**Student Parking
Regulations
2025-2026**

Introduction

The parking regulations for Ashland University are designed to ensure fair and responsible use of campus parking by all members of the university community. These rules are in effect at all times, including weekends and during breaks, and are enforceable 24/7. All students who register a vehicle agree to abide by these regulations.

All residential and commuter students attending classes on campus are required to register their vehicles each academic year. Vehicle registration signifies acknowledgment of these regulations and agreement to follow them.

Ashland University is not responsible for any damage to or theft from vehicles parked on university property. Registration does not imply liability for incidents involving your vehicle.
