and provide professional development, mentoring, and basic technical assistance for other teachers.

Technology Director Endorsement
The Technology Director endorsement prepares teachers to serve as building/campus level technology facilitators. Candidates completing this endorsement will exhibit knowledge, skills, and dispositions equipping them to teach technology applications; demonstrate effective use of technology to support student learning of content; and provide professional development, mentoring, and basic technical assistance for other teachers.

It can also be obtained through the Master of Education in Curriculum and Instruction: Technology Facilitator degree program.

Courses and Descriptions
See Course Descriptions section of catalog.
The Doctor of Education in Leadership Studies

The Dwight Schar College of Education

Ashland’s doctoral degree in Leadership Studies combines theory and practice with individual mentoring and applied research. The degree program is designed for working professionals with present or emerging leadership responsibilities access a range of professional settings, including education, health care, social services, church, government, law enforcement, non-profit organizations, business, and international agencies.

Doctoral Program in Leadership Studies (Ed.D) Admissions Requirements

The admission procedures for the Doctor of Education degree are designed to recruit the highest quality professional persons, representative of a culturally diverse population. A comprehensive system, including both qualitative and quantitative measures, will be used to assess personal characteristics, academic skills, communications, and leadership. Acceptance into the doctoral program is by cohort and is based upon a competitive evaluation of applications.

The Doctoral Admission and Retention Committee reviews the credentials of each candidate. Finalists who qualify will be invited for an interview with members of the Admission and Retention Committee.

Application Options

All cohorts begin in May each year however prospective students can apply when it is most convenient allowing students to begin taking cognate courses if they prefer to get a jump start. There are three application options:

- November 1st – Applicants who submit all application materials by November 1 will be considered for admission Spring semester (January) allowing them to take one or two cognate courses and begin core doctoral coursework in May with the next cohort. Interviews will be held the first and second week of November.

- April 1st – Applicants who submit all application materials by April 1 will be considered for admission Summer semester (May) and will begin core doctoral coursework in May with the next cohort. Interviews will be held on a rolling schedule January through the second week of April.

- June 1st – Applicants who submit all application materials by June 1 will be considered for admission Fall semester (August) allowing them to take several cognate courses during Fall and Spring semesters and begin core doctoral coursework in May with the next cohort. Interviews will be held the first and second week of June

Admission Requirements

The Doctoral Admission and Retention Committee will review the credentials of each candidate. Applicants for the Doctor of Education degree must:

- Possess a master's degree from an accredited institution;
- Have a cumulative post-baccalaureate grade point average of at least 3.3 on a 4.0 scale;
- Submit an online application containing the admissions portfolio items and application fee to the Graduate School

The admissions portfolio for each candidate consists of six items:

1. Documentation/description of a record of successful administrative experience and/or documented evidence of educational leadership activities;
   Examples of leadership competencies include:
   - peer leadership roles/positions
   - leadership in writing curriculum
   - specific administrative assignments/positions/ committees/chair role
   - leadership in professional organizations
   - grant writing
   - program administration and/or administration of extracurricular programs

2. Four letters of reference, two from people familiar with the applicant's academic ability and two which describe professional performance citing specific examples of leadership ability;

3. An approximately two-page personal statement describing career goals and reasons for wishing to undertake a doctoral program of study;

4. A complete resume/CV which includes work experience, educational background, professional experience, professional activities, honors, professional publications or presentations, and other relevant information relating to the applicant's leadership background;

5. Official transcripts from all undergraduate and graduate study;

6. A sample of writing ability approximately five pages in length

7. International Students must meet the following English Proficiency Entry Requirements:
   - IELTS 7.0
   - TOEFL iBT 84
   - TOEFL PBT 563
   - PTEA 59

The admissions interview for each chosen candidate consists of two items:

1. A 30-minute interview with the Leadership Studies doctoral program faculty collectively

2. A 30-minute timed writing sample

Admission Decisions

Decisions regarding the applicant’s admission to the doctoral program are usually made within a couple of weeks and on a rolling basis.

Schedule Changes

Students need to register for Doctoral classes at least one week prior to the beginning of the term. No registrations will be accepted after the first class meeting without the consent of the co-chair of the Department of Doctoral Studies and Advanced Programs.

Registration for any course (including the cognate), mentorship component, dissertation, dissertation hours, or any other faculty supervised student activity should be completed at the Leadership Studies Office one week prior to beginning the activity. After the second class meeting, the Leadership Studies Office will send official class lists to instructors for verification with their signatures. Instructors must return a verified class list to the Leadership Studies Office no
later than the third week of classes. During the summer period, faculty need to verify class lists by the end of the first week of classes.

**GPA Requirement for Doctor of Education (Ed.D.) Program**

In order to remain in good standing and to graduate from the Ed.D. program, a student must demonstrate satisfactory progress toward completion of the degree. Students must be enrolled every semester from beginning the program through graduation and must maintain a 3.5 GPA in the Leadership Studies Program Core courses and an overall 3.2 GPA in all course work completed. If a student’s GPA falls below these minimums, the student will be placed on academic probation for two consecutive semesters. The student and the advisor will immediately meet and write a plan that delineates the expectations for the student’s improvement. This plan will be signed by the student, the advisor and the department chair. A copy of the plan will be placed in the student’s file. After two consecutive semesters, if the student has not improved as defined in the plan, the adviser and chair, in consultation with the Doctoral Admission and Retention Committee, may determine that the student should not be allowed to continue in the program.

**Transfer of Credit**

Upon admittance to the doctoral program, a student’s transcripts are evaluated on an individual basis. Up to nine semester credits from a recognized accredited institution may be accepted for post-master’s level courses not used toward another degree, but only in the cognate area and for courses taken within five years of admission to the program.

**Mentorship**

The doctoral mentorship experience is a logical step in Ashland University’s commitment to enhance the relevance of leadership preparation programs by orienting the curriculum more explicitly toward problems of practice. Ashland’s philosophy at all levels of the study of leadership and administration emphasizes organizing subject matter around programs rather than presenting information in unconnected course segments. Learning is focused on an actual problem the student faces as an organizational leader. The various facets and dimensions involved in coming to understand the problem, identifying appropriate alternatives, and discovering solutions, require students draw upon the knowledge bases included in courses that form the leadership core of the doctoral curriculum. Thus, theory, research, and practice are united in an experience generated from the point of view of the professional practitioner. Collective problem solving is emphasized rather than competition for grades. Part of the uniqueness of Ashland’s doctoral mentorship is that through this approach, the program provides a viable mechanism for linking full-time clinical experiences with academic work.

University faculty assume responsibility for assisting, advising, and guiding students as field-based problems are addressed. Coaching and observing at the work site are central to this concept.

**Mentorship Plan**

Doctoral students have the responsibility of developing a plan which will define the mentorship experience. The plan will describe an in-depth organizational action research project in which the student will be engaged.

Upon completion of the Mentorship course, the doctoral student will prepare his/her findings in a report and/or formal presentation to his/her employers, organizational personnel, interested doctoral and other graduate students, and the Doctoral Program Executive Committee.

**The Leadership Examination**

As the mentorship experience draws to a close and following completion of the Leadership Core courses, doctoral students prepare for the Leadership Examination. This examination conducted by the student’s program committee seeks to link the Leadership Core courses from the program with the actual on-site research and experience from the mentorship component. The Leadership Examination includes an assessment of the doctoral student’s knowledge of leadership and organizational skills, as well as the ability to integrate theory, research, and practice, both orally and in written form.

**The Comprehensive Examination**

Students are required to complete successfully a comprehensive written examination covering all course work. The examination is taken at the conclusion of the students’ individualized course of study. The examination is constructed, administered, and assessed by the student’s comprehensive examination committee.

The student discusses the components of the Comprehensive Examination in greater detail with the examination committee. This oral portion of the examination concentrates on areas of perceived weaknesses and strengths. A student who satisfactorily completes the examination is approved to move on to the dissertation project.

**Doctoral Candidacy Status**

A doctoral student reaches the stage of “candidacy” or All But Dissertation (ABD) when they have: completed the residency requirement, completed the mentorship component of the program, passed the Leadership and Comprehensive Examination, and have an approved dissertation topic and proposal for completing the dissertation research.

**The Dissertation**

The purpose of the dissertation is to assure that the student will be capable of engaging in scholarly research and inquiry for the purpose of improving the practice of leadership. The dissertation is a comprehensive study incorporating several components of the doctoral program that demonstrates the application of knowledge in an organizational setting in such a way that other professionals can benefit from the project. A successful dissertation demonstrates the utilization of skills and knowledge from the candidate’s individualized program to address a specific problem. It also demonstrates the candidate’s knowledge of research design and the ability to interpret findings orally, in writing, and in application.

**Program of Study**

The formal course work supporting the tenets and goals of the Ed.D. program is organized around the components of an Organizational Leadership Core, Research Core, and a Cognate area of study selected by the student designed to complement the major area of leadership studies and, at the same time, satisfy the individual needs of the student, at the same time, satisfy the individual needs of the student.

**Organizational Leadership**

Students in the Leadership Studies Doctoral Program begin their studies as a cohort group during the summer semester following their admission into the program. During this time, students will complete the three (3) semester hours of initial core requirements.
The Organizational Leadership Core focuses on the role of a leader as a professional in the human organization. It consists of one course in Integrative Leadership, four courses in Organizational Dynamics, and two courses in Policy Analysis. Emphasis is placed on the importance of organizational culture and the development of support for a shared institutional vision among professionals.

Research Core

The Research Core consists of four courses, the mentorship project and self-directed dissertation research. Through doctoral coursework, students will recognize the importance of research and measurement and appreciate their function as underlying threads which connect all facets of the doctoral experience. The mentorship course provides the opportunity to identify a problem in the actual practice, implement a solution and evaluate information collected from the study. The interpretation and evaluation of literature, both quantitative and qualitative in methodology, in the field of leadership studies are inherent in all coursework as well as essential to the completion of the dissertation requirement.

Cognate Area

The cognate is an individualized specialty area of study encompassing the student's interests and needs, yet related to the major area of study, Organizational Leadership. All students are required to complete a cognate area of study consisting of a minimum of fifteen (15) semester hours. Cognates are unique to each student based on area of interest and potential research agenda. Previous cognates have included areas such as, but not limited to:

- Business Management
- Communication
- Curriculum
- Gifted and Talented Education
- Higher Education Leadership/Administration
- Professional Development
- School Building Administration
- Superintendency
- Theology

As one option, courses applied to licensure in educational administration may be taken as part of the cognate. The educational leadership licensure programs are described in this catalog within the section Master of Education (M.Ed.). Doctoral students must meet with their adviser and the department chair to formulate the cognate portion of their program and to sign a program of study agreement.

Doctoral Program Coursework

A total of fifty-nine (59) semester hours beyond the master's degree are required for the doctoral degree. The areas in which coursework must be completed and the minimum number of hours by area are as follows:

Coursework:

<table>
<thead>
<tr>
<th>Course Area</th>

<tr>
<td>*Dissertation</td>
<td>10 hrs. min.</td>
</tr>
</tbody>
</table>

Degree Completion Time Limits

Doctoral students have seven (7) years to complete the doctoral degree. The seven years begins with the first core course that is taken. Depending upon special circumstances, a student may petition for an extension of up to two years provided all requirements of the degree except approval of the dissertation have been met. Students may submit an appeal in writing, stating the reasons for the request, as well as a timeline for completion of any requirements for the degree still to be met. The email should be forwarded to the co-chair of the Department of Doctoral Studies and Advanced Programs.
In addition to the Ed. D and M.Ed. programs, the Dwight Schar College of Education offers a number of licensure and endorsement programs for individuals who would like to earn an initial teaching license or add additional licenses and endorsements to existing licenses or certificates.

Accreditation of the College

The teacher education programs have been approved by the Ohio Department of Higher Education. The Dwight Schar College of Education at Ashland University is accredited by the National Council for Accreditation of Teacher Education (NCATE). NCATE can be contacted through: Council for the Accreditation of Educator Preparation, 2010 Massachusetts Ave., NW, Suite 500, Washington, DC 20036; phone (202) 223-007. This accreditation covers initial teacher preparation programs and advanced educator preparation programs. NCATE is recognized by the U.S. Department of Education and the Council for Higher Education Accreditation to accredit programs for the preparation of teachers and other professional school personnel.

These two agencies serve to (a) assure the public that Ashland University offers an educator preparation program that meets national standards of quality, (b) ensure that children and youth are served by well-prepared school personnel, and (c) advance the teaching profession through the improvement of teacher education programs. Licensure requirements are subject to the authority of the Ohio Department of Education, Ohio law and the Ohio Department of Higher Education. Course and field experiences may change, subject to requirements approved by the Ohio Department of Higher Education and/or Ohio law.

According to the 2016 Title II Report, 96% of those candidates who completed Ashland University’s initial licensure teacher preparation programs during the 2014-2015 academic year passed their state-mandated licensure tests.

The Bachelor’s Plus Initial Licensure Program at the Graduate Level

The Bachelor’s Plus Program is a graduate program designed to provide initial teacher licensure to people who hold bachelor’s degrees from accredited colleges or universities in fields other than education.

Graduate courses are generally taught in online, late afternoon, early evenings, or at night so that candidates may hold full- or part-time jobs while doing the course work. Courses are taught by qualified faculty from the various colleges/departments and are designed to provide the candidate with the necessary background in the College of Education values, planning, teaching styles, classroom management, and area content. Classroom field experiences are included and scheduled early in the program to provide actual classroom experience. Student teaching is completed near the end of the program. Note that these school-based experiences require students to be available during regular school hours. The length of time needed to complete the program is dependent upon the number of courses to be taken by individuals based on their pre-admitance evaluations.

Course credits obtained from accredited colleges or universities may apply to this program if they match Ashland University course content. A grade of C– or higher for undergraduate courses is required to be accepted for credit. No course work taken pass/fail will be accepted for credit.

Each program contains both graduate and undergraduate courses. Licensure may be at the following levels:

Early Childhood (PreK–3)

Middle Grades (4–9)

Two Concentration Areas are required from:

- Language Arts
- Mathematics
- Science
- Social Studies

Grades 7–12

- Integrated Language Arts
- Integrated Mathematics
- Integrated Science
- Integrated Social Studies
- Chemistry
- Earth Science
- Life Science/Biology
- Physical Science: Chemistry & Physics

Multi-Age

- Visual Arts
- Multi-Age PreK-12
- Foreign Languages: French & Spanish
- Intervention Specialist Mild/Moderate
- Music

Field and Clinical Experience

All education students are required to complete the number of clock hours of field and clinical experiences determined by their licensure prior to their student teaching and a minimum of 14 weeks of student internship. The departments have established an excellent working relationship with area schools to provide these experiences. Students enrolled in field experiences and student internship are responsible for providing their own transportation to and from the field site locations.

Permission to Enroll in Field Experience/Internships

1. Bachelor’s Plus students are not officially admitted into the Teacher Education program, and may not take field or internship courses, until they have successfully: completed 12 credit hours of course work at Ashland University, achieved a 3.0 GPA for the first 12 credit hours of Ashland University courses, and submitted evidence of having met the Testing Pathway or the Academic Pathway. Students not meeting this admittance requirement will not be allowed to continue education course work until these requirements are achieved.

2. Satisfactorily complete the Testing Pathway or the Academic Pathway described below.

3. Testing Pathway: ACT/SAT/GRE tests: Test scores should be submitted directly to Ashland University or the student must provide an official copy of test scores to the appropriate office. If the ACT composite score is 21 or above, the SAT composite score is 1010 (prior to March 2016) or 1090 (March 2016 forward), or above, the GRE Verbal, and Quantitative scores are 153 or above, the student has met the requirement. Please note that for the SAT only the Critical Reading and Mathematics scores are added to find the composite score. If the score is below the required ACT/ SAT/GRE score, the student takes the Core reading, writing, and math tests. If the student earns a score of 156 or higher on the reading, 162 or higher on the writing, and 150 or higher on the math, the student has met the requirement. If the student does not pass all sections of the Core test, he or she may retake any section(s)
below the cut-off score. If the required scores are met, the student has met the test requirement. Preparation and registration material for the Core tests are available at ets.org/praxis.

4. Academic Pathway: If the student has taken the Core test at least once and does not pass either the math or the writing section, he or she may opt to participate in the Academic Pathway. The Academic Pathway may not be taken for both the math and writing requirements. There is no academic pathway for reading; students must meet the Core Reading Test score of 156 or higher. The Academic Pathway requires that the student show evidence of success (a grade of B or above) in an appropriate math (general mathematics — not math methods, statistics, or business math) or a writing course. This course must have been completed within five years of the start of course work at Ashland University. The area (math or writing) used for the Academic Pathway must not be in the same content area or concentration as the student’s sought after license. (Example: The middle grades math concentration may not use the Academic Pathway for math.) The Director of Quality Assurance and Accreditation will determine if the course can be used in place of an assessment test. Students should contact the Director of Quality Assurance and Accreditation for Academic Pathway information and the application.

5. Prior to any field experience students must Sign a “Good Moral Character” statement verifying his or her awareness of the law in order to become licensed in Ohio, students must undergo a background check at the Bureau of Criminal Identification and Investigation (BCI) and a background check at the Federal Bureau of Identification and Investigation (FBI). The background checks are required and must remain current for all field experiences or internships.

6. Meets dispositional guidelines as outlined by the College of Education.

Recommendation for Licensure

The Ohio Department of Higher Education (formerly known as the Ohio Board of Regents) has approved all of the Ashland University Bachelor’s Plus licensure programs. Applications are submitted to and reviewed by the licensure officer of Ashland University who, upon approval, forwards them to the State. The Ohio Department of Education is ultimately responsible for issuing the earned license. An initial, four-year, resident educator license is issued by the Division of Licensure, Ohio Department of Education. The candidate must have completed the courses in his or her content field, education methods courses, classroom field experiences, student teaching, required state tests, and a criminal background check to be eligible for licensure. This initial teaching license is the same license that is issued to the four-year teacher education undergraduate candidate.

*Meets Reading requirements for Ohio Standards

Additional Second Licensure Programs Include:
- Intervention Specialist: Mild/Moderate License
- Building Principal’s License
- Administrative Specialist License in Curriculum, Instruction, and Professional Development
- School Superintendent’s License
- School Treasurer License

Endorsement Programs Include:
- Graduate Reading Endorsement
- Gifted Intervention Specialist Endorsement
- Early Childhood Generalist (Grades 4-5) Endorsement
- Technology Director Endorsement
- Middle Grades Endorsement Generalist (Grades 4-6) Endorsement
- Teaching English to Speakers of Other Languages (TESOL) Endorsement

Intervention Specialist: Mild/Moderate License
A program for licensed teachers seeking to qualify for State of Ohio Licensure to teach students in grades K-12 with mild/moderate educational needs in a variety of settings. Specialty area test required.

Course Number and Title Hrs. Prerequisites
Prerequisite Courses (Students with appropriate previous course work may waive these courses.)
*EDEC 564 Math Methods 3
(Prerequisites: 12 add. Hrs. of reading, including 3 hrs. of phonics. These must be taken prior to taking EDIS 535, EDIS 541, & EDIS 548)
Related Professional Courses:
EDIS 546 Intro. to Education Interventions 3 None

EDIS 548 Assess. & Teaching Children with Mild/Moderate Ed. Needs 3 EDIS 546
EDIS 579 Special Educ. Law, Policies, and Procedures 3 None
Internship: (Prerequisites: courses for licensure, including prerequisites)
EDIS 592 Internship 10 Admit to Internship 31 hrs.

*A current certificate in first aid and CPR is required at the time of program.
Note: M.Ed. with appropriate professional coursework is required. If not already complete, candidate is required to take Ashland University M.Ed. Educational Leadership courses and internship.

Other Graduate Licensure and Endorsement Program
In addition to the initial licenses offered through the Bachelor’s Plus program, the Dwight Schar College of Education offers a variety of second licensure and endorsement programs that are approved by the Ohio Department of Higher Education (formerly known as the Ohio Board of Regents). Students need to have a current teaching license. Additionally, students may be required to compete a criminal background check before beginning their field.
Building Principal’s License

This is a program of preparation for building leadership. Applicants must have a master’s degree, successfully taught two (2) years under a provisional or professional teacher license at the age levels for which the principal license is sought, successfully completed 36-39 semester hours to qualify for the Building Principal License and Pass the Ohio Assessment for Educators Educational Leadership Test.

Course Number and Title | Hrs. | Prerequisites
---|---|---
EDLS 601 The Visionary School Leader | (1) | 6 hours
EDLS 602 Managing Fiscal Resources | (1) | 6 hours
EDLS 603 Managing Human Resources | (1) | 6 hours
EDLS 622 Transforming Organizational Climate & Culture | (1) | 6 hours
EDLS 633 Safety & Crisis Management for Educational Leaders | (1) | 6 hours
EDLS 641 Professional Development in Action | (1) | 6 hours

M.Ed. Course work with the following Professional Courses (if not in previous/current M.Ed. Program, the following courses must be taken prior to licensure application):

*EDLS 501 Vision & Goals for School Leaders 1 None
*EDLS 502 Critical Concepts in Fiscal Resource Management 1 None
*EDLS 503 Critical Concepts in Human Resource Management 1 None
EDLS 511 Theories of Instructional Leadership 1 None
EDLS 512 Issues Impacting Student Achievement 1 None

EDLS 531 Legal Issues in Educational Leadership 1 None
EDLS 532 Ethical, Professional & Legal Dimensions of Ed. Leadership 1 None
*EDLS 533 Essential Concepts in School Safety & Crisis Management 1 None
*EDLS 541 Professional Development in Education 1 None
EDLS 542 Political Dimensions of Educational Leadership 1 None

Internships:

*EDLS 721 Admin. Internship 1 (1)
*EDLS 722 Admin. Internship 2 (1)
*EDLS 723 Admin. Internship 3 Building Level/Principal (1)
*EDLS 724 Admin. Internship 4 Building Level/Principal (1)

*Prerequisite for licensure work

36-39 hours

Note:

- Master’s degree and successful completion of the state required specialty area test in Educational Leadership required prior to licensure application

- Candidates must have two years of successful teaching experience under a professional license prior to licensure application

Administrative Specialist License in Curriculum, Instruction, and Professional Development

This is a program for persons seeking licensure for district level leadership in the areas of curriculum, instruction, and/or professional development. In addition, the program is appropriate for teachers desiring a graduate-level program specializing in school and classroom improvement experiences with the opportunity to gain an additional license. Candidates must also have a Master’s Degree and must pass the state required specialty area test in Educational Leadership.

Course Number and Title | Hrs. | Prerequisites
---|---|---
EDLS 601 The Visionary School Leader | (1) | 6 hours
EDLS 602 Managing Fiscal Resources | (1) | 6 hours
EDLS 603 Managing Human Resources | (1) | 6 hours
EDLS 622 Transforming Organizational Climate & Culture | (1) | 6 hours
EDLS 633 Safety & Crisis Management for Educational Leaders | (1) | 6 hours
EDLS 641 Professional Development in Action | (1) | 6 hours

M.Ed. Course work with the following Professional Courses (if not in previous/current M.Ed. Program, the following courses must be taken prior to licensure application):

*EDLS 501 Vision & Goals for School Leaders 1 None
*EDLS 502 Critical Concepts in Fiscal Resource Management 1 None
*EDLS 503 Critical Concepts in Fiscal Resource Management 1 None
EDLS 511 Theories of Instructional Leadership 1 None
EDLS 512 Issues Impacting Student Achievement 1 None
EDLS 513 Improving Instruction 1 None
EDLS 521 Organizational Behavior in Education 1 None
*EDLS 522 Organizational Climate & Culture 1 None
EDLS 523 Organizational Management for Educational Leader 1 None
EDLS 531 Legal Issues in Educational Leadership 1 None
EDLS 532 Ethical, Professional & Legal Dimensions of Ed. Leadership 1 None
*EDLS 533 Essential Concepts in School Safety & Crisis Management 1 None
*EDLS 541 Professional Development in Education 1 None
EDLS 542 Political Dimensions of Educational Leadership 1 None

Internships:

*EDLS 721 Admin. Internship 1 (1)
*EDLS 722 Admin. Internship 2 (1)
*EDLS 723 Admin. Internship 3 Building Level/Principal (1)
*EDLS 724 Admin. Internship 4 Building Level/Principal (1)

All 1 hour

*EDLS 721 Admin. Internship 1 (1)
*EDLS 722 Admin. Internship 2 (1)
*EDLS 723 Admin. Internship 3 District Level/CIPD (1)
*EDLS 724 Admin. Internship 4 District Level/CIPD (1)
Note:
- Master’s degree and successful completion of the state required specialty area test in Educational Leadership required prior to licensure application
- Candidates must have two years of successful teaching experience under a professional license prior to licensure application

School Superintendent License
Candidates must have a teaching license. To be eligible to receive the superintendent’s license, the applicant must have worked for three (3) years as a school administrator under a principal or administrative specialist license. Students must successfully complete 60 semester hours, including hours required for the master’s degree, to qualify for superintendent’s license.

Early Childhood Generalist (Grades 4-5) Endorsement
The Early Childhood Generalist Endorsement is designed as an addition to an earned Early Childhood License, which would allow that candidate to also teach in grades 4 and 5. The program focuses on the unique developmental characteristics of the middle childhood student and teaching methods and strategies to best educate the young adolescent. The endorsement is available to graduate students who possess an Early Childhood License or Bachelor’s Plus candidates who are seeking such a license.

12 hrs.

Candidates must complete 6 hrs. each of the following areas, Science, Social studies, Math & English/Language Arts and pass the state required Elementary Education Content test. Courses from above may be applied to the six hours in each of the four areas.
Post-Baccalaureate Middle Childhood Generalist
(Grades 4-6) Endorsement

This endorsement along with the comprehensive major in middle grades (4-9) enables the student to teach all four subject areas in grades 4-6. Choose the two subject areas not chosen as the concentrations in the major. Successful completion of appropriate OAE exam(s) required. See undergraduate catalog for additional information.

Teaching English to Speakers of Other Languages (TESOL) Endorsement

This endorsement focuses on improving the English language and academic outcomes of English language learners (K-12). Upon completion of the program, the teacher must pass the appropriate the state required exam in order to attach the TESOL Endorsement to an Ohio teaching license.

Course Descriptions

ACCOUNTING (ACCT)

ACCT 201 FINANCIAL ACCOUNTING 3
Prerequisite: None
The first of a two-course sequence in basic accounting. This course develops an understanding of the basic elements of financial accounting. Students are introduced to accounting concepts, procedures, and terminology. Topics covered include processing of transactions through the accounting cycle, applying generally accepted accounting principles, and preparing and interpreting of financial statements.

ACCT 202 MANAGERIAL ACCOUNTING 3
Prerequisite: ACCT 201
The second of a two-course sequence in basic accounting. This course develops an understanding of the basic elements of managerial accounting. Students are introduced to accounting information for the purpose of making informed business decisions. Topics covered include the accounting information necessary for managers to plan operations, control activities, evaluate performance, and make decisions.

ACCT 205 ACCOUNTING INFORMATION SYSTEMS 3
Prerequisite: ACCT 201, IS 221
A study of the accounting information system as a component of an integrated enterprise system. The information system will be analyzed to identify weaknesses and recommend improvements to internal control. System documentation techniques are studied.

ACCT 206 FORENSIC ACCOUNTING 3
Prerequisite: ACCT 201
This course provides an introduction to the areas of forensic accounting and fraud investigation in organizations with an emphasis on its detection and prevention. It examines the nature and causes of financial and occupational fraud, ways to prevent and deter fraudulent conduct, and procedures for uncovering and investigating fraud.

ACCT 207 INTERMEDIATE ACCOUNTING I 3
Prerequisite: ACCT 201
A review of the fundamental accounting processes followed by a detailed analysis of the contents of the balance sheet, income statement and statement of cash flows.

ACCT 208 INTERMEDIATE ACCOUNTING II 3
Prerequisite: ACCT 207
A detailed analysis of financial reporting under Generally Accepted Accounting Principles. Emphasis is placed on the accounting treatment and disclosures required for balance sheet items (assets, liabilities, and owner’s equity).

ACCT 302 COST MANAGEMENT 3
Prerequisite: ACCT 202
An in-depth study of selected cost and management accounting topics. The purpose of the course is to provide future managers with the cost accounting methods used to determine product costs for internal, management, and external financial reporting.

intensity training, periodization of training, etc.) The student will have the knowledge, skills, and abilities to obtain NSCA certification after completion of the course.

**AMERICAN HISTORY AND GOVERNMENT (AHG)**

**AHG 501**  
**THE AMERICAN REVOLUTION**  
**2**

**Prerequisite:**
This course focuses on three topics: political developments in North America and the British empire and the arguments for and against independence, culminating in the Declaration of Independence; the Revolutionary War as a military, social and cultural event in the development of the American nation and state; and the United States under the Articles of Confederation.

**AHG 502**  
**THE AMERICAN FOUNDING**  
**2**

**Prerequisite:**
This course is an intensive study of the constitutional convention, the struggle over ratification of the Constitution, and the creation of the Bill of Rights. It will include a close examination of the Federalist Papers and the anti-federalist writings.

**AHG 503**  
**SECTIONALISM AND CIVIL WAR**  
**2**

**Prerequisite:**
This class is a study of the sectional conflict beginning with nullification crisis. The course will not only examine the political, social, and economic developments in the period leading to the Civil War, but will emphasize the political thought of Abraham Lincoln, Stephen Douglas, and John C. Calhoun.

**AHG 504**  
**CIVIL WAR AND RECONSTRUCTION**  
**2**

**Prerequisite:**
This course will examine military aspects of the war, as well as political developments during it, including the political history of the Emancipation Proclamation, the Gettysburg Address and the Second Inaugural. The course also examines the post-war Amendments and the Reconstruction era.

**AHG 505**  
**THE PROGRESSIVE ERA**  
**2**

**Prerequisite:**
The transition to an industrial economy posed many problems for the United States. This course examines those problems and the responses to them that came to be known as progressivism. The course includes the study of World War I as a manifestation of progressive principles. The course emphasizes the political thought of John Dewey, Herbert Croly, Theodore Roosevelt, and Woodrow Wilson, and their political expression of progressive principles.

**AHG 506**  
**RISE OF MODERN AMERICA 1914-1945**  
**2**

**Prerequisite:**
With the exception of the Civil War era, it is difficult to find another thirty-year period in U.S. history during which the nation underwent such dramatic change. In 1914 the United States was no more than a regional power, with a primarily rural demography and a relatively unobtrusive federal government. Thanks to the experience of two world wars, a major cultural conflict (the 1920s), and a disastrous economic crisis the country was transformed into the global economic and military power that it remains to this day. This course will examine the cultural, economic, military, and diplomatic events and trends of the period 1914-1945.

**AHG 507**  
**GREAT AMERICAN TEXTS**  
**2**

**Prerequisite:**
This course is an intensive study of one important text in American history, politics, or literature. Examples might include The Federalist Papers, Franklin's Autobiography, Tocqueville’s Democracy in America, or Twain's Huckleberry Finn. The text may change from course to course and the course may be repeated up to two times with the permission of the associate director.

**AHG 601**  
**SOURCES OF THE AMERICAN REGIME**  
**2**

**Prerequisite:**
This course examines the European heritage of ideas and practices upon which the American Founders drew as they devised a new government for the United States.

**AHG 602**  
**EUROPEAN DISCOVERY AND SETTLEMENT**  
**2**

**Prerequisite:**
An examination of the motives behind and the consequences of the expansion of European power beginning in the sixteenth-century. The course focuses on the European settlement of North America and the interactions between Europeans and indigenous peoples.

**AHG 603**  
**COLONIAL AMERICA**  
**2**

**Prerequisite:**
This course focuses on the development of an indigenous political culture in the British colonies. It pays special attention to the development of representative political institutions and how these emerged through the confrontation between colonists and King and proprietors. The course also considers imperial politics through a study of the Albany Plan of Union.

**AHG 604**  
**THE EARLY REPUBLIC**  
**2**

**Prerequisite:**
Having adopted a form of government, the Americans had to make it work. This course examines their efforts to do so, as the Republic took shape amid foreign dangers, political conflict, westward expansion, and religious revivals.

**AHG 605**  
**THE AGE OF ENTERPRISE**  
**2**

**Prerequisite:**
In the last decades of the 19th century, the United States took decisive steps away from its rural, agrarian past toward its industrial future, assuming its place among world powers. This course examines that movement, covering such topics as business-labor relations, political corruption, immigration, imperialism, the New South, and segregation and racism.

**AHG 606**  
**AMERICA BETWEEN WORLD WARS**  
**2**

**Prerequisite:**
In the 1920s, changes in America that had been underway for several decades came fully into view. This is the period when cultural wars first appeared (e.g., The Scopes Trial) and the transformative effects of industrial capitalism touched every part of American life. In the 1930s, an economic crisis challenged received views of the proper relationship of the government to the economy. The course examines various political and economic changes that occurred in this period, with a special emphasis on the New Deal.

**AHG 607**  
**AMERICA DURING THE COLD WAR**  
**2**

**Prerequisite:**
The simmering conflict between the United States and the Soviet Union from 1945 to 1989 was the defining phenomenon of the age, affecting not only the country's foreign policy but its politics, society, economy, and culture as well. In this course students will examine the most important events, ideas, and personalities of the forty-four years from the end of World War II to the end of the Reagan administration.

**AHG 608**  
**CIVIL WAR AND RECONSTRUCTION**  
**2**

**Prerequisite:**
This course will examine military aspects of the war, as well as political developments during it, including the political history of the Emancipation Proclamation, the Gettysburg Address and the Second Inaugural. The course also examines the post-war Amendments and the Reconstruction era.
AHG 610  AMERICAN FOREIGN POLICY  2
Prerequisite:
Students examine events and issues in the foreign policy of the American republic. Topics include the major schools of thought and approaches, the connection between domestic and foreign politics, and the connection between the principles of the American regime and its foreign policy. Course may be taken twice with the permission of the program Chair.

AHG 611  THE AMERICAN WAY OF WAR  2
Prerequisite:
The course examines how Americans have used military force, focusing on the relationship between civilian and military leaders, characteristic strategic approaches, and the connection between our political principles and our military practices.

AHG 620  THE REFORM TRADITION IN AMERICA  2
Prerequisite:
America has lived through three periods of sustained interest in reforming its political and social life, the first in the decades preceding the Civil War, the second in the decades preceding World War I and the third in the decade or two following World War II. The course examines aspects of these reform movements, particularly their connection to religion and Protestant theology.

AHG 621  RACE AND EQUALITY IN AMERICA  2
Prerequisite:
This course explores the history of black Americans as they strive to secure their dignity as human beings, and rights as American citizens, in the face of racial prejudice. Students will examine the writings of leading black intellectuals and activists about human equality, slavery, self-government, the rule of law, emancipation, colonization, and citizenship. The course will also review laws, constitutional amendments, court cases, and social criticism addressing civil and political rights in America.

AHG 622  RELIGION IN AMERICAN HISTORY AND POLITICS  2
Prerequisite:
From the time that the first Europeans arrived in America, religion has been an important part of American life. This course examines the various ways in which religion has played a role in American history, with particular emphasis on the role of religion in American politics.

AHG 623  GENDER AND EQUALITY IN AMERICA  2
Prerequisite:
This course explores the history of women in America from the early 19th century to the present, especially the political struggle to gain increased civil and political rights. Using primary source material from leading female intellectuals and activists, this course will consider the myriad ways that women have helped to shape the course of U.S. history.

AHG 630  AMERICAN STATESMEN  2
Prerequisite:
Even though the powers of the American Executive are controlled and limited, extraordinary acts of statesmanship are possible. This seminar examines those presidents who have demonstrated extraordinary political leadership. We will examine such statesmen and the political circumstances in which their prudence revealed itself. Among those examined will be Washington, Jefferson, Jackson, Lincoln, and Franklin Roosevelt. Course may be taken more than once with permission of the program Chair.

AHG 631  AMERICAN POLITICAL RHETORIC  2
Prerequisite:
This course examines the principles and practice of American political rhetoric through the careful reading of the speeches of its leading statesmen.

AHG 632  THE AMERICAN PRESIDENCY I, WASHINGTON TO LINCOLN  2
Prerequisite:
This course is an examination of the political and development of the office of president from the Founding era through the Civil War. It focuses on how the presidency shaped American political life as the country grew and struggled with rising sectional tensions.

AHG 633  THE AMERICAN PRESIDENCY II, JOHNSON TO THE PRESENT  2
Prerequisite:
This course is an examination of the political and constitutional development of the office of president from Reconstruction to the present. It focuses on how changing conceptions of the presidency have shaped American political life in the 19th and 20th centuries, especially as America has become a global power.

AHG 640  THE CONGRESS  2
Prerequisite:
This course focuses on the legislative branch of the US government. It examines topics such as the constitutional powers of Congress, the relations between Congress and the other branches of the federal government and the states, and the changing structure and internal politics of Congress.

AHG 641  THE SUPREME COURT  2
Prerequisite:
The course is an intensive study of the highest court in the federal judiciary, focusing on the place of the Supreme Court in the American constitutional order. Area of study may include the relationship between the Court and the other branches of the federal government as well as the states; the Court's power of judicial review; and judicial politics and statesmanship. We will examine these kinds of issues by investigating how the Court has interpreted the Constitution in some of its most historic decisions.

AHG 642  POLITICAL PARTIES  2
Prerequisite:
This course examines the development of American political parties, focusing on the meaning of parties and historic moments in the rise and fall of political parties from the Founding era to the present. Topics may include re-aligning elections, changing coalitions within American parties, and the contemporary Democratic and Republican parties.

AHG 660  TOPICS IN AMERICAN HISTORY AND GOVERNMENT  2
Prerequisite:
Topics courses allow faculty to meet the needs of small groups of students by offering a course specifically designed to examine an important contemporary or historical topic in significant depth and detail. Course may be repeated with permission of the program Chair.

AHG 670  DIRECTED STUDY  2
Prerequisite: Permission of Chair
Students wishing to develop expertise requiring study beyond what is offered in other courses may arrange with a professor to work individually on a topic.

AHG 691  THESIS
Prerequisite: Permission of the Thesis/Capstone Coordinator
In order to complete requirements for the degree, each student must complete a thesis, capstone project, or comprehensive exam. The purpose of the thesis is to show mastery of both subject matter and analytical and interpretive skills.

AHG 692  CAPSTONE PROJECT
Prerequisite: Permission of the Thesis/Capstone Coordinator
In order to complete requirements for the degree, each student must complete a thesis or capstone project. The purpose of the capstone
project is to show mastery of both subject matter and analytical and interpretive skills.

**AHG 603 QUALIFYING EXAMINATION** 0  
**Prerequisite:** Completion of all required coursework and permission of Program Director  
The qualifying examination evaluates the candidates' understanding of significant ideas, events, persons, and text in American history and government. Additionally, the exam will evaluate the candidate's ability to analyze and use documentary evidence in academic writing. Exams are offered as arranged by the student and the student's examination advisor.

**AHG 6XX EFFECTIVE WRITING FOR MAHG AND MASTAHG** 0  
**Prerequisite:** Permission  
Students in this course will work to improve basic writing skills, with the specific intent of becoming more effective writers in general, and during their time in the MAHG or MASTAHG programs. The purpose of the course is for the student to develop an extended essay meeting at least the minimal requirements specified in the MAHG and MASTAHG grading rubric for content knowledge, analysis of, and interpretation. The focus will be on improving the organization, structure, and logic of written work; improving clarity and readability; and identifying and correcting errors in grammar and usage. The course is offered concurrently with other courses and may be taken more than once upon the recommendation of the chair.

**ART (ART)**

**ART 130 ELEMENTS OF DESIGN** 3  
**Prerequisite:** Note: not open to students who have taken ART 134 or ART 135  
A fundamental study of two-dimensional application of visual elements and principles of design. Students will explore composition through line, shape, value, texture, and color, and will be introduced to and use various materials and design techniques. For non-art majors. Meets Core credit for aesthetics.

**ART 133 COLOR THEORY** 3  
**Prerequisite:** None  
An exploration of both Munsell and Albers color theory systems, with an emphasis on the ways in which the elements of color interact in compositions. The focus of the course is developing a disciplined approach to the use of color, and gaining experience in the mixing and application of colors using acrylic paints. Students will examine the ways in which the properties of color affect the elements of design, specifically the illusion of space and light, and also the ways in which we receive and process color information.

**ART 134 2-D DESIGN** 3  
**Prerequisite:** None  
This course is an intense study of the principles of 2-D design aesthetics and processes. Students will learn how to use compositional devices such as line, value, texture, shape, balance, and rhythm to create successful designs.

**ART 135 3-D DESIGN** 3  
**Prerequisite:** None  
This course is an intense study of the principles of 2-D design aesthetics and processes. Students will learn how to use compositional devices such as line, value, texture, shape, balance, and rhythm to create successful designs.

**ART 140 FUNDAMENTALS OF DRAWING** 3  
**Prerequisite:** Note: not open to students who have taken ART 141  
This fundamental course provides a variety of approaches to improve individual skills in drawing. Attention to line, shape, value, texture, and perspective are used to develop an understanding of what we see in relation to how we represent them visually. For non-art majors. Meets Core credit for aesthetics.

**ART 141 DRAWING I** 3  
**Prerequisite:** None  
Acquaints students with the fundamental nature of the drawing process. Emphasis is on the observation and analysis of simple forms through a variety of approaches, such as gesture, contour, cross-contour, and value drawing. Introduces the student to such elements of form as proportion, shape, mass, light, and space, as well as compositional structure. Particular emphasis is placed upon the understanding of spatial devices, including linear perspective and various ways of using value and line weight to create and deny space.

**ART 150 ART & IDEAS** 3  
**Prerequisite:** Not open to students who have taken ART 256 or ART 257  
A combined visual and thematic introduction to Western art. The form and content of painting, sculpture, architecture, and graphics will be studied through a series of themes and purposes. Students will investigate the interplay of form and meaning of art objects from multiple eras through such themes as death and the macabre, entertainment, power and politics, religious beliefs, and landscape and the environment. The course introduces many of the issues associated with the visual arts including iconoclasm, restoration, aesthetic quarrels, and questions of cultural property. Meets Core credit for aesthetics.

**ART 160 FUNDAMENTALS OF STUDIO ART** 3  
160A CERAMICS  
160B PAINTING  
160C PRINTMAKING  
160D SCULPTURE  
160E DIGITAL ART  
**Prerequisite:** None  
This course is an exploration of the processes and philosophies of various studio art disciplines. Using the study of traditional studio topics (Ceramics, Painting, Printmaking, Sculpture, or Digital Art - subjects will vary each semester), students will learn the principles of art aesthetics, studio processes, and a general history of the relevant discipline. This course is designed for non-art majors to fulfill institutional core requirements in aesthetics, and is not open to students who have taken ART 211, 261, 271, or 281 respectively. Students may take two different topics to fulfill Core aesthetics requirements, but they may not repeat the same topic for credit.

**ART 161 FUNDAMENTALS OF STUDIO ART II** 3  
160A CERAMICS  
160B PAINTING  
160C PRINTMAKING  
160D SCULPTURE  
160E DIGITAL ART  
**Prerequisite:** ART 160 in the appropriate studio area  
This course is a continuation of the introduction to the aesthetic processes and philosophies of various studio art disciplines developed in ART 160. By studying more advanced problems in traditional studio topics (Ceramics, Painting, Printmaking, or Sculpture), students will become acquainted with the wide range of options, and the decisions necessary, of studio artists. The course delves more deeply into the visual art aesthetic, studio processes, and the general history of the relevant discipline. This course is designed for non-art majors to fulfill institutional Core requirements in aesthetics.

**ART 204 PHOTOGRAPHY** 3  
**Prerequisite:** None  
A course dealing with the process and principles of digital photography. Technical and aesthetic considerations will be explored. Adobe Photoshop will be the software used in this class and students are expected to provide their own digital camera. Meets Core credit for aesthetics.

| This course is an introduction to the elements and principles of print and web design systems. The focus will be on organizing and integrating type and images into visually compelling layouts for affective communication across variable media. Concept development, client base, and production procedures will be covered. This course will provide a basic understanding of methods and techniques used to construct, design and maintain a web site. Discussion of design theory will address the principles behind successful visual communication. Current software and programming languages will be taught in relation to contemporary site construction and as they relate to primarily design issues. Web site maintenance will cover the preliminary organization and ongoing steps involved with keeping a web site current and up-to-date. Adobe software will be utilized with a focus on Adobe InDesign.
and Dreamweaver.

<td>Students will continue to develop the techniques and concepts investigated in Drawing III and IV. The student will focus on a cohesive body of work that exemplifies a refinement that is both visual and technical.</td>
<td></td>
</tr>
<tr>
<td>ART 346</td>
<td>ILLUSTRATION</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> ART 134, ART 141, ART 242</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course serves as an introduction to a variety of illustration techniques and practices.</td>
<td></td>
</tr>
<tr>
<td>ART 352</td>
<td>ART OF THE RENAISSANCE</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course focuses on the painting and sculpture of Italy from ca. 1400 to 1580 and covers the activity of artists like Masaccio, Mantegna, Donatello, Botticelli, Leonardo da Vinci, Michelangelo, Raphael, Giorgione and Titian. Issues of style, iconography, patronage, political function, social context and the revival of classical antiquity will unite our consideration of the diverse artistic production of the great art centers of Florence, Rome and Venice.</td>
<td></td>
</tr>
<tr>
<td>ART 353</td>
<td>BAROQUE ART</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course explores the artistic developments of the seventeenth century with emphasis on the major masters working in Italy, Spain, Flanders, France, and the Dutch Republic. Artists to be covered include Caravaggio and his followers, Bernini, Velazquez, Rubens, Poussin, Rembrandt and Vermeer.</td>
<td></td>
</tr>
<tr>
<td>ART 354</td>
<td>19TH CENTURY ART</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course examines the major artistic movements and stylistic developments in Europe from ca. 1789-1900. Major movements include Neoclassicism, Romanticism, Realism, Impressionism, Post-Impressionism, and Symbolism.</td>
<td></td>
</tr>
<tr>
<td>ART 356</td>
<td>20TH CENTURY ART</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course examines the major artistic movements and stylistic developments in both Europe and the United States from 1900 to 1999. The rise of Modernism as well as Post-Modernist trends will be considered. Major movements include Cubism, Surrealism, Abstract Expressionism, Pop Art, Minimalism, and Neo-Expressionism.</td>
<td></td>
</tr>
<tr>
<td>ART 362</td>
<td>PAINTING II</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> ART 261</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Students use the basic techniques developed in Painting I to begin to establish a personal investigation. Students are expected to do a series of experiments aimed at building a body of consistent work. The technical and formal aspects of the painting process are augmented by critique and class discussion as students identify conceptual concerns and begin to tie their studio practice to the exploration of content.</td>
<td></td>
</tr>
<tr>
<td>ART 372</td>
<td>PRINTMAKING II</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> ART 271</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Emphasis is placed on development of the technical skills introduced in Printmaking I. One or two processes will be explored from the categories of monoprint, woodcut, linocut, engraving, etching, calligraphy, serigraphy and lithography.</td>
<td></td>
</tr>
<tr>
<td>ART 382</td>
<td>SCULPTURE II</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> ART 281</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course requires students to pick a specific sculptural material and to thoroughly examine its properties, qualities and characteristics for three-dimensional expression. This will allow the student to produce a body of work that reflects personal interest. Emphasis will be on experimentation, the development of technical skill, and creative problem solving.</td>
<td></td>
</tr>
<tr>
<td>ART 408</td>
<td>DIGITAL ART III</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> ART 307</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course emphasizes more advanced problems in digital art. Students will be encouraged to establish a unique artistic practice while developing a cohesive body of work. Considerable responsibility and autonomy will be required of the students. Students are encouraged to work on out-of-the-box experiments with digital tools such as installations, mixed media, and alternative presentations.</td>
<td></td>
</tr>
<tr>
<td>ART 409</td>
<td>DIGITAL ART IV</td>
<td>3</td>

<tr>
<td><strong>Prerequisite:</strong> ART 414</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course continues the progress made in Ceramics III and IV with students expected to clarify their vision for a cohesive body of work. A refinement of sophistication and vision should accompany the body of work. BFA students taking this course in conjunction with ART 490 should align their body of work with the ideas developed in the thesis abstract.</td>
<td></td>
</tr>
</tbody>
</table>
ART 432  TEACHING ART, GRADES 7-12  3
Prerequisite: ART 134, ART 141
Clinical Hours: 4 A course designed to provide the student with classroom instructional skills, methods, and strategies in teaching grades 7-12. This class is to be completed successfully prior to the Internship.

ART 433  GRAPHIC DESIGN III  3
Prerequisite: ART 332
This course is an introduction to the elements and principles of controlling rhetorical messaging via graphic design systems. The focus will be on how specific use of type and images can affect communication most effectively across various media. Client branding, interpreting market research, message targeting for demographic groups, and product packaging concepts will be covered.

ART 434  GRAPHIC DESIGN IV  3
Prerequisite: ART 433
This course puts previous exploration into context and students make final preparations for launching into the design industry. The focus will be on how specialties in the design industry require demonstration of specific skill proficiencies. Personal branding, presenting compatible client work, portfolio creation and maintenance will be covered. This course also examines the role of a graphic designer in society and prepares students for their role as participants in contemporary cultural production by focusing on presentation skills and professionalism.

ART 452  TOPICS IN ART  3
Prerequisite: None
An in-depth study of major movements and ideas in art. Some topics have included: art and popular culture of the 1960s; art and technology; and American folk art.

ART 463  PAINTING III  3
Prerequisite: ART 362
Students continue to develop their investigations in a medium style appropriate to their content. Emphasis is placed on consistency of approach and sensitivity to materials and the creative process. The ability to write about one’s work becomes increasingly important. Students are expected to maintain a sustained output of work.

ART 464  PAINTING IV  3
Prerequisite: ART 463
Students further refine their skills appropriate to their artistic intent in preparation for the creation of an exhibition-ready body of work. As they develop their painting investigations and their art writing skills, students are challenged to develop the conceptual nuances that characterize the professional fine artist. Issues of scale, style, and viewer interpretation become increasingly important.

ART 465  PAINTING V  3
Prerequisite: ART 464
In ongoing studio investigations, the student develops the capability to produce a body of exhibition-quality work. All elements of the artistic process, including the formal, the conceptual, and the expository, should coalesce to support the body of work. When taken in conjunction with ART 490 this course represents the visual reflection of the ideas developed in the thesis abstract.

ART 473  PRINTMAKING III  3
Prerequisite: ART 372
Advanced studio problems in printmaking are individually established and implemented according to content, process, and formal analysis. Focus will be on development of personal style and direction.

ART 474  PRINTMAKING IV  3
Prerequisite: ART 473
A continuation of Printmaking III that further establishes and implements advanced studio problems in printmaking according to content, process, and formal analysis. Increased focus will be on development of personal style and direction.

ART 475  PRINTMAKING V  3
Prerequisite: ART 474
Expanding on the progress of Printmaking III and IV, this course pushes students to establish the capability to produce exhibition-quality work by further addressing advanced studio problems in printmaking according to content, process, and formal analysis. A continued refinement of personal style and direction will be expected.

ART 483  SCULPTURE III  3
Prerequisite: ART 382
This course focuses on the relationship between idea, form and material. Students will be required to produce a series of sculptures that explore one specific personal or social issue of their choice. Metaphor and symbolism will be examined and used as a vehicle for communicating meaning. Emphasis will be placed on the unity of the body of work being produced as well as on clarity, craftsmanship, and presentation.

ART 484  SCULPTURE IV  3
Prerequisite: ART 483
Students will further refine their ideas on the relationship between idea, form, and material. Students will be required to produce a series of sculptures that explore one specific personal or social issue of their choice. It will be expected that part of their refinement will include more serious metaphor and symbolism use as students continue to expand the ability to communicate meaning through their work. Emphasis will be placed on the unity of the body of work being produced as well as on clarity, craftsmanship, and presentation.

ART 485  SCULPTURE V  3
Prerequisite: ART 484
This course will further challenge the student to create a cohesive body of work that exemplifies the culminating efforts of the preceding sculpture courses. The expectations on craftsmanship and artistic refinement are increased, along with those pertaining to the student's understanding of their relationship to the art world. For BFA students taking this course in conjunction with ART 490, their body of work should represent the visual reflection of the ideas developed in the thesis abstract.

ART 490  MAJOR THESIS PREPARATORY  3
Prerequisite: BFA Status; twelve hours of studio concentration
This course prepares students for the thesis writing process. The instructor of the student’s major area will serve as the instructor of record for the class, assisted by the thesis committee, composed of the instructor of the student’s minor along with two other faculty members from the Art Department and one faculty member from outside the Art Department of the student’s choosing. This committee will oversee the development of research strategies and the preparation and development of thesis drafts, including the formulation of the thesis statement, research into historical and contemporary influences, and the development of an abstract and rough draft of the thesis.

ART 491  MAJOR THESIS  3
Prerequisite: ART 490; to run concurrently with ART 492 Studio Capstone
This course formulates the ideas and drafts of Major Thesis Preparatory into a final written thesis, and provides for its oral defense in conjunction with the student's senior exhibition. Working with the same committee as in Major Thesis Preparatory, students refine their ideas about, and approaches to, the artistic process into a document that references historical and contemporary influences.

ART 492  STUDIO CAPSTONE  3
Prerequisite: BFA Status; twelve hours of studio concentration
This is the final course of the BFA student’s concentration. Students are expected to engage in a rigorous refinement of the personal style and direction previously established in their major area, and to develop a
body of work for their senior exhibition. Five sections are offered each semester (Ceramics, Computer Art, Painting, Printmaking, and Sculpture) as necessary.

ART 497 SENIOR SEMINAR 1
Prerequisite: None
This course introduces guidelines for portfolios, resumes, and professional display and documentation of artwork. It is taken in conjunction with the senior exhibition requirement. Students must pass the exhibition requirement of this course to graduate. Graded S/U.

ATHLETIC TRAINING (ATR)

ATR 165 PRINCIPLES OF ATHLETIC TRAINING 3
Prerequisite: None
Provides an overview of the sports medicine team and the components of a comprehensive athletic health care program including preseason examinations and screenings. Injury prevention, basic injury description and management, training room management, and the application of taping, wrapping, protective padding and first aid modalities will also be covered in the course.

ATR 166 CPR/AED FOR THE PROFESSIONAL RESCUE 1
Prerequisite: None
A concentrated study of preventive and remedial techniques related to safety and first aid. Successful completion of the course may certify one in CPR/AED for the Professional Rescuer and Health Care Provider and Standard First Aid

ATR 167 BASIC SKILLS IN ATHLETIC TRAINING 1
Prerequisite: ATR 165 or concurrent
The first clinical experience in the AT program. Content will include basic skills involved with emergency care procedures, transportation, taping and wrapping, custom protective padding and emergency splinting.

ATR 170 FUNCTIONAL & PALPATION ANATOMY 2
Prerequisite: None
A detailed explanation of musculoskeletal anatomy with an emphasis on palpation skills, bony landmarks, and muscle/orientation/insertion/action

ATR 270 AT CLINICAL FIELD EXPERIENCE I 2
Prerequisite: Formal admission into the athletic training program.
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Location of the field experience will be determined by the student's career goals and academic preparation.

ATR 271 AT CLINICAL FIELD EXPERIENCE II 2
Prerequisite: ATR 270
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Builds from AT 270 by adding upper extremity clinical application to the experience. Location of the field experience will be determined by the student's career goals and academic preparation.

ATR 272 INJURY RECOGNITION & MANAGEMENT OF THE LOWER EXTREMITY 2
Prerequisite: None
Prepares students in the evaluation, recognition, and management of athletic injuries to the lower extremity.

ATR 273 CLINICAL EXPERIENCE IN ATHLETIC TRAINING I 1
Prerequisite: ATR 167, ATR 272 concurrently
Develops the student's clinical proficiencies in the evaluation, recognition, and management of athletic injuries to the lower extremities.

ATR 274 INJURY RECOGNITION & MANAGEMENT OF THE UPPER EXTREMITY 3
Prerequisite: None
Prepares students in the evaluation, recognition, and management of athletic injuries to the upper extremity.

ATR 275 CLINICAL EXPERIENCE IN ATHLETIC TRAINING II 1
Prerequisite: ATR 167, ATR 274 concurrently
Develops the student's clinical proficiencies in the evaluation, recognition, and management of athletic injuries to the upper extremity.

ATR 279 THERAPEUTIC INTERVENTIONS I 4
Prerequisite: None
Provides students with the foundational knowledge in the theory, application, and treatment protocols for the lower extremity, which includes a broad range of interventions, methods, techniques, equipment, activities using body movement, and medications. Modalities will also be covered.

ATR 354 MEDICAL & ORTHOPEDIC ASPECTS IN ATHLETIC TRAINING 1
Prerequisite: None
Provides students with the foundational knowledge in the theory, application and treatment protocols for general medical conditions and the spine. This includes taking a history, observation, palpation, range of motion, special tests, neurological assessment, circulatory assessment and functional assessment.

ATR 371 THERAPEUTIC INTERVENTIONS II 4
Prerequisite: None
Provides students with the foundational knowledge in the theory, application, and treatment protocols for the upper extremity, which includes a broad range of interventions, methods, techniques, equipment, activities using body movement, and medications.

ATR 373 AT CLINICAL FIELD EXPERIENCE III 2
Prerequisite: ATR 271
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Builds from AT 270 and 271 by adding therapeutic exercise and rehabilitation clinical application to the experience. Location of the field experience will be determined by the student's career goals and academic preparation.

ATR 375 AT CLINICAL FIELD EXPERIENCE IV 2
Prerequisite: ATR 373
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Builds from AT 270, 271, and 373 by adding therapeutic exercise and rehabilitation clinical application to the experience, focusing primarily on the upper extremity. Location of the field experience will be determined by the student's career goals and academic preparation.

ATR 376 THERAPEUTIC INTERVENTIONS III 4
Prerequisite: None
Provides students with the foundational knowledge in the theory, application, and treatment protocols for the spine, posture, gait, and special populations, which includes a broad range of interventions, methods, techniques, equipment, activities using body movement, and medications.

ATR 420 ORGANIZATION AND ADMINISTRATION IN ATHLETIC TRAINING 3
Prerequisite: Intro Course (ATR 165 or SMG 161)
The basic administrative aspects of a comprehensive athletic training program. Covers competencies in the content areas of risk management, health care administration, and professional development, and responsibilities.
Course Descriptions

ATR 471  AT CLINICAL FIELD EXPERIENCE V  2  
**Prerequisite:** ATR 375  
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Builds from AT 373 and 375 through the clinical application of a patient progression plan for injuries and/or illnesses. Location of the field experience will be determined by the student's career goals and academic preparation.

ATR 472  AT CLINICAL FIELD EXPERIENCE VI  2  
**Prerequisite:** ATR 471  
Provides an opportunity to apply the theoretical knowledge gained in programmatic coursework. Builds from AT 373, 375, and 471 through the clinical application of a patient progression plan for injuries and/or illnesses. Location of the field experience will be determined by the student's career goals and academic preparation.

**BIOLOGY (BIO)**

BIO 100  HUMAN BIOLOGY  4  
**Prerequisite:** None  
This course addresses the questions of what it means for cells to be alive and how individual cells are integrated into a complex, self-regulating human organism capable of survival in its own right. This includes an examination of the functions of cells, the idea of homeostasis (physiological equilibrium) and the mechanisms of disease. Three lectures and one two-hour laboratory per week. This course does not count toward a biology major or minor. Meets Core credit for natural sciences. Offered every semester and online during the summer.

BIO 107  PLANTS AND CIVILIZATION  3  
**Prerequisite:** None  
An examination from a global perspective of the role that plants have played in the history of civilization, with consideration of the biology and chemistry of plants, their availability in different parts of the world, and their uses for food, fiber, beverages, and medicine. Current issues in agriculture and plant biotechnology are also considered. Two lecture-discussion periods and one two-hour laboratory per week. This course does not count toward a biology major or minor. Meets Core credit for natural sciences. Offered each Spring.

BIO 110  ECOLOGY AND THE HUMAN ENVIRONMENT  4  
**Prerequisite:** None  
This course examines the characteristics of ecosystems, the ways in which they change with time, and the impact of human activities on those changes. Included in this will be the study of the science behind current issues such as biological resource management, pollution, and global climate change. Three lectures and one two-hour lab per week. This course does not count toward a biology major or minor. Offered each semester. Meets Core credit for natural sciences.

BIO 111  WETLANDS AND WATERWAYS  3  
**Prerequisite:** None  
This course is organized around the central question: How does the cycling of water shape the world in which we live? This course will use scientific method to investigate the ecological roles of aquatic ecosystems (streams and rivers, lakes, wetlands, groundwater) and to study the ways in which humans and other species alter the functioning of these ecosystems. Students will practice a variety of investigative techniques from library study to field and laboratory work, and they will exercise their skills in critical thinking and analysis. Written and oral communications will also be emphasized. This course does not count toward a biology major or minor. Meets Core credit for natural sciences. Not currently on the standard rotation.

BIO 125-126  ANATOMY & PHYSIOLOGY I & II  3-3  
**Prerequisite:** BIO 125 for 126  
A systematic study of the structure and function of the vertebrate body with particular reference to man. Two one-hour lectures and one two-hour laboratory period per week. Offered each year.

BIO 129  DRUGS, POISONS, POLLUTANTS, AND THE HUMAN PERCEPTION OF RISK  3  
**Prerequisite:** None  
In this course, students will learn about the basic principles of toxicology, the study of poisons and their effects on the body. Discussions will revolve around the central theme of risk as it relates to potentially toxic chemicals that we are exposed to in our everyday lives. Specifically, students will learn to distinguish between chemicals that are truly dangerous and those that are only perceived to be dangerous by critically evaluating competing predictions of toxicity from potentially biased rival sources. They will also learn how to assess the actual risk posed to living organisms from contamination, which is often contrary to the information that is presented to the public by various media, industry, and environmental groups. In addition, students will learn how contamination produced on a local scale can ultimately become a risk to the entire global community. This course does not count toward a biology or toxicology major or minor. Meets Core credit for natural sciences.

