Post-Observation Lesson Reflection
Must be completed within 24 hours and submitted to your supervisor

Based on the formative assessment data, how successful was the lesson? What commonalities did you identify from this data? Did the students achieve the learning target? What will you do for those students who did not achieve the learning target criteria? For those students who exceeded the criteria?

In addition to the student work witnessed by the observer, identify any other student work samples, evidence or artifacts that assisted you in making your determination regarding student achievement.

To what extent did classroom procedures, student conduct, and/or physical space contribute to or hinder student learning?

Did you depart from your plan? If so, why and how?

What changes would you make if you would to teach this lesson again? What evidence informed the changes?

What do you see as the next step in your professional growth for addressing the needs you have identified through personal reflection?
