

ALAS Registration in Elevate

Ashland University uses Elevate for ALAS registration. Open your ALAS registration link, choose the option that matches your participation plans, and follow the directions below to sign in or create an account.

Returning ALAS participants

If you already have an Elevate account, select the gray Sign In button shown near the bottom of the screenshot. Log in with your Elevate username and password, then continue your ALAS registration.

Important: Your Elevate credentials are separate from your Ashland University portal or Self-Service login. Having attended ALAS before does not necessarily mean you have an Elevate account. If you have never used Elevate, follow the new account instructions below.

New to ALAS or Elevate

1. Enter your First Name, Last Name, and Email Address in the Create Account fields. Use an email address you check regularly.
2. Click the purple New Account button.
3. Follow the prompts to finish setting up your account, then continue your ALAS registration.

Remember: Creating an account alone does not complete your ALAS registration. Continue through the registration process after setting up your account.

ASHLAND UNIVERSITY

Create Account

For new Elevate account, click "New Account" below. This is different from Ashland University portal.

* First Name
[Text Field]

* Last Name
[Text Field]

* Email Address