BIO 130  INTRODUCTION TO TOXICOLOGY  1  
**Prerequisite:** None  
Introduction to the science of toxicology focusing on broad general principles and their applications to current issues and events. Not currently on the standard rotation.

BIO 201  MOLECULAR & CELLULAR BASIS OF LIFE  4  
**Prerequisite:** High school biology and chemistry or equivalent strongly recommended  
This course centers on the question: What are the molecular and cellular processes that define life, and how are they sustained from generation to generation? In the process of studying this question, students will have the opportunity to examine the application of the scientific method to the study of the fundamentals of cellular structure and function, as well as to investigate the molecular transmission of information from generation to generation and the integration of cells into whole functioning organisms. Three lectures and one 2-hour lab per week. This course is designed for science majors and those planning careers in the health sciences. Meets Core credit for natural sciences. Offered each semester.

BIO 202  ORGANISMS, ADAPTATION, AND DIVERSITY  4  
**Prerequisite:** None  
This course centers on the question: How do organisms solve the problems of survival, and how are the solutions that have evolved influenced by the environment? Students will examine how observed similarities and differences in organismal structure and function relate to environmental pressures, as well as studying how these observations can be used to construct a logical theory of evolutionary relationships between different organisms. In addition, the complex interactions that have developed between different organisms and between organisms and their environment will be examined. Three lectures and one 2-hour lab per week. This course is designed for science majors and those planning careers in the health sciences. Meets Core credit for natural sciences. Offered each semester.

BIO 205  GENERAL ZOOLOGY  4  
**Prerequisite:** BIO 202  
A study of biological principles as they pertain to animals and a systematic study of the anatomy, physiology, ecology, behavior, and taxonomy of the major animal phyla. Three lectures and one two-hour laboratory period per week. Offered Spring of even years.

BIO 207  GENERAL BOTANY  4  
**Prerequisite:** BIO 202  
A systematic study of the anatomy, physiology, ecology, and taxonomy of plants. Three lectures and one two-hour laboratory period per week. Offered Fall of odd years.
### BIO 215  FIELD ZOOLOGY  4

**Prerequisite:** BIO 202 OR BIO 205

A study of the principles of field study and the collection, preservation and identification of common vertebrate and invertebrate animals. Three lecture-laboratory periods and one three-hour laboratory/field trip per week. Offered Fall of odd years.

### BIO 217  LOCAL FLORA  3

**Prerequisite:** BIO 202

A study of the principles of field study and classification of the common plants of north central Ohio. Two lecture/laboratory periods and one three-hour field trip per week. Not currently in the standard rotation.

### BIO 219  ENTOMOLOGY  4

**Prerequisite:** BIO 202

A study of the diversity, taxonomy, morphology, ecology and behavior of insects, our most common and numerous animals. Three lectures and one three-hour laboratory/field trip per week. Offered Fall of even years.

### BIO 222  ANATOMY & PHYSIOLOGY FOR NURSING I  4

**Prerequisite:** Enrollment in nursing and/or athletic training major

The first in a two-course series on human anatomy and physiology for nursing students. The course encompasses the anatomical and physiological body functions. It includes basic anatomical and directional terminology; fundamental concepts and principles of cell biology; histology, the integumentary, skeletal, muscular, nervous, special senses, and endocrine systems as they pertain to the clinical setting. Students will use models, tissue slides and the dissection of cadavers during lab periods. Offered every semester.

### BIO 223  ANATOMY & PHYSIOLOGY FOR NURSING II  4

**Prerequisite:** BIO 222

The second in a two-course series on human anatomy and physiology for nursing students. The course encompasses the anatomical and physiological and some clinical pathology as it pertains to blood, the cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems of the human body. Students will use models, tissue slides, diagnostic equipment and the dissection of cadavers during lab periods. Offered every semester.

### BIO 224  INTRODUCTION TO BIOTECHNOLOGY  3

**Prerequisite:** BIO 201

This course will introduce students to the fundamental issues and themes in biotechnology. The emphasis is placed on the applications of biotechnology to the environmental science, pharmaceutical, and agriculture industries. In addition, the course will focus on specific techniques and methodologies employed by the biotechnology industry. Students will also gain exposure to the regulatory policies and procedures involved in bringing biotech products to the marketplace, and the bioethical issues and controversies associated with advances in biotechnology and medicine. Not currently in the standard rotation.

### BIO 234  FORENSIC SCIENCE  3

**Prerequisite:** Four hours of biology and four hours of chemistry

This course explores the application of scientific methods and techniques to problems in the field of forensic science. Topics considered include analysis of hair, fiber, and other materials, fingerprinting, forensic serology and toxicology, and DNA analysis. Offered spring semester of odd years.

### BIO 240  MICROBIOLOGY FOR NURSING  4

**Prerequisite:** Enrollment as nursing major

This course focuses on the basics of prokaryotic and eukaryotic microbiology. Topics covered include cellular structure and function, microbial growth and metabolism, microbial genetics, microbial diversity and evolution, and interactions between microbes and humans, with a focus on microbial pathogenesis, disease transmission, the host immune system, and antimicrobial chemotherapy. This is a laboratory-intensive course designed to provide students with hands-on experience manipulating biological samples. Class will combine both lecture and lab sessions. This course does not provide credit toward the biology major or minor. Offered every semester.

### BIO 276  ENVIRONMENTAL SCIENCE SEMINAR  1

**Prerequisite:** None; Sophomore or Junior status

A seminar course that examines selected environmental science topics in conjunction with the Environmental Lecture series. May be taken twice for credit. Biology majors may take this twice for biology elective credit. EVS/Biology majors may take this a second time for biology elective credit. Offered every spring. BIO/EVS credit.

### BIO 297  INTRO TO LAB & FIELD RESEARCH  1

**Prerequisite:** Sophomore or Junior Status

This course is designed to introduce the student to biology research in the laboratory or field through individual instruction under the direction of a Biology/Toxicology faculty member. Graded S/U. To be arranged between each student and a faculty member.

### BIO 301  PROFESSIONAL PREPARATION  1

**Prerequisite:** Biology/toxicology/Env. Sci major and sophomore or junior status

This course begins to prepare biology students for their transition from college to a professional school, graduate school, or job. This course should be taken during the sophomore or junior year. Graded S/U. Offered each semester.

### BIO 303  GENETICS  4

**Prerequisite:** BIO 201 and six hours of Biology

An introduction to modern genetics, including Mendelian principles, molecular genetics, cytogenetics, population genetics and quantitative genetic Three lectures and one two-hour laboratory per week. Offered each semester.

### BIO 304  JOURNAL CLUB  1

**Prerequisite:** Biology major; Jr. or Sr. status

A discussion-based seminar style course in which students read, discuss and present primary research literature in the biological sciences. Students will enhance their ability to use literature search engines, the critical thinking and analytical skills to understand and critique research writing, and the communication skills necessary to present scientific information to their peers. Topics for the course will vary from year to year. Fulfills the Biology major requirement for a seminar course, and can be taken as an elective up to two times for all Biology and Toxicology majors. Offered every year in the Fall.

### BIO 305  EVOLUTION  3

**Prerequisite:** BIO 202 or BIO 303 or concurrent

Evolution is considered to be the central unifying theory of biology. This course will address several questions: What is the classical and modern evidence for evolution, what are the mechanisms for evolutionary change, and how do evolutionary biologists pose questions and study evolutionary processes? Topics will include biogeography, comparative anatomy and physiology, evolutionary development, comparative genomics, pathogen evolution, the origins of multicellularity, and the use of cladistics to make phylogenetic inferences. Offered fall of even years.

### BIO 310  ECOLOGY  4

**Prerequisite:** BIO 202

A study of living organisms in their relations to each other and to their environment. Three lectures and one three-hour laboratory/field trip per week. Offered fall semester of odd years.

### BIO 320  INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS (GIS)  4

**Prerequisite:** None

This course covers the fundamental principles of geographic information systems. Students will enhance their ability to use geographic information systems, the use of geographic information systems to make geographic inferences and to analyze geographic data. Students will learn to use geographic information systems software for data collection, manipulation, and analysis. The course will also cover the basics of GIS and its applications in a variety of fields, including environmental science, urban planning, and public health. Offered each semester.
systems (GIS), which is the merging of cartography, statistical analysis, and database technology into computer-based systems that capture, store, manipulate, analyze, manage, and present all types of geographical data for a wide variety of applications and purposes, but with the goal of informed decision-making. Students will learn how to create interactive queries (user-created searches), analyze spatial information, edit data in maps, and present the results of all these operations, primarily applying these to geological and environmental systems. BIO/EVS/GEOL credit.

BIO 325-326 ANATOMY & PHYSIOLOGY I & II 4-4
**Prerequisite:** BIO 201; 325 for 326
This course is designed to impart the in-depth knowledge of anatomy and physiology needed by preprofessional students planning careers in medical or allied health fields as well as those interested in graduate study. Offered each year.

BIO 327 PLANT PHYSIOLOGY 4
**Prerequisite:** BIO 202
This course examines how plants work at the biochemical, cellular, and organizational levels. Topics include photosynthesis, how plants acquire and transport materials, environmental and hormonal regulation of growth and development, physiological ecology, secondary metabolism, plant defenses, and genome organization. Lab will involve student-designed experiments using the greenhouse and growth chambers, the portable photosynthesis system and other lab equipment, as well as molecular techniques. Three lectures and one two-hour laboratory period each week. Offered Spring Semester of even years.

BIO 328 VERTEBRATE BIOLOGY 4
**Prerequisite:** BIO 202
This course will introduce students to the broad field of vertebrate biology. We will use vertebrate diversity as a framework for examining the ways that this group of animals has come to dominate all of the world’s habitats. The course will examine anatomy, physiology, ecology, behavior and biogeography in relation to the vertebrate evolutionary story that dates back over 500 million years. Offered Spring Semester of odd years.

BIO 329 DEVELOPMENTAL BIOLOGY 4
**Prerequisite:** BIO 202, BIO 303
This course examines development of living organisms, with primary emphasis on vertebrate animal development, but including important developmental concepts related to invertebrate animals and to flowering plants. Study includes reproductive anatomy and physiology, morphology, cell fate, potency and determination, genomic equivalence, developmental regulation, cellular differentiation, the roles of Hox genes and apoptosis in development, and pattern formation. Not currently in the standard rotation.

BIO 330 PRINCIPLES OF TOXICOLOGY 3
**Prerequisite:** BIO 201, BIO 202, CHEM 104
This course will focus on the basic principles of toxicology, the study of poisons. Topics covered include molecular and cellular sites of action of toxicants, carcinogenesis, and teratology, as well as physiological effects of toxicants on the nervous system, cardiovascular system, respiratory system, immune system, and other organ systems. The actions of environmental toxicants on ecological systems will also be explored. Offered each fall.

BIO 331 METHODS IN TOXICOLOGY 4
**Prerequisite:** BIO 330
In this course, students will learn about the methods and techniques that are commonly utilized in toxicology laboratories. Guided by peer-reviewed scientific literature, students will formulate hypotheses, conduct experiments, analyze data, and compile results for a variety of bioassays. Topics covered include toxicity testing with animals and plants, testing with chemical mixtures, modeling and statistical analysis of toxicological data, collection, extraction, and analysis of biological tissue and environmental media, and proper care and handling of research animals. Offered Spring of even years.

BIO 332 TOXIC AGENTS 3
**Prerequisite:** BIO 330
In this course, students will explore the different classes of chemical toxins and their effects on living organisms. They will learn about toxic activities, physical properties, regulatory status, and current/historic uses of various poisons, pesticides, and environmental toxins. Emphasis is placed upon the medical, agricultural, environmental, residential, and commercial significance of these substances. Classes of chemicals that will be discussed include toxic metals, non-metal inorganic toxins, organic pesticides (particularly insecticides, herbicides, fungicides, and rodenticides), chemical warfare agents, non-pesticides organic toxins, solvents and vapors, plant and fungal toxins, and animal venoms. Offered Spring of odd years.

BIO 340 MICROBIOLOGY 4
**Prerequisite:** BIO 201 and CHEM 104
This course explores the characteristics of microorganisms including bacteria, viruses, protists and fungi, with an emphasis on bacteria. Topics discussed include cellular structure and function, molecular genetics of bacteria, microbial metabolism and physiology, microbial diversity and ecology, and mechanisms of pathogenesis and host immunity. Through this course students will gain a deeper understanding of the microbial world and its relevance to human life, and master the tools and techniques necessary for successful laboratory investigations involving microbes. Offered each Spring.

BIO 348 EMERGING PATHOGENS 3
**Prerequisite:** BIO 240 or 340
A course designed to give the student an understanding of factors that lead to the emergence of new human pathogens. Emerging diseases such as HIV, Mad Cow disease, Dengue Fever, and E.coli H157 are discussed. Offered Fall of even years.

BIO 403 ADVANCED GENETICS 4
**Prerequisite:** BIO 303 CHEM 307
This course considers viral and bacterial genetics molecular aspects of gene regulation, recombinant DNA technology and current applications of genetic Three lectures and one two-hour lab per week. Not currently in the standard rotation.

BIO 410 BIOLOGY FIELD STUDY 1-6
**Prerequisite:** 12 hours of biology
Studies unique habitats and natural areas through intensive on-site exploration to develop an appreciation for the complex interactions that have shaped various natural areas and how these areas are significant to our knowledge of biological diversity. Not currently in the standard rotation.

BIO 410A THE ECOLOGY OF THE GREAT SMOKY MOUNTAINS 2/4
**Prerequisite:** 12 hours of biology
A study of the unique features that have make The Great Smoky Mountains one of the most diverse temperate regions on earth. We study the complex ecological interactions that have shaped this unique area and how the Smokies have influenced even the Ashland area. There are two weeks of on-campus classroom preparations, then one week of study in The Smokies and a final class session after returning. Not currently in the standard rotation.

BIO 411 LIMNOLOGY 4
**Prerequisite:** BIO 202
This class introduces the fundamental concepts of limnology, the study of lakes, rivers, and wetland ecosystems. Limnology is an integrative science that investigates the physical, chemical, biological, and ecological properties and processes of fresh water environments. Therefore, we will discuss fundamental concepts and questions about how aquatic ecosystems affect organisms from different perspectives. We will also practice basic techniques for measuring and experimentation, and evaluate current research through a variety of approaches. 3-hour lecture and one 3-hour lab per week. Offered Spring of odd years.
BIO 412  MARINE BIOLOGY  4
Prerequisite: BIO 202
This course will examine the marine environment with a focus on marine ecology. Topics covered will include physical and chemical processes in the ocean, marine biodiversity and ecology, and human impact on the oceans. The course includes a hands-on lab component utilizing the department's marine aquarium and collection of marine organisms. The semester concludes with a field trip to the Atlantic coast. Offered spring semester of even years.

BIO 415  ETHOLOGY  4
Prerequisite: BIO 205
A study of animal behavior and its genetic, evolutionary and ecological aspects. Three lectures and one three-hour laboratory-field trip per week. Not currently in the standard rotation.

BIO 420  HISTOLOGY  3
Prerequisite: 16 hours of biology
This course is an in-depth study of the organization of the cells, tissues, and major organs of the body. An emphasis is placed upon identification of tissues and organs from mammalian systems. Students learn to identify cell types, tissue types, and organs by examination of prepared and ektachrome slides from our large histological slide collection. 2 hours of lecture in addition to one 2 hour lab per week. Not currently in the standard rotation.

BIO 424  CELL BIOLOGY  4
Prerequisite: 12 hours of biology, BIO 303 or corequisite
This course examines multiple aspects of the biology of the cell as the fundamental unit of life. Emphasis is placed upon both the cellular and molecular details of eukaryotic cell structure and function with careful consideration given to the evolutionary relationships that exist between species. Topics covered include biomolecules, the plasma membrane, cellular organelles, membrane trafficking, cell signaling, the cytoskeleton, the cell cycle, and programmed cell death. In this course, students will not only have the opportunity to learn basic cell biology, but also to improve their critical thinking skills, and gain hands-on experience with modern laboratory equipment. 3 hours of lecture and one 3 hour lab per week. Offered every fall.

BIO 425  ADV HUMAN PHYSIOLOGY  4
Prerequisite: 16 hours of biology
This course examines the human being from the physiological perspective. Emphasis is placed on understanding the biological, chemical, and physical aspects of the major organ systems of the body; nervous, muscle, cardiovascular, respiratory, renal, digestive, endocrine and reproductive. Each system is studied from the perspective of how that system functions independently within the human body, and how it contributes to the overall functioning of the human being. 3 hours of lecture, and 2 hours of lab per week. Offered each spring.

BIO 428  MOLECULAR BIOLOGY  4
Prerequisite: BIO 303
This course examines several topics in molecular biology including gene structure, transcription regulation, RNA processing, molecular evolutionary biology, translation, bioinformatics, and the techniques used by molecular biologists to study these topics. This course emphasizes the development of a molecular biological vocabulary, the development of critical thinking skills, and an intense lab experience. 2 hours of lecture and one 4-hour lab per week. Offered spring semester of odd years.

BIO 429  BIOCHEMISTRY  3-4
Prerequisite: See CHEM 429 for course descriptions.

BIO 432  PHARMACOLOGY TOXICOLOGY I  3
Prerequisite: 16 hours of biology; CHEM 307
A study of the principles of pharmacology, including drug administration, pharmacokinetics, and therapeutic and/or toxic effects of commonly used drugs. Focus is on the action of drugs on the autonomic and central nervous systems. Offered each fall.

BIO 433  PHARMACOLOGY TOXICOLOGY II  3
Prerequisite: BIO 432
Further study of effects of drugs and toxicants. Includes the study of drugs which affect cardiovascular, urinary, gastrointestinal, respiratory, immune, and endocrine systems. Also covered are antibiotics, chemotherapy, and a survey of major classes of toxicants (solvents, pesticides, and heavy metals). Offered each spring.

BIO 439  ADVANCED TOPICS IN BIOCHEMISTRY  3
Prerequisite: See CHEM 439 for course descriptions.

BIO 449  VIROLOGY  3
Prerequisite: BIO 340 or BIO 424 or BIO 428
This course examines the characteristics of viruses, including those that infect bacteria, plants, insects, and man. Topics discussed include replication strategies of various viruses, bacteriophages as agents of evolution, pathology of mammalian viruses, prevention and treatment of viral disease, associations between viral infection and cancer, and the transmission of viruses from host to host. Not currently in the standard rotation.

BIO 454  IMMUNOLOGY  4
Prerequisite: BIO 340 or BIO 424 or BIO 428
The study of the host's response to infectious diseases. Topics discussed include generation of antibody diversity, interactions between antigens and antibodies, T-cell and B-cell activation and function, the complement system, autoimmune disorders, acquired immune disorders, immunological memory, and vaccination strategies. Laboratory activities include antibody preparation, gel diffusion assays, Western Blotting, and ELISA. Not currently in the standard rotation.

BIO 476  ISSUES IN ENVIRONMENTAL SCIENCE  3
Prerequisite: 30 hours of science courses (MATH, BIO, CHEM, GEOL, PHYS)
A detailed examination of the scientific dimensions of selected environmental issues, with discussion of the economic policy, and ethical aspects of those problems and with emphasis on global and international perspectives. Case studies will include many examples from other countries, as well as national and regional issues in the U.S. Required for all EVS majors. Biology & Geology majors (but not EVS/Biology or EVS/Geology majors) may use this course as a biology or geology elective. Offered every spring. BIO/EVS/GEOL credit.

BIO 480  ADVANCED TOPICS IN BIOLOGY/TOXICOLOGY  1-4
Prerequisite: Junior standing
This course is designed to offer in-depth study of a selected advanced topic at a level appropriate to junior and senior majors in biology/toxicology and related areas. May be repeated for credit as topics change. Offered occasionally.

BIO 493  PROFESSIONAL INTERNSHIP  1-16
Prerequisite: 12 hours of resident credit, junior or senior standing and permission of department chair
A course designed to allow advanced biology students to gain practical experience in an area of potential career interest. Students will work under the guidance of an on-site supervisor, following a learning plan to be developed jointly by the supervisor, the student, and a faculty advisor. Graded S/U.

BIO 495  BIOLOGY SENIOR SEMINAR  1
Prerequisite: Senior status in biology, toxicology, env. sci/bio
This course asks the question, What should a well-educated biologist know? and serves as a review of the important topics that all biology majors should be familiar with upon graduation. Spring semester of the senior year.

Advisors.

BUS 250-259  TOPICS IN BUSINESS  1-3
Prerequisite: As required, depending on topic

Courses devoted to various topics of current interest in business. Courses will be designed to meet the educational needs of students in a corporate setting. Courses do not count toward a particular major or minor in the college. Repeatable for new topics.

BUS 339  BUSINESS INTERNSHIP/COOPERATIVE EDUCATION  3-6
Prerequisite: Sophomore status and approval by the Academic Internship Advisor

This course helps the BSBA student meet the internship/work experience requirement for the BSBA degree. A minimum of 225 hours is needed to fulfill this requirement. Before beginning the internship, the student will need to complete all the appropriate paperwork including the Learning Contract, fulfill the requirements listed in the Learning Contract, and obtain the approval of the Academic Internship Advisor. The student may repeat 339 once for a total of no more than 6 credit hours.

BUS 341  APPLIED REGRESSION ANALYSIS  3
Prerequisite: See MATH 341 for course Description

BUS 439  BUSINESS INTERNSHIP/COOPERATIVE EDUCATION  3-6
Prerequisite: None

This course is designed for students completing their second or third business internship after they have satisfied the internship/work experience requirement for the BSBA degree. The student is required to work a minimum of 225 hours and fulfill other requirements as stated in the Learning Contract. Prior approval of the academic internship advisor and completion of the appropriate paper work, including the learning contract, are required. The student may repeat 439 once for a total of no more than 6 credit hours. Graded S/U.

CHEMISTRY (CHEM)

CHEM 103  GENERAL CHEMISTRY  4
Prerequisite: High school chemistry, 3 yrs. High School math

This course introduces the properties of atoms and molecules using the logical processes of scientific reasoning and investigation. Models of the atom are developed using periodicity and quantum mechanics, and these models are extended to molecules, with an emphasis on the effects of forces within a molecule and between molecules. Applications will be made to the biological and geological sciences, medicine, and the environment. The laboratory emphasizes the development of technical skills using safe laboratory practices. Inquiry approaches to problem-solving are introduced, and conclusions are drawn based on data at hand. Chemical and scientific thinking skills are assessed using formal laboratory reports. Offered every fall. Meets Core credit for natural sciences.

CHEM 104  GENERAL CHEMISTRY  4
Prerequisite: CHEM 103

This course examines chemical reactions using the logical processes of scientific reasoning and investigation. Chemical reactions are studied from the perspectives of thermodynamics, equilibrium and kinetics. Applications will be made to the biological and geological sciences, medicine, and the environment. The laboratory emphasizes the development of technical skills using safe laboratory practices. Inquiry approaches to problem-solving are introduced, and conclusions are drawn based on data at hand. Chemical and scientific thinking skills are assessed using formal laboratory reports. Offered every spring. Meets Core credit for natural sciences.

CHEM 250  LEAD AND CIVILIZATION  3
Prerequisite: None

An intensive examination of the role lead has played in the history of civilization, with emphasis on how the uses and toxicity of this metal are related to its chemical properties. Meets Core credit for natural sciences.

CHEM 251  MOLECULAR ARCHITECTURE  3
Prerequisite: None

The vibrant world of chemistry is explored by seeking answers to three specific questions: 1) What is a molecule? 2) How are molecules constructed? 3) How are molecules characterized? Answers to these questions are sought by an in-depth investigation of organic molecules that are either encountered in daily life or are, in part, critical for sustaining life. Consequently, students are introduced to the logical processes of scientific reasoning and investigation and invited to contemplate the impact of chemistry upon society. Meets Core credit for natural sciences.

CHEM 252  CHEMISTRY OF CRIME SCENE INVESTIGATION  3
Prerequisite: High school chemistry

This course relates real world applications of analytical chemistry to the investigation of crimes. The underlying chemistry and biochemistry involved in forensic analysis are addressed. Also, the exploration of scientific inquiry as it relates to developing hypotheses and providing proof of a crime based on chemical evidence is investigated. This course does not count toward any major in the natural sciences. Meets Core credit for natural sciences.

CHEM 253  CHEMICAL PERSPECTIVES ON LIFE  4
Prerequisite: None

This course explores the question: What do living organisms look like from a chemical perspective? Answering this question requires an understanding of fundamental chemical concepts of inorganic, organic and biochemistry. The laboratory will enhance understanding of chemical concepts and the scientific method, and develop the student's critical thinking skills. The course assumes no chemistry background. It does not meet major or elective requirements of majors in Chemistry/Geology/Physics or Biology/Toxicology Departments. Three lectures and one 1 hr. 50 min. lab per week. Meets core credit for natural sciences. It does not meet major or elective requirements in CHEM/GEOL/PHYS and BIO/TOX departments.

CHEM 297  INTRODUCTION TO LABORATORY & FIELD RESEARCH

Prerequisite: Soph or junior standing

This course will introduce the student to scientific research in the laboratory or field through individual instruction on the direction of a Chemistry faculty member. Graded S/U. Offered each semester.

CHEM 307-308  ORGANIC CHEMISTRY I & II  3-3
Prerequisite: CHEM 104; 307 FOR 308

A survey of the general principles of organic chemistry including nomenclature, structure, reactions, multi-step synthesis, the effect of structural variation on reactivity and structural determination by spectroscopic methods. Emphasis is placed on mechanism and application. Must be taken concurrently with lab 307 offered every fall. 308 offered every spring.

CHEM 307L  ORGANIC CHEMISTRY LABORATORY

Prerequisite: CHEM 104

Provides practical experience in modern techniques utilized in the organic chemistry laboratory. The course emphasized the study of the properties, reactivity, and synthesis of organic compounds. The

CHEM 308L  ORGANIC CHEMISTRY LABORATORY

Prerequisite: CHEM 307

Provides practical experience in modern techniques utilized in the organic chemistry laboratory. The course emphasized the study of the properties, reactivity, and synthesis of organic compounds. The
CHEM 320  QUANTITATIVE ANALYSIS  4
Prerequisite: CHEM 104
A study of the fundamental principles of gravimetric, volumetric, colorimetric, potentiometric and chromatographic methods of analysis as applied to the quantitative determination of constituents in practical samples. Two lectures and two three-hour laboratory periods per week. Offered every fall.

CHEM 350  SCIENCE AS A CULTURAL FORCE  3
A-MAKING OF THE BOMB
B-THE TOBACCO WARS
C-SCIENCE AND HUMAN NATURE
D-EVOLUTION: FOR & AGAINST
E-SCIENCE AND RATIONALITY
Prerequisite: Any natural science core course
An inquiry into the nature of the scientific method in relation to human culture and its use in gaining and applying new knowledge. This course constitutes a substantial interdisciplinary investigation of the impact of science and technology upon society by way of a sustained look at one particular scientific issue or question for the semester. The ethical dimensions of advances in science and technology are explored in detail. Meets Core credit for humanities or natural sciences, but not both. May be taken only once for Core credit. CHEM/GEOL/PHYS/PHIL credit.

CHEM 411-412  PHYSICAL CHEMISTRY I & II  3-4
Prerequisite: PHYS 206
Studies the basic concepts of thermodynamics, kinetics and quantum mechanics. Three lectures and one three-hour laboratory per week. Chemistry minors may omit the labs and receive 3 hours credit for each. 411 is offered in the fall, odd years. 412 is offered in the fall, odd years.

CHEM 413  ADVANCED SYNTHESIS LABORATORY  3
Prerequisite: CHEM 411
Multistep syntheses with careful purification and characterization of each intermediate are used to integrate new ideas and techniques with those introduced in previous courses.

CHEM 416  ADVANCED INORGANIC CHEMISTRY  4
Prerequisite: CHEM 411
Studies trends in reactivity, structure and properties of the elements. Three lectures and one three-hour laboratory per week.

CHEM 420  INSTRUMENTAL ANALYSIS  4
Prerequisite: CHEM 320
A thorough study of the physical principles and the analytical techniques used in instrumental methods of analysis. Two lectures and two three-hour laboratory periods each week.

CHEM 429  BIOCHEMISTRY  3-4
Prerequisite: CHEM 307
Introduction to biochemical principles, systems and methods including the chemistry and metabolism of biologically important compounds. Three lectures and one three-hour laboratory period per week. Course may be taken without lab for three hours credit. Offered each fall. BIO/CHEM credit.

CHEM 439  ADVANCED TOPICS IN BIOCHEMISTRY  3
Prerequisite: CHEM 429
A study of the complexity of the chemical reaction of biological macromolecules involving investigating the interactions of both organic and inorganic molecules (bio-inorganic chemistry) and the techniques used to study biomolecular structure and function (bio-physical chemistry). This seminar emphasizes critical review and discussion of current scientific literature as well as the development of oral and written presentation skills. Offered in Spring, odd years. BIO/CHEM credit.

CHEM 493  INTERNSHIP  1-4
Prerequisite: Soph. status and approval by department chair
An internship in a laboratory and/or field setting applicable to the discipline will be completed under the supervision by a qualified professional(s). Documentation of 50 clock hours per credit hour, typically over six consecutive weeks (minimum) is required. CHEM/GEOL/PHYS credit.

CHEM 497  LABORATORY & FIELD RESEARCH  1-3
Prerequisite: Soph. status, perm. of inst. and chair
Laboratory research performed under faculty supervision. This course allows undergraduate students the opportunity to become involved in original research projects directed by Chemistry/Geology/Physics faculty members. Repeatable up to 8 hours.

CHEM 550  INQUIRY CHEMISTRY INSTRUCTION USING CASE STUDIES  3
Prerequisite:
The use of case studies in the secondary chemistry curriculum will be explored, with an emphasis on writing case studies that apply inquiry and problem-based learning approaches. Examples of case studies will be provided. Demonstrations, hands-on activities, and laboratory experiments will serve as the basis for the development of the new case studies in the areas of acid-base chemistry, stoichiometry, equilibria, and color.

COACHING & INSTRUCTION IN SPORT

CIS 170  FOUNDATIONS OF COACHING  2
Prerequisite: None
An introduction to the art and science of coaching, including development of a personal philosophy and the application of scientific training principles in the physiological, psychological and managerial bases of sport coaching. The course offers students the opportunity to obtain American Sport Education Program (ASEP) coaching certification.

CIS 321  THEORY/TECHNIQUES OF FOOTBALL  2
Prerequisite: None
Philosophy, theory, methods, techniques and organization of football.

CIS 322  THEORY/TECHNIQUES OF BASEBALL  2
Prerequisite: None
Philosophy, theory, methods, techniques and organization of baseball.

CIS 323  THEORY/TECHNIQUES OF TRACK & FIELD  2
Prerequisite: None
Methods, techniques and organization of track & field.

CIS 324  THEORY/TECHNIQUES OF SOFTBALL/BASEBALL  2
Prerequisite: None
Strategy, methods, techniques and organization of baseball and softball.

CIS 325  THEORY/TECHNIQUES OF COMPETITIVE SWIM/POOL MGT  2
Prerequisite: None
An analysis of instructional and training techniques used in swimming. Procedures in proper pool management will be investigated.

CIS 326  THEORY/TECHNIQUES OF SOCCER  2
Prerequisite: None
Theory, methods, techniques and organization of soccer.
CRIMINAL JUSTICE (CJ)

CJ 130 INTRODUCTION TO CRIMINAL JUSTICE 3
Prerequisite: None
An overview of the philosophical, historical, and operational aspects of the justice system in the United States.

CJ 200 CRIMINAL INVESTIGATION 3
Prerequisite: CJ 130
Provides the student with an opportunity to study the technical, theoretical and legal aspects of criminal investigation.

CJ 227 INTRODUCTION TO CORRECTIONS 3
Prerequisite: None
This course is an overview of the process and institutions involved in the supervision, treatment, control, and incarceration of those individuals who have been adjudicated and sentenced by the court. Corrections in the United States encompass a variety of public and private institutions including: probation and parole systems, jails, prisons, half-way houses and post-release supervision.

CJ 235 COURTS AND JUSTICE 3
Prerequisite: CJ 130
Affords the student a concentrated study of the functions, operations and decision-making process of the American court system.

CJ 240 CRIMINAL INVESTIGATION II 3
Prerequisite: CJ 130, CJ 200
A continuation of CJ 200. The course will focus on investigative theory and technique for major felonies including murder offenses, sexual assault, and theft related to crimes, recognizing that each crime category involves different processes to properly investigate that incident. The legal concept of forensic science and the differing roles of the coroner, forensic scientists, technicians, crime scene investigator, and the crime lab in investigations will also be discussed.

CJ 242 CRIMINOLOGY 3
Prerequisite: None
This course surveys, and critically appraises, various theories of crime causation, including an examination of classical, biological, psychological, and sociological perspectives on the etiology of crime. CJ/SOC credit.

CJ 244 JUVENILE DELINQUENCY 3
Prerequisite: None
A course planned to aid the student in the examination of juvenile delinquency as a social problem from the perspectives of control prevention and rehabilitation. Delinquency will be viewed as to definition, genesis and extent. The social institutions of families and schools will be discussed in detail. The juvenile courts, probation, parole, correction institutions and child placement programs are to be examined with respect to their effectiveness, philosophy and goals. CJ/SOC credit.

CJ 270 ROLE OF POLICE IN MODERN SOCIETY 3
Prerequisite: CJ 130
Study of the role behavior and life of the line officer within the police subculture and within society. Topics examined are the influence of coercive power, role behavior, subcultural influences, and personal issues relating to loyalty, stress, health, critical incidents, family, and faith.

CJ 275 GANGS AND CULTS 3
Prerequisite: None
See SOC 275 for course description.

CJ 307 VICTIMOLOGY 3
Prerequisite: None
Victimology is the study of the role of the victim in criminology and the criminal justice system. Areas to be investigated include the relationship between victims and their criminal offenders, societies' responses to the victims, the victim's role in the criminal justice process and programs directed at assisting victims of crime. CJ/SOC credit.

CJ 331 TOPICS IN CRIMINAL JUSTICE 3
Prerequisite: None
A seminar open to criminal justice majors/minors which will provide an opportunity to explore, in-depth, topics pertinent to or impacting on the field of criminal justice. This may include critical observations or historical, contemporary or future issues. Repeatable to a maximum of 9 hours.

CJ 332 TERRORISM & HOMELAND SECURITY 3
Prerequisite: None
This course will look at what terrorism is and what a terrorist group is. This course will also examine theories explaining terrorist behavior and how economics, race, religion and other factors influence terrorism and motivate terrorist groups. The course will also look at the responses to terrorism, and particularly how it is being fought through the concept of Homeland Security.

CJ 360 READINGS IN CRIME AND JUSTICE 3
Prerequisite: None
This course surveys major literary works that deal with crime and punishment and examines these works in terms of motivation, social milieu, culture and legal systems that affect our understanding of justice and the laws that attempt to achieve that justice.

CJ 362 CRIMINAL LAW 3
Prerequisite: CJ 130
Analysis and evaluation of the growth of legal relationships between the individual and government with special attention to problems of law enforcement-law adjudication and the impact of their decisions on the citizen and the criminal justice system.

CJ 365 CORRECTIONAL ADMINISTRATION 3
Prerequisite: CJ 130, 227
This course provides the student with the context of corrections history and with the goals and philosophies of the correctional system. The student will examine correctional administration and management using contemporary theory, research, and best practices. The student will also examine issues such as offender classifications, rehabilitative and restorative initiatives, treatment programs, life-course and educational services, various institutional environments and levels, and the functions and management of correctional staff.

CJ 366 CRIMINAL PROCEDURE 3
Prerequisite: CJ 130, CJ 362
Examination of the area of law balances governmental power and individual rights. Issues that address balancing controlling crime with due process rights include search and seizure, detention and arrest, interrogation, trial rights and sentences.

CJ 403 FIELD EXPERIENCE/INSTRUCTION-CJ 1-12
Prerequisite: Permission of instructor
Provides an opportunity for CJ majors to observe and experience the criminal justice system in action. The student selects from a variety of
agencies or organizations willing to offer this opportunity and, with the help and guidance of the field coordinator, participates in an experience designed to bring academic preparation together with the reality of being professional criminal justice practitioners. Experience may be taken for up to a total of 12 hours.

**COM 100**  DEVELOPMENTAL SPEECH  
Prerequisite: None  
An elementary course designed for freshmen students whose oral communication skills are in need of reinforcement. Class enrollment will be determined by the recommendation of faculty members or student request. The credit hours may not be applied to communication requirements for graduation. Course will be graded A, B, C or U. If a U is earned, course must be repeated. Offered infrequently.

**COM 101**  HUMAN COMMUNICATION  
Prerequisite: None  
This course encompasses communication theory, interpersonal communication, small group communication and public speaking. Emphasis is placed on speaking, critical thinking, listening skills. Attention is also paid to nonverbal communication. Meets Core credit for communications.

**COM 120**  FOUNDATIONS OF HEALTH COMMUNICATION  
Prerequisite: None  
This course encompasses communication theory, interpersonal communication, small group and team communication and public speaking specific to the healthcare setting. Emphasis is placed on speaking, critical thinking, listening, and feedback skills. Attention is also paid to nonverbal communication. Meets Core credit for communications.

**COM 163**  FOUNDATIONS OF SPORT COMMUNICATION  
Prerequisite: None  
Introduction to the sport communication field with emphasis on organization and administration areas. The course will deal with the working relations with media and personnel in professional sport and other intercollegiate athletic conferences.

**COM 204**  COMMUNICATION THEORY AND RESEARCH  
Prerequisite: COM 101 or COM 120  
This course surveys, analyzes and applies the major theories and research methodologies in the field of communication studies to verbal and nonverbal forms of symbolic interaction across a variety of contexts.

**COM 205**  INTRODUCTION TO PUBLIC RELATIONS  
Prerequisite: COM 101 or COM 120  
This course includes an introduction to an application of public relations theories, philosophies, and principles applicable to a variety of organizations. We will explore historical perspectives, current and future trends, as well as professional associations, and career opportunities in public relations.

**COM 206**  SMALL GROUP COMMUNICATION  
Prerequisite: COM 101 or COM 120  
Students relate the theories of small group process and problem solving to actual practice, eventuating in the completion of a real problem solving task: Parliamentary procedures, for use in larger and legally formed groups, are practiced at the end of the course.

**COM 208**  ARGUMENTATION AND ADVOCACY  
Prerequisite: COM 101 or COM 120  
A study of the theory and practice of developing argumentative discourse to gain audience adherence. Practice in analyzing actual situations that call for debate is emphasized, with attention to several debate formats.

**COM 210**  FAMILY COMMUNICATION  
Prerequisite: COM 101 or COM 120  
This course emphasizes theoretical approaches and contemporary communication research in family communication. The emphasis will be on understanding contemporary theory and research of family communication; developing research skills necessary for analyzing family interaction using various methodologies including observation, description and interpretation of family communication data; and understanding the social impact on family communication patterns and relationships.

**COM 211**  PUBLIC RELATIONS WRITING  
Prerequisite: COM 205  
This course provides instruction and writing practice designed to develop the professional-level writing skills expected of a PR writer. The aim is to provide students with the necessary confidence in PR writing skills to make them the preferred candidate for a PR job.

**COM 221**  TOPICS IN PUBLIC RELATIONS  
Prerequisite: COM 205  
This course will examine various topics relating to the field of public relations. Typical topics would include brand communication, health public relations, crisis communication, international public relations, public relations and new media, and public relations and non-profit agencies. May be repeated for credit as topics change.

**COM 222**  TOPICS IN COMMUNICATION  
Prerequisite: COM 101 or COM 120  
This course will examine various topics relating to communication needs. Typical topics would include interviewing, persuasion, public address, assertiveness training, public relations, professional communication, rhetorical criticism, history of public address and rhetorical theory. May be repeated for credit as topics change.

**COM 223**  TOPICS IN SPORT COMMUNICATION  
Prerequisite: COM 101 or COM 120  
This course will examine various topics relating to sport communication issues. Typical topics would include Sport and Film, History of Sport and the Media, Sport and Media Relations, and perhaps
classes cross-listed with other disciplines, such as Sport Literature. May be repeated for credit as topics change.

**COM 224**  TOPICS IN HEALTH & RISK COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
This course will examine various topics relating to health and/or risk communication issues. Typical topics would include developing risk and crisis response to specific threats to various publics, development and implementation of health communication interventions and campaigns targeted at specific threats, and development of risk message campaigns concerning particular environmental and health risks. May be repeated once for credit as topics change.

**COM 242**  SPORT REPORTING  3
**Prerequisite:** None
A survey of the patterns and practices of sports reporting. Emphasis on reporting sports events and features. Class assignments will involve gathering and preparing sport-related information as well as writing and analyzing representative forms of sports reporting.

**COM 244**  SPORT COMMUNICATION AND CULTURE  3
**Prerequisite:** COM 101 or COM 120
This course critically explores the social interactions of sport and considers the degree to which its participants reinforce or resist cultural norms.

**COM 270**  RESEARCH METHODS IN COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120; MATH 208
This course involves the study of research methods and research design commonly employed in the field of Communication Studies. Research methodologies to be explored include survey research, experimental design, available data research, and field research. Emphasis will be put on the assessment of reliability and validity in a research design. The course will also discuss the ethical issues associated with conducting research on human beings as well as the presentation of research methodology in manuscript format.

**COM 301**  PUBLIC SPEAKING  3
**Prerequisite:** COM 101 or COM 120
Continues the communication concerns of COM 101 while offering practice in developing speeches for a variety of career and personal interest occasions with adaption to particular audiences and time limitations. Theories of rhetoric and persuasion are a part of the content.

**COM 302**  INTERCULTURAL COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
Introduces students to methods of learning about other cultures and ways to communicate effectively with and about people of other countries and sub-cultures.

**COM 304**  INTERPERSONAL COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
A course emphasizing the theoretical approaches and contemporary research on patterns of interpersonal communication in human relationships. Emphasis will be placed on developing skills for analyzing interactional processes through close description and interpretation.

**COM 305**  ORGANIZATIONAL COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
This course is a study of communication systems and behaviors within organizations and will serve as an introduction to the study of communication channels and networks in organizations. Topics include the relevance of communication to management operations, employee morale, networks, superior-subordinate relationships, production, leadership, organizational climates and cultures, and ethics in organizations.

**COM 313**  GENDER AND RACE IN SPORT COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
This course provides a background of the issues of gender and race in the world of sports. Topics that will be discussed include women's participation in sports before and after Title IX, masculinity in sports and sports media, femininity portrayal in athletics, the racial integration of sports throughout history, and the current state of sport in consideration of both gender and race.

**COM 315**  INTERNATIONAL STORYTELLING  3
**Prerequisite:** COM 101 or COM 120
An introduction to world cultures through the analysis and performance of their stories.

**COM 320**  HEALTH COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
This course exposes the student to the emerging field of health communication. This reflects the analysis and understanding of communication during the healing process with healthcare organizations and among all involved personnel and patients. Focused within the healthcare context, emphasis is placed on rhetorical medicine, narrative medicine, intercultural and gender communication, affirming communication, and aggressive communication. Attention is also given to communication during end-of-life care, stigmatization, and informed consent processes.

**COM 323**  SPORT PUBLIC RELATIONS  3
**Prerequisite:** COM 163
This class will examine the tasks of the sport public relations specialists, including such areas as promotions, media relations, community relations, and crisis communications.

**COM 333**  LEADERSHIP COMMUNICATION  3
**Prerequisite:** COM 101 or COM 120
This course will explain the critical connection of communication to effective leadership. Students will learn about leadership communication as it relates to ethos, ethics, strategies and different organizational structures.

**COM 343**  CONFLICT, MEDIATION, AND NEGOTIATION  3
**Prerequisite:** COM 101 or COM 120
This course emphasizes theoretical approaches and contemporary communication research on patterns of conflict in human relationships. The emphasis will be on understanding the causes (e.g., cultural, philosophical) and types of conflict; developing skills for analyzing conflict situations through close observation, detailed description, and interpretation; and understanding the types and strategies of conflict management that include mediation and negotiation.

**COM 370**  INFORMATICS IN HEALTH COMMUNICATION  1
**Prerequisite:** COM 101 or COM 120
This course will focus on the influence that health-related information has on communication. Topics include information seeking, information gathering, and information processing, the impact that electronic medical records, personal health records, SMART technology, e-medicine, tele-health, e-training, and robotics have on patient-provider and healthcare team communication.

**COM 375**  INFORMATICS IN SPORT COMMUNICATION  1
**Prerequisite:** COM 101 or COM 120
This course is a study of how information is generated, exchanged, and utilized within sports, as a pastime and an industry, and the impact it has on communication. Topics include information seeking, information gathering, information processing, the impact that media and innovations such as fantasy sports and social networking have on how sport is communicated in the modern era.
COM 410 RELATIONAL COMMUNICATION IN SPORT
Prerequisite: COM 101 or COM 120; COM 163
This course will investigate the multiple relationships that exist in sports. Interpersonal communication theory will be used to analyze relationships including family relationship in sports, coach-athlete relationships, as well as team and organizational relational dynamics. The course will also investigate how and why these relationships grow or fail based on the communication between the parties.

COM 415 COMMUNICATION IN SPORT ORGANIZATIONS
Prerequisite: COM 101 or COM 120; COM 163
This course provides insight into the organizational structure of sports organizations as well as how communication works both internally and externally given the organizational structure. Organizational communication will be covered from a theoretical perspective and will focus on the theory and style of communication that is most appropriate considering the organizational structure. The course will also examine how sports organizations are run in other countries to allow a comparison to those that are currently in place in the United States.

COM 420 HEALTH PUBLIC RELATIONS
Prerequisite: COM 101 or COM 120; junior status
This course is a study of the communication processes that are involved in communicating about health and issues that arise during healthcare processes including patient care, health care campaigns, as well as crisis and risk communication specific to healthcare. Topics include theory in health communication, interpersonal communication in health including patient-doctor care and social support, ethical concerns in healthcare and healthcare campaigns, crisis communication, developing healthcare communication plans, implementing communication strategies, and assessment of the communication campaign.

COM 425 RISK AND CRISIS COMMUNICATION
Prerequisite: COM 101 or COM 120; junior status
This course is a study of the communication processes that are involved in the communication of information to people and various publics regarding risks, how these risks will impact the publics, and how to best prepare the publics to reduce the risk. Topics include communication risk analysis, crisis communication, developing risk and crisis communication plans, implementing communication strategies, and assessment of the communication campaign.

COM 430 STRATEGIC COMMUNICATION
Prerequisite: COM 211, COM 305
This course provides instruction and practice in strategic communication theory and research at the organizational and public levels. Students will gain the necessary skills to identify and execute proper planning in both promotion and crisis planning for organizations to those who are directly and indirectly impacted.

COM 436 INTERNSHIP IN COMMUNICATION STUDIES
Prerequisite: Permission of instructor
This course is designed for students seeking an internship experience. Students should apply the knowledge attained through their studies in a workplace similar to what they might seek after graduation. Internships can be started any time after the student's sophomore year and must be approved by the faculty internship advisor for that major. Each credit hour of internship requires 60 hours of work at the internship site. Graded S/U. Repeatable up to 6 hours.

COM 470 RESEARCH EXPERIENCE IN COMMUNICATION STUDIES
Prerequisite: Permission of instructor
This course is designed for students seeking a research experience within the Department of Communication Studies. Students who are interested in research within their major may choose to work with interested faculty on research projects relating to communication studies. The Research Experience can be started any time after the student's sophomore year and must be approved by the faculty member(s) with whom the student will be working. Credit for the research experience may be taken simultaneously with the research experience or the semester immediately after completing the research experience. Students will be responsible for engaging in research as directed by the faculty member in charge. Each credit hour of research experience requires 60 hours of work with the faculty member. Graded S/U. Repeatable up to 4 hours.

COM 474 PUBLIC RELATIONS CAMPAIGNS
Prerequisite: COM 211; junior status
This course is a capstone experience where students apply the knowledge they have gained to develop PR campaigns for real-world clients. This integration involves coordination of the entire PR process, including client communication, research, planning and development, implementation, and evaluation of PR campaigns. Students will strengthen their strategic thinking, writing, and presentation skills.

COM 510 INTRODUCTION TO GRADUATE STUDIES IN COMMUNICATION
Prerequisite:
The course will focus on the development of skills necessary for graduate study in the field of Communication Studies. Students will be introduced to the discipline of communication from both theoretical and applied standpoints. The course will provide students with an introduction to the culture and expectations of the Health and Risk Communication graduate program, introduction to research methodologies, and research literature, and the writing skills necessary for success in graduate studies.

COM 520 RESEARCH METHODS IN COMMUNICATION
Prerequisite: COM 510
This course involves the study of research methods and research design commonly employed in the field of Health and Risk Communication. Research methodologies to be explored include survey research, experimental design, available data research, and field research. Emphasis will be put on research design, application, and assessment. The course will also discuss the ethical issues associated with conducting research with human subjects as well as appropriate ways to measure any given communication phenomena.

COM 530 THEORIES OF COMMUNICATION
Prerequisite: COM 510
This course involves the study of communication theory and theory evaluation. Emphasis will be put on theory development specific to health and risk communication. The philosophy of communication theory building will be explored with an emphasis on theory testing and modification. Application of theories to health and risk settings will be explored and analyzed.

COM 540 HEALTH COMMUNICATION
Prerequisite: COM 510, 520, 530
This course provides instruction and practice of theories used in health communication. A broad range of topics will be discussed including physician-patient communication, health campaigns in public relations, the impact of culture on health communication and health care organizations. Emphasis will be placed on how to effectively integrate health communication theory into practice.

COM 590 PUBLIC RELATIONS
Prerequisite: COM 510, 520, 530
This course will focus on the development of skills necessary for a career in public relations. Students will be introduced to the field of public relations from both the theoretical and the applied perspectives. Students will learn about the history of public relations as a study as well as a practice. Through the use of case studies and theoretical work, students will learn about the growth of the field and how to develop and utilize a public relations campaign from concept to product.
COM 620   STRATEGIC COMMUNICATION 3
Prerequisite: COM 510, 520, 530
This course provides instruction and practice of strategic communication at the interpersonal and organizational levels. Communication theory in persuasion, interpersonal, and organizational communication will be utilized to show students how strategic communication can be used in relational and business settings. The emphasis of the course will focus on when specific styles of strategic communication can and should be used in multiple situations specifically within health and risk organizations.

COM 630   INTERPERSONAL COMMUNICATION 3
Prerequisite: COM 510, 520, 530
This course provides instruction and practice of interpersonal communication. Topics of interpersonal communication that will be discussed include theory building small group communication, relational communication, family communication, and nonverbal communications. Emphasis will be on how interpersonal communication theory can and should be used in various situations including both professional organizations and in one-on-one communication encounters.

COM 640   ORGANIZATIONAL COMMUNICATION 3
Prerequisite: COM 510, 520, 530
This course focuses on communication systems and behaviors within organizations. Topics include the relevance of communication to management operations, employee motivation and leadership, communication networks, superior-subordinate relationships, organizational climate and culture, as well as ethics within organizations.

COM 650   RISK AND CRISIS COMMUNICATION 3
Prerequisite: COM 510, COM 520 and COM 530
The course will explain and define the applied nature of risk and crisis communication. The foci will include research to identify possible crisis and risk events. We will also explore how theories are used to predict and explain how to develop programs to address a broad range of topics in risk and crisis preparation and messaging. Topics will include a review of crisis management in the public and private sectors, preparedness plans and goals, appropriate communication channels, and efficacy assessment.

COM 680   SOCIAL MEDIA PLATFORMING 3
Prerequisite: COM 510, COM 520 and COM 530
In this course, students will learn how to develop and/or enhance a social media presence for both organizational promotion as well as self-promotion. Topics discussed will include social media professionalism, maximizing time and frequency for social media effectiveness, audience analysis, and web analytics as a measurement tool. Multi-platform maximization will also be a course focus.

COM 690   PUBLIC RELATIONS CAMPAIGNS 3
Prerequisite: COM 510, COM 520 and COM 530
In this course, students will master the fundamentals of public relations campaign planning through direct experience. Students will be given the opportunity to utilize the content from the previous public relations course, and/or professional experience, in the development of a complete public relations campaign. Students will utilize research, writing, evaluation tools, as well as messaging to bring a complete campaign to a client by the end of the semester.

COM 710   INFORMATICS IN HEALTH AND RISK COMMUNICATION 1
Prerequisite: COM 510, 520, 530
This course will focus on the study of how information is generated, exchanged, and utilized within health and risk related contexts and the impact that information has on strategic messaging. Topics include: information seeking, information gathering, and information processing, impact of electronic medical records, personal health records, SMART technology, e-medicine, tele-health, e-training, robotics, risk messaging and crisis containment.

COM 750   SEMINAR IN HEALTH AND RISK COMMUNICATION 3
Prerequisite: COM 510, 520, 530
This course will focus on the advanced study of health and risk communication. Students will conduct analyses of health and risk situations, develop elaborate messaging strategies, execute those message strategies, and assess message effectiveness. Emphasis will be on the application of theory and research specific to health and risk communication.

COM 780   CAPSTONE IN COMMUNICATION STUDIES 1
Prerequisite: ALL COURSE WORK
Students will be required to complete the capstone course to be eligible for graduation from the Master of Arts degree in Health and Risk Communication. The capstone will be a project in the area of health and/or risk communication that will encapsulate the communication theory, research, and methodology content that has been taught throughout the program. The capstone course will be guided/directed by the instructor.

COMPUTER SCIENCE (CS)

CS 101   LOGIC AND COMPUTING 3
Prerequisite: 2 years high school algebra
Beginning with the building blocks of circuits and advancing through a collection of language abstractions, students use logic at several levels to gain a deep insight into how modern digital computers actually work. This course assumes no computer hardware or programming experience.

CS 121   COMPUTER PROGRAMMING I 3
Prerequisite: CS 101
An introduction to the design and development of object-oriented programs using the Java programming language.

CS 122   COMPUTER PROGRAMMING II 3
Prerequisite: CS 121
A continuation of CS 121. A further exploration of the principles, methods, tools and practices of object-oriented programming, including inheritance, recursion, object-oriented design, and GUI applications.

CS 175   WEB DESIGN 3
Prerequisite: None
An introduction to the World Wide Web, the creation of Web sites, Web page markup and styling languages, and client side programming.

CS 230   DATA STRUCTURES 3
Prerequisite: CS 122; MATH 223
Formal specification of abstract data types using an object-oriented language with examples of their uses in computer science: records, stacks, queues, linked lists, hash table, heaps, and trees.

CS 250   THE LINUX OPERATING SYSTEM 3
Prerequisite: None
A study of Linux concepts, usage, programming and ethical hacking.

CS 260   TOPICS IN COMPUTER SCIENCE 3
Prerequisite: None
This course is offered subject to student need, faculty availability, and with the approval of the department chair and college dean. Topics may include Java Advanced Programming, and Introduction to UNIX. Repeatable for different topics.
CS 275  WEB PROGRAMMING  3
Prerequisite: CS 101, 175
A continuation of CS 175, with emphasis on Web services and server-side programming using PHP.

CS 293  INTERNSHIP  1-3
Prerequisite: CS 121, Learning Contract
Credit will be granted for field experience in computer science relevant to the student's educational development and career goals. This work may be done on campus by providing technical assistance to faculty. Examples include UNIX administration and maintaining the hardware lab. Alternatively, this work may be done off campus. Prior approval of a CS faculty member is required. Does not count toward science electives.

CS 301  COMPUTER ARCHITECTURE  3
Prerequisite: CS 122
An introduction to the characteristics of computer systems at the digital logic and organization levels.

CS 302  THEORY OF COMPUTATION  3
Prerequisite: MATH 224 and MATH 250
An introduction to the logical and mathematical foundations of computer science. Topics discussed include models of computation, grammars and parsing, solvable and unsolvable problems, and P/NP complexity classes.

CS 303  COMPUTER ALGORITHMS  3
Prerequisite: CS 230 and MATH 224
An introduction to the design and efficiency of algorithms from both sequential and parallel perspectives, including identifying characteristics of sequential algorithms which are easily parallelizable and different parallel computing paradigms.

CS 304  THEORY OF PROGRAMMING LANGUAGES  3
Prerequisite: CS 230 and MATH 224
Issues in the design and implementation of a programming language including type models, control models, parameter passing, and storage management. Formalisms to describe the syntax and semantics of a programming language.

CS 320  CYBER ETHICS  3
Prerequisite: None
An introduction to basic culture, social, legal, and ethical issues inherent in the discipline of computing.

CS 325  MOBILE APPLICATIONS DEVELOPMENT  3
Prerequisite: CS 122
An introduction to application development for handheld devices. The course teaches the design and implementation of applications for Android-driven devices.

CS 393  INTERNSHIP  1-3
Prerequisite: CS 121, Learning Contract
Credit will be granted for field experience in computer science relevant to the student's educational development and career goals. This work may be done on campus by providing technical assistance to faculty. Examples include UNIX administration and maintaining the hardware lab. Alternatively, this work may be done off campus. Prior approval of a CS faculty member is required. Does not count toward science electives.

CS 421  PRINCIPLES OF OPERATING SYSTEMS  3
Prerequisite: CS 230 and CS 301
Introduction to the design and implementation of modern operating systems. Topics include processes, interprocess communication, I/O management, memory management, file systems, and security.

CS 427  COMPUTER GRAPHICS  3
Prerequisite: CS 303 and MATH 307
An introduction to computer graphics concepts. Several graphics algorithms will be presented and implemented. Graphics theory in clipping, rotation, three-dimensional graphics and other related topics will be explored.

CS 433  COMPUTER NETWORKS  3
Prerequisite: CS 230 and CS 301
Presents computer networks and internets from the lowest level of data transmission over hardware to the highest level of communication between software applications.

CS 435  CYBER SECURITY  3
Prerequisite: None
A study of information system security concepts and domains. The course delivers fundamental information security principles as well as real-world applications and examples.

CS 460  ADVANCED TOPICS IN COMPUTER SCIENCE  1-3
Prerequisite: CS 230
This course is offered subject to student need, faculty availability, and with the approval of the department chair and college dean. Topics may include Neural Networks, and System Programming. Repeatable for different topics.

CS 493  INTERNSHIP  1-3
Prerequisite: CS 121, Learning Contract
Credit will be granted for field experience in computer science relevant to the student's educational development and career goals. This work may be done on campus by providing technical assistance to faculty. Examples include UNIX administration and maintaining the hardware lab. Alternatively, this work may be done off campus. Prior approval of a CS faculty member is required. Does not count toward science electives.

CS 499  SOFTWARE DEVELOPMENT  3
Prerequisite: CS 304
Application of product engineering methods to the design and development of software - quality assurance, project management, requirements analysis, specifications, design, development, testing, production and maintenance.

DIEGETICS (DIET)

DIET 130  PRINCIPLES OF FOOD AND MEAL PREPARATION  3
Prerequisite: None
An examination and application of the components that contribute to managing and organizing the preparation of meals at the consumer level, involving menu planning, food procurement, food safety issues, recipe modifications for specific dietary concerns, budgeting, and hospitality.

DIET 210  INTRODUCTION TO DIETETICS  2
Prerequisite: None
This course will examine and discuss the profession of dietetics including educational requirements for becoming a registered dietitian (R.D.), professional organizations, career pathways, and the role of the dietitian in patient care. Students will be introduced to nutrition-related research, its methodology, applications, and areas for future investigation. Students pursuing a degree in dietetics will be encouraged to join student chapters in The Academy of Nutrition and Dietetics (AND), Ohio Dietetic Association (ODA), Ohio Nutrition Council (ONC), and Mohican Area Dietetic Association (MADA) and attend one professional meeting.
This course will examine the societal determinants of a person's body weight, such as the influence of the family/parental, peers, societal norms, and the food and entertainment industries' impact on body image and dietary behaviors. This course will explore these societal factors that influence disordered eating, body shape, and weight loss/gain and discuss strategies to address these areas.

**Diet 230 Food Science & Applications**

**Prerequisite: None**

Discussions related to the chemical properties of food substances, their nutritional importance, and their application in a laboratory setting.

**Diet 320 Human Nutrition**

**Prerequisite: Chem 103 or Chem 251 or Chem 253**

Exploration and discussion of basic principles of human nutrition, which include digestion/absorption, macro and micronutrients and their metabolism, energy balance, sports nutrition, nutrition and chronic illnesses.

**Diet 330 Nutrition Counseling Skills**

**Prerequisite: Diet 320**

This course will examine the nutrition counseling skills necessary for an entry-level dietitian when working with groups or individuals in clinical or community settings. Practice in use of dietary analysis software programs and the development of nutrition educational materials incorporating health behavioral change models appropriate for various age groups and life cycle stages will also be examined.

**Diet 343 Active Aging & Wellness**

**Prerequisite: None**

An examination of the role that lifestyle, nutrition, physical activity and/or exercise play in modifying physiological functional age and in determining the quality of life of older adults.

**Diet 360 Lifecycle Nutrition**

**Prerequisite: None**

This course will examine and discuss the importance of nutrients (carbohydrates, lipids, proteins, vitamins, and minerals) throughout the various life cycles of human development; including preconception, pregnancy, infancy, childhood, adolescence, adulthood, and geriatrics. Discussions will focus on reducing health risk factors among these stages with emphasis on nutritional intake.

**Diet 370 Community Nutrition**

**Prerequisite: None**

This course will examine nutrition in U.S. communities and national nutrition directives and guidelines for health promotion and disease prevention across the lifecycle. Primary, secondary, and tertiary strategies will be discussed. Nutrition epidemiology in prevention and disease, national and state nutrition policies, programs, and how nutrition professionals function in these various environments will be explored.

**Diet 385 Advanced Human Nutrition**

**Prerequisite: None**

Exploration and discussion of advanced principles of human nutrition, which includes the anatomy and physiology of digestion/absorption, metabolism of macro and micronutrients and their physiological significance, physiology of energy balance, nutritional intake and chronic illnesses.

