

WHAT TO DO IF YOU HAVE COVID-19

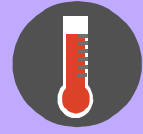

Regardless of Symptoms or Vaccination Status

- Contact Student Health Center**

Isolate away from others (you will need to reside in your isolation location for 10 full days after symptom onset - or positive test date if you don't have symptoms)

On the 5th day of your isolation- Please contact Student Health Center for a screening to determine your status. Depending on your situation you may be permitted to attend classes wearing a well fitting N-95 or surgical mask (cloth masks or gaitors are not acceptable) at all times during the subsequent isolation days.

- Has the **Student Health Center** (419.289.5200) advised you that you may attend classes?*

YES

NO

- Attend class wearing a well fitting N-95 mask - but do not attend activities that a mask cannot be worn.
- Do not eat with others - return to your isolation location for meals and for sleeping until the end of your isolation.
- After isolation you may return to your normal dorm room and Covid- 9 safe practices prior to isolation.

- Continue remote learning
- Follow Student Health Center guidance and the return to campus plan.

If you at any point throughout the partial release - return to your isolation space and notify the Student Health Center

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19**

And, Your COVID-19 Vaccines Are Up-to-Date
Contact the Student Health Center

❖ If you received a booster dose of any COVID-19 vaccine.

or

❖ If you completed the primary series* of Pfizer or Moderna vaccine less than 5 months ago

or

❖ If you completed the primary series* of Johnson & Johnson vaccine less than two months ago.

For
10
days

- Wear a mask around others for 10 days after your last exposure.
- Recommended that you take a test to confirm you do not have the virus on day 5.
- If you develop symptoms or test positive, contact the Student Health Center and self isolate

If you tested positive for COVID-19 in the 90 days before your exposure.

- Wear a mask around others for 10 days.
- If you develop symptoms contact the Student Health Center and self isolate

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19**

And, You are Unvaccinated or Your Vaccines Are Not Up-to-Date
Contact the Student Health Center

❖ If you are unvaccinated or only received one dose of Pfizer or Moderna.

or

❖ If you completed the primary series* of Pfizer or Moderna vaccine more than five months ago and have not received your booster.

or

❖ If you completed the primary series* of Johnson & Johnson vaccine more than two months ago and no booster.

For
10
days

- Quarantine from others for 10 days after your last exposure.
- Recommended that you take a test to confirm you do not have the virus on day 5.
- If you develop symptoms or test positive, contact the Student Health Center and self isolate

*A primary series consists of one dose of Johnson & Johnson vaccine; or two doses of Moderna or Pfizer vaccine; or three doses of Moderna or Pfizer vaccine if you received an additional dose because you are immunocompromised.