**Diet 395 Vitamins & Minerals**

**Prerequisite: Diet 320, Chem 104**

This course will explore the biological functions of vitamins and minerals in human nutrition. This will include a review of the essential functions of vitamins and minerals, health implications of varying amounts of vitamins and minerals in the diet, as well as examining interactions between vitamins, interactions between minerals, and vitamin and mineral intake of vitamin and mineral levels for optimal health and prevention of chronic illnesses for various stages of the life cycle.

**Diet 400 Nutrition & Disease I**

**Prerequisite: None**

This course will examine the implementation of medical nutrition therapy (MNT) for chronic and acute medical disorders. It will include the development of medical nutrition therapy plans appropriate for these conditions for individuals throughout the lifecycle. Medical disorders examined in this course include pediatric, neurological, pulmonary, cardiovascular, gastrointestinal, hepatic, pancreatic, biliary, and endocrine.

**Diet 425 Nutrition & Disease II**

**Prerequisite: Diet 400**

This course will examine the implementation of medical nutrition therapy (MNT) for chronic and acute medical disorders. It will include the development of medical nutrition therapy plans appropriate for these conditions for individuals throughout the lifecycle. Medical disorders examined in this course include weight management, musculoskeletal and collagen, hematological, cancer, surgical, AIDS, renal, enteral and parenteral nutrition.

**Economics Education**

**ECED 580 Microeconomic Analysis and Its Application to the Curriculum**

**Prerequisite:**

For elementary and secondary teachers. Designed to emphasize methods of inquiry employed by economists and their applications to the theory of instruction.

**ECED 581 Macroeconomic Analysis and Its Application to the Curriculum**

**Prerequisite:**

For elementary and secondary teachers. Designed to emphasize methods of inquiry employed by economists and their applications to the theory of instruction.

**ECED 582 Economic Policy and Its Application to the Curriculum**

**Prerequisite: Take ECED 580 or ECED 581**

For elementary and secondary teachers. Designed to provide application of an economic analysis to economic policy and courses of study.

**ECED 583 Corporate Business in the United States**

**Prerequisite: Take ECED 580 or ECED 581**

The course provides an opportunity to learn how the market system operates by bringing a number of business executives to serve as classroom instructors. This partnership between business and education reinforces mutual interest and fosters a sharing of valuable resources.

**ECED 584 Economics in the Curriculum**

**Prerequisite:**

Preparing or revising curriculum or curriculum guides; i.e., an economics curriculum guide for any or all grade levels, or a sequence for developing economics principles within the existing curriculum; or curriculum for a particular subject area; or curriculum related to special bases such as multimedia based, activities-based community or cultural-based.
ECON 101  MARKET FUNDAMENTALS  3
Prerequisite: None
This course will engage students in the economic way of thinking by taking an in-depth look at market fundamentals. Why, how, and who uses markets and what do we do when they fail? Students will be introduced to the economist's view of the world through extensive discussion, analysis, and writing. Does not count toward an economic major or minor. Meets Core credit for social science.

ECON 232  PRINCIPLES OF MICROECONOMICS  3
Prerequisite: None
Analysis of the pricing processes in a private enterprise economy under varying competitive conditions, their role in the allocation of resources and the functional distribution of national income. Special emphasis is given to theoretical analysis as applied to business problems. Meets Core credit for social sciences.

ECON 233  PRINCIPLES OF MACROECONOMICS  3
Prerequisite: None
An examination of the determinants of national income, employment and the price level in the private enterprise system, including analysis of consumption and saving, private investment, government fiscal policy, business fluctuations, and the interaction between money and national income. International economic relations are also emphasized. Meets Core credit for social sciences.

ECON 301  GAME THEORY  3
Prerequisite: Core math/logic requirement
Techniques using classical game theory, auction design, controlled human-subject experiments, evolutionary game theory, and agent-based computer models are used to understand and solve situations involving potential conflict and cooperation such as military strategies, the auction of FCC licenses, the Middle East conflict, and the rise of resistant strains of bacteria in hospitals. While game theory is demanding in terms of reasoning ability, the focus of the class will be qualitative rather than quantitative analysis. Meets Core credit for social sciences.

ECON 321  PUBLIC FINANCE  3
Prerequisite: ECON 232
The economic theories of taxation and government finance as demonstrated at federal, state and local government levels. The interrelation of public finance and economic stability and growth is explored to discover the basis and objectives of policy.

ECON 332  INTERMEDIATE MICROECONOMICS  3
Prerequisite: ECON 232
A study of the conditions of producer and consumer equilibrium, price of products within the firm and the industry both under perfect and imperfect competition, and price and employment of factors of production.

ECON 333  INTERMEDIATE MACROECONOMICS  3
Prerequisite: ECON 233
Every American deals with and should understand macroeconomics. This course applies powerful tools of economic analysis to answer questions like; Will globalization destroy good jobs in the U.S.? Does free trade make the average American better off? Are today's budget deficits bad for future generations? Will Social Security go bankrupt? What determines how fast the U.S. economy grows? How do the President and the Fed affect the economy? Should the U.S. help developing countries grow faster?

ECON 334  MONEY AND BANKING  3
Prerequisite: ECON 233
The functioning of a private enterprise society is analyzed in terms of money in all of its economic aspects, including its amount, form and flow, and the institutions, public and private, that assist in mobilizing and distributing purchasing power. A historic approach is included to provide a foundation and a perspective.

ECON 342  GLOBAL ECONOMICS  3
Prerequisite: ECON 232 or ECON 233
The theory of international trade, exchange rates, trade barriers, balance of payments disequilibrium, United States commercial and aid policies, regional economic integration and international economic development. Environmental, operational and functional variables in international economics.

ECON 346  MANAGERIAL ECONOMICS  3
Prerequisite: ECON 232
A study of the economics applied to decision making, managerial economics emphasizes the use of economic analysis in clarifying problems, in organizing and evaluating information and in comparing alternative courses of action. The general problem of resource allocation will be dealt with in the context of business enterprises, non-profit organizations and public agencies.

ECON 348  BUSINESS ANALYTICS I  3
Prerequisite: MATH 208
This course teaches the basic skills, applications, and practices necessary for continual exploration and investigation of organizational data. Based on statistical methods, business analytics searches for new insights and understandings of organizational performance. The course presents the logical process of conducting a statistical analytics project. Topic coverage includes descriptive and inferential statistics. Emphasis will be given to written descriptions of analytical results. Students are encouraged to analyze data related to their major.

ECON 407  ECONOMICS OF LABOR  3
Prerequisite: ECON 232
This course is primarily a study of the institutionalization of labor as an economic, social and political force. A survey of the historic and economic roots of labor power, the existence of organized labor as a social phenomenon, and the resultant implications for other social, political and economic institutions. Offered infrequently.

ECON 434  DEVELOPMENT OF ECONOMIC THOUGHT  3
Prerequisite: A study of how people's thought on economic issues has changed over time. It will deal with the effect of historical change on economic thinking and with the impact of economic thought on historical change. Emphasis will be placed on the influence of the important economic thinkers on subsequent and modern economic theory and practice, and
the impact of the important economic thinkers of the past on the economics, political, and social milieu of the modern world. Offered Infrequently.

**EDAD 550**  
**INTRODUCTION TO SCHOOL ADMINISTRATION**  
3  
**Prerequisite:**  
This course focuses on the entry level building administrator in the Elementary, middle, and secondary school as well as the central office. Emphasis will be placed on the problem-based learning. The prospective administrator will acquire a knowledge base which links theory and research to practice. The course deals with the role of the contemporary school leader as it relates to the change process, instructional improvement, empowerment, and respecting diversity in the decision making process.

**EDAD 551**  
**ADMINISTRATION OF PUPIL PERSONNEL SERVICES**  
3  
**Prerequisite:** Take EDAD 550, EDAD 555 and EDAD 683  
This course provides school administrators with information and skills to effectively organize, manage, supervise and provide leadership for the programs, departments, and agencies that are associated with pupil personnel services in schools.

**EDAD 552**  
**SCHOOL LAW AND ETHICS**  
3  
**Prerequisite:** None  
A course in basic school law related to teaching and school administration. Legal and ethical principles originating in constitutional statutory, judicial and common law relevant to curriculum, contracts, personnel administration, liability, pupil and employee rights, and finance are included.

**EDAD 554**  
**COLLECTIVE BARGAINING**  
3  
**Prerequisite:** None  
A course providing a foundation in State and Federal law, negotiating processes and strategies, and fiscal and administrative concerns dealing with collective bargaining.

**EDAD 555**  
**HUMAN BEHAVIOR IN EDUCATIONAL ADMINISTRATION**  
3  
**Prerequisite:** None  
This course is designed to acquaint the prospective entry level school leader with the interpersonal skills needed to function successfully in today’s educational setting. The course addresses the various publics which the successive school leader must interact, and the various process skills needed. Case studies will be used to demonstrate real-life situations and promote discussion to determine issues and probable solutions.

**EDAD 559**  
**BUILDING, GROUNDS, AND FACILITIES**  
1  
**Prerequisite:** None  
The course explores present and future facility planning and equipment needs of schools. The course examines the efficiency of facilities, operations, and maintenance programs. It also reviews the planning process for school construction programs. Plans for financing construction are discussed. The role of educational facilities in the teaching/learning process is a central theme throughout the course.

**EDAD 681**  
**RESOURCE MANAGEMENT IN ADMINISTRATION**  
1  
**Prerequisite:** None  
This course explores school-based decision making in the areas of personnel, facility utilization, budgeting and time. Revenue generation at both the state and local level are examined, but emphasis is on processes for empowering school staff and community members through their involvement in deciding and implementing priorities in the above mentioned areas. Assessment of needs at the building level regarding personnel, facilities, finances, and time are emphasized.

**EDAD 682**  
**EDUCATIONAL POLITICS, POLICIES, AND SCHOOL COMMUNITY RELATIONS**  
3  
**Prerequisite:** None  
Policy, politics, and school community relations are the unifying elements in this course. An understanding of different philosophical and cultural values is developed. Political leadership is explored to ensure that educational goals are realized in the larger community. Model school policies and procedures are developed. Effective school community relations programs are analyzed.

**EDAD 683**  
**EDUCATIONAL LEADERSHIP**  
3  
**Prerequisite:** None  
Organizations and leadership and their inter-relationship are examined in this course. Various facets of educational leadership are emphasized, specifically the history of leadership thought; intellectual, political, and social forces that have influenced the evolving understanding of leadership in educational institutions; and the importance of human behavior within the context of the school organization. Leadership theories and findings are applied by considering both the skills and the underlying meaning of one’s leadership agenda. Attention is given to the traditional school bureaucratic design and the ongoing influence and integration of human resources leadership in these educational bureaucracies. In addition, educational institutions are examined in light of the consistency between their inherent design and their subsequent aims and effects in delivering what these institutions espouse. The integration of theory and research with actual practice is at the heart of both the curriculum for this course as well as the means of evaluating student performance.

**EDAD 684**  
**PROFESSIONAL DEVELOPMENT**  
3  
**Prerequisite:** None  
This course is designed to prepare leaders who have the knowledge and skills to develop, implement, and evaluate effective professional development programs. Participants will be expected to demonstrate effective utilization of knowledge-based skills related to adult learning, teachers and their world, and professional development.

**EDAD 686**  
**ADMINISTRATION OF PROGRAMS FOR STUDENTS WITH DISABILITIES**  
1  
**Prerequisite:** None  
This course provides school administrators with knowledge and skills to apply in the development of legally sound policies and procedures to ensure an appropriate education for students with disabilities.
EDAD 688 TECHNOLOGY IN ADMINISTRATION  
Prerequisite: None  
This course is designed to allow future school leaders to develop the knowledge and skills needed to use technology for personal productivity and in administrative tasks; to provide leadership for the instructional use of technology and in data-driven decision making.

EDAD 690 ADMINISTRATION OF STAFF PERSONNEL SERVICES  
Prerequisite: None  
This course is designed as an advanced course for the graduate student seeking licensure as a school superintendent. The student obtains an overview of recruitment, selection, assignment, induction, mentoring, staff development, staff evaluation, collective bargaining, contract management, employee/employer relations, employment practices, personnel problems, and standards for school personnel administration. In addition, the role of school administration, board of education members, and other professionals who carry out those managerial functions and personnel services is considered.

EDAD 691 THE SUPERINTENDENCY  
Prerequisite: Building Administrator or Educational Specialist license  
This course is designed to explore executive leadership. Strategies for formulating district policy for external and internal programs with a focus on development of a collective district vision will be examined. School culture shaping will be addressed through discussion of consensus building and conflict mediation. Purpose and direction for individuals and groups will be facilitated through discussion of communications and community relations strategies. The superintendent’s role of building relationships with Board of Education, academic programming, curriculum planning and development, and instructional management will be discussed.

EDAD 693 SCHOOL FINANCE AND ECONOMICS  
Prerequisite: None  
A course in school finance with emphasis on Ohio applications. The course is designed to provide the practicing administrator and school treasurer/business manager with the background necessary to predict revenues, contract budgets, monitor spending plans, and conduct school levy campaigns. Students will construct a broad theoretical knowledge base pertaining to finance issues.

EDAD 694 ORGANIZATIONAL MANAGEMENT SEMINAR & INTERNSHIP FOR SUPERINTENDENTS  
Prerequisite: Building Administrator or Educational Specialist license  
The seminar is designed to provide superintendent candidates with an understanding of the school district as a system by defining processes for gathering, analyzing, and using data for decision making. Opportunities will be made available for students to frame and solve problems and make quality decisions to meet internal and external expectations. The superintendent-board, superintendent-administrative team, and superintendent community relationships will be studied. Seminar input will help determine the problems considered by the seminar group. The Organizational Management Seminar provides an internship experience for superintendent candidates. Under the supervision of a university professor and an onsite superintendent site mentor, the candidate participates in district level leadership activities and demonstrates the ability to lead, facilitate, and make decisions typical of those made by a district leader. Visitation with other superintendents is part of the internship experience.

EDAD 733 INTERNSHIP: SCHOOL TREASURER  
Prerequisite:  
The School Treasurer/Business Manager Internship is planned, supervised and evaluated field-based experience. The internship will allow students to observe the functions of a school treasurer and assume leadership in planning, implementing, and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in school finance. Intent fee required to cover cost of APA seminar advisor, misc. expenses.

EDAD 735 EDUCATIONAL ADMINISTRATION INTERNSHIP  
Prerequisite: Students should have completed the Core requirements and approximately 21 semester hours in Educational Administration, or approval of the department chair in order to begin the internship  
The Educational Administration Internship I is a planned, supervised, and evaluated field-based experience. It is designed as the culminating field experience for the Master of Education in Administration. The internship requires students seeking licensure as an administrator to work in a school setting and with cooperating administrators appropriate for the licensure sought. The internship allows students to engage in a major administrative project which involves problem identification, analysis of related research, development of a process or procedure to address the problem, development of an evaluation process, and preparation of a project product. The internship will allow students to observe the functions of administrators, assume leadership in planning, implementing, and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in school administration. EDAD 735 must be taken in conjunction with EDAD 736 or 737.

EDAD 736 BUILDING PRINCIPAL INTERNSHIP  
Prerequisite: Must be taken in conjunction with EDAD 735, Educational Administration Internship I, unless special permission is granted due to unique circumstances  
The Internship is the second course in a year-long planned, supervised and evaluated field based experience. It is designed as the culminating field experience for the Master of Education in Administration. The internship requires interns seeking licensure as a building administrator (principal) in early childhood, middle childhood or adolescence to young adult to work in a school setting and with cooperating administrators (site mentors) appropriate for the licensure sought. Interns will engage in administrative activities in at least two different buildings representing diverse student age populations. The internship will allow interns to observe the functions of a principal, assume leadership in planning, implementing, and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in school administration.

EDAD 737 CURRICULUM INSTRUCTION AND PROFESSIONAL DEVELOPMENT INTERNSHIP  
Prerequisite: None  
The Internship is the second half of a year-long planned, supervised and evaluated field based experience. It is designed as the culminating field experience for the Master of Education in Administration. The internship requires interns seeking licensure as an Administrative Specialist in Curriculum, Instruction, and Professional Development to work in school settings appropriate for the licensure sought. The internship will allow interns to observe the functions of central office leaders and supervisors. The intern will be involved in instructional supervision, planning, implementing, and evaluating in service activities, professional development, teacher-centered activities and other alternative approaches to staff development.

ADULT EDUCATION (EDAE)  
EDAE 501 METHODS OF TEACHING IN ADULT EDUCATION  
Prerequisite: This course is a study of methods, tools, and assessment procedures used in facilitating adult learning in a variety of professional settings. Emphasis is on the planning and preparation processes for delivering leader-led effective group and individual training activities in short term programs such as workshops, seminars, project meetings, online tutorials and webinars, and individualized, self-paced study projects, and developing and managing group and individual assessment strategies to monitor outcomes of learning. The knowledge and skills which are necessary for the professional roles of an instructional specialist such as a facilitator, trainer, or teacher of adults are
EMphasized throughout this course.

EDAE 503 THE HISTORY AND PHILOSOPHY OF ADULT EDUCATION 3
Prerequisite:
This course is designed both to give participants an overview of the current practice of adult education and human resource development, and to familiarize them with the breadth, variety, and deep historical roots of adult education as a social practice and field of academic study. These aims will be met through an historical survey of practices in American and World history, with select case examples which demonstrate the variety of instructional philosophies found in the field.

EDAE 505 ADULT TRAINING AND DEVELOPMENT IN THE WORKPLACE 3
Prerequisite: None
This course will develop skills for the education professional to apply principles of adult learning and development in the workplace. Specific skills and strategies include identification and evaluation of training and skills issues in a variety of workplace contexts, and the development of strategies to address these through planned programming for groups and individual learners. Issues will also include career and technical education in academic and industrial settings, career development in a global and multi-lingual workplace, application of technology for individual and self-paced instructional designs portfolio development, certifications, and branding/credentialing learners for job progression and assessment.

EDAE 601 PROGRAM PLANNING AND MANAGEMENT IN ADULT EDUCATION 3
Prerequisite:
This course will examine methods for establishing effective adult education and training programs in a variety of learning and employment settings. The content will address principles and procedures for designing, organizing, operating, and evaluating comprehensive adult education and training programs. The course will emphasize the role and responsibilities of the program manager/leader in developing human resources.

EDAE 603 ADULT DEVELOPMENT CONTINUITY AND CHANGE 3
Prerequisite:
A course designed to provide leaders of professional enterprises with a foundation of knowledge and experience that will enable them to develop programs of development and renewal based on the principles and theories of human lifespan development and learning.

EDUCATION CURRICULUM/INSTRUCTION (EDCI)

EDCI 230PK GRADES PREK-12 FIELD EXPERIENCE I 1
Prerequisite: EDFN 130 or permission of instructor (FREN 252 or SPAN 272 for foreign language majors; MUSIC 204 or conc. for music majors) Field hours: 45
Field hours: 45 Special studies and investigations and/or field experience at the teacher aide (observation/ assistance) and small group level in working with school age youth in primarily rural/small town settings, with the focus being on PreK-6. Students may be concurrently enrolled in an appropriate methods course.

EDCI AYA (7-12) FIELD EXPERIENCE I 1 230SEC
Prerequisite: Concurrent with EDCI 232; Field hours: 45
This course is designed to provide education majors who seek a Adolescent to Young Adult license (7-12) with opportunities to observe the setting, organization, and climate of schools and to interact appropriately with students in individual, small group, and whole class settings. Emphasis is on the effects of school climate and methodology on individual students within a diverse group of school age youth. Students will complete 45 hours of field/clinical experience in a multi-cultural setting.

EDCI 232 INSTRUCTIONAL DESIGN AND EDUCATIONAL TECHNOLOGY FOR TEAMING 3
Prerequisite: EDFN 130 & EDFN 202, Concurrent with EDCI 230 and EDCI 236
This course provides students with practical knowledge and skills in instruction, assessment, and technology. Students are expected to gain knowledge in teaching and designing curriculum across the age-span in collaboration with their peers and foundational skills of differentiated instruction, assessment, and teaming with Interventional Specialists and peers across the curriculum, all while weaving technology into the mix.

EDCI 234 MIDDLE GRADES PHILOSOPHY, ORGANIZATION 3
Prerequisite: EDFN 130
This course is designed specifically for education majors who seek a middle grades license (4-9). Emphasis is placed on the philosophy of middle level schools, the psychology of the preadolescent and adolescent student, the role of the teacher as counselor, teaming, curriculum and instruction.

EDCI 236 MIDDLE GRADES FIELD EXPERIENCE I 1
Prerequisite: Concurrent with EDCI 232, EDFN 130; Field hours: 45
This course is designed to provide education majors who seek a middle grade license (4-9) with opportunities to observe the setting, organization, and climate of middle schools and to interact appropriately with students in individual, small group, and whole class settings. Emphasis is on the effects of school climate and methodology on individual students within a diverse group of adolescent and preadolescent students. Students will complete 45 hours of field/clinical experience in a multi-cultural setting.

EDCI 312 TEACHING READING WITH LITERATURE 3
Prerequisite: See COM 315 for course description
This course provides an understanding of the selection and instruction of young adult literature in order to facilitate the continued literacy development of adolescents. Included in the required knowledge base is history, criticism, trends, authors, illustrators, types of literature, instructional strategies, and organization of literature instruction and programs.

EDCI 315 INTERNATIONAL STORYTELLING 3
Prerequisite: See COM 315 for course description

EDCI 316 TEACHING THE 21ST CENTURY ADOLESCENT – LANGUAGE ARTS 3
Prerequisite: EDFN 202; EDCI 232; to be taken concurrently with EDCI 330SEC: Field Experience II Grades 7-12 or EDCI 336: Field Experience II Middle Grades. EDCI 330SEC and EDCI 336 waived for Intervention Specialist program.
This course provides candidates with instructional methodologies appropriate for guiding students in grades 4-12 to meet the Ohio content standards for the English language arts. The course particularly focuses on methods for teaching the process of composition and for making and evaluating writing assignments in a variety of genres.

EDCI 317 TEACHING THE 21ST CENTURY ADOLESCENT - MATHEMATICS 3
Prerequisite: EDFN 202; EDCI 232; to be taken concurrently with EDCI 330: Field Experience II Grades 7-12 or EDCI 336: Field Experience II Middle Grades
This course is designed to prepare the middle childhood and AYA mathematics teacher to plan, deliver and assess effective instruction to adolescents. It will provide the student with classroom instructional skills, methods, and strategies for teaching mathematics in grades 4-12.
EDCI 318  TEACHING THE 21ST CENTURY ADOLESCENT - SCIENCE  3
Prerequisite: EDFN 202; EDCI 232; to be taken concurrently with EDCI 330: Field Experience II Grades 7-12 or EDCI 336: Field Experience II Middle Grades
This course is designed to prepare the middle childhood and AYA science teacher to plan, deliver, and assess effective instruction to adolescents. It will provide teacher candidates with classroom instructional skills, methods, and strategies for teaching science in grades 4-12.

EDCI 319  TEACHING THE 21ST CENTURY ADOLESCENT – SOCIAL STUDIES  3
Prerequisite: EDFN 202; EDCI 232; to be taken concurrently with EDCI 330: Field Experience II Grades 7-12 or EDCI 336: Field Experience II Middle Grades
This course is designed to prepare middle childhood to high school social studies teachers to plan, deliver and assess effective instruction to young adolescents. Emphasis in the course will include how teachers must respond to the unique developmental nature of the learner. As lifelong learners teachers should be familiar with the National Council for the Social Studies, and other appropriate professional organizations, to help guide their professional development. Creating effective lessons, using appropriate assessment techniques and using the resulting data to drive instruction are central to the course objectives. Other topics include grading practices and building a positive learning environment while managing the class appropriately.

EDCI 330PK  GRADES PREK-12 FIELD EXPERIENCE II  3
Prerequisite: EDCI 230; PSYC 218; Field hours: 135
This course provides teacher education students with effective classroom management skills for educating for diversity. During seminars and field experiences students will develop techniques for teaching students of diverse backgrounds and abilities including dealing with surface behavior problems, laws concerning teacher/student rights, and communicating with parents. Field experience may occur in urban/multicultural, suburban, or rural/small town setting with the focus being on grades 7-12.

EDCI 330SEC  AYA (7-12) FIELD EXPERIENCE II  2
Prerequisite: EDCI 230, 232; PSYC 210; To be taken concurrently with either EDCI 316/317/318/319; Field hours: 135
This course provides teacher education students with effective classroom management skills for educating for diversity. During seminars and field experiences students will develop techniques for teaching students of diverse backgrounds and abilities, including dealing with surface behavior problems, laws concerning teacher-student rights, and communicating with parents.

EDCI 332  INSTRUCTIONAL DESIGN AND ONLINE INTERACTION  3
Prerequisite: EDCI 232
This course introduces the processes of instructional design in education and its foundation in behaviorism and general systems theory (GST). Students will use systems associated with instructional design to assess learning needs, design, develop, implement, and evaluate instruction.

EDCI 333  LEARNING MANAGEMENT SYSTEMS AND ONLINE ASSESSMENTS  3
Prerequisite: EDCI 332, EDCI 232
This course provides students with the skills of managing a learning management system related to their curricular area and target age of licensing. Course objectives include effective planning and execution of learning activities, communication strategies and behaviors, transparency of assessment processes, and the provision of clear expectation in management and comportment.

EDCI 336  MIDDLE GRADES FIELD EXPERIENCE II  2
Prerequisite: (EDFN 130, Block I EDCI 232/236). Enrollment is to be concurrent with Middle Grades Block II; two concentrations from EDCI 316/317/318/319
Provides opportunities to make decisions relating to assessment, instruction, evaluation, and intervention in the student's content areas of concentration and in interdisciplinary activities. Focus will be on implementing effective instruction and assessment with middle grades students in small group, individual and whole-class settings.

EDCI 392  CONTENT AREA READING  3
Prerequisite: None. Clinical hours: 10
A course designed to prepare teachers of all content areas to help students think, learn, and communicate with both print and non-print texts. The course focuses on instructional approaches that help learners interact successfully with a broad range of texts while they develop skills and strategies needed for college and careers. Emphasis is placed on using 21st century literacy skills, especially authentic content-based inquiry.

EDCI 412  INTERVENTION & ASSESSMENTS FOR THE SECONDARY LEARNER  3
Prerequisite: 9 hours from the courses: EDEC 140, 262, 323, EDCI 261, 312, 392
This course focuses on a comprehensive approach to the teaching of reading and best practices in interventions and assessments for the secondary learner and provides students with the knowledge and skills they need to implement these methods in their own classrooms. The course will address reading strategies, interventions, and assessment for struggling readers and current research will include major areas of reading with theoretical models and effective teaching strategies.

EDCI 461  STUDENT INTERNSHIP: GRADES 7-12  10
Prerequisite: Successful completion of the requirements for student internship.
Supervised field experiences in secondary setting in certification area(s).

EDCI 467  STUDENT INTERNSHIP: MIDDLE GRADES  10
Prerequisite: Successful completion of the requirements for student internship.
Supervised field experiences in middle grades.

EDCI 469  STUDENT INTERNSHIP: PREK-12  10
Prerequisite: Successful completion of the requirements for student internship.
Supervised field experiences in PreK-12 settings in licensure area(s)

EDCI 505  INSTRUCTIONAL DESIGN AND EDUCATIONAL TECHNOLOGY FOR TEAMING  3
Prerequisite:
This course offers students an introduction to the theories and principles of instructional technology. There are five main areas of focus in this course: (a) technology operations and concepts, (b) planning and designing learning environments and experiences, (c) teaching, learning, and the curriculum, (d) assessment and evaluation, and (e) productivity and professional practice. To assist in developing a link between theory and practice, students will also have some hands-on experience with various forms of instructional technology and with problem-solving techniques appropriate to the media.
EDCI 512 NETWORKING AND TECHNOLOGY INFRASSTRUCTURE FOR SCHOOLS  3 
Prerequisite: Take EDCI 505 or EDCI 522; EDCI 505 Introduction to Principles of Instructional Technology or EDCI 522 
Teaching & Learning in the 21st Century Classroom (or equivalent) 
This course focuses on incorporating the basics of networking to support classroom and district instruction and management. Attention is given to installation and configuration of computer systems and peripheral devices: maintenance and troubleshooting of such hardware and software; wireless networking, security, and organizing technology use in schools. It is designed for those in education to assist other educators including teachers, administrators, technology coordinators, network administrators, and other educators in integrating technology in the classroom, buildings, throughout districts and other similar settings.

EDCI 517 TEACHING THE 21ST CENTURY ADOLESCENT—MATHEMATICS  3 
Prerequisite: To be taken concurrently with EDFN 588, Assessment, Instruction, Evaluation, and Intervention Field Experience 
This course is designed to prepare the middle childhood and AYA mathematics teacher to plan, deliver and assess effective instruction to adolescents. It will provide the student with classroom instructional skills, methods, and strategies for teaching mathematics in grades 4-12.

EDCI 518 TEACHING THE 21ST CENTURY ADOLESCENT—SCIENCE  3 
Prerequisite: To be taken concurrently with EDFN 588, Assessment, Instruction, Evaluation, and Intervention Field Experience 
This course is designed to prepare the middle childhood and AYA science teacher to plan, deliver, and assess effective instruction to adolescents. It will provide teacher candidates with classroom instructional skills, methods, and strategies for teaching science in grades 4-12.

EDCI 519 TEACHING THE 21ST CENTURY ADOLESCENT—SOCIAL STUDIES  3 
Prerequisite: To be taken concurrently with EDFN 588, Assessment, Instruction, Evaluation, and Intervention Field Experience 
This course is designed to prepare middle childhood to high school social studies teachers to plan, deliver and assess effective instruction to young adolescents. Emphasis in the course will include how teachers must respond to the unique developmental nature of the learner. As lifelong learners teachers should be familiar with the National Council for the Social Studies, and other appropriate professional organizations, to help guide their professional development. Creating effective lessons, using appropriate assessment techniques and using the resulting data to drive instruction are central to the course objectives. Other topics include grading practices and building a positive learning environment while managing the class appropriately.

EDCI 521 TECHNOLOGY FOR THE 21ST CENTURY TEACHER  1 
Prerequisite: 
This course provides teachers with an overview of online learning and introduces key technologies that may be utilized to be a more effective teacher and learner. The basic technology tools for everyday learning, researching, communication, and collaboration will be reviewed.

EDCI 522 TEACHING & LEARNING IN THE 21ST CENTURY CLASSROOM  3 
Prerequisite: 
This course provides teachers with an overview of how theoretical and curricular foundations have evolved to form the current 21st century model of classroom instruction. It provides practical instruction on how key technologies are being utilized to meet the needs of the 21st century student. Instructors provide a theoretical framework for technology integration that find praxis with critical thinking and problem solving, communication, collaboration, and creativity and innovation. The meshing of instructional methods, curriculum, and technology are the thematic focal points of content with a practical emphasis on learning how these technologies work. This course meets the requirements for the Curriculum Foundations standard in the M.Ed. Core.

EDCI 523 READING AND LITERACY CURRICULUM  3 
Prerequisite: 
A course designed to provide advanced study of the forces that have shaped literacy curriculum and instructional practices. Theoretical understandings about reading and writing as well as philosophical, political, and economic influences will be explored in order to identify their influence on the purpose, content, organization, and implementation of literacy instruction. This course meets the M.Ed. Core requirement for curriculum.

EDCI 533 CULTURALLY AND LINGUISTICALLY DIVERSE LEARNERS: SOCIAL, HISTORICAL, AND LEGAL ISSUES RELATED TO THE EDUCATION OF ENGLISH LANGUAGE LEARNERS  3 
Prerequisite: 
Field/Clinical Hours: 20 There are no prerequisites for this course which is open to all graduate education students. While it is aptly suited for every teacher in our diverse classrooms, this course is required for candidates seeking Teaching English to Speakers of Other Languages (TESOL) Endorsement. This course explores historical, social, and policy issues surrounding the education of diverse learners particularly English Language and limited English proficient learners in K-12 settings in the U.S. With the population changes and demographics realities of the 21st Century, educational professionals will be better prepared by investigating theories and themes of cultural identity, intergroup differences, migration, language use, and how these factors intersect with school performance. This course will emphasize the roles of school in collaboration with family and community structures to elicit strengths and enhance positive outcomes for students. This course meets core requirements for M.Ed. completion.

EDCI 534 LANGUAGE ACQUISITION AND ELEMENTS OF LINGUISTICS FOR TEACHING ENGLISH LANGUAGE LEARNERS  3 
Prerequisite: 
Applying concepts relevant to the acquisition and structure of English increases the effectiveness of instruction to support English Language Learners (ELL) in grades Pre-K-12. As part of the Teaching English to Speakers of Other Languages (TESOL) endorsement program, this course will introduce participants to language development and second language acquisition theories. Students will apply linguistic research to the provision of literacy and content area knowledge and skills for ELLs.

EDCI 535 INTEGRATED TEACHING METHODS FOR ENGLISH LANGUAGE LEARNERS  3 
Prerequisite: Take EDCI 534; Field/Clinical Hours: 20 Prerequisites: EDCI 534: Language Acquisition and Elements of Linguistics for Teaching English Language Learners 
The purpose of this course is to increase teacher effectiveness in providing appropriate instruction for English language learners (ELLs) in grades PreK-12. Theories of second language learning and types of programming for ELLs will be discussed along with ways to develop student's academic English using sheltered instruction. The pedagogical implications of sociopolitical issues relevant to teaching ELLs in U.S. schools will be considered and integrated in the development of linguistically scaffolded lesson plans.

EDCI 536 INSTRUCTIONAL DESIGN FOR TECHNOLOGY INTEGRATION  3 
Prerequisite: Take EDCI 505 or EDCI 522; EDCI 505. Introduction to Principles of Instructional Technology or EDCI 522 Teaching & Learning in the 21st Century Classroom (or equivalent) 
This course introduces the systematic process and foundations of instructional design. Students will apply the instructional design process to plan, design, assess, reflect upon, and model effective learning environments. The systematic process enables the student to integrate technology to produce effective, efficient, and engaging learning
EDCI 537 SOCIAL, CULTURAL AND POLITICAL 3 ASPECTS TO TECHNOLOGY USE IN THE EDUCATION OF ALL STUDENTS

Prerequisite: Take EDCI 505 or EDCI 522

Prerequisite: EDCI 505 Introduction to Principles of Instructional Technology or EDCI 522 Teaching & Learning in the 21st Century Classroom (or equivalent). This course offers students the understanding of social, ethical, and human issues surrounding the use of technology in P-12 schools and assist students in applying the understanding in their practice. This course focuses on four main areas: (a) legal and ethical practice related to technology use, (b) application of technology resources to enable and empower learners with diverse backgrounds, characteristics, and abilities, (c) promotion of safe and healthy technology resources, and (d) facilitation of equitable access to technology resources for all students.

EDCI 538 DESIGNING AND IMPLEMENTING 3 PROFESSIONAL DEVELOPMENT FOR THE TECHNOLOGY LEADER

Prerequisite: Take EDCI 505 or EDCI 522. EDCI 505 Introduction to Principles of Instructional Technology or EDCI 522 Teaching & Learning in the 21st Century Classroom (or equivalent)

This course provides students with the fundamentals of implementing a professional development program utilizing contemporary technologies and digital resources to promote excellence and support transformational change throughout the instructional environment.

EDCI 560 LITERACY THEORY AND PRACTICE 3

Prerequisite: A course designed to provide advanced study of development and instruction of literacy. Theoretical understandings will be explored and analyzed, especially as influencing practice. The knowledge necessary to apply appropriate instructional and programmatic decisions including knowledge of the learner, the reading and writing processes, instructional strategies, materials, assessment procedures, and classroom environment will be the focus of the course.

EDCI 561 CONTENT AREA LITERACY IN 3 MIDDLE AND SECONDARY GRADES

Prerequisite: This course provides teachers with established discipline-based expertise the opportunity to expand their understanding of literacy-based pedagogy in order to facilitate their students thinking, learning, and communicating with both print and non-print texts in content-specific learning environments. The course focuses on instructional approaches that help learners interact successfully with a broad range of texts while they develop skills and strategies needed for college and careers. Emphasis is placed on using 21st century literacy skills, especially authentic content-based inquiry.

EDCI 563 ADVANCED STUDIES IN LANGUAGE 3 ARTS

Prerequisite: This is a course in the language arts with specific emphasis on the relationships that exist among reading, writing, speaking, listening, viewing, and visually representing. Students will study current theory regarding language arts instruction and examine its role in relation to all areas of the curriculum. Through discussion and participation, the students will become familiar with organizational structures that encourage language learning in the language arts areas. In addition to organizational considerations, the course will address issues such as storytelling and story reading, adaptations for special populations, visual literacy, writing in a variety of forms (poetic, narrative, expository, and persuasive), handwriting, spelling instruction, and assessment.

EDCI 564 ADVANCED STUDIES OF LITERATURE 3 FOR ADOLESCENTS (GRADES 4-12)

Prerequisite: This course is designed to promote advanced study of issues related to literature for middle grades and secondary school students including; history and trends; literary criticism; literary theory; development of literary appreciation; authors; genre; instructional strategies; organization of literature programs; and censorship and selection. Participants will become proficient in selecting and promoting quality literature that is appropriate for meeting the developmental, social, and literary needs of adolescents.

EDCI 565 ADVANCED STUDIES OF ADOLESCENT LITERACY DEVELOPMENT 3

Prerequisite: This course is designed to promote advanced study of literacy development at the middle/secondary school levels. Course participants will investigate adolescent literacy development and effective teaching practices by applying theoretical understandings of literacy and adolescent development. They will develop the ability to gather and use assessment data and to make appropriate instructional and programmatic decisions and to create effective literacy learning environments for adolescents.

EDCI 566 ADVANCED STUDIES OF LITERATURE FOR YOUNG CHILDREN (PRESCHOOL-GRADE 5 3

Prerequisite: This course is designed to promote the exploration of issues in literature for children grades preschool through five. Issues include areas such as history, theory, criticism, trends, authors, illustrators, genres, instructional strategies and organization of literature instruction and programs. The course participants will become proficient in selecting literature of various genres to match instructional objectives and developmental levels.

EDCI 596 MIDDLE GRADES METHODS & ASSESSMENT 3

Prerequisite: This course is designed for persons in Bachelor's Plus Program who are seeking the middle grades licensure (4-9). Emphasis is placed on the development of content specific curriculum and instructional delivery, and assessment procedures which meet the specific needs of all middle grade students.

EDCI 597 MIDDLE GRADES PHILOSOPHY ORGANIZATION & CLIMATE 3

Prerequisite: This course is designed for persons in the Bachelor's Plus Program who are seeking the middle grades licensure (4-9). Emphasis is placed on the philosophy of middle level school, the psychology of the preadolescent and adolescent student, the role of teacher as counselor in teaming, curriculum and instruction.

EDCI 601 INTERNSHIP FOR MIDDLE CHILDHOOD 10

Prerequisite: EDFN 586, 589, and Admittance test required

For students who desire licensure and who have completed all of the requirements for internship. Supervised Field Experience instruction for Middle Childhood students. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to students.

EDCI 602 INTERNSHIP FOR ADOLESCENT/YOUNG ADULT 7-12 10

Prerequisite: EDFN 586, 589, and Admittance test required

For students who desire licensure and who have completed all of the requirements for internship. Supervised Field Experience instruction for Adolescent/Young Adult 7-12 students. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to student.

EDCI 607 INTERNSHIP FOR MULTI-AGE PREK-12 10

Prerequisite: For students who desire licensure and who have completed all of the requirements for internship. Supervised Field Experience instruction for Multi-age Pre-K-12 students. Fee required to cover cost of mileage
EDEC 140 PHONICS AND THE ENGLISH LANGUAGE 3

Prerequisite: None
A study of English as an alphabetic language. Particular attention will be given to the grapho-phonemic patterns which have emerged through history. Classroom applications will be explored with specific emphasis on the role of phonics in a balanced literacy program.

EDEC 215 EC/ECIS FOUNDATIONS 3

Prerequisite: None
This course provides an overview of pertinent theories and models that have provided a foundation for both early childhood education and early childhood special education, including specific areas of ability that affect young children ages birth to eight with mild/moderate/intensive needs and gifted. Emphasis will be placed upon the discussion of the foundation of early childhood education, including early childhood special education, and current societal issues regarding young children and their education. Students will also become aware of the professional organizations (NAEYC and CEC/DEC) for early childhood education.

EDEC 262 FOUNDATIONS IN LITERACY 3

Prerequisite: None
A course that promotes understanding of literacy theory and practice at the elementary through secondary school levels. The focus of the course will be to connect theoretical knowledge of the learner and the processes of reading and writing to instructional decisions, including literacy programs, instructional scaffolds, materials, and learning environments. This course is required for Early Childhood, Early Childhood Intervention Specialists, and middle Grade majors. It fulfills 3 credit hours of the Ohio 12 credit-hour literacy requirement.

EDEC 268 PRE-SCHOOL METHODS AND CURRICULUM 2

Prerequisite: PSYC 264
A methods course for Early Childhood majors focused on preschool methods and activities to learn and utilize authentic lessons and activities, classroom-based assessment, and how to interpret and use the information to plan curriculum that is responsive to and supportive of Pre-K children’s development and learning.

EDEC 268F PRE-SCHOOL FIELD EXPERIENCE 1

Prerequisite: PSYC 264
A field experience in a preschool setting focused on preschool methods and activities to learn and utilize authentic lessons and activities, classroom-based assessment, and to demonstrate the teaching skills and dispositions supportive of Pre-K children's development and learning.

EDEC 323 TRADE BOOKS AND TECHNOLOGY WITHIN A BALANCED LITERACY PROGRAM 3

Prerequisite: EDEC 262; concurrent with EDEC 330, 361
A study of the variety and uses of print and on-line resources available to the literacy provider in early childhood settings. Emphasis will be placed on the role of trade books and technology as part of a balanced literacy program for emerging readers and writers.

EDEC 330EC LITERACY/MULTICULTURAL FIELD EXPERIENCE 2

Prerequisite: EDIS 230IS or EDEC 268; EDEC 215; and successful completion of Teacher Education Screening Process; concurrent enrollment with EDEC 323 and 361. Field hours: 90
Seminars and field experiences in a multicultural setting provide teacher education students opportunities to make decisions relating to assessment, instruction, evaluating and intervention in their certification area(s) with small groups, individuals, or with the entire class.
EDEC 361 LANGUAGE ARTS AND READING CURRICULUM METHODS 3
Prerequisite: EDFN 202 and EDEC 262; concurrent with EDEC 330, 333
This course provides an understanding of the development of the language arts and instructional procedures that facilitate competent oral and written communication in the early childhood pre-K-grade 3 classroom.

EDEC 363 EARLY CHILDHOOD MATHEMATICS CURRICULUM & METHODS 3
Prerequisite: MATH 217; concurrent with EDEC 369, 403, 445, 417
A study of the curriculum content recommended for pre-kindergarten through the third grade, along with the instructional methodology appropriate for teaching the content. Emphasis will be placed upon the content, processes, environment materials, and developmentally and individually appropriate practices for all learners.

EDEC 369 ASSESSMENT AND EVALUATION OF YOUNG CHILDREN WITH SPECIAL EDUCATIONAL NEEDS 3
Prerequisite: PSYC 264; concurrent with EDEC 363, 403, 445, 417; Clinical hours: 5
A comprehensive course designed to address pertinent issues, as well as procedures, of assessment and evaluation of young at-risk and handicapped children. Participants will be involved in local programs that service families of and/or at-risk and handicapped young children.

EDEC 400 BEHAVIOR & SOCIAL INTERVENTION 3
Prerequisite: EDEC 215
Comprehensive studies of positive classroom and individual student management techniques. Emphasis is on developing appropriate strategies for young children with diverse backgrounds and developmental needs.

EDEC 403 EARLY INTERVENTION AND INTEGRATION FOR YOUNG CHILDREN WITH SPECIAL EDUCATIONAL NEEDS 3
Prerequisite: PSYC 264; concurrent with EDEC 363, 369, 445, 417; Clinical hours: 5
A study of early-intervention models, current trends, and service delivery for children from birth through grade three with mild, moderate, intensive, and talent potential needs and their families. Emphasis will be placed on evidence based intervention strategies, developmentally appropriate practice, and the role of family.

EDEC 411 ASSESSMENT AND INTERVENTION IN THE INTEGRATED LANGUAGE ARTS 3
Prerequisite: 9 hours from EDEC 140, 262, 323, 361, EDCI 261, 306, 312, 392
This course provides experiences in using focused and ongoing assessment to develop instruction that is responsive to the needs of K-12 students who are struggling with literacy. The lab component of this course requires the participant to implement the assessment/instructional process with specific children and to effectively document and present children's progress.

EDEC 417 SENIOR FIELD EXPERIENCE IN CONTENT TEACHING AND INTERVENTION 3
Prerequisite: EDEC 330EC and successful completion of the Teacher Education Screening Process; concurrent enrollment with EDEC*363, 369, 403, 413, 414; Field hours: 115
Seminars and field experiences in an early childhood placement provide senior teacher education students the opportunity to implement and practice methods learned in previous and concurrent courses. The field-based participation is within a program that serves young children with special educational needs within the general education curriculum. It is in preparation for the student internship experience.

EDEC 445 INTERDISCIPLINARY SCIENCE AND SOCIAL STUDIES METHODS 3
Prerequisite: EDEC 330EC and successful completion of the Teacher Education Screening Process; concurrent enrollment in EDEC*363, 369, 403, and 417
A study of the science and social studies curriculum content recommended for pre-kindergarten through grade three, along with the instructional methodology appropriate for teaching that content. Emphasis will be placed upon content, processes, using resources in the environment and community, materials, and differentiation and learning conditions for all learners.

EDEC 448 BIO-MEDICAL ISSUES FOR EARLY CHILDHOOD PROFESSIONALS 3
Prerequisite: EDEC 215 or EDIS 250
A study of biological, physiological and medical issues and conditions as they relate to the developing child from birth to age 8. The importance of understanding these issues in relation to the appropriate education and support of young children and their families is emphasized. Individuals considerations that affect typical development or educational environment (e.g. attention problems, allergies, disabilities, etc.) are explored and appropriate techniques and resources for reducing the impact of these conditions on the child and learning potential are examined. EDUC/NUR credit.

EDEC 460 STUDENT INTERNSHIP: EARLY CHILDHOOD 10
Prerequisite: Completion of all student internship requirements
Supervised field experience in early childhood settings.

EDEC 466 STUDENT INTERNSHIP: EARLY CHILDHOOD INTERVENTION SPECIALIST 10
Prerequisite: Completion of all student internship requirements
Supervised field experience with an Intervention Specialist in a school setting.

EDEC 515 FOUNDATIONS OF LITERACY 3
Prerequisite: A course designed to promote understanding of the development of literacy. The knowledge necessary to make and apply appropriate programmatic and instructional decisions including knowledge of the learner, the reading and writing processes, instructional strategies, materials and learning environments will be the focus of the course. This course is restricted to Early Childhood initial licensure students and graduate students who must complete the state-mandated, 12-semester hour reading methods coursework. Credit from this course may not be applied to a masters level program.

EDEC 540 PHONICS AND THE ENGLISH LANGUAGE 3
Prerequisite: NOTE: EDEC 540 MAY NOT BE TAKEN BY CONFERENCE. A study of English as an alphabetic language. Particular attention will be given to the graph phonemic patterns which have emerged through history. Classroom applications will be explored with specific emphasis on the role of phonics in a balanced literacy program. This course is restricted to initial licensure students and graduate students who are required by ODE rules to complete a basic phonics course.

EDEC 545 INTERDISCIPLINARY SCIENCE AND SOCIAL STUDIES METHODS 3
Prerequisite: A study of the science and social studies curriculum content recommended for prekindergarten through grade three, along with the instructional methodology appropriate for teaching that content. Emphasis will be placed upon content, processes, using resources in the environment and community, materials, and differentiation and learning conditions for all learners. Credit from this course may not be used towards a M.Ed. degree at Ashland University.

*2017-2018 AU Academic Catalog*
responsibilities of teachers and the role of education in a democratic society. Through classroom observations, teacher questionnaires and education resources, candidates investigate culturally responsive and inclusive education, the economic, legal, and political context of schools, and the ethical standards of the teaching profession.

EDFN 202 TEACHING AND LEARNING PROCESS 3
Prerequisite: EDFN 130;
This course deals with the major theories of human development, motivation and learning. Planning of instruction, teaching strategies, assessment and classroom management are examined. Authentic pedagogical practices are used to gain an understanding of the teaching and learning process.

EDFN 402 SOCIAL AND PROFESSIONAL ISSUES IN EDUCATION 2
Prerequisite: Must meet program requirements for student Internship. Concurrent enrollment with program Internship. Field/Clinical Hours: 20
This course focuses on the social and cultural forces that currently shape school policy and practice and on the expectations that must be met in order to be a fully recognized member of the teaching profession. Candidates will evaluate their professional progress by using the Ohio Standards for Teaching Professionals and will explore issues facing the education profession that have implications for their future career.

EDFN 501 APA SEMINAR 0
Prerequisite:
This seminar provides graduate students an understanding of the content of the APA Publication Manual and format, including citations and reference styles. This class, along with the other core courses, is a prerequisite to all capstone experiences for the M.Ed. degree.

EDFN 502 CRITICAL DIALOGUES IN THE TEACHING AND LEARNING PROCESS 3
Prerequisite:
Critical theory, critical pedagogy, and critical discourse analysis emerged following World War I in Europe, and entered American education from the 1970s onward. Through these perspectives, education professionals can learn to identify sources of socio-cultural power that shape, control, limit and empower the practice of education as an institution of culture. The perception of the classroom teacher by society, individual communities, and the teachers themselves is shaped by a complex intersection of political power, economics, gender and sexual discourses, and historical meta-narratives. This course will provide an overview of these discourses through the lens of critical theory to discuss the nature and characteristics of the teaching profession in contemporary U.S. schooling.

EDFN 503 SCHOOL AND SOCIETY 3
Prerequisite:
School and Society is a course designed for students to reflect on antecedents of the current educational system (philosophical, political, economic, and social influences which have shaped it) and societal interactions which continue to affect it. Using this understanding, students will focus on the role of the educator in developing schools as educational communities. This course meets the requirements for the Social and Historical standard in the M.Ed. Core.

EDFN 504 ACTION RESEARCH FOR EDUCATIONAL IMPROVEMENT 3
Prerequisite:
This course provides graduate students interested in improving instruction with an introductory experience in designing, conducting, and analyzing action research in their classrooms, schools, and/or community-based learning sites. Action research is a systematic, reflective process driven by real-life questions, needs, and problems of a particular context. Students will learn fundamental principles of research design, refine their skills to evaluate and critique research, and consider the role of systematic, reflective practitioner-inquiry in guiding one's own professional practice and profession collaboration activities.

This course meets the requirements for the Inquiry/Research standard of the M.Ed. Core.

EDFN 505 INTRODUCTIONS TO APPLIED EDUCATIONAL RESEARCH 3
Prerequisite:
This course is designed to introduce education professionals to both qualitative and quantitative sources of information across research in a way that is directly relevant to their professional practices. Students will review and critique recent qualitative, quantitative, and mixed methods studies to synthesize an understanding of both research methods and the mechanisms for linking research to practice. Students will locate and collect three types of data: qualitative, quantitative, and literary, and will use these data to structure a creative product that demonstrates knowledge of both research and practice. This course meets the requirements for the Inquiry/Research standard in the M.Ed. Core.

EDFN 506 QUALITATIVE RESEARCH 3
Prerequisite:
This course acquaints students with a qualitative inquiry. In addition to providing an introduction to the theoretical perspectives informing qualitative research, the course focuses on techniques for and issues of gathering, analyzing, and reporting qualitative data. The social and ethical issues of research are emphasized.

EDFN 507 UNDERSTANDING STATISTICAL RESEARCH FOR CLASSROOM PROFESSIONALS 3
Prerequisite:
This course is designed to introduce education professionals to both qualitative and quantitative sources of information across research in a way that is directly relevant to their professional practices. Students will review and critique recent qualitative, quantitative, and mixed methods studies to synthesize an understanding of both research methods and the mechanisms for linking research to practice. Students will locate and collect three types of data: qualitative, quantitative, and literary, and will use these data to structure a creative product that demonstrates knowledge of both research and practice. This course meets the requirements for the Inquiry/Research standard in the M.Ed. Core.

EDFN 508 QUANTITATIVE METHODS IN EDUCATION 3
Prerequisite:
A course designed to make the graduate student, an informed consumer of descriptive and inferential statistics through the use of research methods in education. The focus of the course is on understanding the role of quantitative analysis in the classroom rather than computation. Introduction to research techniques, sampling procedures, and interpretation of statistical procedures are emphasized.

EDFN 509 INTERMEDIATE STATISTICS 3
Prerequisite: EDFN 508
The intermediate educational statistics course is divided into three parts. During the first portion of the course, the students conduct an in-depth study of research design. The second portion of the course involves a study of the intermediate level of statistical tools. The final portion of the course requires that each student present his or her proposed research project for clinical evaluation by the class and instructor.

EDFN 510 THE WORLD IN YOUR CLASSROOM: MULTICULTURAL & GLOBAL EDUCATION 3
Prerequisite:
The goal of this course is to equip educators with the knowledge and practical skills necessary to implement multicultural curricular and pedagogical strategies, thereby enabling them to meet the diverse learning needs of all students. By developing multicultural competence, using culturally relevant instruction and pedagogy, and practicing culturally responsive teaching, educators will improve their ability to positively impact student achievement both individually, and holistically. Also, by developing an understanding of the prevailing conditions, developments, and trends associated with world educational issues, educators will be equipped to prepare their students for the
increasingly globalized world. This course satisfies the Diversity requirement of the M.Ed. Core.

EDFN 512  TEACHING AND LEARNING PROCESS  3  
**Prerequisite:**
This course deals with the major theories of human development, motivation and learning. Planning of instruction, teaching strategies, assessment and classroom management are examined. Authentic pedagogical practices are used to gain an understanding of the teaching and learning process.

EDFN 520  SOCIAL AND PROFESSIONAL ISSUES IN EDUCATION  3  
**Prerequisite:**
This course focuses on the social and cultural forces that currently shape school policy and practice and on the expectations that must be met in order to be a fully recognized member of the teaching profession. Candidates will evaluate their professional progress by using the Ohio Standards for Teaching Professionals and will explore issues facing the education profession that have implications for their future career.

EDFN 521  THE THEORY AND PRACTICE OF CURRICULUM DEVELOPMENT  3  
**Prerequisite:**
Students examine the impact of curriculum theories and practices, including contemporary curriculum discourses; technology utilization and management; major groups and individuals in society who influence curriculum; trends and innovations in curriculum, approaches to evaluation of curriculum experiences; professional techniques of curriculum development; and the role of students, teachers, administrators, scholars, parents, and other groups in shaping curriculum. Current literature and research are emphasized. This course meets the requirements for the Curriculum Foundations standard in the M.Ed. Core.

EDFN 524  DEMOCRACY IN EDUCATION  3  
**Prerequisite:**
Democracy in Education explores curriculum theory related to democracy in education, along with historical examples of democratic schools. Current practices that shape democratic and peaceable schools will be studied with a view to application in schools and classrooms. This course will add depth to understanding of curriculum in education and democratic schools. This course meets the criteria of the Curriculum Foundations standard in the M.Ed. Core.

EDFN 524  METHODS OF TEACHING IN ADULT EDUCATION  3  
**Prerequisite:**
This course is designed both to give participants an overview of the current practice of adult education and human resource development, and to familiarize them with the breadth, variety, and depth historical roots of adult education as a social practice and field of academic study. These aims will be met through an historical survey of practices in American and World History, with select case examples which demonstrate the variety of instructional philosophies found in the field.

EDFN 525  HISTORY OF EDUCATION IN THE UNITED STATES  3  
**Prerequisite:**
The intent of this course is to explore the ways in which education has developed historically in the United States. EDFN 525 examines the administrative, or structural history of public schooling and other educational institutions and agencies. It also explores how cultural concepts such as race, class, and gender have impacted and been impacted by the historical narrative of education. In this vein, EDFN 525 considers the role that schools play in fostering both equality and inequality in American education in order to understand both the history of education in its own right, and how contemporary American education is informed by historical precedents.

EDFN 526  USING THE SCHOOL YARD AS AN INSTRUCTIONAL TOOL  3  
**Prerequisite:**
This course focuses upon the utilization of the schoolyard as an instructional tool. Emphasis is placed upon rationale, techniques, activities, and site enhancements that can provide experiential learning opportunities beyond the classroom walls. The course emphasizes outdoor learning opportunities that can be used to address concepts and process skills from a variety of content areas and at a variety of grade levels. The outdoors is presented as an interdisciplinary teaching tool rather than as a content area.

EDFN 527  PLACE-BASED EDUCATION  3  
**Prerequisite:**
Place-Based Education is the study of communities in order to develop an understanding of and respect for where one lives. Participants will explore ways to engage students in learning about their local communities, both human and natural. They will discuss readings, participate in field trips, engage in research, and develop methods for incorporating place-based education into their teaching.

EDFN 528  EXPLORATIONS: METHODS IN OUTDOOR EDUCATION  3  
**Prerequisite:**
Explorations: Methods in Outdoor Education is a methods course designed to prepare educators to use the outdoors as a teaching tool. Students will participate in related readings, activities, and field trips and will develop curriculum materials appropriate to their teaching area.

EDFN 530  EDUCATIONAL TESTS AND MEASUREMENTS  3  
**Prerequisite:**
Education programs in the 21st Century continue to evolve with respect to the complex uses of tests and measurements to establish baseline data on student achievement, ability, performances, and behaviors. Professional educators and administrators are increasingly tasked with creating, administering, analyzing, interpreting, and responding to test results and their associated data. This course will provide an overview of relevant terminology and concepts of testing and measurement, and guide students in creating a variety of items for typical tests used in classroom settings. The course will address item analysis procedures, item wording, testing strategies, introductory language for tests and test items, and methods for using test results to create intervention instructional methods with students. Finally, students will briefly review a selection of contemporary commercial tests commonly used in Ohio schools to identify strategies for incorporating results of testing to provide educational benefits to the students.

EDFN 586  EFFECTIVE INSTRUCTION  3  
**Prerequisite:**
Taken before or concurrently with EDFN 587, 588, and/or 589 field experiences and other course work
This is an entry level course in the Bachelor's Plus Program. Opportunities are provided for students to explore and/or confirm their entry into a teaching field. Fundamental knowledge essential for a beginning student is presented through the course knowledge, skills and dispositions, objectives, and activities and experiences gleaned from the course.

EDFN 587  MULTICULTURAL FIELD EXPERIENCE  3  
**Prerequisite:**
To be taken concurrently with or after EDFN 586  
88 Field Hours. A field experience which emphasizes knowledge of multiculturalism, cultural differences, constantly changing family life, interpersonal communication theories, interpersonal relations, human relation skills, motivational skills, as related to teaching in a culturally, racially, and socio-economically diverse society; and working effectively with students regardless of race, political affiliation, religion, age, sex, and socio-economic status. Knowledge of the influence of teacher expectations on student achievement and the impact of home efforts on student performance are also emphasized. The completion of this experience should help the student be more
effective in the decision-making process, and in developing self-assessment knowledge and skills. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to student.

EDFN 588 ASSESSMENT, INSTRUCTION, EVALUATION, AND INTERVENTION FIELD EXPERIENCE
Prerequisite: To be taken concurrently with or after EDFN 586
A field experience in an early childhood placement that serves young children with special education needs within the general education curriculum which emphasizes decision making in assessment, instruction, and intervention regarding individual student learning needs and appropriate instructional strategies to address the needs of students, including those with exceptionalities and differing learning styles. This field experience will provide senior teacher education students the opportunity to implement and practice methods learned in previous and concurrent courses. This field is a preparation for the student teaching experience.

EDFN 589 TEACHING SKILLS FIELD EXPERIENCE
Prerequisite: To be taken concurrently with or after EDFN 586
92 Field Hours. A field experience which emphasizes the development and use of teaching strategies, methods, skills and assessments as they relate to the principles of teaching and learning, and the decision making process. Time will be spent on applying planning and management skills to the instruction, discipline, behavioral concerns and decision making in the instruction of small groups and whole classes. The student will use a variety of teaching strategies, methods, skills and instructional resources. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to student.

EDFN 590 INTERNSHIP
Prerequisite: EDFN 586, 589, and Admittance test required
Supervised field experience in licensure area(s) in an elementary, middle, and/or secondary school. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to students.

EDFN 592 INTERNSHIP FOR SECOND LICENSURE CANDIDATES
Prerequisite:
This is an internship designed to prepare second licensure candidates which emphasizes decision making in assessment, instruction, evaluation, and intervention for the second licensure area. This field experience will provide application through individual and/or small group tutoring, whole class instruction, and planning responsibility. Fee required covering cost of mileage expense for travel by supervisor, and copies/materials to student.

EDFN 620 ETHICS AND RESPONSIBILITIES OF TEACHER LEADERSHIP
Prerequisite: Admission to the Teacher Leader Program
The focus of Ethics and Responsibilities of Teacher Leadership is on becoming a leading learner in one's educational setting. The course will consist of readings and discussions, as well as developing plans to empower others by building communities and a culture of respect in classrooms and schools.

EDFN 621 COACHING AND MENTORING FOR SCHOOL IMPROVEMENT
Prerequisite: EDFN 620
This course focuses on developing the knowledge, skills, and dispositions necessary for Teacher Leaders to provide high levels of effective coaching and mentoring focused on improving teaching practices and learning for all students. The course will focus on the relationships among teacher leadership, professional learning and inquiry communities, and systematic analysis of school and classroom data to drive instruction and programmatic planning.

EDFN 622 UNDERSTANDING GROUP DYNAMICS IN SCHOOLS
Prerequisite: EDFN 621
The focus on this course is on recognizing and understanding the mechanisms and implications of the social processes involved in group dynamics as they pertain to 21st century classrooms and schools. The emphasis will be on understanding both classrooms and schools as miniature societies and the role of the teacher leader within those societies.

EDFN 623 PROFESSIONAL LEARNING COMMUNITIES AND PROFESSIONAL DEVELOPMENT
Prerequisite: EDFN 621
Professional Learning Communities and Professional Development will provide teacher leaders with the knowledge, experiences, and dispositions that will enable them to develop, implement, refine, and institutionalize programs of professional development and renewal for all members of the professional community.

EDFN 632 IMPROVING CLASSROOM INSTRUCTION
Prerequisite:
The purpose of this course is to prepare the student to be an instructional leader. Through reading, discussion, modeling, lectures, and effective use of technology, the student will know the latest research in learning theory, models of effective teaching and the cycle of instruct, assess, intervene, and evaluate when teaching in grades PreK-12. Special emphasis will be given to placing a balance between mastery of basic skills and the development of higher-order thinking and problem-solving processes.

EDFN 635 INSTRUCTIONAL ORGANIZATION AND MANAGEMENT
Prerequisite:
To develop management skills related to curriculum instruction. These skills include staffing patterns, space, and time utilization concepts and media materials for pupils in formulating and implementing learning programs.

EDFN 640 ADULT DEVELOPMENT CONTINUITY AND CHANGE
Prerequisite:
A course designed to provide leaders of professional enterprises with a foundation of knowledge and experience that will enable them to develop programs of development and renewal based on the principles and theories of human lifespan development and learning.

EDFN 645 EDUCATIONAL PSYCHOLOGY AND HUMAN DEVELOPMENT
Prerequisite:
The course addresses theories of human development, the scientific worthiness of the theories, and assists in developing an understanding of how the theories may be applied to schooling. Students will apply research related to human development and educational psychology for the improvement of instruction, curriculum, and administration. This course meets the requirements for the Social and Historical Foundations standard in the M.Ed. Core.

EDFN 646 EDUCATIONAL ASSESSMENT
Prerequisite:
This course is designed to advance the graduate student's ability to choose and create meaningful assessments appropriate for a given purpose, situation, and group of learners. The goal will be to use assessment to ensure the continuous intellectual, social, and physical development of all learners, as well as a tool for teacher reflection and professional development. Students will create and critique a variety of appropriate and ethical assessment techniques to enhance learning and teaching. Additional focus will be on the critical analysis of current research and an understanding of the roles uses and limitations of economic roles of assessment in society.
EDFN 650  HISTORY AND PHILOSOPHY OF ADULT EDUCATION  3

Prerequisite: 
This course is designed both to give participants an overview of the current practice of adult education and human resource development, and to familiarize them with the breadth, variety, and deep historical roots of adult education as a social practice and field of academic study. These aims will be met through an historical survey of practices in American and World History, with select case examples which demonstrate the variety of instructional philosophies found in the field.

EDFN 747  TEACHER LEADER INTERNSHIP CAPSTONE  5

Prerequisite: Application and selection process. Students should have completed the Core requirements and approximately 24 semester hours as well as the required courses in the Teacher Leader Program.
The Capstone Internship is a planned, supervised, and evaluated field-based experience lasting one semester. It is designed as the culminating field experience for the Master of Education program. The internship requires students to work in a setting appropriate to their field and with a cooperating educator appropriate for the program or the licensure sought. The internship allows students to engage in a major project which involves problem identification, analysis of related research, development of a process or procedure to address the problem, development of an evaluation process and preparation of a project product. The internship will allow students to observe the functions of like professionals, assume leadership in planning, implementing, and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in their field of study.

EDISON 300S  INTEGRATION OF MILD/MODERATE/INTENSIVE EDUCATIONAL INTERVENTION  2

Prerequisite: EDFN 130 or equivalent (EDEC 215 for ECIS); Field hours: 60
A field placement in an inclusive education setting.

EDIS 230IS  WORKSHOP IN TEACHING INTERVENTION SPECIALIST  2

Prerequisite: EDFN 130 or equivalent (EDEC 215 for ECIS); Field hours: 60
Seminars and field experience to afford students working toward Intervention Specialist licensure opportunities to teach students with need for mild/moderate/intensive educational intervention in inclusive multicultural environments.

EDIS 245  INTERNATIONAL PERSPECTIVES ON DISABILITY  3

Prerequisite: None
This course will explore the various theories of disability (ableism/disablism, social, and medical models) and how disability is interpreted by the larger society. People with disabilities are often viewed at being deviant, stigmatized and incompetent and therefore, are marginalized from the normal population. This course will explore the construct of disability through the lens of race, gender, socio-economic class, geographic region and popular culture’s presentation of disability in media.

EDIS 250  INTRODUCTION TO EDUCATIONAL INTERVENTION  3

Prerequisite: None
Designed to review the history, legislation, legal definitions, characteristics, and educational concerns of students with need for mild/moderate/intensive educational intervention. Issues of assessment, identification, individualized educational programming, educational trends, service alternatives, and professional resources will be emphasized.

EDIS 251  ORIENTATION TO DEAF CULTURE AND INTRO TO AMERICAN SIGN LANGUAGE  3

Prerequisite: Field/Clinical hours: 20
An introduction to deaf culture, etiology, advocacy groups related to the deaf and/or nonverbal communication methods. Historical, sociological and literary aspects will also be studied. Develops elementary conversational skills in sign language. May not be used to fulfill the foreign language requirement.

EDIS 253  ASSISTIVE AND INSTRUCTIONAL TECHNOLOGY FOR INTERVENTION SPECIALIST  3

Prerequisite: Concurrent with EDIS*230IS, 257, 451
Trains students to use technology and materials specifically to teach and assist exceptional learners. Adaptations to technology and materials typically available and those specifically designed to assist the learner with challenges will be studied.

EDIS 257  SENSORY MOTOR-INTERVENTION SPECIALIST MODERATE/INTENSIVE  3

Prerequisite: For Intervention K-12; EDIS*250, concurrent with EDIS*230IS, 253, 451; for Early Intervention PreK-3; EDEC*215, concurrent with EDIS*230IS, 253
Provides curriculum models, specialized methods, materials and equipment to teach students with moderate and intense special needs in the areas of vision, hearing, sensory motor, physical and health needs.

EDIS 330IS  WORKSHOP INTEACHING STUDENTS WITH MILD/MODERATE/INTENSIVE EDUCATIONAL INTERVENTION IN MULTICULTURAL SETTINGS  3

Prerequisite: EDIS 230IS; concurrent with EDIS 343, 441; Field hours: 110
Seminars and field experience to afford students working toward Intervention Specialist licensure opportunities to teach students with need for mild/moderate/intensive educational intervention in inclusive multicultural environments.

EDIS 340  WORKSHOP IN TEACHING STUDENTS WITH MILD/MODERATE/INTENSIVE EDUCATIONAL NEEDS  2

Prerequisite: EDIS 230IS; Concurrent with EDIS 342, 355, 442; Field hours: 90
Seminars and field experience to afford students working toward Intervention Specialist Licensure opportunities to teach students with mild/moderate/intensive educational needs.

EDIS 342  ASSESSING AND TEACHING CHILDREN WITH MILD/MODERATE EDUCATIONAL NEEDS  3

Prerequisite: EDIS 230IS, 250; Concurrent with EDIS 340, 355, 442
Explores and applies a variety of curriculum options, methods, materials, and technology available for students with mild/moderate educational needs.

EDIS 343  CURRICULUM/METHODS FOR CAREER AND DAILY LIVING SKILLS FOR STUDENTS WITH NEEDS FOR MILD/MODERATE/INTENSIVE EDUCATIONAL INTERVENTION  3

Prerequisite: EDIS 230IS, 250; Concurrent with EDIS 330IS, 441
Emphasis is on curriculum, methods, materials, and technology to be used in teaching career, self-care, community living, personal-social, and occupational skills to students with needs for mild/moderate/intensive educational intervention.

EDIS 355  INTERVENTION & REMEDATION IN MATH: ASSESSMENT AND INSTRUCTIONAL METHODS  3

Prerequisite: EDIS 230IS, 250; concurrent with EDIS 340, 342, 442
This course is designed to teach students assessment and instructional techniques for working with individuals grades K-12 in need of intervention and remediation in mathematics based on the Common Core Mathematics Standards. Emphasis will be placed on working with students with mild to intensive need for educational intervention.
EDIS 405 LEGAL, SOCIAL AND PROFESSIONAL ISSUES FOR INTERVENTION SPECIALISTS 3

Prerequisite: Teacher education student; senior status
A course designed to study current issues in education, with a view toward understanding the issues surrounding special education and its role within education as a social institution. Students review the American legal system and laws governing special education at federal and state levels and address issues from a teaching perspective. Special education law, social, historical, and philosophical effects will be explored. The course includes procedures specific to programs for learners with need for educational intervention.

EDIS 441 CREATING EFFECTIVE LEARNING ENVIRONMENTS 3

Prerequisite: EDIS 250, EDIS 230IS; concurrent with EDIS 330IS, EDIS 343
This course is designed to introduce the social and emotional growth and needs of students with emotional and/or learning differences. This course teaches pre-service teachers how students with behavior of concern in school settings may be identified as eligible for special education, how to systematically approach functional behavior assessments, and how to work with a team to construct effective behavior invention plans using multiple methods of teaching students whose behavior interferes with education. Emphasis is on an educative rather than punitive approach to changing behavior.

EDIS 442 COMMUNICATION, CONSULTATION, AND TEAMING SKILLS 3

Prerequisite: EDIS 250; Concurrent with EDIS 340, 342, 355
Provides an understanding of effective verbal and nonverbal communication skills, listening skills, and personality traits perceived as supportive. Emphasizes the development of sensitivity to the needs of individuals, families and professionals; collaboration, consultation and teaming; and skills of problem solving, effective handling of confrontational situations, and seeking and using support from other professionals.

EDIS 451 COMMUNICATION: INTERVENTION SPECIALIST MODERATE/INTENSIVE 3

Prerequisite: EDIS 250 or EDEC 215; concurrent with EDIS 230IS, 253, 257
Reliable communication is a vital skill to self-expression. Individuals who experience sensory, motor, perceptual, or executive function differences may develop communication systems that are not reliable means of self-expression. Prospective intervention specialists will learn how typical language and communication develop, how differences in this development may result in communication which is less than complete self-expression, and how to support and teach more complete and reliable self-expression in students K-12. Increasing techniques of communicative support will be instructed and fading or increasing these supports will be discussed.

EDIS 464 STUDENT INTERNSHIP: INTERVENTION SPECIALIST MODERATE/INTENSIVE 10

Prerequisite: Completion of all internship requirements; Field hours: 300
Supervised 12-week internship with an Intervention Specialist in a school setting.

EDIS 465 STUDENT INTERNSHIP: INTERVENTION SPECIALIST MILD/MODERATE 10

Prerequisite: Completion of all internship requirements; Field hours: 300
Supervised 12-week internship with an Intervention Specialist in a school setting.

EDIS 466 STUDENT INTERNSHIP: INTERVENTION SPECIALIST MILD/MODERATE/INTENSIVE 10

Prerequisite: Completion of all internship requirements; Supervised field experience with an Intervention Specialist in a school setting. Individuals seeking Intervention Specialist licensure must complete this field in an inclusive setting.

EDIS 505 LEGAL, SOCIAL, AND PROFESSIONAL ISSUES FOR INTERVENTION SPECIALISTS 3

Prerequisite: Must be a Teacher Education student. Must have completed all method courses.
A course designed to study current issues in education, with a view toward understanding the issues surrounding special education and its role within education as a social institution. Students review the American legal system and laws governing special education at federal and state levels and address issues from a teaching perspective. Special education law, social, historical, and philosophical effects will be explored. The course includes procedures specific to programs for learners with need for educational intervention. This course cannot be used as part of a M.Ed. degree.

EDIS 507 LANGUAGE/COMMUNICATION DISORDERS IN CHILDREN & INTERVENTION 3

Prerequisite: Take EDIS 546, EDIS 505
An overview of language, both normal and disordered, with emphasis on terminology, acquisition, development, physiological and psychological systems, impact upon learning, assessment, and intervention strategies available to teachers.

EDIS 520 ORIENTATION TO DEAF CULTURE AND INTRO TO AMERICAN SIGN LANGUAGE 3

Prerequisite: The course is an introduction to deaf culture, etiology, advocacy groups related to persons who are deaf and/or nonverbal, and nonverbal communication methods
Historical, sociological and literary aspects will also be studied. Students will develop elementary conversational skills in the use of sign language and with communication with individuals who are deaf and/or nonverbal.

EDIS 534 TRANSITION AND CURRICULUM METHODS FOR CHILDREN W/ MILD/MODERATE NEEDS 3

Prerequisite: EDIS 546; this section is only for the Bachelors Plus initial licensure students for ISMM. This course is taken concurrently with the field experience EDIS 589
Emphasis is on curriculum, methods, materials, and technology to be used in teaching career/self-care/community living/personal-social/occupational skills to students with needs for mild/moderate/intensive educational intervention.

EDIS 535 CURRICULUM/METHODS FOR CAREER AND DAILY LIVING SKILLS FOR STUDENTS WITH NEEDS FOR MILD/MODERATE/INTENSIVE EDUCATION INTERVENTION 3

Prerequisite: EDIS 546;
Emphasis is on curriculum, methods, materials, and technology to be used in teaching career/self-care/community living/personal-social/occupational skills to students with needs for mild/moderate/intensive educational intervention.

EDIS 540 DEVELOPING CLASSROOM LEARNING ENVIRONMENTS 3

Prerequisite: EDIS 546; This course is only for Bachelors Plus initial licensure students in the ISMM program. This course is taken concurrently with EDIS 589
This course is designed to introduce the social and emotional growth
and needs of students with emotional and/or learning differences. A positive approach which focuses on the dignity of the student will be emphasized.

EDIS 541 CREATING EFFECTIVE LEARNING ENVIRONMENTS 3

Prerequisite: EDIS 546;

This course is designed to introduce the social and emotional growth and needs of students with emotional and/or learning differences. A positive approach which emphasizes the dignity of the student will be emphasized.

EDIS 542 COMMUNICATION, CONSULTATION, AND TEAMING SKILLS 3

Prerequisite:

A course designed to provide professionals working within the field of exceptionalities an understanding of effective verbal and nonverbal communication skills, listening skills, and personality traits perceived as supportive. The development of sensitivity to the needs of individuals, families, and professionals is emphasized. Focus will be on collaboration, consultation, and teaming with emphasis on the skills of problem solving, effective handling of confrontational situations and seeking and utilizing interdisciplinary support from other professionals.

EDIS 543 INTRODUCTION TO EDUCATIONAL INTERVENTION 3

Prerequisite:

This course is designed to review the history, legislation, legal definitions, characteristics, and educational concerns of students with need for mild/moderate/intensive educational intervention. Issues of assessment, identification, individualized educational programming, educational trends, service alternatives, and professional resources will be emphasized.

EDIS 548 ASSESSING AND TEACHING CHILDREN WITH MILD/MODERATE EDUCATIONAL NEEDS 3

Prerequisite: EDIS 546

Emphasis is placed on developing the ability to use a variety of curriculum, methods, materials, and technology available for educating students with mild/moderate educational needs. Assessment and evaluation techniques for both academic and non-academic areas are emphasized with a focus on critical analysis of current research and design of action research. The graduate students use these skills to assess and instruct a child or a small group of children.

EDIS 549 ASSESSMENT & INTERVENTIONS FOR CHILDREN WITH MILD/MODERATE EDUCATIONAL NEEDS 3

Prerequisite: Take EDIS 546. This course is only for students in the Bachelor's Plus Initial licensure ISMM program. This course is taken concurrently with EDIS 588

Emphasis is placed on developing the ability to use a variety of curriculum, methods, materials, and technology available for educating students with mild/moderate educational needs. Assessment and evaluation techniques for both academic and non-academic areas are emphasized with a focus on critical analysis of current research and design of action research. The graduate students use these skills to assess and instruct a child or small group of children.

EDIS 550 SOCIAL AND EDUCATIONAL PERSPECTIVE OF DISABILITY 3

Prerequisite:

The application of a deficit model to define and respond to individuals with disabilities in schools contributes to community marginalization and social stigmatization. This class focuses upon the interpretative framework of the perceptions and implications of disability within society and the educational community. It will utilize diverse perspectives to explore how the construct of disability impacts the community identity and participation rights of individuals with disabilities. The promotion of socially just practices will be explored.

EDIS 553 INTERVENTION AND REMEDIATION IN MATH: ASSESSMENT AND INSTRUCTIONAL METHODS 3

Prerequisite: EDFN 546, EDFN 586

This course is designed to teach candidates assessment and instructional techniques for working with individuals grades K-12 in need of intervention and remediation in mathematics based on the Common Core Mathematics Standards. Emphasis will be placed on working with students with mild to intensive need for educational intervention. This course cannot be used as part of a M.Ed. program.

EDIS 579 SPECIAL EDUCATION LAW, POLICIES, AND PROCEDURES 3

Prerequisite:

The class covers the interpretive framework encompassing recent judicial decisions that emphasize inclusion for students with disabilities. Students review the American legal system and laws governing special education at federal and state levels and address issues from a teaching perspective. The course includes procedures specific to programs for learners with need for educational intervention. It also addresses topics such as relationships between school personnel and parents, funding sources, consultative procedures, interpersonal communication skills, enhancing team performance, and cultural and linguistic diversity.

EDIS 581 ASSISTIVE & INSTRUCTIONAL TECHNOLOGY FOR INTERVENTION SPECIALISTS 3

Prerequisite: EDIS 546; concurrent with EDIS 587

This course is designed to help students in the Intervention Specialist Program to use technology and materials specifically to teach and assist exceptional learners. Adaptations to typically available technology and materials and those specifically designed to assist the learner with challenges will be studied.

EDIS 582 ADVANCED SENSORY MOTOR INTERVENTION 3

Prerequisite: EDIS 546; concurrent with EDIS 587

This course is designed to provide advanced knowledge of curriculum models, specialized methods, materials, and equipment used to teach young children with special needs in the areas of vision, hearing, sensory motor, physical, and health. A transdisciplinary approach is emphasized.

EDIS 583 ADVANCED SENSORY/MOTOR INTERVENTION SPECIALIST FIELD 1

Prerequisite: Take EDIS 546; Student must hold a valid U.S. teaching credential OR have registered for and successfully completed a student teaching experience at an accredited 4-year institution of higher education

30 Field hours. A field placement taken concurrently at the graduate level with EDIS 582, Advanced Sensory/Motor Intervention, to be completed in an inclusive educational setting. Individuals seeking Intervention Specialist licensure must complete this field in an inclusive setting.

EDIS 584 COMMUNICATION: INTERVENTION SPECIALIST MODERATE/INTENSIVE 1

Prerequisite: EDIS 546; concurrent with EDIS 587

This course is designed to provide curriculum models, specialized methods, materials, and equipment to teach students with moderate and intense special needs in the area of communication a transdisciplinary approach is emphasized.

EDIS 585 COMMUNICATION FIELD INTERVENTION SPECIALIST MODERATE/INTENSIVE 1

Prerequisite: EDIS 507 concurrent with EDIS 585; Student must hold a valid U.S. teaching credential OR have registered for and successfully completed a student teaching experience at an accredited 4-year institution of higher education

30 Field Hours. A field placement taken concurrently at the graduate
level with EDCI 584. Communication: Intervention Specialist Moderate/Intensive, to be completed in an inclusive educational setting. Individuals seeking Intervention Specialist licensure must complete this field in an inclusive setting.

EDIS 587 ELEMENTARY INTERVENTION SPECIALIST FIELD EXPERIENCE 2
Prerequisite: Admission to fields; concurrent with EDIS 581, 582, 584
88 Field hours, taken currently with EDIS 549. A.U. graduate students are instructed in the use of both formal and informal assessment techniques to gain a well-rounded perspective of the student's present level of performances across a variety of skill areas. The graduate education students are instructed in the interpretation of the gathered data and how to translate such information into practical goals and objectives from which tutorial lessons can be designed, conducted and evaluated. All activities are conducted under supervision in a neighboring school thus allowing immediate and systematic feedback as the teaching students apply a variety of techniques. Fee required to cover cost of mileage expense for travel by supervisor, and copies/materials to student. Individuals seeking Intervention Specialist Licensure must complete this field in an inclusive setting.

EDIS 588 MIDDLE SCHOOL INTERVENTION SPECIALIST MULTICULTURAL FIELD EXPERIENCE 3
Prerequisite: Admission to fields; concurrent with EDIS 549, 543
92 Field hours, taken concurrently with EDIS 540. A field experience which emphasizes knowledge of multiculturalism, cultural differences, role of family in a dynamic changing society; interpersonal communication theories, interpersonal relations, human relation skills, motivational skills, as related to teaching in a culturally, racially, and socioeconomically diverse society; working effectively with students regardless of race, political affiliation, religion, age, sex, and socio-economic status; and knowledge of the influence of teacher expectations on student achievement and the impact of home efforts on student performance are also emphasized. The completion of this experience should help the student be more effective in the decision-making process, and in developing self-assessment knowledge and skills, and in classroom management and behavioral support knowledge and skills. Fee required to cover cost of mileage expense for travel by supervisor and copies/materials to student. Individuals seeking Intervention Specialist Licensure must complete this field in an inclusive setting.

EDIS 589 HIGH SCHOOL INTERVENTION SPECIALIST FIELD EXPERIENCE 2
Prerequisite: Admission to fields; concurrent with EDIS 534, 540
92 Field hours; taken concurrently with EDIS 534. A field experience which emphasizes decision making in assessment, instruction, evaluation, and intervention for students with mild to moderate educational needs and appropriate instructional strategies to address the needs of pupils. Emphasis will be placed on helping students with mild to moderate educational needs develop those skills necessary for transitioning to adulthood. Fee required to cover cost of mileage expense for travel by supervisor, and copies/materials to students. Individuals seeking Intervention Specialist Licensure must complete this field in an inclusive setting.

EDIS 592 INTERNSHIP FOR INTERVENTION SPECIALIST 10
Prerequisite: Admittance to internships
Supervised field experiences in teaching for intervention specialist. Fee required to cover cost of mileage expense for travel by supervisor, and copies/materials to students. Individuals seeking Intervention Specialist Licensure must complete this field in an inclusive setting.

EDIS 606 INTERNSHIP INTERVENTION SPECIALIST MILD-MODERATE 10
Prerequisite: Candidates must have completed all methods courses and post-baccalaureate (Bachelor's Plus) program requirements in preparation for initial licensure; concurrent with EDIS 505
12 weeks. Supervised field experience with an Intervention Specialist in a school setting. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to student.

EDIS 650 NATURE AND NEEDS OF THE TALENTED 3
Prerequisite: Graduate status
A background course designed to acquaint the students with the definitions, characteristics, potentialities, abilities, and learning styles of academically talented, creative, and visual and performing arts and other talented students. Methods of identification and a survey of assessment instruments shall be explored through a review of related and historical research as well as a critical examination of current practices in educating the talented. This course fulfills state requirements for licensure for Intervention Specialist/Gifted Endorsement.

EDIS 651 CURRICULUM DEVELOPMENT FOR EDUCATION OF THE TALENTED 3
Prerequisite: EDIS 650 is suggested
This course examines curriculum processes necessary for providing a differentiated education for the talented, including but not limited to, academically talented, visual and performing arts talented, and creative students. Utilizing strategies to enhance pace and depth of learning, students will study a variety of theoretical models useful in the development of programs for the academically talented, visual and performing arts talented, and creative. Students will analyze processes and methods for organizing learning for the talented, with emphasis on flexibility and continuous progress. Students will develop instructional materials based on useful models and will adapt existing teaching aids to meet the curricular needs of outstanding talented students individually and in special groups, using techniques of acceleration, enrichment, and special placement. This course fulfills requirements for the endorsement.

EDIS 652 DEVELOPMENT AND SUPERVISION OF PROGRAMS FOR THE TALENTED 3
Prerequisite: EDIS 650, EDIS 651
This course is designed for educators who will be directly involved in the administration of talent development education programs. Job descriptions, program prototypes, and evaluation techniques will be discussed, as well as guidelines for the development of grants, proposals, and budgets. Participants will explore the steps in developing talent development education programs, including needs assessment, identification, assessment instruments, selection of personnel, staff development, supervision, formative and summative evaluation, philosophy and curriculum. Students will become cognizant of current practices, trends, and pertinent research within the field of gifted education and talent development education.

EDIS 653 GUIDANCE AND COUNSELING FOR THE TALENTED 3
Prerequisite: EDIS 650, EDIS 651
Guidance and counseling theories and practices for dealing with the affective, career, and educational planning needs of the outstandingly talented in the four areas identified-intellectual, specific academic, creative, and arts-by the Ohio Standards and SHB 282, will be the main thrust of this course. Needs of special and diverse populations of talented students will also be considered. Among these will be disadvantaged, rural, young, females, minorities, twice-exceptional, very high-IQ, and underachieving students. Techniques and strategies involving the cooperative effort and utilization of parents, community agencies, advocacy groups, and school personnel will be considered. This course fulfills requirements for the Ohio Intervention Specialist/Gifted Endorsement.

EDIS 654 CREATIVITY STUDIES FOR TEACHERS OF THE TALENTED 3
Prerequisite: EDIS 650, EDIS 651
This is a course in creativity studies with a focus on the field of the education of the talented and gifted. Creativity will be discussed with regard to (1) the creative person and what makes him/her creative; (2) the creative process; (3) the creative product. Creativity in outstandingly talented students in the four identified areas of the Ohio Standards will be considered. These are intellectual, specific academic,
creative, and arts-identified students. Students will be exposed to readings, assignments, and exercises designed to enhance personal and student creativity, as well as to current and current psychological and educational theories of creativity and creativity training. This course fulfills requirements for the Ohio Intervention Specialist/Gifted Endorsement.

EDLS 710  FIELD PRACTICUM FOR TALENT DEVELOPMENT
Prerequisite:
A field experience which emphasizes the application of knowledge gained in the Talent Development program. Candidates collaborate to select instructional strategies and technologies that create meaningful learning experiences for all talented students and explain how their choices reflect a thorough understanding of the school, family, and community contexts in which they work. They implement those instructional strategies, and then analyze student performance data to make data-driven decisions about strategies for teaching and learning.

EDIS 781  THESIS CAPSTONE IN TALENT DEVELOPMENT EDUCATION
Prerequisite: CORE requirements and 21 semester hours of course work, and signed intent form
A coordinated research experience in which the candidate will design and conduct an in-depth study of an issue or innovation in talent development education, either through field-based gathering of data or extensive reading and synthesis of the professional literature. Candidates will work with an advisor to develop and implement an inquiry project that will be assigned from 3 to 6 hours of credit depending on its scope and depth. Students will document the project in a 3-5 page written document that follows guidelines that are specified in the thesis handout. (Intent fee required)

EDIS 788  CAPSTONE INQUIRY SEMINAR IN TALENT DEVELOPMENT
Prerequisite: CORE requirements and 24 semester hours of course work, and signed intent form
Participants work collaboratively to explore a topic or issue related to Talent Development in the areas of curriculum, instruction, or such foundational concepts as the social, cultural, political, and psychological factors that influence schools and learning. Students will participate in extensive reading of professional literature and in-depth discussions. The seminar may also involve study of media resources are firsthand experiences such as travel, service learning, or actual research. Students will produce final products that show evidence of in-depth understanding of the topic and careful reflection about implications for future practice or research. (Intent fee required)

EDIS 796  INTERNSHIP IN TALENT DEVELOPMENT EDUCATION
Prerequisite: EDIS 650, 651, 652, 653, 654 or permission
This course will provide an internship experience with identified gifted and talented high school students so that the student can demonstrate the knowledge gained in the prerequisite classes. This is a 3-semester hour experience of 90 clock hours. Completion of this internship will satisfy the requirement for direct experience with identified gifted and talented students necessary for certificate validation for the Endorsement of Gifted Education in Ohio.

EDIS 502  CRITICAL CONCEPTS IN FISCAL RESOURCE MANAGEMENT
Prerequisite: Educational Leadership Program Overview
The module is designed to provide the student with basic concepts centered around overall fiscal management of a school building. The student will examine concepts regarding budgetary and fiscal documents, along with the allocation and management of building level resources.

EDIS 503  CRITICAL CONCEPTS IN HUMAN RESOURCE MANAGEMENT
Prerequisite: Educational Leadership Program Overview
This module will examine concepts that can be used in the various human resources functions of a building or district educational leadership. Through the acquisition of these concepts, the student will help promote district and building level goals as well as the success of all student groups.

EDIS 511  THEORIES OF INSTRUCTIONAL LEADERSHIP
Prerequisite: None
The theories and concepts of instructional leadership are examined in this module. Various facets of instructional leadership are emphasized, specifically human behavior within the context of the building level organization.

EDIS 512  ISSUES IMPACTING STUDENT ACHIEVEMENT
Prerequisite: None
This module examines critical issues that impact student achievement including but not limited to: political and financial constraints, ethical and cultural influences, community partnerships, and equitable treatment.

EDIS 513  IMPROVING INSTRUCTION
Prerequisite: None
This module examines the role of instructional leadership as a crucial catalyst to promote the success of students. Theories and approaches for improving instruction through educational leadership and organizational management will be explored.

EDIS 521  ORGANIZATIONAL BEHAVIOR IN EDUCATION
Prerequisite: None
This module examines the behavior of persons in organizational settings and its effect on the learning process. The module suggests ways in which an organization can cope with rapid change, and discusses the effects of organizational climate and organizational culture on human behavior and organizational health.

EDIS 522  ORGANIZATIONAL CLIMATE AND CULTURE
Prerequisite: None
Climate and culture are critical influences on the learning experience and can be the difference in all students’ success. This module will examine the basic theories and concepts of school climate and culture, and ways in which high expectations promote success for all students.

EDIS 523  ORGANIZATIONAL MANAGEMENT FOR EDUCATIONAL LEADERS
Prerequisite: Educational Leadership Program Overview
This module explores the diverse aspects of organizational management in an educational setting. The effective allocation and deployment of resources related to personnel, time, money, and facilities to achieve organizational goals will be discussed.

<td>Administrative Internship 1: Creation and Research of a School Improvement Project is a planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for candidates seeking the M.Ed. and requires work in a school setting with qualified on-site mentors appropriate for the licensure sought. Candidates engage in a major administrative project with involves problem identification, analysis of related research, development of a process or procedure to address the problem, development of an evaluation process, and preparation of a project product.</td>
<td></td>
</tr>
</tbody>
</table>
EDLS 722  
**ADMINISTRATIVE INTERNSHIP 2: COMPLETION AND PRESENTATION OF A SCHOOL IMPROVEMENT PROJECT**

**Prerequisite:** EDLS 721  
Administrative Internship 2: Completion and Presentation of a School Improvement Project is planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for candidates seeking the M.Ed. and requires work in a school setting with qualified on-site mentors appropriate for the licensure sought. Candidates engage in a major administrative project which involves problem identification, analysis of related research, development of a process or procedure to address the problem, development of an evaluation process, and preparation of a project product.

EDLS 723  
**ADMINISTRATIVE INTERNSHIP 3: ADMINISTRATIVE ACTIVITIES, BUILDING LEVEL/PRINCIPAL**

**Prerequisite:** EDLS 721, 722  
The Administrative Internship 3: Administrative Activities, is the third part of a planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for students seeking the M.Ed. and requires candidates to work in a school setting with qualified on-site mentors appropriate for the licensure sought. Candidates engage in administrative activities in at least two different buildings representing diverse student age populations. Administrative Internship 3 allows candidates to observe the functions of principals, assume leadership in planning, implementing and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in school administration.

EDLS 724  
**ADMINISTRATIVE INTERNSHIP 4: PROFESSIONAL PRACTICE, BUILDING LEVEL/PRINCIPAL**

**Prerequisite:** EDLS 721, 722, 723  
The Administrative Internship 3: Administrative Activities, is the third part of a planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for students seeking the M.Ed. and requires candidates to work in a school setting with qualified on-site mentors appropriate for the licensure sought. Administrative Internship 4 allows candidates to observe the functions of principals, assume leadership in planning, implementing and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in school administration.

EDLS 725  
**ADMINISTRATIVE INTERNSHIP 3: ADMINISTRATIVE ACTIVITIES, DISTRICT LEVEL/CIPD**

**Prerequisite:** EDLS 721, 722  
The Administrative Internship 3, Administrative Activities, is the third part of a planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for students seeking the M.Ed. and requires candidates to work in a school setting with qualified on-site mentors appropriate for the licensure sought. Candidates engage in administrative activities at the district level. Administrative Internship 3 allows candidates to observe the functions of district level administrators, assume leadership in planning, implementing and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in educational administration.

EDLS 726  
**ADMINISTRATIVE INTERNSHIP 4: PROFESSIONAL PRACTICE, DISTRICT LEVEL/CIPD**

**Prerequisite:** EDLS 721, 722, 725  
The Administrative Internship 4, Professional Practice, is the final part of a planned, supervised and evaluated field-based internship experience. It is designed as the culminating field experience for students seeking the M.Ed. The internship requires candidates seeking licensure as an Administrative Specialist in Curriculum, Instruction and Professional Development to work in district settings appropriate for the licensure sought. The candidate will be involved in instructional supervision, planning, implementing, and evaluating in-service activities, professional development, teacher-centered activities, and other alternative approaches to staff development.

EDLS 9800  
**INTEGRATIVE LEADERSHIP SEMINAR**

**Prerequisite:**  
The Integrative Leadership Seminar is designed to introduce students to multiple facets of leadership from an interdisciplinary perspective. The seminar provides a framework for the doctoral student to develop learners’ knowledge, skills, and leadership values. This course is designed to encourage students to investigate their leadership behaviors, to reflect on feedback about their leadership style as well as create and implement a developmental plan to improve their leadership potential and effectiveness. This seminar is mandatory to meet the doctoral program residency requirement.

EDLS 9802  
**ETHICS OF LEADERSHIP**

**Prerequisite:**  
Ethics of Leadership provides doctoral level students the opportunity to study the foundations of ethics as a discipline, the relationship between ethics and character formation, and historical perspectives on ethical decision making. The course also explores the pressing moral, social, political, and ethical issues impact the policies, programs, and practices of schools and related organizations in the United States. The course is designed to expose organizational leaders to the breadth and complexity of ethical issues and their impact on educational and organizational decision making. In addition, this course encourages the moral, social, and spiritual development of the students.

EDLS 9819  
**BECOMING A RESEARCHER**

**Prerequisite:**  
Becoming a Researcher is a required doctoral course, designed to introduce doctoral students to academic research in leadership studies and to the scholarly community. By reviewing and critiquing recent research studies, students will build an understanding of how research questions are formed and how studies are designed to answer research questions. Students will master locating and properly citing published research and learn the procedures for conducting research involving human subjects.

EDLS 9820  
**QUANTITATIVE RESEARCH DESIGN**

**Prerequisite:**  
This course is designed to provide students with the concepts and tools needed to read, understand, interpret, analyze, and evaluate quantitative literature in the field of leadership studies. In addition, students learn to apply various quantitative techniques to problems and research questions encountered in the field of leadership studies. This course is taught from an application framework. Students will identify the appropriate quantitative technique and research design for a given problem or research question; organize data in the appropriate form used by the SPSS computer software; design and execute the appropriate statistical analysis; and interpret the findings.

EDLS 9821  
**QUALITATIVE RESEARCH DESIGN**

**Prerequisite:**  
This is a course designed to acquaint students with qualitative methodology and design. Students are introduced to the philosophical underpinnings of qualitative inquiry, with a focus on anthropological and sociological antecedents of such inquiry. The assumptions of qualitative inquiry, ethical considerations, and appropriate uses of phenomenological, narrative, ethnographic, grounded theory and case study approaches to qualitative inquiry are discussed. Document analysis, content analysis, interviewing, observation, unobtrusive data collection, site selection, building rapport, collecting field notes, data management, and coding procedures are competencies of the course. A qualitative mini-study is conducted utilizing data collection, coding, the preparation of a scholarly report on the study, a presentation of the findings, and receiving peer feedback.

</tr>
<tr>
<td><strong>Prerequisite:</strong></td>
<td>This course will provide an understanding of the processes and activities essential for designing, implementing, and appraising the utility of educational programs mediated by instructional technology. The graduate student will research systemic reform and other change theory. The student will apply that understanding through case study to the development of a needs assessment and an evaluation plan. The work in this course establishes the tools to begin EDUC 9843.</td>
<td></td>
</tr>
<tr>
<td>EDLS 9843</td>
<td>CONTINUOUS IMPROVEMENT FOR INSTRUCTIONAL TECHNOLOGY</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong></td>
<td>This course will enable students to use a continuous improvement planning model to conduct a research and evaluation project in the graduate student's school district. The students will build on the needs assessment and evaluation plan completed in EDUC 9842. They will develop an appropriate plan, with pilot study, to evaluate the effectiveness of instructional technology on student learning in their district. The course will also serve as starting point for those interested in pursuing dissertation topics in the continuous improvement process and instructional technology.</td>
<td></td>
</tr>
<tr>
<td>EDLS 9846</td>
<td>ADVANCED STUDIES IN PROFESSIONAL DEVELOPMENT</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong></td>
<td>This course is designed to assist professional development practitioners in gaining knowledge and tools necessary to design, implement and evaluate programs for professional growth in an educational context. The course will center on major themes, each to be examined in relationship to implications for professional development practice. The themes currently include school culture, school reform, schools as learning organizations, and the design of professional growth experiences.</td>
<td></td>
</tr>
</tbody>
</table>
EDLS 9847 CHANGE PROCESSES AND PROFESSIONAL DEVELOPMENT

Prerequisite:
A course designed to provide an understanding of the theories and practices related to change as it impacts decisions about professional development in formal organizations such as educational settings. The student will use his/her professional assignment to develop case studies of change as it has impacted on professional development decisions for him/herself and as change has impacted the organization and its professional development needs.

EDLS 9849 DIRECTED RESEARCH AND EVALUATION IN PROFESSIONAL DEVELOPMENT

Prerequisite:
This course is intended to provide leaders of professional development the opportunity to design an action research project or program evaluation, to carry out the actual research/evaluation project in an appropriate professional education setting, or analyze data, and to prepare the results of the research/evaluation for presentation or publication.

EDLS 9860 INSTITUTIONAL EFFECTIVENESS

Prerequisite:
Institutional effectiveness represents the second generation of organizational development theories and considers multiple aspects of organizational health. High performance organizations are concerned about improving all facets of their work. Topics such as continuous quality improvement, assessment outcomes, data gathering and analysis, program evaluation, and strategic planning are covered. The course also examines organizational culture and transformational leadership as underlying themes in implementing planned change.

EDLS 9880 LEADERSHIP THEORY

Prerequisite:
This course will provide an essential theoretical understanding of leadership, authority, and group dynamics in a format designed to generate personal insights into one's own patterns of response to social forces, as well as to develop practical skills for exercising authority and leadership within groups and organizations. The history of the development of leadership will be discussed as will traditional views of leadership. An ongoing theme of the course is leadership as service. This course has a strong experiential component that continually provides participants with opportunities to test and integrate their learning with experience (i.e., the mentorship experience).

EDLS 9881 ORGANIZATIONAL BEHAVIOR

Prerequisite:
This course examines the interaction of people in the context of the organizational environment along with the environmental pressures that influence organizational dynamics at the macro and micro levels. Management history provides a backdrop for understanding the evolution of systems theory. This frames the exploration of macro-level organizational behavior (OB) elements of organizational design and structure; organizational environment; politics and change; organizational control; and organizational culture and the psychological dimensions of organizational life that shape organizational behavior. At the micro-level, personality and motivation theory, ethics, power and authority, conflict and negotiation, group and team dynamics, along with organizational change and organizational leadership are considered in detail. These notions are discussed in relation to leveraging leadership practices to optimize the effectiveness and efficiency of organizations in meeting changing stakeholder expectations. In addition, the course focuses on how leaders can link theory and research with actual practice; this course is taken concurrently with the student's mentorship experience.

EDLS 9882 PROFESSIONAL DEVELOPMENT AND RENEWAL

Prerequisite:
Professional Development and Renewal is intended to provide leaders of professional enterprises with experience and understanding which will enable them to encourage and facilitate career-long growth. Dimensions of professional development to be examined include historical perspectives, social contexts, psychological factors, learning and development theories, established models, and effective practices. Individual and organizational development are viewed as inseparable parts of a whole. The completion of a personal, long-range professional development plan is used as a vehicle to frame planning for the professional development of others.

EDLS 9887 INSTITUTIONAL LAW AND POLICY

Prerequisite:
This course blends the study of law and policy. Policy is manifested in the statutes, regulations, guidelines and codifications that define the purposes and parameters of specific actions, establish individual and institutional responsibilities, outline rules to be followed, and identify resources to be allocated. Policies are formulated and enacted at many levels, but policy decisions made at an organizational level are circumscribed by those made at higher levels (state and federal policies). Therefore, the course includes a study of federal and state constitutional provisions, statutory standards and regulatory applications as they apply to the management and control of educational settings, and specific content that is used to study and develop organization-wide policies. The impact of local policies on the organization's constituents is studied.

EDLS 9888 HUMAN CAPITAL AND PUBLIC POLICY

Prerequisite:
Human capital is the knowledge, skills, competencies, and attributes that reside in people. Higher levels of human capital bring economic growth and better quality of life to a society. Government investments in such services as health, workforce readiness, and especially education pay off in greater human capital and greater economic growth. Students learn what economic research says about the best use of dollars to produce human capital outcomes. They study and evaluate examples of various quantitative research designs used by economists and draw out implications of research for policy.

EDLS 9889 ORGANIZATIONAL DEVELOPMENT

Prerequisite:
Organizational development (OD) is an organizational improvement strategy that utilizes behavioral science principles and practices to increase individual and organizational effectiveness. Organizations must address the opportunities and challenges in successfully managing change by applying a systems approach to planned change initiatives. Organizational development and transformation focuses on how human capital is utilized in organizations to implement successful positive change. The topics learned in this course are the dynamics of an organization and its environment, the style of internal and external OD consultants, organizational culture and processes, diagnosing an organization or its subunits to determine root causes, and change opportunities, selecting and tailoring OD intervention strategies to address root causes and create positive change outcomes, and addressing resistance to change.

EDLS 9898 SEMINAR/TOPICS IN ORGANIZATIONAL LEADERSHIP

Prerequisite:
Individual and group study of specific aspects of leadership and organizational dynamics.

EDLS 9899 DISSERTATION

Prerequisite:
The Ed.D dissertation is an advanced level scholarly investigation. The details of the study and means of pursuing the study are determined jointly by the candidate and the members of the dissertation committee.
PROFESSIONAL DEVELOPMENT EDUCATION

EDU 6100-6300 SITE SPECIFIC WORKSHOPS/CLASSES

Prerequisite:
Intensive study of selected school-based curriculum, instruction, and/or organization. Based on specific professional development needs of school personnel. Application of research based theory is expected. Graduate standing or professor approval required. (S and U grades unless otherwise requested.)

EDUCATION-GENERAL (EDUC)

EDUC 100 UNIVERSITY READING IMPROVEMENT 1-3

Prerequisite: None
This course is recommended for students who wish to work on individual reading needs such as 1) reading rate, 2) comprehensive proficiency, 3) vocabulary building, and 4) reading study skill techniques. Course will be graded A, B, C or U.

EDUC 102 UNIVERSITY STUDY SKILLS 3

Prerequisite: None
This course introduces the study skills crucial to academic success. Emphasis is placed on practice in time management, listening, taking class notes, preparing for examinations, reading textbooks, writing papers, vocabulary building, problem-solving and utilizing educational resources. Course will be graded A, B, C, or U. If a U is earned, course must be repeated.

EDUC 371 SPECIAL TOPICS 1-9

Prerequisite: None
Special topics seminars which will include topics such as early childhood/preschool, foreign language, reading, elementary/secondary education and topics pertinent to school treasurer/school business manager. All topics must be approved by the Associate Dean of the College of Education.

EDUC 470 INTERNSHIP 5-10

Prerequisite: Field Hours: 150-300
This is an intensive experience in a field agency setting conducted under the joint supervision of an on-site professional and a University representative. The approved setting selected is specifically related to the professional goals of the student. The student may receive compensation during this experience if such an arrangement is deemed appropriate by the University and the agency providing the experience.

EDUC 565 READING RECOVERY I: RECOVERY TEACHER TRAINING 3

Prerequisite:
Certification or licensure as a first grade, kindergarten or reading teacher. Willingness to make a three-year commitment to the Reading Recovery Program. Recommendations by the principal and another teacher as an effective teacher in the primary grades. The purpose of these courses is to prepare and assist the teacher in implementing a Reading Recovery intervention programs for first-grade children who are at-risk of failing to learn to read. Participants will learn to 1) systematically observe, record and reflect on students’ reading and writing behavior over time; 2) apply Reading Recovery theory and procedures for effective one-to-one intervention; 3) assist first-grade teachers in creating supportive learning-to-read environments for Reading Recovery children; and 4) develop, in conjunction with teacher leaders and classmates, a theory of how at-risk children learn to read.

EDUC 566 READING RECOVERY II: RECOVERY TEACHER 3

Prerequisite:
Certification or licensure as a first grade, kindergarten or reading teacher. Willingness to make a three-year commitment to the Reading Recovery Program. Recommendations by the principal and another teacher as an effective teacher in the primary grades. The purpose of these courses is to prepare and assist the teacher in implementing a Reading Recovery intervention programs for first-grade children who are at-risk of failing to learn to read. Participants will learn to 1) systematically observe, record and reflect on students’ reading and writing behavior over time; 2) apply Reading Recovery theory and procedures for effective one-to-one intervention; 3) assist first-grade teachers in creating supportive learning-to-read environments for Reading Recovery children; and 4) develop, in conjunction with teacher leaders and classmates, a theory of how at-risk children learn to read.

EDUC 567 TOPICS IN READING RECOVERY LEARNING TO LOOK AT PRINT FOR THE LOW PROGRESS READER 2

Prerequisite: Take EDUC 565, EDUC 566
Participants should have completed EDUC 565 and 566 Reading Recovery I and II. The purpose of this course is to support trained teachers who are implementing the full Reading Recovery Program with first grader students. Course sessions will meet over the academic year. Topics will be selected each academic year. Teachers will also be updated on the progress and revision of program policy. School and university site teaching demonstrations will be utilized to generate discussions and review of Reading Recovery procedures. Teacher leader supervision of school site programs will be conducted along with individual teacher research into aspects of at-risk readers’ progress. (Participants will be limited to six hours of credit. Enrollment opened to trained Reading Recovery teachers.)

EDUC 598 INDEPENDENT STUDY 1-5

Prerequisite:
A planned study designed to extend student knowledge in any field related to major graduate areas through independently developed project work. Enrollment limited to students with graduate standing and permission of professor and director of graduate studies.

EDUC 599 GROUP STUDIES 1-5

Prerequisite:
A planned study designed to extend group knowledge in any field related to major graduate areas through cooperatively developed project work. Graduate standing.

EDUC 640 SEMINAR: PROBLEMS IN CURRICULUM AND INSTRUCTION 1-5

Prerequisite:
Specific subtitles added based on seminar content. Individual and group study and problems related to teaching areas in elementary, middle or high school programs.

EDUC 710 FIELD PRACTICUM IN EDUCATION 2

Prerequisite: CORE requirements and 21 semester hours. Students receive a grade of S/U for this course. A field experience which emphasizes the application of knowledge gained in the M.Ed. program (Curriculum and Instruction)
Candidates collaborate to select instructional strategies and technologies that create meaningful learning experiences for all students and explain how their choices reflect a thorough understanding of the school, family, and community context in which they work. They implement those instructional strategies, and then analyze student performance data to make data-driven decisions about strategies for teaching and learning.

EDUC 728 INQUIRY SEMINAR 5

Prerequisite: EDFN 501, 506, 508, faculty approval, completion of majority of coursework, signed intent form.
The inquiry seminar is organized around broad themes relating to school improvement, integrating instructor and student interest. Students will participate in extensive reading and in-depth discussions. Students will conduct, write, and present their own research on a specific topic connected to the overall theme. The seminar may occur over 1-2 semesters. (Intent fee required.)
EDUC 738  PRACTICUM IN CURRICULUM AND INSTRUCTION  5
Prerequisite: EDFN 501, 506, 508, faculty approval, completion of majority of coursework, signed intent form
A coordinated field-based experience in which the student will design, develop, implement, document and write an acceptable report pertaining to a school improvement project. (Intent fee required.)

EDUC 747  MASTER'S OF EDUCATION INTERNSHIP  3-5
Prerequisite: CORE requirements and approximately 24 semester hours of coursework, signed intent form
The capstone internship is a planned, supervised and evaluated field-based experience lasting one semester. It is designed as the culminating field experience for the Master of Education program. The internship requires students to work in a setting appropriate to their field and with a cooperating educator appropriate for the program or the licensure sought. The internship allows students to engage in a major project which involves problem identification, analysis of related research, development of a process or procedure to address the problem, development of an evaluation process and preparation of a project product. The internship will allow students to observe the functions of like professionals, assume leadership in planning, implementing, and evaluating selected internship experiences, put theoretical knowledge to work, and acquire new knowledge and skills in their field of study.

EDUC 781  THESIS CAPSTONE  3-6
Prerequisite: CORE requirements and 21 total semester hours in the appropriate Graduate Program
A coordinated research experience in which the candidate will design and conduct an in-depth study of an issue or innovation in education, either through field-based gathering of data or extensive reading and synthesis of the professional literature. Candidates will work with an advisor to develop and implement an inquiry project that will be assigned from 3 to 6 hours of credit depending on its scope and depth. Students will document the project in a 3-5 chapter written document that follows guidelines that are specified in the thesis handbook. (Intent fee required.)

EDUC 788  CAPSTONE INQUIRY SEMINAR  3
Prerequisite: CORE requirements and 24 semester hours of coursework, signed intent form
Participants work collaboratively to explore a topic or issue related to curriculum, instruction, or such foundational concepts as the social, cultural, political, and psychological, factors that influence schools and learning. Students will participate in extensive reading of professional literature and in-depth discussions. The seminar may also involve study of media resources or firsthand experiences such as travel, service learning, or action research. Students will produce final products that show evidence of in-depth understanding of the topic and careful reflection about implications for future practice or research.

EDUC 791  THESIS  5
Prerequisite: EDUC 501, 506, 508, faculty approval, completion of majority of coursework, signed intent form
An independent research thesis with in-depth findings related to the student's field. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to student. (Intent fee required.)

EDUC 795  INTERNSHIP/LICENSURE  5-10
Prerequisite:
A supervised teaching experience for the practicing professional in which the student will design, develop and report on an acceptable instructional program for the on-site classroom. The experience must be in the licensure field. Fee required to cover cost of mileage expense for travel by supervisor, copies/materials to students.

ENGLISH (ENG)

ENG 100  COLLEGE WRITING IMPROVEMENT  3
Prerequisite: None
This course focuses on fundamentals of grammatical form and compositional structure in order to improve writing skills required for college-level papers. Students are placed in the course by ACT/SAT scores and high school records. The course is graded S/U; a grade of U requires that the course be repeated until the student achieves an S. It does not satisfy the Core composition requirement and is not open to students with credit in ENG 101 or 102. One section is designated for international students.

ENG 101  ENGLISH COMPOSITION I  3
Prerequisite: ENG 100 if required by placement
This course stresses the development of effective grammatical and rhetorical form through the assignment of expository and argumentative writing projects. Students will learn to reflect on ideas and observations, to use writing as a tool to sharpen those ideas, to reflect on their own writing process, and to use and cite sources accurately. May not be taken for S/U credit. Meets Core credit for composition I.

ENG 102  ENGLISH COMPOSITION II  3
Prerequisite: ENG 101
English 102 is the second course in Ashland University's two-semester writing sequence and involves continued emphasis on the writing process, critical thinking, close reading, the rhetorical nature of language, and research skills. The course requires frequent writing and may not be taken for S/U credit. Meets core credit for composition II.

ENG 110  WRITING LABORATORY  3
Prerequisite: None
This course offers individualized instruction and practice in writing skills or all academic writing assignments, including grammar, punctuation, sentences, paragraphs, and the short essay. Graded S/U. May be repeated once for additional credit. Does not fulfill Core credit or English requirement.

ENG 201  INTRODUCTION TO CREATIVE WRITING  3
Prerequisite: None
This course introduces basic techniques and forms of poetry, fiction, and nonfiction. Regular writing and reading assignments illustrate specific aspects of poetic and prose narrative form.

ENG 203  AMERICAN LITERATURE  3
Prerequisite: ENG 102
This course focuses on a specific problem or question in American society from the colonial period to the present. Possible areas of focus might include race and slavery; nature and the environment; freedom, democracy, and the individual; immigration and nativism; gender in America; or America at war. Meets Core credit for humanities.

ENG 210  BIBLE AS LITERATURE  3
Prerequisite: ENG 102
The course involves a sustained study of representative Biblical texts using the tools of literary analysis and approaches the Bible as literature from a social, historical, and literary perspective. Meets Core credit for humanities.

ENG 217  BRITISH LITERATURE  3
Prerequisite: ENG 102
This course involves a sustained study of selected texts of British literature and emphasizes literary content as statement of moral and philosophic attitudes in British writers. Meets Core credit for humanities.

ENG 340 READINGS IN JEWISH LITERATURE 3
Prerequisite: ENG 102
This course involves reading and discussion of a number of major works of in Jewish literature. Students will read short stories, novels, and a memoir; some themes include religious faith, silence, the father-son relationship, gender issues, grief, wisdom, and folly. Meets Core credit for humanities.

ENG 350 CONTEMPORARY AMERICAN STUDIES 3
Prerequisite: ENG 102
An examination of a particular topic of American literature, history, religion, and/or culture from contemporary life, this course considers a body of literature, generally published within the previous twenty years, about which historical conclusions are still largely unformed. Meets Core credit for humanities.

ENG 351 ADVANCED COMPOSITION 3
Prerequisite: ENG 102
This is an advanced course in compositional form and expression emphasizing development of effective rhetorical and stylistic techniques. Students will analyze the work of representative authors. Writing assignments emphasize stylistic control and conceptual development.

ENG 360 LITERATURE OF CRIME AND RETRIBUTION 3
Prerequisite: ENG 102
This course emphasizes close analysis of literature on themes including evil, faith, insanity, racism, and motiveless malignity. Meets Core credit for humanities.

ENG 365 GREEK LITERATURE 3
Prerequisite: ENG 102
This course will address the question of the Greek view of men and women in relation both to each other and to the gods as revealed in literature. Meets Core credit for humanities.

ENG 370 RUSSIAN NOVEL 3
Prerequisite: ENG 102
This course involves reading Russian novels in English translation. Meets Core credit for humanities.

ENG 371 LITERATURE AND FILM 3
Prerequisite: ENG 102
This course emphasizes film aesthetics and visual narrative as it compares to written literary narrative.

ENG 372 NIETZSCHE AND THE PROBLEM OF VALUES 3
Prerequisite: ENG 102
This course involves reading a major work of Nietzsche in connection with other literary and philosophical texts. Meets Core credit for humanities.

ENG 401 THE LITERATURE OF EARLY ENGLAND 3
Prerequisite: ENG 102
This course is a high-level study of the literature of England from the Anglo-Saxon period through the time of Chaucer with particular emphasis on the rhetorical features of Old and Middle English.

ENG 404 THE ENGLISH RENAISSANCE 3
Prerequisite: ENG 102
A high level study of England’s literature of the Elizabethan period, this course focuses on poetry and drama.

ENG 405 PROBLEMS IN CREATIVE WRITING 3
Prerequisite: ENG 301, 302
This course is concerned with the development of individual style and voice in student writing. The course is conducted by professors with extensive publication experience.

ENG 406 17TH CENTURY ENGLISH LITERATURE 3
Prerequisite: ENG 102
This course is a high-level study of material written in England and some of its colonies during the 17th century. Class discussions are set within the context of the political and religious strife during a century building up to the English Civil War and then reckoning with its aftermath.

ENG 408 18TH CENTURY ENGLISH LITERATURE 3
Prerequisite: ENG 102
This course is a high-level study of both traditional and emergent literary traditions, from neoclassicism to sentimentalism and from satire to sensibility.

ENG 410 ROMANTIC MOVEMENT 3
Prerequisite: ENG 102
This course is a high-level study of major texts and critical background of the Romantic Movement.

ENG 411 VICTORIAN PERIOD 3
Prerequisite: ENG 102
This course is a high-level study of major texts and critical background of the Victorian period.

ENG 413 20TH CENTURY ANGLOPHONE LITERATURE 3
Prerequisite: ENG 102
This course is a high-level study of the literature of Great Britain, Ireland, and the Anglophone world other than America in the 20th and 21st centuries.

ENG 415 CAPSTONE COURSE IN CREATIVE WRITING 3
Prerequisite: ENG 301, 302
This course is concerned with the editing and presentation of the student's literary output. The principal work of the class will be the revision and presentation of the student's writing over his or her college writing career.

ENG 417 ENGLISH GRAMMAR & USAGE 3
Prerequisite: ENG 102
This course will provide students with knowledge of grammar, syntax, and mechanics. It is designed for those preparing to be teachers of English and Language Arts as well as for those who wish to extend their knowledge of the language.

ENG 418 HISTORY OF ENGLISH LANGUAGE 3
Prerequisite: ENG 102
This course focuses on the history of the English language, its many dialects, and vocabulary development from root words and derivational affixes. The course is designed for English majors and minors wishing to improve their knowledge of the history of the language, as well as those who will be teachers of secondary school English and Language Arts.

ENG 425 AMERICAN LITERATURE I: COLONIAL TO FEDERALIST 3
Prerequisite: ENG 102
This course is a high-level study of American writing from the Puritan period to 1845 with emphasis on the emergence of a particular American
identity as expressed in literature of the period together with critical commentary.

ENG 426 AMERICAN LITERATURE II: 1830 TO 1870
Prerequisite: ENG 102
This course is a high-level study of American writing during the period with emphasis on Transcendentalism as a dominant literary and intellectual movement.

ENG 427 AMERICAN LITERATURE III: REALISM TO MODERNISM
Prerequisite: ENG 102
This course is a high-level study of the American Literary consciousness from the late 19th century to the end of WWII with emphasis on social changes produced by urbanization and industrialization as reflected in the literature of the period and in critical commentary.

ENG 428 AMERICAN LITERATURE IV: FROM WWII TO THE PRESENT
Prerequisite: ENG 102
This course is a high-level study of American literature from 1945 to the present with emphasis on social and cultural changes reflected in the literature of this period and in critical commentary.

ENG 501 SUMMER RESIDENCY I
Prerequisite:
This gateway residency will be taught over 14 days. There will be three major components to the course: 1) Writers’ Workshop/Mentor Tutorial Sessions 2) Craft, Style, and Publishing Seminars 3) Evening/Weekend Readings and Discussions. Students will attend 10 two-hour-and-forty-five minute Writers’ Workshop/Mentor Tutorial sessions and 10 hour-and-a-half Craft, Style, and Publishing Seminars. Students are encouraged to attend all Evening/Weekend programs. In addition, students will meet individually with their mentors to define a writing/reading project for the non-residential courses. There will also be new student orientation sessions, academic advising sessions, and computer support sessions. Collegiality and the ability to work within a supportive MFA arts community is a criterion for passing English 501 and for remaining in academic good standing in the MFA Program.

ENG 502 SUMMER RESIDENCY II
Prerequisite: ENG 501, 632
This mid-program residency will be taught over 14 days. There will be three major components to the course: 1) Writers’ Workshop/Mentor Tutorial Sessions 2) Craft, Style and Publishing Seminars 3) Evening/Weekend Readings and Discussions. Students will attend 10 two-hour-and-forty-five minute Writers’ Workshop/Mentor Tutorial sessions and 10 hour-and-a-half Craft, Style, and Publishing Seminars. Students are encouraged to attend all Evening/Weekend programs. In addition, students will meet individually with their mentors to define a writing/reading project for the non-residential courses. There will also be academic advising sessions, and computer support sessions.

ENG 503 SUMMER RESIDENCY III
Prerequisite: ENG 701
This exit residency will emphasize post-thesis concerns. East student will defend his or her thesis before a faculty committee, participate in a thesis reading, and develop a deepening awareness of the publication industry through advisement from faculty, visiting writers, agents and editors. There will be individual meetings with editors and agents, in addition to the regular three components of the summer residency: 1) Writers’ Workshop/Mentor Tutorial Sessions 2) Craft, Style, and Publishing Seminars 3) Evening/Weekend Readings and Discussions. Emphases in the Writers’ Workshop/Mentor Tutorial Sessions will vary but might typically involve a focus on new writing unrelated to the thesis, on outtakes from the thesis that might form the nucleus of a new book, or on the further development of the completed thesis into a publishable manuscript. Students will attend 10 two-hour-and-forty-five-minute Writers’ Workshop/Mentor Tutorial sessions and 10 hour-and-a-half Craft, Style, and Publishing Seminars. Students are encouraged to attend all Evening/Weekend programs.

ENG 601 LITERATURE OF EARLY ENGLAND
Prerequisite:
A study of the literature of England from the Anglo-Saxon period and the time of Chaucer. Particular emphasis on the rhetorical features of Old and Middle English. Reading and analysis of representative works, including Beowulf and The Canterbury Tales.

ENG 604 THE ENGLISH RENAISSANCE
Prerequisite:
A survey of the literature of England during the Elizabethan period. Particular attention to the emergence of literary genre and to the development of literary theory and philosophy. Reading and analysis of representative writers, including Spenser, Marlowe and Shakespeare.

ENG 605 CREATIVE WRITING WORKSHOP
Prerequisite:
A seminar course in the writing of fiction, creative nonfiction, drama, or poetry. Emphasis on developing various writing projects. The workshop is conducted by professors with extensive publication experience.

ENG 606 THE LITERATURE OF THE BAROQUE
Prerequisite:
A study of the Baroque literature in England during the 17th century, with particular emphasis on parallel developments of form and expression in art and music. Reading and analysis of representative writers including Donne and Jonson and their schools.

ENG 608 THE LITERATURE OF THE ENLIGHTENMENT
Prerequisite:
A study of the neoclassical literature of England during the 18th century. Particular emphasis on the emergence of scientific and philosophical expression and on the parallel developments of form and pattern in art and music. Reading and analysis of representative writers including Pope, Swift and Johnson.

ENG 610 ROMANTIC MOVEMENT & VICTORIAN PERIOD
Prerequisite:
A survey of literary expression in 19th-century England, beginning with the emergence of the Romantic poets and continuing through the social and political writings of the Victorian period. Reading and analysis of representative writers including Wordsworth, Keats, Tennyson and Browning.

ENG 625 MAJOR WRITERS SEMINAR
Prerequisite:
A course designed to provide a comprehensive understanding of one or more major writers. Class assignments will include extensive reading of the works of the particular writers, supplemented by critical, biographical, and historical materials. Selection of writers is indicated in the class schedule for each semester.

ENG 631 MENTORSHIP I
Prerequisite:
This course represents the first step in a program-long process of working toward the completion of a book of poems, nonfiction, or fiction (culminating in the MFA Thesis). Via the internet, each student will work individually with his or her faculty mentor, and collectively with student peers, to develop the craft of drafting the body of a book. Students will also develop skills in judiciously applying constructive criticism to improve the quality of their writing, and skills in articulating constructive criticism of both published and student work. While students will actively engage in the revision process, the emphasis of the course will be on the generation of new material.
This course represents the second step in a program-long process of working toward the completion of a book of poems, nonfiction, or fiction (culminating in the MFA Thesis). Via the internet, each student will continue to develop the craft of drafting new poems or pieces of nonfiction by working individually with a faculty mentor, and collectively with student peers. In addition, students will work toward the completion of a group of poems or pieces of nonfiction, or fiction worthy of serving as the core of a book. While students will continually create new work, there will be an emphasis on the revision process, and on the ability of students to articulate the nature and degree of aesthetic coherence in their own developing manuscript, as well as in existing works of literature.

ENG 633  MENTORSHIP III  9
Prerequisite: ENG 632
This course represents the third step in a program-long process of working toward the completion of a book of poems or nonfiction. Via the internet, students will continue to develop new writing by working individually with a faculty mentor, and collectively with student peers. Students will also sharpen the ability to articulate traits, on the level of theme, form and/or style, that characterize the well-crafted books encountered in assigned reading, and that characterize their own developing manuscripts. While students will actively work toward the creation of new poems or passages or nonfiction or fiction, and will continue to revise individual works, there will be an emphasis on the ability to articulate key formal and thematic characteristics that contribute to the resonance and aesthetic integrity of a body of writing.

ENG 701  MFA THESIS  9
Prerequisite: ENG 633
This course represents the fourth and culminating step in a program-long process of working toward the completion of a volume of creative writing. Via the internet, students will develop further the craft of shaping a book-length collection of poems or a manuscript of fiction or nonfiction working individually with a faculty mentor, and collectively with student peers. Though each student will actively work toward the creation of new writing, and toward the revision of individual poems or prose passages, the primary emphasis of the course will be on developing the student’s ability to shape a volume of writing into an aesthetic construct that is at once informed by, and larger than, the sum of its parts.

ENG 791  THESIS IN ENGLISH  3
Prerequisite: Take 21 credits
This course will be conducted by conference during which students will write their MA theses in consultation with their faculty advisors.

ENTREPRENEURSHIP (ENTP)

ENTP 245  INTRODUCTION TO ENTREPRENEURSHIP  3
Prerequisite: None
This course will introduce students to the fundamental concepts of entrepreneurship. Special emphasis will be placed on learning how to develop an idea into a commercial opportunity. Students will learn how to write a feasibility plan for a real product or service and perform a market test of the proposed product or service.

ENTP 345  ENTREPRENEURIAL AND FAMILY BUSINESS MANAGEMENT  3
Prerequisite: ENTP 245, MGT 240, MKT 233
This course examines the special challenges of family business and other closely held corporations. Attention is devoted to family business planning, effective governance approaches in family businesses, preparing heirs for entry into and management of family firms, tax and compensation planning, and succession strategies.

ENTP 365  ENTREPRENEURIAL STRATEGIES & TACTICS  3
Prerequisite: ENTP 245, MGT 240, MKT 233
This course introduces the students to critical, integrative issues involved in the development and marketing of new products and services. The marketing and operations planning includes researching issues that are relevant for new ventures for small and growing organizations. Topics include the creativity, design of products, product promotion, feasibility study, location, physical layout, the evaluation of market potential (market research), pricing strategies, and the development of distribution relationships.

ENTP 445  NEW VENTURE CREATION  3
Prerequisite: ENTP 245, MGT 240, MKT 233
This course will focus on the process of developing a new commercial venture and the writing of a business plan. Students will also learn small business management principles for creating and operating a startup venture. Developing actual business opportunities by students will be encouraged so that business plans can be submitted to business plan competitions and investor groups after the course is finished.

ENTP 465  FINANCING A BUSINESS VENTURE  3
Prerequisite: ENTP 345, 365, 445
This course emphasizes the aspects of legal, tax, and unique financing in a new venture or emerging company which is critically important to the entrepreneur and venture manager. The financial aspects of small businesses and entrepreneurial ventures include unique alternatives of financing, the different valuation techniques, and key tactics and approaches in negotiating a purchasing price for a business. Legal and tax strategies are investigated for start-up and emerging enterprises. Studies are conducted in investigating the formation, financing, and managing of the new venture in a legal and tax standpoint.

ENVIRONMENTAL SCIENCE (EVS)

EVS 276  ENVIRONMENTAL SCIENCE SEMINAR  1
Prerequisite: None; Seniors and Juniors by permission
A seminar course that examines selected environmental science topics in conjunction with the Environmental Lecture series. May be taken twice for credit. Biology majors may take this twice for biology elective credit. EVS/Biology majors may take this a second time for biology elective credit. BIO/EVS credit.

EVS 320  INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS (GIS)  4
Prerequisite: None
This course covers the fundamental principles of geographic information systems (GIS), which is the merging of cartography, statistical analysis, and database technology into computer-based systems that capture, store, manipulate, analyze, manage, and present all types of geographical data for a wide variety of applications and purposes, but with the goal of informed decision-making. Students will learn how to create interactive queries (user-created searches), analyze spatial information, edit data in maps, and present the results of all these operations, primarily applying these to geological and environmental systems. BIO/EVS/GEOL credit.

EVS 476  ISSUES IN ENVIRONMENTAL SCIENCE  3
Prerequisite: 30 hrs. of math and science courses (MATH, BIO, CHEM, GEOL, PHYS)
A detailed examination of the scientific dimensions of selected environmental issues, with discussion of the economic policy, and ethical aspects of those problems and with emphasis on global and international perspectives. Case studies will include many examples from other countries, as well as national and regional issues in the U.S. Required for all EVS majors. Biology and Geology majors (but not EVS/Biology or EVS/Geology majors) may use this course as a biology or geology elective. BIO/EVS/GEOL credit.
EXERCISE SCIENCE (EXS)

EXS 190  ANATOMY AND PHYSIOLOGY FOR THE EXERCISE SCIENCES  4  
Prerequisite: None  
An examination of human structure and function with an emphasis on the applied aspects of anatomy, physiology, and human motor development as related to the exercise and sport sciences.

EXS 210  EXERCISE MANAGEMENT OF CARDIORESPIRATORY PATHOPHYSIOLOGY  2  
Prerequisite: EXS 190  
A detailed study of the physiology of the cardio respiratory system in both normal and pathologic conditions, with an emphasis on the role of exercise and other lifestyle modifications in the treatment and prevention of cardiorespiratory pathologies.

EXS 258  PHARMACOLOGY FOR EXERCISE SCIENCES  3  
Prerequisite: None  
This course will cover various topics related to exercise science and physical activity. The student will gain a physician's and/or allied health care professional's perspective on treatment as it relates to a variety of general medical conditions, cardiovascular disease and pharmacology related to sports and physical activity.

EXS 261  MEDICAL TERMINOLOGY  3  
Prerequisite: None  
An introduction to basic word elements—roots, suffixes, prefixes, and combining forms used by the health and human service professions. Knowledge of proper spelling, definitions, pronunciations, and usage of medical terms related to body systems.

EXS 308  KINESIOLOGY  3  
Prerequisite: EXS 190 or BIO 125 or AT 165  
A study of the relationship of anatomical, physiological and mechanical principles to the muscular movement of homo sapiens.

EXS 309  PHYSIOLOGY OF EXERCISE  3  
Prerequisite: EXS 190 or BIO 125 or AT 165  
The applied study of the functioning of the systems of the human body during exercise.

EXS 310  ADVANCED PHYSIOLOGY OF EXERCISE  3  
Prerequisite: EXS 309  
An advanced examination of how the body responds and adapts to disruptions in homeostasis resulting from physical activity, with an emphasis on the biochemistry/endocrinology of exercise. Training/laboratory methods in exercise physiology will be included.

EXS 312  FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION I  2  
Prerequisite: EXS 309  
An introduction of fitness evaluation and exercise prescription. Concepts, principles, and theories for the fields of exercise physiology, kinesiology nutrition, and tests and measurements will be presented and applied to physical fitness testing and the design of exercise programs for apparently healthy individuals.

EXS 313  FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION II  2  
Prerequisite: EXS 312  
A continuation of ES 312 with an emphasis on fitness evaluation and exercise prescription for individuals with known pathology. Exercise stress testing protocols and basic interpretation of the electrocardiogram will be included.

EXS 314  GROUP EXERCISE LEADERSHIP  3  
Prerequisite: EXS 312  
This course is designed to develop proficiency in teaching skills specifically for group exercise. The focus of the course is on the standards of basic exercise guidelines, correct performance, instructional technique, and presentation. These standards are aligned with those of the Aerobic and Fitness Association of America (AFAA).

EXS 343  ACTIVE AGING AND WELLNESS  3  
Prerequisite: None  
An examination of the role that lifestyle, nutrition, physical activity and/or exercise play in modifying physiological/functional age and in determining the quality of life of older adults.

EXS 420  STRENGTH TRAINING PHYSIOLOGY  3  
Prerequisite: None  
An extensive examination of the physiological basis for muscular strength and power. The student will become familiar with various approaches to strength training, such as high intensity training, periodization of training, etc. The student will have the opportunity for NSCA certification during the course.

EXS 430  EXERCISE FOR PERSONS WITH CHRONIC DISEASES  3  
Prerequisite: EXS 309  
An examination of common pathologies across the life-span and their implications for exercise participation. The student will become familiar with contraindications inherent for a particular pathology and learn how to modify exercise programs to accommodate individual needs/ capabilities.

EXS 474  SPORTS NUTRITION/SUBSTANCE ABUSE  3  
Prerequisite: EXS 309 or DIET 320  
A study of the foundations of substance abuse from both a societal and an athlete-specific perspective. A study of scientifically-based information about nutrition and diet, weight control and physical conditioning.

EXS 493  INTERNSHIP IN EXERCISE SCIENCE  1-4  
Prerequisite: EXS 309, 312  
Provides an opportunity to apply the theoretical knowledge gained in coursework. Location of the internship will be determined by the student’s career goals and academic preparation. May be repeated.

FINANCE (FIN)

FIN 228  FINANCIAL MANAGEMENT  3  
Prerequisite: ACCT 201  
An introduction to the finance function: the obtaining and efficient use of capital in a business setting. Specific topics include risk and return analysis, financial planning, and decisions involving assets and equities, and the financial structure of the firm.

FIN 322  PERSONAL ASSET MANAGEMENT  3  
Prerequisite: Sophomore status  
This course is designed to introduce students to methods of effective money management. Topics discussed in this course will range from setting realistic financial goals to various methods that can be employed to accomplish those goals. This course demonstrates how to successfully face all the personal finance issues in the real world.

FIN 329  INTERMEDIATE FINANCIAL MANAGEMENT  3  
Prerequisite: FIN 228  
This course presents financial theory in a decision-making context. The course will emphasize long-term funding, optional capital structure, the cost of capital, and capital budgeting.
FIN 330  PRINCIPLES OF INVESTMENT  3
Prerequisite: FIN 228
An introduction to the analysis of investments in financial assets, both in an individual and a portfolio context; the characteristics and evaluation of specific investment vehicles.

FIN 358  FINANCIAL STATEMENT ANALYSIS & SECURITY VALUATION  3
Prerequisite: FIN 228
Building upon accounting and finance fundamentals, this course provides understanding of how businesses work, how they generate value, and how the value is captured in financial statements. The course will combine analysis of accounting financial statements and financial security valuation.

FIN 420  FINANCIAL MANAGEMENT STRATEGY  3
Prerequisite: FIN 329, senior status
An advanced exploration of issues in business finance: financial valuation, required rates of return for projects and companies, management of working capital and fixed assets, and obtaining funds from the debt and equity markets.

FIN 422  SECURITY ANALYSIS  3
Prerequisite: FIN 330
An advanced study of topics in investment management: fundamental and technical analysis of stocks, investment in bonds, convertible securities and stock options; portfolio management and capital market theory.

FIN 429  GLOBAL FINANCE  3
Prerequisite: FIN 228
This course focuses on the global financial environment and particularly on business operations in a global setting. Topics in multinational finance, foreign exchange risk management, financing foreign operations are emphasized.

FIN 432  INVESTMENT PORTFOLIO MANAGEMENT I  3
Prerequisite: Finance major and FIN 422 or approval of instructor
Teaches the fundamentals of portfolio management through integration of theory and practice. Students as a class manage an actual investment portfolio of significant worth under the supervision of the instructor.

FIN 442  INVESTMENT PORTFOLIO MANAGEMENT II  3
Prerequisite: Finance major and FIN 432
Proficiency in portfolio construction, management, and protection; managing the Eagle Investment Group portfolios, understanding of investment portfolio theory, mastery of current investment analysis techniques, and preparation for NASD Series 7 Securities licensees.

FIN 454  SPECIAL TOPICS IN FINANCE  3
Prerequisite: FIN 228
A course devoted to various topics related to current issues in finance. May be repeated once for different topics with approval of finance faculty.

FOREIGN LANGUAGES (FL)

FL 220  CONTEMPORARY LATIN AMERICAN LITERATURE IN TRANSLATION  3
Prerequisite: None
This course critically examines contemporary Latin American Revolutionary literature, in English translation. Taught in English. Meets Core credit for CCI.

FL 221  U.S. MEXICO-BORDER LITERATURE  3
Prerequisite: None
This course critically examines the political, socio-economic, historical, cultural, and linguistic features of the U.S.-Mexico border, including the relationships between the two nations, through literary readings and cultural analysis. Taught in English. Meets Core credit for CCI.

FL 275  PORTFOLIO ASSESSMENT PROGRAM CYCLE I  0
Prerequisite: Sophomore Status
A course designed to examine the progress towards SLOs for all Foreign Language Majors. Required for all French & Spanish Majors.

FL 299  CCI NARRATIVE  0
Prerequisite: None
CCI Narrative. This will apply to students who elect the CCI Study Abroad Track, a CCI course with Study Away or Course with Experience, or other students whose CCI completion includes the Narrative. The CCI Narrative is an analytical paper, multimedia presentation or other document in which the student demonstrates cultural and/or linguistic competencies acquired through contact with another culture. CCI Narratives that are not tied to a Course with Study Away or Course with Experience must be completed four weeks before student’s graduation. Graded S/U.

FL 315  FRENCH WOMEN WRITERS  3
Prerequisite: None
This course examines literary works by French women writers from the Middle Ages to the 21st century through the optic of specifically historicized feminist criticism and theory. Taught in English. Literature read in translation. Meets Core credit for CCI.

FL 375  PORTFOLIO ASSESSMENT PROGRAM CYCLE II  0
Prerequisite: FL 275
A course designed to examine the progress towards SLOs for all Foreign Language Majors. Required for all French & Spanish Majors. Taught in English.

FL 432  GRADES 7-12 METHODS: TEACHING FOREIGN LANGUAGE, GRADES K-12  3
Prerequisite: EDCT 230S; EDFN 202; Clinical Hours: 4
A course designed to provide the student with classroom instructional skills, methods, and strategies in teaching grades K-12. This class is to be completed successfully prior to the internship. Taught in English.

FL 475  PORTFOLIO ASSESSMENT PROGRAM CYCLE III  0
Prerequisite: FL 375
A course designed to examine the progress towards SLOs for all Foreign Language Majors. Required for all French & Spanish Majors.

FL 636  FOREIGN LANGUAGE EDUCATION CURRICULUM & INSTRUCTION  3
Prerequisite: Successful completion of intermediate foreign language courses or equivalent
A course designed to examine the theoretical and practical issues relating to the teaching of foreign languages K-12. Instructional practices pertaining to the following are explored through lectures, reading of current literature, class discussion, etc.: the role of context in comprehension and learning, listening, reading, oral proficiency, writing, testing, culture, and curriculum. Required for French and Spanish multi-age license.

FL 637  THE TEACHING OF FOREIGN LANGUAGES K-12  3
Prerequisite: Successful completion of intermediate foreign language courses or equivalent
Intended for students who are working toward licensure. Permission of
instructor required for all others. A course assigned to provide the student with classroom instructional skills, methods, and strategies in teaching grades K-12. Required for French and Spanish multi-age license.

**FASHION MERCHANDISING (FM)**

**FM 111 FASHION ANALYSIS 3**
*Prerequisite: None*
Application of aesthetic principles to apparel design. Topics include fashion illustration and design, personal color analysis, figure analysis, and wardrobe planning.

**FM 112 FASHION STUDIO I 3**
*Prerequisite: None*
Apparel construction and design. Development of the basic principles, concepts, and skills essential for apparel construction. Students will apply individual design concepts to projects.

**FM 211 CLOTHING & CULTURE 3**
*Prerequisite: None*
The course explores the social, psychological, and cultural aspects of clothing and appearance. It includes the relationship of clothing and appearance to physical and social environments, aesthetic and personal expression, and cultural ideals and values.

**FM 312 READY TO WEAR ANALYSIS 3**
*Prerequisite: FM 112*
The examination and evaluation of ready-to-wear apparel and its details for construction, style, quality, and fit. Apparel manufacture terms, techniques, production methods and costing will be discussed.

**FM 316 TEXTILES 3**
*Prerequisite: CHEM 251*
An in-depth study of fibers, yarns, fabric constructions, and finishes of the fabrics currently in use for clothing and the household. Labeling, comparative consumption, and the economics of textiles are studied.

**FM 317 FASHION INDUSTRY 3**
*Prerequisite: None*
The history and development of the fashion industry, its operation, merchandising activities, and current industry trends, from the producers of raw materials to retail distribution of consumer goods.

**FM 318 INTERNSHIP 3**
*Prerequisite: Junior standing*
Practical work experience in major subject areas of FM. Students are required to spend 150 hours internship experience. Follow-up seminar includes portfolio and resume development, interview skills, and business etiquette.

**FM 413 FASHION STUDIO II 3**
*Prerequisite: FM 112*
Principles of apparel design by flat pattern methods. Advanced fitting techniques used to create a master pattern. Students will design and construct original fashion designs.

**FM 416 FASHION MERCHANDISING 3**
*Prerequisite: FM 317*
Includes planning, buying, and selling of fashion merchandise through various distribution channels; fashion management, organization, operations, and image; pricing and retail math; fashion promotion and visual merchandising.

**FM 417 FASHION EVOLUTION 3**
*Prerequisite: None*
A chronological study of costume and textiles from ancient civilizations to modern times. Historical and cultural aspects as they influenced period costume will be discussed.

**FM 430 FASHION PROMOTION 3**
*Prerequisite: FM 416*
This course focuses on the comprehensive nature of promotion in the merchandising environment of fashion and related goods. Concepts, perspectives, and methods for the development and implementation of integrated marketing communications programs for fashion retailers are analyzed and critiqued. Students plan and develop promotional strategies.

**FM 441 INTERIOR DESIGN 3**
*Prerequisite: None*
Application of design principles to furnishing home and other interiors including study of backgrounds, furniture, textiles and accessories, consideration of aesthetic economics and social factors affecting choice.

**FRENCH (FREN)**

**FREN 151 ELEMENTARY FRENCH I 3**
*Prerequisite: Placement or no prior study of French. Note: Not open to students who placed in other levels*
A comprehensive introductory course in French language for today's global world. Students develop oral and written proficiency through cultural studies. Taught in French. Offered annually. Meets Core Credit for CCI.

**FREN 152 ELEMENTARY FRENCH II 3**
*Prerequisite: FREN 151, placement, or transfer equivalent. Note: Not open to students who have placed into other levels*
A comprehensive introductory course in French language for today's global world. Students develop oral and written proficiency through cultural studies. Taught in French. Offered annually. Meets Core Credit for CCI.

**FREN 200 INTERMEDIATE LEVEL INTENSIVE FRENCH STUDY ABROAD 6**
*Prerequisite: FREN 132, placement, or transfer equivalent. Note: Not open to students who have placed into other levels*
A program designed to provide students with an intermediate level immersion experience. Students will attend six hours of language instruction per day, participate in cultural experiences, and live with families of the host culture. Orientation and debriefing sessions on campus are required. Meets Core Credit for CCI.

**FREN 251 INTERMEDIATE FRENCH I 3**
*Prerequisite: FREN 152 placement or transfer equivalent. Note: Not open to students who have placed into other levels*
A course designed to increase the students understanding of the language by building on the skills learned in the elementary course. Students develop oral and written proficiency through and exploration of the French arts including architecture, cuisine, fashion, music, painting, etc. Lab work required. Taught in French. Offered annually. Meets Core Credit for CCI.

**FREN 252 INTERMEDIATE FRENCH II 3**
*Prerequisite: FREN 251, placement, or transfer equivalent. Note: Not open to students who have placed into other levels*
A continuation of FREN 251. Students develop oral and written proficiency through and exploration of French media sources including music videos, television, film, and social media. Lab work required. Taught in French. Offered annually. Meets Core Credit for CCI.

**FREN 300 ADVANCED LEVEL INTENSIVE FRENCH STUDY ABROAD 6**
*Prerequisite: FREN 252, placement, or transfer equivalent. Note: Not open to students who have placed into other levels*
A program designed to provide students with an advanced-level
immersion experience. Students will attend six hours of language instruction per day, participate in cultural experiences, and live with families of the host culture. Orientation and debriefing sessions on campus are required. Meets Core Credit for CCI.

FREN 301 FRENCH CIVILIZATION FROM LASCAUX TO VERSAILLES 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
In order to understand contemporary France and the French sense of identity, this course explores and analyzes current issues, cultural manifestations, historical and geopolitical developments, and internal and external relations. French social and political institutions from the Revolution of 1789 to the present will be examined with an emphasis on the evolution of the core values of the Fifth Republic (liberty, equality, social solidarity, and the lay state) and their expression in the French context. Taught in French. Offered alternate years. Meets Core Credit for CCI.

FREN 302 FRENCH CIVILIZATION FROM REVOLUTION TO PRESENT 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
In order to understand contemporary France and the French sense of identity, this course explores and analyzes current issues, cultural manifestations, historical and geopolitical developments, and internal and external relations. French social and political institutions from the Revolution of 1789 to the present will be examined with an emphasis on the evolution of the core values of the Fifth Republic (liberty, equality, social solidarity, and the lay state) and their expression in the French context. Taught in French. Offered alternate years. Meets Core Credit for CCI.

FREN 303 FRENCH WRITTEN EXPRESSION 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
The course offers intensive review and expansion of grammar and vocabulary through structured reading and writing activities. Reading selections include cultural information from France and other French-speaking countries. Taught in French. Offered alternate years. Meets Core credit for CCI.

FREN 304 FRENCH STYLISTICS 3
**Prerequisite:** FREN 303 or equivalent
This course extends the concept of advanced French grammar and composition to questions of style and rhetoric. It will familiarize students with the richness of expression of the French language through an in-depth analysis of a variety of texts and writing practice. Taught in French. Meets Core credit for CCI.

FREN 305 FRENCH PHONETICS 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
A course designed to provide a review of standard French pronunciation and an introduction to phonology, phonetics, and dialectology including corrective exercises and a contrastive analysis of French and English sound systems. Taught in French. Offered alternate years. Meets Core credit for CCI.

FREN 351-352 INTRODUCTION TO FRENCH FICTION I & II 3-3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
Introduces the student to complete works of French fiction. Special attention will be given to the novella, short story, and novel as examples of modern and contemporary literary production. Works will be selected from the literature of France and Francophone countries. Taught in French. Meets Core credit for CCI.

FREN 353 FRENCH LITERATURE: MARIE DE FRANCE TO VOLTAIRE 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
A close examination of major French literary texts from the Middle Ages to the Revolution. The course emphasizes the ways in which representative works of pre-Revolutionary French literature are both products of and windows into their historical and cultural contexts. Students will learn and practice analysis of forms of literary expression as they relate to the production of meaning. All texts and discussions are in French. Offered alternate years. Meets Core credit for humanities.

FREN 354 FRENCH LITERATURE: REVOLUTION TO PRESENT 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
A close examination of major French literary texts from the Revolution to the present read as reflections of and reactions to the historical and cultural movements of the periods in which they were written. Students will learn and practice analysis of forms of literary expression as they relate to the production of meaning. All texts and discussions are in French. Offered alternate years. Meets Core credit for humanities.

FREN 357 FRENCH ORAL EXPRESSION 3
**Prerequisite:** FREN 200 or 252 or placement/transfer equivalent
This course focuses on the practice and development of conversational fluency through a variety of culturally-related themes. Taught in French. Offered alternate years. Meets Core credit for CCI.

FREN 470 SEMINAR ON THE FRENCH-SPEAKING WORLD 3
**Prerequisite:** FREN 351-352 or 353-354
A seminar on topics pertinent to language, culture, civilization and literature of the French-speaking world known today as "World Literature in French." The content will vary depending upon the interest and needs of students. The course may be repeated for a total of 6 hours. Taught in French. Offered alternate years.

FREN 670 SEMINAR IN FRANCOPHONE STUDIES 3
**Prerequisite:** Graduate standing advanced-level proficiency in French; previous undergraduate study of civilization and literature
A seminar on topics pertinent to the field of Francophone studies in language, culture, civilization, or literature. The content will vary depending upon the interest and needs of students. The course may be repeated under a different topic for a total of 6 credit hours. Taught in French. Offered alternate years.

GEOLOGY (GEOL)

GEOL 101 PHYSICAL GEOLOGY 4
**Prerequisite:** None
A study of the origin of minerals and rocks and the processes acting on and in the earth and their results as reflected in topography and earth structure. Three class sessions and one lab per week. Offered every fall.

GEOL 102 HISTORICAL GEOLOGY 4
**Prerequisite:** None
A study of the record in the rocks, especially the fossil record and the events of the earth's formation through geological time. Three class sessions and one lab per week. This course may also count toward a degree in biology. Offered every even spring.

GEOL 103 PHYSICAL GEOGRAPHY AND THE ENVIRONMENT 3
**Prerequisite:** None
Analysis of climatic elements and controls leading to an improved understanding of climatic types and their world distribution, followed by a study of the physical and cultural features within the major climatic regions, especially as these features relate to climatic conditions. The climatic regions form the framework for building up general geographic knowledge. Although memorization of geographic facts (including place names) is not stressed, the students are expected to improve greatly their knowledge of such facts. Special offering, contact department.

GEOL 209 NATURAL DISASTERS: VOLCANOES AND EARTHQUAKES 3
**Prerequisite:** None
What are natural disasters and how can science reduce the damage done
by events such as earthquakes, tsunami, and volcanic eruptions? This course will examine these events and how scientists determine why and attempt to predict when and where natural disasters are most likely to occur, as well as identify what steps endangered communities can take in order to avoid or minimize the danger posed by these natural processes. Meets Core credit for natural sciences. Student who are required or elect to take GEOL 101 for their major or minor cannot enroll in this class for credit toward their major or minor.

GEOL 210 NATURAL DISASTERS: SEVERE WEATHER
Prerequisite: None
What are natural disasters, and how can science reduce the damage done by events such as severe weather and flooding? This course will examine these events and how scientists attempt to predict when and where natural disasters are most likely to occur, as well as identify what steps endangered communities can take in order to avoid or minimize the danger posed by these natural processes. Meets Core credit for natural sciences.

GEOL 211 DISCOVERING THE ICE AGE
Prerequisite: None
How was the Ice Age discovered? This class will examine how 19th century scientists used stones, bones, and landforms to bring about a revolution in our understanding of earth history. It will also examine the scientific evidence upon which current models of the Pleistocene Ice Age are built, as well as how ice, sediment, and rock cores are providing us with new insights into past and future ice ages. Meets Core credit for natural sciences.

GEOL 212 ARCHEOLOGY & HUMAN ANTIQUITY
Prerequisite: None
Where did humans come from? How far back in time can we trace the human lineage? The question of human antiquity is a topic of universal interest and speculation. Archaeology is a discipline that seeks to answer this question. This class will critically examine some of the scientific techniques archaeologists have used, discoveries they have made, and conclusions they have reached about human antiquity. Meets Core credit for natural sciences.

GEOL 213 ASTEROIDS, COMETS, AND CATASTROPHE
Prerequisite: None
How has the discovery of giant impact craters changed our understanding of earth history? This class will examine the scientific evidence for repeated asteroid and comet collisions with the earth, the catastrophic effect of these collisions, and the re-emergence of catastrophism as a viable paradigm in modern scientific theories. Meets Core credit for natural sciences.

GEOL 275 TOPICS IN REGIONAL GEOLOGY
Prerequisite: None
A study of various topics relevant to annual field trips conducted by the department, generally 10-14 days in May.

GEOL 297 INTRODUCTION TO LABORATORY AND FIELD RESEARCH
Prerequisite: Soph or junior standing
This course will introduce the student to scientific research in the laboratory or field through individual instruction under the direction of a Geology faculty member. Graded S/U. Offered each semester.

GEOL 309 GEOMORPHOLOGY
Prerequisite: GEOL 101
The interpretation of landscapes and landforms; their origin, evolution and relation to erosion, structure and rock characteristics. Three lectures and one lab per week. Offered every odd fall.

GEOL 311 MINERALOGY
Prerequisite: GEOL 101
A course that includes the elements of crystallography, crystal chemistry and descriptive mineralogy of the important or common minerals. Three class sessions and one lab per week.

GEOL 312 IGNEOUS AND METAMORPHIC PETROLOGY
Prerequisite: GEOL 311
Analysis of the principal igneous and metamorphic rocks; their origin, structure and physical and chemical composition. Three class sessions and one lab per week.

GEOL 313 SEDIMENTARY PETROLOGY AND STRATIGRAPHY
Prerequisite: GEOL 102
An introduction to the features found in sedimentary rocks and the principles of sedimentology and stratigraphy emphasizing interpretation, correlation, and use in assessing the geologic history of the earth. Three class sessions and one laboratory period per week.

GEOL 320 INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS (GIS)
Prerequisite: None
This course covers the fundamental principles of geographic information systems (GIS), which is the merging of cartography, statistical analysis, and database technology into computer-based systems that capture, store, manipulate, analyze, manage, and present all types of geographical data for a wide variety of applications and purposes, but with the goal of informed decision-making. Students will learn how to create interactive queries (user created searches), analyze spatial information, edit data in maps, and present the results of all these operations, primarily applying these to geological and environmental systems. BIO/EVS/GEOL credit.

GEOL 350 SCIENCE AS A CULTURAL Force
Prerequisite: See CHEM 350 for course description.

GEOL 401 STRUCTURAL GEOLOGY
Prerequisite: GEOL 101
A study of the geometrical relationships of rock bodies of the earth, their orientation, distribution and bearing on the theories concerned with the origin and development of major landscape features, the continents and the ocean basins. Three class sessions and one lab per week. Offered every odd spring.

GEOL 402 ECONOMIC GEOLOGY
Prerequisite: GEOL 101, GEOL 311
This course is an introduction to the general geologic and economic features that are important to the discovery, production, and reclamation of commercial concentrations of non-hydrocarbon mineral resources, i.e., metallic and industrial mineral commodities. It also includes the importance of mineral resources to the global economy, mineral evaluation, and risk analysis and the environmental impact of extraction and processing. The course deals with mineral resources in many countries. While the course does not have a laboratory component, materials and techniques are covered in the classroom setting or as outside components.

GEOL 403 ENVIRONMENTAL GEOCHEMISTRY
Prerequisite: GEOL 101, CHEM 104, approval of department chair
A quantitative introduction to the distribution and migration of chemical species within the earth in space, and in time, with emphasis on understanding standing the principle chemical control on element distribution. Major chemical systems are investigated within the lithosphere and hydrosphere Three lectures and one two-hour lab per week. This course may be used to satisfy elective hours for chemistry majors.
GEOL 405  PETROLEUM GEOLOGY  4

Prerequisite: GEOL 101, GEOL 313

This course is an introduction to petroleum geology that provides a basic understanding of the geologic origin, migration, and location of hydrocarbon deposits and the concepts and methods in petroleum and natural gas exploration and development. Laboratory exercises supplement lectures and offer practical experience with methods, especially core and geophysical log and survey analysis and interpretation, subsurface mapping, volumetric calculations, and risk analysis and environmental impact.

GEOL 429  FIELD GEOLOGY  1-8

Prerequisite: GEOL 311 and additional courses from the following are recommended: GEOL 309, 312, 313, 314, and 401

Field analysis and interpretation of the regional geology at several field camp locations. The work includes an introduction to field techniques and geological mapping on aerial photographs and topographic base maps.

GEOL 476  ISSUES IN ENVIRONMENTAL SCIENCE  3

Prerequisite: 30 hours of science courses (MATH, BIO, CHEM, GEOL, PHYS)

A detailed examination of the scientific dimensions of selected environmental issues, with discussion of the economic policy, and ethical aspects of those problems and with emphasis on global and international perspectives. Case studies will include many examples from other countries, as well as national and regional issues in the U.S. Required for all EVS majors. Biology and Geology majors (but not EVS/Biology or EVS/Geology majors) may use this course as a biology or geology elective. BIO/EVS/GEOL credit.

GEOL 493  INTERNSHIP  1-4

Prerequisite: See CHEM 493 for course description.

GEOL 497  LABORATORY AND FIELD RESEARCH  1-3

Prerequisite: See CHEM 497 for course description.

GEOL 550  GEOLOGY OF OHIO  3

Prerequisite:

An in-depth study of Ohio's 260 million year (Ma) subsurface (bedrock) geology and recent surface (geomorphic) geologic record. Students will spend one week in the classroom and laboratory and one week doing fieldwork at sites across Ohio.

GERMAN (GER)

GER 161  ELEMENTARY GERMAN I  3

Prerequisite: None

An introduction to the German language and culture with practice in the basic skills of the language. Lab work required. Taught in German. Offered infrequently. Meets Core credit for CCI.

GER 162  ELEMENTARY GERMAN II  3

Prerequisite: GER 161 or equivalent

A continuation of FL 161. Lab work required. Taught in German. Offered infrequently. Meets Core credit for CCI.

GER 261  INTERMEDIATE GERMAN I  3

Prerequisite: GER 162 or equivalent

A course designed to increase the student’s understanding of the language by building on the skills learned in the elementary course. Lab work required. Taught in German. Offered infrequently. Meets Core credit for CCI.

GER 262  INTERMEDIATE GERMAN II  3

Prerequisite: GER 261 or equivalent

Continuation of GER 261. Lab work required. Taught in German. Meets Core credit for CCI.

HISTORY (HIST)

HIST 112  WESTERN CIVILIZATION  3

Prerequisite: None

This course will seek to answer the question What is civilization? by studying certain historical moments in the West-classical Greece, the Roman Republic, early Christianity, the High Middle Ages, and the Renaissance-in order to see the changes over time in politics, religion, society, economics, and culture and to realize the extent to which the present world has inherited these institutional and intellectual foundations of human life. Meets Core credit for historical reasoning.

HIST 113  WESTERN CIVILIZATION  3

Prerequisite: None

This course examines how the peoples of Western Europe understood freedom and sought to secure it in the 500 years from the Renaissance to WW II. Focusing on selected historical moments during this period, the course considers how this quest for freedom transformed politics, religion, economics, and morality; it also examines the reaction to this transformation, especially in totalitarianism. Meets Core credit for historical reasoning.

HIST 201  TOPICS IN CLASSICAL CIVILIZATION  3

Prerequisite: None

This course will study key topics in Greek and Roman antiquity. Topics may include: imperialism, sport and spectacle, literature, the family, woman, or slavery in the Greek and Roman worlds; or authors such as Plutarch, Cicero, or Seneca. Repeatable as topics change. HIST 201/POLSC 201 credit.

HIST 212  AMERICAN HISTORY THROUGH THE CIVIL WAR  3

Prerequisite: None

An examination of the creation and development of a distinctively American civilization, from its origins through the Civil War (to 1865). Meets Core credit for historical reasoning.

HIST 213  AMERICAN HISTORY AFTER THE CIVIL WAR  3

Prerequisite: None

An examination of how the fundamental American principles of freedom and equality developed as the United States emerged as the world’s leading power from the Civil War to the present. Meets Core credit for historical reasoning.

HIST 218  WOMEN IN AMERICAN HISTORY  3

Prerequisite: None

A view of women as participants in the nation's growth from the earliest colonial settlements to the present. Emphasis on student use of multimedia, including films, tapes, slides, and guest speakers, to rediscover the record of women in American national life.

HIST 236  AMERICAN FOREIGN POLICY  3

Prerequisite: SEE POLSC 236 for course description

HIST 239  HISTORY OF OHIO  3

Prerequisite: None

A study of Ohio Country from its prehistoric inhabitants to the present, with a focus on the state’s significance in the nation. Will emphasize the role of Ohio in the United States, including Ohio’s role in the Northwest Territory and how it served as the model for statehood; its importance in 19th century political and economic affairs; and its shift from agriculture to industry to a 21st century post-industrial economy.
HIST 261 ANcient greece 3
Prerequisite: None
This course examines the political, military and intellectual history of Ancient Greece, emphasizing the rise of totalitarianism and the two world wars. Focusing on selected literary sources written during this period, the course confronts the rise of the polis, the development of political thought, tragedy, comedy, philosophy, and the spread of Hellenism throughout the Mediterranean.

HIST 264 ancienT Rome and the rise of Christianity 3
Prerequisite: None
This course examines the political, military and intellectual history of Ancient Rome, including the rise of Christianity within Rome. Focusing on selected literary sources written during this period, the course examines the internal and external tensions that led to the rise and decline of Rome, including the factors in Roman history that were central to the rise of Christianity.

HIST 267 mediEvAl euRope 3
Prerequisite: None
A study of ideas, events, individuals, and trends of Europe from the late Roman era to the Italian Renaissance, with an emphasis on showing how the modern world arose from a combination of Roman, Christian, and Germanic elements. The course will examine the rise of Christianity (both Roman and Orthodox), the struggle against Islam, the development of feudal society, the revival of trade and towns, and the ongoing battle between the papacy and the European monarchies.

HIST 268 renaissance and reformation 3
Prerequisite: None
This course covers the intellectual and political history of the European Renaissance and the Protestant Reformation. Focusing on literary sources written during this period, the course examines the intellectual developments, art, literature, politics, and religious thought that shattered the Medieval world-view and led to the scientific revolution. The central purpose of this course is to understand how Italian and northern Humanism developed and influenced later western history.

HIST 269 Age of enlightenment (1600-1789) 3
Prerequisite: None
Examines the intellectual and political reformation that swept Europe in the 17th and 18th centuries. Will focus on the revolution in modern natural science, the rise and fall of absolute government, the growth of the English constitution, and the development of a new liberal philosophy.

HIST 270 Age of revolution and Reaction (1789-1900) 3
Prerequisite: None
Examines the history of Europe from the French Revolution to the years just before the outbreak of WWI. Topics studied include the Congress of Vienna, industrialization, ideologies such as liberalism, socialism, democracy and nationalism, the Franco-Prussian War, and colonial expansion.

HIST 271 20th century Europe to the present 3
Prerequisite: None
A survey of the ideas, events, individuals, and trends of Europe since 1900, emphasizing the rise of totalitarianism and the two world wars. Through a combination of lecture and discussion of primary sources, the course will examine the origins and outcome of World War I, the rise of collectivist dictatorships in Russia, Italy, and Germany; the Great Depression and its effects; the road to World War II, and the war itself, the postwar trends toward European union and decolonization; and the Cold War.

HIST 301 Cultural geography 3
Prerequisite: None
Survey of human settlement and its relationship with the physical environment, including population, ethnic and cultural patterns, economic and political organizations and the uses of land and natural resources.

HIST 321 warfare: ancient and modern 3
Prerequisite: None
This course provides a comparative study of warfare across history, using selected conflicts from the ancient, medieval, and modern worlds to illustrate the underlying themes, causes, and motivations of wars.

HIST 327 Africa 3
Prerequisite: None
An introductory discussion of Africa before the age of Imperialism followed by an intensive study of the period of foreign control, and then a study of the independence movement and the Africa of today.

HIST 329 Latin america 3
Prerequisite: None
A survey of Latin America from the days of discovery and colonization to present time, focusing on contemporary institutions of selected Latin American countries, especially Argentina, Brazil, Mexico, Cuba, and the Caribbean and Central America Republics, including relations with the United States and the problems confronting the extension of democracy in Latin America.

HIST 341 modern Middle east 3
Prerequisite: None
This course explores the development and character of important Middle Eastern countries and of relations between them, with emphasis on the influence of geography, history, religion, political ideas, statesmanship, culture, European imperialism, and natural resources. HIST/POLSC credit.

HIST 343 modern East Asia 3
Prerequisite: None
In this course, students consider the political, diplomatic, and cultural history of East Asia - specifically Japan, China, Korea, and Vietnam from roughly 1600 to the present. Of particular interest will be how the civilization of East Asia was transformed in the modern era, mainly as a result of its contract with the West.

HIST 351 colonial america 3
Prerequisite: None
This course covers colonial America from 1500 to 1776. Stress is laid upon the European backgrounds and the evolution of the political, economic and social institutions of the colonies.

HIST 352 the American founding 3
Prerequisite: None
A seminar on the principles and practices of America's founding statesmen. We examine how the founders formulated and reconciled ideas (natural rights, separation of powers, federalism) with interests (economic, political, regional, etc.). HIST 352/POLSC 352 credit.

HIST 353 the early Republic: us 1791-1820 3
Prerequisite: None
In this course we will examine the political, diplomatic, intellectual, and social history of the United States from 1791 to 1820.

HIST 354 nationhood and Sectional conflict: us 1820-1854 3
Prerequisite: None
This course will cover the main events, personalities, developments, and ideas in the United States between 1820 and 1854.
HIST 355  CIVIL WAR AND RECONSTRUCTION  3
Prerequisite: None
An examination of the origins, progress, and consequenc - political, historical, and economic - of the American Civil War. In addition to the military aspects of the Civil War, the course looks at the immediate and long-term problems of Reconstruction.

HIST 356  AGE OF ENTERPRISE AND PROGRESSIVISM  3
Prerequisite: None
A study of the rise of modern America. The course begins in 1877 with the end of Reconstruction, and it finishes with America's entry into World War I. Students will examine the beginnings of industrialization, the rise of cities, immigration, progressive reform, and America's ascendency to world power.

HIST 357  AMERICA IN THE AGE OF WORLD WARS  3
Prerequisite: None
A study of the American experience from 1920-1945, exploring the Roaring Twenties, Great Depression, New Deal, and the Second World War. Political, economic, social, intellectual, and cultural currents will be addressed as well as foreign policy issues

HIST 358  POSTWAR AMERICA: 1945-1973  3
Prerequisite: None
An examination of the United States during the three decades following the Second World War. The social, economic, political, and diplomatic development of the country is stressed with a thematic emphasis.

HIST 359  CONTEMPORARY AMERICA: 1974 TO PRESENT  3
Prerequisite: None
Examines the United States from the end of Watergate to the present, with emphasis on the rise of the new conservatism, the collapse of the Soviet Union, and the search for a new foreign policy. The social, economic, political, and diplomatic development of the country is stressed with a thematic emphasis.

HIST 360  ECONOMIC HISTORY OF THE UNITED STATES  3
Prerequisite: None
This course is a survey of the economic development of the United States from its foundation until the present time. It emphasizes the development of industry and commerce.

HIST 364  WORLD WAR II  3
Prerequisite: None
An examination of World War II, the most widespread, costly, and destructive war in the history of the planet. This course will cover the origins of the war, the strategies pursued by the participants, and the major events in both the Pacific and European theaters from the 1930's until 1945. Further, it will consider the significance of the war for the history of Europe, Asia, and the United States.

HIST 370  TOPICS IN AMERICAN HISTORY  3
Prerequisite: None
Examines various topics, themes or ideas in American History. Students should check schedule and/or instructor to ascertain what topics are currently being offered. May be repeated once if the topic is different.

HIST 375  LINCOLN  3
Prerequisite: None
A seminar that considers the political thought, actions, and statesmanship of Abraham Lincoln before and during the Civil War. Readings include a number of his speeches, with special emphasis on the Lincoln and Douglas debates. HIST 375/POLSC 375 credit.

HIST 380  TOPICS IN HISTORY  3
Prerequisite: None
This course treats various topics, themes and ideas in European or World History. Students should check schedule and/or instructor to ascertain what topics are currently being offered. The course can be taken twice if topics are different.

HIST 381  CHURCHILL  3
Prerequisite: See POLSC 381 for course description.

HIST 465  THE STUDY OF HISTORY SEMINAR  3
Prerequisite: History majors with Jr. or Sr. status or permission
Introduction to methods of historical research and writing. Exposure to specific writings, emphasizing ideas and trends of either European or American historians, but especially the latter.

HIST 497  THESIS SEMINAR  3
Prerequisite: Senior status and departmental major or minor
The course is designed for a major or minor in the Department who is researching and writing a senior thesis. It is a guided, intensive study of some topic of interest to the student, which results in a substantial scholarly paper. The student may not have acquired or be in the process of acquiring more than 3 hours of academic credit for work connected to the project to be undertaken in HIST 497/POLSC 497 (for example, through Independent Study).

HIST 640  SPECIAL TOPICS  1
Prerequisite: Individual or group studies of coursework in history. Graduate standing, permission of the professor of record and the approval of the director of graduate studies in education.

HONORS PROGRAM (HON)

HON 101  FIRST YEAR HONORS SEMINAR  1
Prerequisite: Enrolled in Honors Program
A course designed for students admitted to the Honors Program in their first year. The course introduces student to the Honors Program and Ashland University through classes offered in seminar format, involving assigned readings, discussion, and written assignments.

HON 310  HONORS CAPSTONE PREPARATION  1
Prerequisite: Enrolled in Honors Program; at least junior status
The process of preparing a capstone project, including selecting a topic, choosing mentors, preparing a bibliography, constructing a written thesis prospectus, and outlining a timetable for completing the Capstone Project. This course is required for all juniors who plan to complete an honors thesis their senior year. The course may be taken by conference if there is a scheduling conflict. Graded S/U.

HON 390  HONORS INTERDISCIPLINARY SEMINAR  3
Prerequisite: Enrollment in Honors Program; at least sophomore status
A course devoted to various topics related to the Honors Program Mission of challenging the mind and participating in an intellectual community devoted to discussion and dialogue. Topics will be cross-disciplinary in nature, and the course may be team taught. Typically, the course will be tied to a study abroad opportunity in the spring semesters of odd-numbered years. May be repeated once with a different topic. Meets CCI credit when completing the course with the study away component and the corresponding CCI narrative.

<td></td>
<td></td>
</tr>
</tbody>
</table>
HSM 234  HOTEL OPERATIONS  3  
Prerequisite:  HSM 135, MGT 240, ACCT 201  
A systematic study of accounting principles as they apply to the lodging industry, the requirements for special accounting procedures and records and their use in maintaining sound control and in supporting management decisions.

HSM 235  HOSPITALITY COST CONTROL  3  
Prerequisite:  MATH 208  
Introduction to the application of computers in the hospitality industry. A study of how computers are used in hotels and restaurants for controlling reservations, making room assignments helping keep track of food and beverage charges, forecasting and scheduling. The course will serve as a foundation for integrating computer usage in other hospitality curriculum. Special emphasis will be directed to computerized front office operations.

HSM 250  FOOD & BEVERAGE OPERATIONS MANAGEMENT  3  
Prerequisite:  HSM 135 and HSM 235 or DIET 210; MGT 240; HSM 335 concurrent  
Students will receive an overview of food and beverage operations and management. Topics include careers, equipment layout and décor, menu planning, management development, customer service and procurement.

HSM 334  MANAGEMENT OF INSTITUTIONAL EMPLOYEES  3  
Prerequisite: Sophomore status  
A study of acquiring, maintaining, motivating and utilizing a work force under the special conditions found in hotels, restaurants and other personal service type institutions.

HSM 335  ENVIRONMENTAL MANAGEMENT  3  
Prerequisite:  None  
Examines the organization and operation of the housekeeping and engineering departments of food service facilities. The course stresses training and record keeping and provides essential technical information in electricity, heating, plumbing and other equipment. Additional significance of sanitation and personal hygiene in all food service operations will be studied. Knowledge needed to implement a sanitation program for any facility will be discussed.

HSM 336  FOOD PREPARATION I  3  
Prerequisite:  HSM 335  
The course is designed to teach those with management responsibilities how quality foods are produced. Additionally, purchasing criteria and guidelines for the major groups of foods purchased by quantity buyers will be discussed. Topics including all the major food groups, cost implications, and cooking theory will be conducted by lecture format. Culinary techniques and practical production concentration will be provided at two- team member stations in a laboratory environment.

HSM 337  FOOD PREPARATION II  3  
Prerequisite:  HSM 336  
A continuation of Food Preparation I. The completion of all major food groups with relation to preparation and purchasing will be integrated in class lecture and lab. Emphasis on practical production procedures and culinary techniques via team-station laboratory performance is continued.

HSM 410  GAMING & CASINO MANAGEMENT  3  
Prerequisite:  HSM 135, MATH 208  
This course gives an overview of the various games and of managing odds. Emphasizes the financial, operational, marketing, legal, and ethical aspects of running gaming operations.

HSM 430  BEVERAGE MANAGEMENT  3  
Prerequisite:  HSM 135, HSM 235  
This course looks at principles and practices regarding the production, selection, purchasing, storage, and service of beverage alcohol in the hospitality industry.

HSM 433  HOSPITALITY MARKETING  3  
Prerequisite:  MKT 233  
A study of the controllable and non-controllable factors involved in marketing the food and lodging institution. Introduces the role of marketing, analyzes the consumer, and delves into the product planning, distribution planning, promotion planning and price planning roles of the hospitality manager. Hands-on class project developing an actual marketing and communication plan.

HSM 434  STRATEGIES IN THE HOSPITALITY INDUSTRY  3  
Prerequisite:  MGT 401, HSM 234 or HSM 250  
A presentation of the many responsibilities which the law imposes upon institutional management and ownership.

HSM 435  QUANTITY FOOD PRODUCTION  3  
Prerequisite:  HSM 337  
Practical application of management and production skills via laboratory procedures. Emphasis will be placed on the menu planning, menu costing, production scheduling, cost control and quality controls.

HSM 437  EVENT PLANNING  3  
Prerequisite:  HSM 135, HSM 235, HSM 335, ACCT 201  
Practical application of the aspects of catering beginning with the requirements of banquet hall, mobile and off-premise catering, staffing requirements and service standards. Theme dinners will be served on a reservation basis in the Accent Room. Students will be responsible for all planning, implementation and control of these events.

HSM 480  HOSPITALITY SPECIAL TOPICS  3  
Prerequisite:  HSM Major  
A course devoted to various topics related to issues in hospitality repeated once for different topics with approval of the chair.

INTERDISCIPLINARY STUDIES (IDS)

IDS 493  INTELLIGENCE INTERNSHIP AT ATIC  12  
Prerequisite: Completion of the Intelligence Internship at ATIC Campus Approval Form  
The Intelligence Internship at ATIC is a full time internship offered in residence at the Advanced Technical Intelligence Center (ATIC) in Dayton, OH. This internship is designed to provide students with the necessary tools to be successful analysts in the U.S. Intelligence Community. The Intelligence Internship at ATIC includes classroom training, research experience, experiential contact hours and, if eligible, the sponsorship of the student for a Top Secret security clearance. This 15 week internship is available during fall and spring semesters and the summer. Students will earn 12 semester hours of credit for satisfactorily completing the internship.

INFORMATION SYSTEMS (IS)

IS 221  INFORMATION TECHNOLOGY  3  
Prerequisite:  None  
This course is an introduction to the use of computers in a business environment. It traces the evolution of data processing systems through advanced systems currently in use, including hardware, software, programming and operating systems. Other current topics including data communications, databases and computer security also will be discussed.
IS 346  E-COMMERCE  3
Prerequisite: IS 221; MKT 233 or MGT 240
This course is designed to introduce students to business, cultural, technical, and social/legal aspects of using the Web for business in a global context transcending the U.S. or any specific national boundary. Figuring prominently in the course will be examination of cultural, business and social dimensions of e-commerce, including web site design, across multiple countries. Students will work on a group project that involves the development of a business plan and the design of an e-commerce business using IS skills and knowledge you have obtained from this course and other courses taken.

IS 370  PROGRAMMING FOR BUSINESS I  3
Prerequisite: IS 221
An introduction to computer programming in the business environment. Using Visual Basic, students will design, flowchart, program, enter, test and debug, and document programs of minimal to medium degree of difficulty.

IS 371  PROGRAMMING FOR BUSINESS II  3
Prerequisite: IS 370
A continuation of IS 370. Will involve advanced programming techniques, including file handling. Complex problem-solving situations will be undertaken in order to provide the student with applications-oriented experience.

IS 372  SYSTEMS ANALYSIS AND DESIGN  3
Prerequisite: IS 221
An introduction to the concepts and methods of systems analysis and design. The course will examine the life cycle of an information system from initial business problems through system development, implementation, and maintenance. Students will follow the development of various systems through the use of select business cases.

IS 452  SPECIAL TOPICS IN INFORMATION SYSTEMS  1-3
Prerequisite: IS 372
Examines various topics related to current issues in information systems. May be repeated once for different topics with the approval of IS faculty.

IS 470  DATABASE MANAGEMENT  3
Prerequisite: None
An introduction to database management which combines theory with application. The course will present aspects of relational database theory including cardinality, normalization, and referential integrity. Students will then apply these theories to design, and implement databases using a variety of database management systems.

IS 472  DECISION SUPPORT SYSTEMS AND BUSINESS INTELLIGENCE  3
Prerequisite: IS 370 or CS 121
An examination of the role of information systems in managerial decision making. The course describes the decision making process and examines how various information systems are used to support this process. Specific topics covered in the course include decision support systems, business intelligence, and knowledge management.

IS 473  ADVANCED SYSTEMS DEVELOPMENT  3
Prerequisite: IS 371, IS 372, IS 470
A study of advanced systems design and development methodologies. The course will include a project requiring the student to develop and implement a computer-based information systems.

IS 475  NETWORK FUNDAMENTALS AND INFORMATION SECURITY  3
Prerequisite: IS 370 or CS 121
Overview of network technology for local area networks (LANs), wide area networks (WANS), and the internet. Focus will be placed on designing, implementing, managing, and troubleshooting a network environment. A foundation-level understanding of the various domains for certification as an information systems security professional will also be discussed.

IS 479  MANAGEMENT OF INFORMATION SYSTEMS  3
Prerequisite: IS 372
The theory and practice of planning, control and administration of the management aspects of IS installations will be analyzed in general, and information resource management in particular. This course will develop the background necessary for relating the practice of information systems support to the realities of management needs. The student will be responsible for researching and reporting on current topics in the field.

JOURNALISM AND DIGITAL MEDIA (JDM)

JDM 103  INTRODUCTION TO JOURNALISM AND MASS COMMUNICATION  3
Prerequisite: None
An introductory, yet critical examination of the history of journalism and the media and how mass media continues to influence society. Attention given to advances in technology and how they have changed journalism, the development and role of mediated communication and competition between traditional and emerging media.

JDM 133  VIDEO AESTHETICS I  3
Prerequisite: None
This course is an introduction and exploration of basic visual storytelling techniques using digital content creation tools such as video cameras and computer editing software. Students will learn the principles of visual aesthetics through the use of single-camera shooting technique. The focus will be on the creation and interpretation of meaning through the use of framing, shot composition, lighting, and editing.

JDM 203  WRITING FOR THE MEDIA  3
Prerequisite: None
This course stresses with development of practical skills in news writing for mass media in print, broadcast, and web formats. Emphasis is placed on news values and judgment, effective leads and organization, writing clarity, and style. Class assignments will involve writing projects on a variety of news topics.

JDM 211  PROFESSIONAL PRACTICE: NEWS PRODUCTION  1
Prerequisite: Major or minor with the Department of Journalism and Digital Media
Students in this course will get practical, hands-on experience working within the JDM facilities producing news and sports content for AUTV-20, The Collegian, and WRDL-FM. Students will focus on creating multi-media news and sports stories that will air during shows on AUTV-20 and WRDL-FM, and also be published in the paper and online for The Collegian. Students will also work with other students in JDM 212 and 213 to coordinate news and sports coverage. This one credit course is repeatable and is for JDM majors and minors only. Digital Media Journalism majors and minors are required to take at least four credits of this course. Course is graded S/U.

JDM 212  PROFESSIONAL PRACTICE: RADIO PRODUCTION  1
Prerequisite: Major or minor with the Department of Journalism and Digital Media
Students in this course will get practical, hands-on experience working
within the JDM facilities producing media content for WRDL-FM. Students will work within all facets of radio production, including working as DJs, board operations for sporting events and shows, remotes, audio production, and working with JDM 211 students to coordinate content for various shows. This one credit course is repeatable and is for JDM majors and minors only. Digital Media Production majors and minors are required to take at least two credits of this course. Course is graded S/U.

JDM 213 PROFESSIONAL PRACTICE: 1 TELEVISION PRODUCTION
Prerequisite: Major or minor with the Department of Journalism and Digital Media
Students in this course will get practical, hands-on experience working within the JDM facilities producing media content for AUTV-20. Students will work within all facets of television production, including working as crew for remote and studio productions, creating graphics, shooting and editing video, and working with JDM 211 students to coordinate content for various shows. This one credit course is repeatable and is for JDM majors and minors only. Digital Media Production majors and minors are required to take at least two credits of this course. Course is graded S/U.

JDM 214 PROFESSIONAL PRACTICE: SPECIAL 1 TOPICS
Prerequisite: Major or minor with the Department of Journalism and Digital Media
Students in this course will get practical, hands-on experience producing media content for various purposes that are not part of the existing Journalism and Digital Media curriculum or professional practice offerings. This course is offered once a year and specific topic varies. This one credit course is repeatable and is for JDM majors and minors only. Course is graded S/U.

JDM 224 SPECIAL TOPICS IN DIGITAL MEDIA 3
Prerequisite: JDM 103
This course covers various topics and content related to today's media industry that are not a part of the Journalism and Digital Media curriculum. Topics reflect new techniques, areas, and issues facing the media currently. May be repeated for credit as topics change.

JDM 232 VIDEO AESTHETICS II 3
Prerequisite: JDM 133
In this course, students will build on the skills learned in JDM 133 to create more advanced video shooting and editing projects. The focus will be on the aesthetics and creative techniques associated with lighting, audio, and shooting video in the field. Additionally, students will learn the appropriate use of advanced editing techniques (effects, transitions, graphics, and color correction) to create meaning within a piece.

JDM 234 STUDIO PRODUCTION 3
Prerequisite: JDM 133
Course covers the practices, procedures, and techniques associated with the production of studio television programs.

JDM 237 BASIC AUDIO PRODUCTION 3
Prerequisite: JDM 133
Covers the basic theories of field and studio audio production. Students will become familiar with the use of field and studio audio equipment and will learn the basics of audio pre- and post-production techniques.

JDM 243 SPORTS BROADCASTING & PRODUCTION 3
Prerequisite: JDM 133
The course examines the history of multi-camera sports production techniques, the technology used and coverage formulas utilized by the broadcast and cable networks producing sporting events today.

JDM 245 FUNDAMENTALS OF RESEARCH AND REPORTING 3
Prerequisite: JDM 103, JDM 203
A course designed to instruct students in the fundamentals of news-gathering. Emphasis will be on interviewing techniques, computer-assisted research, public records laws, and how to glean important information from historical archives. The course will also focus on information literacy and the importance of sound judgment.

JDM 246 MULTIMEDIA REPORTING 3
Prerequisite: JDM 1033, JDM 203
This course is designed to teach students the fundamentals of creating news and information content for the web. The focus will be on writing techniques, information gathering and relevant software. Skills learned in this course will serve as the basis for longer-form web content created in JDM 307 and 336.

JDM 303 MEDIA LAW AND ETHICS 3
Prerequisite: None
An examination of the roles of the law and ethics in determining appropriate conduct in the fields of journalism, media production, and other areas of public communication. A fundamental understanding of first amendment principles and legal philosophy affecting freedom of expression in the media industries will be stressed.

JDM 307 ADVANCED REPORTING AND EDITING 3
Prerequisite: JDM 245, JDM 246 or Permission
A course designed to instruct students in comprehensive news gathering skills and new disseminating skills. Emphasis on investigation journalism that is assisted by gathering material derived from interviews, observation, public records, and other documents, and on using such research material to construct effective, in-depth news articles. The class will also analyze selected examples of hard news reporting from contemporary journalistic practice. Class assignments will involve extensive field research, in-depth written news stories and multi-media productions for the web.

JDM 311 SCRIPT WRITING AND DIRECTING 3
Prerequisite: JDM 234
An examination and practice in the two most basic functions in media production; directing and scriptwriting. Working collaboratively, students will execute a series of scriptwriting and direction projects of various format and lengths.

JDM 320 FEATURE WRITING 3
Prerequisite: JDM 245
A course stressing the development of effective techniques for researching and writing various forms of feature writing, including advances, entertainment reviews, columns, human interest and trend stories. The class will also analyze selected examples of feature writing from contemporary journalistic practice. Class assignments will involve a series of practical writing projects.

JDM 330 ORGANIZATION AND CORPORATE VIDEO 3
Prerequisite: JDM 232
This course covers the practices and procedures associated with producing video for organizations and corporations. Pre- and post-production, as well as field and studio production work are all addressed in a corporate training video setting. Working with clients is also a key component to the course.

JDM 331 DIGITAL MEDIA MANAGEMENT 3
Prerequisite: JDM 103
A course exploring management theories and practices as they apply to radio and television broadcast stations, cable outlets and other electronic media facilities. Course topics include station management, programming, and formats, sales, marketing and research, promotion, engineering, consultants and syndication.

| JDM 333     | DIGITAL MEDIA TECHNOLOGIES                      | 3       |
| Prerequisite: JDM 232 | This course explores more advanced and specialized video content using software-based tools. Students will go beyond basic shooting and editing and use the latest software tools to create broadcast-ready content including show opens, film trailers, graphics, and stop frame animation projects. |

| JDM 335     | BROADCAST ANNOUNCING                            | 3       |
| Prerequisite: JDM 133 | This is a course designed to improve presentation skills in the area of radio and television announcing. Students will learn proper techniques and voicing skills associated with announcing various types of radio and TV copy, including commercials, news, and sports. Assignments are written and performance based. |

| JDM 336     | BROADCAST REPORTING AND WRITING                | 3       |
| Prerequisite: JDM 245, JDM 246 | Building off the foundation built in JDM 245 and 246, students will focus on the process of gathering, writing and presenting news for broadcast. Students will gather and edit video and audio, as well as prepare web versions of their stories. Student work will air on WRDL and AUTV-20 and be posted on The Collegian website. |

| JDM 337     | ADVANCED AUDIO PRODUCTION                      | 3       |
| Prerequisite: JDM 2437 | Building from the skills learned in JDM 237, this course covers more advanced practices, procedures and techniques of audio field and studio production and post-production with emphasis on the design and construction of professional quality audio production involving complex mixture of audio techniques. Advanced non-linear soft-ware-based sound editing is also introduced. |

| JDM 342     | SPORTS JOURNALISM                              | 3       |
| Prerequisite: JDM 245, JDM 246 | This course is designed to instruct students in comprehensive news gathering and disseminating skills within the specific context of sports. Emphasis will be placed on the practices of sports reporting including game stories, interviews, features, the gathering and use of sports statistics, and the use of social media in sports journalism. Students will cover Ashland University sporting events and produce written pieces for use in The Collegian, and multi-media pieces for use on AshlandCollegian.com, WRDL-FM, and AUTV-20. |

| JDM 403     | MASS MEDIA EFFECTS                             | 3       |
| Prerequisite: Junior status | This course is an intensive study of the effects of different forms of mass media on the audiences who consume media content. Students will explore the different theories and research in this field in order to gain a better understanding of the social and cultural impact of media systems. |

| JDM 405     | THE GLOBAL IMPACT OF SOCIAL MEDIA              | 3       |
| Prerequisite: Junior status | This course will study the evolution of social media and how it has changed the way society communicates and consumes information and content on a global scale. The course will focus on the application of relevant media theories in order to better understand how social media has shaped us as individuals and restructured interpersonal and mass communication on a societal level. |

| JDM 407     | NARRATIVE JOURNALISM                           | 3       |
| Prerequisite: JDM 307 or JDM 336 | A course designed to instruct students in the development of long form narrative journalism and the study of contemporary journalism. Class assignments will involve extensive field research and the writing of in-depth, nuanced narrative stories with multimedia components accompanying. |

| JDM 412     | ADVANCED POST PRODUCTION AND EDITING           | 3       |
| Prerequisite: JDM 333 | This course covers the advanced techniques of non-linear video editing and special effect creation. It includes the creation and use of computer-generated graphics and digital video effects during the editing process. Students will produce video and web content. This course builds on skills learned in JDM 133, 232, 333. |

| JDM 436     | INTERNSHIP IN DIGITAL MEDIA                    | 3       |
| Prerequisite: Junior status | A - Digital Media Journalism. B - Digital Media Production All students enrolled in one of the majors are required to complete an internship. Students should apply the knowledge attained through their studies in a workplace similar to what they might seek after graduation. Internships can be started any time after the student’s sophomore year, must reflect the student’s area of study, and must be pre-approved by the faculty internship advisor for that major. Students must complete 100 hours of work at their internship in order to receive credit. Graded S/U. |

| JDM 437     | MULTIPLATFORM AUDIO PRODUCTION                 | 3       |
| Prerequisite: JDM 337 | This course is designed to develop an understanding of the relationship of audio production or podcasting to various related media including multimedia and broadcast. Sound design and the creation and recording of audio assets are stressed as the student develops the conceptual and practical know-how to operate as a creative producer of digital media. |

| LTN 110     | ELEMENTARY LATIN I                             | 3       |
| Prerequisite: None | An introduction to Latin grammar, vocabulary, and syntax; and through the study of the language, the culture of ancient Rome. Meets Core credit for CCI. |

| LTN 210     | ELEMENTARY LATIN II                            | 3       |
| Prerequisite: LTN 110 | A continuation of LTN 110. By the end of Latin 210, students will be beginning to read ancient Latin texts. Meets Core credit for CCI. |

| LTN 310     | INTERMEDIATE LATIN I                           | 3       |
| Prerequisite: LTN 210 | This course reviews and confirms knowledge of grammar, syntax, and vocabulary while also introducing students to Latin authors such as Horace, Cicero, Catullus, or Vergil, through which students will deepen their knowledge of the life, culture, and politics of ancient Rome. |

| MATH 100    | DEVELOPMENTAL MATHEMATICS                      | 3       |
| Prerequisite: None | Designed to prepare students for courses having a prerequisite of one year of high school algebra. Students are placed in the course by ACT/SAT scores and high school records. This course is not open to a student with grade C or higher in any of the courses below. May not be applied to any mathematics/science requirement for graduation. Course will be graded A,B,C (with pluses or minuses) or U. If a U is earned, |
course must be repeated.

MATH 110  FINITE MATHEMATICS  3
Prerequisite: Two years of high school algebra
Covers some topics of modern mathematics including principles of counting, probability, matrices, linear programming, and mathematics of finance with applications to biology, business, economics, and other social sciences. Meets Core credit for math/logic.

MATH 111  PRECALCULUS  3
Prerequisite: Two years of high school algebra
A study of functions, functional notation, trigonometric functions, logarithmic and exponential functions. Preparation for calculus.

MATH 201-202  CALCULUS WITH APPLICATIONS TO MANAGEMENT, LIFE, AND SOCIAL SCIENCE I-II  3-3
Prerequisite: Two years of high school algebra; one year of high school geometry; MATH 201 is a prerequisite for MATH 202
Functions, limits, techniques of differentiation and integration, with applications in the natural, social and management sciences. Does not count toward a major in mathematics. 201 meets Core credit for math/logic.

MATH 205  THE CALCULUS I  5
Prerequisite: MATH 111 or equivalent
This is the first course in the Calculus sequence for science and math majors. The focus is on theory and techniques for limits, derivatives, antiderivatives and definite integrals, and their applications. Meets Core credit for math/logic.

MATH 206  THE CALCULUS II  5
Prerequisite: MATH 205
This is the second course in the Calculus sequence for science and math majors. The focus is on transcendental functions and their applications, techniques of integration, indeterminate forms and improper integrals, and an introduction to infinite sequences and series.

MATH 208  ELEMENTARY STATISTICS  3
Prerequisite: Math ACT score of 18 or above or math SAT score of 480 or above, or MATH 100
An introductory course designed to meet the needs of students in biology, business, economics, education, nursing, psychology, and sociology. Sample and theoretical frequency distributions, data dispersion and central tendency, estimation, hypothesis testing, correlation, and analysis of variance are topics studied. Meets Core credit for math/logic.

MATH 217  THEORY OF ARITHMETIC AND GEOMETRY  3
Prerequisite: Math ACT score of 18 or above or math SAT score of 480 or above, or MATH 100
A study of the mathematical theories and concepts underlying intermediate arithmetic and geometry. Topics include number theory, number systems, elementary probability, geometry, estimation, mathematical reasoning, problem solving, and communication. The course will emphasize the use of group work and manipulatives. Meets Core credit for math/logic.

MATH 218  GEOMETRY FOR MIDDLE GRADES TEACHERS  3
Prerequisite: MATH 217
A study of mathematical concepts and procedures for teaching in the middle schools. Topics include knowledge of the NCTM Standards, 3-dimensional geometry, axiomatic systems, experimental probability, algebra, algorithmic techniques, and technology. Emphasis on group work and manipulatives.

MATH 223  DISCRETE MATHEMATICS I  3
Prerequisite: Three years high school college prep math
An introduction to set theory, logic, relations, functions, sequences, algorithms, number theory, and combinatorics. Meets Core credit for math/logic.

MATH 224  DISCRETE MATHEMATICS II  3
Prerequisite: MATH 223
A continuation of Math 223. A further exploration of foundational discrete structures and their applications to computer science. Topics include recurrence relations, graph theory, tree structures, and network models.

MATH 250  MATHEMATICAL PROOF  1
Prerequisite: MATH 223
An introduction to the elements of mathematical proofs. Various forms and techniques of writing mathematical proofs are covered.

MATH 305  THE CALCULUS III  4
Prerequisite: MATH 206
A study of infinite series, power series, solid analytical geometry, and multivariate calculus.

MATH 307  LINEAR ALGEBRA  3
Prerequisite: MATH 202, MATH 206 or MATH 224
A study of vector spaces, linear transformations, determinants, and matrices.

MATH 308  OPERATIONS RESEARCH  3
Prerequisite: MATH 224
An introduction to the theory and computer assisted solution of problems in operations research, such as Markov chains, replacement models, inventory models, queuing theory, linear programming, and transportation models.

MATH 309  HISTORY OF MATHEMATICS  3
Prerequisite: MATH 223, MATH 202, or MATH 206
A survey of the historical development of mathematics through the calculus, together with problems appropriate to the topics and period being studied.

MATH 311  MODERN GEOMETRY  3
Prerequisite: MATH 206, MATH 223, MATH 250
A study of fundamental geometric properties such as straightness, symmetry, congruency, and parallelism as they exist in planes and other surfaces.

MATH 313  ELEMENTARY DIFFERENTIAL EQUATIONS  3
Prerequisite: MATH 305
An introductory course in elementary differential equations with applications to geometry, chemistry, physics, and the life and social sciences. Some topics include exactness, Bernoulli’s equations, differential operators, and Laplace transform.

MATH 317  PROBABILITY  3
Prerequisite: MATH 223, MATH 250, MATH 202 or MATH 206
A study of the fundamental concepts of probability theory, discrete and continuous probability functions, independence, conditional probability, Bayes’ theorem, joint densities, and mathematical expectations.

MATH 318  MATHEMATICS OF STATISTICS  3
Prerequisite: MATH 250, MATH 305, and MATH 317
Introduction to the theory and applications of mathematical statistics, moment generating functions, central limit theorem, estimation, and hypothesis testing.
### MATH 319 NUMBER THEORY 3
**Prerequisite:** MATH 206, MATH 223, and MATH 250; CS 121 recommended

An introductory course in the fundamentals of number theory. Emphasis on proof techniques, Euclidean algorithm, primes, congruences, continued fractions, and Euler Phi function, with applications to computer science, cryptography, and mathematics education.

### MATH 320 FINANCIAL MATHEMATICS 3
**Prerequisite:** MATH 223, MATH 305

Introduction to the fundamental concepts of financial mathematics, and how these concepts are applied in calculating present and accumulated values for various streams of cash flows as a basis for future use in: reserving, valuation, pricing, asset/liability management, investment income, capital budgeting, and valuing contingent cash flows. The course content is based on the syllabus for the Society of Actuaries (SOA) professional Exam FM. Financial Mathematics.

### MATH 341 APPLIED REGRESSION ANALYSIS 3
**Prerequisite:** MATH 208 or MATH 318

The student will learn to execute three major steps in the data analysis process: to identify the appropriate statistical technique for a given research problem; to conduct analyses (one-sample, dependent-samples, and independent-samples t tests, one-way ANOVA, two-way ANOVA, simple regression and correlation, multiple regression, chi-square tests, discriminant analysis, factor analysis, and multivariate analyses) using statistical software (such as SPSS or R); and to interpret the statistical values generated by these various analytical tools.

### MATH 415 INTRODUCTION TO MODERN ALGEBRA 3
**Prerequisite:** MATH 223, MATH 250, and MATH 307

An introduction to abstract algebraic systems through the study of groups, rings, and fields.

### MATH 417 INTRODUCTION TO ANALYSIS 3
**Prerequisite:** MATH 250 and MATH 305

The real number system, indeterminate forms, partial differentiation, through this course are reasoning and problem solving skills as opposed to memorization.

### MATH 450 SEMINAR 1
**Prerequisite:** Junior or Senior math/integrated math/actuarial science minors and majors

Various topics in mathematics will be investigated. Content will vary depending upon the interests and needs of the students. Students, invited speakers, and faculty will present topics. May be repeated for a total of 4 hours.

### MATH 470 SPECIAL TOPICS IN MATHEMATICS 1-3
**Prerequisite:** MATH 305 or MATH 307

A course devoted to various topics of mathematical interest. May be repeated for credit as topics change.

### MATH 511 MODERN GEOMETRY 3
**Prerequisite:**

A study of fundamental geometric properties such as straightness, symmetry, congruency, and parallelism as they exist in planes and other surfaces.

### MATH 514 NUMERICAL ANALYSIS 3
**Prerequisite:**

### MATH 517 PROBABILITY 3
**Prerequisite:**

A study of the fundamental concepts of probability theory, discrete and continuous probability functions, independence, conditional probability, Bayes' theorem, joint densities, and mathematical expectations.

### MATH 518 MATHEMATICAL STATISTICS 3
**Prerequisite:**

Introduction to the theory and applications of mathematical statistics, moment generating functions, central limit theorem, estimation, and hypothesis testing.

### MATH 615 INTRO TO MODERN ALGEBRA 3
**Prerequisite:**

An introduction to abstract algebraic systems through the study of groups, rings, and fields.

### MBA 501 ORGANIZATIONAL DESIGN, DEVELOPMENT, AND CHANGE MANAGEMENT 3
**Prerequisite:**

This course explores the theories and concepts managers can apply on their own or in collaboration with an OD consultant, to drive effective change management initiatives within their departments or organizations. The course examines how to create and enact positive change in business at the systems level by understanding the elements of organizational design as well as theories and models pertinent to organizational change. The course focuses on large-scale OD interventions as well as strategies and tactics managers can employ to plan, enact, and monitor change within their spheres of influence. Topics covered in this course include understanding the fundamentals of organizational design; systems thinking and its impact on the change process; defining OD and the dynamics of change in relationship to organizational culture; exploring core OD values in the content of globalization; various OD interventions used at the individual, group and organizational levels; and key issues managers should weigh to initiate and successfully manage change processes within their organizations.

### MBA 502 MANAGERIAL ECONOMICS 3
**Prerequisite:**

Managerial economics instructs managers on the economic approach to management. This course stresses three areas of management decision making: allocative, controlling behavior, and profit analysis. Central to any organization's functioning is the allocation of resources to competing ends for the purpose of accomplishing a final goal. Managerial economics teaches the logic of this process using the classical optimization vocabulary of resource, constraint, competing ends, accounting prices, economic prices, final goal, and choice. Humans, being a highly social species with a high-level consciousness, want to describe, explain, control, and predict behavior. Any human organization, if it is to be successful, requires behavioral technologies to deal with its own members and outsiders. Managerial economics teaches the rational actor's approach to describing, explaining, controlling, and predicting behavior. Finally, the sine qua non of a capitalistic business is profit. Yet few managers appreciate the constellation of variables that determines it. Managerial economics employs a profit model that allows managers to see the connections among demand, resource prices, technology, quantities of fixed input, a product's price, a firm's capacity utilization rate, and profit. Emphasized throughout this course are reasoning and problem solving skills as opposed to memorization.
MBA 503 OPERATIONS MANAGEMENT 3
Prerequisite: MBA 500H Quantitative and Statistical Methods or equivalent
The study of concepts relating to the operations function in both manufacturing and service organizations that is responsible for planning, organizing and controlling resources in order to efficiently and effectively produce goods and provide services and meet the goals of the organization. Quantitative tools of analysis used to support decision making in the various operations management activities will be surveyed, and case analysis will be employed to relate theory to practice.

MBA 504 BUSINESS STATISTICS 3
Prerequisite: MBA 500H Quantitative and Statistical Methods or undergraduate statistics course
Included in this course are the topics of descriptive statistics, sampling procedures, hypotheses testing, statistical quality control charting, confidence limits, analysis of variance, chi-square tests, and simple and multiple regression. These concepts are related to business decisions and form the basis for data analysis and model building encountered in other MBA courses.

MBA 505 FINANCIAL MANAGEMENT 3
Prerequisite: MBA 500B Accounting, and MBA 500F Finance or equivalent
Financial planning and control for the financial and the nonfinancial executive, including decisions of investment, growth and expansion strategies, dividend policy, and capital structure. Analysis of principles leading to decisions in management of current assets, fixed assets, debt, equity and capital. Emphasis is on decision making based on quantitative analysis.

MBA 506 BUSINESS AND SOCIETY 3
Prerequisite:
A study of the ethical, moral and legal responsibilities of the manager in the business world. Ethical theory as applied to situations will be presented for discussion. General government regulation, whether federal, state, or local laws will be stressed as it relates to the business enterprise. The relationship of the manager and the rights of various stakeholders are identified, with legal theory serving as the basis of such study.

MBA 507 MARKETING MANAGEMENT 3
Prerequisite: MBA 500E Marketing or equivalent
This course deals with proactive marketing topics - strategic market planning, interactive marketing, innovation and creativity, customer satisfaction and research as well as the more traditional 4Ps of marketing: product, place, price and promotion. Attention is given to the development of conceptual and analytical thinking, oral and written communications, and interpersonal and team management skills.

MBA 509 INTERNATIONAL BUSINESS MANAGEMENT 3
Prerequisite:
This course deals with international/global business as an element of operational, functional, and environmental variables and patterns of behavior of the corporation. Intra-corporate research and analysis dealing within the corporation to determine the ability to successfully compete in a foreign market will also be examined. The firm's competitive advantages, anatomy, goals and objectives, internal resources, priorities, and a general framework will be studied. This segment will also examine the techniques of the industry and competitive analysis. Additionally, the course will deal with inter-corporate research and analysis of those variables and conditions outside the control of the firm.

MBA 510 ORGANIZATIONAL BEHAVIOR 3
Prerequisite: MBA 500A Business Organization or equivalent
A conceptual understanding of the complexities of human behavior human behavior is essential for the success of any manager. This course seeks to enhance student knowledge concerning the behavior of individuals and groups in an organizational setting through the use of research perspective, and to guide the application of conceptual organizational behavior knowledge to managerial problems. The topics covered in the course include learning, perception, job attitudes, work motivation, leadership, decision making and various group dynamics and processes.

MBA 511 MANAGERIAL ACCOUNTING 3
Prerequisite: MBA 500B Accounting or equivalent
The study and evaluation of accounting information relevant to internal management decisions. Topics include cost behavior concepts, product costing, cost-volume-profit analysis, budgeting, variance analysis, and performance measurement.

MBA 513 MANAGEMENT INFORMATION SYSTEMS 3
Prerequisite:
A Management Information System (MIS) is a set of systems and activities used to provide managers with information needed to support planning and decision making. Effective and efficient use of a firm's information resources are facilitated by computer-based storage, manipulation, retrieval, analysis, and presentation of relevant information in a timely fashion. This course provides a basic perspective on the design, development, implementation, utilization, and administration of computer-based information systems. Topics covered include systems analysis and design; decision support systems; artificial intelligence including expert systems, fuzzy logic and neural networks; end-user computing; telecommunications including the internet; and the application of information systems to a firm's competitive strategy.

MBA 514 SPECIAL TOPICS IN BUSINESS 3
Prerequisite:
This course will explore an area of interest to the student that is current and builds upon an existing course in the program. Topics of offerings may include, but are not limited to, leadership, emerging markets in the global arena, human resource issues, information management, e-commerce, entrepreneurship, project management, investment and global finance. Any special topics course can be applied as an elective course in Phase III. If a course topic is related to an MBA specialization, a student can petition the appropriate department chair to approve a course substitution for that specialization.

MBA 516 MBA SEMINARS 1
Prerequisite:
The purpose of these seminars is to provide MBA graduates, active students and prospective students the opportunity to broaden their knowledge of current issues in business. These courses will be presented in seminar format, such as all day Friday and Saturday morning sessions, taught by educators as well as business professionals. Some seminars may feature a keynote speaker at either a luncheon or dinner included in the seminar. The prerequisites required for a specified seminar would depend upon the detail and rigor of the topic. Students may apply credit from a maximum of three of these seminars as a substitution for only one MBA course.

MBA 517 STRATEGIC PLANNING AND POLICY 3
Prerequisite: Twenty-four (24) semester hours of business core courses
The capstone course stresses how to implement contemporary tools and techniques successfully in developing strategic initiatives for an organization. The student will learn the importance of the strategic management process and its value in creating competitive advantage. The course will demonstrate how high-performing enterprises often initiate and lead trailblazing strategies in their industry. Also the capstone course employs the functional areas students learned from previous courses in the MBA program. There is a strong emphasis on utilizing business cases which will help the student to develop strategic offensive and defensive initiatives during their case presentation.
MBA 530 FOUNDATIONS PROJECT MANAGEMENT 3

Prerequisite:
This course provides an overview of the methods and processes of modern project management. Topics covered include project scope, time, cost, risk, communications, quality, human resource, integration, and procurement management. It will also cover common project management tools like precedence diagramming, developing a work breakdown structure, risk analysis, and earned value analysis.

MBA 531 INCREASING ORGANIZATIONAL CAPACITY IN PROJECT MANAGEMENT 3

Prerequisite:
This course provides an overview of the strategies and tools necessary for the development of effective, long-lasting organizational capacity in project management. Topics covered include project management, skill development, related skills, and organizational arrangements for effective project management, organizational learning, project management communities of practice, effective processes and tools for project management, and building the business case for project management initiatives.

MBA 533 ADVANCED TOPICS IN COMMUNICATIONS FOR PROJECT MANAGERS 3

Prerequisite:
This course introduces students to advanced communications methods and techniques of use to project managers. It explores the challenges of communications, including requirements definition and conflict management, in the project context and allows students to develop skills that they can use as they manage their projects. Topics covered include communications models, conflict models, positional versus interest-based conflict management methods, and the application of conflict management tools and techniques.

MBA 535 SYSTEMS ANALYSIS AND DESIGN 3

Prerequisite:
This course is designed for those who want to equip themselves with business systems analysis and design skills, which is a specific category of information systems dealing with methodologies and procedures to analyze business needs in evaluation existing and proposed systems. The course will examine the life cycle of an information system from initial business problem through system development, implementation, and maintenance. Students will follow the development of various systems stems through the use of select business cases. This course will address issues important to managers when considering the big picture of providing the right information to the right person in the right format at the right time.

MBA 541 BUSINESS INFORMATION SYSTEMS FOR THE SMALL BUSINESS 3

Prerequisite:
This course will examine business information systems as they relate to small businesses. It will examine the various cycles of a small business-revenue cycle, purchase cycle, human resources, financial statement preparation, and the information which needs to be obtained to accurately report on these cycles. This course will identify the core concepts of small business information systems and the information requirements which should be included in those systems.

MBA 542 BUSINESS TAX PLANNING 3

Prerequisite:
A study of federal income tax law applied to various business entities, including sole proprietorships, C corporations, S corporations and partnerships, as well as to individual business owners.

MBA 543 ENTREPRENEURIAL LAW 3

Prerequisite:
This course will study the legal implications involved in the creation or acquisition of a business opportunity. Topics will include contractual arrangements, employment agreements, entity selection and tax implications thereof, liability for the owner/operator, and business continuation/termination. This course will integrate the legal considerations into a structured business plan.

MBA 544 SMALL BUSINESS MANAGEMENT 3

Prerequisite:
Management theory generally considers the application of organizational strategies and tactics from a macro point of view. Complications arise in applying many theories to the small venture, where capital, labor, marketing, and many other traits of a smaller business present different perspectives. With limited resources, the small business manager/owner must be able to sustain performance, grow and broaden its mix of goods and services and develop management and leadership styles commensurate with the pace of the opportunity.

MBA 545 BUSINESS INTELLIGENCE AND DATA ANALYTICS 3

Prerequisite:
In today's competitive environment it has become imperative for business to analyze, understand, and interpret Big Data. This course is designed for those who want to equip themselves with business analytical and intelligence (BI) skills, which is a broad category of analytical techniques, technologies, and applications for gathering, storing, accessing, and analyzing data to help users make better business decisions. Business Intelligence requires foundation knowledge of data storage and retrieval. For this, the course also covers fundamentals of database management in terms of data modeling, the entity relationship model, and Structured Query Language (SQL). The course will also address ethical issues and considerations in management of data. Although several commercial and open-source tools used for data analytics will be examined, the primary concepts will be illustrated using SAS Enterprise Miner.

MBA 546 BUSINESS ANALYTICS I 3

Prerequisite:
Business Analytics 1 teaches the basic skills, applications, and practices necessary for continuous exploration and investigation of organizational data. Based on statistical methods, business analytics searches for new insights and understanding of organizational performance. Business Analytics 1 presents the logical process of conducting statistical analytics project. Topic coverage includes descriptive and inferential statistics. Students are encouraged to analyze data relevant to their job.

MBA 547 BUSINESS ANALYTICS II 3

Prerequisite: MBA 546

Based primarily on multiple regression techniques, Business Analytics 2 searches for new insights and understanding of organizational performance. Business Analytics 2 presents the logical process of conducting a regression project. Topic coverage includes multiple linear regression techniques for quantitative and categorical cross sectional data, logistic regression, diagnostic techniques for detection of violations of model assumptions with recommended corrective actions, and methods for model selection. Additional topics include dealing with missing data, data reduction techniques, decision tree analysis, neural networks, and data mining. Emphasis is on using computer software to estimate models and reporting on the output from computer software, rather than theoretical statistical properties. Students are encouraged to analyze data related to their job if possible.

MBA 548 ANALYTICAL MODELING FOR DECISION MAKING 3

Prerequisite: MBA 546 or MBA 500H, or equiv.

Analytical modeling is the important tool used in business analytics to improve an organization's ability to enact rational and meaningful management decisions. This class will expose students to the use of optimization and simulation models to assist in decision-making in a variety of business applications, including production, logistics, marketing, accounting and finance. Topics covered include linear/nonlinear optimization, simulation, and decision analysis. A strong emphasis on case studies and experiential learning will be used throughout the course, in order to give students practical experience
with the tools. Students will develop and apply optimization and emulatation models using Microsoft Excel and Excel’s add-in, solver

**MBA 550 FUNDAMENTS OF HUMAN RESOURCE MANAGEMENT**

*Prerequisite:*
This course is designed to provide an in-depth examination of the issues facing the manager and his or her employees. Through text readings, case studies, experiential exercises, internet activities and research, MBA students will learn to integrate theory and application in managing Human Resources effectively in their organization.

**MBA 551 LABOR RELATIONS AND COLLECTIVE BARGAINING**

*Prerequisite:*
This course surveys the current field of employee-employer relations, with particular attention to union-management relations. It provides a historical perspective of the social, economic and legal factors influencing the development of unions and union-management relationships. The primary focus is the current legal framework and organizational collective bargaining in the United States. The bargaining process and negotiations are explored in the private and the public sector. The course examines many aspects of unions and the process of certifying and decertifying unions.

**MBA 552 TRAINING AND DEVELOPMENT**

*Prerequisite:*
This course is designed to familiarize you with the roles and practices of training and development in organizations. The overarching objective is to enable each student to learn how to assess, develop, execute and evaluate a training program. To reach this objective, we will review academic and practitioner oriented research in the field of training and development. This would include some basic concepts of training such as motivation and learning theory, needs assessment and evaluation of training programs. Different types of training programs will be examined, including orientation, skills training, team building, management development, organizational development, and multicultural and diversity training.

**MBA 553 COMPENSATION AND BENEFITS**

*Prerequisite:*
This course surveys both the theories behind employee reward, including basic compensation and the basis therefor, as well as additional employee benefits provided by the company. Developing an effective and efficient system of compensation for labor and benefits created should be a principal goal of the cost-conscious organization. Consideration is made for discriminatory pay that may significantly play into the manager’s response to wage concerns. The course examines both processes of employee performance appraisal and administration of benefits.

**MBA 560 INVESTMENTS**

*Prerequisite:*
This course is designed to improve students understanding of the fundamentals of money and capital markets and how it relates to personal investing. During this course we will discuss stocks, bonds, and mutual funds. Students will gain a better understanding of equity and income security pricing models. Construction of an investment portfolio will also be developed. This course will require students to develop their own investment strategies through the management of a group of investments.

**MBA 561 EMERGING FINANCIAL MARKETS**

*Prerequisite:*
This course focuses on the characteristics of financial markets, instruments, and practices in transition economies where economic liberalization and financial deregulation have recently been implemented as a strategic response to globalization.

**MBA 562 GLOBAL FINANCE**

*Prerequisite:*
This course focuses on the risks involved in financial operations in a global setting and identifies the techniques required in measuring and minimizing those risks. Topics in multinational finance, foreign exchange, risk management and financing the foreign operations are emphasized.

**MBA 564 FINANCIAL MARKETS TOUR (CHICAGO OR NEW YORK CITY)**

*Prerequisite:*
This course is to help the MBA student understand the different vehicles and instruments available for the investor and how they are traded, purchased and sold, in the market place. It is designed to emphasize the institutions that create markets for investment purpose. This course will culminate in a tour to Chicago/New York to visit financial districts.

**MBA 567 MULTINATIONAL MANAGEMENT**

*Prerequisite:*
This course focuses on management tasks confronting managers operating in a transnational environment presented from an operational perspective, alternatives for overall corporate policy and development of a global strategy.

**MBA 568 INTERNATIONAL BUSINESS STUDY TOUR**

*Prerequisite:*
This course integrates class theory with practical observation of the global market activity today’s manager may experience. Students will have an opportunity to visit and interact with foreign business managers, financial markets, government representatives and other cultural events that will provide the student with a better understanding of the intricacies when working in an international setting.

**MBA 570 SUPPLY CHAIN MANAGEMENT**

*Prerequisite:*
This course will introduce the student to the fundamentals of Supply Chain Management systems. The student will demonstrate knowledge in topics such as purchasing, logistics, operations, and system development.

**MBA 571 LOGISTICS AND PROCUREMENT**

*Prerequisite:*
This course will introduce the student to the basic principles of Logistics and Procurement. The course will focus on information, warehousing, and transportation mode requirements necessary for the development of a comprehensive logistics system. It will introduce the student to the basic principles of Procurement by focusing on the purchasing process and structure, as well as, supplier evaluation.

**MBA 572 SUPPLY CHAIN STRATEGY**

*Prerequisite:*
This course will introduce the student to the basic principles of Supply Chain Strategy. The course will focus on the integration of the warehousing, inventory, and transportation requirements to form an operational Supply Chain Strategy.

**MBA 575 THE HEALTH CARE ORGANIZATION**

*Prerequisite: None*
This course provides a comprehensive overview of the health care system in the United States by examining the various components that collectively define the health care industry. The course will enable the student to develop a global understanding of health care management and leadership.
MBAF 500E  MARKETING  3

Prerequisite:
This course is the integration of product, distribution, communication and price policies into a comprehensive marketing plan. An emphasis will be on strategic planning and tactical execution of key marketing mix variables as they relate to establishing and maintaining a differential advantage in an era of global competition and a fragmenting marketplace.

MBAF 500F  FINANCE  3

Prerequisite:
This course introduces the student to finance terminology, types of financial instruments, and the role of financial planning in the corporate setting.

MBAF 500G  INFORMATION TECHNOLOGY  3

Prerequisite:
This course is designed to develop the student's basic skills in the use of information technology, including spreadsheets, presentation graphics, and the Internet.

MBAF 500H  QUANTITATIVE AND STATISTICAL METHODS  3

Prerequisite:
This course is designed to develop the student's quantitative and statistical knowledge to a level required to perform the mathematical and statistical operations contained in MBA 503 Operations Management, and MBA 504 Business Statistics.

MBAF 500I  PROFESSIONAL INTERNSHIP  0

Prerequisite:
Master of Business Administration students on an F or J visa will be required to obtain part-time work experience in the United States and must begin this process during their first semester and complete the Required Work Experience Evaluation. Authorization for employment from U.S.C.I.S. must be obtained through the International Student Services office before beginning any employment off campus. Please see www.ashland.edu/iss for more details.

MULTIDISCIPLINARY STUDIES (MDS)

MDS 490  MULTIDISCIPLINARY CAPSTONE EXPERIENCE  3

Prerequisite:
This capstone experience requires students completing a multidisciplinary major to produce a written reflection that summarizes the characteristics that distinguish each of their cognate areas and to identify important concepts, skills, and values they have acquired throughout their program of study. Students will also work with a faculty mentor to apply their learning through an internship and/or appropriate project that involves gathering and presenting information from multiple sources.

MANAGEMENT (MGT)

MGT 100  CONTEMPORARY BUSINESS  3

Prerequisite: None
The purpose of this course is to introduce the student to the organization and operation of the basic product- and service-producing institutions in our society-business firms-and the economic environment in which these businesses make decisions.

MGT 240  INTRODUCTION TO MANAGEMENT  3

Prerequisite: None
A survey course which aims to familiarize students with accepted management theory as well as contemporary thinking that might challenge the assumption forming the foundation of traditional management practices. Students will learn the management functions of planning, organizing, leading and controlling in the context of a changing global environment and explore ethical issues facing managers working with today's diverse workforce.

MGT 307  ORGANIZATIONAL THEORY & DESIGN  3

Prerequisite: MGT 240
An advanced macro approach to business organizational studies with a
MGT 318  ORGANIZATIONAL BEHAVIOR  3  
Prerequisite: MGT 240  
A human relations approach to personnel selection and development, human engineering and motivation, supervision and work efficiency, individual and group behavior in business organizations, evaluation and testing, organizational development and control.

MGT 319  OPERATIONS MANAGEMENT  3  
Prerequisite: MGT 240 and MATH 208  
This is an introduction to the operations function. A study of modern theory and practice relating to the operations function in both manufacturing and service organizations. Quantitative management tools will be surveyed.

MGT 323  BUSINESS COMMUNICATION  3  
Prerequisite: ENG 102  
Upon completion of the course, the student will be able to communicate effectively in the business world. This will be demonstrated by actual business situations involving sales, goodwill, routine requests, unpleasant news, credit and collections, resumes and cover letters, follow-up letters and interviewing techniques. For sophomores and juniors.

MGT 324  HUMAN RESOURCE MANAGEMENT  3  
Prerequisite: MGT 307, MGT 318  
The basic function of management as applied to personnel problems of a business organization. Consideration given to special problems of employment, health, safety, labor relations and morale, employee education and training, wages and salaries.

MGT 325  INTERPERSONAL COMMUNICATION  FOR BUSINESS  3  
Prerequisite: MGT 318 and MGT 323  
Students will investigate and practice a variety of communication techniques in face-to-face situations as they arise in the relationship between supervisors and their subordinates. Orientation will be toward communication objectives and methods needed to effectively manage a productive enterprise or project.

MGT 327  RISK AND INSURANCE  3  
Prerequisite: ECON 232, ECON 233, MATH 208  
Economic theory of risk, its significance and treatment; theory and practice of property, liability, life and health insurance.

MGT 340  MANAGEMENT SCIENCE  3  
Prerequisite: IS 221, MATH 208  
A survey of techniques of management science, an approach to managerial decision making that involves the use of quantitative tools of analysis. Topics covered will include linear programming, queuing models, simulation, decision analysis, and networking models for project management.

MGT 343  SOCIAL RESPONSIBILITY AND BUSINESS ETHICS  3  
Prerequisite: MGT 240  
A study of the moral, ethical and social roles of enterprise. Working from a historical perspective, the changing patterns of values and normative models of behavior tolerated, expected or required by society will be explored. Contributions from other disciplines will be utilized.

MGT 401  BUSINESS LAW I  3  
Prerequisite: Junior status  
Introduces the business student to the legal principles involved with contract law, real property, personal property, bailment law and agency law.

MGT 402  BUSINESS LAW II  3  
Prerequisite: MGT 401  
An in-depth examination of particular legal principles including, but not limited to, the Uniform Commercial Code, labor and other employment law, consumer protection, product liability law and administrative agency law.

MGT 423  COMPENSATION AND BENEFITS  3  
Prerequisite: MGT 324  
This course is an introduction to the use, design, and effectiveness of strategic compensation and reward programs within an organization. A systematic approach will be utilized in investigating organizational and employee behavior, practices, and legal constraints in designing/implementing compensation and benefit programs.

MGT 424  TRAINING & DEVELOPMENT  3  
Prerequisite: MGT 324  
This course is an introduction to training and development in organizations. Students will have the opportunity to analyze, assess, design, plan, and evaluate training programs. The course will examine the process of assembling and delivering a training program. This includes assessment of training needs and the evaluation of training programs within the context of organization and global markets.

MGT 425  EMPLOYMENT LAW & LABOR RELATIONS  3  
Prerequisite: MGT 324  
A comprehensive course designed to investigate employment law, employee and labor relations and their resulting impacts in organizations. It introduces employment law examining the application of statutes and case law. This course studies the evolution of U.S. employment laws, labor unions, bargaining techniques, contract administration, with emerging issues in the U.S. and globally.

MGT 450  SPECIAL TOPICS FOR MANAGEMENT  1-3  
Prerequisite: Senior status  
A course devoted to various topics of current management issues. May be repeated once for different topics with approval of management faculty.

MGT 480  GLOBAL MANAGEMENT  3  
Prerequisite: MGT 240, Senior status  
The course deals with the strategic management of multinational/transnational corporations, focusing on the international environment, competitive strategy formulation, implementation and control along with MNC organization design and structure. Figuring prominently in the course will be comparative management issues related to managing in different international settings, particularly issues that relate to increasing firm competitiveness in the global context.

MGT 489  SENIOR SEMINAR-BUSINESS CAPSTONE  3  
Prerequisite: COBE major and senior status  
This interdisciplinary course integrates content from a variety of disciplines, including business and economics. Students will examine multiple objectives, synthesize concepts, identify problems, analyze and evaluate alternate solutions, and put knowledge into practice.

MGT 499  SENIOR ASSESSMENT  3  
Prerequisite: COBE major and senior status  
The student earning a business degree is required to demonstrate competence in the areas of specialized business knowledge, managerial thinking, and verbal and written communication skills. In this course, the student will create an electronic portfolio to demonstrate levels of competence in these three major categories. In addition, the student may include documentation of competencies and accomplishments specifically related to their majors and/or minors.
MARKETING (MKT)

MKT 233  PRINCIPLES OF MARKETING  3  
Prerequisite: None  
This course outlines the essential concepts, principles and terminology required to understand basic marketing. Materials will deal with the areas of promotion, distribution, product development, the general marketing environment and information sources for marketing decisions.

MKT 310  INTERNATIONAL BUSINESS/CULTURE  3  
Prerequisite: None  
Treats the interrelationship of the cultures of other nations with that of the U.S. within a business setting. The first half of the course focuses on cross-cultural relations, using role-playing and cross-cultural awareness games. The second half focuses on the impact of culture on international and multi-national business, including such subjects as bribery, morality, and people-relations.

MKT 311  MARKET ANALYSIS AND RESEARCH  3  
Prerequisite: IS 221, MKT 233, and MATH 208  
Students will be exposed to the research process with a focus on the analysis of the data provided through this process. Topics covered will include investigation into market stratification, validation of data and statistical analysis and significance of data.

MKT 313  SALESMANSHIP  3  
Prerequisite: MKT 233  
Techniques of effective selling, the psychological marketing and economic elements of the salesman's job. Designed for students in all fields, as well as for those majoring in marketing and commercial education.

MKT 314  ADVERTISING PRINCIPLES  3  
Prerequisite: MKT 233  
A course in the general principles of advertising and sales promotion as applied to the sale of goods and services. A study of advertising agencies, advertising departments, copy, layouts, illustration and media and advertising research.

MKT 315  RETAIL MERCHANDISING  3  
Prerequisite: MKT 233  
A study of the operation and management of retail establishments, including detailed consideration of problems in store policies, organizations, location, services, buying, sales systems and records.

MKT 317  INTERNATIONAL MARKETING  3  
Prerequisite: MKT 233  
The integration of the basic elements of marketing into the international marketing system. The application of marketing strategies into the global market, creating an international business entity and arranging all elements of the business to compete globally.

MKT 326  CONSUMER BEHAVIOR  3  
Prerequisite: See Psych 306 for course description.

MKT 333  SERVICES MARKETING  3  
Prerequisite: MKT 233  
Prepresents the concepts that differentiate the marketing of services from the marketing of products. Topics for discussion include the services marketing mix, customer retention, and service quality.

MKT 411  MARKETING MANAGEMENT  3  
Prerequisite: Senior Status  
A study of the factors involved in the management of the marketing function. Focus is on the achievement of the firm's goals through product development, promotion, pricing and physical distribution. The marketing structure is studied as a system within the competitive market economy.

MKT 451  SPECIAL TOPICS IN MARKETING  3  
Prerequisite: Senior Status  
A course devoted to various topics related to current issues in marketing. May be repeated once for different topics with approval of marketing faculty.

MUSIC (MUSIC)

MUSIC 010A  UNIVERSITY BAND-MARCHING  1  
Prerequisite: None  
Marching Band meets in the fall semester only. Membership is open to students from all majors. The band appears at all home football games, selected campus and community events, and a selected away game or marching exhibition. The ability to play a wind or percussion instrument or ability to be part of the auxiliary units (color guard or feature twirler) is a prerequisite. Auxiliary members must audition. Major ensemble. No audition is required.

MUSIC 010B-C  UNIVERSITY BAND-SYMPHONIC  .5-1  
Prerequisite: Audition  
Symphonic Band meets in the late fall semester and in the spring semester. Membership is open to students of all majors. This ensemble stresses a high level of artistry and membership and is intended to be an active medium for the study and performance of fine literature for the modern band. For music majors, it also provides the opportunity to observe rehearsal techniques and to reinforce and synthesize other aspects of their musical study. The ability to play a wind or percussion instrument is a prerequisite. Major ensemble.

MUSIC 011  BRASS ENSEMBLE  .5  
Prerequisite: Audition  
Students will study, practice, and perform brass chamber music.

MUSIC 012  WOODWIND ENSEMBLE  .5  
Prerequisite: Audition  
Students will study, practice, and perform woodwind chamber music.

MUSIC 013  PERCUSSION ENSEMBLE  .5  
Prerequisite: Audition  
Students will study, practice, and perform percussion ensemble music.

MUSIC 014  JAZZ ENSEMBLE  1  
Prerequisite: Audition  
Students will study, practice, and perform jazz music in the big band idiom at their highest potential. In addition to campus performances, there will be concerts and tours off campus.

MUSIC 015  JAZZ COMBO  .5  
Prerequisite: Audition  
Students will study, practice, and perform jazz music with emphasis on improvisation.

MUSIC 020  WOMEN'S CHORUS  .5  
Prerequisite: Audition  
Promotes healthy vocalization, musical literacy and artistic development through choral music for treble voices.
MUSIC 022 UNIVERSITY CHOIR 1
Prerequisite: Audition
Allows students to rehearse, learn, and perform music suitable for the choral medium to a high degree of artistic excellence. Major ensemble.

MUSIC 030 CHAMBER SINGERS .5
Prerequisite: Audition
Allows students to rehearse, learn, and perform music suitable for vocal chamber ensembles to a high degree of artistic excellence. In the fall semester, the focus is usually on a traditional Renaissance Madrigal Feaste.

MUSIC 031 OPERA WORKSHOP .5
Prerequisite: Audition
Students will rehearse, learn, and perform operatic literature resulting in a staged and costumed production at the end of the semester.

MUSIC 040 ORCHESTRA .5
Prerequisite: Audition
Students study, practice, and perform symphonic music. Participation is by invitation of the Personnel Manager of the Ashland Symphony Orchestra. Graded S/U.

MUSIC 050 SPECIAL ENSEMBLE .5
Prerequisite: Audition
The preparation and performance of music composed for a particular combination of resources not covered by other ensembles.

MUSIC 051 ASHLAND AREA COMMUNITY CONCERT BAND .5
Prerequisite: None
This band is intended for both university students and members of the Ashland community to continue their musical study, creative activity and aesthetic enrichment. It meets one evening per week in both fall and spring semesters. The band performs once in the fall semester and several times in the spring. It performs a wide variety of literature from Broadway selections and classic marches to masterworks transcribed or written for concert band. The ability to play a wind or percussion instrument is a prerequisite. No audition is required.

MUSIC 052 ASHLAND AREA CHORUS .5
Prerequisite: None
A mixed chorus that allows students to rehearse, learn, and perform choral music to a high degree of artistic excellence. Previous choral singing is helpful, though not required. This chorus sings regularly with the Ashland Symphony Orchestra. No Audition is required.

MUSIC 102 RECITAL ATTENDANCE 0
Prerequisite: None
A course in which music majors document their attendance at music performances both on and off campus.

MUSIC 130 BASIC GUITAR MUSICIANSHIP 3
Prerequisite: None
An introduction to musical skills and concepts taught primarily through study of the guitar. Topics include music reading and notation, performance skills, and listening. Meets Core credit for aesthetics.

MUSIC 150 PRINCIPLES OF MUSIC MAKING 3
Prerequisite: None
An introduction to musical skills and concepts including notation, piano, treble recorder, and singing. Meets Core credit for aesthetics.

MUSIC 204 GENERAL MUSIC METHODS I 3
Prerequisite: MUSIC 259, EDFN 130, music education major
Curriculum, methodology, materials, and practice in music appropriate for K-8, including observations, experiences, and lectures pertaining to actual classroom procedure. Limited work in pre-K (ages 3-4) will be included. For music education majors only.

MUSIC 205 MUSIC COMPOSITION I 2
Prerequisite: MUSIC 260
Introduction to music composition including modal counterpoint, writing for strings, writing for voices, and 20th century style.

MUSIC 209 BRASS TECHNIQUES 1
Prerequisite: Music major
Playing skills and pedagogical principles and techniques of common brass instruments.

MUSIC 211 CLASS PIANO I 1
Prerequisite: Diagnostic exam
This course is designed primarily to serve music majors and minors. Content includes basic piano technique, beginning repertoire, harmonization of melodies, major scales and arpeggios, and building of overall musicality.

MUSIC 212 CLASS PIANO II 1
Prerequisite: MUSIC 211 or diagnostic exam
This course is designed primarily to serve music majors and minors. Content includes intermediate piano technique, advanced beginning level repertoire, harmonization of melodies, minor scales and arpeggios, and continued building of overall musicality.

MUSIC 213 STRING TECHNIQUES 1
Prerequisite: Music major
Playing skills and pedagogical principles and techniques of orchestral string instruments.

MUSIC 216 VOCAL DICTION I 1
Prerequisite: MUSIC 330 or 340
A study of English and foreign language diction for singers encompassing the fundamentals of the International Phonetic Alphabet and its direct application to repertoire.

MUSIC 217 VOCAL DICTION II 2
Prerequisite: MUSIC 216 and music major
A continuation of 216, with emphasis on French and German.

MUSIC 218 WOODWIND TECHNIQUES 1
Prerequisite: Music major
Playing skills and pedagogical principles and techniques of common woodwind instruments.

MUSIC 220 PERCUSSION TECHNIQUES 1
Prerequisite: Music major
Playing skills and pedagogical principles and techniques of common percussion instruments and accessories.

MUSIC 225 MUSICAL STYLE 3
Prerequisite: None
This course will examine the fundamental question of what distinguishes different styles of music. The emphasis will be on music from the Western Art Tradition, although some popular or non-Western styles may be discussed as well. Meets Core credit for aesthetics.

MUSIC 226 MUSIC IN WORLD CULTURES 3
Prerequisite: None
There is no culture in the world that does not have music. Music can therefore help foster cross-cultural connections. In this course, we journey around the world, exploring the music of various non-Western and folk cultures. We explore the sound of this music, the setting in which it takes place, and the significance it holds for each culture. In the process, we not only broaden our enjoyment and understanding of a wide variety of music, but also deepen cross-cultural understanding.
through our shared use of music. Meets core credit for Aesthetics.

MUSIC 227 AURAL SKILLS I 1
Prerequisite: Diagnostic exam
Beginning training in aural skills for musicians, including sight singing, prepared singing, dictation, and aural identification of musical items.

MUSIC 228 AURAL SKILLS II 1
Prerequisite: MUSIC 227
Continued training in aural skills for musicians, including sight singing, prepared singing, dictation, and aural identification of musical items.

MUSIC 229 FUNDAMENTALS OF CONDUCTING 2
Prerequisite: MUSIC 259 and MUSIC 260
An introduction to basic baton technique, terminology, score reading, and communication.

MUSIC 250 TOPICS IN MUSIC APPRECIATION 3
Prerequisite: None
An introductory course for non-music majors dealing with various single topics in music appreciation. For the specific topic offered, consult the course schedule. Topics may include Jazz, World Musics, American Musical Theatre, Understanding Opera, American Music, or 20th Century Music. Meets core credit for aesthetics.

MUSIC 251 TOPICS IN MUSIC APPRECIATION: LOVE SONGS 3
Prerequisite: None
Musicians from a wide variety of time periods and styles have composed songs about love. This course will explore selected love songs from Western culture, from medieval troubadour ballads to current show and pop tunes. Emphasis will be on understanding how artists have used music to express texts about love and how musical expressions of love have changed over time. Meets Core credit for aesthetics.

MUSIC 252 TOPICS IN MUSIC APPRECIATION: MUSIC AND DRAMA ACROSS CULTURES 3
Prerequisite: None
Whether you attend a puppet show, a movie, or an opera, and whether you live in New York or New Delhi, you rarely find drama separated from music. What does music add to drama? Why have so many cultures found it effective? Which uses of music in drama are universal? Local? This course examines the interaction of music and drama in a variety of cultural traditions, from ancient Chinese opera to the latest Hollywood blockbuster. Meets Core credit for aesthetics.

MUSIC 259 MUSIC THEORY I 3
Prerequisite: Diagnostic Exam
Introductory materials in music theory, focusing on music fundamentals.

MUSIC 260 MUSIC THEORY II 3
Prerequisite: MUSIC 259
A continued study of materials in music theory, including part-writing of diatonic and chromatic music.

MUSIC 305 MUSIC COMPOSITION II 2
Prerequisite: MUSIC 265
Study of music composition including tonal counterpoint, writing for woodwinds, writing for chamber ensembles, and 20th century style.

MUSIC 311 CLASS PIANO III 1
Prerequisite: MUSIC 212 or diagnostic exam
This course is designed primarily to serve music majors and minors. Content includes intermediate piano technique, intermediate level repertoire, harmonization and transposition of melodies, scales and arpeggios, and continued building of overall musicality.

MUSIC 312 CLASS PIANO IV 1
Prerequisite: MUSIC 311 or diagnostic exam
This course is designed primarily to serve music majors and minors. Content includes intermediate piano technique, more difficult intermediate level repertoire, harmonization and transposition of melodies, scales and arpeggios, advanced classroom keyboard skills, and continued building of overall musicality.

MUSIC 320 MUSIC HISTORY SURVEY 3
Prerequisite: MUSIC 150 or MUSIC 259 or MUSIC 260
This course surveys the history of Western Classical music. Students will become familiar with the major composers, historical periods, genres, and stylistics trends of Western classical music history.

MUSIC 327 AURAL SKILLS III 1
Prerequisite: MUSIC 228
Continued training in aural skills for musicians, including sight singing, prepared singing, dictation, and aural identification of musical items.

MUSIC 328 AURAL SKILLS IV 1
Prerequisite: MUSIC 327
Continued training in aural skills for musicians, including sight singing, prepared singing, dictation, and aural identification of musical items.

MUSIC 359 MUSIC THEORY III 3
Prerequisite: MUSIC 260
A continued study of materials in music theory, including part-writing of diatonic and chromatic music and analysis of form.

MUSIC 360 MUSIC THEORY IV 3
Prerequisite: MUSIC 359
A continued study of materials in music theory, including chromaticism, analysis of form, and the analysis of 20th century music.

MUSIC 380 MUSIC HISTORY SEMINAR I 3
Prerequisite: MUSIC 150 or MUSIC 259 or MUSIC 260
This is a seminar that explores Western classical music. A variety of topics, spread across the history of Western classical music, will be chosen to explore. Students will gain an in-depth understanding of several representative periods, styles, genres, and composers of Western classical music and be able to understand and place them within their historical context.

MUSIC 381 MUSIC HISTORY SEMINAR II 3
Prerequisite: MUSIC 150 or MUSIC 259 or MUSIC 260
This seminar focuses on global, popular and avant-garde music. A small number of focused topics will be chosen to explore, and students will learn about the major styles, genres, composers, and performers of these musics, as well as the function of these musics in their society. Meets Core credit for aesthetics.

MUSIC 382 ADVANCED CONDUCTING 3
Prerequisite: MUSIC 237
Conducting techniques and rehearsal materials designed to prepare choral and instrumental conductors.

MUSIC 395 CURRICULUM AND METHODS OF TEACHING INSTRUMENTAL MUSIC 3
Prerequisite: MUSIC 259, EDCI 230PK
To provide the instrumental music education student with a foundation for the teaching and administration of the instrumental music program in elementary schools, secondary schools, pre-band/orchestra programs, and adult community ensembles. Includes methodology for effective teaching of performance based classes and non-performance courses as well as licensure issues.
MUSIC 396 CURRICULUM AND METHODS OF TEACHING CHORAL MUSIC 3
Prerequisite: MUSIC 259, EDCI 230PK
A study of music teaching which provides the choral music education student with a foundation of teaching methodologies, classroom management strategies, and insights to effectively teach and administer the choral music program in the secondary schools.

MUSIC 403 SENIOR RECITAL 0
Prerequisite: Concurrent with MUSIC 44- or MUSIC 45-
Performance of the Senior Recital as required for music majors.

MUSIC 405 ADVANCED MUSIC COMPOSITION 2
Prerequisite: MUSIC 305
Continued study of composition including 20th century counterpoint, writing for brass, writing for percussion, and 20th century style. May be repeated as needed.

MUSIC 479 SEMINAR IN PEDAGOGY AND LITERATURE 2
Prerequisite: MUSIC 45X
Survey of standard musical repertoire for voice or a specific instrument; study of common pedagogical principles, concepts and materials for voice or a specific instrument.

MUSIC 480 ARRANGING 2
Prerequisite: MUSIC 359
Basic skills in arranging for music educators, including practical applications of music technology. This course seeks to develop the skills and knowledge that enable students to write simple choral and instrumental arrangements.

MUSIC 497 SENIOR PROJECT 2
Prerequisite: MUSIC 360
The Senior Project is a music composition, a research paper, or an analysis paper required of those students seeking the B.A. in music. It must be approved by the Music faculty. One faculty member should serve as the project advisor.

MUSIC 499 MUSIC SKILLS EXAMS 0
Prerequisite: Music major
Exams in keyboard skills and classroom music skills as required by program. Exams are offered at least once per semester.

MUSIC 540 APPLIED MUSIC-SECONDARY INSTRUMENT 1
Prerequisite: Permission of Chair
The private applied study of the performance of an instrument or voice, limited to students demonstrating the equivalent skills to an undergraduate degree in music. May be repeated for additional credit.

MUSIC 640 APPLIED MUSIC-PRIMARY INSTRUMENT 2
Prerequisite: Permission of Chair
The private applied study of the performance of an instrument or voice, limited to students demonstrating the equivalent skills to an undergraduate degree in music. May be repeated for additional credit.

Applied Music Courses
Prerequisites: For Music Major: acceptance to program, written permission each semester before enrolling, and for the 400 level, pass 300 level change. For Music Minor: acceptance to program, written permission each semester before enrolling availability of instructor, and passing grade in MUSIC 150 or demonstrated proficiency. General Student (not major or minor): 120 level--ability to read melodic and rhythmic music notation in clef appropriate to instrument or voice appropriate for successful study; or passing grade in MUSIC 150 or demonstrated proficiency; and availability of instructor; written permission each semester before enrolling.

Weekly individual and group instruction. Content includes the study of standard repertoire for the instrument or voice comprising but not limited to solo classical repertoire. Emphasis is placed on use of listening skills, development of proper technique, and productive practice. Outside practice is essential. (Meets up to 3 hours of Core aesthetics credit).

Applied Music Juries and Recitals
Any student receiving two hours credit in applied music will be required to perform satisfactorily at two (2) departmental/area recitals per semester. Any student receiving one hour credit will be required to perform satisfactorily at one departmental/area recital per semester. Faculty members present at the recitals will determine whether or not the performances are satisfactory or unsatisfactory. Failure to comply with recital performance requirements will result in the reduction of applied lesson grades.

Juries are required of all students studying applied music for credit. At least three faculty members will be present at all juries. The student will receive a written, graded critique from each faculty member present. These evaluations will be considered by the instructor in determining the student's final applied grade.

Any solo for a recital or jury which requires accompaniment will not be accepted unless it is performed with the appropriate accompaniment.

(For Applied Music Fees see University Fees and Charges brochure)
- Students must pass a level change jury to pass from the 300 level to the 400 level.
- Non-majors may enroll at the 400 level following a 300-level jury with written permission.
- Non-majors may enroll at the 300 level with written permission.
- 440/450 level: music major (upper level-jr./sr.) on principal applied, 60 min. lesson
- 330/340 level: music major (lower level-fr./soph., all degrees) on principal applied, 60 min. lesson
- 200 level: music major on secondary instrument, 30 min. lesson
- 140 level: music minors, 30 min. lesson
- 120 level: general student, not music majors or minors, 30 min. lesson

health care plans. Communication and assessment skills are utilized to establish a database for analysis. Health strengths and needs across the lifespan are determined through the individual analysis and synthesis of assessment data. Planning nursing care and implementing teaching for the purpose of health care promotion is emphasized.

NUR 304  HEALTH FOUNDATIONS I  3
Prerequisite: NUR 105, NUR 225, NUR 301 (or all concurrent), PSYC 209/FCS 270
Introduces the fundamental nursing concepts and skills, which makes up the foundation of nursing practice across the lifespan. The nursing process, communication, and caring is emphasized. Students will have the opportunity to apply concepts and psychomotor skills to an adult in a variety of health care settings.

NUR 306  HEALTH FOUNDATIONS II  5
Prerequisite: NUR 226 (or concurrent), NUR 301, NUR 304, successful completion of the Medication Calculation Exam
Continues to build on the concepts of NUR 304. Topics include the nursing process, problem solving, critical thinking, communication, physical assessment, and the psychomotor skills needed to provide holistic care for patients across the lifespan.

NUR 307  TOPICS IN NURSING  3
Prerequisite: None
A study of a specific aspect of nursing reflecting the changing focus of nursing practice. Topics will include such areas as nursing as computers in nursing, etc. May be repeated as topics change.

NUR 309  INTERNATIONAL AND TRANSCULTURAL PERSPECTIVES  3
Prerequisite: None
The focus of this course is to gain an international perspective of health care issues. Through small group work, students will compare health-related values, beliefs, and practices in selected countries outside the United States with health-related values, beliefs, and practices within the United States. Incorporating this knowledge, students will then develop appropriate professional interventions for a specific sub-cultural group.

NUR 310  PSYCHIATRIC/MENTAL HEALTH  4
Prerequisite: DIET 320, NUR 226, NUR 306
Focuses on nursing care of individuals, families and groups; health promoting behaviors and strategies for optimal mental health; and prevention of illness. Course content further builds upon and develops relationship-centered caring; reflective and evidence-based practice; and application of the nursing process. The course explores theories, concepts, and symptoms of mental illnesses along with therapeutic interventions for those experiencing mental health alterations.

NUR 311  ADULT HEALTH CONCEPTS: REGULATION AND TRANSPORT  5
Prerequisite: DIET 320, NUR 226, NUR 306
This course is one of two companion courses that combine the nursing process and evidence-based practice while caring for diverse patient populations with acute and chronic health alterations. This course prepares students to communicate, think critically and make clinical judgments that focus on safety, health promotion and maintenance, psychosocial and physiological integrity. Topic include concepts related to protection, sensation and mobility. Clinical and simulation experiences are included in this course.

NUR 312  ADULT HEALTH CONCEPTS: PROTECTION, SENSATION, AND MOBILITY  5
Prerequisite: DIET 320, NUR 226, NUR 306
This course is one of two companion courses that combine the nursing process and evidence-based practice while caring for diverse patient populations with acute and chronic health alterations. This course prepares students to communicate, think critically, and make clinical judgments that focus on safety, health promotion and maintenance,
theory approach to the management of organizations. The management process is related to the nursing process in the context of planning, change, and evaluation. Organizational behavior, the change process and the management of the health care delivery, and the nursing care within organizations are components of this course. Professionalism, leadership-management concepts, and teaching-learning strategies are integrated with the nurse manager role to prepare the student to function as a change agent for health promotion, maintenance, and restoration in organized health care delivery systems. Clinical practice experiences focus on the application of relevant theory and research as a basis for critical thinking and decision making.

**NUR 408  LEGAL, ETHICAL AND POLITICAL PERSPECTIVES**

**Prerequisite: MATH 208; NUR 302, NUR 303, NUR 309, NUR 362**

This course concentrates on the professional role of the nurse as change agent for the profession and society. Present and future nursing roles related to public policy formation are identified while exploring their ethical, legal and political dimensions. Selected field experiences are an integral part of the courses. Emphasis is placed on strategies to influence public policy decisions that will promote ethical health care delivery.

**NUR 410  COMPLEX HEALTH ALTERATIONS**

**Prerequisite: NUR 311, NUR 312**

This course focuses on the holistic nursing process of selected complex health problems and their impact on the patient, the family, and the adjustment to changes in patient and family lifestyles. The integration of conceptual models of nursing, nursing informatics, and evidence-based practice prepares students to communicate, collaborate, think critically, and make clinical judgments that focus on maintaining optimum safety, health promotion and maintenance, psychosocial integrity, and physiological integrity when caring for diverse patients with complex needs. Clinical experiences are in a wide variety of health-care settings.

**NUR 414  COMMUNITY AND PUBLIC HEALTH**

**Prerequisite: MATH 208; NUR 302, NUR 303, NUR 309, NUR 362**

This course applies the nursing process to care of individuals, families, groups, communities, or populations with a strong focus on health promotion and disease prevention. In addition, public health nursing practice and United States public health organization/system will be addressed. Students will complete observation and a simulated clinical experience designed to familiarize them with nursing roles and decision-making related to public health.

**NUR 420  COMMUNITY AND GLOBAL HEALTH**

**Prerequisite: NUR 310, NUR 410, NUR 438, NUR 440, NUR 460**

This course engages students to extend the application of the nursing process to the community environment for clients, families, and aggregates, focusing on health promotion and disease prevention. Concepts of epidemiology, diverse and vulnerable populations, and health care systems are explored. International health challenges are examined to provide perspectives on global health. Students assess cultural, socioeconomic and political influences on both health and nursing practice.

**NUR 425  TRENDS AND ISSUES IN GLOBAL HEALTH**

**Prerequisite: NUR 310, NUR 410, NUR 438, NUR 440, NUR 460**

The student will explore in-depth the impact of political, economic, social, ethical, and legal factors on the health care delivery systems, both in the United States and around the world, and interrelationships of these factors with professional nursing.

**NUR 428  LEADERSHIP MANAGEMENT OF HEALTH ORGANIZATIONS**

**Prerequisite: NUR 310, NUR 410, NUR 438, NUR 440, NUR 460**

Students will explore various management, organizational, leadership and change theories, and discuss their application to the nursing care of patients and groups of patients. Examination of health care environments, with emphasis on safety and quality, interdisciplinary collaboration, and systems assessments will be incorporated.

**NUR 430  ADVANCED SIMULATION**

**Prerequisite: NUR 310, NUR 410, NUR 438, NUR 440, NUR 460**

In this course students will enhance their skills in the treatment of complex medical-surgical patients through active participation in a series of simulated studies scenarios. These simulations are designed to reinforce important concepts and achieve certification in Advanced Cardiovascular Life Support (ACLS).

**NUR 435  CAPSTONE PRECEPTORSHIP**

**Prerequisite: NUR 310, NUR 410, NUR 438, NUR 440, NUR 460**

The capstone clinical experience provides students with concentrated preceptor clinical opportunities in a variety of acute care settings, providing opportunities to refine development of nursing management of patients and groups of patients. Students synthesize knowledge from all previous courses to provide safe holistic care as they transition to the nursing profession.

**NUR 438  MATERNAL NEWBORN HEALTH**

**Prerequisite: NUR 311, NUR 312**

This course provides evidence-based knowledge and skills essential to caring for women and families during the childbearing years. The experience of the healthy childbearing family, as well as the family with health alterations, is in the theoretical context of nursing process and practice. Emphasis is placed on physical, emotional, developmental, spiritual, ethical, legal, socio-economical-political and cultural care from the perspective of the individual and family, and local and global communities.

**NUR 440  PEDIATRIC HEALTH**

**Prerequisite: NUR 311, NUR 312**

This course focuses on nursing care of infants, children, adolescents and families and is designed to provide the student with pediatric nursing knowledge and skills integral to the practice of professional nursing.

**NUR 448  BIO-MEDICAL ISSUES FOR CHILDHOOD PROFESSIONALS**

**Prerequisite: See EDEC 448 for course information.**

**NUR 460  THEORETICAL FOUNDATIONS IN HEALTH RESEARCH**

**Prerequisite: NUR 311, NUR 312, MATH 208**

The application of nursing research to substantiate nursing theory and practice is explored. Appreciation for nursing theory evolution is developed as key nursing theorists are compared and contrasted. Research foundations are introduced, with emphasis on interpretation and critique of nursing research.

**NUR 530  NURSE EDUCATOR ROLE**

**Prerequisite:**

The course provides students in the Nurse Educator Certificate Program with the roles and responsibilities of nurse educators in any setting where healthcare is delivered. The scope of practice for highly qualified nurse educators will be emphasized along with content related to the academic community, diverse learner needs, creating supportive learning environments, leading change, and quality improvement measures. Legal and ethical issues in education will be explored in the context of academic policies.

**NUR 531  NURSING CURRICULUM DEVELOPMENT AND DESIGN**

**Prerequisite: NUR 530 or concurrent**

The course provides students in the Nurse Educator Certificate Program with educational principles, theory, and research of curriculum development. Specific content will address professional techniques of curriculum development in terms of learning outcomes and competencies. Course will align with the academic setting philosophical framework and external governing agencies standards.
NUR 532  FACILITATING THE TEACHING AND LEARNING PROCESS  3
Prerequisite: NUR 530 or concurrent
This course provides students in the Nurse Educator Certificate Program with information about learning theories and evidence-based teaching strategies. Content expands upon the role of the nurse educator as professional advisor and mentor and emphasizes relationship-building required for successful clinical and service learning. Students will be assigned with a preceptor.

NUR 533  PRINCIPLES AND PRACTICES OF ASSESSMENT AND EVALUATION  3
Prerequisite: NUR 532 or concurrent
The course provides students in the Nurse Educator Certificate Program with content specific to evidence-based assessment and evaluation of learning outcomes, item writing and analysis, assessment tools for laboratory and clinical experiences, and conducting self and peer faculty evaluations. Students will receive 48 hours of practicum experience with a highly qualified nurse educator.

NUR 9110  DNP ROLE & INTERPROFESSIONALISM  3
Prerequisite: Admission to Program
This course provides an onsite and online orientation to the doctoral program, an overview of the advanced practice role. Students will initiate a personal DNP portfolio. Topics include legal dimensions and professional issues in advanced nursing practice. The attributes, benefits, and opportunities for interprofessional collaboration are emphasized.

NUR 9210  ADVANCED PATHOPHYSIOLOGY I  3
Prerequisite: NUR 9110
This course provides an in-depth study of the physiological responses to altered health states and their impact on the functional status of patients. Students will focus on the essential knowledge of human health and disease across the lifespan necessary for advanced nursing practice.

NUR 9211  ADVANCED PATHOPHYSIOLOGY II  3
Prerequisite: NUR 9110, NUR 9210
This course continues to provide an in-depth study of the physiological changes and responses to altered health states and their impact on the functional status of patients. Students will focus on the essential knowledge of human health and disease across the lifespan necessary for advanced nursing practice.

NUR 9220  ADVANCED PHARMACOLOGY  3
Prerequisite: NUR 9210
This course focuses on concepts, principles, and application of pharmacotherapeutics used by nurse practitioners in the management of health problems encountered in primary care. Emphasis is placed on theories and principles of pharmacokinetics, pharmacodynamics, and pharmacogenetics which provide a foundation for critical thinking and the application of research findings. The focus on pharmacology is aimed at the treatment of acute and chronic health problems in populations over the life span.

NUR 9221  ADVANCED PHARMACOLOGY II  3
Prerequisite: NUR 9220
This course continues to build on the concepts, principles, and application of pharmacotherapeutics used by nurse practitioners in the management of health problems encountered in primary care. Emphasis is placed on theories and principles of pharmacokinetics, pharmacodynamics, and pharmacogenetics which provide a foundation for critical thinking and the application of research findings. The focus on pharmacology is aimed at the treatment of acute and chronic health problems in populations over the life span.

NUR 9230  ADVANCED HEALTH ASSESSMENT & PROMOTION I  3
Prerequisite: NUR 9210
This course builds upon health assessment skills developed in the registered nurse's basic educational program. The theoretical and clinical basis for assessment in advanced nursing practice will be expanded upon. The process whereby the advanced practitioner utilizes comprehensive physical, psychosocial, and cultural assessment across the lifespan to gather specific data relevant to common health problems is demonstrated. Faculty and preceptors facilitate laboratory and clinical experiences, which focus on assessment of clients and presentation of findings in a variety of settings. On-site hours are associated with this course.

NUR 9231  ADVANCED HEALTH ASSESSMENT & PROMOTION II  3
Prerequisite: NUR 9230
This course continues to build upon health assessment skills developed in the registered nurse's basic educational program. The theoretical and clinical basis for assessment in advanced nursing practice will be expanded upon. The process whereby the advanced practitioner utilizes comprehensive physical, psychosocial, and cultural assessment across the lifespan to gather specific data relevant to common health problems is demonstrated. Faculty and preceptors facilitate laboratory and clinical experiences, which focus on assessment of clients and presentation of findings in a variety of settings. On-site hours are associated with this course.

NUR 9240  SCIENTIFIC BASIS FOR ADVANCED PRACTICE NURSING  3
Prerequisite: NUR 9110
This course allows students to analyze and critique concepts, constructs, models, and theories that guide advanced nursing practice. The course builds on existing knowledge of nursing and borrowed theories and considers the progression of theory development in nursing. Student’s progress in their knowledge about logic, empiricism, and deductive-inductive approaches in the context of advanced practice.

NUR 9310  PRIMARY CARE I  5
Prerequisite: NUR 9220, 9230
This course begins with a focus on health promotion, anticipatory guidance, counseling, and disease prevention, and progresses to the evaluation and management of common primary care problems. Clinical settings include populations across the lifespan with an emphasis on family history, ethnicity, risk and genetic profile. Students will demonstrate the ability to synthesize knowledge learned in the classroom and demonstrated in an onsite laboratory experience and in a clinical setting with an appropriate provider of care. 120 hour clinical experience.

NUR 9320  PRIMARY CARE II  6
Prerequisite: NUR 9310
This course focuses on the scientific and theoretical basis for managing, co-managing, and coordinating care of individuals in acute and sub-acute care primary care settings. Emphasis will be on collaborative inter-professional practice. Students will demonstrate the ability to synthesize knowledge learned in the classroom and demonstrated in an onsite laboratory experience and in a clinical setting with an appropriate provider of care. 180 hour clinical experience.

NUR 9321  PRIMARY CARE II  6
Prerequisite: NUR 9310
This seminar and practicum focuses on evidence-based approaches to care across the lifespan, particularly in childbearing and child rearing families and individuals. An emphasis is placed on gender-based issues, reproductive health, psychological, and psychobiological functioning. Students will demonstrate the ability to synthesize knowledge learned in the classroom and demonstrated in an onsite laboratory experience and in a clinical setting with an appropriate provider of care. 120-hour clinical experience.

<tr>
<td>NUR 9520</td>
<td>EPIDEMIOLOGY &amp; BIOSTATISTICS</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: NUR 9110</td>
<td>In this course students apply principles of epidemiology, environmental health, and bio-statistics to understand the etiology, progression, and prevention of disease. Emphasis is on identification of population - and geographically-based risk factors of illness.</td>
<td></td>
</tr>
<tr>
<td>NUR 9530</td>
<td>RESEARCH METHODS &amp; EVIDENCE - BASED PRACTICE</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: NUR 9240, 9520</td>
<td>Fundamentals of scientific inquiry prepare students for interpreting, critiquing, and synthesizing research findings to guide and inform evidence-based practice. Students conceptualize research problems, review and critique current literature, and select appropriate study design and analysis methods.</td>
<td></td>
</tr>
<tr>
<td>NUR 9540</td>
<td>HEALTHCARE INFORMATICS</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: NUR 9110</td>
<td>This course will introduce the student to healthcare informatics from a clinical perspective. The course provides a solid foundation in the history of healthcare informatics and the impact healthcare informatics has on the current and future healthcare landscape. The course will prepare the student to understand technical and clinical aspects of healthcare information technology (HIT). An emphasis is placed on the utilization, adoption, and change of clinical processes and workflows to make a positive impact on patient safety and quality.</td>
<td></td>
</tr>
<tr>
<td>NUR 9550</td>
<td>HEALTHCARE DELIVERY, QUALITY, AND SAFETY</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: NUR 9110</td>
<td>This course examines concepts and strategies to assist the nurse leader in developing skills to improve and strengthen nursing practice, patient outcomes, and health care delivery. Goals for healthcare outcomes and the delivery of healthcare will be identified relative to health promotion, disease prevention, disease management, and the design of innovative healthcare delivery models. Students utilize and synthesize evidence from practice and patient databases, and perform data mining. This course introduces the evaluation of patient care outcomes within the context of continuous quality improvement and safety.</td>
<td></td>
</tr>
<tr>
<td>NUR 9560</td>
<td>HEALTH POLICY &amp; ADVOCACY</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: NUR 9110</td>
<td>This course provides a study of historical and current healthcare policy determinants, the impact of policy on the health of society, how scarce resources are allocated, and funding for healthcare. Students analyze policy issues that impact nursing and health care delivery to diverse populations. The importance of advocating for social justice in healthcare arenas is emphasized. Advocacy related activities such as legislative visits and attendance at political events supplement the didactic learning in this course.</td>
<td></td>
</tr>
<tr>
<td>NUR 9570</td>
<td>PRINCIPLES OF PRACTICE MANAGEMENT</td>
<td>2</td>
</tr>
<tr>
<td>Prerequisite: NUR 9110</td>
<td>This course explores the professional and business aspects of advanced practice nursing. As future healthcare leaders, students focus on gaining expertise beyond direct patient care. Entrepreneur potential, nurse led patient centered health care homes, business models, case management, cost containment, coding, and reimbursement will be emphasized.</td>
<td></td>
</tr>
<tr>
<td>NUR 9575</td>
<td>THE HEALTH CARE ORGANIZATION</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: None</td>

healthcare. Collaborative methods to equip the students with the skills to function effectively in multi-disciplinary health care team will be explored.

NUR 9851 HEALTHCARE ORGANIZATION: LEADERSHIP, MANAGEMENT, AND COMMUNICATION

Prerequisite: None
This course examines leadership concepts, principles and styles. Students will evaluate themselves and employees, assist with career planning, and creation of a healthy work environment. Exploration of the concepts of human capital management, communication and innovative idea development will prepare students for effective leadership.

NUR 9582 IMPROVING THE HEALTH CARE ORGANIZATION - CLINICAL

Prerequisite: none
This course allows students to analyze the concepts of business analytics, informatics, performance, and quality improvement in the health care sector. In this clinical rotation students will integrate each of these factors into the health care organization to improve patient and health system outcomes. These are clinical hours for a total of 120 hours.

NUR 9810 SCHOLARLY PROJECT I

Prerequisite: NUR 9530, 9540, 9340
Students will conduct an evidence-based practice project to improve practice and patient outcomes. The project will serve as a basis for future projects. Projects are individualized according to the student’s areas of interest, specialty, or expertise and should demonstrate assimilation of knowledge at a doctoral level. Project foci may include clinical issues, educational topics, health policy initiatives, informatics, and public health. Two semesters of coursework allow the student the span of time to develop and carry out this project. The project culminates in an oral defense and a publishable paper.

NUR 9820 SCHOLARLY PROJECT II

Prerequisite: NUR 9810
Students will conduct an evidence-based practice project to improve practice and patient outcomes. The project will serve as a basis for future projects. Projects are individualized according to the student's areas of interest, specialty, or expertise and should demonstrate assimilation of knowledge at a doctoral level. Project foci may include clinical issues, educational topics, health policy initiatives, informatics, and public health. Two semesters of coursework allow the student the span of time to develop and carry out this project. The project culminates in an oral defense and a publishable paper.

NUR 9830 RESIDENCY I

Prerequisite: NUR 9340
The DNP residency courses assist in the development and refinement of leadership skills and the completion of the scholarly project. With the assistance of faculty advisors, the student selects residency sites that facilitate growth in an area of interest for the student. Patient centered medical homes are strongly encouraged as practice sites. The student's participation in these experiences and contribution to nursing knowledge should lead to improved practice and health care delivery at the macro level. There is a 200 hour clinical component in this course.

NUR 9831 MSN-DNP RESIDENCY

Prerequisite: NUR 9350, 9540, 9550, 9560, 9570
The DNP residency courses assist in the development and refinement of leadership skills and the completion of the scholarly project. With the assistance of faculty advisors, the student selects residency sites that facilitate growth in an area of interest for the student. Patient centered medical homes are strongly encouraged as practice sites. The student's participation in these experiences and contribution to nursing knowledge should lead to improved practice and health care delivery at the macro level. There are 100-200 clinical hours in this course. Students may repeat this course up to three times for a maximum of 500 clinical hours.

NUR 9840 RESIDENCY II

The DNP residency courses assist in the development and refinement of leadership skills and the completion of the scholarly project. With the assistance of faculty advisors, the student selects residency sites that facilitate growth in an area of interest for the student. Patient centered medical homes are strongly encouraged as practice sites. The student's participation in these experiences and contribution to nursing knowledge should lead to improved practice and health care delivery at the macro level. There is a 200 hour clinical component in this course.

PHILOSOPHY (PHIL)

PHIL 204 CONCEPT OF TRUTH

Prerequisite: None
This course intensively examines the concept of truth as it has been manifested in major western philosophers from the ancient and medieval period, the classical modern period, and the contemporary period in the history of philosophy. Students will consider how the philosophical concepts of truth in their respective time periods served as underpinnings for the entirety of culture at the time, and how that sheds light on how contemporary considerations of truth hold sway. Meets Core credit for humanities.

PHIL 205 INTRODUCTION TO PHILOSOPHY

Prerequisite: None
Examines formal and informal fallacies as well as deductive and non-deductive reasoning as they emerge from actual historical philosophical texts. Major themes will include fundamental questioning and the search for meaning and truth which have characterized philosophical thinking. Meets Core credit for math/logic.

PHIL 208 MAJOR THINKERS IN DIALOGUE

Prerequisite: None
This course introduces students to the history of ideas through analyses of central and original texts of two great philosophers whose works form a dialogue, focusing not merely on the study of major works of philosophy, but also on the intellectual milieu in which those works are situated and the impact those works have had on a variety of other fields and on society in general. Students will come to know philosophical ideas and will strengthen their critical abilities in regard to basic concepts. Meets Core credit for humanities.

PHIL 210 PHILOSOPHY OF HUMAN NATURE

Prerequisite: None
Many fields of inquiry traffic in a conception of some fixed essence of humanity, in which we all share. The idea of there being a human nature serves as a kind of Archimedean point from which we can learn to judge whether particular virtues possessed by this or that society represent the best life for us, given that essential human nature. What makes this a philosophical issue is precisely that there is disagreement among philosophers as to whether or not there is such a constant, and what the possessions of such a notion entails. Meets Core credit for humanities.

PHIL 215 ETHICS

Prerequisite: None
This course is a substantive study of major classical figures in western moral philosophy, including Plato, Aristotle, Aquinas, Kant, Mill, and Nietzsche. It deals with the questions: What are the fundamental rules that guide our actions? Can we ever rationally justify moral judgments? What is the relationship between ethics and religion? While this course emphasizes theory, the philosophers' views are explicited with regard to contemporary issues. Meets Core credit for humanities.

PHIL 217 THOUGHT AND BELIEF

Prerequisite: None
The course will probe specific areas where Western philosophy and the Christian tradition interrelate focusing on various religious topics that have philosophical implications, such as the nature of faith, salvation, the character of God, the problem of evil, and the practice of faith.
PHIL 220  PRACTICAL THINKING  3
Prerequisite: None
Examines formal and informal fallacies, symbolic translation, and deductive and non-deductive reasoning as they emerge in everyday practical contexts. The student will learn the basics of argument, master the notions of validity and soundness, and perform some real world proofs to enable him to defend against the persuasive tools and against himself. Meets Core credit for math/logic.

PHIL 280  APPLIED ETHICS  1-3
Prerequisite: None
Five-, ten-, or fifteen-week sections which investigate moral philosophy as it manifests itself in practical contexts. The focus is on how to arrive at the best moral reasons for acting within practical parameters which present their own special tasks, vocabularies, and sets of problems. A maximum of three hours may be taken for Core humanities credit.

A-SPORTS AND ETHICS 1-3
This course is an examination of ethical theory and moral deliberation as applied to the context of sports, specifically youth sports, college athletics, and professional sports.

B-ENVIRONMENTAL ETHICS 1-3
This course is an examination of ethical theory and moral issues as applied to the context of environmentalism. Does nature have inherent worth independent of the uses to which it is put by human beings? Do humans have moral duties to animals, plants, or even ecosystems? These and other questions will be critically examined.

D-BIOETHICS 1-3
This course is comprised of three-separable, one-credit courses regarding medical ethics. Part I has to do with moral foundations in medicine concerning paternalism, informed consent, and professional responsibilities. Part II deals with medical resource allocation, analysis of social policy from various ethical perspectives, and issues surrounding physician-assisted suicide. Part III focuses on research on humans and various issues in reproductive ethics.

H-APPLIED ETHICS: WORKPLACE ETHICS 1-3
This course is an examination of ethical theory and moral issues with particular attention to specific workplace contexts. Includes issues such as the moral foundations of business involving at-will termination policies, workplace speech-codes, privacy issues concerning drug and genetic pre-screening, sexual harassment policies, workplace safety, whistle blowing, intellectual property, bribery, advertising, and moral obligations businesses have to family, community, and the environment.

PHIL 309  SOCIAL AND POLITICAL PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
This course is the philosophical study of people in societies with particular attention to the abstract claims they have on each other in the form of individual rights, duties, and privileges, and their demands for equality, justice, and freedom. The course addresses the overlap between political and moral duties and obligations, how moral themes are translated into political rights, and how social categories of concern often conflict with their political articulation. Meets Core credit for humanities. May be repeated for credit as topics change.

PHIL 311  HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
An historical overview of the Greek, Roman and medieval philosophers, with special emphasis upon Plato, Aristotle, Augustine and Aquinas.

PHIL 312  HISTORY OF MODERN PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
A study of influential Western philosophers from the Renaissance and the Enlightenment including Descartes, Hume, and Kant. Issues raised include empiricism and rationalism, human freedom, the nature and existence of God, skepticism, conceptual meaning, and the philosophy of mind.

PHIL 313  HISTORY OF CONTEMPORARY PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
A study of recent Western philosophy, including but not limited to, phenomenology, existentialism, pragmatism, analytic, and post-modern philosophy.

PHIL 314  HISTORY OF 19TH CENTURY PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
A study of major 19th century philosophical movements and figures, roughly covering the time period between Kant and Husserl, including Hegel and German idealism, historicism, Kierkegaard, Nietzsche, Schopenhauer, Marx, and neo-Kantianism.

PHIL 317  PHILOSOPHY OF RELIGION  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
Philosophy of religion is the critical examination of basic religious beliefs and concepts. Its focus is to philosophically consider the claims that people make about religion, e.g., about the nature of God, and assess the conceptual grounds upon which these claims stand. The course evaluates the facts and theories available for and against certain religious claims, facts and theories that are available to any rational person, whether religious or not. The usual topic for this course will be making sense of the concept of God. Other topics may be offered on occasion. Meets Core credit for humanities.

PHIL 318  TOPICS IN PHILOSOPHY  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
Focuses on unique, particular issues and their accompanying sets of arguments that have formed their own research categories in philosophy, such as the mind-body problem, the problem of evil, freedom vs. determinism, the issue of reference in the philosophy of language, the problem of universals, the problem of contextualism, or the problem of induction in the philosophy of science. The focus is on the arguments rather than on great books or individuals of historical significance. May be repeated for credit as topics change. Meets Core credit for humanities.

PHIL 320  SYMBOLIC LOGIC  3
Prerequisite: PHIL 220 recommended
This course is a more advanced offering of techniques in logical analysis. Students will focus on constructing deductive arguments, engage in symbolic translation, recognize formal argument forms, do truth-table analysis, conduct proofs, and employ sentential and quantificational logics. Meets Core credit for math/logic.

PHIL 330  PHILOSOPHICAL READINGS  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
Philosophical readings courses are to be thought of as a series of great works which when taken together form a sustained whole. The course will conduct its inquiry in complete works which cross time periods and traditions within philosophy. Meets Core credit for humanities. May be repeated for credit as topics change.

PHIL 350  SCIENCE AS A CULTURAL FORCE  3
Prerequisite: See CHEM 350 for course information

PHIL 450  GREAT PHILOSOPHERS  3
Prerequisite: PHIL 204, 205, 208, 210, 215, or 217 recommended
This course evaluates the thinking of a single major theoretical figure across a series of original texts addressing different subjects, but usually including combinations of that thinker's views on metaphysics, epistemology, ethics, and aesthetics. The course shows how thinker's views often form an organic whole unified across texts and time periods in their lives, and how ideas develop from earlier to later views, or in response to personal or world events. Meets Core credit for humanities. May be repeated for credit as topics change.
PHYS 107  THE HIDDEN LIFE OF THE STARS  3
Prerequisite: High school geometry and trigonometry
Stars have a rich history in the development of our understanding of nature. Stellar life cycles will be used to illustrate concepts in modern astronomy. The history of understanding the stars will lead from Copernicus and Galileo to modern ideas in particle physics and relativity. Basic concepts from astronomy will be developed in an algebraic framework and applied to understanding the life cycle of a star, including birth, main cycle, and death. There will be evening observation field trips. Meets Core credit for natural sciences.

PHYS 201-202  GENERAL PHYSICS  4-4
Prerequisite: High school algebra and geometry; PHYS 201 for 202
This course presents to liberal arts and pre-professional students the basic concepts, unifying principles and cultural aspects of the whole field of physics. Three lectures-recitations and one two-hour laboratory per week.

PHYS 205-206  UNIVERSITY PHYSICS  5-5
Prerequisite: MATH 206; PHYS 205 for 206
This is a thorough course designed to impart a working knowledge of the fundamental principles, practical applications and techniques of general physics to physics majors, pre-engineering students and others specializing in the physical sciences. Four lecture-recitations and one two-hour laboratory per week.

PHYS 297  INTRODUCTION TO LABORATORY FIELD RESEARCH  1
Prerequisite: Sophomore or junior standing
This course will introduce the student to scientific research in the laboratory or field through individual instruction under the direction of a Physics faculty member. Graded S/U. Offered each semester.

PHYS 301-302  ELECTRICITY AND MAGNETISM I-II  3-3
Prerequisite: MATH 305, PHYS 206, PHYS 301 for 302
This is an intermediate electricity and magnetism course mainly for students majoring in physics or for pre-engineering students. It is a further study of electric and magnetic forces, fields, potentials and energies, along with the electric currents and Maxwell equations. Three lecture recitations per week.

PHYS 303-304  MECHANICS I-II  3-3
Prerequisite: MATH 305, PHYS 206, PHYS 303 for 304
This intermediate mechanics course is a further study of Newtonian mechanics, such as harmonic motions, 3-dimensional motion, noninertial reference systems, central forces, dynamics of a system of particles and motions of rigid bodies Lagrangian mechanics is included. Three lecture recitations per week.

PHYS 305  MODERN PHYSICS  4
Prerequisite: PHYS 206 and MATH 305
The nature and properties of the electron, thermionic and photoelectric emission of electrons atomic, and molecular spectra, relativity, quantum mechanics, X-rays, natural and induced radio-activity, nuclear physics, cosmic rays, etc. Four lecture-recitations per week.

PHYS 306  HEAT  3
Prerequisite: PHYS 206 and MATH 206
Temperature and thermal expansion; nature, quantity and transfer of heat, change of state, laws and equations of thermodynamics, heat engines, refrigeration and air conditioning, liquefaction of gases and cryogenics, measurement of low and high temperatures, kinetic theory of gases. Three lecture recitations per week.

PHYS 320  ORIGINS OF THE UNIVERSE  3
Prerequisite: High school algebra and trigonometry
A look from the scientific view point into the origin of the universe. The course takes a conceptual approach in understanding the two great physical theories of the twentieth century, Relativity and Quantum Mechanics, followed by applications in particle physics and cosmology. No previous science knowledge is assumed or required. Meets Core credit for natural sciences.

PHYS 350  SCIENCE AS A CULTURAL FORCE  3
Prerequisite: See CHEM 350 for course information

PHYS 402  OPTICS  3
Prerequisite: PHYS 206 and MATH 206
Nature, propagation and intensity of light, sources of light; formation of images, description and use of optical instruments, dispersion, spectra, color theory, interference and diffraction, polarization, and other properties and effects of light. Three lecture-recitations per week.

PHYS 403  QUANTUM MECHANICS  3
Prerequisite: PHYS 305, MATH 313
This course is an introduction to the formal theory of quantum mechanics. The stress through-out is on the formulation of quantum mechanics and not on its application. It is a concise, axiomatic development of the theory with a view to bring out the main features of its mathematical and conceptual structure. Three lecture-recitations per week.

PHYS 404  SOLID STATE PHYSICS  3
Prerequisite: PHYS 305, MATH 313
This is an introductory course to solid state physics. Free electron model, Lattice structure, energy bands, semiconductors, and magnetic properties of solids are discussed. Three lecture-recitations per week.

PHYS 410  TOPICS IN THEORETICAL PHYSICS  3
Prerequisite: PHYS 301, 303; MATH 313
An advanced course in current topics and/or advanced theories of modern physics, taught at the advanced undergraduate or beginning graduate level. Application of Hamiltonian mechanics, Maxwell’s equations, and quantum mechanics will be emphasized throughout the course. Possible topics of study include general relativity, nuclear physics, particle physics, solid state physics, and string theory. May be repeated for credit as topics change.

PHYS 493  INTERNSHIP  1-4
Prerequisite: See CHEM 493 for course information.

PHYS 497  LABORATORY AND FIELD RESEARCH  1-3
Prerequisite: Sophomore status
Laboratory research performed under faculty supervision. This course allows undergraduate students the opportunity to become involved in original research projects directed by Chemistry/Geology/Physics faculty members. Repeatable up to 8 credits.

PHYS 552  HISTORICAL PERSPECTIVES IN MODERN PHYSICS  3
Prerequisite: A chronicle of modern physical science starting with the discovery of the x-rays and the electron. The course will progress through current research and trends in physical thought. The post-Newtonian physics of the 20th and 21st centuries will be studied with a focus on the people involved in its development. Lecture, hands on activities, and laboratories based on key discoveries will guide the student form the basic concepts of light and the atom to the current ideas of modern physics.
### Political Economy (POLEC)

<table>

</thead>
<tbody>
<tr>
<td>POLEC 200</td>
<td>Foundations of Political Economy</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>An introduction to the fundamental alternative ways of thinking about the relation between government and economic life and to the main concepts necessary for thinking about this relation.</td>
<td></td>
</tr>
<tr>
<td>POLEC 310</td>
<td>The Political Economy of a Free Society</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines the fundamental change that occurred in political economy in the 17th and 18th centuries. Emphasis will fall on the Enlightenment impetus towards freedom and the rise of classical liberalism. An examination of the original arguments for classical liberal political economy found in the works of thinkers such as Smith, Ricardo, Bastiat, Cobden, and others.</td>
<td></td>
</tr>
<tr>
<td>POLEC 320</td>
<td>Late Modern Political Economy: The Welfare State and Beyond</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines the most influential thinkers on political economy in the 19th Century to the present, including Marx, von Mises, Keynes, Hayek, and Friedman.</td>
<td></td>
</tr>
<tr>
<td>POLEC 410</td>
<td>American Political Economy I: Founding through Civil War</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines the theory and practice of government’s role in the American economy through the Civil War. May include the arguments of Jefferson, Madison, Hamilton, Clay, and Lincoln as well as topics such as assumption of Revolutionary debt, slavery, the National Bank, government funding of internal improvements, the development of railroads, and the opening of Western lands.</td>
<td></td>
</tr>
<tr>
<td>POLEC 420</td>
<td>American Political Economy II: Reconstruction through the Great Society</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines the theory, practice, and consequences of government’s role in the American economy from Reconstruction through the Great Society. May include the arguments of Teddy Roosevelt, Woodrow Wilson, Calvin Coolidge, FDR, Dwight Eisenhower, and LBJ as well as topics such as trust-busting, creation of the Federal Reserve, the impact of World War, the New Deal, the federal highway system, and the Great Society.</td>
<td></td>
</tr>
<tr>
<td>POLEC 430</td>
<td>International Political Economy and Globalization</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>Examines the attempts to develop, preserve, and regulate an international economy based on the principle of free trade. Considers questions such as what political institutions are required for free trade as well as specific issues such as the World Bank, the dollar standard, exchange rates, national borrowing and lending, and sovereign debt.</td>
<td></td>
</tr>
<tr>
<td>POLEC 440</td>
<td>Topics in Political Economy</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>An intensive examination of an important topic, text, or controversy in political economy. Topics will change from year to year. May be taken twice with department approval.</td>
<td></td>

### Political Science (POLSC)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLSC 101</td>
<td>Understanding Politics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course immerses students in the intensive study of the fundamental question: What is politics? Our goal is to understand how politics shapes society and what distinguishes the political from the economic social, artistic, religious, etc. We will read several fundamental works of political thought and statesmanship which may include the Bible, Plato's Apology, Aristotle's Politics, Machiavelli's The Prince, Shakespeare's Julius Caesar or Henry V, Locke's Two treatises of Government, Rousseau's Social Contract, Penn Warren's All the King's Men, or Churchill's The Gathering Storm. Meets Core credit for social sciences.</td>
<td></td>
</tr>
<tr>
<td>POLSC 102</td>
<td>Democracy in America</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>An introduction to American politics, with primary emphasis on national institutions. Course topics include the political theory of the American Constitution, the relations among the different branches of government and between state and federal institutions, and the role of the courts in the protection of civil liberties.</td>
<td></td>
</tr>
<tr>
<td>POLSC 201</td>
<td>Topics in Classical Civilization</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>See HIST 201 for course description.</td>
<td></td>
</tr>
<tr>
<td>POLSC 205</td>
<td>Comparative Politics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course immerses students in the comparative study of regimes such as liberal democracy, monarchy, tyranny, and theocracy, especially as these are found in historical or contemporary city-states, nations, or empires. Such study can be comparative either because two or more different regimes are being examined together (e.g., aristocracy and democracy) or because the same regime is being investigated from different perspectives (e.g., liberal democracy in Germany and France) or with different means (e.g. tyranny is studied using contemporary and historical information, literature, political biography, geography, religious traditions, political theory, etc.). In every case, at least two different countries will be studied.</td>
<td></td>
</tr>
<tr>
<td>POLSC 231</td>
<td>International Relations</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course will immerse students in the study of international relations, especially how and why countries fight wars and make and maintain peace. Drawing on both historical and contemporary examples, the course may examine both the writings of theorists and the speeches and deeds of leading statesmen.</td>
<td></td>
</tr>
<tr>
<td>POLSC 236</td>
<td>American Foreign Policy</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>A study of the foreign relations of the United States, underscoring the factors that determine formulation, execution and substance of U.S. foreign policy, traditional and contemporary, with emphasis on the place of the United States in today's world. HIST 236/POLSC 236 credit.</td>
<td></td>
</tr>
<tr>
<td>POLSC 305</td>
<td>Political Parties and Interest Groups</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>A study of the origins, development and contemporary character and problems of American political parties and the party system, and an examination of the role of interest groups in the political process.</td>
<td></td>
</tr>
<tr>
<td>POLSC 310</td>
<td>The Presidency</td>
<td>3</td>
</tr>
<tr>
<td><strong>Prerequisite:</strong> None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>A study of the nation’s Chief Executive Office.</td>
<td></td>
</tr>
</tbody>
</table>
POLSC 312  CONGRESS  3  
Prerequisite: None  
A study of the nation's legislative body, focusing on the nature of representation in Congress, the place of Congress within the framers' constitutional design, the historical development of the institution and its powers, and the operation of the modern Congress.

POLSC 320  AMERICAN POLITICAL THOUGHT I: REVOLUTION TO THE CIVIL WAR  3  
Prerequisite: None  
A study of the political ideas of American statesmen and writers from the 18th century to the secession crisis. Candidates for consideration include Jefferson, Franklin, Adams, Madison, Hamilton, and Calhoun.

POLSC 321  AMERICAN POLITICAL THOUGHT II: RECONSTRUCTION TO THE PRESENT  3  
Prerequisite: None  
A study of the political ideas of American statesmen and writers from the Civil War period to the present. Candidates for consideration include Lincoln, Frederick Douglass, Twain, Melville, Booker T. Washington, Woodrow Wilson and Franklin Roosevelt.

POLSC 336  CONSTITUTIONAL POWERS  3  
Prerequisite: POLSC 102  
A study of the American constitutional framework for the exercise of governmental power, with particular emphasis on the role of the Supreme Court in articulating that framework. Through reading Court cases and other materials, students address such questions as: how should the Constitution be interpreted? What are the respective powers of the Courts, the Congress and the President? What limits on those powers does the Constitution impose? What is the proper constitutional relationship between the state and the federal government?

POLSC 337  CONSTITUTIONAL RIGHTS  3  
Prerequisite: POLSC 102  
A study of the individual rights protected by the U.S. Constitution, as viewed through Supreme Court cases and other materials. The primary focus will be on the First Amendment rights of freedom of speech and press and of religious liberty, the 14th Amendment's guarantee to each person of the equal protection of the laws, rights of political participation and constitutional protections of property and privacy.

POLSC 341  MODERN MIDDLE EAST  3  
Prerequisite: See HIST 341 for course description.

POLSC 343  WESTERN POLITICAL THOUGHT I: ANCIENT POLITICAL THOUGHT  3  
Prerequisite: POLSC 101  
This course immerses students in the study of ancient political thought, whose central concern is the search for the best regime—the one that most cultivates human excellence. We will examine this politics of virtue by reading several great works of political philosophy from thinkers such as Plato and Aristotle.

POLSC 344  WESTERN POLITICAL THOUGHT II: MEDIEVAL POLITICAL THOUGHT  3  
Prerequisite: POLSC 101  
This course is an intensive study of major texts in medieval political thought. Particular attention will be given to the issue of how medieval thinkers from a variety of backgrounds attempted to deal with the relationship between reason and revelation in politics. Thinkers to be studied may include Augustine, Aquinas, Dante, Marsilius of Padua, Maimonides, Alfarabi, Averroes, or Avicenna.

POLSC 345  WESTERN POLITICAL THOUGHT III: EARLY MODERN POLITICAL THOUGHT  3  
Prerequisite: POLSC 101  
This course is designed to immerse students in the study of modern political thought, whose central concerns are human security, comfort, and liberty. We will examine this new politics of freedom by reading several great works of political philosophy from thinkers such as Machiavelli, Hobbes, and Locke. Meets Core credit for social sciences.

POLSC 346  WESTERN POLITICAL THOUGHT IV: LATE MODERN POLITICAL THOUGHT  3  
Prerequisite: POLSC 101  
A study of selected works of leading political thinkers from the end of the 18th century to the present, such as Kant, Hegel, Mill, Marx, Nietzsche, Strauss and Rawls.

POLSC 351  POLITICS AND RELIGION  3  
Prerequisite: POLSC 101  
This course is an intensive study of important thinkers, texts, or issues focusing on the proper relation between political authority and religious authority, law, or faith. Topics may include Christianity and politics, the rise of the political principle of religious toleration in the West, Islamic political thought, or the contemporary relation between religion and liberal democracy.

POLSC 352  THE AMERICAN FOUNDING  3  
Prerequisite: None  
A seminar on the principles and practices of America's founding statesmen. We examine how the founders formulated and reconciled ideas (natural rights, separation of powers, federalism) with interests (economic, political, regional, etc.). HIST 352/POLSC 352 credit.

POLSC 355  INTERNATIONAL ORGANIZATION  3  
Prerequisite: None  
A study of historical movements toward world cooperation, including an evaluation of the League of Nations and a study of the United Nations as well as regional organizations established since World War II.

POLSC 360  REGIONAL STUDIES  3  
Prerequisite: None  
A study of political systems of different countries or regions selected on a rotating basis, including such geographic areas or nations as Western Europe, Asia, Latin America, the Soviet Union and Japan. May be repeated for credit for different topical or area studies.

POLSC 365  CONTEMPORARY GERMANY  3  
Prerequisite: None  
A study of contemporary Germany with an emphasis on the establishment and character of democracy in that country. Examines the statesmen and politicians, as well as the constitutional, social, economic and intellectual factors that help to explain the German polity since World War II. Meets Social Science core requirement.

POLSC 370  TOPICS IN AMERICAN POLITICS  3  
Prerequisite: None  
Intensive study of a topic in the field of American government and politics. May be repeated for credit as topics change.

POLSC 375  LINCOLN  3  
Prerequisite: See HIST 375 for course description

POLSC 380  TOPICS IN POLITICAL THOUGHT  3  
Prerequisite: None  
Intensive study of some theme or thinkers in the field of political thought. May be repeated for credit as topics change.

POLSC 381  CHURCHILL  3  
Prerequisite: None  
A seminar that considers the political thought and actions of Winston S. Churchill. Readings include a number of his speeches, essays and books. e.g., My Early Life, Savrola and The Gathering Storm. HIST
381/POLSC 381 credit.

</thead>
<tbody>
<tr>
<td>PSYC 101</td>
<td>GENERAL PSYCHOLOGY I</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: None</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>This course centers around the question, How do we explain human behavior? Inquiries are framed in the context of the major theoretical perspectives emergent from the sociohistorical evolution of psychology as a field of study. Behavior topics are examined by comparing and contrasting the assumptions, research methods, and conclusions embedded within the biological, psychoanalytical, behavioral, humanistic, cognitive, and sociocultural theories. Psychological inquiries also include evaluation of how these diverse approaches converge on questions about multiple influences on human behavior. Meets Core credit for social sciences.</td>
<td></td>
</tr>
<tr>
<td>PSYC 102</td>
<td>GENERAL PSYCHOLOGY II</td>
<td>3</td>
</tr>
<tr>
<td>Prerequisite: PSYC 101</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td>A continuation of 101 with an emphasis on science and the scientific method as it pertains to selected psychological topics and issues. Meets Core credit for social sciences.</td>

PSYC 224  PSYCHOLOGY OF AGING  3
Prerequisite: None
The focus of this course is the study of the later years of the lifespan (i.e., the stage of Integrity vs. Despair as identified by Erik Erikson). Topics will include theories of aging, research methods, cognitive processes and intellect in late life, self and personality development, mental health, and clinical assessment.

PSYC 240  SENSATION AND PERCEPTION  3
Prerequisite: PSYC 101
An introductory study into how the sense modalities (sensation) provide the necessary information for the mind to analyze and interpret this information (perception) to create a mental world. Laboratory experiences will emphasize vision and audition.

PSYC 264  CHILD DEVELOPMENT  3
Prerequisite: None
A study of the factors involved in the physical, language, cognitive, social, emotional, and aesthetic development of all children, both typical and atypical from birth through age 8. The young child is studied within the contexts of family, culture, and society. Two class hours and one laboratory hour a week.

PSYC 280  SPORT PSYCHOLOGY  3
Prerequisite: None
This course is an introduction to the field of sport psychology, a subspecialty of psychology that is concerned with identifying and understanding psychological factors that can be applied to sport in order to enhance athletic performance and personal growth. Students will be introduced to major theories of sport psychology, including strengths and critiques of those theories. Major themes of the class include the study of factors influencing motivation, ways to manage competitive stress, improving concentration, effectively using visualization, coping with failure, the importance of pre-performance routines, and building and maintaining confidence.

PSYC 297  DIRECTED RESEARCH  1-3
Prerequisite: Permission
Students will work under the close supervision of a faculty mentor to implement faculty-designed research protocols, manage data from those protocols, and/or assist with the dissemination of results of such work. May be repeated for up to a total of 6 hours. (Note: Although 18 hours of Directed Research [PSYC 297/397/497] may be taken, only 3 hours may count toward a psychology major or minor).

PSYC 299  SPECIAL TOPICS  1-3
Prerequisite: PSYC 101
A course for students with a particular interest in the special topic being discussed that semester. Topics selected are not typically covered in the regular scheduled psychology courses. The focus will be on reading assignments, class discussions, and the sharing of ideas rather than formal lectures. May be repeated for different topics.

PSYC 305  SOCIAL PSYCHOLOGY  3
Prerequisite: PSYC 101
The psychological study of the individual in relation to social groups, social forces, and social problems. PSYC/SOC credit.

PSYC 306  CONSUMER BEHAVIOR  3
Prerequisite: PSYC 101
An analysis of the basic concepts and principles of consumer behavior. Emphasis will be placed on the cognitive, behavioral and social influences as they relate to consumer attitudes, perceptions and purchases. The course explores the consumer decision process and marketing efforts to influence and shape that process. PSYC 306/MKT 326 credit.

PSYC 307  PERSONALITY  3
Prerequisite: PSYC 101
A detailed investigation of the psychodynamic, behavioristic, humanistic, and dispositional perspectives as related to the four basic issues of each (i.e., theory, research, assessment, and therapy.)

PSYC 308  CHILD AND ADOLESCENT PSYCHOPATHOLOGY  3
Prerequisite: PSYC 101
This course is designed to provide students with an empirical and theoretical basis for the study of behavior disorders in children from birth to 18 years of age. Students will learn to use the DSM-5 as the basis for classification/diagnosis. Research regarding etiology and treatment methods will also be a major focus.

PSYC 310  ADVANCED RESEARCH IN PSYCHOLOGY  3
Prerequisite: PSYC 210, MATH 208
Continues PSYC 210. This course will further a student's knowledge and experiences in the area of empirical psychology. In addition to critically evaluating current literature, students will be required to design, conduct, analyze, and report the results of a semester-long project. Practical and ethical considerations of actually conducting a research project will be emphasized.

PSYC 320  COGNITIVE PSYCHOLOGY  3
Prerequisite: PSYC 101
The psychological study of the processes humas use to transform, store, manipulate, and retrieve information. Topics include perception and attention, knowledge recognition, pattern recognition, memory, problem solving, and language processing.

PSYC 324  THEORIES AND PRINCIPLES OF LEARNING  3
Prerequisite: PSYC 101
An introduction to and evaluation of the main psychological theories of learning as they apply to both human and animal behavior. Special attention will be given to the applications of those areas of theory and research which deal with factors which are known to influence the learning process.

PSYC 330  HEALTH PSYCHOLOGY  3
Prerequisite: PSYC 101
This course is an introduction to the field of health psychology, a subspecialty of psychology that concerned with how people stay healthy, how and why they become ill, and how they behave when ill. The discipline of health psychology approaches those questions using elements of psychobiology, personality psychology, social psychology, and clinical psychology. Students will be introduced to major theories of health psychology, including strengths and critiques of these theories. Major themes of the class include the study of factors influencing the practice of health behaviors, the relationship between stress and physical function, and the impact of and management of chronic illness.

PSYC 393/493  ELECTIVE INTERNSHIP  1-3
Prerequisite: None
Provides psychology majors experiential learning within various social service agencies and work settings related to the student's career interests under the supervision of an onsite coordinator. This offering may be repeated up to a total of 6 credit hours with permission of the student's advisor and the department chair. These credits cannot be used as substitutes for the required psychology course credits as identified in the catalog.

PSYC 397  DIRECTED RESEARCH  1-3
Prerequisite: Permission
Students will work under the close supervision of a faculty mentor to implement faculty-designed research protocols, manage data from those
protocols, and/or assist with the dissemination of results of such work. May be repeated for up to a total of 6 hours. (Note: Although 18 hours of Directed Research [PSYC 297/397/497] may be taken, only 3 hours may count toward a psychology major or minor).

PSYC 401 PSYCHOLOGICAL TESTS AND MEASUREMENTS 3
Prerequisite: PSYC 101
An introductory course in basic measurement concepts and procedures. Evaluation and use of standardized tests, including individual and group testing of achievement, intelligence, aptitude and personality. Elementary statistics concepts related to testing and measurement are covered.

PSYC 412 PHYSIOLOGICAL PSYCHOLOGY 3
Prerequisite: PSYC 101; 3 hrs. of biology recommended
A study of the anatomical, physiological and biochemical aspects of learning and memory, cognitive processes, motivational systems and basic sensory and motor functions.

PSYC 414 NEUROPSYCHOLOGY 3
Prerequisite: PSYC 101; at least junior status; 3 hrs. biology recommended
A study of the central nervous system damage, symptoms, diagnosis and treatment of brain damaged individuals. Topics may include neuropsychological disorders of movement, sensations and perceptions, language, memory, learning, developmental disorders, and psychiatric disorders. A review of the current literature surrounding such disorders will be an integral part of the course.

PSYC 417 ABNORMAL PSYCHOLOGY 3
Prerequisite: PSYC 101
A thorough study of the history, assessment, and classifications of abnormal behaviors. The DSM-5 is used as the basis for the classification and diagnosis of all mental and emotional disorders.

PSYC 455 PSYCHOLOGY OF INTIMATE RELATIONSHIPS 3
Prerequisite: PSYC 305 and at least junior status
This course is an overview of classic and contemporary theory and research on the psychology of intimate relationships, focusing primarily on romantic relationships. This course approaches the topic of close relationships from a psychological viewpoint, such as the examination of individual psychological processes, as well as the psychological underpinnings and scientific study of intimate relationships. As such, this course will cover theoretical perspectives, research methods, attraction, social cognition, interdependency, friendship, love, stressors in a relationship (e.g. infidelity, jealousy), relationship maintenance, conflict and conflict resolution, and dissolution. A review of the current literature (i.e., primary source articles) surrounding such topics will be an integral part of the course.

PSYC 495 SENIOR SEMINAR IN PSYCHOLOGY 3
Prerequisite: PSYC 210 & 6 hours in PSYC at 300 level or above
PSYC 495 is an advanced course in Psychology focusing on the current literature (i.e., psychological journal articles) in a selected topic. Students will develop their critical thinking and communication skills through reading, critiquing, and discussing research writing in a discussion-based seminar style setting.

PSYC 497 DIRECTED RESEARCH 1-3
Prerequisite: Permission
Students will work under the close supervision of a faculty mentor to implement faculty-designed research protocols, manage data from those protocols, and/or assist with the dissemination of results of such work. May be repeated for up to a total of 6 hours. (Note: Although 18 hours of Directed Research [PSYC 297/397/497] may be taken, only 3 hours may count toward a psychology major or minor).

PSYC 594 ADVANCED STUDY OF CHILD DEVELOPMENT 3
Prerequisite:
This course focuses on the advanced study of various stages of cognitive, language, physical, social, emotional, and moral development of children within the context of family, culture, and community. The interrelatedness of theory and research as a foundation for effective practices with children is emphasized.

PSYC 640 SPECIAL TOPICS 1
Prerequisite:
Individual or group studies of course work in psychology. Graduate standing, permission of the professor of record, and the approval of the director of graduate studies in education.

RECREATION (REC)

REC 240 FUNDAMENTALS OF THERAPEUTIC RECREATION 3
Prerequisite: None
Psychological, sociological, and historical significance of therapeutic recreation; the philosophy, theories, and practices of health and human service professionals; needs and implications of therapeutic recreation with persons with disabilities.

REC 330 TECHNIQUES IN THERAPEUTIC RECREATION 3
Prerequisite: REC 240
Ability to implement a variety of individual and group techniques, utilize a variety of assistive and adaptive devices and techniques, apply therapeutic recreation content and services, use instruction, supervision, and leadership techniques, and apply activity and task analysis in the delivery of services.

REC 341 PRINCIPLES OF THERAPEUTIC RECREATION 3
Prerequisite: REC 240
Introduction to the therapeutic recreation process to design comprehensive and individual treatment plans, considering the interrelationships of health and human service professionals and standards of practice using case studies.

REC 362 LEISURE EDUCATION AND COUNSELING TECHNIQUES 3
Prerequisite: REC 240
Theory of group dynamics, leadership techniques and strategies, interpersonal relations, decision making, communication processes, therapeutic group interventions, helper relationships, and concepts and application of leisure education.

REC 407 THERAPEUTIC RECREATION PROGRAMMING AND ADMINISTRATION 3
Prerequisite: REC 240
Course focuses on the current professional issues and techniques related to comprehensive program design, implementation, documentation, and evaluation. Content includes documentation, protocols, quality indicators, credentialing, ethical issues, regulations, standards of practice, reimbursement, marketing, budgeting and factors affecting professional accountability.

RELIGION (REL)

REL 106 EXPLORING THE BIBLE 3
Prerequisite: None
An introductory study in which students gain an overview of the Bible, engage in literary analysis of Biblical texts and explore the Bible’s contemporary relevance. College-level writing skills are required.
Meets Core credit for Religion.

REL 107   EXPLORING WORLD RELIGIONS  3
Prerequisite: None
An introductory exploration of historical developments, beliefs and practices in selected Eastern and Western world religious traditions. Since students will be introduced to methods for analyzing and interpreting sacred texts, college level writing skills are required. Meets Core credit for Religion.

REL 109   EXPLORING CHRISTIAN ETHICS  3
Prerequisite: None
An introductory exploration of principles, movements and topics of Christian theological ethics. This course guides students through complex questions of moral reasoning and some of the Biblical, historical and theological resources used to address them. Topics may include immigration, homosexuality and same-sex marriage, forgiveness and reconciliation, justice, war, and abortion. College level writing skills are required. Meets Core credit for Religion.

REL 208   EXPLORING CHRISTIAN THEOLOGY  3
Prerequisite: None
An introduction to the central doctrines of the Christian faith that is both critically respectful of classic theological traditions and critically open to the new voices and emphases of recent theologies. Students will become familiar with systematic theological categories and develop interpretive skills through the careful reading, analysis and discussion of theological texts.

REL 213   LIFE AND LETTERS OF PAUL  3
Prerequisite: None
Examination of Saul/Paul through a careful study of the Book of Acts and the letters attributed to Paul, aided by useful secondary sources. Of interest are not only the social and theological concerns addressed by the apostle Paul but also the ways in which his teachings apply to the contemporary world.

REL 214   CHRISTIAN FORMATION  3
Prerequisite: None
Investigates how Christians grow in faith, understanding and commitment, and considers how to encourage and nurture such growth. Explores the biblical, theological, historical and cultural foundations of Christian formation; identifies and analyzes specific practices and connections between Christian formation and other areas of the Christian life such as worship, service, and mission.

REL 220   TAKING HUMAN LIFE  3
Prerequisite: None
Deals with the questions of whether it is permissible to take human life and if so, what the conditions might be that warrant or limit such behavior. Examines the issues of euthanasia, abortion, capital punishment, suicide and warfare from literary, philosophical, social, scientific, and religious perspectives, mainly from the Judeo-Christian viewpoint. Meets Core credit for humanities.

REL 231   HISTORY OF CHRISTIANITY TO THE REFORMATION  3
Prerequisite: REL 106
Focuses on the history of Christianity from the 1st to the middle of the 17th century. Emphasis will be primarily on the social context within which Christianity developed, and secondarily on Christian thought during the period.

REL 232   HISTORY OF MODERN CHRISTIANITY  3
Prerequisite: REL 106
Focuses on the history of Christianity from the mid-17th century to the present. Emphasis will be primarily on the social context within which modern Christianity developed, and secondarily on Christian thought through the period.

REL 233   HISTORY OF RELIGIONS IN AMERICA  3
Prerequisite: REL 106
Focuses on the history of religions in America from the mid-16th century to the present. Emphasis will be primarily on the social context within which American religions developed and secondarily on American religious thought during the period.

REL 234   HISTORY OF CHRISTIAN WORSHIP  3
Prerequisite: None
This course investigates the history of Christian worship from the New Testament church to the present day. The course will concentrate on the actual experience of worship for regular churchgoers and so will pay attention to material culture, art, music and architecture as well as the social, political, philosophical and theological contexts within which Christian worship developed.

REL 240   JEWISH RELIGIOUS TRADITIONS  3
Prerequisite: Core religion course
This course deals with a question that is central to all Jewish religious traditions: how do written and oral traditions combine to create the fabric of contemporary Jewish life? This question will be explored through selected Rabbinic writings and methods of Jewish Biblical interpretation, as well as distinctive Jewish religious practices and observances within the major movements in contemporary Judaism. Meets Core credit for humanities.

REL 250   UNDERSTANDING ISLAM  3
Prerequisite: None
An investigation of the basic beliefs and practices in Islam as they are understood and observed in various parts of the world. The course approaches Islam by focusing upon the ways that oral and written traditions combine with cultural factors to create the fabric of contemporary Islamic life. Topics include the foundations of Islam, the sources of legislation in Islam (Qur’an and Hadith), central ritual observances and social aspects of Islam in the contemporary world. This course has been approved to fulfill core Humanities.

REL 260   SHORT TERM MISSIONS  3
Prerequisite: None
REL 260 explores the development, theology, and practice of international short-term mission trips; introduces students to culture theory; and provides students with opportunities to develop skills in cross-cultural understanding and communication with particular cultures. Students will have opportunities to interview participants, organizers, and leaders in the STM field in person and/or through technology. Meets CCI credit when completing the course with the study away component and the corresponding CCI narrative.

REL 301   TOPICS IN RELIGION  3
Prerequisite: None
An in-depth study of a particular topic in religion that is not covered in the regularly scheduled religion courses, for example, foundations for Biblical study in OT Hebrew and NT Greek, contemporary issues in political theology and selected theological themes. The course will feature frequent writing assignments and in-depth reading on the subject matter. May be repeated for credit as topics change.

REL 304   ADVANCED OLD TESTAMENT  3
Prerequisite: REL 106
An in-depth study of the Hebrew Scriptures focusing on selected sections and themes. Students will conduct literary analyses of OT texts while also examining ways in which narratives of the Hebrew Bible are used to formulate Jewish and Christian theology and ethics.

REL 305   ADVANCED NEW TESTAMENT  3
Prerequisite: REL 106
An in-depth study of the New Testament focusing on the four canonical Gospels. Students will conduct literary analyses of NT texts while also
examining how these documents provide evidence for the early Jesus traditions and other developments in the early Christian communities.

**REL 307  WORLD RELIGIOUS TRADITIONS: EAST AND WEST**
3
**Prerequisite:** REL 106 or REL 107
An advanced inquiry into selected topics within Judaism, Islam, Hinduism and Buddhism. Special focus will be placed on primary texts (the Tanakh, the Qur’an, the Bhagavad Gita and selected Buddhist scriptures) as we examine the world views and ethical teachings that have developed in each tradition.

**REL 308  FAITH AND SOCIETY**
3
**Prerequisite:** REL 106, REL 107 or REL 109
This course introduces students to several of the major, current topics within political theory—from liberalism's and democracy's champions and detractors, to the role of religious commitments in a pluralist society, to how the Bible is used and read differently in different political contexts, to questions of gender and post-colonialism. In addition, students will develop interpretive skills through the careful reading, analysis, and discussion of texts in contemporary political theology. Meets Core credit for humanities.

**REL 311  YOUTH MINISTRY**
3
**Prerequisite:** None
An examination of the characteristics of contemporary youth and youth culture including an analysis of the implications of these characteristics for the church. Emphasis is placed on the practical aspects of organizing, planning, and implementing church and para-church youth ministries.

**REL 340  RELIGION AND THE CIVIL RIGHTS MOVEMENT IN AMERICA**
3
**Prerequisite:** Permission of instructor when offered with a required service learning (SL) component
This course examines the involvement and non-involvement of churches and people of faith in the movement for civil rights in the United States. Contextualized in the History of America's racialized society, both African American and white religious responsibilities for, and responses to, social injustice are examined through the reading of autobiographies, primary documents, and secondary sources. Meets Core credit for humanities.

**REL 341  WORLD CHRISTIANITY, CULTURE AND MISSION**
3
**Prerequisite:** None
An exploration of post-colonial Christianity and Christianity outside the cultural west through the lenses of particular cultural contexts, culture theory, and the history, theology, and practice of Christian mission. Includes practicing skills for cultural proficiency and enabling students to become citizens aware of their global responsibilities.

**REL 375  UNDERSTANDING ISRAEL**
4
**Prerequisite:** None
A multi-disciplinary course which may be offered in conjunction with a trip to Israel that features the study of biblical geography; biblical history; the story of Christianity, Judaism and Islam in what is now the modern State of Israel; and contemporary social and political issues in Israel. Religion elective and/or Study Away/CCI. (Students who participate in the Israel trip and satisfactorily complete the CCI narrative receive CCI credit.)

**REL 400  CHRISTIAN LITERATURE**
3
**Prerequisite:** REL 106
This course is designed to acquaint the student with the rich heritage of Christian literature. Selected writings from the theological, devotional and general literary work of Christian writers are read and discussed.

**REL 401  SEMINAR IN CHRISTIAN ETHICS**
3
**Prerequisite:** REL 106 or REL 109
This is an advanced course in religious ethics focusing on primary source readings of Christian ethics in the 20th century from authors such as Niebuhr, Ramsey, Yoder, and Hauerwas, examining their methodologies, religious contexts, theological assumptions, and anthropological conclusions, and how these affect their affect their treatment of particular issues.

**REL 404  SEMINAR IN CHRISTIAN THEOLOGY**
3
**Prerequisite:** REL 106 or REL 109
The careful reading and interpretation of primary source materials in Christian theology. The goals are familiarization with contemporary Christian theology and the acquisition or sharpening of research and writing skills for use in future graduate work, pastoral ministry, or independent study.

**REL 450  SEMINARY COURSE IN BIBLICAL STUDIES**
3
**Prerequisite:** 3.0 GPA minimum, junior status; Religion Department Chair approval
An ATS topics course in Biblical studies which investigates sections or books of the Bible. May be repeated once for a different topic. See department chair for information.

**REL 451  SEMINARY COURSE IN CHRISTIAN HISTORY, THEOLOGY, AND PHILOSOPHY**
3
**Prerequisite:** 3.0 GPA minimum, junior status; Religion Department Chair approval
An ATS topics course in Christian history, theology and/or philosophical studies. May be repeated once for a different topic. See department chair for information.

**REL 452  SEMINARY COURSE IN PRACTICAL THEOLOGY**
3
**Prerequisite:** 3.0 GPA minimum, junior status; Religion Department Chair approval
An ATS topics course in Christian ministry or practical theology. May be repeated once for a different topic. See department chair for information.

**REL 497  RELIGION THESIS SEMINAR**
3
**Prerequisite:** REL 106
Designed to give religion majors a guided opportunity to research and write a paper on a topic of interest in their area of concentration.

**SUPPLY CHAIN MANAGEMENT (SCM)**

**SCM 243  PROCUREMENT**
3
**Prerequisite:** MKT 233
This course will introduce the student to the principles of procurement. The course will focus on the purchasing process and structure as well as supplier evaluation.

**SCM 316  SUPPLY CHAIN MANAGEMENT**
3
**Prerequisite:** MATH 208, MKT 233, or MGT 240
Physical distribution management involves the integration of the purchasing, production, control, warehousing, transportation, materials handling, forecasting, order processing and marketing functions in a modern business. A relatively new area of management study, physical distribution draws upon the fields of marketing, production, accounting and transportation, and the disciplines of applied mathematics, organizational behavior and economics.
Course Descriptions

SCM 350 LOGISTICS 3
Prerequisite: SCM 316
This course will introduce the student to the principles of logistics. The course will focus on information, warehousing, and transportation mode requirements necessary for the development of a comprehensive logistics system.

SCM 351 LEAN PRODUCTION AND QUALITY 3
Prerequisite: MGT 319
This course will introduce the student to the principles of lean production and quality management. The course will focus on the identification of quality requirements and lean production procedures. The student will learn the use of these techniques and procedures in the context of application to supply chain management.

SCM 431 SUPPLY CHAIN STRATEGY 3
Prerequisite: SCM 351
This course will focus on the integration of operational supply chain plans, including procurement, warehousing, inventory management, and transportation requirements, into a macro supply chain strategy that is a critical element of a total business strategic plan.

SPORT MANAGEMENT (SMG)

SMG 122 BADMINTON 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 124 BILLIARDS 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 125 BOWLING 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 133 GOLF I 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 147 TENNIS I 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 151 VOLLEYBALL 1
Prerequisite: None
Each section meets two hours per week (or equivalency) for a half semester. Each section earns one semester credit. Sport skills and activities are taught for recreational and health outcomes. Special corrective work is given to meet individual needs upon recommendation of the school physician. Graded S/U.

SMG 161 INTRODUCTION TO SPORT, RECREATION, AND LEISURE 3
Prerequisite: None
A survey of the historical development of recreation and leisure and its corresponding philosophical and theoretical thought. Understanding of and ability to facilitate leisure lifestyles and use of leisure resources throughout the human life span.

SMG 168 FIELD EXPERIENCE IN SPORT I 1
Prerequisite: None
Initial experience in various leisure delivery settings at approved sites under qualified personnel. 30-60 clock hours minimum.

SMG 238 FIELD EXPERIENCE IN SPORT II 2
Prerequisite: SMG 168
Field experience in approved leisure, sport, or therapeutic recreation service delivery systems with qualified supervisor during sophomore or junior year following completion of prerequisite major courses. 60 clock hours minimum, with exposure to various sites and clientele.

SMG 255 LEADERSHIP: THEORY AND PRACTICE 3
Prerequisite: None
An introduction to theories, approaches, and styles of leadership utilized in the recreation profession. Topics for study include decision-making strategies, motivation techniques, communication, non-verbal communication, group dynamics, diversity, trends, values, ethics, and vision.

SMG 262 FACILITIES DESIGN/EVENT MANAGEMENT IN SPORT 3
Prerequisite: SMG 161
This course examines the principles and procedures for planning, designing, operating, and maintaining the facilities, resources, and areas of leisure services. This course increases the awareness of knowledge and skills in event planning and management as applied to a variety of sport and recreational settings.

SMG 270 INTRODUCTION TO TOURISM 3
Prerequisite: None
An introduction to the various facets of tourism and the tourism industry. The relationships among psychological, sociological, anthropological economic and environmental issues associated with tourism will be examined.

SMG 310 CURRENT TRENDS IN SPORT 3
Prerequisite: Sophomore status
The purpose of this course is for students to learn about current trends related to the management and operation of resort, private club properties, sport and recreational values. This course will be a project-based course which will encourage students to study and explore the historical development, economic influence and demographic impact of these various venues. Topics will include private club and resort management, sport and recreational management, customer service, advertising, outdoor programming, and diversity implications.

SMG 313 OUTDOOR PROGRAMMING 3
Prerequisite: None
The role of outdoor education and recreation in today's society; functions and policies, current issues, development of outdoor education programs and adventure challenge activities.

SMG 329 LEGAL ASPECTS 3
Prerequisite: SMG 161 or ATR 165
Course covers the different types of laws that affect the fields of
recreation, therapeutic recreation, athletics and sport in the areas of facility supervision, tort law, professional regulations, risk management, liability, negligence, contract law, constitutional law, trademark laws, Title IX and others.

SMG 360  RESEARCH IN SPORT  3
**Prerequisite: MATH 208**
This course includes the investigation of current issues and research in sport management. It also incorporates using computer applications such as SPSS software to analyze research data and business statistics.

SMG 370  INTERNATIONAL TOURISM  3
**Prerequisite: None**
This course introduces students to the field of international tourism from the political, social, environmental, cultural, and applied (business) perspectives. The course is designed to incorporate both lecture and seminar learning.

SMG 404  PSYCHOLOGY OF SPORT AND COACHING  3
**Prerequisite: ATR 165 or SMG 161; PSYC 101 recommended**
Acquaints the student with the wide realm of sports in modern society. A discussion of general psychological factors which characterize sports, such as personality of the athlete, personality of the coach, motivation, emotion, aggression, and social factors which are unique in sports and coaching.

SMG 405  MANAGEMENT OF SPORT  3
**Prerequisite: MGT 240**
Analysis of administration philosophy, standards, policies and procedures in the sport industry.

SMG 408  ETHICS AND SOCIAL ISSUES IN SPORT AND PHYSICAL ACTIVITY  3
**Prerequisite: SMG 161**
An exploration of the changing concepts of the sport sciences over time. The student is given the opportunity to apply philosophical, historical and sociological foundations to practical issues in sport and physical activity. The focus on current issues and their development is a central component of this course.

SMG 415  SPORT MARKETING  3
**Prerequisite: MKT 233**
This course provides basic principles of marketing and the nuances of such applied to the managed sport industry (i.e., intercollegiate athletics, youth sports, professional sport, recreation, fitness, multi-sport club operations, etc.) Students will examine and utilize basic marketing principles in the domain of sport. Topics will include sport products and services, marketing strategies, consumer behavior, research and information management, promotions, targeting, segmenting, positioning, and sponsorship.

SMG 420  GOVERNANCE & POLICY IN SPORT ORGANIZATIONS  3
**Prerequisite: SMG 161**
An examination of sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, non-profit and professional sport venues will also be addressed.

SMG 430  FINANCIAL PRINCIPLES IN SPORT  3
**Prerequisite: SMG 161, ACCT 201, ECON 232**
This course examines the monetary aspects of the sport industry. Applications are made both industry-wide and to specific sport organizations.

SMG 435  GLOBAL PERSPECTIVES IN SPORT  3
**Prerequisite: None**
An interdisciplinary examination of sport as a global phenomenon.

Historical, cultural, economic, and governance perspectives will be considered.

SMG 440  PROFESSIONAL SEMINAR IN SPORT MANAGEMENT  3
**Prerequisite: Permission**
Professional trends and issues including legislation, laws, credentialing, accreditation, ethical and social issues, regulations, advocacy, and changes in management and health care.

SMG 450  INTERNSHIP IN SPORT  6
**Prerequisite: Permission**
A full-time, 12-week, 480-hour experience in an approved sport recreation and/or leisure agency setting under the direction of a qualified university supervisor.

SMG 572  SPORT MANAGEMENT  3
**Prerequisite:**
Analysis of administration, philosophy, standards, policies and procedures for implementing sports programs. Development of an understanding of the administrative analysis and its relationship to decision making.

SMG 574  SOCIAL AND ETHICAL ISSUES IN SPORT  3
**Prerequisite:**
An historical, philosophical, and sociological examination of ethical and social issues related to sport in its dimensions as play, competition, leisure, education, and work.

SMG 580  SPORT MARKETING AND PROMOTION  3
**Prerequisite:**
This course is an examination of the marketing and promotion of professional, intercollegiate, and recreational sport.

SMG 581  LEGAL ASPECTS IN SPORT ORGANIZATIONS  3
**Prerequisite:**
An examination of the U.S. legal system as it relates to the sport industry specifically. Topics to be considered include liability, negligence, discrimination, defenses, and contracts. Special attention will be directed toward laws and court cases that are pertinent to the sport and recreation professional, e.g. Title IX, Title VII, ADA.

SCHOOL NURSING PROGRAM (SNP)

SNP 518  SCHOOL HEALTH AND ENVIRONMENTAL ISSUES  3
**Prerequisite: None**
A study of the determinants of health and the impact they have on the health outcomes and academic indicators seen in the school setting. Students will be addressing these issues through the application of school-based needs assessments and intervention plans integrating coordinate school health and school improvement planning to address student needs. This planning process will include exposure to the CDC School Health Index, ASCD School Improvement Tool, and the CDC/ASCD Whole Student, Whole School, Whole Community Model.

SNP 520  EDUCATIONAL STRATEGIES FOR HEALTHCARE PROVIDERS  2-3
**Prerequisite: None**
The course provides healthcare providers with a foundation in educational strategies useful in any setting where healthcare is delivered. The focus for study is specific roles and responsibilities of the professional healthcare provider to educate patients, peers, and/or the community. Curriculum concepts emphasized are pedagogical and adult learning theories; teaching methods that incorporate unique
learner needs and styles of learning; professional responsibility to educate; program and learner evaluation strategies; and supportive and active learning environments. Students in the school nursing program will consider course concepts specifically in the context of school health education for school age populations.

SNP 525  HEALTH CARE OF THE SCHOOL COMMUNITY  2
Prerequisite: Admittance to SNP program, recommended to take first in sequence of courses
Utilizing the National Association of School Nurses (NASN) Framework for 21st Century School Nursing Practice, students will gain foundational knowledge and skills of school nursing practice. The focus of this course is school nursing practice and the health care of a school community. The population of interest is students in the school, focusing on children as a vulnerable population because of their age. Sub-populations of school children may be considered vulnerable populations for reasons other than their age such as having special health care needs. The fundamental components of school nursing practice will be discussed in reference to the outcome of students who are healthy, safe, and ready to learn.

SNP 680  INTERNSHIP FOR SCHOOL NURSE CERTIFICATE  2-4
Prerequisite: SNP 518, 520, 525, PSYC 594, EDIS 546
This internship is designed to prepare the Bachelor’s prepared registered nurse (RN) for practice as a school nurse in the provision of school nursing and school health services with children and youth which meets the standards of the profession and the requirements of the State of Ohio. This is a precepted and/or supervised experience which provides the opportunity for the student to orient to the role of the school nurse. Under supervision, the student intern gradually assumes new roles in the supervision of others. The school nurse candidate is expected to gradually assume the school nurse role and responsibilities without the preceptor being present; however the preceptor shall be available at all times, and the school nurse candidate will not serve as a substitute school nurse during the experience, if they do not hold a substitute license. This study is broadening experience that involves the application of knowledge, skills, and attitudes obtained by the school nurse intern during the required courses specific to the school nursing certificate program.

SOCIOLOGY (SOC)

SOC 111  PRINCIPLES OF SOCIOLOGY  3
Prerequisite: None
The focus of this course is centered on an in depth examination of social forces and their impact on social structure, sociocultural evolution and the socialization process. The theoretical perspectives, concepts, and principles of sociology are then applied to various areas of sociology such as social organization, culture, social structure, social interaction, social stratification, social inequality, social deviance and social institutions. Meets core credit for social sciences.

SOC 202  ALCOHOLISM AND SUBSTANCE ABUSE  3
Prerequisite: None
This course is designed to give a general overview of the role and extent of the alcohol/chemical use abuse, and dependency in our society. Areas to be discussed include examining our personal and societal attitudes, defining and understanding the stages of addiction, gaining specific expertise in intervention and helping techniques, looking at the problem of DWI in our country and studying the impact of chemical dependency on the family members and significant others.

SOC 223  SOCIOLOGY OF AGING  3
Prerequisite: None
Course will examine the societal aspects of aging; the meaning and consequences of aging; cultural and ethnic issues; and the interaction of the aging with political, economic, and other social phenomena. Course focus begins at the later stage of middle adulthood, and progresses through older adulthood.

SOC 225  CONTEMPORARY SOCIAL PROBLEMS  3
Prerequisite: SOC 111
An in-depth study of selected social problems, emphasizing major theoretical approaches to understanding problem situations. Particular attention is given to diversity and oppression as they impact on life in contemporary America.

SOC 242  CRIMINOLOGY  3
Prerequisite: None
See CJ 242 for course information.

SOC 244  JUVENILE DELINQUENCY  3
Prerequisite: None
See CJ 244 for course information.

SOC 275  GANGS AND CULTS  3
Prerequisite: None
Examines the historical and contemporary issue of gangs and cults in United States and focuses on gang and cult recruitment, subculture, beliefs, activities, signs, and symbols. CJ/SOC credit.

SOC 301  RACE, ETHNIC AND MINORITY ISSUES  3
Prerequisite: None
The course will examine the interaction between the dominant and minority cultures particularly within the United States. Students will be introduced to a transnational perspective; exploring groups who have immigrated to the United States, but share a set of cultural values shaped by their homeland, especially in the areas of human interaction, social expectations, economics, religious and political movements. The concept of culture will be discussed in terms of both the majority culture, which provides the social framework that encourages assimilation and fusion, and the minority sub-culture that strives and struggles to maintain a sense of identity. The consequences of living in a multi-ethnic, multi-faith, and multi-cultural society will also be studied. Meets Core credit for social sciences.

SOC 305  SOCIAL PSYCHOLOGY  3
Prerequisite: None
See PSYC 305 for course information.

SOC 307  VICTIMOLOGY  3
Prerequisite: None
See CJ 307 for course information.

SOC 330  TOPICS IN SOCIOLOGY  3
Prerequisite: None
A concentrated analysis of social institutions in specialized areas. Topics include politics, education, religion, sports, medicine, collective behavior, etc. On demand, repeatable to a maximum of nine semester hours.

SOC 340  MARRIAGE AND FAMILY RELATIONSHIPS  3
Prerequisite: None
This course explores the similarities and differences among families and marriages, family structures and functions, changes throughout the family life cycle, and the history of marriage and family in American culture. Critical topics in the area of marriage and family relationship, including events and attitudes leading to the formation of family units (defining love, dating, pairing up, cohabitation, marriage); problems and experiences arising from the institution of the family (gender roles, conflict, parenting, work/life balance, divorce, remarriage); and development of a philosophy regarding marriage and family life will be explored. Meets Core credit for social sciences.
SOC 352 SOCIAL DEVIANCE 3
Prerequisite: SOC 111
The systematic and objective study of human behavior and phenomena that conventional society has labeled different, rule-breaking and norm-violating.

SOC 355 HUMAN SEXUALITY 3
Prerequisite: None
An examination of such topics as sexual potential and development, reproduction, psychosexual factors, values, morality, sexual varieties, social influences, sexual problems, sexual diseases, love, sexual expression, and the role of the schools, mass media, the arts, professional preparation programs, education, and the family in sex education.

SOC 360 RESEARCH METHODS IN SOCIAL SCIENCE 3
Prerequisite: MATH 208, SOC 111; senior status
An introduction to methodological techniques of research in the social sciences. Emphasis is placed on quantitative and qualitative research methodologies as they relate to building knowledge for practice and to evaluating service delivery in all areas of practice. Research ethics, analysis and evaluation of theoretical bases, research questions, analysis of data, and use of technology are covered. SOC/SOCWK credit.

SOC 415 ADVANCED CRIMINOLOGY AND PROFILING 3
Prerequisite: None
See CJ 415 for course description.

SOC 640 SPECIAL TOPICS 1
Prerequisite: Individual or group studies of course work in sociology. Graduate standing, permission of the professor of record and the approval of the director of graduate studies in education.

SOCIAL WORK (SOCWK)

SOCWK 221 INTRODUCTION TO SOCIAL WORK 3
Prerequisite: SOC 111 or PSYC 101
This course is designed to introduce students to the field of social work. It offers an overview of the settings in which social workers practice, the populations they encounter, the social problems they address, and the interventions they utilize. Students are introduced to systems theory, social policies with guide practice and the historical underpinnings of the social work profession. The course will examine the knowledge, values, ethics, and skills necessary for the effective practice of social work with diverse populations. Students complete an agency volunteer/shadowing experience.

SOCWK 230 GLOBAL HUMAN RIGHTS AND SOCIAL JUSTICE
Prerequisite: None
This course will explore global social justice issues through the lens of various human rights documents. Issues to be examined include forced labor, war and conflict, and violence against women and children. The history and development of these issues, how culture of individual countries and regions affect the issues and responses, as well as possibilities for the resolution of the issue will be examined.

SOCWK 250 FOUNDATIONS OF SOCIAL WELFARE 3
Prerequisite: None
This course examines and analyzes the history of social welfare in the United States to understand the context of social welfare movements and policies. Emphasis will be placed on the volunteer beginnings of social work which led to the development of the social work profession, and to issues of poverty and social, political, and economic justice that affect oppressed groups in American Society.

SOCWK 265 PARENT-CHILD RELATIONSHIPS 3
Prerequisite: None
Explores parent/child relationships from infancy through adolescence. The course addresses parenting philosophies, child guidance strategies, family diversity, and challenges to contemporary parents and their children. The dynamics of parent/child interactions are analyzed from a systems perspective that considers the reciprocal impact of children on parents as well as parents on their children. Includes understanding and facilitating parents in their parenting role.

SOCWK 304 HUMAN BEHAVIOR ACROSS THE LIFESPAN
Prerequisite: SOCWK 221 or Sophomore status
This course focuses on individuals as they develop over the life span and have membership in various systems such as families, groups, organizations and communities. It provides students with theories and knowledge related to biological, social, psychological, spiritual and cultural variables. It addresses the environmental conditions that promote or deter individual and family growth; the reciprocal impact of people and a range of environmental systems; and variations in development and functioning that arise from diversity factors. The course provides the foundation for completing accurate assessments of human problems, choosing intervention strategies and evaluating interventions.

SOCWK 305 FAMILY VIOLENCE
Prerequisite: None
This course examines the dynamics of power and control in intimate relationships. Theories from the social sciences, particularly sociology, are used to assess these dynamics and the socio-cultural setting in which they exist. Readings introduce the historical status of women and children; dramatic exercises provide experiential learning about being involved in situations of power and control.

SOCWK 306 SOCIAL ENVIRONMENT AND HUMAN BEHAVIOR
Prerequisite: SOC 301 or co-requisite
A continuation of the study of individual interaction with the social environment, particularly with larger systems such as organizations and rural and urban communities. Students learn the dynamics of oppression and the effects of oppression on the social and economic circumstances of members of diverse and at risk populations.

SOCWK 310 SOCIAL WORK PRACTICE I 3
Prerequisite: SOCWK 221 or Department's permission
This course is designed to provide students with a generalist approach to social work practice and basic knowledge of social work methods. Areas of study include social work values and ethics, problem-solving, the client worker relationship, interviewing and relationship-building skills, group process and professional writing. For social work majors only.

SOCWK 312 SOCIAL WORK PRACTICE II 3
Prerequisite: SOCWK 304, SOCWK 310, a grade of C or better in SOCWK 310
Continues the generalist approach to social work practice. Students learn the social work process, along with interviewing skill refinement, and the processes and skills involved in working with families. Attention is given to differential assessment and intervention skills that will enable practitioners to serve diverse populations and practice competently across rural and urban settings.

SOCWK 320 TOPICS IN SOCIAL WORK 3
Prerequisite: None
A focused study of a particular area of social work practice, including assessment of problem situations and helping efforts directed at remediating problems. Topics include case management, women's issues, working with children, and others. Course can be repeated as topics change.
SOCWK 323  LATER ADULTHOOD IN THE FAMILY  3

Prerequisite: None

The study of later adulthood, focusing on relationships, kinship ties, living arrangements, and financial issues within the family context. The course will examine the reciprocal effects of decision-making and caring for an aging adult on the individual and the family.

SOCWK 324  WORKING WITH OLDER ADULTS  3

Prerequisite: None

This course provides a comprehensive approach to working with older adults. Areas of study include the ethical basis for practice, forming and maintaining the working relationship, interviewing skills, problem-solving with assessment and intervention skills, professional writing, and knowledge of relevant social policy.

SOCWK 330  INTERNATIONAL PERSPECTIVES ON WOMEN  3

Prerequisite: None

This course focuses on women's issues from an international perspective and addresses the diversity and similarity of women's experiences worldwide. It considers the scope of gender injustice and the variety of factors (e.g., social, economic, political, religious) that contribute to it. The course examines current cross-cultural attitudes toward the family, women's work, and women's status and explores international gender equality movements and women's rights as human rights.

SOCWK 350  DEATH AND DYING  3

Prerequisite: None

This course explores concepts related to death and dying, death perceptions from childhood through older adulthood, social and cultural attitudes, insights into the needs of the dying person and family, one's own beliefs and feelings toward the death of others and self, and the ethical aspects surrounding death. The student will study current theories and practices related to death and dying from the standpoint of developmental and systems theories, and social and cultural attitudes and practices.

SOCWK 360  RESEARCH METHODS IN SOCIAL SCIENCE  3

Prerequisite: MATH 208 or co-requisite, SOC 111

An introduction to methodological techniques of research in the social sciences. Emphasis is placed on quantitative and qualitative research methodologies as they relate to building knowledge for practice and to evaluating service delivery in all areas of practice. Research ethics, analysis and evaluation of theoretical bases, research questions, analysis of development. Students are exposed to theoretical frameworks and acquire data, and use of technology are covered. SOC/SOCWK credit.

SOCWK 408  SOCIAL POLICY DEVELOPMENT AND ANALYSIS  3

Prerequisite: SOCWK 221, SOCWK 250, and senior status

A continuing examination of social welfare policy, with emphases on current policy, policy analysis, and skills for influencing policy development. Students are exposed to theoretical frameworks and acquire practical skills in policy analysis and are introduced to theories and skills of influencing for change.

SOCWK 412  SOCIAL WORK COMMUNITY PRACTICE  3

Prerequisite: SOCWK 306, SOCWK 312, SOC 225 (or co-requisite); a grade of C or better in SOCWK 312

This course focuses on the theories and strategies that allow a generalist social worker to recognize and act on the need for change in larger systems such as organizations, communities, and societal institutions in order to ensure that human and civil rights are protected, that resources are equitably distributed, add that opportunities are available to all.

SOCWK 417  PRE-PRACTICUM SEMINAR  1

Prerequisite: SOCWK 306, SOCWK 312; Co-requisites SOCWK 408, SOCWK 412

This course is designed to prepare students for beginning professional entry-level generalist practice. This course will review issues related to agency based work environments and service delivery in a generalist framework, discuss current issues in the field, and focus on the professional use of self. The course covers ethical practice documentation, supervision, and the development of a learning contract. The process of arranging the field practicum (SOCWK 418 Field Instruction) for the subsequent spring semester takes place as part of this course. Graded S/U.

SOCWK 418  FIELD INSTRUCTION  12

Prerequisite: All SOCWK academic courses with a minimum of 2.25 GPA; a grade of C or better in SOCWK 412 co-requisite SOCWK 419

Field instruction is an integral part of the social work curriculum and takes place during the last semester of the senior year. Field Instruction gives students an intensive opportunity to apply social work knowledge, values, and skills in practice situations in a social agency under the supervision of a social worker. Students practice within the generalist framework with individuals, families, groups, organizations and communities and spend 36 hours a week in the agency (a minimum total of 500 hours).

SOCWK 419  FIELD SEMINAR  3

Prerequisite: SOCWK 417; co-requisite SOCWK 418

A problem-solving seminar taken concurrently with Field Instruction in which students examine the social work knowledge base, practice skills, values, and policies as they relate to their experience in agencies. The seminar is designed to support and build upon agency experiences. As a part of the seminar, students complete the Montana Social Work Competence Written and Oral Examination.

SPANISH (SPAN)

SPAN 171  ELEMENTARY SPANISH I  3

Prerequisite: Placement or no prior study of Spanish. Note: Not open to students who placed in other levels.

A course designed to develop elementary interpersonal, interpretive and presentialational communication skills in the Spanish language in cultural context. Taught in Spanish. Offered annually. Meets Core credit for CCI.

SPAN 172  ELEMENTARY SPANISH II  3

Prerequisite: SPAN 171, placement or transfer equivalent. Note: Not open to students who placed in other levels.

A course designed to further develop elementary interpersonal, interpretive and presentialational communication skills in the Spanish language in cultural context. Taught in Spanish. Offered annually. Meets Core credit for CCI.

SPAN 200  INTERMEDIATE LEVEL INTENSIVE SPANISH STUDY ABROAD  3

Prerequisite: SPAN 172, placement or transfer equivalent. Note: Not open to students who placed in other levels.

A program designed to provide students with an intermediate-level immersion experience. Students will attend six hours of language instruction per day, participate in cultural experiences, and live with families of the host cultures. Orientation and debriefing sessions on campus are required. 6 hours, or 3 hours plus SPAN 271. Meets Core Credit for CCI.

SPAN 271  INTERMEDIATE SPANISH I  3

Prerequisite: SPAN 172, placement or transfer equivalent. Note: Not open to students who placed in other levels.

A course designed to develop intermediate interpersonal, interpretive and presentialational communication skills in the Spanish language in cultural context. Taught in Spanish. Offered annually. Meets Core credit for CCI.
SPAN 272  INTERMEDIATE SPANISH II  3
Prerequisite: SPAN 271, placement or transfer equivalent. Note: Not open to students who placed in other levels.
A course designed to further develop intermediate interpersonal, interpretive and presentational communication skills in the Spanish language in cultural context. Taught in Spanish. Offered annually. Meets Core credit for CCI.

SPAN 300  ADVANCED LEVEL INTENSIVE SPANISH STUDY ABROAD  3
Prerequisite: SPAN 272, placement or transfer equivalent. Note: Not open to students who placed in other levels.
A program designed to provide students with an advanced-level immersion experience. Students will attend six hours of language instruction per day, participate in cultural experiences, and live with families of the host cultures. Orientation and debriefing sessions on campus are required. Meets Core Credit for CCI.

SPAN 307  SPANISH PHONETICS  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
A course designed to provide a review of Spanish pronunciation and an introduction to phonetics and phonology, including the study of features of principal dialects and a contrastive analysis of Spanish and English sound systems. Language lab required. Taught in Spanish. Offered alternate years. Meets Core Credit for CCI.

SPAN 310  SPANISH GRAMMAR AND COMPOSITION  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
The course offers an intensive review and expansion of grammar and vocabulary. Students will apply the material studied and develop their written expression in Spanish through a writing and revising process that leads to portfolio assessment. Taught in Spanish. Offered annually. Meets Core Credit for CCI.

SPAN 311  CIVILIZATION OF SPAIN  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
In order to understand contemporary Spanish identity, this course explores and analyzes current issues, cultural manifestations, historical and geopolitical developments, and internal and external relations. The social organization and forces of Spain from ancient times to the present are examined with an emphasis on contemporary Spain. Taught in Spanish. Offered alternate years. Meets core credit for CCI.

SPAN 312  CIVILIZATION OF LATIN AMERICA  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
In order to understand contemporary Latin American identity, this course explores and analyzes current issues, cultural manifestations, historical and geopolitical developments, and internal and external relations. The social organization and forces of Latin America from ancient times to the present are examined with an emphasis on contemporary Spain. Taught in Spanish. Offered alternate years. Meets core credit for CCI.

SPAN 371  INTRODUCTION TO SPANISH LITERARY STUDIES  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
Introduction to the analysis of Spanish literary texts, including poetry, drama, fiction and essay. Reading selections will include authors from both Spain and Latin America. Taught in Spanish. Offered infrequently. Meets Core Credit for CCI.

SPAN 372  SURVEY OF SPANISH LITERATURE  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
A survey of the milestones of Spanish literature, from its beginnings to the present time. Taught in Spanish. Offered alternate years. Meets Core Credit for Humanities.

SPAN 373  SURVEY OF LATIN AMERICAN LITERATURE  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
A survey of the milestones of Latin American literature, from its beginnings to the present time. Taught in Spanish. Offered alternate years. Meets core credit for humanities.

SPAN 377  CONVERSATIONAL SPANISH I  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
Designed to provide the student with an opportunity to apply the grammatical concepts learned in the basic language program and to improve conversational fluency through oral exercises, discussions, and activities related to everyday situations. Taught in Spanish. Offered alternate years. Meets Core Credit for CCI.

SPAN 378  CONVERSATIONAL SPANISH FOR THE PROFESSIONS  3
Prerequisite: SPAN 200 or 272 or placement/transfer equivalent.
A project based course designed to provide the student with an opportunity to apply the grammatical concepts learned in the basic language program and to improve conversational fluency through oral exercises, discussions, and activities related to the profession of the individual student's intended major. Taught in Spanish. Offered annually. Meets Core Credit for CCI.

SPAN 381  PK-8 EDUCATION ABROAD  2
Prerequisite: SPAN 300
A course designed to increase the student's understanding of early childhood education in a Spanish-speaking country by providing intensive cultural and linguistic instruction as well as field experiences in elementary schools. Taught in Spanish. Required for early childhood education Spanish minor. Offered annually.

SPAN 476  SEMINAR IN HISPANIC STUDIES  3
Prerequisite: SPAN 311 or SPAN 312; SPAN 372 or SPAN 373
A seminar on topics pertinent to the field of Hispanic studies in language, culture, civilization or literature. The content will vary depending upon the interest and needs of students. The course may be repeated for a total of 6 hours. Taught in Spanish. Topics will vary or alternate each year. Offered annually.

SPAN 477  ADVANCED CONVERSATION AND COMPOSITION  3
Prerequisite: SPAN 310
A course designed for students to practice speaking Spanish, build specialized vocabulary necessary for communication, reinforce complex syntactic structures, and improve writing skills. Taught in Spanish. Offered infrequently.

SPAN 671  SEMINAR IN HISPANIC STUDIES  3
Prerequisite: Graduate standing, advanced-level proficiency in Spanish; previous undergraduate study of civilization and literature
A seminar on topics pertinent to the field of Hispanic studies in language, culture, civilization, or literature. The content will vary depending upon the interest and needs of students. The course may be repeated under a different topic for a total of 6 credit hours. Taught in Spanish. Offered annually.

SPAN 678  SPANISH PHONETICS  3
Prerequisite:
A study of pronunciation aided by the use of the International Phonetic Association Symbols, with a survey and practice of Latin American and Iberian variations of speech.
THEATRE (TH)

TH 100 THEATRE PRACTICUM 0
Prerequisite: None
This is a studio course for students participating in Theatre Department productions directed by faculty or guest artists. Students participate in one of three areas as: a) performers, b) run crew/designers and c) managers. May be repeated.

TH 109 DANCE I: INTRODUCTION TO DANCE 1
Prerequisite: None
An introduction to dance skills for the theatre. Students will learn fundamentals of ballet, jazz, and tap, and explore the careers of musical theatre dancers. May be repeated once.

TH 150 THEATRE PRODUCTION LABORATORY 1
Prerequisite: None
This is a laboratory course for students gaining practical experience while working on theatre department productions directed by faculty or guest artists. There are six laboratory areas: costume construction, lighting, scene painting, properties, scenic construction, and publicity. May be repeated.

TH 203 THEATRE AESTHETICS 3
Prerequisite: None
Students will examine ways in which theatre art and theatre artists suggest meaning and invite interpretation of the human experience. Critical standards and theories specific to theatre will be discussed and then applied to the study of selected play scripts and performances. Meets Core credit for aesthetics.

TH 204 SCRIPT ANALYSIS 3
Prerequisite: None
This course introduces students to methods of script analysis or how to read a play. Analysis will focus on dramatic structure, content and meaning from a theatrical point of view and will be based on principles established by Aristotle in the Poetics. Methods of script analysis will be discussed and applied to representative play scripts. Meets Core credit for aesthetics.

TH 207 THE VISUAL ART OF THEATRE 3
Prerequisite: None
The course offers the opportunity to learn, develop and practice the art of set, costume and lighting design. Students are required to critically analyze all visual and other sensory aspects of a live production. The course concentrates specifically on the processes, skills and disciplines of design for performance- the handling of forms, textures and colors in real, fictional and metaphorical spaces. Students will read several play scripts and work to discover the metaphors within. They will examine ways in which theatre design can suggest meaning and interpretation of the script. Meets Core credit for aesthetics.

TH 209 DANCE II: BALLET 1
Prerequisite: TH 109 or permission
Ballet concentration class building on fundamentals presented in TH 109. Classroom performance, demonstration of knowledge of ballet vocabulary, and development of ballet skills are stressed. Using ballet technique, lyrical styles of movement will also be explored. Students will explore the careers of Broadway choreographers who use this style. May be repeated once.

TH 210 DANCE III: TAP 1
Prerequisite: TH 209 or permission
Tap concentration class building on fundamentals presented in TH 109. Classroom performance, demonstration of knowledge of tap vocabulary, and development of tap skills are stressed. Students will explore the careers of Broadway choreographers who use this style. May be repeated once.

TH 211 BASIC ACTING TECHNIQUE 3
Prerequisite: For Theatre majors and minors only
An introduction to the acting system of Konstantin Stanislavski. A strong emphasis on practical aesthetics of acting. Students will discover the importance of using voice, body, and character analysis techniques when performing.

TH 212 BUILDING ACTING TECHNIQUE 3
Prerequisite: TH 211
A more in depth study of Stanislavski’s system and how an actor prepares for a performance. A stronger emphasis is placed on the development of the actor’s inner psychological drives and the actor’s creative state. Students will continue training the skills gained in TH 211.

TH 214 ACTING FOR NON-MAJORS 3
Prerequisite: None
This course is a study of acting as an art form. It emphasizes an acting process and skills utilized by the beginning actor. The approach to acting is grounded in contemporary acting theory and practice. Meets Core credit for aesthetics.

TH 241 INTRODUCTION TO TECHNICAL THEATRE I 3
Prerequisite: None
The course is an interactive introduction to basic techniques of technical theatre and theatre operations. It covers basic scenic, properties, and costume construction, reading the associated construction drawings, as well as basic scene painting techniques. Lab hours required.

TH 242 INTRODUCTION TO TECHNICAL THEATRE II 3
Prerequisite: TH 241
The course is an interactive introduction to more advanced techniques of technical theatre and theatre operations. It covers intermediate scenic construction, basic stage lighting, and traditional make-up application, as well as basic drafting techniques for theatre. Lab hours required.

TH 303 AMERICAN MUSICAL THEATRE 3
Prerequisite: None
This course is an exploration of the development of the Broadway musical during the twentieth century. Representative musicals will be examined in terms of style, elements, and structure in order to identify criteria for aesthetic evaluation. The contributions of the major musical theatre artists and practitioners of the 20th century will be discussed as they relate to the evolution of this uniquely American theatrical form. Meets Core credit for aesthetics.

TH 305 TOPICS IN PERFORMANCE 3
Prerequisite: None
This course will examine various topics relating to theatre performance. Repeatable with different topics, but only three hours count toward the major.

TH 306 TOPICS IN THEATRE DESIGN/TECHNOLOGY 3
Prerequisite: None
This course will examine various topics relating to theatre design and technology. Repeatable with different topics, but only three hours count toward the major.

TH 308 VOICE AND MOVEMENT FOR THE PERFORMER 3
Prerequisite: None
A studio class designed to train the voice and body for performing. Intensive exercises focus on the physical embodiment of the performer—the voice and body trained simultaneously with a variety of techniques. Students will reduce habitual tensions in voice and movement in order to heighten range when performing.

TH 309 DANCE IV: JAZZ 1
Prerequisite: TH 109 or permission
Jazz concentration class building on fundamentals presented in TH 109. Classroom performance, demonstration of knowledge of jazz vocabulary, and development of jazz skills are stressed. Students will explore the careers of Broadway choreographers who use this style. May be repeated once.

TH 313  ACTING STYLES  3
Prerequisite: TH 211, 212
A continuation of study into the Stanislavski system and the process of Building a Character for a performance. Emphasis is placed on Stanislavski’s physical embodiment techniques. A study in constructing characters from various dramatic styles and historical periods through research and performance is emphasized.

TH 321  ARTS MANAGEMENT  3
Prerequisite: None
A study of arts management principles and techniques. Attention will be given to each of the major functions of arts managers, including organization, planning, board governance, human resources, programming, marketing, financial management, fundraising, evaluation, and advocacy.

TH 326  STAGE MANAGEMENT  3
Prerequisite: None
This course is an investigation of the role of the stage manager in the theatrical production. Students will explore all of the organizational and communication skills needed to excel in this position. Course will culminate in both a written and practical exercise of skills.

TH 341  PRODUCTION DESIGN I  3
Prerequisite: TH 207, 241, 242
Students will explore styles and methods of scenic and lighting design for theatrical productions. This course will also focus on the collaborative process of working and communicating with directors and other fellow collaborators. May be repeated.

TH 342  PRODUCTION DESIGN II  3
Prerequisite: TH 207, 241, 242
Students will explore styles and methods of costume and makeup design for theatrical productions. Continued practice in drawing and rendering techniques will be stressed. Advanced stage makeup application techniques, as well as the relationship of makeup to developing a character will also be covered. May be repeated.

TH 404  MODERN DRAMATIC STYLES  3
Prerequisite: TH 204; 418 or 419
How have the events of the 20th century influenced drama and performance? How have theatre artists responded to the events of the 20th century? The social, cultural, political, and technological events of the 20th century have inspired numerous styles and movements in theatre. This course examines the drama, performance styles and theories for the early Modern Period through the present.

TH 405  MUSICAL THEATRE PERFORMANCE  3
Prerequisite: TH 211, MUSIC 211, 2 semesters of MUSIC 140 or 340
A workshop course where students examine the craft and techniques of acting a song. Students will study and prepare musical theatre selections and learn audition techniques with a variety musical theatre styles and genres.

TH 411  DIRECTING  3
Prerequisite: TH 211
A study of the functions of the director as an administrator, interpreter, and artist. Attention will be given to the director’s relationship with the playwright, the actor, the technical staff and the audience.

TH 418  HISTORY OF THEATRE I  3
Prerequisite: TH 204
A survey of the periods, practices and theories of the theatre. Covers ancient Greeks to Neoclassical France (mid 1600s).

TH 419  HISTORY OF THEATRE II  3
Prerequisite: TH 204
A survey of the periods, practices and theories of the theatre. Covers the English Restoration (1660) to the present day.

TH 499  SENIOR PROJECT  3
Prerequisite: Senior standing, approval of advisor, and prior approval of a prospectus by faculty one semester in advance of registration
An activity that integrates the student's theatrical experiences and studies at A.U. The project should be of great interest to the student and should provide sufficient depth and rigor to help guide the student to the next professional or academic step. The student conceives, creates, and presents theoretical or executed theatrical productions as part of the requirements for graduation.
Faculty Awards

**Trustees’ Distinguished Professor**

Ashland University Board of Trustees honors very select professors with the title and position of Trustees Distinguished Professor. The election of an Ashland University faculty member to this position brings honor to the individual, the profession of teaching, the faculty in general, and the University. This honor is to be worn with academic dignity as a leader among faculty and students. This position should allow and encourage the faculty member to advance the profession of teaching, accomplish special research and writing, and exhibit leadership in the faculty and in higher education in general. This person should believe and exemplify that the education of the mind and heart of each student is the epitome of civilization. The Trustees Distinguished Professor must at all times uphold the mission and purpose of Ashland University.

The selection for this position shall be by a Trustees Distinguished Professor Committee composed of the Chair of the Board of Trustees, a representative from the Academic Affairs Committee of the Board of Trustees, the President of the University, the President of the Faculty Senate, and the Provost.

**Academic Mentor Recognition**

The award is given annually to selected faculty/staff members who have stimulated the personal growth and academic development of Ashland University students by their contributions beyond the classroom experience. Senior undergraduates and graduate students who have completed 75% of their program are invited to nominate an individual faculty member, staff person, or academic administrator for the Mentor Award. Judges for this award are the Academic Affairs Committee of the Board of Trustees, and they make the selection based on blind review of nominees and candidates. The maximum number of Mentor Awards made each year is eight, of which no more than two may be adjunct faculty.

**Taylor Excellence in Teaching Award**

By mission, AU is a teaching university that supports the development of teacher-scholars among its faculty.

Through a gift by Mr. and Mrs. Ed Taylor, this annual award is given to a faculty member to recognize in-class and outside-of-class teaching excellence. Faculty are nominated by students, faculty or department chairs. Nominations consist of a one-page letter citing specific examples of exemplary teaching.

Nominated teachers who intend to be considered in the next round of reviews are asked to supply all student evaluations (numerical and written) for the past two calendar years and provide a statement of their teaching philosophy which is submitted to the Provost’s Office. A Committee consisting of previous Taylor Excellence in Teaching Award winners will review the submitted materials and narrow the applications down to three finalists. The Committee will make an announced classroom visit to observe each of the three finalists in teaching. Based on the teaching evaluations and the other supporting material, the committee will determine the award winner. The recipient will receive a medal to be worn with regalia and a stipend of $5000.00 at the annual Academic Honors Convocation. The recipient will speak at that convocation on the importance of teaching and learning in higher education and will conduct a session on effective teaching at the Winter Faculty College. Honorable Mention certificates will be awarded to the two finalists who were not selected.

**Ashland University Excellence in Scholarship Award**

The Ashland University Excellence in Scholarship Award recognizes AU faculty who have demonstrated outstanding scholarship. All Ashland University faculty who have completed their Third Year Review may be nominated for the Award. Faculty, department chairs or deans may submit letters of nomination to the Provost’s Office.

Nomination shall consist of a nomination letter citing specific examples of outstanding scholarship. The Provost shall contact the nominated faculty to verify their interest and require additional material to include; a complete vita, a statement that describes the impact of scholarship in the field, three letters of recommendation from internal or external sources. Letters of recommendation may not come from the selection committee. A committee consisting of the Provost or representative and four faculty members who have been named Trustees Distinguished Professors will review submitted materials and narrow the application to three finalists. Based on the submitted materials and the review of external experts, the Committee will select an award winner. The recipient will receive a medal to be worn with regalia and a $5000.00 honorarium. Honorable Mention certificates will be awarded to the two finalists who were not selected.
## Personnel

### Board of Trustees
- **Dr. Carlos Campo**, President

### Officers of the Board
- **Joyce A. Lamb**, Chair
- **Fred B. Broad**, Vice Chair
- **Gary L. Courtright**, Secretary
- **Thomas H. Pickering**, Assistant Secretary

### Term Expiring 2017
- **Ronald B. Alford**, At Large, Worthington, OH
- **Mark E. Camp**, At Large, Medina, OH
- **Gary L. Courtright**, At Large (Church), Ashland, OH
- **Kevin L. Doss**, At Large (Church), Avon, OH
- **Patricia M. Gravatt**, At Large (Church), McGeheysville, VA
- **Dustin J. Hess**, At Large, Huron, OH
- **Vaughn L. Nickell**, At Large (Church), Elkhart, IN
- **Thomas H. Pickering**, At Large, Westfield Center, OH
- **Timothy L. Solomon**, At Large (Church), Sarasota, FL
- **Dale R. Thomas**, At Large (Church), Ashland, OH
- **Thomas Whatman**, Ashbrook, Bellville, OH
- **Charles A. Wiltrout**, At Large (Church), Dayton, OH
- **Robert G. Ward II**, At Large

### Term Expiring 2018
- **Thomas A. Auran**, At Large (Church), Johnstown, PA
- **Christopher D. Boyd**, At Large (Church), Ashland, OH
- **Brenda K. Dean**, At Large, Upper Arlington, OH
- **Charles H. Gamble**, At Large (Church), DeGraff, OH
- **L. Jonathon Groza**, At Large, Avon Lake, OH
- **James H. Hess**, At Large (Church), Ashland, OH
- **Deborah Liebert Karl**, At Large, Powell, OH
- **David B. Krill**, At Large, Cincinnati, OH
- **Joyce A. Lamb**, At Large (Church), Hartville, OH
- **P. Thomas Murray**, Jr., At Large (Church), Indianapolis, IN
- **Jeff Payton**, At Large, Mansfield, OH
- **Alan D. Roth**, At Large, Amelia Island, FL

### Presidents of Ashland University
- **Elder S. Z. Sharp**, 1879-1880
- **Elder Robert Miller**, 1880-1882
- **** Rev. J. E. Stubbs**, 1882-1883
- **** Rev. Elijah Burgess**, 1884-1885
- **Rev. Frank Hixson**, 1884-1885
- **Rev. A. E. Winters**, 1884-1885
- **Rev. W. C. Perry**, 1885-1887
- **Mr. William Felger**, 1887-1888
- **Mr. C.W. Mykranitz**, 1891-1893
- **Dr. S. S. Garst**, 1894-1896
- **Dr. J. A. Miller**, 1897-1898
- **Rev. J. C. Mackey**, 1897-1898
- **Dr. J. A. Miller**, 1899-1906
- **Dr. W. D. Furry**, 1911-1919
- **Dr. Edwin E. Jacobs**, 1919-1935
- **Dr. C. L. Anspach**, 1935-1939
- **Dr. E. G. Mason**, 1939-1945
- **Dr. R.W. Bixler**, 1945-1948
- **Dr. Glenn L. Clayton**, 1948-1977
- **Dr. Arthur L. Schultz**, 1977-1979
- **Dr. Joseph R. Shultz**, 1979-1992
- **Dr. Walter Waetjen**, 1992-1993
- **Dr. G. William Benz**, 1993-2006
- **Dr. Frederick J. Finks**, 2006-2014
- **Dr. William C. Crothers**, 2014-2015
- **Dr. Carlos Campo**, 2015-

*Principals
**Nominals
Academic Chairs at Ashland University
A. L. Garber, Chair in Economics
Robert S. Jepson, Jr., Chair in Business Administration

Deans
BREAULT, DONNA 2016
Dean, College of Education,
B.A., M.A., Oglethorpe University; Ph.D. Georgia State University

GRANOT, ELAD 2016
Dean, College of Business and Economics
B.A., Tel Aviv University; M.S., Boston University; Ph.D., The University of Massachusetts, Amherst

GRUND, FAYE 2010
Dean, Schar College of Nursing and Health Sciences
B.S., M.S., Virginia Commonwealth University; APRN, University of Akron; Ph.D. Duquesne University

JACOBS, MIGNON 2017
Academic Dean and Chief Academic Officer, Ashland Theological Seminary
B.A., Bethel University; M.Div., Fuller Theological Seminary; Ph.D., The Claremont Graduate University

JACOBS, RAYMOND A 1990
Associate Dean, Dauch College of Business and Economics; Chair, MBA Program; Professor of Management
B.A., College of William and Mary; M.S., Ph.D., University of North Carolina

LINTON, EUGENE 2016
Dean, Founders School of Continuing Education
B.S. Kent State University; M.Ed., Bowling Green State University; Ph.D. Kent State University

MOSEMAN, CINDY C. 1988
Assistant Dean, College of Arts and Sciences, Assistant Professor of Family and Consumer Sciences
A.A., Anderson College; B.S., M.S., The Ohio State University; Ph.D., Kent State University

WEBER, DAWN 2008
Dean, College of Arts and Sciences
B.S., M.A., Central Michigan University; Ph.D., Bowling Green State University

Faculty
ABREU-ELLIS, CARLA 2007
Professor of Education, Director of Field Experience and Internships
B.S., University of Toronto; M.Ed., Ph.D., Bowling Green State University

ADAMS, BONNIE K. 1989
Associate Professor of Education, Director of Quality Assurance and Accreditation
B.S., M.Ed., Ph.D., Kent State University; M.S., Carnegie Mellon University

AJWA, IYAD A. 1997
Chair, Department of Mathematics and Computer Science; Professor of Computer Science
B.S., University of Jordan; M.S., Lehigh University; Ph.D., Kent State University

ALSTON, JUDY 2007
Professor of Education
B.A., Winthrop College; M.Ed., University of South Carolina; Ph.D., Pennsylvania State University

ARNOLD, PENNY 1996
Associate Professor of Education
B.S., M.S., Ph.D., University of Akron

AUNE, DAVID C. 1996
Associate Professor of Religion
B.A., University of Vermont; M.Div., Gordon-Conwell Theological Seminary; Th.M., Regent College; Ph.D., Brown University

BENSAID, MOSHINE 2013
Professional Instructor of ACCESS
B.A., Dennison University, M.A., Kent State University
BERGOSH, ROBERT 2005
Associate Professor of Chemistry
B.S., Kentucky Wesleyan College; Ph.D., University of Kentucky

BERRYMAN, JERI 2013
Clinical Assistant Professor of Nursing
A.D., Regents College, B.S.N., Ohio State University, M.S.N., Indiana Wesleyan University

BILLMAN, LINDA K. 1997
Co-Chair, Department of Advanced Programs, Associate Professor of Education
B.S., The Ohio State University; M.Ed., Ashland University; Ph.D., University of Akron

BIRD, MICHAEL 2015
Professional Instructor of Art

METZGER, MITCHELL  2003
Chair, Department of Psychology, Criminal Justice, and Social Work; Professor of Psychology
B.S., Bowling Green State University; M.A., Ph.D., Kent State University

MICHAEL, RODNEY A.  1997
Associate Professor of Physics
B.S., Xavier University; Ph.D., Ohio University

MOHNEY, BRIAN K.  1999
Professor of Chemistry
B.S., Eastern Nazarene College; Ph.D., University of Pittsburgh

MOHNEY, TRINA M.  2011
Professional Instructor of Chemistry
B.A., Eastern Nazarene College; M.Ed., University of Pittsburgh

MONDAL, SHARLEEN  2011
Associate Professor of English
B.A., Texas A&M University; M.A., Ph.D., University of Washington

MORETZ, DIANE B.  1988
Assistant Professor of Marketing
B.S., Ohio University; M.B.A., Ashland University

MOSER, JOHN  2001
Director, Graduate School; Professor of History
B.A., B.S., Ohio University; M.A., Ph.D., University of Illinois at Urbana-Champaign
MURRAY, AMBER 2017
*Assistant Professor of Health Sciences, Public Health Program Director*
B.S.N., M.S., M.P.H., DNP, The Ohio State University

MULLEN, B. SUE 2016
*Professional Instructor of Accounting*
B.A., Baldwin-Wallace University; M.B.A., Ashland University

NADLER, MARK A. 1989
*A.I. Garber Family Chair in Economics/Finance; Associate Professor of Economics*
B.B.A., Bernard M. Baruch College; Ph.D., Iowa State University

O'HARA, KATE 2015
*Visiting Assistant Professor Mathematics*
B.S., University of Dayton; M.A.T., Monmouth University; Ed.D., Rutgers

OLIVE, JAMES L. 2010
*Co-Chair, Department of Doctoral Studies and Advanced Programs, Associate Professor of Education*
B.S.Ed., The Ohio State University; M.S., Ph.D., University of Dayton

ORR, SHAWN 2016
*Interim Chair Communication Studies; Director Faculty Services, COAS and Director Center for Innovation and Teaching Excellence*
M.A., Communication, Bowling Green State University; B.A., Interpersonal and Public Communication, Bowling Green State University

O'ROURKE, DANIEL III 1994
*Associate Professor of Communication Studies*
B.A., Youngstown State University; M.A., Bowling Green State University; Ph.D., Purdue University

OWENS, JACQUELINE 2003
*Associate Professor of Nursing; Director of RN-BSN Program*
Diploma of Nursing, Trumbull Memorial Hospital School of Nursing; B.S.N., Ashland University; M.S.N., Ph.D.; Kent State University

PADDAGS, RENE 2010
*Associate Professor of Political Science*
B.A., University of North Dakota; M.A., University of Erlangen-Nurnberg; M.A., Johns Hopkins University; Ph.D., University of Maryland, College Park

PARKER, ROBERT SEAN 2016
*Assistant Professor of Theatre*
B.F.A., Western Carolina University, M.F.A., University of Idaho

PARSONS, JENNIFER 2009
*Associate Professor of Sport Management*
B.A., Wittenberg University; M.S., Arizona State University; Ed.D., Ashland University

PATTON, BETH J. 1998
*Associate Professor of Health Sciences*
B.S.Ed., University of Akron; L.P.N., St. Joseph’s School of Practical Nursing; M.S.Ed., University of Akron; Ph.D., Kent State University

PINKHAM, JEFFREY 2000
*Faculty Librarian*
B.A., M.A., M.A., University of Wisconsin-Madison

PITTENGER, KHUSHWANT K. SIDHU 1987
*Professor of Management; Jepson Endowed Chair; Director of COBE Internships*
B.A., Graduate Degree in International Trade, Panjab University, India; M.B.A., Miami University; Ph.D., University of Cincinnati

POSNER, MASON 1999
*Chair, Department of Biology/Toxicology; Professor of Biology*
B.A., University of Virginia; M.S., Ph.D., University of Southern California

RANDALL-GRIFFITHS, DELEASA 1994
*Associate Professor of Communication Studies, Director of Online Communication Studies Program*
B.A., Indiana University; M.S., Ph.D., Southern Illinois University

RATHBUN, JENNIFER 2007
*Chair, Department of Foreign Languages; Professor of Foreign Languages*
B.A., M.A., Wichita State University; Ph.D., University of Arizona

RAWRAWAY, RENE 1986
*Assistant Professor of Hospitality Management*
A.O.S., Culinary Institute of America; B.S.B.A., M.B.A., Ashland University

REECE, CAROL 2010
*Clinical Assistant Professor Of Nursing*
B.S.N., Ashland University; M.S., The Ohio State University, D.N.P. Case Western Reserve

REEDE, DENISE 2013
*Clinical Assistant Professor Of Dietetics*
B.S. The Ohio State University, M.S., The Ohio State University

REEF, THOMAS T. 1986
*Chair, Department of Music and Department of Theatre, Professor of Music*
B.Mus., University of Michigan; M.M., University of Akron; D.M.A., The Ohio State University
REESE KLINE, JUANITA 2010
Chair, Department of Nursing; Associate Professor of Nursing, Traditional and Advanced Entry Nursing Program Director
B.S., M.S., The Ohio State University; Ph.D., Kennedy Western University

RODRIGUEZ, DARIELA 2012
Associate Professor of Communication Studies
B.A., M.A., The University of Texas at San Antonio; Ph.D., The University of Oklahoma

ROGGENKAMP, PRISCILLA 2005
Associate Professor of Art
B.A., Heidelberg College; M.Ed., University of Arkansas; M.F.A., Kent State University

ROMANO, DEANNA 2000
Associate Professor of Education
B.S.Ed., M.Ed., Cleveland State University; Ph.D., Nova Southeastern University

RONK, SUE ELLEN 1986
Faculty Librarian; Cataloging Librarian
B.A., Ashland University; M.L.S., University of Illinois

ROSbler, BRENDa 2007
Associate Professor of Education
B.A., Kent State University; M.A., Malone College; Ph.D., Kent State University

ROSSI, ALISON 2016
Professional Instructor of Fashion Merchandising
B.A., Walsh University; M.A. Kent State University

RUBIN, MARK 2017
Director, Online Criminal Justice Program; Professional Instructor of Criminal Justice
B.S., University of Houston; M.Ed. Western Governors University; Ph.D., Capella University

RUMKER, TERRY E. 1989
Assistant Professor of Finance
B.A., M.B.A., Ashland University; CFP

RUSSELL, JEFFREY E. 2000
Associate Professor of Economics
B.S. University of California at Davis; M.M. Northwestern University; Ph.D., University of Oregon

SARGENT, MARIA C. 1995
Professor of Education
B.S., M.Ed., Ph.D., Kent State University

SASLAW, NAOMI RUTH 1969
Professor of English
B.A., University of Michigan; M.A., Ph.D., Case Western Reserve University; J.D., Cleveland-Marshall College of Law

SAUNDERS, PATRICIA A. 2002
Director, Environmental Science Program; Associate Professor of Biology
B.A., Oberlin College; M.A., Indiana University; Ph.D., University of Georgia

SCHALLER, WENDY 2002
Associate Professor of Art
B.A., University of Tennessee; M.A., Ph.D., The Ohio State University

SCHILLINGER, DANIEL 2017
Visiting Assistant Professor of Political Science
B.A. Carleton College; Ph.D., University of Toronto

SCHMELLER, REBECCA 2013
Professional Instructor of Management
B.A., Louisiana State University, M.B.A., Pepperdine University

SCHMIDT-RINEHART, BARBARA 1987
Professor of Foreign Languages
B.A., Ohio University; M.Ed., Ashland University; Ph.D.; The Ohio State University

SCHRECKER, DIANE L. 2000
Faculty Librarian; curriculum Librarian
B.S.Ed., Clarion University of Pennsylvania; M.L.I.S., University of Pittsburgh

SEE, SHARON 2010
Clinical Assistant Professor of Nursing
B.S.N., MedCentral College of Nursing; M.S.N., Otterbein College

SHARPE, TANZEAH 2005
Assistant Professor of Education
B.A., Walsh University; M.Ed., Ashland University; Ed.D., Ashland University

SIKKENGA, JEFFREY 1997
Professor of Political Science
B.A., University of Virginia; M.A., Ph.D., University of Toronto

SIMOKAT, KRISTIN 2013
Visiting Assistant Professor of Biology/Toxicology
B.A., Wesleyan University, Ph.D. University of Wisconsin-Madison

SLADE, PETER G. 2006
Co-Chair, Departments of Religion and Foreign Languages; Professor of Religion
B.D., University of St. Andrews; M.A., University of Mississippi; M.A., Ph.D., University of Virginia

Personnel

315
STANISLO, KIMBERLY 2015
Clinical Assistant Professor of Nursing; Director of School Nursing Program
B.S Mount Union College, M.S.N., Case Western Reserve University

STERNES DAMOFF, MELESSA 2010
Clinical Assistant Professor of Nursing
B.S., Ashland University; M.S., Walden University

STEVENS, JASON 2015
Visiting Assistant Professor of History and Political Science
B.A., Ashland University; M.A., Ph.D., University of Dallas

STOLL, ROBERT G. 2012
Chair, Department of Management/International Business/Entrepreneurship/Supply Chain Management; Assistant Professor of Management
B.S., M.B.A., Rochester Institute of Technology, M.S., Case Western Reserve University, Ph.D., Cleveland State University

SULLIVAN, DANIEL W. 2010
Associate Professor of Entrepreneurship
B.A., University of Pittsburgh; M.B.A., Indiana University of Pennsylvania; J.D., University of Akron School of Law; Ed.D., Ashland University

SWAIN, GORDON 1994
Professor of Mathematics
B.S., Eastern Nazarene College; M.S., University of Vermont; Ph.D., University of Massachusetts

SWANSON, CHRISTOPHER N. 1999
Director, Honors Program; Professor of Mathematics
B.S., Denison University; M.S., Ph.D., University of Michigan

TAWSE, MERRILL 2010
Professional Instructor of Biology
B.S., Calvin College; M.S., University of Nebraska-Lincoln

THIEDE, ROBERT 2007
Assistant Professor of Education
B.S., M.Ed. Bowling Green State University; Ph.D. University of Toledo

TRIMBLE, ANDREW J. 2009
Associate Professor of Biology/Toxicology
B.S., Ph.D., Southern Illinois University

UDOLPH, NANCY J. 1988
Associate Professor of Social Work, Field Director
B.S., University of Illinois; M.S.S.W., University of Wisconsin

UNGERER, JESSICA 2016
Clinical Assistant Professor of Nursing
B.S.N. MedCentral College of Nursing; M.S. Chamberlain College of Nursing

VANATA, DAVID F. 2002
Director of Dietetics, Associate Professor of Health Sciences
B.S., Richard Stockton College; M.S., Florida State University; Ph.D., University of North Carolina Chapel Hill

VAUGHAN, WILLIAM 1995
Professor of Philosophy
B.A., M.A., Case Western Reserve University; M.A., Ph.D., University of Illinois

VENKATARAMANY, SIVAKUMAR 1999
Professor of International Business; Burton D. Morgan Chair
M.B.A., M.S., Ph.D., University of Miami

VIMONT, MICHAEL 2010
Program Director of Social Work and Family Studies; Associate Professor of Social Work
B.S.W., M.S.S.W., University of Texas; Ph.D., Case Western Reserve University

WALLIA, NITIN P. 2010
Associate Professor of Information Systems
B.C., Panjab University, India; M.C.M., University of Pune, India; M.S.I.T., Oakland University; Ph.D., University of Wisconsin-Milwaukee

WALLEY, CARL W. 1989
Professor of Education
B.S., Ashland University; M.Ed., University of Vermont; Ph.D., Kent State University

WALTERS, HOWARD 2003
Professor of Education
B.A., Spurgeon Baptist Bible College; B.A., M.Ed., University of West Florida; Ed.D., University of Southern Mississippi

WANG, HONGXIA 2009
Associate Professor of Finance
B.S., Henan College of Education, Zhengshou, China, M.B.A., Indiana University; Ph.D., Southern Illinois University

WASNICH, WENDY S. 1985
Associate Professor of Economics
B.A., University of Toledo; M.A., The Ohio State University

WATERMAN, JAYNE E. 2006
Associate Professor of English
B.A., University of East Anglia; M.A., Ph.D., University of Leeds

WEAVER, RUSSELL M. 1986
Professor of English
B.A., Tulane University; M.A., Ph.D., University of Chicago
WEIDENHAMER, JEFFREY D. 1989
Trustees Professor; Professor of Chemistry
B.S., Ashland University; M.S., The Ohio State University; M.S., Louisiana State University; Ph.D., The University of South Florida

WESTERFELT, DEBRA 2007
Associate Professor of Management
B.S., Ashland University; M.A., Ph.D., The Ohio State University

WICK, DARREN D. 2000
Professor of Mathematics
B.S., Purdue University; M.S., Utah State University; Ph.D., University of Oregon

WILLIS, VICTORIA 2016
Clinical Assistant Professor of Nursing
A.D., North Central State College; B.S.N., Ohio University; M.S.N., Ursuline College

WOLF, BRIANNE 2017
Director, Political Economy Program; Assistant Professor of Political Science
B.A., Michigan State University; M.A., University of Chicago; M.A., Ph.D., University of Wisconsin-Madison

WOOD-MORTON, JACALYN K. 1989
Professor of Education
B.A., Georgetown College; M.S., The Ohio State University; Ph.D., Miami University

YOUNG, LISA 2010
Assistant Professor of Nursing
B.S.N., Pensacola Christian College; M.S., The Ohio State University; DNP, Duquesne University

ZINGALE, BARBARA 2017
Adjunct Professional Instructor
